 # 64635 lumbar or sacral, single facet joint

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* Jun 12:10, Jul 12:6, 14, Sep 12:14, Apr 13:10, Feb 15:9, Apr 19:9, Dec 19:8, May 20:14, Dec 20:13
- *Clinical Examples in Radiology* Winter 25:17

(For bilateral procedure, report 64635 with modifier 50)

#+ 64636 lumbar or sacral, each additional facet joint (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* Jun 12:10, Jul 12:6, 14, Sep 12:14, Apr 13:10, Feb 15:9, Apr 19:9, May 20:14, Dec 20:13
- *Clinical Examples in Radiology* Winter 25:17

(Use 64636 in conjunction with 64635)

(For bilateral procedure, report 64636 twice. Do not report modifier 50 in conjunction with 64636)

(Do not report 64633-64636 in conjunction with 77003, 77012)

(For radiofrequency ablation of nerves innervating the sacroiliac joint with image guidance, use 64625)

64630 Destruction by neurolytic agent; pudendal nerve

(Do not report 64632 in conjunction with 64455)

64633 Code is out of numerical sequence. See 64617-64632

64634 Code is out of numerical sequence. See 64617-64632

64635 Code is out of numerical sequence. See 64617-64632

64636 Code is out of numerical sequence. See 64617-64632

64640 other peripheral nerve or branch

CPT Assistant Aug 05:13, Dec 09:11, Feb 10:9, Jun 12:15, Sep 12:14, May 17:10, Oct 17:9, Jan 18:7, Apr 19:9, Dec 23:47
Clinical Examples in Radiology Winter 25:17

Report 64642, 64643, 64644, 64645 once per extremity. Codes 64642, 64643, 64644, 64645 can be reported together up to a combined total of four units of service per patient when all four extremities are injected. Report only one base code (64642 or 64644) per session. Report one unit of additional extremity code(s) (64643 or 64645) for each additional extremity injected.

Report 64646 or 64647 for chemodenervation of muscles of the trunk.

Trunk muscles include the erector spinae and paraspinal muscles, rectus abdominus and obliques. All other somatic muscles are extremity muscles, head muscles, or neck muscles.

(For chemodenervation guided by needle electromyography or muscle electrical stimulation, see 95873, 95874. Do not report more than one guidance code for each corresponding chemodenervation of extremity or trunk code)

(Do not report modifier 50 in conjunction with 64642, 64643, 64644, 64645, 64646, 64647)

64642 Chemodenervation of one extremity; 1-4 muscle(s)

CPT Changes: An Insider's View 2014
CPT Assistant Jan 14:6, Oct 14:15, Apr 19:9, Aug 19:10, Jul 22:17, Aug 22:18

+ 64643 each additional extremity, 1-4 muscle(s) (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2014
CPT Assistant Jan 14:6, Oct 14:15, Apr 19:9, Aug 19:10, Jul 22:17, Aug 22:18

(Use 64643 in conjunction with 64642, 64644)

64644 Chemodenervation of one extremity; 5 or more muscles

CPT Changes: An Insider's View 2014
CPT Assistant Jan 14:6, Oct 14:15, Apr 19:9, Aug 19:10, Jul 22:17, Aug 22:18

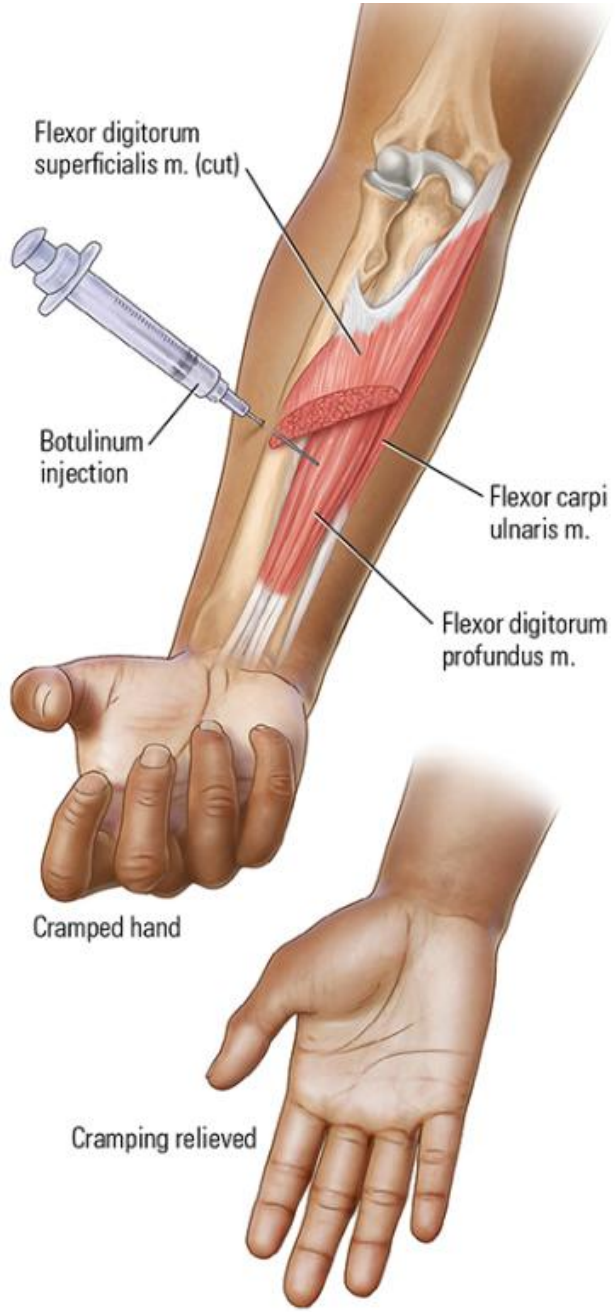
+ 64645 each additional extremity, 5 or more muscles (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2014
CPT Assistant Jan 14:6, Oct 14:15, Apr 19:9, Aug 19:10, Jul 22:17, Aug 22:18

(Use 64645 in conjunction with 64644)

Chemodenervation of Extremity

64642



64646 Chemodenervation of trunk muscle(s); 1-5 muscle(s)

- *CPT Changes: An Insider's View* 2014
- *CPT Assistant* Jan 14:6, Apr 19:9, Oct 21:8, Aug 22:18

64647 6 or more muscles

- *CPT Changes: An Insider's View* 2014
- *CPT Assistant* Jan 14:6, Apr 19:9, Oct 21:8, Aug 22:18

(Report either 64646 or 64647 only once per session)

Sympathetic Nerves

64650 Chemodenervation of eccrine glands; both axillae

CPT Changes: An Insider's View 2006

CPT Assistant Jun 08:9, Feb 10:11, Sep 12:14, Apr 19:9

64653 other area(s) (eg, scalp, face, neck), per day

CPT Changes: An Insider's View 2006

CPT Assistant Jun 08:9, Sep 12:14, Apr 19:9

(Report the specific service in conjunction with code(s) for the specific substance(s) or drug(s) provided)

(For chemodenervation of extremities (eg, hands or feet), use 64999)

(For chemodenervation of bladder, use 52287)

64654 Code is out of numerical sequence. See 64597-64605

64655 Code is out of numerical sequence. See 64597-64605

64656 Code is out of numerical sequence. See 64597-64605

64657 Code is out of numerical sequence. See 64597-64605

64658 Code is out of numerical sequence. See 64597-64605

64659 Code is out of numerical sequence. See 64597-64605

64680 Destruction by neurolytic agent, with or without radiologic monitoring; celiac plexus

CPT Changes: An Insider's View 2004

CPT Assistant Feb 99:10, Aug 05:13, Jun 08:9, Sep 12:14, Apr 19:9

Clinical Examples in Radiology Winter 18:19

(For transendoscopic ultrasound-guided transmural injection, neurolytic agent, celiac plexus, use 43253)

64681 superior hypogastric plexus

CPT Changes: An Insider's View 2004

CPT Assistant Aug 05:13, Dec 07:13, Sep 12:14, Apr 19:9

Clinical Examples in Radiology Winter 18:19

Neuroplasty (Exploration, Neurolysis or Nerve Decompression)

Neuroplasty is the surgical decompression or freeing of intact nerve from scar tissue, including external neurolysis and/or transposition to repair or restore the nerve.

(For percutaneous neurolysis, see 62263, 62264, 62280-62282)

(For internal neurolysis requiring use of operating microscope, use 64727)

(For facial nerve decompression, use 69720)

(For neuroplasty with nerve wrapping, see 64702-64727, 64999)

(For neuroplasty with nerve wrapping, see 64702-64727, 64999)

64702 Neuroplasty; digital, 1 or both, same digit

CPT Assistant Jun 01:11

64704 nerve of hand or foot

CPT Assistant Jun 01:11

(Do not report 64702, 64704 in conjunction with 11960)

64708 Neuroplasty, major peripheral nerve, arm or leg, open; other than specified

CPT Changes: An Insider's View 2011

CPT Assistant Jun 01:11, Jun 12:12, Nov 17:10

64712 sciatic nerve

CPT Changes: An Insider's View 2011

CPT Assistant Jun 01:11, Jun 12:12

64713 brachial plexus

CPT Changes: An Insider's View 2011

CPT Assistant Jun 01:11, Jun 12:12, May 13:12, Aug 21:15

64714 lumbar plexus

CPT Changes: An Insider's View 2011

CPT Assistant Jun 97:11, Sep 98:16, Jun 01:11, Jun 12:12, Dec 13:17

(Do not report 64708, 64712, 64713, 64714 in conjunction with 11960)

64716 Neuroplasty and/or transposition; cranial nerve (specify)

CPT Assistant Jun 01:11

64718 ulnar nerve at elbow

CPT Assistant Jun 01:11, Mar 09:10

64719 ulnar nerve at wrist

CPT Assistant Jun 01:11, Mar 09:10

64721 median nerve at carpal tunnel

CPT Assistant Fall 92:17, Sep 97:10, Jun 01:11, Nov 06:23, Aug 09:11, Jun 12:15, Sep 12:16, Dec 13:14, Jul 15:10, Mar 21:9, Jul 22:18

(Do not report 64716, 64718, 64719, 64721 in conjunction with 11960)

(For endoscopic procedure, use 29848)

64722 Decompression; unspecified nerve(s) (specify)

CPT Assistant Sep 98:16, May 99:11, Jun 01:11, Oct 04:12, Feb 25:29

64726 plantar digital nerve

CPT Assistant Jun 01:11

#● 64728 median nerve at the carpal tunnel, percutaneous, with intracarpal tunnel balloon dilation, including ultrasound guidance

CPT Changes: An Insider's View 2026

►(Do not report 64728 in conjunction with 29848, 64721, 76942, 76998)◄

►(Do not report 64722, 64726, 64728 in conjunction with 11960)◄

✚ 64727 Internal neurolysis, requiring use of operating microscope (List separately in addition to code for neuroplasty) (Neuroplasty includes external neurolysis)

CPT Assistant Nov 98:19, Jun 01:11, Jun 12:13

(Do not report code 69990 in addition to code 64727)

64728 Code is out of numerical sequence. See 64722-64732

Transection or Avulsion

(For stereotactic lesion of gasserian ganglion, use 61790)

64732 Transection or avulsion of; supraorbital nerve

- *CPT Changes: An Insider's View* 2000
- *CPT Assistant* Nov 99:39

64734 infraorbital nerve

64736 mental nerve

64738 inferior alveolar nerve by osteotomy

64740 lingual nerve

64742 facial nerve, differential or complete

64744 greater occipital nerve

64746 phrenic nerve

64755 vagus nerves limited to proximal stomach (selective proximal vagotomy, proximal gastric vagotomy, parietal cell vagotomy, supra- or highly selective vagotomy)

- *CPT Changes: An Insider's View* 2000, 2002
- *CPT Assistant* Nov 99:39

(For laparoscopic approach, use 43652)

64760 vagus nerve (vagotomy), abdominal

- *CPT Changes: An Insider's View* 2000
- *CPT Assistant* Nov 99:39

(For laparoscopic approach, use 43651)

64763 Transection or avulsion of obturator nerve, extrapelvic, with or without adductor tenotomy

(For bilateral procedure, report 64763 with modifier 50)

64766 Transection or avulsion of obturator nerve, intrapelvic, with or without adductor tenotomy

(For bilateral procedure, report 64766 with modifier 50)

64771 Transection or avulsion of other cranial nerve, extradural

64772 Transection or avulsion of other spinal nerve, extradural

- *CPT Assistant* Apr 15:10, Aug 21:15

(For excision of tender scar, skin and subcutaneous tissue, with or without tiny neuroma, see 11400-11446, 13100-13153)

Excision

Somatic Nerves

(For Morton neurectomy, use 28080)

64774 Excision of neuroma; cutaneous nerve, surgically identifiable

64776 digital nerve, 1 or both, same digit

+ 64778 digital nerve, each additional digit (List separately in addition to code for primary procedure)

(Use 64778 in conjunction with 64776)

64782 hand or foot, except digital nerve

+ 64783 hand or foot, each additional nerve, except same digit (List separately in addition to code for primary procedure)

(Use 64783 in conjunction with 64782)

64784 major peripheral nerve, except sciatic

64786 sciatic nerve

+ 64787 Implantation of nerve end into bone or muscle (List separately in addition to neuroma excision)

(Use 64787 in conjunction with 64774-64786)

64788 Excision of neurofibroma or neurolemmoma; cutaneous nerve

CPT Assistant Apr 16:3

64790 major peripheral nerve

CPT Assistant Apr 16:3

64792 extensive (including malignant type)

CPT Assistant Apr 16:3

(For destruction of extensive cutaneous neurofibroma, see 0419T, 0420T)

64795 Biopsy of nerve

Sympathetic Nerves

64802 Sympathectomy, cervical

CPT Assistant Apr 24:36

(For bilateral procedure, report 64802 with modifier 50)

64804 Sympathectomy, cervicothoracic

CPT Assistant Apr 24:36

(For bilateral procedure, report 64804 with modifier 50)

64809 Sympathectomy, thoracolumbar

(For bilateral procedure, report 64809 with modifier 50)

64818 Sympathectomy, lumbar

(For bilateral procedure, report 64818 with modifier 50)

64820 Sympathectomy; digital arteries, each digit

CPT Changes: An Insider's View 2002

CPT Assistant Jan 04:27

(Do not report 69990 in addition to code 64820)

64821 radial artery

CPT Changes: An Insider's View 2002

(Do not report 69990 in addition to code 64821)

64822 ulnar artery

CPT Changes: An Insider's View 2002

(Do not report 69990 in addition to code 64822)

64823 superficial palmar arch

CPT Changes: An Insider's View 2002

(Do not report 69990 in addition to code 64823)

Neurorrhaphy

64831 Suture of digital nerve, hand or foot; 1 nerve

CPT Assistant Apr 00:6, Sep 14:13, Jan 21:13

+ 64832 each additional digital nerve (List separately in addition to code for primary procedure)

CPT Assistant Apr 00:6, Jan 21:13

(Use 64832 in conjunction with 64831)

64834 Suture of 1 nerve; hand or foot, common sensory nerve

CPT Changes: An Insider's View 2008

CPT Assistant Jan 21:13

64835 median motor thenar

CPT Changes: An Insider's View 2008

64836 ulnar motor

CPT Changes: An Insider's View 2008

+ 64837 Suture of each additional nerve, hand or foot (List separately in addition to code for primary procedure)

CPT Assistant Jan 21:13

(Use 64837 in conjunction with 64834-64836)

64840 Suture of posterior tibial nerve

64856 Suture of major peripheral nerve, arm or leg, except sciatic; including transposition

64857 without transposition

64858 Suture of sciatic nerve

+ **64859** Suture of each additional major peripheral nerve (List separately in addition to code for primary procedure)

(Use 64859 in conjunction with 64856, 64857)

64861 Suture of; brachial plexus

64862 lumbar plexus

64864 Suture of facial nerve; extracranial

64865 infratemporal, with or without grafting

64866 Anastomosis; facial-spinal accessory

64868 facial-hypoglossal

+ **64872** Suture of nerve; requiring secondary or delayed suture (List separately in addition to code for primary neurorrhaphy)

(Use 64872 in conjunction with 64831-64865)

+ **64874** requiring extensive mobilization, or transposition of nerve (List separately in addition to code for nerve suture)

(Use 64874 in conjunction with 64831-64865)

+ **64876** requiring shortening of bone of extremity (List separately in addition to code for nerve suture)

(Use 64876 in conjunction with 64831-64865)

Neurorrhaphy With Nerve Graft, Vein Graft, or Conduit

64885 Nerve graft (includes obtaining graft), head or neck; up to 4 cm in length

CPT Assistant Nov 00:11, Dec 17:12

64886 more than 4 cm length

CPT Assistant Nov 00:11, Dec 17:12

64890 Nerve graft (includes obtaining graft), single strand, hand or foot; up to 4 cm length

CPT Assistant Apr 15:10, Aug 15:8, Dec 17:12, Apr 21:14

64891 more than 4 cm length

CPT Assistant Dec 17:12, Apr 21:14

64892 Nerve graft (includes obtaining graft), single strand, arm or leg; up to 4 cm length

CPT Assistant Dec 17:12

64893 more than 4 cm length

CPT Assistant Dec 17:12

64895 Nerve graft (includes obtaining graft), multiple strands (cable), hand or foot; up to 4 cm length

CPT Assistant Nov 00:11, Dec 17:12

64896 more than 4 cm length

CPT Assistant Nov 00:11, Dec 17:12

64897 Nerve graft (includes obtaining graft), multiple strands (cable), arm or leg; up to 4 cm length

CPT Assistant Nov 00:11, Dec 17:12

64898 more than 4 cm length

+ 64901 Nerve graft, each additional nerve; single strand (List separately in addition to code for primary procedure)

CPT Assistant Nov 00:11, Dec 17:12, Apr 21:14

(Use 64901 in conjunction with 64885-64893)

+ 64902 multiple strands (cable) (List separately in addition to code for primary procedure)

CPT Assistant Nov 00:11, Dec 17:12

(Use 64902 in conjunction with 64885, 64886, 64895-64898)

64905 Nerve pedicle transfer; first stage

CPT Assistant Dec 17:12, Aug 21:15

64907 second stage

CPT Assistant Dec 17:12

64910 Nerve repair; with synthetic conduit or vein allograft (eg, nerve tube), each nerve

CPT Changes: An Insider's View 2007

CPT Assistant Nov 07:4, Apr 15:10, Aug 15:8, Dec 17:12

64911 with autogenous vein graft (includes harvest of vein graft), each nerve

CPT Changes: An Insider's View 2007

CPT Assistant Nov 07:4, Dec 17:12

(Do not report 69990 in addition to 64910, 64911)

64912 with nerve allograft, each nerve, first strand (cable)

CPT Changes: An Insider's View 2018

CPT Assistant Dec 17:12

+ 64913 with nerve allograft, each additional strand (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2018

CPT Assistant Dec 17:12

(Use 64913 in conjunction with 64912)

(Do not report 64912, 64913 in conjunction with 69990)

Other Procedures

64999 Unlisted procedure, nervous system

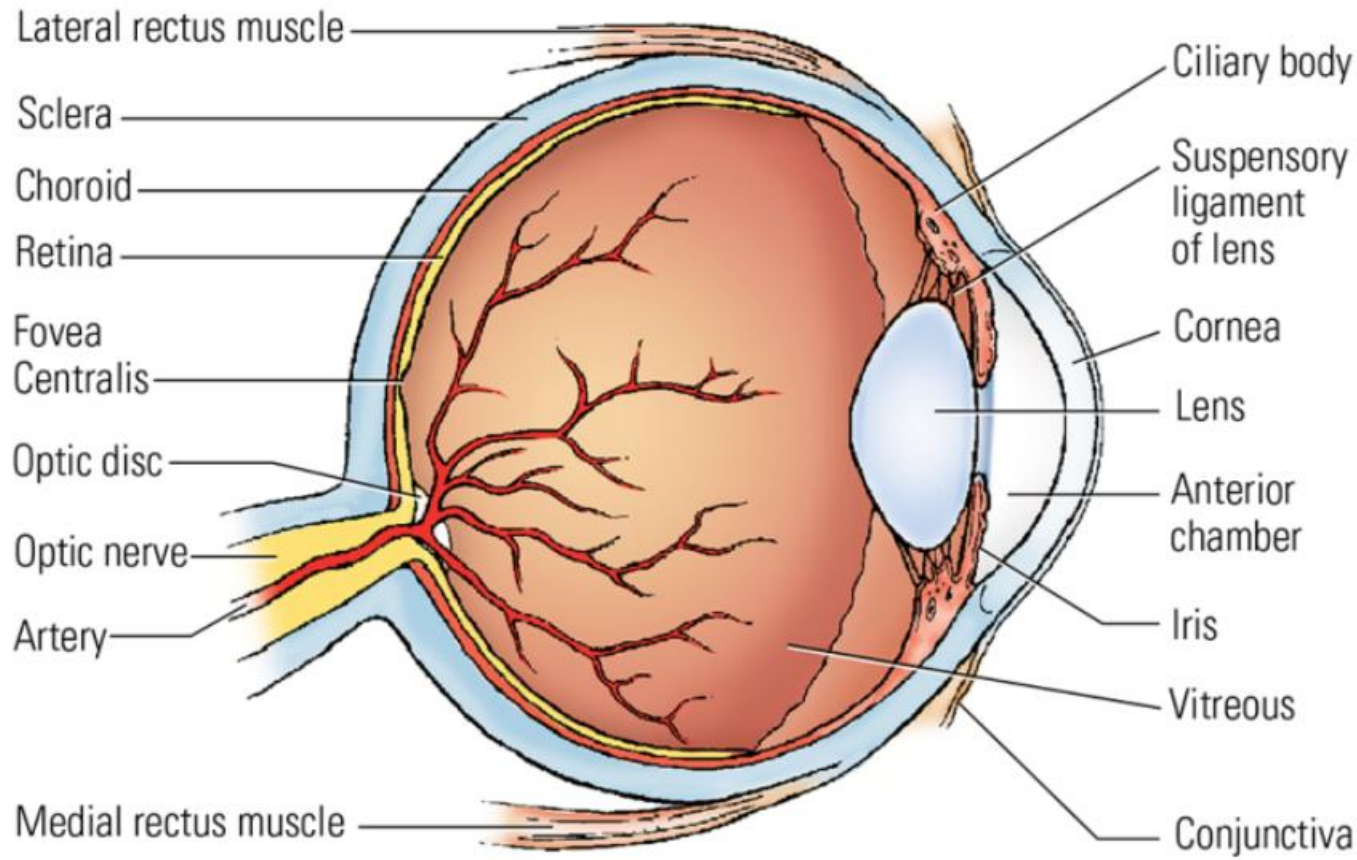
Clinical Examples in Radiology Winter 17:3, Fall 24:4, Winter 25:19

Surgery



Eye and Ocular Adnexa (65091-68899)

The following is a listing of headings and subheadings that appear within the Eye and Ocular Adnexa section of the CPT codebook. The subheadings or subsections denoted with asterisks (*) below have special instructions unique to that subsection. Where these are indicated, special notes or guidelines will be presented preceding those procedural terminology listings, referring to that subsection specifically. Note that all code ranges in each subsection are listed as they appear in the subsection, even if the code numbers are out of numerical sequence and/or repeated in the next subsection.

- Eyeball (65091-65290)
  - Removal of Eye (65091-65114)
  - Secondary Implant(s) Procedures* (65125-65175)
  - Removal of Foreign Body (65205-65265)
  - Repair of Laceration (65270-65290)
- Anterior Segment (65400-66999)
  - Cornea (65400-65785)
    - Excision (65400-65426)
    - Removal or Destruction (65430-65600)
    - Keratoplasty* (65710-65757)
    - Other Procedures* (65760-65785)
  - Anterior Chamber (65800-66030)
    - Incision (65800-65880)
    - Removal (65900-65930)
    - Introduction (66020-66030)
  - Anterior Sclera (66130-66250)
    - Excision (66130-66175)
    - Aqueous Shunt (66179-66185)
    - Repair or Revision (66225-66250)
  - Iris, Ciliary Body (66500-66770)
    - Incision (66500-66505)
    - Excision (66600-66635)
    - Repair (66680-66683)
    - Destruction (66700-66770)
  - Lens (66820-66940)
    - Incision (66820-66825)
    - Removal* (66830-66940)
  - Intraocular Lens Procedures (66982-66986)
  - Other Procedures (66990-66999)
- Posterior Segment (67005-67299)
  - Vitreous (67005-67043)
  - Retina or Choroid (67101-67229)
    - Repair (67101-67121)
    - Prophylaxis (67141-67145)
    - Destruction* (67208-67229)
  - Posterior Sclera (67250-67255)
    - Repair (67250-67255)
  - Other Procedures (67299)

Ocular Adnexa (67311-67999)
- **Extraocular Muscles (67311-67399)**
  - Other Procedures (67399)
- **Orbit (67400-67599)**
  - Exploration, Excision, Decompression (67400-67450)
  - Other Procedures (67500-67599)
- **Eyelids (67700-67999)**
  - Incision (67700-67810)
  - Excision, Destruction* (67800-67850)
  - Tarsorrhaphy (67875-67882)
  - Repair (Brow Ptosis, Blepharoptosis, Lid Retraction, Ectropion, Entropion) (67900-67924)
  - Reconstruction* (67930-67975)
  - Other Procedures (67999)

Conjunctiva (68020-68899)
- **Incision and Drainage (68020-68040)**
- **Excision and/or Destruction (68100-68135)**

- **Lacrimal System (68400-68899)**
  - Incision (68400-68440)
  - Excision (68500-68550)
  - Repair (68700-68770)
  - Probing and/or Related Procedures (68801-68850)
  - Other Procedures (68899)

Eye Anatomy

Eye and Ocular Adnexa

(For diagnostic and treatment ophthalmological services, see **Medicine, Ophthalmology,** and 92002 et seq)

(Do not report code 69990 in addition to codes 65091-68850)

Eyeball

Removal of Eye

65091 Evisceration of ocular contents; without implant
65093 with implant
65101 Enucleation of eye; without implant
65103 with implant, muscles not attached to implant
65105 with implant, muscles attached to implant

(For conjunctivoplasty after enucleation, see 68320 et seq)

65110 Exenteration of orbit (does not include skin graft), removal of orbital contents; only
65112 with therapeutic removal of bone
65114 with muscle or myocutaneous flap

(For skin graft to orbit (split skin), see 15120, 15121; free, full thickness, see 15260, 15261)

(For eyelid repair involving more than skin, see 67930 et seq)

Secondary Implant(s) Procedures

An ocular implant is an implant inside muscular cone; an orbital implant is an implant outside muscular cone.

65125 Modification of ocular implant with placement or replacement of pegs (eg, drilling receptacle for prosthesis appendage) (separate procedure)
65130 Insertion of ocular implant secondary; after evisceration, in scleral shell
65135 after enucleation, muscles not attached to implant
65140 after enucleation, muscles attached to implant
65150 Reinsertion of ocular implant; with or without conjunctival graft
65155 with use of foreign material for reinforcement and/or attachment of muscles to implant
65175 Removal of ocular implant

(For orbital implant (implant outside muscle cone) insertion, use 67550; removal, use 67560)

Removal of Foreign Body

(For removal of implanted material: ocular implant, use 65175; anterior segment implant, use 65920; posterior segment implant, use 67120; orbital implant, use 67560)

(For diagnostic x-ray for foreign body, use 70030)

(For diagnostic echography for foreign body, use 76529)

(For removal of foreign body from orbit: frontal approach, use 67413; lateral approach, use 67430)

(For removal of foreign body from eyelid, embedded, use 67938)

(For removal of foreign body from lacrimal system, use 68530)

65205 Removal of foreign body, external eye; conjunctival superficial

CPT Assistant Mar 05:17, Oct 13:19

65210 conjunctival embedded (includes concretions), subconjunctival, or scleral nonperforating

65220 corneal, without slit lamp

65222 corneal, with slit lamp

(For repair of corneal laceration with foreign body, use 65275)

65235 Removal of foreign body, intraocular; from anterior chamber of eye or lens

CPT Changes: An Insider's View 2002

(For removal of implanted material from anterior segment, use 65920)

65260 from posterior segment, magnetic extraction, anterior or posterior route

65265 from posterior segment, nonmagnetic extraction

(For removal of implanted material from posterior segment, use 67120)

Repair of Laceration

(For fracture of orbit, see 21385 et seq)

(For repair of wound of eyelid, skin, linear, simple, see 12011-12018; intermediate, layered closure, see 12051-12057; linear, complex, see 13151-13160; other, see 67930, 67935)

(For repair of wound of lacrimal system, use 68700)

(For repair of operative wound, use 66250)

65270 Repair of laceration; conjunctiva, with or without nonperforating laceration sclera, direct closure

CPT Assistant Aug 12:9

65272 conjunctiva, by mobilization and rearrangement, without hospitalization

65273 conjunctiva, by mobilization and rearrangement, with hospitalization

65275 cornea, nonperforating, with or without removal foreign body

65280 cornea and/or sclera, perforating, not involving uveal tissue

CPT Assistant Aug 12:9

65285 cornea and/or sclera, perforating, with reposition or resection of uveal tissue

CPT Assistant Aug 12:9

(65280 and 65285 are not used for repair of a surgical wound)

65286 application of tissue glue, wounds of cornea and/or sclera

CPT Assistant May 99:11, Apr 09:5

(Repair of laceration includes use of conjunctival flap and restoration of anterior chamber, by air or saline injection when indicated)

(For repair of iris or ciliary body, use 66680)

65290 Repair of wound, extraocular muscle, tendon and/or Tenon's capsule

Anterior Segment

Cornea

Excision

65400 Excision of lesion, cornea (keratectomy, lamellar, partial), except pterygium

65410 Biopsy of cornea

65420 Excision or transposition of pterygium; without graft

CPT Assistant Dec 07:13

65426 with graft

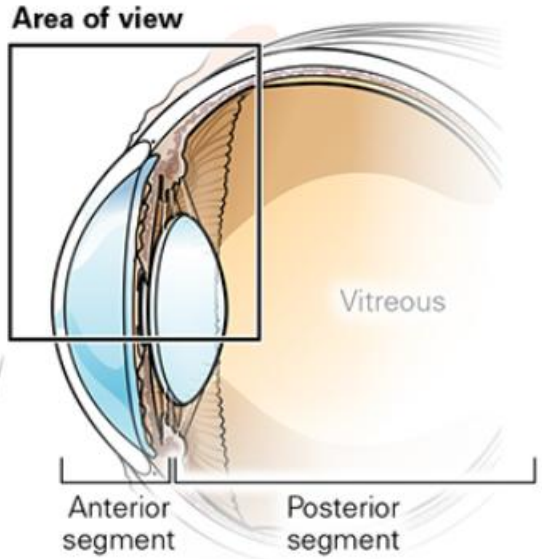
CPT Assistant May 18:11

Removal or Destruction

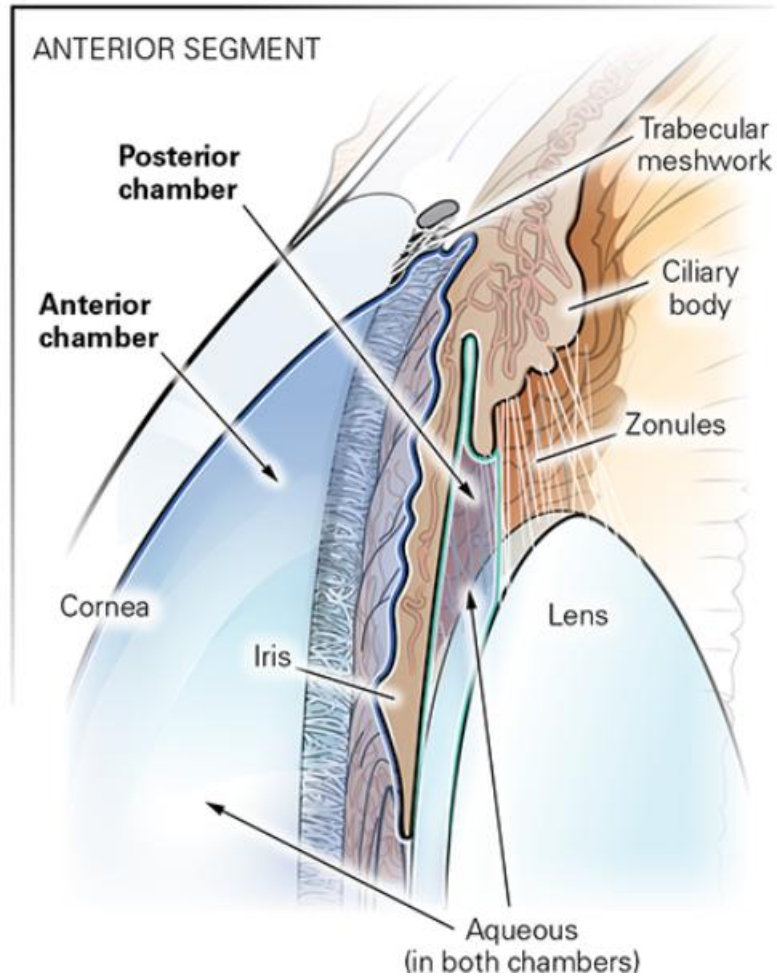
65430 Scraping of cornea, diagnostic, for smear and/or culture

65435 Removal of corneal epithelium; with or without chemocauterization (abrasion, curettage)

CPT Assistant Feb 16:12



(Do not report 65435 in conjunction with 0402T)

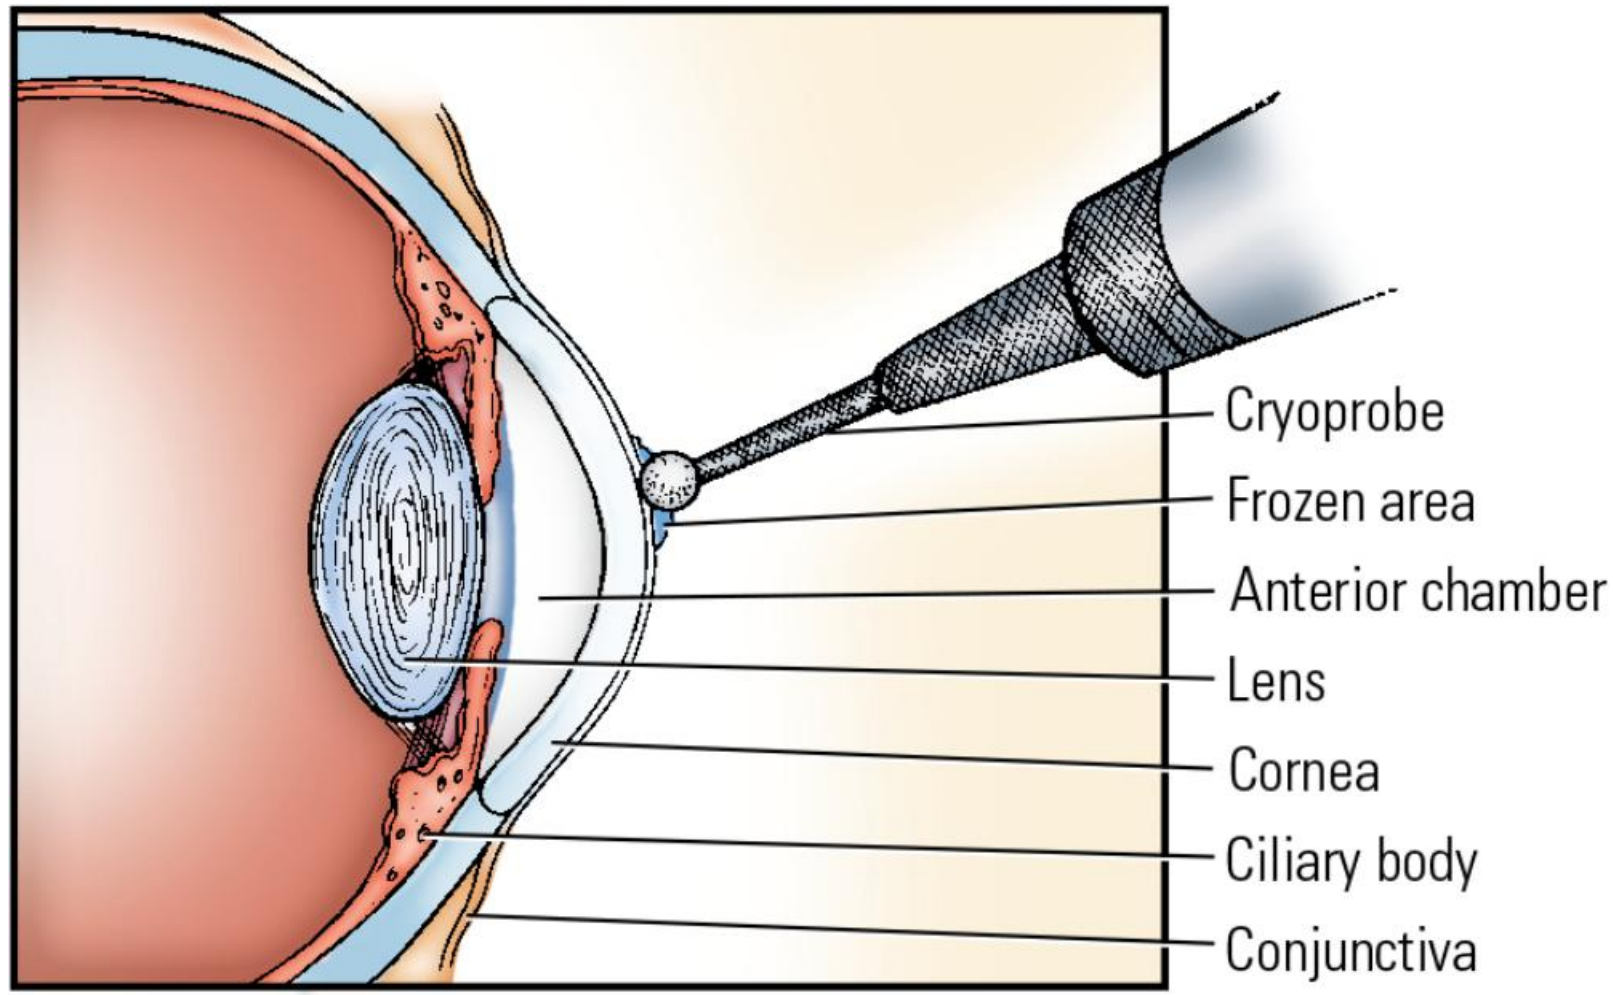


65436 with application of chelating agent (eg, EDTA)

65450 Destruction of lesion of cornea by cryotherapy, photocoagulation or thermocauterization

65600 Multiple punctures of anterior cornea (eg, for corneal erosion, tattoo)

Anterior Segment of the Eye



Cryotherapy of Lesion on Cornea

65450

A freezing probe is applied directly to the corneal defect to destroy it.

Keratoplasty

Corneal transplant includes use of fresh or preserved grafts. The preparation of donor material is included for penetrating or anterior lamellar keratoplasty, but reported separately for endothelial keratoplasty. Do not report 65710-65757 in conjunction with 92025.

(Keratoplasty excludes refractive keratoplasty procedures, 65760, 65765, and 65767)

65710 Keratoplasty (corneal transplant); anterior lamellar

CPT Changes: An Insider's View 2009

CPT Assistant Oct 02:8, Apr 09:5, Dec 09:13, Aug 12:15

65730 penetrating (except in aphakia or pseudophakia)

CPT Changes: An Insider's View 2009

CPT Assistant Oct 02:8, Feb 06:1, Apr 09:5, Dec 09:13, Aug 12:15

65750 penetrating (in aphakia)

CPT Assistant Oct 02:8, Apr 09:5, Dec 09:13, Aug 12:15

65755 penetrating (in pseudophakia)

CPT Assistant Winter 90:8, Oct 02:9, Apr 09:5, Dec 09:13, Aug 12:15

65756 endothelial

CPT Changes: An Insider's View 2009

+ 65757 Backbench preparation of corneal endothelial allograft prior to transplantation (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2009

CPT Assistant Aug 14:15

(Use 65757 in conjunction with 65756)

Other Procedures

Do not report 65760-65771 in conjunction with 92025.

65760 Keratomileusis

CPT Assistant Oct 02:9

65765 Keratophakia

CPT Assistant Oct 02:10

65767 Epikeratoplasty

CPT Assistant Winter 90:8, Oct 02:10

65770 Keratoprosthesis

CPT Assistant Oct 02:10

65771 Radial keratotomy

CPT Assistant Winter 90:8, Oct 02:10

65772 Corneal relaxing incision for correction of surgically induced astigmatism

CPT Assistant Oct 02:10, 12

65775 Corneal wedge resection for correction of surgically induced astigmatism

CPT Assistant Oct 02:10, 12, Aug 12:9

(For fitting of contact lens for treatment of disease, see 92071, 92072)

(For unlisted procedures on cornea, use 66999)

65778 Placement of amniotic membrane on the ocular surface; without sutures

CPT Changes: An Insider's View 2011, 2014

CPT Assistant May 14:5, Feb 18:11

65779 single layer, sutured

CPT Changes: An Insider's View 2011, 2014

CPT Assistant May 14:5, Feb 18:11

(Do not report 65778, 65779 in conjunction with 65430, 65435, 65780)

(For placement of amniotic membrane using tissue glue, use 66999)

65780 Ocular surface reconstruction; amniotic membrane transplantation, multiple layers

CPT Changes: An Insider's View 2004, 2011

CPT Assistant May 04:10, Jun 09:9, May 14:5, Feb 18:11

(For placement of amniotic membrane without reconstruction using no sutures or single layer suture technique, see 65778, 65779)

65781 limbal stem cell allograft (eg, cadaveric or living donor)

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* May 04:10

65782 limbal conjunctival autograft (includes obtaining graft)

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Feb 04:11, May 04:10, Feb 05:15-16

(For harvesting conjunctival allograft, living donor, use 68371)

65785 Implantation of intrastromal corneal ring segments

- *CPT Changes: An Insider's View* 2016

Anterior Chamber

Incision

65800 Paracentesis of anterior chamber of eye (separate procedure); with removal of aqueous

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Nov 12:10

65810 with removal of vitreous and/or discission of anterior hyaloid membrane, with or without air injection

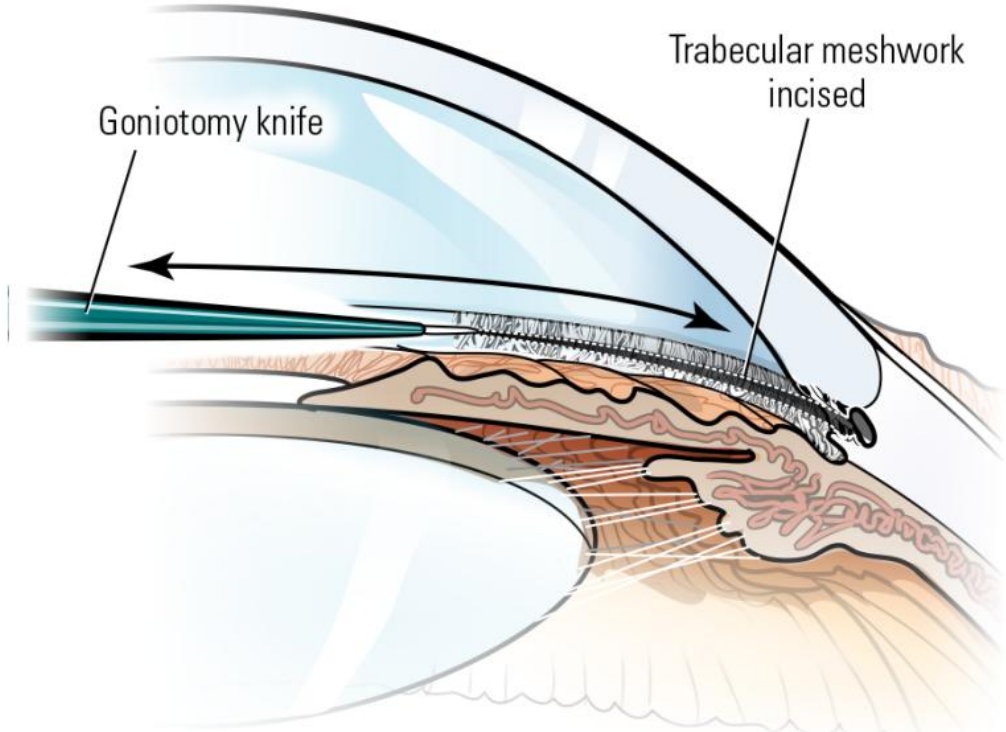
- *CPT Assistant* Nov 12:10

65815 with removal of blood, with or without irrigation and/or air injection

- *CPT Assistant* Nov 12:10

(For injection, see 66020-66030)

(For removal of blood clot, use 65930)



65820 Goniotomy

- *CPT Assistant* Sep 05:12, Jul 18:3, Dec 18:9, Sep 19:11, Sep 21:10, May 22:14, Aug 22:1, Nov 22:18

(Do not report modifier 63 in conjunction with 65820)

(For use of ophthalmic endoscope with 65820, use 66990)

Goniotomy
65820

65850 Trabeculotomy ab externo

CPT Assistant Sep 23:42

(Do not report 65850 in conjunction with 0730T)

(For trabeculotomy by laser, including optical coherence tomography [OCT] image guidance, use 0730T)

65855 Trabeculoplasty by laser surgery

CPT Changes: An Insider's View 2016

CPT Assistant Mar 98:7, Mar 03:23, Sep 21:10, Sep 23:42

(Do not report 65855 in conjunction with 65860, 65865, 65870, 65875, 65880, 0730T)

(For trabeculectomy, use 66170)

(For trabeculotomy by laser, including optical coherence tomography [OCT] image guidance, use 0730T)

65860 Severing adhesions of anterior segment, laser technique (separate procedure)

65865 Severing adhesions of anterior segment of eye, incisional technique (with or without injection of air or liquid) (separate procedure); goniosynechiae

(For trabeculoplasty by laser surgery, use 65855)

65870 anterior synechiae, except goniosynechiae

65875 posterior synechiae

CPT Assistant Sep 05:12

(For use of ophthalmic endoscope with 65875, use 66990)

65880 corneovitreal adhesions

(For laser surgery, use 66821)

Removal

65900 Removal of epithelial downgrowth, anterior chamber of eye

CPT Changes: An Insider's View 2002

65920 Removal of implanted material, anterior segment of eye

CPT Changes: An Insider's View 2002

CPT Assistant Sep 05:12

(For use of ophthalmic endoscope with 65920, use 66990)

65930 Removal of blood clot, anterior segment of eye

CPT Changes: An Insider's View 2002

Introduction

66020 Injection, anterior chamber of eye (separate procedure); air or liquid

CPT Changes: An Insider's View 2002

CPT Assistant Nov 12:10, Nov 21:14

66030 medication

CPT Assistant Nov 12:10

(For unlisted procedures on anterior segment, use 66999)

Anterior Sclera

Excision

(For removal of intraocular foreign body, use 65235)

(For operations on posterior sclera, use 67250, 67255)

66130 Excision of lesion, sclera

66150 Fistulization of sclera for glaucoma; trephination with iridectomy

CPT Assistant Jul 18:3

66155 thermocauterization with iridectomy

CPT Assistant Jul 18:3

66160 sclerectomy with punch or scissors, with iridectomy

CPT Assistant Jul 18:3

66170 trabeculectomy ab externo in absence of previous surgery

CPT Assistant Jul 03:4, Nov 03:10, Dec 12:14, Jul 18:3, Dec 18:9

(For trabeculotomy ab externo, use 65850)

(For repair of operative wound, use 66250)

66172 trabeculectomy ab externo with scarring from previous ocular surgery or trauma (includes injection of antifibrotic agents)

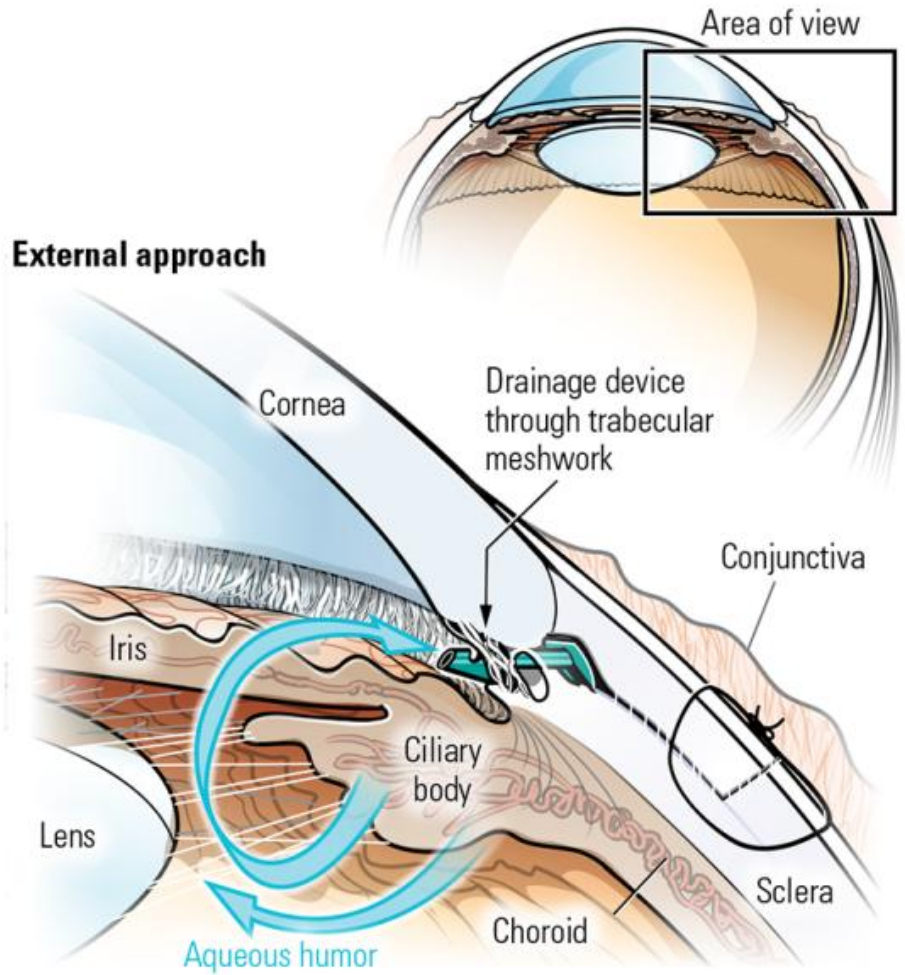
CPT Assistant Jul 03:4, Nov 03:10, Dec 12:14, Jul 18:3, Dec 18:10, Apr 19:7

66174 Transluminal dilation of aqueous outflow canal (eg, canaloplasty); without retention of device or stent

CPT Changes: An Insider's View 2011, 2023

CPT Assistant Dec 18:9, Sep 19:11, May 22:14, 17

(Do not report 66174 in conjunction with 65820)



66175 with retention of device or stent

CPT Changes: An Insider's View 2011, 2023

CPT Assistant May 22:14

Minimally Invasive Glaucoma Surgery (External Approach)

66150, 66155, 66160, 66170, 66172, 66183

Aqueous Shunt

66179 Aqueous shunt to extraocular equatorial plate reservoir, external approach; without graft

- *CPT Changes: An Insider's View* 2015
- *CPT Assistant* Jan 15:10, Jul 18:3

66180 with graft

- *CPT Changes: An Insider's View* 2015
- *CPT Assistant* Winter 90:8, Aug 03:9, Sep 03:2, Jun 12:15, Jan 15:10, Jul 18:3

(Do not report 66180 in conjunction with 67255)

66183 Insertion of anterior segment aqueous drainage device, without extraocular reservoir, external approach

- *CPT Changes: An Insider's View* 2014
- *CPT Assistant* May 14:5, Jul 18:3

66184 Revision of aqueous shunt to extraocular equatorial plate reservoir; without graft

- *CPT Changes: An Insider's View* 2015
- *CPT Assistant* Jan 15:10

66185 with graft

- *CPT Changes: An Insider's View* 2015
- *CPT Assistant* Winter 90:8, Jan 15:10

(Do not report 66185 in conjunction with 67255)

(For removal of implanted shunt, use 67120)

Repair or Revision

(For scleral procedures in retinal surgery, see 67101 et seq)

66225 Repair of scleral staphyloma with graft

(For scleral reinforcement, see 67250, 67255)

66250 Revision or repair of operative wound of anterior segment, any type, early or late, major or minor procedure

- *CPT Assistant* Oct 10:15, Dec 10:15, Dec 18:9

(For unlisted procedures on anterior sclera, use 66999)

Iris, Ciliary Body

Incision

66500 Iridotomy by stab incision (separate procedure); except transfixion
66505 with transfixion as for iris bombe

(For iridotomy by photocoagulation, use 66761)

Excision

66600 Iridectomy, with corneoscleral or corneal section; for removal of lesion
CPT Assistant Mar 21:7
66605 with cyclectomy
66625 peripheral for glaucoma (separate procedure)
66630 sector for glaucoma (separate procedure)
66635 optical (separate procedure)

(For coreoplasty by photocoagulation, use 66762)

Repair

66680 Repair of iris, ciliary body (as for iridodialysis)
CPT Assistant Mar 21:7

(For reposition or resection of uveal tissue with perforating wound of cornea or sclera, use 65285)
66682 Suture of iris, ciliary body (separate procedure) with retrieval of suture through small incision (eg, McCannel suture)
CPT Assistant Mar 21:7
66683 Implantation of iris prosthesis, including suture fixation and repair or removal of iris, when performed
CPT Changes: An Insider's View 2025
CPT Assistant Dec 24:29

(Use 66683 in conjunction with 66825, 66830, 66840, 66850, 66852, 66920, 66930, 66940, 66982, 66983, 66984, 66985, 66986, 66987, 66988, 66989, 66991, for lens or intraocular lens surgery[ies] performed concurrently)

(Do not report 66683 in conjunction with 65800, 65810, 65815, 65865, 65870, 65875, 66020, 66030, 66500, 66505, 66600, 66625, 66630, 66635, 66680, 66682, 66770, 67500, 67515, 69990, for the same eye, same surgeon, or same operative session)

(For severing adhesions of anterior segment, incisional technique, without concurrent iris prosthesis implantation, see 65865, 65870, 65875, 65880)

(For removal of iris tissue without concurrent iris prosthesis implantation, see 66600, 66605, 66625, 66630, 66635)

(For repair of iris without concurrent iris prosthesis implantation, see 66680, 66682)

Destruction

66700 Ciliary body destruction; diathermy

66710 cyclophotocoagulation, transscleral

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Mar 05:20, Sep 05:5

66711 cyclophotocoagulation, endoscopic, without concomitant removal of crystalline lens

- *CPT Changes: An Insider's View* 2005, 2020
- *CPT Assistant* Mar 05:20, Sep 05:5, 12, Dec 19:6

(For endoscopic cyclophotocoagulation performed at same encounter as extracapsular cataract removal with intraocular lens insertion, see 66987, 66988)

(Do not report 66711 in conjunction with 66990)

66720 cryotherapy

- *CPT Changes: An Insider's View* 2017

66740 cyclodialysis

- *CPT Assistant* Oct 24:15

66761 Iridotomy/iridectomy by laser surgery (eg, for glaucoma) (per session)

- *CPT Changes: An Insider's View* 2011
- *CPT Assistant* Mar 98:7, Sep 21:10

66762 Iridoplasty by photocoagulation (1 or more sessions) (eg, for improvement of vision, for widening of anterior chamber angle)

- *CPT Assistant* Mar 98:7, Sep 21:10

66770 Destruction of cyst or lesion iris or ciliary body (nonexcisional procedure)

(For excision lesion iris, ciliary body, see 66600, 66605; for removal of epithelial downgrowth, use 65900)

(For unlisted procedures on iris, ciliary body, use 66999)

Lens

Incision

66820 Discission of secondary membranous cataract (opacified posterior lens capsule and/or anterior hyaloid); stab incision technique (Ziegler or Wheeler knife)

66821 laser surgery (eg, YAG laser) (1 or more stages)

CPT Assistant Sep 21:10

66825 Repositioning of intraocular lens prosthesis, requiring an incision (separate procedure)

Removal

Lateral canthotomy, iridectomy, iridotomy, anterior capsulotomy, posterior capsulotomy, the use of viscoelastic agents, enzymatic zonulysis, use of other pharmacologic agents, and subconjunctival or sub-tenon injections are included as part of the code for the extraction of lens.

66830 Removal of secondary membranous cataract (opacified posterior lens capsule and/or anterior hyaloid) with corneo-scleral section, with or without iridectomy (iridocapsulotomy, iridocapsulectomy)

66840 Removal of lens material; aspiration technique, 1 or more stages

CPT Assistant Fall 92:4, Jan 09:7, Apr 09:9, Sep 09:5, Apr 16:8, Jun 16:6, Sep 16:9

66850 phacofragmentation technique (mechanical or ultrasonic) (eg, phacoemulsification), with aspiration

CPT Assistant Fall 92:6, Jan 09:7, Apr 09:9, Sep 09:5, Jun 16:6

66852 pars plana approach, with or without vitrectomy

CPT Assistant Fall 92:8, Jan 09:7, Apr 09:9, Sep 09:5, Jun 16:6

66920 intracapsular

CPT Assistant Fall 92:8, Sep 09:5

66930 intracapsular, for dislocated lens

CPT Assistant Fall 92:8, Sep 09:5

66940 extracapsular (other than 66840, 66850, 66852)

CPT Assistant Fall 92:4, Jan 09:7, Apr 09:9, Sep 09:5, Jun 16:6

(For removal of intralenticular foreign body without lens extraction, use 65235)

(For repair of operative wound, use 66250)

Intraocular Lens Procedures

66982 Extracapsular cataract removal with insertion of intraocular lens prosthesis (1-stage procedure), manual or mechanical technique (eg, irrigation and aspiration or phacoemulsification), complex, requiring devices or techniques not generally used in routine cataract surgery (eg, iris expansion device, suture support for intraocular lens, or primary posterior capsulorrhexis) or performed on patients in the amblyogenic developmental stage; without endoscopic cyclophotocoagulation

CPT Changes: An Insider's View 2001, 2002, 2020
CPT Assistant Feb 01:7, Nov 03:10, Sep 09:5, Mar 13:6, Mar 16:10, Dec 17:14, Dec 18:6, Dec 19:6, Mar 21:7, Jul 22:1, Mar 25:7

(For complex extracapsular cataract removal with concomitant endoscopic cyclophotocoagulation, use 66987)

(For complex extracapsular cataract removal with intraocular lens implant and concomitant intraocular aqueous drainage device by internal approach, use 66989)

(For insertion of ocular telescope prosthesis including removal of crystalline lens, use 0308T)

 # 66989 with insertion of intraocular (eg, trabecular meshwork, supraciliary, suprachoroidal) anterior segment aqueous drainage device, without extraocular reservoir, internal approach, one or more

CPT Changes: An Insider's View 2022
CPT Assistant Jun 22:2,5, Jul 22:1, Aug 22:1

(For complex extracapsular cataract removal with intraocular lens implant without concomitant aqueous drainage device, use 66982)

(For insertion of intraocular anterior segment drainage device into the trabecular meshwork without concomitant cataract removal with intraocular lens implant, use 0671T)

 # 66987 with endoscopic cyclophotocoagulation

CPT Changes: An Insider's View 2020
CPT Assistant Dec 19:6

(For complex extracapsular cataract removal without endoscopic cyclophotocoagulation, use 66982)

(For insertion of ocular telescope prosthesis including removal of crystalline lens, use 0308T)

66983 Intracapsular cataract extraction with insertion of intraocular lens prosthesis (1 stage procedure)

CPT Assistant Fall 92:5, 8, Nov 03:10, Sep 09:5, Mar 13:6, Dec 19:6, Mar 21:7

(Do not report 66983 in conjunction with 0308T)

66984 Extracapsular cataract removal with insertion of intraocular lens prosthesis (1 stage procedure), manual or mechanical technique (eg, irrigation and aspiration or phacoemulsification); without endoscopic cyclophotocoagulation

CPT Changes: An Insider's View 2020
CPT Assistant Fall 92:5, 8, Feb 01:7, Nov 03:10, Mar 05:11, Sep 09:5, Mar 13:6, Dec 18:6, Dec 19:6, Dec 20:13, Mar 21:7, May 22:17, Jun 22:2,5

(For complex extracapsular cataract removal, use 66982)

(For extracapsular cataract removal with concomitant endoscopic cyclophotocoagulation, use 66988)

(For extracapsular cataract removal with concomitant intraocular aqueous drainage device by internal approach, use 66991)

(For insertion of ocular telescope prosthesis including removal of crystalline lens, use 0308T)

(For insertion of intraocular anterior segment drainage device into the trabecular meshwork without concomitant cataract removal with intraocular lens implant, use 0671T)

 # 66991 with insertion of intraocular (eg, trabecular meshwork, supraciliary, suprachoroidal) anterior segment aqueous drainage device, without extraocular reservoir, internal approach, one or more

CPT Changes: An Insider's View 2022

CPT Assistant May 22:17, Jun 22:2,5, Jul 22:1, Aug 22:1, Jan 25:34

(For extracapsular cataract removal with intraocular lens implant without concomitant aqueous drainage device, use 66984)

(For insertion of intraocular anterior segment drainage device into the trabecular meshwork without concomitant cataract removal with intraocular lens implant, use 0671T)

 # 66988 with endoscopic cyclophotocoagulation

CPT Changes: An Insider's View 2020

CPT Assistant Dec 19:6

(For extracapsular cataract removal without endoscopic cyclophotocoagulation, use 66984)

(For complex extracapsular cataract removal with endoscopic cyclophotocoagulation, use 66987)

(For insertion of ocular telescope prosthesis, including removal of crystalline lens, use 0308T)

66985 Insertion of intraocular lens prosthesis (secondary implant), not associated with concurrent cataract removal

CPT Assistant Sep 05:12, Sep 09:5, Dec 11:16, Mar 13:6, Mar 21:7

(To code implant at time of concurrent cataract surgery, see 66982, 66983, 66984)

(To report supply of intraocular lens prosthesis, use 99070)

(For ultrasonic determination of intraocular lens power, use 76519)

(For removal of implanted material from anterior segment, use 65920)

(For secondary fixation (separate procedure), use 66682)

(For use of ophthalmic endoscope with 66985, use 66990)

66986 Exchange of intraocular lens

CPT Assistant Sep 05:12, Mar 21:7

(For use of ophthalmic endoscope with 66986, use 66990)

66987 Code is out of numerical sequence. See 66940-66984

66988 Code is out of numerical sequence. See 66983-66986

66989 Code is out of numerical sequence. See 66940-66984

66991 Code is out of numerical sequence. See 66983-66986

Other Procedures

+ 66990 Use of ophthalmic endoscope (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Sep 05:12, Oct 08:3

(66990 may be used only with codes 65820, 65875, 65920, 66985, 66986, 67036, 67039, 67040, 67041, 67042, 67043, 67113)

66999 Unlisted procedure, anterior segment of eye

- *CPT Assistant* Apr 16:8, Sep 21:10, Aug 22:1, Nov 22:18, Oct 24:15

Posterior Segment

Vitreous

67005 Removal of vitreous, anterior approach (open sky technique or limbal incision); partial removal

- *CPT Assistant* Fall 92:4

67010 subtotal removal with mechanical vitrectomy

- *CPT Assistant* Fall 92:4

(For removal of vitreous by paracentesis of anterior chamber, use 65810)

(For removal of corneovitreal adhesions, use 65880)

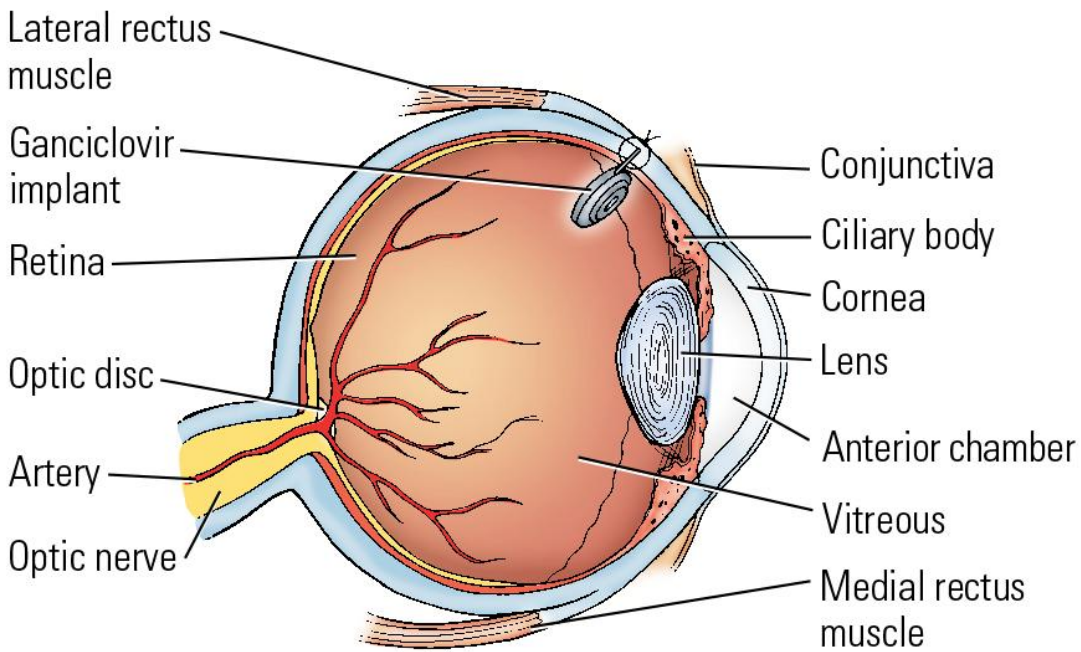
67015 Aspiration or release of vitreous, subretinal or choroidal fluid, pars plana approach (posterior sclerotomy)

- *CPT Assistant* Feb 24:35

67025 Injection of vitreous substitute, pars plana or limbal approach (fluid-gas exchange), with or without aspiration (separate procedure)

- *CPT Assistant* Feb 18:3, Aug 19:11

67027 Implantation of intravitreal drug delivery system (eg, ganciclovir implant), includes concomitant removal of vitreous



- *CPT Assistant* Nov 97:23, Nov 98:1, Feb 18:3

(For removal, use 67121)

Intravitreal Drug Delivery System

67027

A drug delivery system that releases medication into the vitreous is implanted into the vitreous by pars plana incision.

67028 Intravitreal injection of a pharmacologic agent (separate procedure)

CPT Assistant Winter 90:9, Oct 12:15, Feb 18:3

67030 Discission of vitreous strands (without removal), pars plana approach

67031 Severing of vitreous strands, vitreous face adhesions, sheets, membranes or opacities, laser surgery (1 or more stages)

67036 Vitrectomy, mechanical, pars plana approach;

CPT Assistant Fall 92:6, Oct 08:3

67039 with focal endolaser photocoagulation

CPT Assistant Winter 90:9, Sep 05:12

67040 with endolaser panretinal photocoagulation

CPT Assistant Winter 90:9, Sep 05:12, Jul 07:12

67041 with removal of preretinal cellular membrane (eg, macular pucker)

CPT Changes: An Insider's View 2008

67042 with removal of internal limiting membrane of retina (eg, for repair of macular hole, diabetic macular edema), includes, if performed, intraocular tamponade (ie, air, gas or silicone oil)

CPT Changes: An Insider's View 2008

67043 with removal of subretinal membrane (eg, choroidal neovascularization), includes, if performed, intraocular tamponade (ie, air, gas or silicone oil) and laser photocoagulation

CPT Changes: An Insider's View 2008

(For use of ophthalmic endoscope with 67036, 67039, 67040-67043, use 66990)

(For associated lensectomy, use 66850)

(For use of vitrectomy in retinal detachment surgery, see 67108, 67113)

(For associated removal of foreign body, see 65260, 65265)

(For unlisted procedures on vitreous, use 67299)

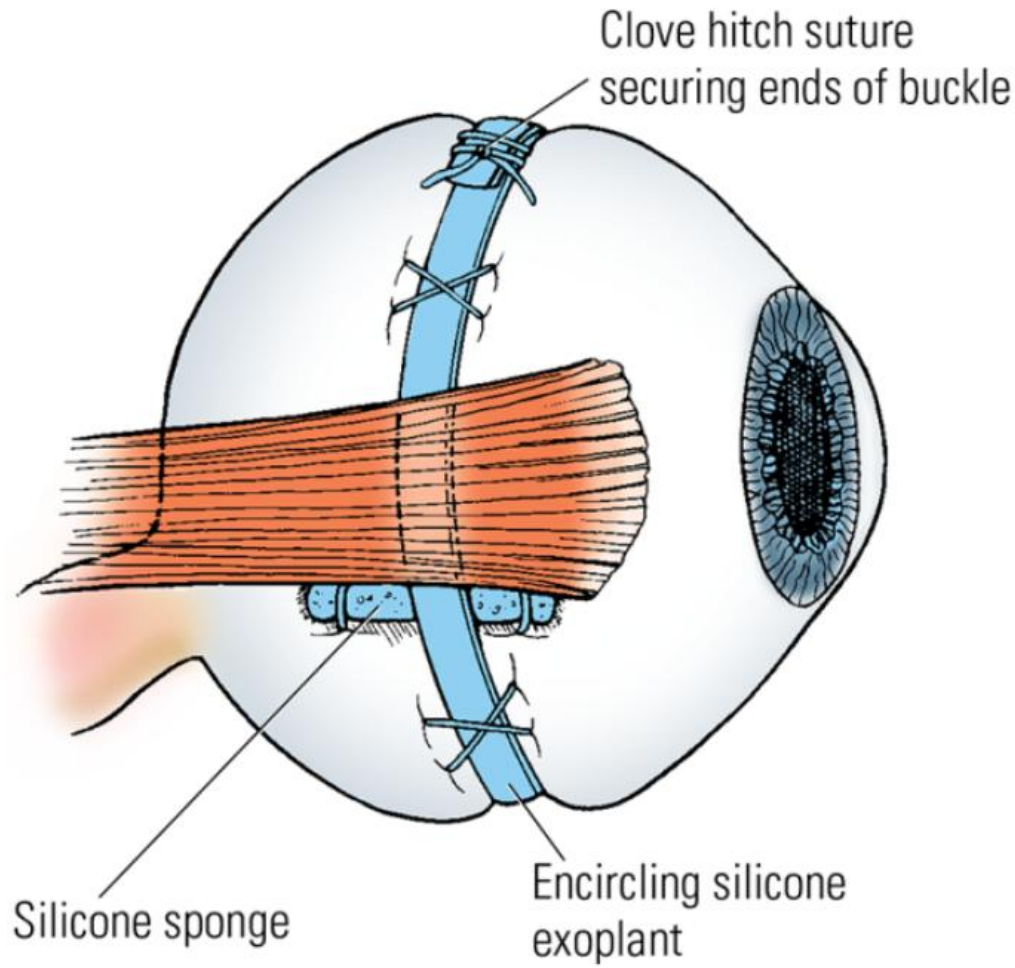
Repair

(If diathermy, cryotherapy and/or photocoagulation are combined, report under principal modality used)

67101 Repair of retinal detachment, including drainage of subretinal fluid when performed; cryotherapy

- *CPT Changes: An Insider's View* 2016, 2017
- *CPT Assistant* Mar 98:7, Jun 16:6, Sep 16:5, Feb 17:14

67105 photocoagulation



- *CPT Changes: An Insider's View* 2016, 2017
- *CPT Assistant* Mar 98:7, Jun 16:6, Sep 16:5, Feb 17:14

67107 Repair of retinal detachment; scleral buckling (such as lamellar scleral dissection, imbrication or encircling procedure), including, when performed, implant, cryotherapy, photocoagulation, and drainage of subretinal fluid

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Jun 16:6, Sep 16:5, Aug 19:11

Repair of Retinal Detachment
67107

The retinal tear is treated externally by placing a hot or cold probe over the sclera and then depressing it. The burn seals the choroid to the retina at the site of the tear. The healing scar is supported by the encircling band, which buckles the eye.

67108 with vitrectomy, any method, including, when performed, air or gas tamponade, focal endolaser photocoagulation, cryotherapy, drainage of subretinal fluid, scleral buckling, and/or removal of lens by same technique

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Winter 90:9, Mar 12:9, Jun 16:6, Sep 16:5, Sep 24:25

67110 by injection of air or other gas (eg, pneumatic retinopexy)

- *CPT Assistant* Winter 90:9, Sep 16:5

(For aspiration or drainage of subretinal or subchoroidal fluid, use 67015)

67113 Repair of complex retinal detachment (eg, proliferative vitreoretinopathy, stage C-1 or greater, diabetic traction retinal detachment, retinopathy of prematurity, retinal tear of greater than 90 degrees), with vitrectomy and membrane peeling, including, when performed, air, gas, or silicone oil tamponade, cryotherapy, endolaser photocoagulation, drainage of subretinal fluid, scleral buckling, and/or removal of lens

- *CPT Changes: An Insider's View* 2008, 2016
- *CPT Assistant* Jun 16:6, Sep 16:5

(To report vitrectomy, pars plana approach, other than in retinal detachment surgery, see 67036-67043)

(For use of ophthalmic endoscope with 67113, use 66990)

67115 Release of encircling material (posterior segment)

67120 Removal of implanted material, posterior segment; extraocular

67121 intraocular

- *CPT Assistant* Nov 97:23, Nov 98:19

(For removal from anterior segment, use 65920)

(For removal of foreign body, see 65260, 65265)

Prophylaxis

67141 Prophylaxis of retinal detachment (eg, retinal break, lattice degeneration) without drainage; cryotherapy, diathermy

- *CPT Changes: An Insider's View* 2022
- *CPT Assistant* Mar 98:7, Oct 08:3, Sep 16:5, Nov 21:9

67145 photocoagulation

- *CPT Changes: An Insider's View* 2022
- *CPT Assistant* Fall 92:4, Mar 98:7, Sep 16:5, Nov 21:9

Destruction

Codes 67208, 67210, 67218, 67220, 67229 include treatment at one or more sessions that may occur at different encounters. These codes should be reported once during a defined treatment period.

67208 Destruction of localized lesion of retina (eg, macular edema, tumors), 1 or more sessions; cryotherapy, diathermy

- *CPT Assistant* Mar 98:7, Nov 98:19, Oct 08:3

67210 photocoagulation

- *CPT Assistant* Mar 98:7, Nov 98:19, Oct 08:3, Jan 12:3

67218 radiation by implantation of source (includes removal of source)

- *CPT Assistant* Mar 98:7, Oct 08:3

67220 Destruction of localized lesion of choroid (eg, choroidal neovascularization); photocoagulation (eg, laser), 1 or more sessions

- *CPT Changes: An Insider's View* 2000, 2001
- *CPT Assistant* Nov 98:19, Nov 99:39, Feb 01:8, Oct 08:3, Jan 12:3

67221 photodynamic therapy (includes intravenous infusion)

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Feb 01:8, Sep 01:10, Jun 02:10, Feb 18:10

+ 67225 photodynamic therapy, second eye, at single session (List separately in addition to code for primary eye treatment)

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Jun 02:10

(Use 67225 in conjunction with 67221)

67227 Destruction of extensive or progressive retinopathy (eg, diabetic retinopathy), cryotherapy, diathermy

- *CPT Changes: An Insider's View* 2008, 2016
- *CPT Assistant* Mar 98:7, Oct 08:3

67228 Treatment of extensive or progressive retinopathy (eg, diabetic retinopathy), photocoagulation

- *CPT Changes: An Insider's View* 2008, 2016
- *CPT Assistant* Mar 98:7, Oct 08:3

67229 Treatment of extensive or progressive retinopathy, 1 or more sessions, preterm infant (less than 37 weeks gestation at birth), performed from birth up to 1 year of age (eg, retinopathy of prematurity), photocoagulation or cryotherapy

- *CPT Changes: An Insider's View* 2008

(For bilateral procedure, use modifier 50 with 67208, 67210, 67218, 67220, 67227, 67228, 67229)

(For unlisted procedures on retina, use 67299)

(For photobiomodulation therapy of retina, single session, use 0936T)

Posterior Sclera

Repair

(For excision lesion sclera, use 66130)

67250 Scleral reinforcement (separate procedure); without graft

67255 with graft

CPT Assistant Jun 12:15, Jan 15:10, Oct 24:15

(Do not report 67255 in conjunction with 66180, 66185)

(For repair scleral staphyloma, use 66225)

Other Procedures

67299 Unlisted procedure, posterior segment

CPT Assistant Aug 24:20, Oct 24:15

Ocular Adnexa

Extraocular Muscles

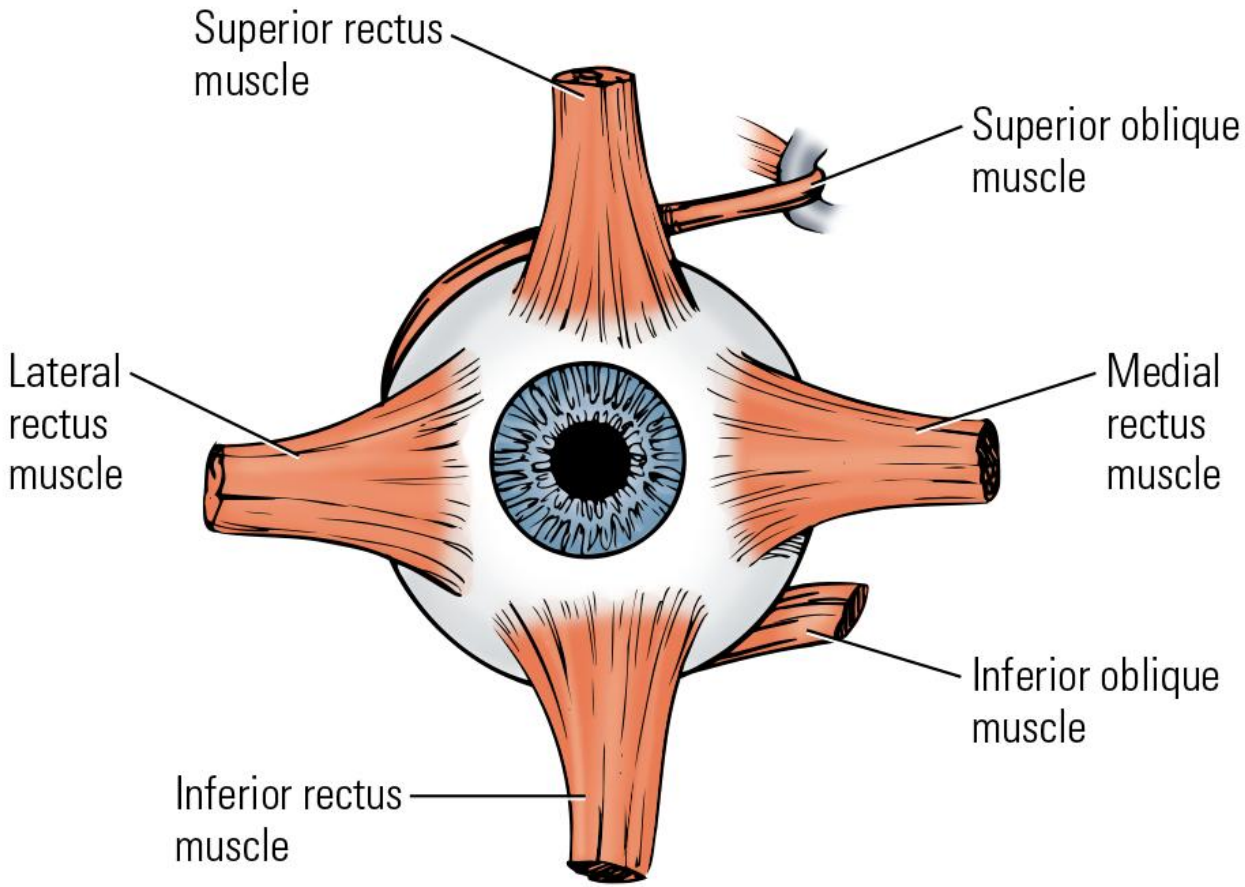
67311 Strabismus surgery, recession or resection procedure; 1 horizontal muscle

CPT Assistant Summer 93:20, Mar 97:5, Nov 98:19, Sep 02:10, Jan 17:7

67312 2 horizontal muscles

CPT Assistant Summer 93:20, Mar 97:5

67314 1 vertical muscle (excluding superior oblique)

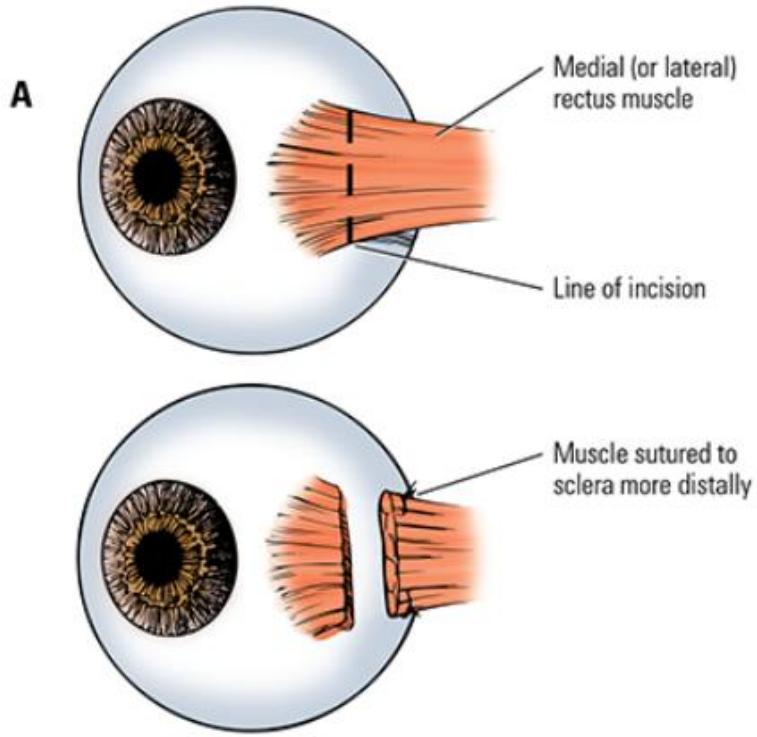


CPT Assistant Summer 93:20, Mar 97:5

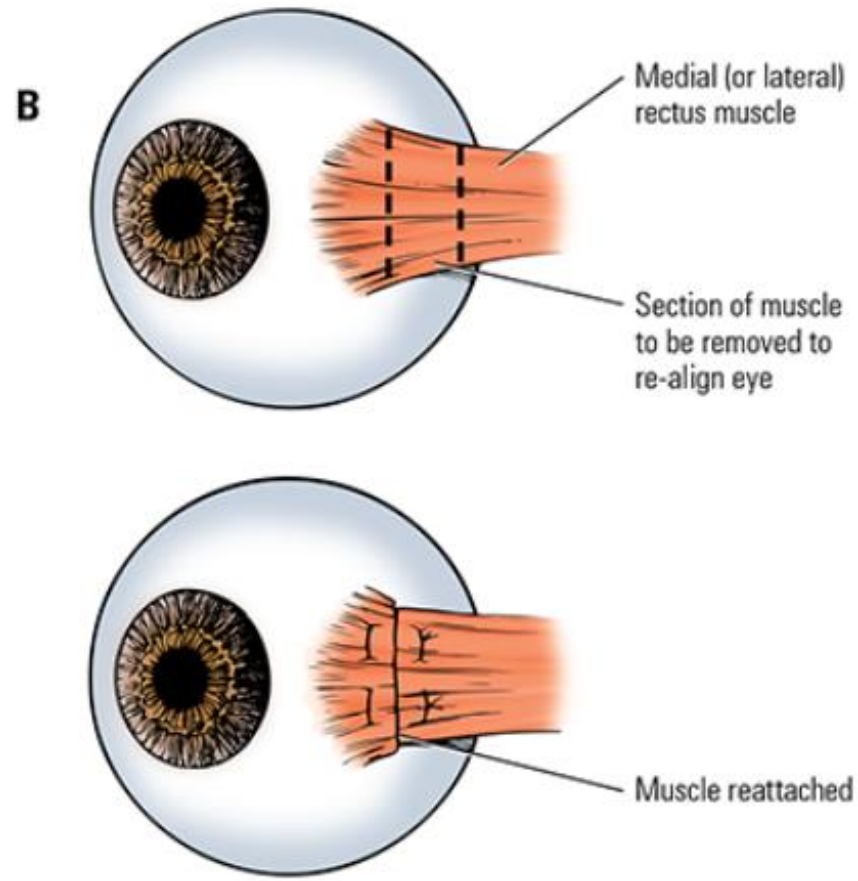
67316 2 or more vertical muscles (excluding superior oblique)

CPT Assistant Summer 93:20, Mar 97:5

(For adjustable sutures, use 67335 in addition to codes 67311-67334 for primary procedure reflecting number of muscles operated on)



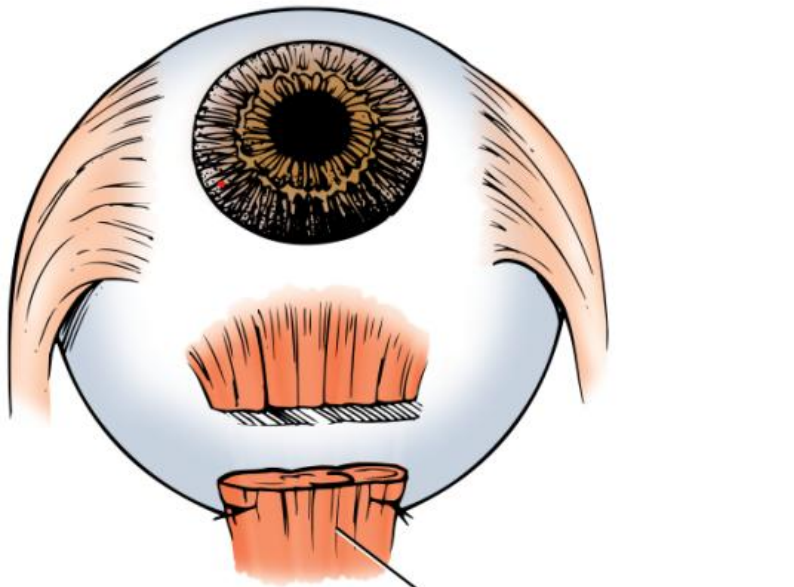
Extraocular Muscles of Right Eye



Strabismus Surgery—Horizontal Muscles

67311-67312

In Figure A, the medial or lateral rectus muscle is made weaker by recession (retroplacement of the muscle attachment). In Figure B, it is made stronger by resection (removal of a segment). Use 67311 for one horizontal muscle and 67312 for two muscles of the same eye.



Strabismus Surgery—Vertical Muscles

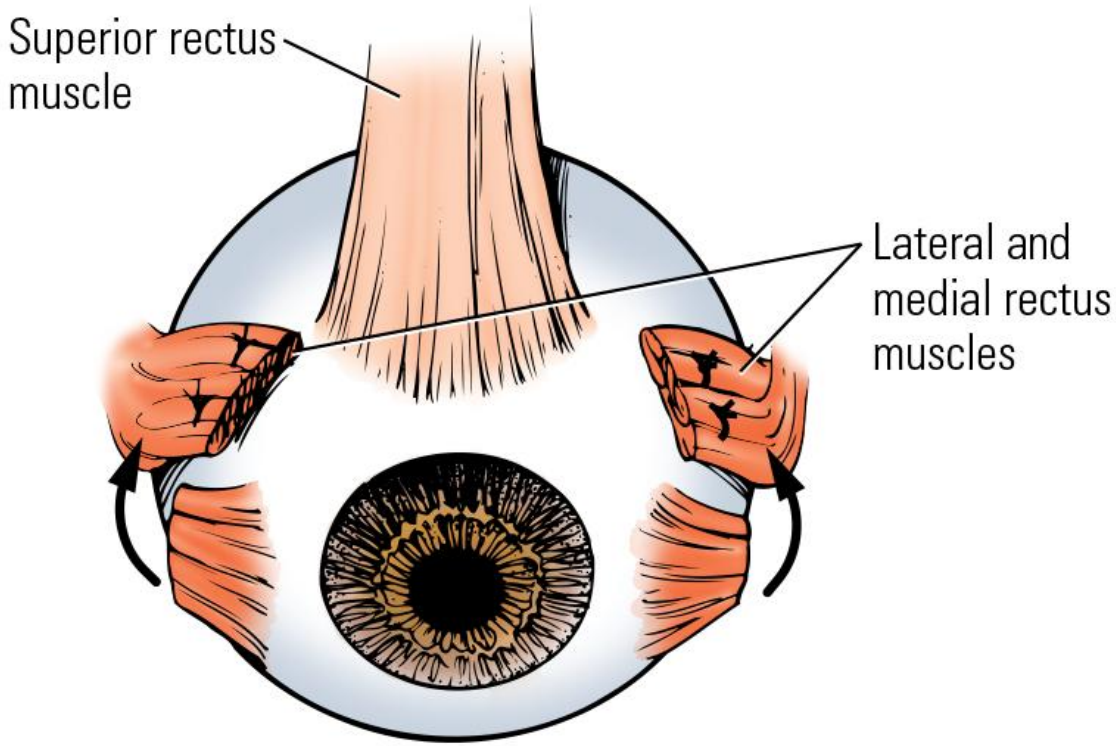
67314-67316

Either the superior or inferior rectus muscle is strengthened or weakened.
Use 67316 for two muscles of the same eye.

67318 Strabismus surgery, any procedure, superior oblique muscle

CPT Assistant Summer 93:20, Mar 97:5, Nov 98:19

+ 67320 Transposition procedure (eg, for paretic extraocular muscle), any extraocular muscle (specify) (List separately in addition to code for primary procedure)



CPT Assistant Summer 93:20, Mar 97:5

(Use 67320 in conjunction with 67311-67318)

Transposition Procedure

67320

The extraocular muscles are transposed.

+ 67331 Strabismus surgery on patient with previous eye surgery or injury that did not involve the extraocular muscles (List separately in addition to code for primary procedure)

CPT Assistant Summer 93:20, Mar 97:5

(Use 67331 in conjunction with 67311-67318)

+ 67332 Strabismus surgery on patient with scarring of extraocular muscles (eg, prior ocular injury, strabismus or retinal detachment surgery) or restrictive myopathy (eg, dysthyroid ophthalmopathy) (List separately in addition to code for primary procedure)

CPT Assistant Summer 93:20, Mar 97:5

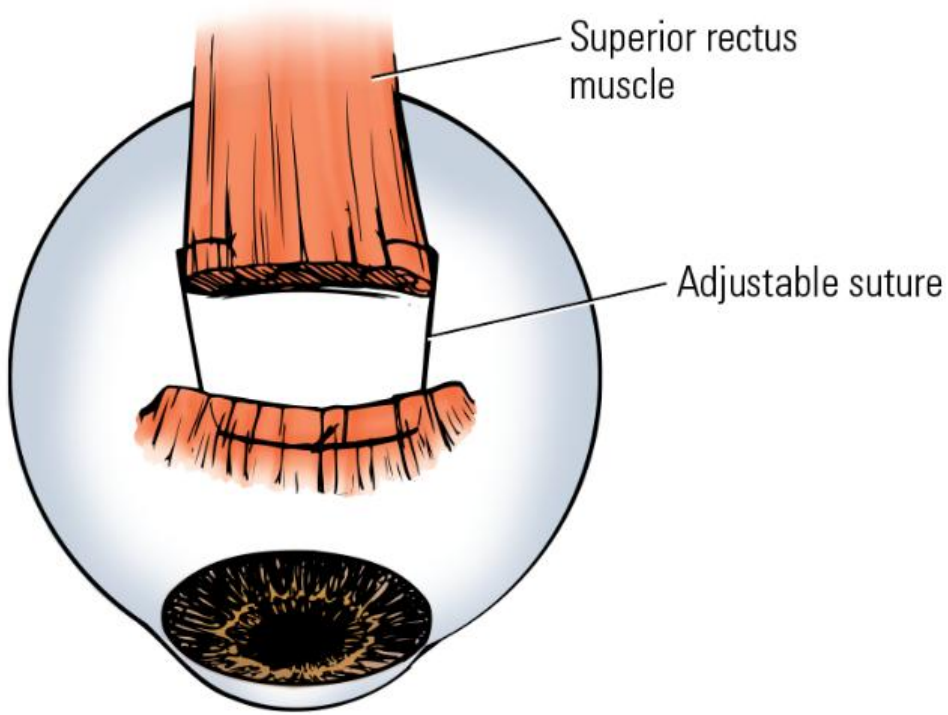
(Use 67332 in conjunction with 67311-67318)

+ 67334 Strabismus surgery by posterior fixation suture technique, with or without muscle recession (List separately in addition to code for primary procedure)

CPT Assistant Summer 93:20, Mar 97:5

(Use 67334 in conjunction with 67311-67318)

+ 67335 Placement of adjustable suture(s) during strabismus surgery, including postoperative adjustment(s) of suture(s) (List separately in addition to code for specific strabismus surgery)



CPT Assistant Summer 93:20, Mar 97:5

(Use 67335 in conjunction with 67311-67334)

Strabismus Surgery—Adjustable Sutures

67335

Sutures are tied in such a way as to allow the tension on the muscle to be adjusted after the anesthetic is not affecting the position of the globe.

+ **67340** Strabismus surgery involving exploration and/or repair of detached extraocular muscle(s) (List separately in addition to code for primary procedure)

CPT Assistant Summer 93:20, Mar 97:5

(Use 67340 in conjunction with 67311-67334)

67343 Release of extensive scar tissue without detaching extraocular muscle (separate procedure)

CPT Assistant Summer 93:20, Mar 97:5

(Use 67343 in conjunction with 67311-67340, when such procedures are performed other than on the affected muscle)

67345 Chemodenervation of extraocular muscle

CPT Assistant Summer 93:20, Mar 97:5, Apr 00:2, Feb 10:13, Dec 13:10, May 14:5

(For chemodenervation for blepharospasm and other neurological disorders, see 64612 and 64616)

67346 Biopsy of extraocular muscle

CPT Changes: An Insider's View 2007

(For repair of wound, extraocular muscle, tendon or Tenon's capsule, use 65290)

Other Procedures

67399 Unlisted procedure, extraocular muscle

CPT Changes: An Insider's View 2015

CPT Assistant Jul 17:10

Orbit

Exploration, Excision, Decompression

67400 Orbitotomy without bone flap (frontal or transconjunctival approach); for exploration, with or without biopsy
67405 with drainage only
67412 with removal of lesion
67413 with removal of foreign body
67414 with removal of bone for decompression
CPT Assistant Jul 99:10
67415 Fine needle aspiration of orbital contents

(For exenteration, enucleation, and repair, see 65101 et seq; for optic nerve decompression, use 67570)
67420 Orbitotomy with bone flap or window, lateral approach (eg, Kroenlein); with removal of lesion
67430 with removal of foreign body
67440 with drainage
67445 with removal of bone for decompression
CPT Assistant Dec 19:14

(For optic nerve sheath decompression, use 67570)
67450 for exploration, with or without biopsy

(For orbitotomy, transcranial approach, see 61330, 61333)

(For orbital implant, see 67550, 67560)

(For removal of eyeball or for repair after removal, see 65091-65175)

Other Procedures

67500 Retrobulbar injection; medication (separate procedure, does not include supply of medication)
CPT Assistant Nov 12:10
67505 alcohol
67515 Injection of medication or other substance into Tenon's capsule
CPT Changes: An Insider's View 2002
CPT Assistant Nov 12:10
(For subconjunctival injection, use 68200)
67516 Suprachoroidal space injection of pharmacologic agent (separate procedure)
CPT Changes: An Insider's View 2024
CPT Assistant Nov 23:8

(Report medication separately)
67550 Orbital implant (implant outside muscle cone); insertion
67560 removal or revision

(For ocular implant (implant inside muscle cone), see 65093-65105, 65130-65175)

(For treatment of fractures of malar area, orbit, see 21355 et seq)
67570 Optic nerve decompression (eg, incision or fenestration of optic nerve sheath)
67599 Unlisted procedure, orbit

Eyelids

Incision

67700 Blepharotomy, drainage of abscess, eyelid

CPT Assistant Mar 13:6

67710 Severing of tarsorrhaphy

CPT Assistant Mar 13:6

67715 Canthotomy (separate procedure)

CPT Assistant Mar 13:6

(For canthoplasty, use 67950)

(For division of symblepharon, use 68340)

 # 67810 Incisional biopsy of eyelid skin including lid margin

CPT Changes: An Insider's View 2013

CPT Assistant Dec 04:19, Feb 13:16, Mar 13:6

(For biopsy of skin of the eyelid, see 11102, 11103, 11104, 11105, 11106, 11107)

Excision, Destruction

Codes for removal of lesion include more than skin (ie, involving lid margin, tarsus, and/or palpebral conjunctiva).

(For removal of lesion, involving mainly skin of eyelid, see 11310-11313; 11440-11446, 11640-11646; 17000-17004)

(For repair of wounds, blepharoplasty, grafts, reconstructive surgery, see 67930-67975)

67800 Excision of chalazion; single

CPT Assistant Sep 99:10

67801 multiple, same lid

67805 multiple, different lids

CPT Assistant Sep 99:10

67808 under general anesthesia and/or requiring hospitalization, single or multiple

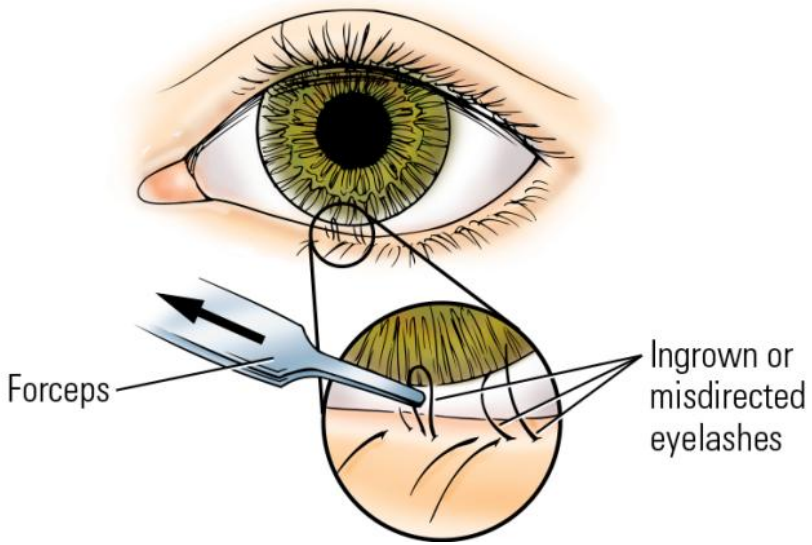
67810 Code is out of numerical sequence. See 67710-67801

67820 Correction of trichiasis; epilation, by forceps only

CPT Assistant Jul 98:10

67825 epilation by other than forceps (eg, by electrosurgery, cryotherapy, laser surgery)

CPT Assistant Jul 98:10



67830 incision of lid margin

67835 incision of lid margin, with free mucous membrane graft

Trichiasis

67820-67825

When the eyelashes are ingrown or misdirected (trichiasis), the physician uses a biomicroscope and forceps to remove the offending eyelashes. Report 67825 when cryosurgery or electrosurgery is used to destroy the follicles.

67840 Excision of lesion of eyelid (except chalazion) without closure or with simple direct closure

(For excision and repair of eyelid by reconstructive surgery, see 67961, 67966)

67850 Destruction of lesion of lid margin (up to 1 cm)

(For Mohs micrographic surgery, see 17311-17315)

(For initiation or follow-up care of topical chemotherapy (eg, 5-FU or similar agents), see appropriate office visits)

Tarsorrhaphy

67875 Temporary closure of eyelids by suture (eg, Frost suture)

CPT Assistant Winter 90:9

67880 Construction of intermarginal adhesions, median tarsorrhaphy, or canthorrhaphy;

67882 with transposition of tarsal plate

(For severing of tarsorrhaphy, use 67710)

(For canthoplasty, reconstruction canthus, use 67950)

(For canthotomy, use 67715)

Repair (Brow Ptosis, Blepharoptosis, Lid Retraction, Ectropion, Entropion)

67900 Repair of brow ptosis (supraciliary, mid-forehead or coronal approach)

CPT Assistant Feb 25:30

(For forehead rhytidectomy, use 15824)

67901 Repair of blepharoptosis; frontalis muscle technique with suture or other material (eg, banked fascia)

CPT Changes: An Insider's View 2006

CPT Assistant Sep 00:7, Oct 06:11, Jul 17:10, Feb 25:21

67902 frontalis muscle technique with autologous fascial sling (includes obtaining fascia)

CPT Changes: An Insider's View 2006

CPT Assistant Sep 00:7, Oct 06:11, Feb 25:21

67903 (tarso) levator resection or advancement, internal approach

CPT Assistant Sep 00:7, Oct 06:11, Feb 25:21

67904 (tarso) levator resection or advancement, external approach

CPT Assistant Sep 00:7, Oct 06:11, Aug 11:8, Feb 25:21

67906 superior rectus technique with fascial sling (includes obtaining fascia)

CPT Assistant Sep 00:7, Oct 06:11, Feb 25:21

67908 conjunctivo-tarso-Muller's muscle-levator resection (eg, Fasanella-Servat type)

CPT Assistant Sep 00:7, Oct 06:11, Mar 21:11, Feb 25:21

67909 Reduction of overcorrection of ptosis

67911 Correction of lid retraction

CPT Assistant Nov 21:13

(For obtaining autologous graft materials, see 15769, 20920, 20922)

(For correction of lid defects using fat harvested via liposuction technique, see 15773, 15774)

(For correction of trichiasis by mucous membrane graft, use 67835)

67912 Correction of lagophthalmos, with implantation of upper eyelid lid load (eg, gold weight)

CPT Changes: An Insider's View 2004

CPT Assistant May 04:12, Aug 04:10, Oct 06:11

67914 Repair of ectropion; suture

67915 thermocauterization

67916 excision tarsal wedge

CPT Changes: An Insider's View 2004

CPT Assistant Feb 04:11, May 04:12, Feb 05:16, Oct 06:11

67917 extensive (eg, tarsal strip operations)

CPT Changes: An Insider's View 2004

CPT Assistant Feb 04:11, May 04:12, Oct 06:11, Feb 20:13, Mar 20:14

(For correction of everted punctum, use 68705)

67921 Repair of entropion; suture

67922 thermocauterization

67923 excision tarsal wedge

CPT Changes: An Insider's View 2004

CPT Assistant May 04:12, Oct 06:11

67924 extensive (eg, tarsal strip or capsulopalpebral fascia repairs operation)

CPT Changes: An Insider's View 2004

CPT Assistant May 04:12, Oct 06:11

(For repair of cicatricial ectropion or entropion requiring scar excision or skin graft, see also 67961 et seq)

Reconstruction

Codes for blepharoplasty involve more than skin (ie, involving lid margin, tarsus, and/or palpebral conjunctiva).

67930 Suture of recent wound, eyelid, involving lid margin, tarsus, and/or palpebral conjunctiva direct closure; partial thickness

67935 full thickness

67938 Removal of embedded foreign body, eyelid

CPT Assistant May 14:5

(For repair of skin of eyelid, see 12011-12018, 12051-12057, 13151-13153)

(For tarsorrhaphy, canthorrhaphy, see 67880, 67882)

(For repair of blepharoptosis and lid retraction, see 67901-67911)

(For blepharoplasty for entropion, ectropion, see 67916, 67917, 67923, 67924)

(For correction of blepharochalasis (blepharorhytidectomy), see 15820-15823)

(For repair of skin of eyelid, adjacent tissue transfer, see 14060, 14061; preparation for graft, use 15004; free graft, see 15120, 15121, 15260, 15261)

(For excision of lesion of eyelid, use 67800 et seq)

(For repair of lacrimal canaliculi, use 68700)

67950 Canthoplasty (reconstruction of canthus)

67961 Excision and repair of eyelid, involving lid margin, tarsus, conjunctiva, canthus, or full thickness, may include preparation for skin graft or pedicle flap with adjacent tissue transfer or rearrangement; up to one-fourth of lid margin

67966 over one-fourth of lid margin

CPT Assistant Nov 12:13

(For canthoplasty, use 67950)

(For free skin grafts, see 15120, 15121, 15260, 15261)

(For tubed pedicle flap preparation, use 15576; for delay, use 15630; for attachment, use 15650)

67971 Reconstruction of eyelid, full thickness by transfer of tarsoconjunctival flap from opposing eyelid; up to two-thirds of eyelid, 1 stage or first stage

67973 total eyelid, lower, 1 stage or first stage

67974 total eyelid, upper, 1 stage or first stage

67975 second stage

Other Procedures

67999 Unlisted procedure, eyelids

CPT Assistant Jul 17:10

Conjunctiva

(For removal of foreign body, see 65205 et seq)

Incision and Drainage

68020 Incision of conjunctiva, drainage of cyst

68040 Expression of conjunctival follicles (eg, for trachoma)

CPT Assistant May 14:5

(To report automated evacuation of meibomian glands, use 0207T)

(For manual evacuation of meibomian glands, use 0563T)

Excision and/or Destruction

68100 Biopsy of conjunctiva

68110 Excision of lesion, conjunctiva; up to 1 cm

CPT Assistant Jan 17:7, Feb 18:11

68115 over 1 cm

CPT Assistant Feb 18:11

68130 with adjacent sclera

68135 Destruction of lesion, conjunctiva

Injection

(For injection into Tenon's capsule or retrobulbar injection, see 67500-67515)

68200 Subconjunctival injection

CPT Assistant Aug 03:15, Nov 12:10

Conjunctivoplasty

(For wound repair, see 65270-65273)

68320 Conjunctivoplasty; with conjunctival graft or extensive rearrangement

CPT Assistant Feb 04:11

68325 with buccal mucous membrane graft (includes obtaining graft)

68326 Conjunctivoplasty, reconstruction cul-de-sac; with conjunctival graft or extensive rearrangement

68328 with buccal mucous membrane graft (includes obtaining graft)

68330 Repair of symblepharon; conjunctivoplasty, without graft

68335 with free graft conjunctiva or buccal mucous membrane (includes obtaining graft)

68340 division of symblepharon, with or without insertion of conformer or contact lens

Other Procedures

68360 Conjunctival flap; bridge or partial (separate procedure)
68362 total (such as Gunderson thin flap or purse string flap)

(For conjunctival flap for perforating injury, see 65280, 65285)

(For repair of operative wound, use 66250)

(For removal of conjunctival foreign body, see 65205, 65210)
68371 Harvesting conjunctival allograft, living donor

CPT Changes: An Insider's View 2004
CPT Assistant May 04:10
68399 Unlisted procedure, conjunctiva

Lacrimal System

Incision

68400 Incision, drainage of lacrimal gland
68420 Incision, drainage of lacrimal sac (dacryocystotomy or dacryocystostomy)
68440 Snip incision of lacrimal punctum

Excision

68500 Excision of lacrimal gland (dacryoadenectomy), except for tumor; total
68505 partial
68510 Biopsy of lacrimal gland
68520 Excision of lacrimal sac (dacryocystectomy)
68525 Biopsy of lacrimal sac
68530 Removal of foreign body or dacryolith, lacrimal passages
68540 Excision of lacrimal gland tumor; frontal approach
68550 involving osteotomy

Repair

68700 Plastic repair of canaliculi

68705 Correction of everted punctum, cautery

CPT Assistant Feb 20:13

68720 Dacryocystorhinostomy (fistulization of lacrimal sac to nasal cavity)

CPT Assistant Sep 01:10, Jul 03:15, Aug 03:14, Aug 09:11

68745 Conjunctivorhinostomy (fistulization of conjunctiva to nasal cavity); without tube

68750 with insertion of tube or stent

68760 Closure of the lacrimal punctum; by thermocauterization, ligation, or laser surgery

68761 by plug, each

CPT Assistant Jun 96:10, Jan 07:28

(For insertion and removal of drug-eluting implant into lacrimal canaliculus for intraocular pressure, use 68841)

(For placement of drug-eluting insert under the eyelid[s], see 0444T, 0445T)

68770 Closure of lacrimal fistula (separate procedure)

Probing and/or Related Procedures

68801 Dilation of lacrimal punctum, with or without irrigation

(To report a bilateral procedure, use 68801 with modifier 50)

68810 Probing of nasolacrimal duct, with or without irrigation;

CPT Assistant Nov 02:11, Oct 08:3

(For bilateral procedure, report 68810 with modifier 50)

68811 requiring general anesthesia

CPT Assistant Nov 02:11, Oct 08:3

(For bilateral procedure, report 68811 with modifier 50)

68815 with insertion of tube or stent

CPT Assistant Nov 02:11, Oct 08:3, Aug 09:11, Nov 10:9

(See also 92018)

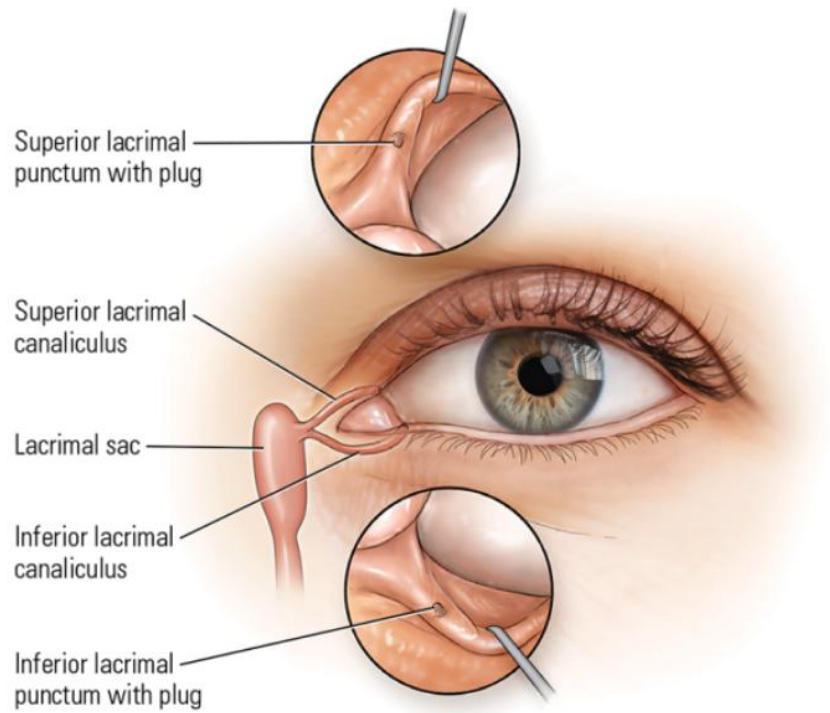
(For bilateral procedure, report 68815 with modifier 50)

(For insertion and removal of drug-eluting implant into lacrimal canaliculus for intraocular pressure, use 68841)

(For placement of drug-eluting insert under the eyelid[s], see 0444T, 0445T)

68816 with transluminal balloon catheter dilation

CPT Changes: An Insider's View 2008



(Do not report 68816 in conjunction with 68810, 68811, 68815)

(For bilateral procedure, report 68816 with modifier 50)

Closure of Lacrimal Punctum by Plug

68761

The physician inserts a lacrimal duct implant into a lacrimal punctum.

68840 Probing of lacrimal canaliculi, with or without irrigation

68841 Insertion of drug-eluting implant, including punctal dilation when performed, into lacrimal canaliculus, each

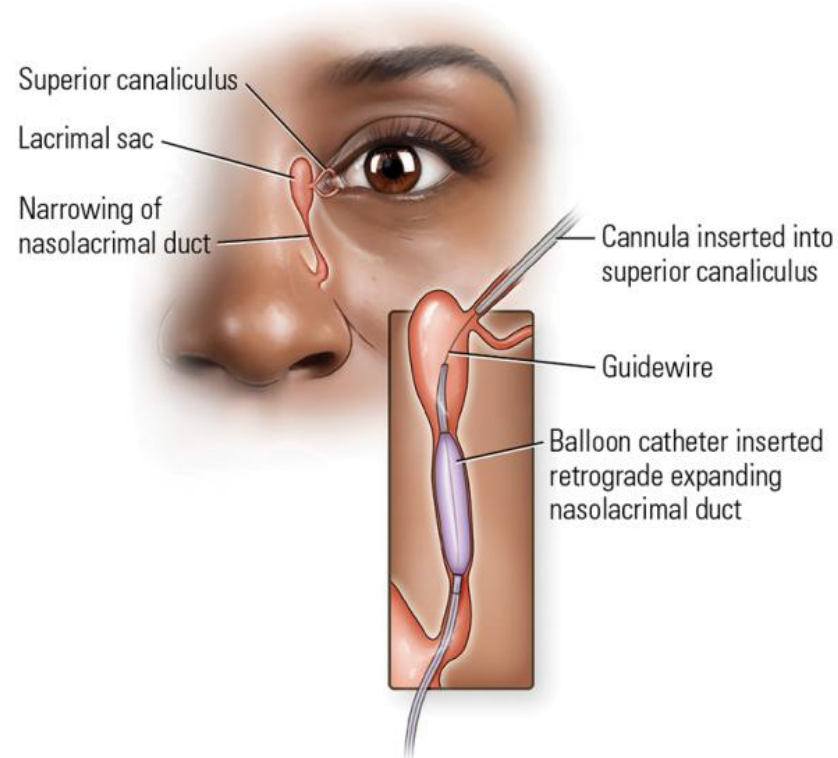
CPT Changes: An Insider's View 2022

(For placement of drug-eluting ocular insert under the eyelid[s], see 0444T, 0445T)

(Report drug-eluting implant separately with 99070 or appropriate supply code)

68850 Injection of contrast medium for dacryocystography

CPT Assistant Feb 01:9

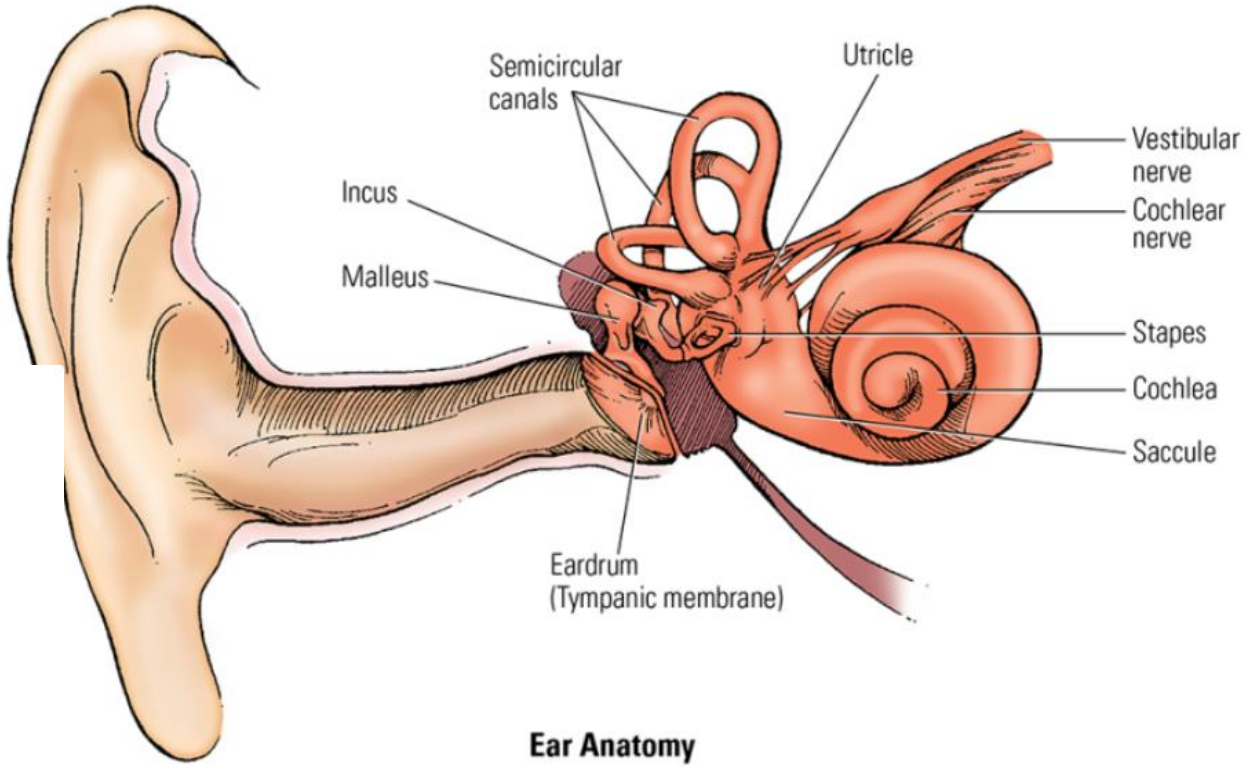


(For radiological supervision and interpretation, see 70170, 78660)

Other Procedures

68899 Unlisted procedure, lacrimal system

Probing of Nasolacrimal Duct
68816



A balloon catheter is in the nasolacrimal duct.

Surgery

Auditory System (69000-69979)

The following is a listing of headings and subheadings that appear within the Auditory System and Operating Microscope sections of the CPT codebook. The subheadings or subsections denoted with asterisks (*) below have special instructions unique to that subsection. Where these are indicated, special notes or guidelines will be presented preceding those procedural terminology listings, referring to that subsection specifically. Note that all code ranges in each subsection are listed as they appear in the subsection, even if the code numbers are out of numerical sequence and/or repeated in the next subsection.

Ear Anatomy

External Ear (69000-69399)
- Incision (69000-69090)
- Excision (69100-69155)
- Removal (69200-69222)
- Repair (69300-69320)
- Other Procedures (69399)

Middle Ear (69420-69799)
- Incision (69420-69450)
- Excision (69501-69554)
- Repair (69601-69676)
- Osseointegrated Implants* (69714-69728)
- Other Procedures (69700-69799)

Inner Ear (69801-69949)
- Incision and/or Destruction (69801-69806)
- Excision (69905-69915)
- Introduction (69930)
- Other Procedures (69949)

Temporal Bone, Middle Fossa Approach (69950-69979)
- Other Procedures (69979)

Operating Microscope* (69990)

Auditory System

(For diagnostic services (eg, audiometry, vestibular tests), see 92502 et seq)

External Ear

Incision

69000 Drainage external ear, abscess or hematoma; simple

CPT Assistant Oct 97:11, Oct 99:10

69005 complicated

69020 Drainage external auditory canal, abscess

CPT Assistant Oct 97:11

69090 Ear piercing

Excision

69100 Biopsy external ear

69105 Biopsy external auditory canal

69110 Excision external ear; partial, simple repair

CPT Assistant Dec 23:42

69120 complete amputation

(For reconstruction of ear, see 15120 et seq)

69140 Excision exostosis(es), external auditory canal

69145 Excision soft tissue lesion, external auditory canal

CPT Assistant Dec 19:14

69150 Radical excision external auditory canal lesion; without neck dissection

69155 with neck dissection

(For resection of temporal bone, use 69535)

(For skin grafting, see 15004-15261)

Removal

69200 Removal foreign body from external auditory canal; without general anesthesia

69205 with general anesthesia

CPT Assistant Apr 13:10, Apr 25:29

69209 Removal impacted cerumen using irrigation/lavage, unilateral

CPT Changes: An Insider's View 2016

CPT Assistant Jan 16:7, Feb 16:14, Mar 16:11

(Do not report 69209 in conjunction with 69210 when performed on the same ear)

(For bilateral procedure, report 69209 with modifier 50)

(For removal of impacted cerumen requiring instrumentation, use 69210)

(For cerumen removal that is not impacted, see E/M service code, which may include new or established patient office or other outpatient services [99202-99215], hospital inpatient or observation care [99221-99223, 99231-99233], hospital inpatient or observation discharge day management [99238, 99239], consultations [99242, 99243, 99244, 99245, 99252, 99253, 99254, 99255], emergency department services [99281-99285], nursing facility services [99304-99316], home or residence services [99341-99350])

69210 Removal impacted cerumen requiring instrumentation, unilateral

CPT Changes: An Insider's View 2014

CPT Assistant Apr 03:9, Jul 05:14, Oct 13:14, Nov 14:14, Jan 16:7, Feb 16:14, Mar 16:11

(Do not report 69210 in conjunction with 69209 when performed on the same ear)

(For bilateral procedure, report 69210 with modifier 50)

(For removal of impacted cerumen achieved with irrigation and/or lavage but without instrumentation, use 69209)

(For cerumen removal that is not impacted, see E/M service code, which may include new or established patient office or other outpatient services [99202-99215], hospital inpatient or observation care [99221-99223, 99231-99233], hospital inpatient or observation discharge day management [99238, 99239], consultations [99242, 99243, 99244, 99245, 99252, 99253, 99254, 99255], emergency department services [99281-99285], nursing facility services [99304-99316], home or residence services [99341-99350])

69220 Debridement, mastoidectomy cavity, simple (eg, routine cleaning)

(For bilateral procedure, report 69220 with modifier 50)

69222 Debridement, mastoidectomy cavity, complex (eg, with anesthesia or more than routine cleaning)

(For bilateral procedure, report 69222 with modifier 50)

Repair

(For suture of wound or injury of external ear, see 12011-14302)

69300 Otoplasty, protruding ear, with or without size reduction

CPT Changes: An Insider's View 2017

(For bilateral procedure, report 69300 with modifier 50)

69310 Reconstruction of external auditory canal (meatoplasty) (eg, for stenosis due to injury, infection) (separate procedure)

CPT Changes: An Insider's View 2002

CPT Assistant Jan 14:9, Jul 14:9

69320 Reconstruction external auditory canal for congenital atresia, single stage

(For combination with middle ear reconstruction, see 69631, 69641)

(For other reconstructive procedures with grafts (eg, skin, cartilage, bone), see 13151-15760, 21230-21235)

Other Procedures

(For otoscopy under general anesthesia, use 92502)

69399 Unlisted procedure, external ear

Middle Ear

Incision

69420 Myringotomy including aspiration and/or eustachian tube inflation

CPT Assistant May 11:8, Apr 21:12

69421 Myringotomy including aspiration and/or eustachian tube inflation requiring general anesthesia

CPT Assistant May 11:8, Apr 21:12

69424 Ventilating tube removal requiring general anesthesia

CPT Changes: An Insider's View 2003

CPT Assistant Mar 05:17, Jun 10:11, Nov 10:9

(For bilateral procedure, report 69424 with modifier 50)

(Do not report code 69424 in conjunction with 69205, 69210, 69420, 69421, 69433-69676, 69710-69745, 69801-69930)

69433 Tympanostomy (requiring insertion of ventilating tube), local or topical anesthesia

CPT Assistant May 11:8, Feb 18:11, Apr 21:14

(For bilateral procedure, report 69433 with modifier 50)

(For tympanostomy requiring insertion of ventilating tube, with iontophoresis, using an automated tube delivery system, use 0583T)

69436 Tympanostomy (requiring insertion of ventilating tube), general anesthesia

CPT Assistant May 11:8, May 12:14, Feb 18:11, Apr 21:14

(For bilateral procedure, report 69436 with modifier 50)

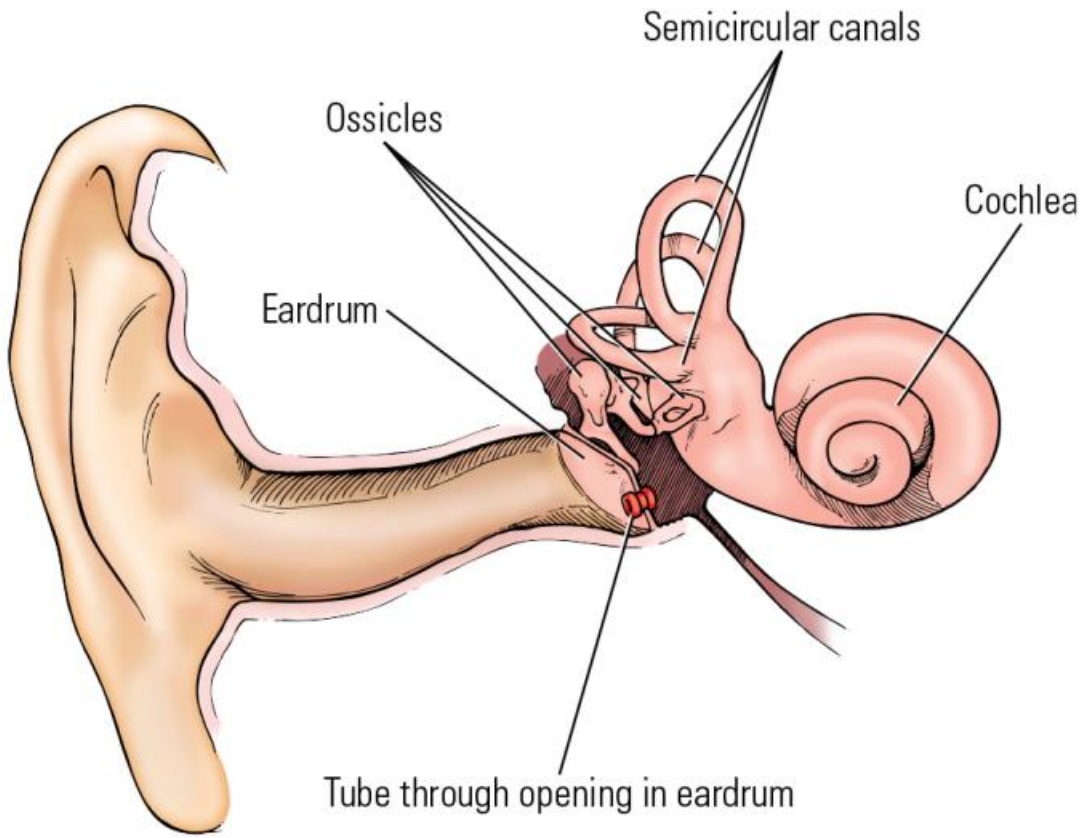
69440 Middle ear exploration through postauricular or ear canal incision

(For atticotomy, see 69601 et seq)

69450 Tympanolysis, transcanal

CPT Assistant May 21:14

Excision



69501 Transmastoid antrotomy (simple mastoidectomy)
CPT Assistant Apr 23:7
69502 Mastoidectomy; complete
69505 modified radical
69511 radical

(For skin graft, see 15004 et seq)

(For mastoidectomy cavity debridement, see 69220, 69222)

Tympanostomy
69433-69436

A ventilating tube is inserted into the opening of the tympanum.

69530 Petrous apicectomy including radical mastoidectomy
69535 Resection temporal bone, external approach

(For middle fossa approach, see 69950-69970)

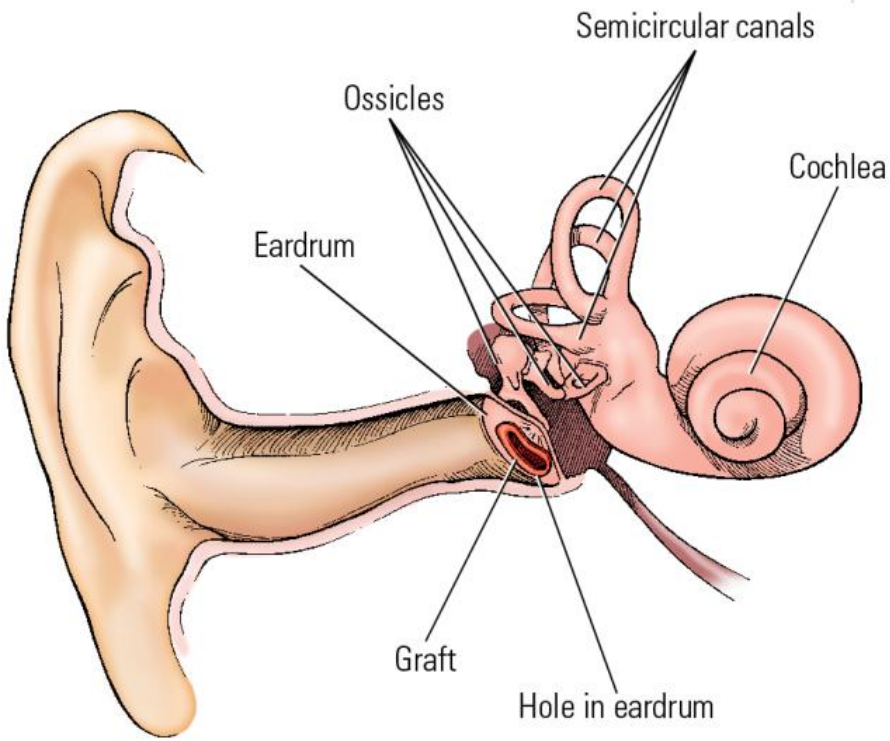
69540 Excision aural polyp
69550 Excision aural glomus tumor; transcanal
69552 transmastoid
69554 extended (extratemporal)

Repair

69601 Revision mastoidectomy; resulting in complete mastoidectomy
69602 resulting in modified radical mastoidectomy
69603 resulting in radical mastoidectomy
CPT Assistant Dec 22:21
69604 resulting in tympanoplasty

(For planned secondary tympanoplasty after mastoidectomy, see 69631, 69632)

(For skin graft, see 15120, 15121, 15260, 15261)



69610 Tympanic membrane repair, with or without site preparation of perforation for closure, with or without patch
CPT Assistant Mar 01:10, Mar 03:21, Aug 08:4, Apr 15:11, May 15:11
69620 Myringoplasty (surgery confined to drumhead and donor area)
CPT Assistant Mar 01:10, Aug 08:4, Apr 15:11, May 15:11
69631 Tympanoplasty without mastoidectomy (including canalplasty, atticotomy and/or middle ear surgery), initial or revision; without ossicular chain reconstruction
CPT Assistant Jul 98:11, Mar 01:10, Mar 07:9, Aug 08:4, Dec 12:11
69632 with ossicular chain reconstruction (eg, postfenestration)
CPT Assistant May 21:14
69633 with ossicular chain reconstruction and synthetic prosthesis (eg, partial ossicular replacement prosthesis [PORP], total ossicular replacement prosthesis [TORP])
CPT Assistant May 21:14
69635 Tympanoplasty with antrotomy or mastoidotomy (including canalplasty, atticotomy, middle ear surgery, and/or tympanic membrane repair); without ossicular chain reconstruction
69636 with ossicular chain reconstruction
69637 with ossicular chain reconstruction and synthetic prosthesis (eg, partial ossicular replacement prosthesis [PORP], total ossicular replacement prosthesis [TORP])
69641 Tympanoplasty with mastoidectomy (including canalplasty, middle ear surgery, tympanic membrane repair); without ossicular chain reconstruction
CPT Assistant Nov 24:21
69642 with ossicular chain reconstruction
69643 with intact or reconstructed wall, without ossicular chain reconstruction
69644 with intact or reconstructed canal wall, with ossicular chain reconstruction
69645 radical or complete, without ossicular chain reconstruction
CPT Assistant May 21:14
69646 radical or complete, with ossicular chain reconstruction
69650 Stapes mobilization
69660 Stapedectomy or stapedotomy with reestablishment of ossicular continuity, with or without use of foreign material;
CPT Assistant May 21:14
69661 with footplate drill out
CPT Assistant May 21:14
69662 Revision of stapedectomy or stapedotomy
CPT Assistant May 21:14
69666 Repair oval window fistula
CPT Assistant May 21:14
69667 Repair round window fistula
CPT Assistant May 21:14
69670 Mastoid obliteration (separate procedure)
69676 Tympanic neurectomy
CPT Assistant Apr 23:7

(For bilateral procedure, report 69676 with modifier 50)

Tympanoplasty

69635-69646

A graft is used to repair the tympanic membrane perforation.

Osseointegrated Implants

The following codes are for implantation of an osseointegrated implant into the skull. These devices treat hearing loss through surgical placement of an abutment or device into the skull that facilitates transduction of acoustic energy to be received by the better-hearing inner ear or both inner ears when the implant is coupled to a speech processor and vibratory element. This coupling may occur in a percutaneous or a transcutaneous fashion. Other middle ear and mastoid procedures (69501-69676) may be performed for different indications and may be reported separately, when performed.

 # 69714 Implantation, osseointegrated implant, skull; with percutaneous attachment to external speech processor

- *CPT Changes: An Insider's View* 2001, 2022
- *CPT Assistant* Oct 13:19, Nov 21:5-6, Apr 23:7

(69715 has been deleted. To report mastoidectomy performed at the same operative session as osseointegrated implant placement, revision, replacement, or removal, see 69501-69676)

 # 69716 with magnetic transcutaneous attachment to external speech processor, within the mastoid and/or resulting in removal of less than 100 sq mm surface area of bone deep to the outer cranial cortex

- *CPT Changes: An Insider's View* 2022, 2023
- *CPT Assistant* Nov 21:5-6, Apr 23:7

 # 69729 with magnetic transcutaneous attachment to external speech processor, outside of the mastoid and resulting in removal of greater than or equal to 100 sq mm surface area of bone deep to the outer cranial cortex

- *CPT Changes: An Insider's View* 2023
- *CPT Assistant* Apr 23:7

(For diagnostic analysis, programming, and verification of an auditory osseointegrated sound processor, use 92622)

 # 69717 Replacement (including removal of existing device), osseointegrated implant, skull; with percutaneous attachment to external speech processor

- *CPT Changes: An Insider's View* 2001, 2022, 2023
- *CPT Assistant* Nov 21:5, Apr 23:7

 # 69719 with magnetic transcutaneous attachment to external speech processor, within the mastoid and/or involving a bony defect less than 100 sq mm surface area of bone deep to the outer cranial cortex

- *CPT Changes: An Insider's View* 2022, 2023
- *CPT Assistant* Nov 21:5-6, Apr 23:7

 # 69730 with magnetic transcutaneous attachment to external speech processor, outside the mastoid and involving a bony defect greater than or equal to 100 sq mm surface area of bone deep to the outer cranial cortex

- *CPT Changes: An Insider's View* 2023
- *CPT Assistant* Apr 23:7

 # 69726 Removal, entire osseointegrated implant, skull; with percutaneous attachment to external speech processor

- *CPT Changes: An Insider's View* 2022, 2023
- *CPT Assistant* Nov 21:5-6, Apr 23:7

(To report partial removal of the device [ie, abutment only], use appropriate evaluation and management code)

 # 69727 with magnetic transcutaneous attachment to external speech processor, within the mastoid and/or involving a bony defect less than 100 sq mm surface area of bone deep to the outer cranial cortex

- *CPT Changes: An Insider's View* 2022, 2023
- *CPT Assistant* Nov 21:5-6, Apr 23:7

 # 69728 with magnetic transcutaneous attachment to external speech processor, outside the mastoid and involving a bony defect greater than or equal to 100 sq mm surface area of bone deep to the outer cranial cortex

- *CPT Changes: An Insider's View* 2023
- *CPT Assistant* Apr 23:7

Other Procedures

69700 Closure postauricular fistula, mastoid (separate procedure)

69705 Nasopharyngoscopy, surgical, with dilation of eustachian tube (ie, balloon dilation); unilateral

CPT Changes: An Insider's View 2021

CPT Assistant Apr 21:12

69706 bilateral

CPT Changes: An Insider's View 2021

CPT Assistant Apr 21:12

(Do not report 69705, 69706 in conjunction with 31231, 92511)

69710 Implantation or replacement of electromagnetic bone conduction hearing device in temporal bone

(Replacement procedure includes removal of old device)

69711 Removal or repair of electromagnetic bone conduction hearing device in temporal bone

69714 Code is out of numerical sequence. See 69670-69705

69716 Code is out of numerical sequence. See 69670-69705

69717 Code is out of numerical sequence. See 69670-69705

69719 Code is out of numerical sequence. See 69670-69705

69720 Decompression facial nerve, intratemporal; lateral to geniculate ganglion

69725 including medial to geniculate ganglion

69726 Code is out of numerical sequence. See 69670-69705

69727 Code is out of numerical sequence. See 69670-69705

69728 Code is out of numerical sequence. See 69670-69705

69729 Code is out of numerical sequence. See 69670-69705

69730 Code is out of numerical sequence. See 69670-69705

69740 Suture facial nerve, intratemporal, with or without graft or decompression; lateral to geniculate ganglion

69745 including medial to geniculate ganglion

(For extracranial suture of facial nerve, use 64864)

69799 Unlisted procedure, middle ear

CPT Assistant Oct 99:10, Jan 19:14, Apr 21:12

Inner Ear

Incision and/or Destruction

69801 Labyrinthotomy, with perfusion of vestibuloactive drug(s), transcanal
- *CPT Changes: An Insider's View* 2011
- *CPT Assistant* Nov 96:12, May 11:8

(Do not report 69801 more than once per day)

(Do not report 69801 in conjunction with 69420, 69421, 69433, 69436 when performed on the same ear)

69805 Endolymphatic sac operation; without shunt

69806 with shunt
- *CPT Assistant* Nov 96:12

Excision

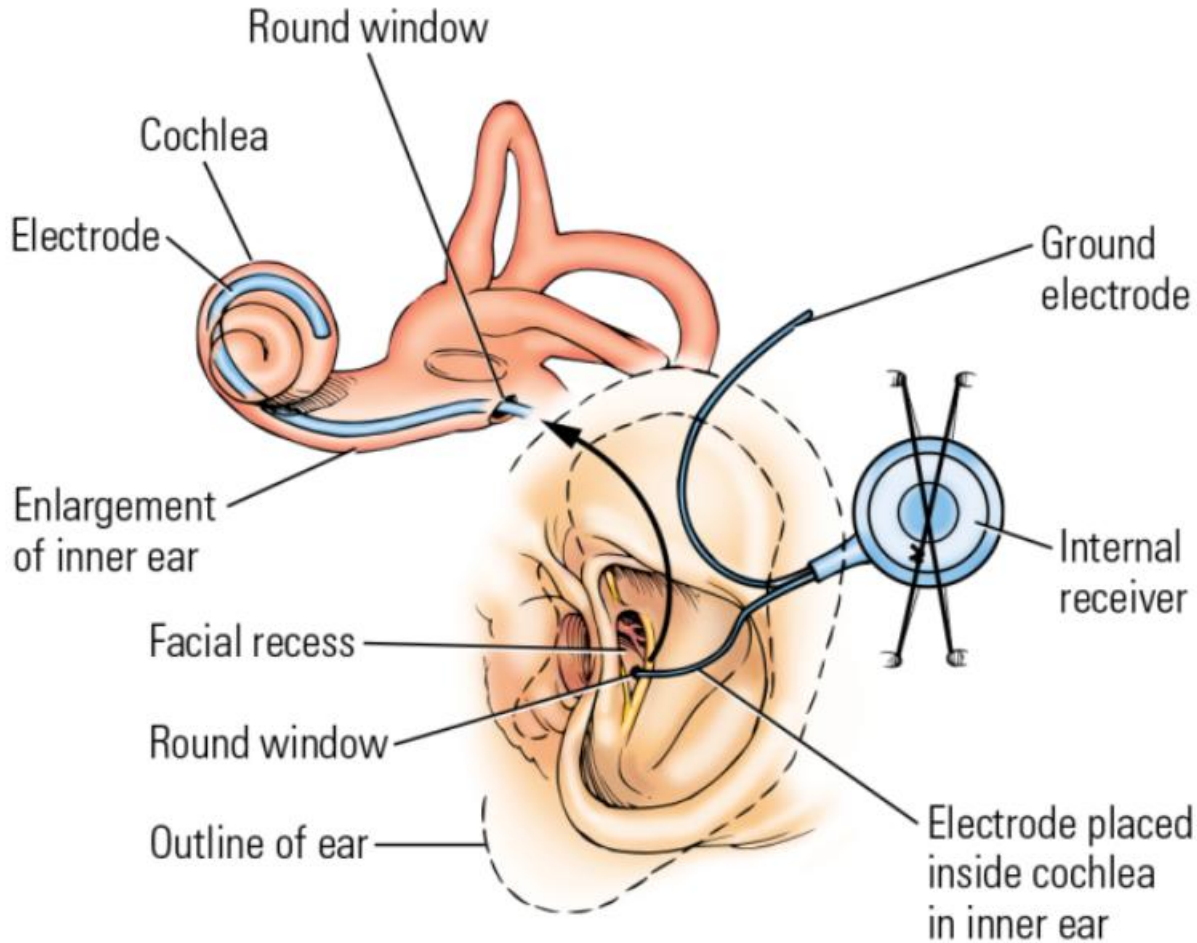
69905 Labyrinthectomy; transcanal

69910 with mastoidectomy

69915 Vestibular nerve section, translabyrinthine approach

(For transcranial approach, use 69950)

Introduction



69930 Cochlear device implantation, with or without mastoidectomy
- *CPT Assistant* Jan 23:32, Dec 23:32

(For implantation of vestibular device, use 0725T)

Cochlear Device Implantation

69930

An internal coil is attached to the temporal bone and the ground wire attached to the internal coil is connected to the temporalis muscle.

Other Procedures

69949 Unlisted procedure, inner ear

CPT Assistant Dec 23:32

Temporal Bone, Middle Fossa Approach

(For external approach, use 69535)

69950 Vestibular nerve section, transcranial approach

69955 Total facial nerve decompression and/or repair (may include graft)

69960 Decompression internal auditory canal

69970 Removal of tumor, temporal bone

Other Procedures

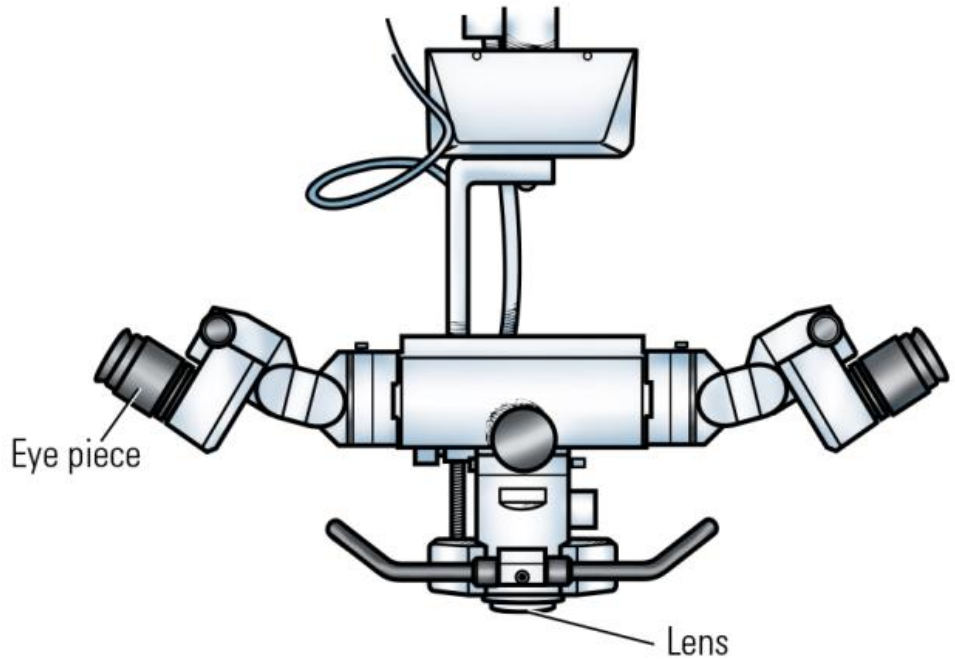
69979 Unlisted procedure, temporal bone, middle fossa approach

CPT Assistant Jan 07:30, Sep 14:14

Operating Microscope

The surgical microscope is employed when the surgical services are performed using the techniques of microsurgery. Code 69990 should be reported (without modifier 51 appended) in addition to the code for the primary procedure performed. Do not use 69990 for visualization with magnifying loupes or corrected vision. Do not report 69990 in addition to procedures where use of the operating microscope is an inclusive component (15756-15758, 15842, 19364, 19368, 20955-20962, 20969-20973, 22551, 22552, 22856-22861, 26551-26554, 26556, 31526, 31531, 31536, 31541, 31545, 31546, 31561, 31571, 43116, 43180, 43496, 46601, 46607, 49906, 61548, 63075-63078, 64727, 64820-64823, 64912, 64913, 65091-68850, 0184T, 0308T, 0402T, 0583T).

+ 69990 Microsurgical techniques, requiring use of operating microscope (List separately in addition to code for primary procedure)



CPT Changes: An Insider's View 2002

CPT Assistant Nov 98:20, Apr 99:11, Jun 99:11, Jul 99:10, Oct 99:10, Oct 00:3, Oct 02:8, Jan 04:28, Mar 05:11, Jul 05:14, Aug 05:1, Nov 07:4, Sep 08:10, Mar 09:10, Dec 11:14, Mar 12:9, Jun 12:17, Dec 12:13, Oct 13:14, Jan 14:8, Apr 14:10, Sep 14:13-14, Feb 16:12, Dec 17:13, Feb 18:11, Aug 21:15

Operating Microscope

69990

A surgical operating microscope is used to obtain good visualization of the fine structures in the operating field. The lens system may be operated by hand or foot controls to adjust to working distance, with interchangeable oculars providing magnification as needed.

Radiology

The following is a listing of headings and subheadings that appear within the Radiology section of the CPT codebook. The subheadings or subsections denoted with asterisks (*) below have special instructions unique to that subsection. Where these are indicated, special notes or guidelines will be presented preceding those procedural terminology listings, referring to that subsection specifically. Note that all code ranges in each subsection are listed as they appear in the subsection, even if the code numbers are out of numerical sequence and/or repeated in the next subsection.

Diagnostic Radiology (Diagnostic Imaging) (70010-76499)

Head and Neck (70010-70559)

Chest (71045-71555)

Spine and Pelvis (72020-72295)

Upper Extremities (73000-73225)

Lower Extremities (73501-73725)

Abdomen (74018-74190)

Gastrointestinal Tract (74210-74363)

Urinary Tract (74400-74485)

Gynecological and Obstetrical (74712-74775)

Heart* (75557-75580)

Vascular Procedures (75600-75989)

- **Aorta and Arteries* (75600-75774)**
- **Veins and Lymphatics* (75801-75893)**
- **Transcatheter Procedures* (75894-75989)**

Magnetic Resonance Safety Implant/Foreign Body Procedures* (76014-76019)

Other Procedures (76000-76499)

Diagnostic Ultrasound* (76506-76999)

Head and Neck (76506-76536)

Chest* (76604-76642)

Abdomen and Retroperitoneum* (76700-76776)

Spinal Canal (76800)

Pelvis (76801-76857)

- Obstetrical* (76801-76828)
- Nonobstetrical* (76830-76857)

Genitalia (76870-76873)

Extremities* (76881-76886)

Ultrasonic Guidance Procedures (76932-76965)

Other Procedures (76975-76999)

Radiologic Guidance (77001-77022)

Fluoroscopic Guidance (77001-77003)

Computed Tomography Guidance (77011-77013)

Magnetic Resonance Imaging Guidance (77021-77022)

Breast, Mammography (77046-77067)

Bone/Joint Studies (77071-77092)

Radiation Oncology* (77261-77799)

Consultation: Clinical Management*

Clinical Treatment Planning (External and Internal Sources)* (77261-77299)

Medical Radiation Physics, Dosimetry, Treatment Devices, and Special Services (77295-77370)

Stereotactic Radiation Treatment Delivery (77371-77373)

Other Procedures (77399)

Radiation Treatment Delivery* (77402-77425)

►Surface Radiation Therapy (SRT)*◄ (77436-77439)

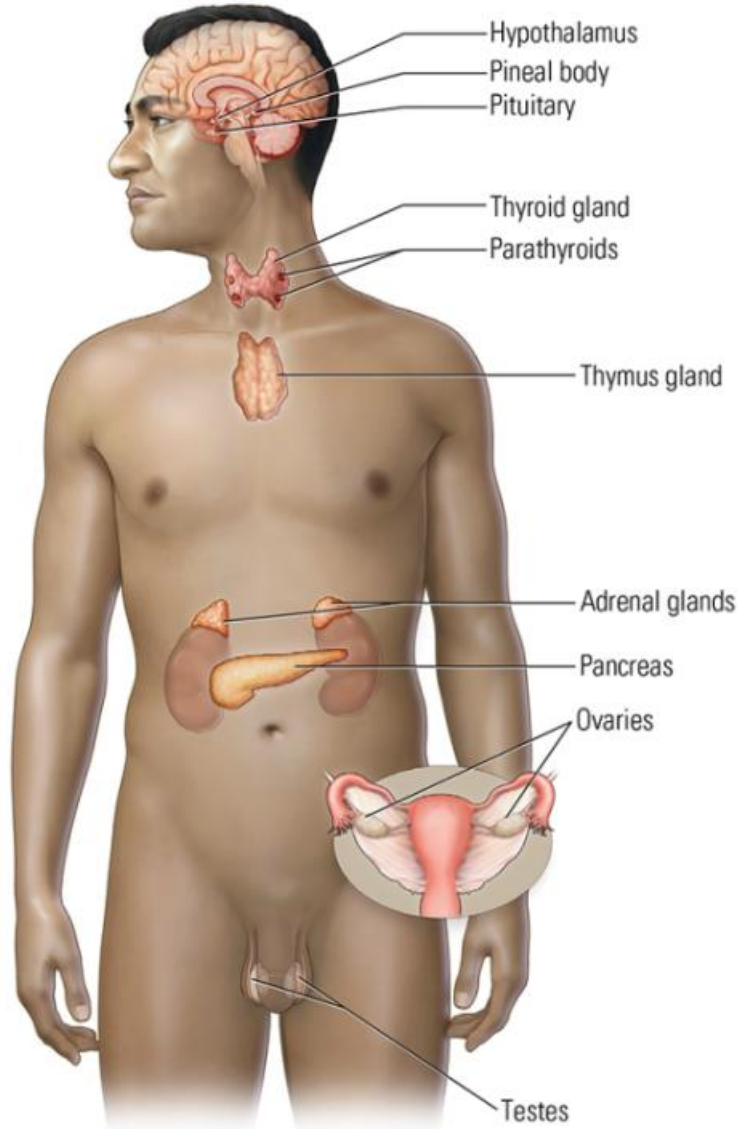
Neutron Beam Treatment Delivery (77423)

Radiation Treatment Management* (77427-77499)

Proton Beam Treatment Delivery* (77520-77525)

Hyperthermia* (77600-77615)

Clinical Intracavitary Hyperthermia (77620)



Clinical Brachytherapy* (77750-77799)

Nuclear Medicine* (78012-79999)

Diagnostic (78012-78999)

- Endocrine System (78012-78099)
- Hematopoietic, Reticuloendothelial and Lymphatic System (78102-78199)
- Gastrointestinal System (78201-78299)
- Musculoskeletal System* (78300-78399)
- Cardiovascular System* (78414-78499)
- Respiratory System (78579-78599)
- Nervous System (78600-78699)
- Genitourinary System (78700-78799)
- Other Procedures (78800-78999)

Therapeutic* (79005-79999)

Endocrine System

Radiology Guidelines (Including Nuclear Medicine and Diagnostic Ultrasound)

Guidelines to direct general reporting of services are presented in the **Introduction.** Some of the commonalities are repeated here for the convenience of those referring to this section on **Radiology (Including Nuclear Medicine and Diagnostic Ultrasound).** Other definitions and items unique to Radiology are also listed.

Subject Listings

Subject listings apply when radiological services are performed by or under the responsible supervision of a physician or other qualified health care professional.

Separate Procedures

Some of the procedures or services listed in the CPT codebook that are commonly carried out as an integral component of a total service or procedure have been identified by the inclusion of the term "separate procedure." The codes designated as "separate procedure" should not be reported in addition to the code for the total procedure or service of which it is considered an integral component.

However, when a procedure or service that is designated as a "separate procedure" is carried out independently or considered to be unrelated or distinct from other procedures/services provided at that time, it may be reported by itself, or in addition to other procedures/services by appending modifier 59 to the specific "separate procedure" code to indicate that the procedure is not considered to be a component of another procedure, but is a distinct, independent procedure. This may represent a different session or patient encounter, different procedure or surgery, different site or organ system, separate incision/excision, separate lesion, separate injury, or area of injury in extensive injuries.

Unlisted Service or Procedure

A service or procedure may be provided that is not listed in this edition of the CPT codebook. When reporting such a service, the appropriate "Unlisted Procedure" code may be used to indicate the service, identifying it by "Special Report" as discussed below. The "Unlisted Procedures" and accompanying codes for **Radiology (Including Nuclear Medicine and Diagnostic Ultrasound)** are as follows:

76496 Unlisted fluoroscopic procedure (eg, diagnostic, interventional)
76497 Unlisted computed tomography procedure (eg, diagnostic, interventional)
76498 Unlisted magnetic resonance procedure (eg, diagnostic, interventional)
76499 Unlisted diagnostic radiographic procedure
76999 Unlisted ultrasound procedure (eg, diagnostic, interventional)
77299 Unlisted procedure, therapeutic radiology clinical treatment planning
77399 Unlisted procedure, medical radiation physics, dosimetry and treatment devices, and special services
77499 Unlisted procedure, therapeutic radiology treatment management
77799 Unlisted procedure, clinical brachytherapy
78099 Unlisted endocrine procedure, diagnostic nuclear medicine
78199 Unlisted hematopoietic, reticuloendothelial and lymphatic procedure, diagnostic nuclear medicine
78299 Unlisted gastrointestinal procedure, diagnostic nuclear medicine
78399 Unlisted musculoskeletal procedure, diagnostic nuclear medicine
78499 Unlisted cardiovascular procedure, diagnostic nuclear medicine
78599 Unlisted respiratory procedure, diagnostic nuclear medicine
78699 Unlisted nervous system procedure, diagnostic nuclear medicine
78799 Unlisted genitourinary procedure, diagnostic nuclear medicine
78999 Unlisted miscellaneous procedure, diagnostic nuclear medicine
79999 Radiopharmaceutical therapy, unlisted procedure

Special Report

A service that is rarely provided, unusual, variable, or new may require a special report. Pertinent information should include an adequate definition or description of the nature, extent, and need for the procedure; and the time, effort, and equipment necessary to provide the service.

Supervision and Interpretation, Imaging Guidance

Imaging may be required during the performance of certain procedures or certain imaging procedures may require surgical procedures to access the imaged area. Many services include image guidance, and imaging guidance is not separately reportable when it is included in the base service. The CPT code set typically defines in descriptors and/or guidelines when imaging guidance is included. When imaging is not included in a surgical procedure or procedure from the **Medicine** section, image guidance codes or codes labeled "radiological supervision and interpretation" (RS&I) may be reported for the portion of the service that requires imaging. All imaging guidance codes require: (1) image documentation in the patient record and (2) description of imaging guidance in the procedure report. All RS&I codes require: (1) image documentation in the patient's permanent record and (2) a procedure report or separate imaging report that includes written documentation of interpretive findings of information contained in the images and radiologic supervision of the service.

(The RS&I codes are not applicable to the Radiation Oncology subsection.)

Administration of Contrast Material(s)

The phrase "with contrast" used in the codes for procedures performed using contrast for imaging enhancement represents contrast material administered intravascularly, intra-articularly, or intrathecally.

For intra-articular injection, use the appropriate joint injection code. If radiographic arthrography is performed, also use the arthrography supervision and interpretation code for the appropriate joint (which includes fluoroscopy). If computed tomography (CT) or magnetic resonance (MR) arthrography are performed without radiographic arthrography, use the appropriate joint injection code, the appropriate CT or MR code ("with contrast" or "without followed by contrast"), and the appropriate imaging guidance code for needle placement for contrast injection.

For spine examinations using computed tomography, magnetic resonance imaging, magnetic resonance angiography, "with contrast" includes intrathecal or intravascular injection. For intrathecal injection, use also 61055 or 62284.

Injection of intravascular contrast material is part of the "with contrast" CT, computed tomographic angiography (CTA), magnetic resonance imaging (MRI), and magnetic resonance angiography (MRA) procedures.

Oral and/or rectal contrast administration alone does not qualify as a study "with contrast."

Written Report(s)

A written report (eg, handwritten or electronic) signed by the interpreting individual should be considered an integral part of a radiologic procedure or interpretation.

With regard to CPT descriptors for imaging services, "images" must contain anatomic information unique to the patient for which the imaging service is provided. "Images" refer to those acquired in either an analog (ie, film) or digital (ie, electronic) manner.

Foreign Body/Implant Definition

An object intentionally placed by a physician or other qualified health care professional for any purpose (eg, diagnostic or therapeutic) is considered an implant. An object that is unintentionally placed (eg, trauma or ingestion) is considered a foreign body. If an implant (or part thereof) has moved from its original position or is structurally broken and no longer serves its intended purpose or presents a hazard to the patient, it qualifies as a foreign body for coding purposes, unless CPT coding instructions direct otherwise or a specific CPT code exists to describe the removal of that broken/moved implant.

Radiology

Diagnostic Radiology (Diagnostic Imaging)

Head and Neck

70010 Myelography, posterior fossa, radiological supervision and interpretation
CPT Assistant Mar 05:11, Dec 07:16
70015 Cisternography, positive contrast, radiological supervision and interpretation
70030 Radiologic examination, eye, for detection of foreign body
70100 Radiologic examination, mandible; partial, less than 4 views
70110 complete, minimum of 4 views
70120 Radiologic examination, mastoids; less than 3 views per side
70130 complete, minimum of 3 views per side
70134 Radiologic examination, internal auditory meati, complete
70140 Radiologic examination, facial bones; less than 3 views
70150 complete, minimum of 3 views
70160 Radiologic examination, nasal bones, complete, minimum of 3 views
70170 Dacryocystography, nasolacrimal duct, radiological supervision and interpretation
70190 Radiologic examination; optic foramina
70200 orbits, complete, minimum of 4 views
70210 Radiologic examination, sinuses, paranasal, less than 3 views
70220 Radiologic examination, sinuses, paranasal, complete, minimum of 3 views
70240 Radiologic examination, sella turcica
70250 Radiologic examination, skull; less than 4 views
CPT Changes: An Insider's View 2004
70260 complete, minimum of 4 views
CPT Changes: An Insider's View 2004
70300 Radiologic examination, teeth; single view
70310 partial examination, less than full mouth
70320 complete, full mouth
70328 Radiologic examination, temporomandibular joint, open and closed mouth; unilateral
70330 bilateral
CPT Assistant May 11:10

70332 Temporomandibular joint arthrography, radiological supervision and interpretation
- *CPT Assistant* Feb 07:11

(Do not report 70332 in conjunction with 77002)

70336 Magnetic resonance (eg, proton) imaging, temporomandibular joint(s)
- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Jul 99:11, Jul 01:7, Aug 15:6, Jul 22:19

70350 Cephalogram, orthodontic
- *CPT Assistant* Aug 12:14

70355 Orthopantogram (eg, panoramic x-ray)
- *CPT Changes: An Insider's View* 2012
- *Clinical Examples in Radiology* Fall 11:11

70360 Radiologic examination; neck, soft tissue

70370 pharynx or larynx, including fluoroscopy and/or magnification technique

70371 Complex dynamic pharyngeal and speech evaluation by cine or video recording
- *CPT Assistant* Dec 04:17, Jul 14:5
- *Clinical Examples in Radiology* Spring 18:15

(For laryngeal computed tomography, see 70490, 70491, 70492)

70380 Radiologic examination, salivary gland for calculus

70390 Sialography, radiological supervision and interpretation
- *Clinical Examples in Radiology* Fall 09:9

70450 Computed tomography, head or brain; without contrast material
- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Apr 96:11
- *Clinical Examples in Radiology* Winter 08:6, Fall 14:8, Summer 20:13, Winter 22:15, Winter 25:13

70460 with contrast material(s)
- *CPT Assistant* Apr 96:11
- *Clinical Examples in Radiology* Winter 10:11, Fall 14:8, Summer 23:24

70470 without contrast material, followed by contrast material(s) and further sections
- *CPT Assistant* Apr 96:11
- *Clinical Examples in Radiology* Fall 14:8

(To report 3D rendering, see 76376, 76377)

● **70471** Computed tomographic angiography (CTA), head and neck, with contrast material(s), including noncontrast images, when performed, and image postprocessing

CPT Changes: An Insider's View 2026

►(Do not report 70471 in conjunction with 70450, when performed during the same session)◄

►(Do not report 70471 in conjunction with 70460, 70470, 70473, 70490, 70491, 70492, 70496, 70498, 76376, 76377)◄

►(For noninvasive arterial plaque analysis using software processing of data from computerized tomographic angiography to quantify structure and composition of the vessel wall, including assessment for lipid-rich necrotic core plaque, see 0710T, 0711T, 0712T, 0713T)◄

● **70472** Computed tomographic (CT) cerebral perfusion analysis with contrast material(s), including image postprocessing performed with concurrent CT or CT angiography of the same anatomy (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2026

►(Use 70472 in conjunction with 70450, 70460, 70470, 70471, 70496)◄

►(Do not report 70472 in conjunction with 70473, 76376, 76377)◄

● **70473** Computed tomographic (CT) cerebral perfusion analysis with contrast material(s), including image postprocessing performed without concurrent CT or CT angiography of the same anatomy

CPT Changes: An Insider's View 2026

►(Do not report 70473 in conjunction with 70450, 70460, 70470, 70471, 70472, 70496, 76376, 76377)◄

70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material

CPT Changes: An Insider's View 2003

70481 with contrast material(s)

CPT Assistant Apr 08:11

70482 without contrast material, followed by contrast material(s) and further sections

(To report 3D rendering, see 76376, 76377)

70486 Computed tomography, maxillofacial area; without contrast material

CPT Changes: An Insider's View 2003

CPT Assistant Mar 02:11

Clinical Examples in Radiology Winter 07:4-5, Spring 07:4, Fall 09:9

70487 with contrast material(s)

70488 without contrast material, followed by contrast material(s) and further sections

(To report 3D rendering, see 76376, 76377)

70490 Computed tomography, soft tissue neck; without contrast material

CPT Changes: An Insider's View 2003

70491 with contrast material(s)

Clinical Examples in Radiology Summer 22:3

70492 without contrast material followed by contrast material(s) and further sections

(To report 3D rendering, see 76376, 76377)

(For cervical spine, see 72125, 72126)

70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing

CPT Changes: An Insider's View 2001, 2008
CPT Assistant Jul 01:4, Dec 05:7, Jan 07:31
Clinical Examples in Radiology Summer 20:12, Spring 24:21

►(Do not report 70496 in conjunction with 70471, 70498)◄

►(Do not report 70496 in conjunction with 70450, when performed during the same session)◄

►(For computed tomographic angiography of head and neck performed during the same session, use 70471)◄

(For noninvasive arterial plaque analysis using software processing of data from computerized tomography angiography to quantify structure and composition of the vessel wall, including assessment for lipid-rich necrotic core plaque, see 0710T, 0711T, 0712T, 0713T)

70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing

CPT Changes: An Insider's View 2001, 2008
CPT Assistant Jul 01:4, Dec 05:7, Jan 07:31
Clinical Examples in Radiology Winter 09:2, Summer 19:11, Summer 22:2

►(Do not report 70498 in conjunction with 70471, 70496)◄

►(For computed tomographic angiography of head and neck performed during the same session, use 70471)◄

(For noninvasive arterial plaque analysis using software processing of data from computerized tomography angiography to quantify structure and composition of the vessel wall, including assessment for lipid-rich necrotic core plaque, see 0710T, 0711T, 0712T, 0713T)

70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)

CPT Changes: An Insider's View 2001, 2007
CPT Assistant Jul 01:6, Mar 07:7, Sep 10:10
Clinical Examples in Radiology Spring 05:3, Summer 07:7, Summer 13:9

(For head or neck magnetic resonance angiography studies, see 70544-70546, 70547-70549)

70542 with contrast material(s)

CPT Changes: An Insider's View 2001
CPT Assistant Jul 01:6, Sep 10:10, Jul 22:19
Clinical Examples in Radiology Spring 05:3, Summer 07:7, Summer 13:9

70543 without contrast material(s), followed by contrast material(s) and further sequences

CPT Changes: An Insider's View 2001
CPT Assistant Jul 01:6, Sep 10:10
Clinical Examples in Radiology Spring 05:2-3, Winter 07:7, 11, Summer 07:7, Summer 13:9

(Report 70540-70543 once per imaging session)

70544 Magnetic resonance angiography, head; without contrast material(s)

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Sep 01:5, Dec 05:7, Jan 07:31
- *Clinical Examples in Radiology* Summer 23:16

70545 with contrast material(s)

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Jul 01:5, Dec 05:7
- *Clinical Examples in Radiology* Summer 23:16

70546 without contrast material(s), followed by contrast material(s) and further sequences

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Jul 01:5, Dec 05:7, Jan 07:31
- *Clinical Examples in Radiology* Summer 23:16

70547 Magnetic resonance angiography, neck; without contrast material(s)

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Sep 01:5, Dec 05:7, Jan 07:31
- *Clinical Examples in Radiology* Winter 09:2

70548 with contrast material(s)

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Sep 01:6, Dec 05:7, Jan 07:31
- *Clinical Examples in Radiology* Winter 09:2

70549 without contrast material(s), followed by contrast material(s) and further sequences

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Sep 01:6, Dec 05:7, Jan 07:31
- *Clinical Examples in Radiology* Winter 09:2

70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material

- *CPT Assistant* May 98:10, Mar 05:20, Feb 07:6, Jun 24:9
- *Clinical Examples in Radiology* Spring 15:9, Summer 23:16, Fall 23:14, Winter 24:11, Winter 25:13

70552 with contrast material(s)

- *CPT Assistant* Jul 01:6, Mar 05:20, Feb 07:6, Jun 24:9
- *Clinical Examples in Radiology* Spring 15:9, Summer 23:16, Fall 23:14, Winter 24:11

70553 without contrast material, followed by contrast material(s) and further sequences

- *CPT Assistant* Nov 97:24, Jul 01:6, Mar 05:20, Feb 07:6, Jun 24:9
- *Clinical Examples in Radiology* Spring 05:2, Spring 06:4-5, Spring 15:9, Summer 15:13, Summer 23:16, Fall 23:14, Winter 24:10

(For magnetic spectroscopy, use 76390)

Functional MRI involves identification and mapping of stimulation of brain function. When neurofunctional tests are administered by a technologist or other non-physician or non-psychologist, use 70554. When neurofunctional tests are entirely administered by a physician or other qualified health care professional or psychologist, use 70555.

70554 Magnetic resonance imaging, brain, functional MRI; including test selection and administration of repetitive body part movement and/or visual stimulation, not requiring physician or psychologist administration

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Feb 07:6, Mar 07:7, Aug 08:13
- *Clinical Examples in Radiology* Fall 23:14

(Do not report 70554 in conjunction with 96020)

70555 requiring physician or psychologist administration of entire neurofunctional testing

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Feb 07:6, Mar 07:7
- *Clinical Examples in Radiology* Fall 23:13

(Do not report 70555 unless 96020 is performed)

(Do not report 70554, 70555 in conjunction with 70551-70553 unless a separate diagnostic MRI is performed)

70557 Magnetic resonance (eg, proton) imaging, brain (including brain stem and skull base), during open intracranial procedure (eg, to assess for residual tumor or residual vascular malformation); without contrast material

- *CPT Changes: An Insider's View* 2004

70558 with contrast material(s)

- *CPT Changes: An Insider's View* 2004

70559 without contrast material(s), followed by contrast material(s) and further sequences

- *CPT Changes: An Insider's View* 2004

(For stereotactic biopsy of intracranial lesion with magnetic resonance guidance, use 61751, 70557, 70558, or 70559 may be reported only if a separate report is generated. Report only 1 of the above codes once per operative session. Do not use these codes in conjunction with 61751, 77021, 77022)

Chest

(For fluoroscopic or ultrasonic guidance for needle placement procedures (eg, biopsy, aspiration, injection, localization device) of the thorax, see 76942, 77002)

71045 Radiologic examination, chest; single view

(Do not report 71250, 71260, 71270 for breast CT procedures)

(For cardiac computed tomography of the heart, see 75571-75574)

(To report 3D rendering, see 76376, 76377)

71271 Computed tomography, thorax, low dose for lung cancer screening, without contrast material(s)

- *CPT Changes: An Insider's View* 2021
- *CPT Assistant* Feb 21:9
- *Clinical Examples in Radiology* Fall 20:13, Spring 21:10, Winter 23:17, Spring 23:25

(Do not report 71271 in conjunction with 71250, 71260, 71270)

(Do not report 71271 for breast CT procedures)

(For cardiac computed tomography of the heart, see 75571, 75572, 75573, 75574)

71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing

- *CPT Changes: An Insider's View* 2001, 2007, 2008
- *CPT Assistant* Jul 01:4, Jun 05:11, Dec 05:7, Jan 07:31, Mar 07:7, Jun 09:9, Aug 11:10
- *Clinical Examples in Radiology* Spring 05:7, Fall 08:11-12, Spring 09:11, Fall 09:10, Winter 10:2, Fall 13:9-10, Spring 16:13, Winter 20:8, Summer 20:12, Summer 21:3

(For coronary artery computed tomographic angiography including calcification score and/or cardiac morphology, use 75574)

71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Jul 01:7, Apr 10:10, Sep 10:10
- *Clinical Examples in Radiology* Summer 13:9, Winter 20:14, Winter 21:12

71551 with contrast material(s)

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Jul 01:7, Sep 10:10
- *Clinical Examples in Radiology* Summer 13:9, Winter 20:14, Winter 21:12, Winter 23:19

71552 without contrast material(s), followed by contrast material(s) and further sequences

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Jul 01:7, Apr 10:10, Sep 10:10, Apr 21:14
- *Clinical Examples in Radiology* Summer 13:9, Winter 20:14, Winter 21:12, Winter 23:18

(For breast MRI, see 77046, 77047, 77048, 77049)

71555 Magnetic resonance angiography, chest (excluding myocardium), with or without contrast material(s)

- *CPT Assistant* Fall 95:2, Dec 05:7, Jan 07:31
- *Clinical Examples in Radiology* Spring 16:13, Spring 17:14

Spine and Pelvis

72020 Radiologic examination, spine, single view, specify level

- *CPT Assistant* Jul 13:10, Oct 15:9
- *Clinical Examples in Radiology* Spring 13:8-9, Winter 18:15

(For a single view that includes the entire thoracic and lumbar spine, use 72081)

72040 Radiologic examination, spine, cervical; 2 or 3 views

- *CPT Changes: An Insider's View* 2001, 2013, 2014
- *CPT Assistant* Sep 01:7, Jul 13:10, Aug 18:11
- *Clinical Examples in Radiology* Fall 09:10, Summer 11:8, Fall 11:9, Spring 13:8-9, Winter 18:15

72050 4 or 5 views

- *CPT Changes: An Insider's View* 2013
- *Clinical Examples in Radiology* Summer 11:8, Fall 11:9, Spring 13:9, Winter 18:15

72052 6 or more views

- *CPT Changes: An Insider's View* 2013
- *Clinical Examples in Radiology* Summer 11:8, Fall 11:9, Spring 13:9, Winter 18:15

72070 Radiologic examination, spine; thoracic, 2 views

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Sep 01:7
- *Clinical Examples in Radiology* Fall 11:9, Spring 13:9, Winter 18:15

72072 thoracic, 3 views

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Sep 01:7
- *Clinical Examples in Radiology* Fall 11:9, Spring 13:9, Winter 18:15

72074 thoracic, minimum of 4 views

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Sep 01:7
- *Clinical Examples in Radiology* Fall 11:9, Spring 13:9, Winter 18:15

72080 thoracolumbar junction, minimum of 2 views

- *CPT Changes: An Insider's View* 2001, 2016
- *CPT Assistant* Sep 01:7, Oct 15:9, Sep 16:4
- *Clinical Examples in Radiology* Fall 11:9, Spring 13:8-9, Fall 15:7, Winter 18:15

(For a single view examination of the thoracolumbar junction, use 72020)

72081 Radiologic examination, spine, entire thoracic and lumbar, including skull, cervical and sacral spine if performed (eg, scoliosis evaluation); one view

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Sep 16:4
- *Clinical Examples in Radiology* Fall 15:7, Winter 18:15

72082 2 or 3 views

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Sep 16:4
- *Clinical Examples in Radiology* Fall 15:7, Winter 18:15

72083 4 or 5 views

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Sep 16:4
- *Clinical Examples in Radiology* Fall 15:7, Winter 18:15

72100 Radiologic examination, spine, lumbosacral; 2 or 3 views

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Sep 01:7
- *Clinical Examples in Radiology* Fall 11:9-10, Spring 13:8-9, Spring 14:10, Winter 18:15

72110 minimum of 4 views

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Sep 01:7
- *Clinical Examples in Radiology* Fall 11:10, Spring 13:9, Winter 18:15

72114 complete, including bending views, minimum of 6 views

- *CPT Changes: An Insider's View* 2012
- *Clinical Examples in Radiology* Summer 12:11, Spring 13:9, Winter 18:15

72120 bending views only, 2 or 3 views

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* Aug 16:7
- *Clinical Examples in Radiology* Fall 11:9-10, Spring 13:8-9, Spring 14:10, Winter 18:15

(Contrast material in CT of spine is either by intrathecal or intravenous injection. For intrathecal injection, use also 61055 or 62284. IV injection of contrast material is part of the CT procedure)

72125 Computed tomography, cervical spine; without contrast material

- *CPT Changes: An Insider's View* 2003
- *Clinical Examples in Radiology* Fall 14:7, 11

72126 with contrast material

- *CPT Assistant* Sep 14:3
- *Clinical Examples in Radiology* Fall 15:10, Summer 19:11, Summer 22:3

72127 without contrast material, followed by contrast material(s) and further sections

(For intrathecal injection procedure, see 61055, 62284)

72128 Computed tomography, thoracic spine; without contrast material

- *CPT Changes: An Insider's View* 2003
- *Clinical Examples in Radiology* Fall 24:19

72129 with contrast material

- *CPT Assistant* Sep 14:3, Jan 19:15
- *Clinical Examples in Radiology* Fall 15:10, Fall 24:20

(For intrathecal injection procedure, see 61055, 62284)

72130 without contrast material, followed by contrast material(s) and further sections

(For intrathecal injection procedure, see 61055, 62284)

72131 Computed tomography, lumbar spine; without contrast material

CPT Changes: An Insider's View 2003

Clinical Examples in Radiology Summer 07:11, Spring 12:10

72132 with contrast material

CPT Assistant Fall 93:13, Sep 14:3, Jan 19:15

Clinical Examples in Radiology Fall 06:5-6, 11-12, Fall 14:6, Fall 15:10

72133 without contrast material, followed by contrast material(s) and further sections

Clinical Examples in Radiology Fall 14:7, 11

(For intrathecal injection procedure, see 61055, 62284)

(To report 3D rendering, see 76376, 76377)

72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material

CPT Assistant Apr 10:10, Jun 14:14

Clinical Examples in Radiology Winter 21:6, 12

72142 with contrast material(s)

CPT Assistant Apr 10:10, Jul 21:6

Clinical Examples in Radiology Winter 21:6

(For cervical spinal canal imaging without contrast material followed by contrast material, use 72156)

(For magnetic resonance spectroscopy, determination and localization of discogenic pain, see 0609T, 0610T)

72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material

CPT Assistant May 99:10, Apr 10:10, Jun 14:14

Clinical Examples in Radiology Winter 21:6

72147 with contrast material(s)

CPT Assistant May 99:10, Apr 10:10, Jul 21:6

Clinical Examples in Radiology Winter 21:6, 12

(For thoracic spinal canal imaging without contrast material followed by contrast material, use 72157)

(For magnetic resonance spectroscopy, determination and localization of discogenic pain, see 0609T, 0610T)

72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material

CPT Assistant Nov 05:15, Jun 14:14

Clinical Examples in Radiology Spring 06:6, 11, Winter 21:6

72149 with contrast material(s)

CPT Assistant Jul 21:6

Clinical Examples in Radiology Winter 21:6

(For lumbar spinal canal imaging without contrast material followed by contrast material, use 72158)

(For magnetic resonance spectroscopy, determination and localization of discogenic pain, see 0609T, 0610T)

72156 Magnetic resonance (eg, proton) imaging, spinal canal and contents, without contrast material, followed by contrast material(s) and further sequences; cervical

- *Clinical Examples in Radiology* Winter 21:6

72157 thoracic

- *Clinical Examples in Radiology* Winter 21:6

72158 lumbar

- *CPT Assistant* Jul 21:6
- *Clinical Examples in Radiology* Winter 21:6

(For magnetic resonance spectroscopy, determination and localization of discogenic pain, see 0609T, 0610T)

72159 Magnetic resonance angiography, spinal canal and contents, with or without contrast material(s)

- *CPT Assistant* Dec 05:7, Jan 07:31
- *Clinical Examples in Radiology* Winter 21:6

72170 Radiologic examination, pelvis; 1 or 2 views

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Sep 01:7, Mar 03:23, Aug 16:7
- *Clinical Examples in Radiology* Spring 05:12, Fall 15:8, Winter 16:13, Summer 16:8

72190 complete, minimum of 3 views

- *Clinical Examples in Radiology* Fall 15:9, Winter 16:13, Summer 16:8

(For a combined computed tomography [CT] or computed tomographic angiography abdomen and pelvis study, see 74174, 74176-74178)

72191 Computed tomographic angiography, pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing

- *CPT Changes: An Insider's View* 2001, 2008
- *CPT Assistant* Jul 01:4, 6, Dec 05:7, Jan 07:31
- *Clinical Examples in Radiology* Summer 08:8, Fall 09:10, Fall 11:9

(Do not report 72191 in conjunction with 73706 or 75635. For CTA aorto-iliofemoral runoff, use 75635)

(Do not report 72191 in conjunction with 74175. For a combined computed tomographic angiography abdomen and pelvis study, use 74174)

(For noninvasive arterial plaque analysis using software processing of data from computerized tomography angiography to quantify structure and composition of the vessel wall, including assessment for lipid-rich necrotic core plaque, see 0710T, 0711T, 0712T, 0713T)

72192 Computed tomography, pelvis; without contrast material

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Mar 05:1, 4, Mar 07:10, Apr 10:9, Nov 11:6, Oct 12:12
- *Clinical Examples in Radiology* Winter 06:11, Spring 07:3, 11, Summer 07:11, Fall 09:9, Winter 11:8, 10, Fall 11:8, Spring 16:9, Summer 20:7, Winter 21:3

72193 with contrast material(s)

- *CPT Assistant* Mar 05:1, 4, Mar 07:10, Apr 10:9, Nov 11:6, Oct 12:12
- *Clinical Examples in Radiology* Winter 05:1, 7, Spring 07:3, 11, Winter 11:8, 10, Fall 11:8, Spring 16:9, Summer 20:7

72194 without contrast material, followed by contrast material(s) and further sections

CPT Assistant Mar 05:1, 4, Mar 07:10, Apr 10:9, Nov 11:6, Oct 12:12

Clinical Examples in Radiology Spring 07:3, 11, Winter 11:8, 10, Fall 11:8, Spring 16:9, Summer 20:7

(For a combined CT abdomen and pelvis study, see 74176-74178)

(To report 3D rendering, see 76376, 76377)

(For computed tomographic colonography, diagnostic, see 74261-74262. For computed tomographic colonography, screening, use 74263)

(Do not report 72192-72194 in conjunction with 74261-74263)

72195 Magnetic resonance (eg, proton) imaging, pelvis; without contrast material(s)

CPT Changes: An Insider's View 2001

CPT Assistant Jul 01:7, Jun 06:17, Jun 14:14, Jun 16:5, Jul 18:11, Jun 22:20-21

Clinical Examples in Radiology Spring 06:8-9, Fall 06:7-8, Summer 07:4-5, Winter 16:12, Spring 18:12, Spring 19:12, Summer 22:10

72196 with contrast material(s)

CPT Changes: An Insider's View 2001

CPT Assistant Jul 01:7, Jun 06:17, Jun 16:5, Jul 18:11

Clinical Examples in Radiology Spring 06:8-9, Fall 06:7-8, Winter 16:12, Spring 18:12, Spring 19:12, Winter 21:12, Summer 22:10, Winter 23:19

72197 without contrast material(s), followed by contrast material(s) and further sequences

CPT Changes: An Insider's View 2001

CPT Assistant Jul 01:7, Jun 16:5, Jul 18:11, Apr 21:14, Jun 22:20-21

Clinical Examples in Radiology Spring 06:8-9, Fall 06:2-3, 7-8, Spring 15:10, Winter 16:12, Spring 18:12, Spring 19:12, Winter 21:12, Summer 21:6, Summer 22:10, Winter 23:19, Spring 24:26, Winter 25:11

(Do not report 72195, 72196, 72197 in conjunction with 74712, 74713)

(For magnetic resonance imaging of a fetus[es], see 74712, 74713)

72198 Magnetic resonance angiography, pelvis, with or without contrast material(s)

CPT Assistant Dec 05:7, Jan 07:31

72200 Radiologic examination, sacroiliac joints; less than 3 views

72202 3 or more views

72220 Radiologic examination, sacrum and coccyx, minimum of 2 views

72240 Myelography, cervical, radiological supervision and interpretation

CPT Assistant Fall 93:13, Sep 14:3

Clinical Examples in Radiology Fall 06:5-6, 11-12, Fall 14:6-7, 11, Fall 15:10

(Do not report 72240 in conjunction with 62284, 62302, 62303, 62304, 62305)

(When both 62284 and 72240 are performed by the same physician or other qualified health care professional for cervical myelography, use 62302)

(For complete cervical myelography via injection procedure at C1-C2, see 61055, 72240)

72255 Myelography, thoracic, radiological supervision and interpretation

- *CPT Assistant* Sep 14:3
- *Clinical Examples in Radiology* Fall 14:7, 11, Fall 15:10

(Do not report 72255 in conjunction with 62284, 62302, 62303, 62304, 62305)

(When both 62284 and 72255 are performed by the same physician or other qualified health care professional for thoracic myelography, use 62303)

(For complete thoracic myelography via injection procedure at C1-C2, see 61055, 72255)

72265 Myelography, lumbosacral, radiological supervision and interpretation

- *CPT Assistant* Fall 93:13, Aug 00:7, Sep 14:3
- *Clinical Examples in Radiology* Fall 14:7, 11, Fall 15:10

(Do not report 72265 in conjunction with 62284, 62302, 62303, 62304, 62305)

(When both 62284 and 72265 are performed by the same physician or other qualified health care professional for lumbosacral myelography, use 62304)

(For complete lumbosacral myelography via injection procedure at C1-C2, see 61055, 72265)

72270 Myelography, 2 or more regions (eg, lumbar/thoracic, cervical/thoracic, lumbar/cervical, lumbar/thoracic/cervical), radiological supervision and interpretation

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Sep 14:3
- *Clinical Examples in Radiology* Fall 14:6-7, 11, Fall 15:10

(Do not report 72270 in conjunction with 62284, 62302, 62303, 62304, 62305)

(When both 62284 and 72270 are performed by the same physician or other qualified health care professional for myelography of 2 or more regions, use 62305)

(For complete myelography of 2 or more regions via injection procedure at C1-C2, see 61055, 72270)

72285 Discography, cervical or thoracic, radiological supervision and interpretation

- *CPT Changes: An Insider's View* 2000
- *CPT Assistant* Nov 99:35, 40, Mar 11:7, Dec 23:46
- *Clinical Examples in Radiology* Fall 10:10

72295 Discography, lumbar, radiological supervision and interpretation

- *CPT Assistant* Apr 03:27, Mar 11:7, Jul 12:3, Dec 23:46
- *Clinical Examples in Radiology* Fall 10:10

Upper Extremities

(For stress views, any joint, use 77071)

73000 Radiologic examination; clavicle, complete

73010 scapula, complete

73020 Radiologic examination, shoulder; 1 view

73030 complete, minimum of 2 views

73040 Radiologic examination, shoulder, arthrography, radiological supervision and interpretation

- *CPT Assistant* Jul 01:7, Feb 07:11
- *Clinical Examples in Radiology* Spring 05:6, Spring 09:6-7, Summer 18:14

(Do not report 77002 in conjunction with 73040)

73050 Radiologic examination; acromioclavicular joints, bilateral, with or without weighted distraction

73060 humerus, minimum of 2 views

73070 Radiologic examination, elbow; 2 views

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Winter 90:9, Sep 01:8

73080 complete, minimum of 3 views

73085 Radiologic examination, elbow, arthrography, radiological supervision and interpretation

- *CPT Assistant* Feb 07:11
- *Clinical Examples in Radiology* Spring 05:6

(Do not report 77002 in conjunction with 73085)

73090 Radiologic examination; forearm, 2 views

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Sep 01:8, Apr 02:14

73092 upper extremity, infant, minimum of 2 views

- *Clinical Examples in Radiology* Summer 24:17

73100 Radiologic examination, wrist; 2 views

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Winter 90:9, Sep 01:8, Oct 18:11

73110 complete, minimum of 3 views

- *CPT Assistant* Mar 97:10, Nov 06:22, Oct 18:11

73115 Radiologic examination, wrist, arthrography, radiological supervision and interpretation

- *CPT Assistant* Feb 07:11
- *Clinical Examples in Radiology* Spring 05:6

(Do not report 77002 in conjunction with 73115)

73120 Radiologic examination, hand; 2 views

- *CPT Assistant* Winter 90:9, Oct 18:11

73130 minimum of 3 views

Clinical Examples in Radiology Winter 05:9, Spring 11:8, Summer 21:8

73140 Radiologic examination, finger(s), minimum of 2 views

CPT Assistant Jan 07:29

Clinical Examples in Radiology Spring 11:8

73200 Computed tomography, upper extremity; without contrast material

CPT Changes: An Insider's View 2003

CPT Assistant Jul 11:17

Clinical Examples in Radiology Spring 22:13, 14

73201 with contrast material(s)

CPT Assistant Jul 11:17, Aug 15:6

Clinical Examples in Radiology Spring 09:6-7, Summer 18:14, Spring 22:13, 14

73202 without contrast material, followed by contrast material(s) and further sections

Clinical Examples in Radiology Spring 22:13, 14

(To report 3D rendering, see 76376, 76377)

73206 Computed tomographic angiography, upper extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing

- *Clinical Examples in Radiology* Spring 07:3, 11, Fall 08:7, Fall 09:9, Winter 11:8-9, Fall 11:8, Spring 16:9, Summer 20:7

74160 with contrast material(s)
- *CPT Assistant* Mar 05:1, 4, Apr 10:9, Nov 11:6, Oct 12:12
- *Clinical Examples in Radiology* Spring 07:3, 11, Fall 08:7, Summer 10:10, Winter 11:8-9, Fall 11:8, Spring 16:9, Summer 20:7

74170 without contrast material, followed by contrast material(s) and further sections
- *CPT Assistant* Mar 05:4, Apr 10:9, Nov 11:6, Oct 12:12
- *Clinical Examples in Radiology* Winter 05:1, 7-8, 12, Spring 07:3, 11, Fall 08:7, Winter 11:8-9, Fall 11:8, Spring 16:10, Summer 20:7

(For a combined CT abdomen and pelvis study, see 74176-74178)

(To report 3D rendering, see 76376, 76377)

(For computed tomographic colonography, diagnostic, see 74261-74262. For computed tomographic colonography, screening, use 74263)

(Do not report 74150-74170 in conjunction with 74261-74263)

74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing
- *CPT Changes: An Insider's View* 2012
- *Clinical Examples in Radiology* Fall 11:8, Spring 17:7, Spring 20:13

(Do not report 74174 in conjunction with 72191, 73706, 74175, 75635, 76376, 76377)

(For CTA aorto-iliofemoral runoff, use 75635)

74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing

- *CPT Changes: An Insider's View* 2001, 2008
- *CPT Assistant* Jul 01:6, Dec 05:7, Jan 07:31, Apr 11:13
- *Clinical Examples in Radiology* Summer 08:8, Fall 09:10, Fall 11:8

(Do not report 74175 in conjunction with 73706 or 75635. For CTA aorto-iliofemoral runoff, use 75635)

(Do not report 74175 in conjunction with 72191. For a combined computed tomographic angiography abdomen and pelvis study, use 74174)

(For noninvasive arterial plaque analysis using software processing of data from computerized tomography angiography to quantify structure and composition of the vessel wall, including assessment for lipid-rich necrotic core plaque, see 0710T, 0711T, 0712T, 0713T)

For combinations of CT of the abdomen with CT of the pelvis performed at the same session, use the following table. Do not report more than one CT of the abdomen or CT of the pelvis for any session.

Stand Alone Code	74150 CT Abdomen WO Contrast	74160 CT Abdomen W Contrast	74170 CT Abdomen WO/W Contrast
72192 CT Pelvis WO Contrast	74176	74178	74178
72193 CT Pelvis W Contrast	74178	74177	74178
72194 CT Pelvis WO/W Contrast	74178	74178	74178

74176 Computed tomography, abdomen and pelvis; without contrast material

- *CPT Changes: An Insider's View* 2011

Clinical Examples in Radiology Winter 21:12, Summer 21:6, Winter 22:6, Summer 22:7, Winter 23:19, Spring 24:26

74185 Magnetic resonance angiography, abdomen, with or without contrast material(s)

CPT Assistant Dec 05:7, Jan 07:31
Clinical Examples in Radiology Spring 06:1, 3

74190 Peritoneogram (eg, after injection of air or contrast), radiological supervision and interpretation

CPT Assistant Dec 10:13
Clinical Examples in Radiology Fall 07:1-2

(For procedure, use 49400)

(For computed tomography, see 72192 or 74150)

Gastrointestinal Tract

(For percutaneous placement of gastrostomy tube, use 43246)

74210 Radiologic examination, pharynx and/or cervical esophagus, including scout neck radiograph(s) and delayed image(s), when performed, contrast (eg, barium) study

CPT Changes: An Insider's View 2020
CPT Assistant Aug 20:9
Clinical Examples in Radiology Fall 19:4, Summer 20:4

74220 Radiologic examination, esophagus, including scout chest radiograph(s) and delayed image(s), when performed; single-contrast (eg, barium) study

CPT Changes: An Insider's View 2020
CPT Assistant Aug 20:9
Clinical Examples in Radiology Spring 18:15, Fall 19:4, Summer 20:4

(Do not report 74220 in conjunction with 74221, 74240, 74246, 74248)

74221 double-contrast (eg, high-density barium and effervescent agent) study

CPT Changes: An Insider's View 2020
Clinical Examples in Radiology Fall 19:4, Summer 20:4

(Do not report 74221 in conjunction with 74220, 74240, 74246, 74248)

74230 Radiologic examination, swallowing function, with cineradiography/videoradiography, including scout neck radiograph(s) and delayed image(s), when performed, contrast (eg, barium) study

- *CPT Changes: An Insider's View* 2002, 2020
- *CPT Assistant* Dec 04:17, Jul 14:5, Aug 20:9
- *Clinical Examples in Radiology* Summer 06:4-5, Spring 18:14, Fall 19:4, Summer 20:4

(For otorhinolaryngologic services fluoroscopic evaluation of swallowing function, use 92611)

74235 Removal of foreign body(s), esophageal, with use of balloon catheter, radiological supervision and interpretation

(For procedure, use 43499)

74240 Radiologic examination, upper gastrointestinal tract, including scout abdominal radiograph(s) and delayed image(s), when performed; single-contrast (eg, barium) study

- *CPT Changes: An Insider's View* 2016, 2020
- *CPT Assistant* Sep 16:7, Aug 20:9
- *Clinical Examples in Radiology* Fall 19:3, Summer 20:4

(Do not report 74240 in conjunction with 74220, 74221, 74246)

74246 double-contrast (eg, high-density barium and effervescent agent) study, including glucagon, when administered

- *CPT Changes: An Insider's View* 2016, 2020
- *CPT Assistant* Sep 16:7, Aug 20:9
- *Clinical Examples in Radiology* Fall 19:4, Summer 20:4

(Do not report 74246 in conjunction with 74220, 74221, 74240)

+ 74248 Radiologic small intestine follow-through study, including multiple serial images (List separately in addition to code for primary procedure for upper GI radiologic examination)

- *CPT Changes: An Insider's View* 2020
- *Clinical Examples in Radiology* Fall 19:4, Summer 20:4

(Use 74248 in conjunction with 74240, 74246)

(Do not report 74248 in conjunction with 74250, 74251)

74250 Radiologic examination, small intestine, including multiple serial images and scout abdominal radiograph(s), when performed; single-contrast (eg, barium) study

- *CPT Changes: An Insider's View* 2002, 2016, 2020
- *CPT Assistant* Sep 16:7, Aug 20:9, Feb 21:13
- *Clinical Examples in Radiology* Fall 19:4, Summer 20:4

(Do not report 74250 in conjunction with 74248, 74251)

74251 double-contrast (eg, high-density barium and air via enteroclysis tube) study, including glucagon, when administered

- *CPT Changes: An Insider's View* 2016, 2020
- *CPT Assistant* Sep 16:7, Aug 20:9
- *Clinical Examples in Radiology* Fall 19:4, Summer 20:4

(For placement of enteroclysis tube, see 44500, 74340)

(Do not report 74251 in conjunction with 74248, 74250)

74261 Computed tomographic (CT) colonography, diagnostic, including image postprocessing; without contrast material

- *CPT Changes: An Insider's View* 2010
- *CPT Assistant* Apr 10:9, Feb 20:13
- *Clinical Examples in Radiology* Winter 10:6, Spring 20:12, Spring 23:4

74262 with contrast material(s) including non-contrast images, if performed

- *CPT Changes: An Insider's View* 2010
- *CPT Assistant* Apr 10:9, Feb 20:13
- *Clinical Examples in Radiology* Winter 10:4, 6, Spring 20:12, Spring 23:4

(Do not report 74261, 74262 in conjunction with 72192-72194, 74150-74170, 74263, 76376, 76377)

74263 Computed tomographic (CT) colonography, screening, including image postprocessing

- *CPT Changes: An Insider's View* 2010
- *CPT Assistant* Apr 10:9, Feb 20:13
- *Clinical Examples in Radiology* Winter 10:6, Spring 20:12, Spring 23:4

(Do not report 74263 in conjunction with 72192-72194, 74150-74170, 74261, 74262, 76376, 76377)

74270 Radiologic examination, colon, including scout abdominal radiograph(s) and delayed image(s), when performed; single-contrast (eg, barium) study

- *CPT Changes: An Insider's View* 2009, 2020
- *CPT Assistant* May 03:19, Aug 20:9
- *Clinical Examples in Radiology* Fall 19:4, Summer 20:4

(Do not report 74270 in conjunction with 74280)

74280 double-contrast (eg, high density barium and air) study, including glucagon, when administered

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Aug 20:9
- *Clinical Examples in Radiology* Fall 19:4, Summer 20:4

(Do not report 74280 in conjunction with 74270)

74283 Therapeutic enema, contrast or air, for reduction of intussusception or other intraluminal obstruction (eg, meconium ileus)

- *CPT Assistant* Nov 97:24
- *Clinical Examples in Radiology* Spring 13:9

74290 Cholecystography, oral contrast

74300 Cholangiography and/or pancreatography; intraoperative, radiological supervision and interpretation

- *CPT Changes: An Insider's View* 2000
- *CPT Assistant* Nov 99:41, Dec 00:14

+ 74301 additional set intraoperative, radiological supervision and interpretation (List separately in addition to code for primary procedure)

(Use 74301 in conjunction with 74300)

74328 Endoscopic catheterization of the biliary ductal system, radiological supervision and interpretation

(For procedure, see 43260-43278 as appropriate)

74329 Endoscopic catheterization of the pancreatic ductal system, radiological supervision and interpretation

(For procedure, see 43260-43278 as appropriate)

74330 Combined endoscopic catheterization of the biliary and pancreatic ductal systems, radiological supervision and interpretation

(For procedure, see 43260-43278 as appropriate)

74340 Introduction of long gastrointestinal tube (eg, Miller-Abbott), including multiple fluoroscopies and images, radiological supervision and interpretation

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Sep 16:9, Apr 25:27
- *Clinical Examples in Radiology* Winter 25:29

(For tube placement, use 44500)

74355 Percutaneous placement of enteroclysis tube, radiological supervision and interpretation

- *CPT Assistant* Feb 07:11, Nov 10:3, Jan 11:8

74360 Intraluminal dilation of strictures and/or obstructions (eg, esophagus), radiological supervision and interpretation

- *CPT Assistant* Spring 94:3, Oct 08:6

(Do not report 74360 in conjunction with 43213, 43214, 43233)

74363 Percutaneous transhepatic dilation of biliary duct stricture with or without placement of stent, radiological supervision and interpretation

- *CPT Changes: An Insider's View* 2002

(For procedure, see 47555, 47556)

Urinary Tract

74400 Urography (pyelography), intravenous, with or without KUB, with or without tomography

74410 Urography, infusion, drip technique and/or bolus technique;

74415 with nephrotomography

74420 Urography, retrograde, with or without KUB

- *CPT Assistant* Sep 00:11, Dec 10:15

74425 Urography, antegrade, radiological supervision and interpretation

- *CPT Changes: An Insider's View* 2021
- *CPT Assistant* Fall 93:14, Dec 97:7, Oct 05:18
- *Clinical Examples in Radiology* Summer 06:1, 3, Fall 15:2, Spring 16:12, Fall 20:12

(Use 74425 in conjunction with 50390, 50396, 50684, 50690)

(Do not report 74425 in conjunction with 50430, 50431, 50432, 50433, 50434, 50435, 50693, 50694, 50695)

74430 Cystography, minimum of 3 views, radiological supervision and interpretation

- *Clinical Examples in Radiology* Summer 19:11, Winter 21:3

74440 Vasography, vesiculography, or epididymography, radiological supervision and interpretation

74445 Corpora cavernosography, radiological supervision and interpretation

- *CPT Assistant* Feb 07:11, Nov 10:3, Jan 11:8

74450 Urethrocystography, retrograde, radiological supervision and interpretation

- *CPT Assistant* Oct 19:11, Dec 23:41, Feb 24:21
- *Clinical Examples in Radiology* Summer 24:7

74455 Urethrocystography, voiding, radiological supervision and interpretation

- *CPT Assistant* Oct 19:11
- *Clinical Examples in Radiology* Summer 19:11

74470 Radiologic examination, renal cyst study, translumbar, contrast visualization, radiological supervision and interpretation

- *CPT Assistant* Oct 05:18, Feb 07:11, Nov 10:3, Jan 11:8

74485 Dilation of ureter(s) or urethra, radiological supervision and interpretation

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Oct 05:18, Dec 08:7, Jan 09:7, Oct 15:5
- *Clinical Examples in Radiology* Summer 06:1, 3, Winter 19:6

(Do not report 74485 in conjunction with 50436, 50437)

(For dilation of ureter without radiologic guidance, use 52341, 52344)

(For change of nephrostomy or pyelostomy tube, use 50435)

(For dilation of a nephrostomy tract for endourologic procedure, see 50436, 50437)

Gynecological and Obstetrical

(For abdomen and pelvis, see 72170-72190, 74018, 74019, 74021, 74022, 74150, 74160, 74170)

(74710 has been deleted)

74712 Magnetic resonance (eg, proton) imaging, fetal, including placental and maternal pelvic imaging when performed; single or first gestation

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Jun 16:5
- *Clinical Examples in Radiology* Winter 16:12

+ 74713 each additional gestation (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Jun 16:5
- *Clinical Examples in Radiology* Winter 16:12

(Use 74713 in conjunction with 74712)

(Do not report 74712, 74713 in conjunction with 72195, 72196, 72197)

(If only placenta or maternal pelvis is imaged without fetal imaging, see 72195, 72196, 72197)

74740 Hysterosalpingography, radiological supervision and interpretation

CPT Assistant Nov 97:24, Jul 99:8, Mar 09:11
Clinical Examples in Radiology Spring 23:32

(For introduction of saline or contrast for hysterosalpingography, see 58340)

74742 Transcervical catheterization of fallopian tube, radiological supervision and interpretation

(For procedure, use 58345)

74775 Perineogram (eg, vaginogram, for sex determination or extent of anomalies)

Heart

Cardiac magnetic imaging differs from traditional magnetic resonance imaging (MRI) in its ability to provide a physiologic evaluation of cardiac function. Traditional MRI relies on static images to obtain clinical diagnoses based upon anatomic information. Improvement in spatial and temporal resolution has expanded the application from an anatomic test and includes physiologic evaluation of cardiac function. Flow and velocity assessment for valves and intracardiac shunts is performed in addition to a function and morphologic evaluation. Use 75559 with 75565 to report flow with pharmacologic wall motion stress evaluation without contrast. Use 75563 with 75565 to report flow with pharmacologic perfusion stress with contrast.

Cardiac MRI for velocity flow mapping can be reported in conjunction with 75557, 75559, 75561, or 75563.

Listed procedures may be performed independently or in the course of overall medical care. If the individual providing these services is also responsible for diagnostic workup and/or follow-up care of the patient, also see appropriate sections. Only one procedure in the series 75557-75563 is appropriately reported per session.

To report absolute quantitation of myocardial blood flow (AQMBF), cardiac magnetic resonance (CMR), see 0899T, 0900T. Report 0899T, 0900T in conjunction with code for primary procedure.

Cardiac MRI studies may be performed at rest and/or during pharmacologic stress. Therefore, the appropriate stress testing code from the 93015-93018 series should be reported in addition to 75559 or 75563.

Cardiac computed tomography (CT) and coronary computed tomographic angiography (CTA) include the axial source images of the pre-contrast, arterial phase sequence, and venous phase sequence (if performed), as well as the two-dimensional and three-dimensional reformatted images resulting from the study, including cine review. Each of the contrast enhanced cardiac CT and coronary CTA codes (75572, 75573, 75574) includes conventional quantitative assessment(s) intrinsic to the service listed in the code descriptor (ie, quantification of coronary percentage stenosis, ventricular volume[s], ejection fraction[s], and stroke volume[s]), when performed. Report only one computed tomography heart service per encounter (75571, 75572, 75573, 75574).

(For separate injection procedures for vascular radiology, see **Surgery** section, 36000-36299)

(For cardiac catheterization procedures, see 93451-93572)

75557 Cardiac magnetic resonance imaging for morphology and function without contrast material;

Clinical Examples in Radiology Winter 10:1, 3, Spring 21:11, Winter 22:10-12

►(For quantification and characterization of coronary atherosclerotic plaque to assess severity of coronary disease, derived from augmentative software analysis of the data set using data from coronary computed tomographic angiography, use 75577)◄

(For noninvasive estimate of coronary fractional flow reserve [FFR] derived from augmentative software analysis of the data set from a coronary computed tomography angiography with interpretation and report by a physician or other qualified health care professional, use 75580)

►Quantification and characterization of coronary atherosclerotic plaque is a service in which coronary computed tomographic angiography (CTA) data are analyzed using computerized algorithms to assess the extent and severity of coronary artery disease. The computer-generated findings are provided in an interactive format to the physician or other qualified health care professional who performs the final review and report. The coronary CTA is performed and interpreted as a separate service and is not included in the service of augmentative software analysis of coronary atherosclerotic plaque.◄

● **75577** Quantification and characterization of coronary atherosclerotic plaque to assess severity of coronary disease, derived from augmentative software analysis of the data set from a coronary computed tomographic angiography, with interpretation and report by a physician or other qualified health care professional

CPT Changes: An Insider's View 2026

►(Use 75577 only once per coronary computed tomography angiogram)◄

►(When quantification and characterization of coronary atherosclerotic plaque to assess severity of coronary disease derived from augmentative software analysis of the data set from a coronary computed tomography angiography with interpretation and report by a physician or other qualified health care professional is performed on the same day as the coronary computed tomography angiography, use 75577 in conjunction with 75574)◄

75580 Noninvasive estimate of coronary fractional flow reserve (FFR) derived from augmentative software analysis of the data set from a coronary computed tomography angiography, with interpretation and report by a physician or other qualified health care professional

CPT Changes: An Insider's View 2024

CPT Assistant Mar 24:14

(Use 75580 only once per coronary computed tomography angiogram)

(When noninvasive estimate of coronary FFR derived from augmentative software analysis of the data set from a coronary computed tomography angiography with interpretation and report by a physician or other qualified health care professional is performed on the same day as the coronary computed tomography angiography, use 75580 in conjunction with 75574)

Vascular Procedures

Aorta and Arteries

Selective vascular catheterizations should be coded to include introduction and all lesser order selective catheterizations used in the approach (eg, the description for a selective right middle cerebral artery catheterization includes the introduction and placement catheterization of the right common and internal carotid arteries).

Additional second and/or third order arterial catheterizations within the same family of arteries supplied by a single first order artery should be expressed by 36218 or 36248. Additional first order or higher catheterizations in vascular families supplied by a first order vessel different from a previously selected and coded family should be separately coded using the conventions described above.

►The lower extremity endovascular revascularization codes describing services performed for occlusive disease (37254-37299) include catheterization (36140, 36200, 36245-36248) in the work described by the codes.

Catheterization codes are not additionally reported for diagnostic lower extremity angiography when performed through the same access site as the therapy (37254-37299) performed in the same session. However, catheterization for the diagnostic lower extremity angiogram may be reported separately if a different arterial puncture site is necessary.◄

For angiography performed in conjunction with therapeutic transcatheter radiological supervision and interpretation services, see the radiology **Transcatheter Procedures** guidelines.

Diagnostic angiography (radiological supervision and interpretation) codes should NOT be used with interventional procedures for:

1. Contrast injections, angiography, roadmapping, and/or fluoroscopic guidance for the intervention,
2. Vessel measurement, and
3. Post-angioplasty/stent/atherectomy angiography, as this work is captured in the radiological supervision and interpretation code(s). In those therapeutic codes that include radiological supervision and interpretation, this work is captured in the therapeutic code.

Diagnostic angiography performed at the time of an interventional procedure is separately reportable if:

1. No prior catheter-based angiographic study is available and a full diagnostic study is performed, and the decision to intervene is based on the diagnostic study, OR
2. A prior study is available, but as documented in the medical record:
   a. The patient's condition with respect to the clinical indication has changed since the prior study, OR
   b. There is inadequate visualization of the anatomy and/or pathology, OR
   c. There is a clinical change during the procedure that requires new evaluation outside the target area of intervention.

Diagnostic angiography performed at a separate session from an interventional procedure is separately reported.

If diagnostic angiography is necessary, is performed at the same session as the interventional procedure and meets the above criteria, modifier 59 must be appended to the diagnostic radiological supervision and interpretation code(s) to denote that diagnostic work has been done following these guidelines.

Diagnostic angiography performed at the time of an interventional procedure is NOT separately reportable if it is specifically included in the interventional code descriptor.

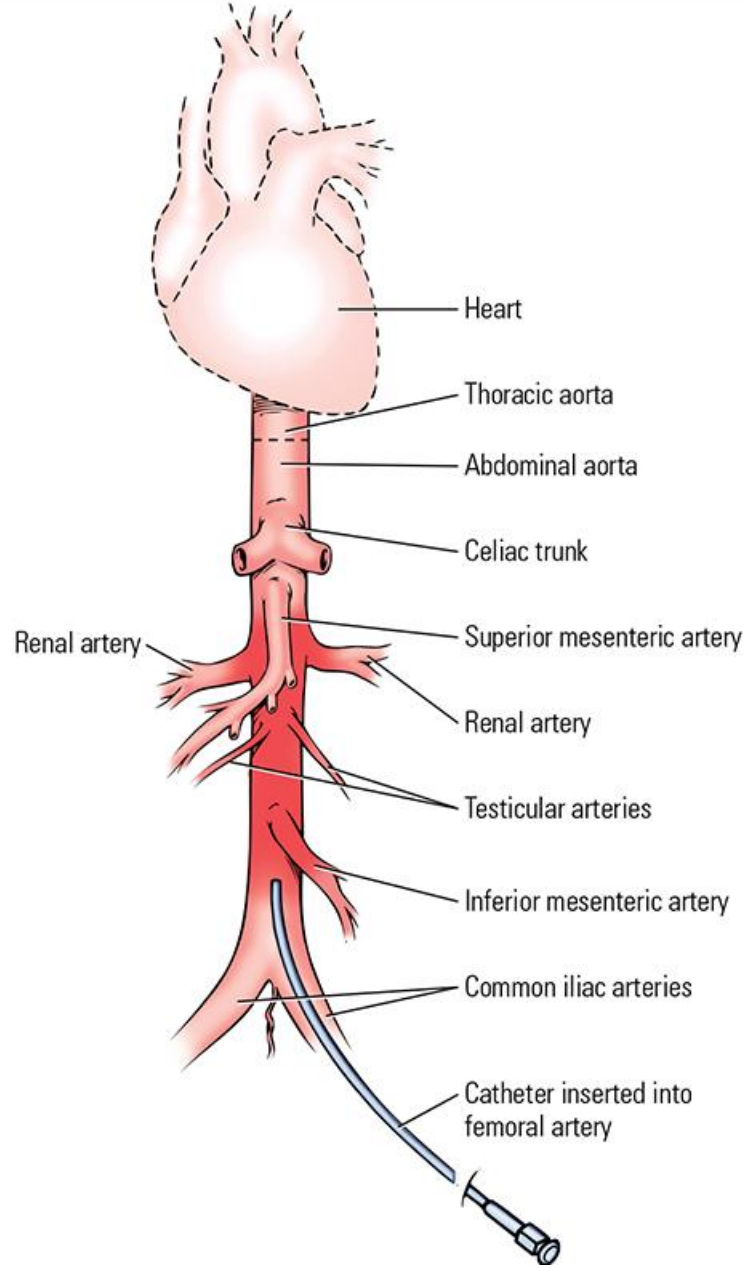
Add-on code 75774 may be used with both arteries and veins for each additional vessel.

(For intravenous procedure, see 36000, 36005-36015, and for intra-arterial procedure, see 36100-36248)

(For radiological supervision and interpretation, see 75600-75893)

75600 Aortography, thoracic, without serialography, radiological supervision and interpretation

(For supravalvular aortography performed at the time of cardiac catheterization, use 93567, which includes imaging supervision, interpretation, and report)



75605 Aortography, thoracic, by serialography, radiological supervision and interpretation

- *CPT Assistant* Spring 94:29, Dec 98:9, Jan 13:6

CPT Assistant Spring 94:29, Apr 98:7, Jan 13:6, Jun 19:3, May 23:1

Clinical Examples in Radiology Summer 12:1-2, Winter 23:8

(For selective pulmonary arterial angiography during cardiac catheterization, see 93569, 93573)

(For selective pulmonary venous angiography during cardiac catheterization, each distinct vein, use 93574)

(For selective pulmonary angiography of major aortopulmonary collateral arteries [MAPCAs] arising off the aorta or its systemic branches, use 93575)

75746 Angiography, pulmonary, by nonselective catheter or venous injection, radiological supervision and interpretation

CPT Assistant Jun 19:3, May 23:1

(For nonselective pulmonary arterial angiography by catheter injection performed at the time of cardiac catheterization, use 93568, which includes imaging supervision, interpretation, and report)

75756 Angiography, internal mammary, radiological supervision and interpretation

(For internal mammary angiography performed at the time of cardiac catheterization, see 93455, 93457, 93459, 93461, 93564, which include imaging supervision, interpretation, and report)

+ 75774 Angiography, selective, each additional vessel studied after basic examination, radiological supervision and interpretation (List separately in addition to code for primary procedure)

CPT Assistant Fall 93:17, Spring 94:29, Apr 11:13, Feb 13:17, Jun 13:12, Oct 13:18, May 17:3, Sep 20:14, Sep 22:20, May 23:1

Clinical Examples in Radiology Winter 08:1-2, 4-5, Summer 08:1, 3, Winter 13:1, 3, Spring 13:6, Fall 13:2-3, 5, Winter 15:4, 6, Winter 18:2, Summer 18:2, Summer 19:4, Winter 23:8

(Use 75774 in addition to code for specific initial vessel studied)

(Do not report 75774 as part of diagnostic angiography of the extracranial and intracranial cervicocerebral vessels. It may be appropriate to report 75774 for diagnostic angiography of upper extremities and other vascular beds performed in the same session)

(For cardiac catheterization procedures, see 93452-93462, 93563, 93564, 93565, 93566, 93567, 93568, 93569, 93573, 93574, 93575, 93593, 93594, 93595, 93596, 93597)

(For radiological supervision and interpretation of dialysis circuit angiography performed through existing access[es] or catheter-based arterial access, use 36901 with modifier 52)

Veins and Lymphatics

For venography performed in conjunction with therapeutic transcatheter radiological supervision and interpretation services, see the radiology **Transcatheter Procedures** guidelines.

Diagnostic venography (radiological supervision and interpretation) codes should NOT be used with interventional procedures for:

1. Contrast injections, venography, roadmapping, and/or fluoroscopic guidance for the intervention,
2. Vessel measurement, and
3. Post-angioplasty/stent venography, as this work is captured in the radiological supervision and interpretation code(s).

Diagnostic venography performed at the time of an interventional procedure is separately reportable if:

1. No prior catheter-based venographic study is available and a full diagnostic study is performed, and decision to intervene is based on the diagnostic study, OR
2. A prior study is available, but as documented in the medical record:
   a. The patient's condition with respect to the clinical indication has changed since the prior study, OR
   b. There is inadequate visualization of the anatomy and/or pathology, OR
   c. There is a clinical change during the procedure that requires new evaluation outside the target area of intervention.

Diagnostic venography performed at a separate setting from an interventional procedure is separately reported.

Diagnostic venography performed at the time of an interventional procedure is NOT separately reportable if it is specifically included in the interventional code descriptor.

(For injection procedure for venous system, see 36000-36015, 36400-36510)

(For injection procedure for lymphatic system, use 38790)

75801 Lymphangiography, extremity only, unilateral, radiological supervision and interpretation

(For procedure, use 36500)

Transcatheter Procedures

Therapeutic transcatheter radiological supervision and interpretation code(s) include the following services associated with that intervention:

1. Contrast injections, angiography/venography, roadmapping, and fluoroscopic guidance for the intervention,
2. Vessel measurement, and
3. Completion angiography/venography (except for those uses permitted by 75898).

Unless specifically included in the code descriptor, diagnostic angiography/venography performed at the time of transcatheter therapeutic radiological and interpretation service(s) is separately reportable (eg, no prior catheter-based diagnostic angiography/venography study of the target vessel is available, prior diagnostic study is inadequate, patient's condition with respect to the clinical indication has changed since the prior study or during the intervention). See 75600-75893.

75894 Transcatheter therapy, embolization, any method, radiological supervision and interpretation

Clinical Examples in Radiology Summer 10:3, Winter 11:10, Summer 11:3, Winter 13:5, Fall 13:5-6, Spring 14:10, Spring 15:8, Winter 16:10

(Do not report 75989 in conjunction with 10030, 32554, 32555, 32556, 32557, 33017, 33018, 33019, 47490, 49405, 49406, 49407)

Magnetic Resonance Safety Implant/Foreign Body Procedures

Implanted medical devices or foreign bodies can increase the risk of injury or death for a patient entering the magnetic resonance (MR) environment, either for diagnostic MR procedures or for procedures performed under MR imaging guidance.

Implants may have FDA-approved labeling specifying conditions under which an MR examination could be safely performed. These conditions can specify the type of MR equipment to use, preparation of the implant before the MR procedure, anatomical regions that should be excluded from MR examination, limitations on MR scan time and energy deposition, and/or implant components that may contraindicate MR examination.

Codes 76014, 76015, 76016 describe MR safety-planning services performed in advance of the date of the MR procedure. For 76014, implant-safety conditions and additional procedures required to safely perform the requested MR examination are documented for inclusion in the medical record by a technologist or other MR safety-trained clinical staff. Contraindications to MR are also documented. For patients with complex, multiple, or incompletely documented implants, use 76015 to report prolonged MR safety implant/foreign body assessment by clinical staff. For an implant and/or foreign body that lacks MR conditional labeling, is contraindicated for MR, or may result in a limited MR examination, use 76016 to report the performance of an MR safety determination by a physician or other qualified health care professional (QHP) responsible for the safe performance of the MR procedure, with a written report.

Codes 76017, 76018, 76019 describe MR safety services performed on the day of the MR examination under supervision of the physician or other QHP responsible for the safe performance of the MR procedure. The need for these services depends on the design of the medical implant, and the MR conditional labeling of the implant, if available. Use 76017 to report medical physics services provided during the MR examination, with a written report. Use 76018 to report the preparation and documentation of an electronic implant into an MR-protective mode. Use 76019 to report specified positioning and/or immobilization of an implant during the MR examination, with documentation for inclusion in the medical record.

Cardiac devices (eg, pacemakers and defibrillators) may require interrogation or programming services before or after the performance of the MR examination to put them in a mode safe for the MR scan. For cardiac device interrogation or programming, see the appropriate cardiac device evaluation code. Similarly, neurostimulation devices may require analysis-programming before being placed into an MR-protective mode, or after the performance of the MR examination. For electronic analysis-programming of neurostimulation devices, see the appropriate analysis-programming code. If cardiac device evaluation or neurostimulator analysis-programming is performed on the same day, report 76018 only if a separate individual performs additional preparation of the electronic implant into an MR-protective mode immediately before patient entry to the MR environment. For reprogramming of programmable cerebrospinal shunt after the performance of the MR examination, use 62252.

 # 76014 MR safety implant and/or foreign body assessment by trained clinical staff, including identification and verification of implant components from appropriate sources (eg, surgical reports, imaging reports, medical device databases, device vendors, review of prior imaging), analyzing current MR conditional status of individual components and systems, and consulting published professional guidance with written report; initial 15 minutes

CPT Changes: An Insider's View 2025

Clinical Examples in Radiology Winter 25:7

#+ 76015 each additional 30 minutes (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2025

Clinical Examples in Radiology Winter 25:7

(Use 76015 in conjunction with 76014)

(Do not report 76015 more than three times per encounter)

 # 76016 MR safety determination by a physician or other qualified health care professional responsible for the safety of the MR procedure, including review of implant MR conditions for indicated MR examination, analysis of risk vs clinical benefit of performing MR examination, and determination of MR equipment, accessory equipment, and expertise required to perform examination, with written report

CPT Changes: An Insider's View 2025

Clinical Examples in Radiology Winter 25:7

#⃠ 76017 MR safety medical physics examination customization, planning and performance monitoring by medical physicist or MR safety expert, with review and analysis by physician or other qualified health care professional to prioritize and select views and imaging sequences, to tailor MR acquisition specific to restrictive requirements or artifacts associated with MR conditional implants or to mitigate risk of non-conditional implants or foreign bodies, with written report

CPT Changes: An Insider's View 2025

Clinical Examples in Radiology Winter 25:7

(Use 76017 in conjunction with 76018, 76019, when implant requires electronics preparation or positioning and/or immobilization before MR)

#⃠ 76018 MR safety implant electronics preparation under supervision of physician or other qualified health care professional, including MR-specific programming of pulse generator and/or transmitter to verify device integrity, protection of device internal circuitry from MR electromagnetic fields, and protection of patient from risks of unintended stimulation or heating while in the MR room, with written report

CPT Changes: An Insider's View 2025

Clinical Examples in Radiology Winter 25:7

(Use 76018 in conjunction with 76017, when implant also requires medical physics examination customization)

#⃠ 76019 MR safety implant positioning and/or immobilization under supervision of physician or other qualified health care professional, including application of physical protections to secure implanted medical device from MR-induced translational or vibrational forces, magnetically induced functional changes, and/or prevention of radiofrequency burns from inadvertent tissue contact while in the MR room, with written report

CPT Changes: An Insider's View 2025

Clinical Examples in Radiology Winter 25:7

(Use 76019 in conjunction with 76017, when implant also requires medical physics examination customization)

Diagnostic Ultrasound

All diagnostic ultrasound examinations require permanently recorded images with measurements, when such measurements are clinically indicated. For those codes whose sole diagnostic goal is a biometric measure (ie, 76514, 76516, and 76519), permanently recorded images are not required. A final, written report should be issued for inclusion in the patient's medical record. The prescription form for the intraocular lens satisfies the written report requirement for 76519. For those anatomic regions that have "complete" and "limited" ultrasound codes, note the elements that comprise a "complete" exam. The report should contain a description of these elements or the reason that an element could not be visualized (eg, obscured by bowel gas, surgically absent).

If less than the required elements for a "complete" exam are reported (eg, limited number of organs or limited portion of region evaluated), the "limited" code for that anatomic region should be used once per patient exam session. A "limited" exam of an anatomic region should not be reported for the same exam session as a "complete" exam of that same region.

Evaluation of vascular structures using both color and spectral Doppler is separately reportable. To report, see **Noninvasive Vascular Diagnostic Studies** (93880-93990). However, color Doppler alone, when performed for anatomic structure identification in conjunction with a real-time ultrasound examination, is not reported separately.

Ultrasound guidance procedures also require permanently recorded images of the site to be localized, as well as a documented description of the localization process, either separately or within the report of the procedure for which the guidance is utilized.

Use of ultrasound, without thorough evaluation of organ(s) or anatomic region, image documentation, and final, written report, is not separately reportable.

Definitions

A-mode implies a one-dimensional ultrasonic measurement procedure.

M-mode implies a one-dimensional ultrasonic measurement procedure with movement of the trace to record amplitude and velocity of moving echo-producing structures.

B-scan implies a two-dimensional ultrasonic scanning procedure with a two-dimensional display.

Real-time scan implies a two-dimensional ultrasonic scanning procedure with display of both two-dimensional structure and motion with time.

(To report diagnostic vascular ultrasound studies, see 93880-93990)

(For focused ultrasound ablation treatment of uterine leiomyomata, see Category III codes 0071T, 0072T)

Head and Neck

76506 Echoencephalography, real time with image documentation (gray scale) (for determination of ventricular size, delineation of cerebral contents, and detection of fluid masses or other intracranial abnormalities), including A-mode encephalography as secondary component where indicated

(Report 76641, 76642 only once per breast, per session)

(For axillary ultrasound only, use 76882)

Abdomen and Retroperitoneum

A complete ultrasound examination of the abdomen (76700) consists of real time scans of the liver, gall bladder, common bile duct, pancreas, spleen, kidneys, and the upper abdominal aorta and inferior vena cava including any demonstrated abdominal abnormality.

A complete ultrasound examination of the retroperitoneum (76770) consists of real time scans of the kidneys, abdominal aorta, common iliac artery origins, and inferior vena cava, including any demonstrated retroperitoneal abnormality. Alternatively, if clinical history suggests urinary tract pathology, complete evaluation of the kidneys and urinary bladder also comprises a complete retroperitoneal ultrasound.

Use of ultrasound, without thorough evaluation of organ(s) or anatomic region, image documentation and final, written report, is not separately reportable.

76700 Ultrasound, abdominal, real time with image documentation; complete

76776 Ultrasound, transplanted kidney, real time and duplex Doppler with image documentation

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Mar 07:7
- *Clinical Examples in Radiology* Summer 12:10, Fall 23:19

(For ultrasound of transplanted kidney without duplex Doppler, use 76775)

(For ultrasound and duplex Doppler of a transplanted kidney, do not report 76776 in conjunction with 93975, 93976)

Spinal Canal

76800 Ultrasound, spinal canal and contents

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Apr 98:15

Pelvis

Obstetrical

Codes 76801 and 76802 include determination of the number of gestational sacs and fetuses, gestational sac/fetal measurements appropriate for gestation (younger than 14 weeks 0 days), survey of visible fetal and placental anatomic structure, qualitative assessment of amniotic fluid volume/gestational sac shape and examination of the maternal uterus and adnexa.

Codes 76805 and 76810 include determination of number of fetuses and amniotic/chorionic sacs, measurements appropriate for gestational age (older than or equal to 14 weeks 0 days), survey of intracranial/spinal/abdominal anatomy, 4 chambered heart, umbilical cord insertion site, placenta location and amniotic fluid assessment and, when visible, examination of maternal adnexa.

Codes 76811 and 76812 include all elements of codes 76805 and 76810 plus detailed anatomic evaluation of the fetal brain/ventricles, face, heart/outflow tracts and chest anatomy, abdominal organ specific anatomy, number/length/architecture of limbs and detailed evaluation of the umbilical cord and placenta and other fetal anatomy as clinically indicated.

Report should document the results of the evaluation of each element described above or the reason for non-visualization.

Code 76815 represents a focused "quick look" exam limited to the assessment of one or more of the elements listed in code 76815.

Code 76816 describes an examination designed to reassess fetal size and interval growth or reevaluate one or more anatomic abnormalities of a fetus previously demonstrated on ultrasound, and should be coded once for each fetus requiring reevaluation using modifier 59 for each fetus after the first.

Code 76817 describes a transvaginal obstetric ultrasound performed separately or in addition to one of the transabdominal examinations described above. For transvaginal examinations performed for non-obstetrical purposes, use code 76830.

76801 Ultrasound, pregnant uterus, real time with image documentation, fetal and maternal evaluation, first trimester (< 14 weeks 0 days), transabdominal approach; single or first gestation

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Mar 03:7, Nov 05:15
- *Clinical Examples in Radiology* Winter 07:6-7, Summer 10:8, Winter 19:7, Spring 19:9, Winter 20:12, Fall 21:16, Winter 22:16, Spring 24:14

(To report first trimester fetal nuchal translucency measurement, use 76813)

+ 76802 each additional gestation (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Mar 03:7, Nov 05:15
- *Clinical Examples in Radiology* Winter 07:6-7, Summer 11:10, Spring 19:10, Winter 20:12, Fall 21:16, Winter 22:16, Spring 24:15

(Use 76802 in conjunction with 76801)

(To report first trimester fetal nuchal translucency measurement, use 76814)

76805 Ultrasound, pregnant uterus, real time with image documentation, fetal and maternal evaluation, after first trimester (> or = 14 weeks 0 days), transabdominal approach; single or first gestation

- *CPT Changes: An Insider's View* 2002, 2003
- *CPT Assistant* Apr 97:2, Nov 97:25, Oct 01:3, Aug 02:2, Mar 03:7, Jun 22:21-22
- *Clinical Examples in Radiology* Winter 05:3-4, Summer 12:11, Winter 14:11, Spring 19:9, Summer 20:10, Fall 21:12-13, 16, Summer 24:21

+ 76810 each additional gestation (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Apr 97:2, Oct 01:3, Aug 02:2, Mar 03:7, Jun 22:21-22
- *Clinical Examples in Radiology* Winter 05:4, Summer 11:10, Winter 14:11, Fall 21:12-13, 16

(Use 76810 in conjunction with 76805)

76811 Ultrasound, pregnant uterus, real time with image documentation, fetal and maternal evaluation plus detailed fetal anatomic examination, transabdominal approach; single or first gestation

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Mar 03:7, Jun 24:17
- *Clinical Examples in Radiology* Winter 05:4, Winter 14:11, Fall 21:13, 16, Summer 24:21

+ 76812 each additional gestation (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Mar 03:7, Jun 24:17
- *Clinical Examples in Radiology* Summer 11:10, Winter 14:11, Fall 21:13, Summer 24:22

(Use 76812 in conjunction with 76811)

76813 Ultrasound, pregnant uterus, real time with image documentation, first trimester fetal nuchal translucency measurement, transabdominal or transvaginal approach; single or first gestation

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Mar 07:7
- *Clinical Examples in Radiology* Winter 07:6

+ 76814 each additional gestation (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Mar 07:7
- *Clinical Examples in Radiology* Winter 07:6, Summer 11:10

(Use 76814 in conjunction with 76813)

76815 Ultrasound, pregnant uterus, real time with image documentation, limited (eg, fetal heart beat, placental location, fetal position and/or qualitative amniotic fluid volume), 1 or more fetuses

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Apr 97:2, Nov 97:25, Oct 01:3, Dec 01:6, Aug 02:2, Mar 03:7, Nov 03:14, May 10:9
- *Clinical Examples in Radiology* Winter 07:6-7, Summer 10:8-9, Summer 12:11, Summer 14:7-8, Summer 16:12, Spring 19:9, Winter 20:12, Spring 20:13, Summer 20:10, Fall 21:13, Spring 24:15

(Use 76815 only once per exam and not per element)

(To report first trimester fetal nuchal translucency measurement, see 76813, 76814)

76816 Ultrasound, pregnant uterus, real time with image documentation, follow-up (eg, re-evaluation of fetal size by measuring standard growth parameters and amniotic fluid volume, re-evaluation of organ system(s) suspected or confirmed to be abnormal on a previous scan), transabdominal approach, per fetus

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Apr 97:2, Oct 01:3, Aug 02:2, Mar 03:7, May 10:9, Nov 11:10
- *Clinical Examples in Radiology* Summer 10:9, Summer 12:11, Summer 14:7-8, Spring 16:13, Spring 19:9, Winter 20:12, Fall 21:14

(Report 76816 with modifier 59 for each additional fetus examined in a multiple pregnancy)

76817 Ultrasound, pregnant uterus, real time with image documentation, transvaginal

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Mar 03:7, Nov 11:10
- *Clinical Examples in Radiology* Summer 10:8, Summer 11:10, Winter 14:11, Winter 16:13, Spring 19:9, Winter 20:12, Spring 20:13, Fall 21:14, Spring 24:14

(For non-obstetrical transvaginal ultrasound, use 76830)

(If transvaginal examination is done in addition to transabdominal obstetrical ultrasound exam, use 76817 in addition to appropriate transabdominal exam code)

76818 Fetal biophysical profile; with non-stress testing

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Apr 97:2, May 98:10, Sep 01:4, Oct 01:3, Dec 01:6, Nov 04:10
- *Clinical Examples in Radiology* Summer 14:7-8

76819 without non-stress testing

- *CPT Changes: An Insider's View* 2001, 2002
- *CPT Assistant* Sep 01:8, Dec 01:6
- *Clinical Examples in Radiology* Summer 14:7-8

(Fetal biophysical profile assessments for the second and any additional fetuses, should be reported separately by code 76818 or 76819 with the modifier 59 appended)

(For amniotic fluid index without non-stress test, use 76815)

76820 Doppler velocimetry, fetal; umbilical artery

- *CPT Changes: An Insider's View* 2005

- *CPT Assistant* Apr 97:2, Aug 02:2, Sep 17:15
- *Clinical Examples in Radiology* Fall 21:16, Spring 22:15

76826 follow-up or repeat study

- *CPT Assistant* Apr 97:2, Aug 02:2, Sep 17:15
- *Clinical Examples in Radiology* Spring 22:15

76827 Doppler echocardiography, fetal, pulsed wave and/or continuous wave with spectral display; complete

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Apr 97:2, Aug 02:2, Dec 05:3, Sep 22:20
- *Clinical Examples in Radiology* Spring 22:15, Summer 24:18

76828 follow-up or repeat study

- *CPT Assistant* Apr 97:2, Aug 02:2, Dec 05:3, Sep 22:20
- *Clinical Examples in Radiology* Spring 22:15, Summer 24:18

Nonobstetrical

Code 76856 includes the complete evaluation of the female pelvic anatomy. Elements of this examination include a description and measurements of the uterus and adnexal structures, measurement of the endometrium, measurement of the bladder (when applicable), and a description of any pelvic pathology (eg, ovarian cysts, uterine leiomyomata, free pelvic fluid).

Code 76856 is also applicable to a complete evaluation of the male pelvis. Elements of the examination include evaluation and measurement (when applicable) of the urinary bladder, evaluation of the prostate and seminal vesicles to the extent that they are visualized transabdominally, and any pelvic pathology (eg, bladder tumor, enlarged prostate, free pelvic fluid, pelvic abscess).

Code 76857 represents a focused examination limited to the assessment of one or more elements listed in code 76856 and/or the reevaluation of one or more pelvic abnormalities previously demonstrated on ultrasound. Code 76857, rather than 76770, should be utilized if the urinary bladder alone (ie, not including the kidneys) is imaged, whereas code 51798 should be utilized if a bladder volume or post-void residual measurement is obtained without imaging the bladder.

Use of ultrasound, without thorough evaluation of organ(s) or anatomic region, image documentation, and final, written report, is not separately reportable.

76830 Ultrasound, transvaginal

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Aug 96:10, Jul 99:8, Aug 02:2, Mar 03:7, Dec 05:3, Feb 09:22, Nov 11:10, Oct 17:10, Dec 22:17, Mar 23:35, May 23:28, Nov 23:27, Dec 23:42

76873 prostate volume study for brachytherapy treatment planning (separate procedure)

- *CPT Changes: An Insider's View* 2000
- *CPT Assistant* Nov 99:42

Extremities

Code 76881 represents a complete evaluation of a specific joint in an extremity. Code 76881 requires ultrasound examination of all of the following joint elements: joint space (eg, effusion), peri-articular soft-tissue structures that surround the joint (ie, muscles, tendons, other soft-tissue structures), and any identifiable abnormality. In some circumstances, additional evaluations such as dynamic imaging or stress maneuvers may be performed as part of the complete evaluation. Code 76881 also requires permanently recorded images and a written report containing a description of each of the required elements or reason that an element(s) could not be visualized (eg, absent secondary to surgery or trauma).

When fewer than all of the required elements for a "complete" exam (76881) are performed, report the "limited" code (76882).

Code 76882 represents a limited evaluation of a joint or focal evaluation of a structure(s) in an extremity other than a joint (eg, soft-tissue mass, fluid collection, or nerve[s]). Limited evaluation of a joint includes assessment of a specific anatomic structure(s) (eg, joint space only [effusion] or tendon, muscle, and/or other soft-tissue structure[s] that surround the joint) that does not assess all of the required elements included in 76881. Code 76882 also requires permanently recorded images and a written report containing a description of each of the elements evaluated.

Comprehensive evaluation of a nerve is defined as evaluation of the nerve throughout its course in an extremity. Documentation of the entire course of a nerve throughout an extremity includes the acquisition and permanent archive of cine clips and static images to demonstrate the anatomy.

For spectral and color Doppler evaluation of the extremities, use 93925, 93926, 93930, 93931, 93970, or 93971 as appropriate.

76881 Ultrasound, complete joint (ie, joint space and peri-articular soft-tissue structures), real-time with image documentation

- *CPT Changes: An Insider's View* 2011, 2018

CPT Assistant Fall 93:12, Fall 94:2, May 96:3, Jun 97:5, Oct 01:2, May 04:7, Dec 04:12, Apr 05:15-16, Aug 08:7, Mar 09:8, Feb 10:6, Mar 10:9, Jul 10:6, Feb 11:4, Mar 11:10, Apr 11:12, Nov 12:3, Dec 12:9, Nov 13:9, Oct 14:6, Feb 15:6, Aug 15:8, Nov 15:10, Jan 16:9, Jun 16:3, Jun 17:10, Dec 17:16, Mar 18:3, Jul 18:11, Aug 19:10, Jan 21:13, Apr 21:10, May 21:14, Aug 21:14, Nov 21:13, Jul 22:20, Dec 22:1, Jan 23:24, Dec 23:47, May 24:24, Nov 24:5

Clinical Examples in Radiology Summer 05:1-2, 6, Fall 05:1, Summer 08:5-6, Fall 08:2-3, Winter 09:9, Fall 09:8, Summer 10:1, 3-4, Fall 10:3, Summer 11:3, Spring 14:2, 4, 7, Summer 14:9, Spring 15:10, Summer 15:7, Winter 16:6, Winter 17:3, Winter 18:8, Spring 18:3, Winter 19:2, Fall 19:9, Winter 20:5, Fall 20:4, 14-15, Winter 21:12, Spring 21:12, 13, Spring 22:5, 6, Winter 23:12, Summer 23:23, Summer 24:2, Winter 25:25

►(Do not report 76942 in conjunction with 10004, 10005, 10006, 10021, 10030, 19083, 19285, 20604, 20606, 20611, 27096, 32408, 32554, 32555, 32556, 32557, 37760, 37761, 43232, 43237, 43242, 45341, 45342, 46948, 55705, 55706, 55707, 55708, 55709, 55710, 55711, 55712, 55874, 64415, 64416, 64417, 64445, 64446, 64447, 64448, 64466, 64467, 64468, 64469, 64473, 64474, 64479, 64480, 64483, 64484, 64490, 64491, 64493, 64494, 64495, 64728, 76975, 0213T, 0214T, 0215T, 0216T, 0217T, 0218T, 0232T, 0481T, 0582T, 0999T, 1000T, 1001T)◄

(For harvesting, preparation, and injection[s] of platelet rich plasma, use 0232T)

76945 Ultrasonic guidance for chorionic villus sampling, imaging supervision and interpretation

- *CPT Changes: An Insider's View* 2001

(For procedure, use 59015)

76946 Ultrasonic guidance for amniocentesis, imaging supervision and interpretation

- *CPT Changes: An Insider's View* 2001

76948 Ultrasonic guidance for aspiration of ova, imaging supervision and interpretation

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Jun 24:9

(For placement of interstitial device[s] for radiation therapy guidance, see 31627, 32553, 49411, 55876)

76965 Ultrasonic guidance for interstitial radioelement application

Other Procedures

76975 Gastrointestinal endoscopic ultrasound, supervision and interpretation

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Spring 94:5, May 04:7, Mar 09:8

(Do not report 76975 in conjunction with 43231, 43232, 43237, 43238, 43240, 43242, 43259, 44406, 44407, 45341, 45342, 45391, 45392, 76942)

76977 Ultrasound bone density measurement and interpretation, peripheral site(s), any method

- *CPT Assistant* Nov 98:21
- *Clinical Examples in Radiology* Winter 19:7

76978 Ultrasound, targeted dynamic microbubble sonographic contrast characterization (non-cardiac); initial lesion

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Jun 19:9, Nov 21:13, Aug 23:21
- *Clinical Examples in Radiology* Fall 18:14, Spring 22:5, Fall 23:25

+ 76979 each additional lesion with separate injection (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Jun 19:9, Nov 21:13, Aug 23:21
- *Clinical Examples in Radiology* Fall 18:14, Spring 22:5, Fall 23:25

(Use 76979 in conjunction with 76978)

(Do not report 76978, 76979 in conjunction with 96374)

76981 Ultrasound, elastography; parenchyma (eg, organ)

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Aug 19:3, Dec 22:17
- *Clinical Examples in Radiology* Fall 18:3, Fall 21:17, Winter 22:3, Summer 22:20

76982 first target lesion

CPT Changes: An Insider's View 2019
CPT Assistant Aug 19:3, Dec 22:17
Clinical Examples in Radiology Fall 18:3, Winter 22:3, Summer 22:20

+ 76983 each additional target lesion (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2019
CPT Assistant Aug 19:3, Dec 22:17
Clinical Examples in Radiology Fall 18:3, Winter 22:3, Summer 22:20

(Use 76983 in conjunction with 76982)

(Report 76981 only once per session for evaluation of the same parenchymal organ)

(To report shear wave liver elastography without imaging, use 91200)

(For evaluation of a parenchymal organ and lesion[s] in the same parenchymal organ at the same session, report only 76981)

(Do not report 76981, 76982, 76983 in conjunction with 0689T)

(Do not report 76983 more than two times per organ)

76984 Ultrasound, intraoperative thoracic aorta (eg, epiaortic), diagnostic

CPT Changes: An Insider's View 2024
CPT Assistant Sep 24:1, Dec 24:52

(For diagnostic intraoperative epicardial cardiac ultrasound [ie, echocardiography], see 76987, 76988, 76989)

76987 Intraoperative epicardial cardiac ultrasound (ie, echocardiography) for congenital heart disease, diagnostic; including placement and manipulation of transducer, image acquisition, interpretation and report

CPT Changes: An Insider's View 2024
CPT Assistant Sep 24:1

76988 placement, manipulation of transducer, and image acquisition only

CPT Changes: An Insider's View 2024
CPT Assistant Sep 24:1, Oct 24:15

76989 interpretation and report only

CPT Changes: An Insider's View 2024
CPT Assistant Sep 24:1, Oct 24:15

(For diagnostic intraoperative thoracic aorta (eg, epiaortic) ultrasound, use 76984)

76998 Ultrasonic guidance, intraoperative

CPT Changes: An Insider's View 2007
CPT Assistant Mar 07:7, Jul 10:6, Jan 13:6, Jan 14:5, Oct 14:6, Aug 15:8, Apr 17:7, Dec 23:42, Sep 24:1
Clinical Examples in Radiology Winter 12:11

►(Do not report 76998 in conjunction with 36475, 36479, 37760, 37761, 46948, 47370, 47371, 47380, 47381, 47382, 76984, 76987, 76988, 76989, 0515T, 0516T, 0517T, 0518T, 0519T, 0520T, 0861T, 0862T, 0863T, 0999T, 1000T, 1001T)◄

(For ultrasound guidance for open and laparoscopic radiofrequency tissue ablation, use 76940)

76999 Unlisted ultrasound procedure (eg, diagnostic, interventional)

CPT Changes: An Insider's View 2003
CPT Assistant Dec 19:8, Sep 22:20, Dec 22:17
Clinical Examples in Radiology Summer 12:10, Winter 15:8-9, Spring 15:10, Winter 19:7, Winter 22:3, Summer 22:20, Summer 24:17

Radiologic Guidance

Fluoroscopic Guidance

(Do not report guidance codes 77001, 77002, 77003 for services in which fluoroscopic guidance is included in the descriptor)

+ 77001 Fluoroscopic guidance for central venous access device placement, replacement (catheter only or complete), or removal (includes fluoroscopic guidance for vascular access and catheter manipulation, any necessary contrast injections through access site or catheter with related venography radiologic supervision and interpretation, and radiographic documentation of final catheter position) (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Mar 07:7, Jul 08:9, Nov 10:3, Jan 11:8, Jul 23:17, Nov 24:5
- *Clinical Examples in Radiology* Spring 08:7-8, Fall 08:5-6, Winter 09:8-9, Summer 10:11, Winter 17:8, Fall 18:7, Fall 23:28

(Do not report 77001 in conjunction with 33957, 33958, 33959, 33962, 33963, 33964, 36568, 36569, 36572, 36573, 36584, 36836, 36837, 64466, 64467, 64468, 64469, 64473, 64474, 77002)

(If formal extremity venography is performed from separate venous access and separately interpreted, use 36005 and 75820, 75822, 75825, or 75827)

+ 77002 Fluoroscopic guidance for needle placement (eg, biopsy, aspiration, injection, localization device) (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2007, 2017

Radiation Oncology

Listings for Radiation Oncology provide for teletherapy and brachytherapy to include initial consultation, clinical treatment planning, simulation, medical radiation physics, dosimetry, treatment devices, special services, and clinical treatment management procedures. They include normal follow-up care during course of treatment and for three months following its completion.

When a service or procedure is provided that is not listed in this edition of the CPT codebook it should be identified by a Special Report (see page 525) and one of the following unlisted procedure codes:

77299 Unlisted procedure, therapeutic radiology clinical treatment planning

77399 Unlisted procedure, medical radiation physics, dosimetry and treatment devices, and special services

77499 Unlisted procedure, therapeutic radiology treatment management

77799 Unlisted procedure, clinical brachytherapy

For treatment by injectable or ingestible isotopes, see subsection Nuclear Medicine.

Consultation: Clinical Management

Preliminary consultation, evaluation of patient prior to decision to treat, or full medical care (in addition to treatment management) when provided by the therapeutic radiologist may be identified by the appropriate procedure codes from **Evaluation and Management, Medicine,** or **Surgery** sections.

Clinical Treatment Planning (External and Internal Sources)

The clinical treatment planning process is a complex service including interpretation of special testing, tumor localization, treatment volume determination, treatment time/dosage determination, choice of treatment modality, determination of number and size of treatment ports, selection of appropriate treatment devices, and other procedures.

Definitions

Simple planning requires a single treatment area of interest encompassed in a single port or simple parallel opposed ports with simple or no blocking.

Intermediate planning requires 3 or more converging ports, 2 separate treatment areas, multiple blocks, or special time dose constraints.

Complex planning requires highly complex blocking, custom shielding blocks, tangential ports, special wedges or compensators, three or more separate treatment areas, rotational or special beam considerations, combination of therapeutic modalities.

77261 Therapeutic radiology treatment planning; simple

Simulation is the process of defining relevant normal and abnormal target anatomy, and acquiring the images and data necessary to develop the optimal radiation treatment process for the patient. A simulation is defined as complex if any of these criteria are met: particle, rotation or arc therapy, complex or custom blocking, brachytherapy simulation, hyperthermia probe verification, or any use of contrast material. If a simulation does not meet any of these criteria, the complexity is defined by the number of treatment areas: one treatment area is simple, two treatment areas are intermediate, and three or more treatment areas are complex.

A treatment area is a contiguous anatomic location that will be treated with radiation therapy. Generally, this includes the primary tumor organ or the resection bed and the draining lymph node chains, if indicated. An example is a breast cancer patient for whom a single treatment area could be the breast alone or the breast, adjacent supraclavicular fossa, and internal mammary nodes. In some cases, a patient might receive radiation therapy to more than one discontinuous anatomic location. An example would be a patient with multiple bone metastases in separate sites (eg, femur and cervical spine); in this case, each distinct and separate anatomic site to be irradiated is a separate treatment area.

Definitions

Simple: simulation of a single treatment area.

Intermediate: two separate treatment areas.

Complex: three or more treatment areas, or any number of treatment areas if any of the following are involved: particle, rotation or arc therapy, complex blocking, custom shielding blocks, brachytherapy simulation, hyperthermia probe verification, any use of contrast materials.

Radiation Treatment Delivery

►Following dosimetry calculations, there are a number of alternative methods to deliver external beam radiation treatments, which are described with specific CPT codes:

- Superficial and orthovoltage X-rays;
- Electron beams;
- Neutron beams;
- Proton beams;
- Megavoltage photons.

All treatment delivery codes are reported once per treatment session. The treatment delivery codes recognize technical-only services. The treatment management codes contain the professional component.

Radiation treatment delivery with conventional X ray or electron beams is assigned levels of complexity based on the number of treatment sites and the complexity of the treatment delivery. Complexity refers to the time and effort of therapists, physicians, and physicists to effect safe delivery. Neither energy of the megavoltage (≥1 MeV) beam nor technique (3D, IMRT, or VMAT) contributes to complexity.

Radiation may be delivered to a primary malignant site, to a primary malignant site plus the draining lymph nodes at risk for disease involvement, for palliative care, or benign diseases.

Two-dimensional radiation therapy (2D RT) is delivered with uniform radiation beam intensities and radiation delivery set-up, either by surface anatomic landmarks or bony landmarks with kilovoltage (kV) or MeV imaging. Three-dimensional conformal radiation therapy (3D CRT) uses volumetric imaging to identify targets and organs at risk (OAR). Using volumetric imaging, 3D CRT utilizes computer-based photon beam arrangements to create more conformal dose distributions than 2D RT. In both 2D and 3D therapy, a uniform photon beam is used to deliver therapy. 2D RT and 3D CRT differ by complexity of the beam arrangements and identification of target(s) and sparing of OAR.

For 3D conformal radiation therapy, OAR should be identified and radiation dose evaluated using a dose-volume histogram.

Intensity modulated radiation therapy (IMRT) uses computer-based optimization techniques with non-uniform radiation beam intensities to create highly conformal dose distributions that can be delivered by a radiotherapy treatment machine. A number of technologies, including spatially and temporally modulated beams, cylindrical beamlets, dynamic multileaf collimator (MLC), single or multiple fields or arcs (volumetric arc therapy [VMAT]), or compensators, may be used to generate IMRT. The complexity of IMRT varies depending on the area being treated, the number of targets identified, differential doses delivered, or the technique being used.

Image-guided radiation therapy (IGRT) may be used to direct the radiation beam and to observe the target or OAR position prior to and/or during treatment. A variety of techniques may be used to perform this guidance, including imaging (eg, ultrasound, CT, MRI, stereoscopic X-ray imaging) and other techniques (eg, electromagnetic or infrared). Guidance may be used with any radiation treatment delivery technique. Because only the technical portion of IGRT is bundled into radiation treatment delivery (77402, 77407, 77412), the physician involvement in guidance or tracking may be reported separately.

Isocenter

As a starting point, the patient is positioned as specified in the plan to the reference point of the treatment machine's coordinate system (hereinafter identified by the term "isocenter"). Prior to treatment delivery, the patient's position relative to the isocenter requires image verification. If a shift in the patient's position relative to the isocenter is necessary for additional treatment volumes, as described in the patient isodose plan(s), this would be a second isocenter.

Active Motion Management

Treatment delivery with active motion management (77412) includes intra-fraction localization and tracking of the target(s) or patient motion to optimize beam delivery (eg, intra-fraction motion, surface guidance). Intra-fraction motion management utilizes fiducials or imaging to monitor the target or organs at risk during the breathing cycle (eg, during a deep inspiration breath hold). This method minimizes organ motion and allows more accurate delivery of radiation to mobile targets and active avoidance of OAR.

Surface Guidance

Surface guidance for active motion management is a technique that allows the linear accelerator to perform gating (eg, optical) during treatment delivery using the body surface contour as a surrogate for internal target motion and OAR avoidance. Surface guidance is one method to effect active motion management, although there are other methods as well.

Note: This is **not** for patient set-up prior to treatment delivery (eg, not to replace tattoos).

The technical and professional components of guidance are handled differently with each radiation delivery code, depending on the type of radiation being administered as the timing and complexity of physician involvement varies. The **Radiation Management and Treatment Table** is provided for clarity.◀

Definitions

Radiation Treatment Delivery, megavoltage (≥ 1 MeV), any energy.

►***Level 1:*** Any photon 2D radiation therapy delivered with uniform radiation beam intensities and radiation delivery set-up, either by surface anatomic landmarks or bony landmarks with kV or MeV imaging **or** any electron therapy not meeting Level 3 criteria.

Level 2: Any photon therapy delivered with 3D CRT or IMRT to a single isocenter. Note: Does not include active motion management.

Level 3: Any photon therapy with active motion management, including 3D CRT or IMRT **or** any photon delivery with 3D CRT or IMRT to two separate isocenters **or** total skin electrons **or** mixed electron and photon fields.

Codes 77402, 77407, 77412 include the technical services for imaging guidance.

To report stereotactic body radiation therapy, treatment delivery, use 77373.◄

►Surface Radiation Therapy (SRT)◄

►Surface radiation therapy (SRT) is a type of external radiation therapy that utilizes low-energy radiation, <500 kilovoltage (kV), that limits penetration to tissues beyond the skin. Radiation therapy of skin cancers is principally performed with X rays. X rays can be generated with different energies. Low-energy X rays do not penetrate deep into the body and transmit most of their energy into the skin, and are therefore used for the treatment of skin cancers. These low-energy X rays are often called superficial (SXT) or orthovoltage (DXT) X rays. Superficial and orthovoltage radiotherapy utilize low-energy ionizing radiation to treat cancer and other conditions that occur either on or close to the skin surface.

SRT utilizes ≤150 kV X rays to treat various benign and malignant skin lesions on or near the surface of the skin. They penetrate tissue <1.5-2 cm from the skin surface. The shielding requirements and machinery used to generate superficial radiation differ from orthovoltage radiation.

Orthovoltage X rays (>150-500 kV) are sometimes called deep X rays (DXR). They cover the upper limit of energies used for surface radiation therapy to treat cancer and tumors. Orthovoltage X rays penetrate tissue to a therapeutic depth of <4 cm from the skin surface.

SRT should not be reported in conjunction with megavoltage (MeV) (77402, 77407, 77412). Do not report clinical treatment planning (77261, 77262, 77263), simulation (77280, 77285, 77290, 77295), basic dosimetry calculation (77300), special dosimetry (77331), treatment devices (77332, 77333, 77334), isodose planning (77306, 77307, 77316, 77317, 77318), or radiation treatment management (77427, 77431, 77432, 77435, 77469, 77470, 77499) in conjunction with 77436, 77437, 77438, 77439. See the following table on page 565.

77424 Code is out of numerical sequence. See 77412-77427

77425 Code is out of numerical sequence. See 77412-77427

Radiation Treatment Management

Radiation treatment management is reported in units of five fractions or treatment sessions, regardless of the actual time period in which the services are furnished. The services need not be furnished on consecutive days. Multiple fractions representing two or more treatment sessions furnished on the same day may be counted separately as long as there has been a distinct break in therapy sessions, and the fractions are of the character usually furnished on different days. Code 77427 is also reported if there are three or four fractions beyond a multiple of five at the end of a course of treatment; one or two fractions beyond a multiple of five at the end of a course of treatment are not reported separately.

Radiation treatment management requires **and includes** a minimum of one examination of the patient by the physician for medical evaluation and management (eg, assessment of the patient's response to treatment, coordination of care and treatment, review of imaging and/or lab test results with documentation) for each reporting of the radiation treatment management service. Code 77469 represents only the intraoperative session management and does not include medical evaluation and management outside of that session. The professional services furnished during treatment management typically include:

- Review of port images;
- Review of dosimetry, dose delivery, and treatment parameters;
- Review of patient treatment set-up.

Stereotactic radiosurgery (SRS-[77432]) and stereotactic body radiation treatment (SBRT-[77435]) management also include the professional component of guidance for localization of target volume for the delivery of radiation therapy (77387). ***See also the Radiation Management and Treatment Table.***

77427 Radiation treatment management, 5 treatments

- *CPT Changes: An Insider's View* 2000
- *CPT Assistant* Nov 99:42, Feb 00:7, Oct 07:1, Nov 09:6, Jun 15:6, Feb 16:3

Proton Beam Treatment Delivery

Definitions

Simple proton treatment delivery to a single treatment area utilizing a single non-tangential/oblique port, custom block with compensation (77522) and without compensation (77520).

Intermediate proton treatment delivery to one or more treatment areas utilizing two or more ports or one or more tangential/oblique ports, with custom blocks and compensators.

Complex proton treatment delivery to one or more treatment areas utilizing two or more ports per treatment area with matching or patching fields and/or multiple isocenters, with custom blocks and compensators.

77520 Proton treatment delivery; simple, without compensation
- *CPT Changes: An Insider's View* 2000, 2001
- *CPT Assistant* Nov 99:43

77522 simple, with compensation

Hyperthermia

Hyperthermia treatments as listed in this section include external (superficial and deep), interstitial, and intracavitary.

Radiation therapy when given concurrently is listed separately.

Hyperthermia is used only as an adjunct to radiation therapy or chemotherapy. It may be induced by a variety of sources (eg, microwave, ultrasound, low energy radio-frequency conduction, or by probes).

The listed treatments include management during the course of therapy and follow-up care for three months after completion.

Preliminary consultation is not included (see **evaluation and management** services).

Physics planning and interstitial insertion of temperature sensors, and use of external or interstitial heat generating sources are included.

The following descriptors are included in the treatment schedule:

77600 Hyperthermia, externally generated; superficial (ie, heating to a depth of 4 cm or less)
- *CPT Changes: An Insider's View* 2017
- *CPT Assistant* Winter 91:22, Dec 13:17

77605 deep (ie, heating to depths greater than 4 cm)
- *CPT Changes: An Insider's View* 2017
- *CPT Assistant* Winter 91:22, Dec 13:17, Dec 23:27

(For intraoperative hyperthermic intraperitoneal chemotherapy [HIPEC], see 96547, 96548)

77610 Hyperthermia generated by interstitial probe(s); 5 or fewer interstitial applicators
- *CPT Changes: An Insider's View* 2017
- *CPT Assistant* Winter 91:22
- *Clinical Examples in Radiology* Spring 14:11

77615 more than 5 interstitial applicators
- *CPT Changes: An Insider's View* 2017
- *CPT Assistant* Winter 91:22

Clinical Intracavitary Hyperthermia

77620 Hyperthermia generated by intracavitary probe(s)

CPT Assistant Winter 91:22, Dec 13:17

Clinical Brachytherapy

Clinical brachytherapy requires the use of either natural or man-made radioelements applied into or around a treatment field of interest. The supervision of radioelements and dose interpretation are performed solely by the therapeutic radiologist.

Services 77750-77799 include admission to the hospital and daily visits.

For insertion of ovoids and tandems, use 57155.

For insertion of Heyman capsules, use 58346.

Definitions

(Sources refer to intracavitary placement or permanent interstitial placement; ribbons refer to temporary interstitial placement)

A simple application has one to four sources/ribbons.

An intermediate application has five to 10 sources/ribbons.

A complex application has greater than 10 sources/ribbons.

High dose-rate brachytherapy involves treatment with radiation sources that cannot safely be handled manually. These systems are remotely controlled and place a radionuclide source (radioelement or radioisotope) within an applicator placed in or near the target. These applicators may be placed in the body or on the skin surface.

Small electronic X-ray sources placed into an applicator within or close to the target may also be used to generate radiation at high-dose rates. This is referred to as high dose-rate electronic brachytherapy.

►To report high dose-rate electronic brachytherapy, use 0395T.◄

77750 Infusion or instillation of radioelement solution (includes 3-month follow-up care)

Nuclear Medicine

Listed procedures may be performed independently or in the course of overall medical care. If the individual providing these services is also responsible for diagnostic workup and/or follow-up care of patient, see appropriate sections also.

Radioimmunoassay tests are found in the **Clinical Pathology** section (codes 82009-84999). These codes can be appropriately used by any specialist performing such tests in a laboratory licensed and/or certified for radioimmunoassays. The reporting of these tests is not confined to clinical pathology laboratories alone.

The services listed do not include the radiopharmaceutical or drug. To separately report supply of diagnostic and therapeutic radiopharmaceuticals and drugs, use the appropriate supply code(s), in addition to the procedure code.

78305 multiple areas

- *CPT Assistant* Mar 97:11
- *Clinical Examples in Radiology* Winter 09:5, Spring 10:9

78306 whole body

- *CPT Assistant* Mar 97:11, Jan 02:10, Jun 03:11, Feb 12:10
- *Clinical Examples in Radiology* Summer 06:7, 12, Winter 09:3-5, Spring 10:9, Spring 13:10, Spring 21:3

78315 3 phase study

- *CPT Assistant* Jan 02:10
- *Clinical Examples in Radiology* Summer 06:7, 12, Winter 09:4-5, Spring 10:9

78350 Bone density (bone mineral content) study, 1 or more sites; single photon absorptiometry

- *CPT Assistant* Nov 97:26

78351 dual photon absorptiometry, 1 or more sites

- *CPT Assistant* Nov 97:26, Feb 12:9

78399 Unlisted musculoskeletal procedure, diagnostic nuclear medicine

- *CPT Assistant* Dec 05:7

Cardiovascular System

Myocardial perfusion (SPECT and PET) and cardiac blood pool imaging studies may be performed at rest and/or during stress. When performed during exercise and/or pharmacologic stress, the appropriate stress testing code from the 93015-93018 series may be reported in addition to 78430, 78431, 78432, 78433, 78451-78454, 78472, 78491, 78492. PET can be performed on either a dedicated PET machine (which uses a PET source for attenuation correction) or a combination PET/CT camera (78429, 78430, 78431, 78433). A cardiac PET study performed on a PET/CT camera includes examination of the CT transmission images for review of anatomy in the field of view.

78414 Determination of central c-v hemodynamics (non-imaging) (eg, ejection fraction with probe technique) with or without pharmacologic intervention or exercise, single or multiple determinations

- *CPT Assistant* Dec 05:7, May 10:6, Feb 12:9

78428 Cardiac shunt detection

- *CPT Assistant* May 10:6

78429 Code is out of numerical sequence. See 78458-78468

78430 Code is out of numerical sequence. See 78483-78496

78431 Code is out of numerical sequence. See 78483-78496

78432 Code is out of numerical sequence. See 78483-78496

78433 Code is out of numerical sequence. See 78483-78496

78434 Code is out of numerical sequence. See 78483-78496

78445 Non-cardiac vascular flow imaging (ie, angiography, venography)

- *CPT Assistant* May 10:6
- *Clinical Examples in Radiology* Spring 10:9

78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)

- *CPT Changes: An Insider's View* 2010
- *CPT Assistant* May 10:5, Feb 11:9, Feb 12:10, Jul 20:5, Oct 20:3
- *Clinical Examples in Radiology* Winter 10:11, Spring 10:9

(Do not report 78451 in conjunction with 78800, 78801, 78802, 78803, 78804, 78830, 78831, 78832, 78835)

(For absolute quantification of myocardial blood flow [AQMBF] with single-photon emission computed tomography [SPECT], use 0742T)

78452 multiple studies, at rest and/or stress (exercise or pharmacologic) and/or redistribution and/or rest reinjection

- *CPT Changes: An Insider's View* 2010
- *CPT Assistant* May 10:5, Feb 11:9, Feb 12:9, Jul 20:5, Oct 20:3
- *Clinical Examples in Radiology* Winter 10:10-11, Spring 10:9

(Do not report 78452 in conjunction with 78800, 78801, 78802, 78803, 78804, 78830, 78831, 78832, 78835)

(For absolute quantification of myocardial blood flow [AQMBF] with single-photon emission computed tomography [SPECT], use 0742T)

(For absolute quantification of myocardial blood flow [AQMBF] with single-photon emission computed tomography [SPECT], use 0742T)

78453 Myocardial perfusion imaging, planar (including qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)

- *CPT Changes: An Insider's View* 2010
- *CPT Assistant* May 10:5, Jul 20:5
- *Clinical Examples in Radiology* Winter 10:11

78454 multiple studies, at rest and/or stress (exercise or pharmacologic) and/or redistribution and/or rest reinjection

- *CPT Changes: An Insider's View* 2010
- *CPT Assistant* May 10:5, Jul 20:5
- *Clinical Examples in Radiology* Winter 10:11

78456 Acute venous thrombosis imaging, peptide

- *CPT Changes: An Insider's View* 2000
- *CPT Assistant* Nov 99:43, May 10:6

78457 Venous thrombosis imaging, venogram; unilateral

- *CPT Changes: An Insider's View* 2000
- *CPT Assistant* Nov 99:43

78458 bilateral

- *CPT Changes: An Insider's View* 2000
- *CPT Assistant* Nov 99:43, May 10:6

78459 Myocardial imaging, positron emission tomography (PET), metabolic evaluation study (including ventricular wall motion[s] and/or ejection fraction[s], when performed), single study;

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Jun 96:5, Nov 97:26, May 10:6, Jul 20:5
- *Clinical Examples in Radiology* Summer 10:11

 # 78429 with concurrently acquired computed tomography transmission scan

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Jul 20:5
- *Clinical Examples in Radiology* Spring 20:3

(For CT coronary calcium scoring, use 75571)

(CT performed for other than attenuation correction and anatomical localization is reported using the appropriate site specific CT code with modifier 59)

78466 Myocardial imaging, infarct avid, planar; qualitative or quantitative

- *CPT Assistant* May 10:6

78468 with ejection fraction by first pass technique

- *CPT Assistant* May 10:6

(For absolute quantification of myocardial blood flow [AQMBF] with single-photon emission computed tomography [SPECT], use 0742T)

78453 Myocardial perfusion imaging, planar (including qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)

- *CPT Changes: An Insider's View* 2010
- *CPT Assistant* May 10:5, Jul 20:5
- *Clinical Examples in Radiology* Winter 10:11

78454 multiple studies, at rest and/or stress (exercise or pharmacologic) and/or redistribution and/or rest reinjection

- *CPT Changes: An Insider's View* 2010
- *CPT Assistant* May 10:5, Jul 20:5
- *Clinical Examples in Radiology* Winter 10:11

78456 Acute venous thrombosis imaging, peptide

- *CPT Changes: An Insider's View* 2000
- *CPT Assistant* Nov 99:43, May 10:6

78457 Venous thrombosis imaging, venogram; unilateral

- *CPT Changes: An Insider's View* 2000
- *CPT Assistant* Nov 99:43

78458 bilateral

- *CPT Changes: An Insider's View* 2000
- *CPT Assistant* Nov 99:43, May 10:6

78459 Myocardial imaging, positron emission tomography (PET), metabolic evaluation study (including ventricular wall motion[s] and/or ejection fraction[s], when performed), single study;

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Jun 96:5, Nov 97:26, May 10:6, Jul 20:5
- *Clinical Examples in Radiology* Summer 10:11

 # 78429 with concurrently acquired computed tomography transmission scan

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Jul 20:5
- *Clinical Examples in Radiology* Spring 20:3

(For CT coronary calcium scoring, use 75571)

(CT performed for other than attenuation correction and anatomical localization is reported using the appropriate site specific CT code with modifier 59)

78466 Myocardial imaging, infarct avid, planar; qualitative or quantitative

- *CPT Assistant* May 10:6

78468 with ejection fraction by first pass technique

- *CPT Assistant* May 10:6

 # 78432 Myocardial imaging, positron emission tomography (PET), combined perfusion with metabolic evaluation study (including ventricular wall motion[s] and/or ejection fraction[s], when performed), dual radiotracer (eg, myocardial viability);

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Jul 20:5

 # 78433 with concurrently acquired computed tomography transmission scan

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Jul 20:5

(CT performed for other than attenuation correction and anatomical localization is reported using the appropriate site specific CT code with modifier 59)

#+ 78434 Absolute quantitation of myocardial blood flow (AQMBF), positron emission tomography (PET), rest and pharmacologic stress (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Jul 20:5, Apr 25:12
- *Clinical Examples in Radiology* Fall 22:3

(Use 78434 in conjunction with 78431, 78492)

(For CT coronary calcium scoring, use 75571)

(For myocardial imaging by planar or SPECT, see 78451, 78452, 78453, 78454)

(For absolute quantification of myocardial blood flow [AQMBF] with single-photon emission computed tomography [SPECT], use 0742T)

78494 Cardiac blood pool imaging, gated equilibrium, SPECT, at rest, wall motion study plus ejection fraction, with or without quantitative processing

- *CPT Assistant* Nov 98:22, Jun 99:3, May 10:6
- *Clinical Examples in Radiology* Summer 20:2

(Do not report 78494 in conjunction with 78800, 78801, 78802, 78803, 78804, 78830, 78831, 78832, 78835)

+ 78496 Cardiac blood pool imaging, gated equilibrium, single study, at rest, with right ventricular ejection fraction by first pass technique (List separately in addition to code for primary procedure)

- *CPT Assistant* Nov 98:22, Jun 99:3, 11, May 10:6, Feb 12:9
- *Clinical Examples in Radiology* Summer 20:3

(Use 78496 in conjunction with 78472)

78499 Unlisted cardiovascular procedure, diagnostic nuclear medicine

- *CPT Assistant* Dec 05:7, May 10:6
- *Clinical Examples in Radiology* Summer 08:12

Respiratory System

78579 Pulmonary ventilation imaging (eg, aerosol or gas)
- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* Feb 12:9
- *Clinical Examples in Radiology* Fall 11:5

78580 Pulmonary perfusion imaging (eg, particulate)
- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* Mar 99:4, Dec 05:7, May 10:6

78582 Pulmonary ventilation (eg, aerosol or gas) and perfusion imaging
- *CPT Changes: An Insider's View* 2012
- *Clinical Examples in Radiology* Fall 11:4-5

78597 Quantitative differential pulmonary perfusion, including imaging when performed
- *CPT Changes: An Insider's View* 2012
- *Clinical Examples in Radiology* Fall 11:5-6

78598 Quantitative differential pulmonary perfusion and ventilation (eg, aerosol or gas), including imaging when performed
- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* Feb 12:9
- *Clinical Examples in Radiology* Fall 11:5

(Report 78579, 78580, 78582-78598 only once per imaging session)

(Do not report 78580, 78582-78598 in conjunction with 78451-78454)

78599 Unlisted respiratory procedure, diagnostic nuclear medicine
- *CPT Assistant* Dec 05:7

Nervous System

78600 Brain imaging, less than 4 static views;
- *CPT Changes: An Insider's View* 2008
- *CPT Assistant* Dec 05:7, Feb 12:9

78601 with vascular flow
- *CPT Changes: An Insider's View* 2008

78605 Brain imaging, minimum 4 static views;
- *CPT Changes: An Insider's View* 2008

78606 with vascular flow
- *CPT Changes: An Insider's View* 2008

78608 Brain imaging, positron emission tomography (PET); metabolic evaluation
- *Clinical Examples in Radiology* Spring 10:1-2, Spring 22:16

78609 perfusion evaluation

78610 Brain imaging, vascular flow only

78630 Cerebrospinal fluid flow, imaging (not including introduction of material); cisternography

- *CPT Assistant* May 17:3
- *Clinical Examples in Radiology* Fall 24:22

(For injection procedure, see 61000-61070, 62270-62327)

78635 ventriculography

(For injection procedure, see 61000-61070, 62270-62294)

78645 shunt evaluation

(For injection procedure, see 61000-61070, 62270-62294)

78650 Cerebrospinal fluid leakage detection and localization

- *CPT Changes: An Insider's View* 2002

(For injection procedure, see 61000-61070, 62270-62294)

78660 Radiopharmaceutical dacryocystography

- *CPT Assistant* Feb 12:9

78699 Unlisted nervous system procedure, diagnostic nuclear medicine

- *CPT Assistant* Dec 05:7

Genitourinary System

78700 Kidney imaging morphology;

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Dec 05:7, Mar 07:7, Feb 12:9
- *Clinical Examples in Radiology* Fall 09:2

78701 with vascular flow

- *Clinical Examples in Radiology* Fall 09:2

78707 with vascular flow and function, single study without pharmacological intervention

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Nov 97:27, Mar 07:7

78708 with vascular flow and function, single study, with pharmacological intervention (eg, angiotensin converting enzyme inhibitor and/or diuretic)

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Nov 97:27, Mar 07:7
- *Clinical Examples in Radiology* Fall 09:2

78709 with vascular flow and function, multiple studies, with and without pharmacological intervention (eg, angiotensin converting enzyme inhibitor and/or diuretic)

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Nov 97:27, Mar 07:7
- *Clinical Examples in Radiology* Fall 09:2

(For introduction of radioactive substance in association with renal endoscopy, use 77778)

78725 Kidney function study, non-imaging radioisotopic study

- *CPT Assistant* Nov 98:22
- *Clinical Examples in Radiology* Fall 09:2

+ **78730** Urinary bladder residual study (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2007
CPT Assistant Mar 07:7
Clinical Examples in Radiology Spring 12:2

(Use 78730 in conjunction with 78740)

(For measurement of postvoid residual urine and/or bladder capacity by ultrasound, nonimaging, use 51798)

(For ultrasound imaging of the bladder only, with measurement of postvoid residual urine when performed, use 76857)

78740 Ureteral reflux study (radiopharmaceutical voiding cystogram)

Clinical Examples in Radiology Spring 12:1

(Use 78740 in conjunction with 78730 for urinary bladder residual study)

(For catheterization, see 51701, 51702, 51703)

78761 Testicular imaging with vascular flow

CPT Changes: An Insider's View 2007
CPT Assistant Mar 07:7, Feb 12:9

78799 Unlisted genitourinary procedure, diagnostic nuclear medicine

CPT Assistant Dec 05:7

(For chemical analysis, see **Chemistry** section)

Other Procedures

(For specific organ, see appropriate heading)

78800 Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); planar, single area (eg, head, neck, chest, pelvis), single day imaging

CPT Changes: An Insider's View 2004, 2020
CPT Assistant Dec 05:7, Dec 11:17, Feb 12:9, Nov 18:11, Oct 20:3
Clinical Examples in Radiology Summer 06:6, 10-11, Spring 10:4, 8, Fall 10:11, Fall 19:6

(For specific organ, see appropriate heading)

78801 planar, 2 or more areas (eg, abdomen and pelvis, head and chest), 1 or more days imaging or single area imaging over 2 or more days

CPT Changes: An Insider's View 2020
CPT Assistant Dec 11:17, Feb 12:9, Oct 20:3
Clinical Examples in Radiology Fall 19:6, Fall 20:7

78802 planar, whole body, single day imaging

CPT Changes: An Insider's View 2004, 2020
CPT Assistant Jun 03:11, Feb 12:9, Oct 20:3
Clinical Examples in Radiology Summer 06:6, 10-11, Fall 19:6, Fall 20:6-7

 # 78804 planar, whole body, requiring 2 or more days imaging

CPT Changes: An Insider's View 2004, 2020
CPT Assistant Feb 12:9, Oct 20:3
Clinical Examples in Radiology Summer 12:8, Fall 19:6

78803 tomographic (SPECT), single area (eg, head, neck, chest, pelvis) or acquisition, single day imaging

CPT Changes: An Insider's View 2020, 2023
CPT Assistant Jun 03:11, Feb 12:9, Oct 15:9, Dec 16:10, Nov 18:11, Oct 20:14, Sep 23:38
Clinical Examples in Radiology Summer 06:6, 10-11, Summer 12:8, Spring 15:10, Fall 19:6, Winter 21:12, Spring 24:10, Summer 24:24, Fall 24:23

78804 Code is out of numerical sequence. See 78801-78811

(For imaging bone infectious or inflammatory disease with a bone imaging radiopharmaceutical, see 78300, 78305, 78306, 78315)

 # 78830 tomographic (SPECT) with concurrently acquired computed tomography (CT) transmission scan for anatomical review, localization and determination/detection of pathology, single area (eg, head, neck, chest, pelvis) or acquisition, single day imaging

CPT Changes: An Insider's View 2020, 2023
CPT Assistant Oct 20:3, Sep 23:38
Clinical Examples in Radiology Fall 19:6, Fall 20:6-7, Spring 21:3, Spring 24:9, Summer 24:24, Fall 24:23

 # 78831 tomographic (SPECT), minimum 2 areas (eg, pelvis and knees, chest and abdomen) or separate acquisitions (eg, lung ventilation and perfusion), single day imaging, or single area or acquisition over 2 or more days

CPT Changes: An Insider's View 2020, 2023
CPT Assistant Oct 20:3, Sep 23:38
Clinical Examples in Radiology Fall 19:6, Winter 21:12, Fall 24:23

 # 78832 tomographic (SPECT) with concurrently acquired computed tomography (CT) transmission scan for anatomical review, localization and determination/detection of pathology, minimum 2 areas (eg, pelvis and knees, chest and abdomen) or separate acquisitions (eg, lung ventilation and perfusion), single day imaging, or single area or acquisition over 2 or more days

CPT Changes: An Insider's View 2020, 2023
CPT Assistant Oct 20:3, Sep 23:38
Clinical Examples in Radiology Fall 19:6, Spring 21:3, Fall 24:23

(For cerebrospinal fluid studies that require injection procedure, see 61055, 61070, 62320, 62321, 62322, 62323)

#+ 78835 Radiopharmaceutical quantification measurement(s) single area (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020
CPT Assistant Oct 20:3
Clinical Examples in Radiology Fall 19:6

(Use 78835 in conjunction with 78830, 78832)

(Report multiple units of 78835 if quantitation is more than 1 area or more than 1 day imaging)

(Report myocardial SPECT imaging with 78451, 78452, 78469, 78494)

(For all nuclear medicine codes, select the organ/system-specific code[s] first; if there is no organ/system-specific code[s], see 78800, 78801, 78802, 78803, 78830, 78831, 78832)

(For parathyroid imaging, see 78070, 78071, 78072)

78808 Injection procedure for radiopharmaceutical localization by non-imaging probe study, intravenous (eg, parathyroid adenoma)

- *CPT Changes: An Insider's View* 2009
- *CPT Assistant* Feb 12:9, Dec 16:10
- *Clinical Examples in Radiology* Summer 24:12

(For sentinel lymph node identification, use 38792)

(For PET of brain, see 78608, 78609)

(For PET myocardial imaging, see 78459, 78491, 78492)

78811 Positron emission tomography (PET) imaging; limited area (eg, chest, head/neck)

- *CPT Changes: An Insider's View* 2005, 2008
- *CPT Assistant* Dec 05:7, Feb 12:9
- *Clinical Examples in Radiology* Spring 05:13, 15, Spring 10:2, 7, Spring 13:10, Winter 23:1

78812 skull base to mid-thigh

- *CPT Changes: An Insider's View* 2005, 2008
- *CPT Assistant* Dec 05:7, Feb 12:9, Feb 13:16
- *Clinical Examples in Radiology* Spring 05:13, 15, Spring 10:1-2

78813 whole body

- *CPT Changes: An Insider's View* 2005, 2008
- *CPT Assistant* Dec 05:7, Feb 12:9, Feb 13:16
- *Clinical Examples in Radiology* Spring 05:13, 15, Spring 10:2

78814 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; limited area (eg, chest, head/neck)

- *CPT Changes: An Insider's View* 2005, 2008
- *CPT Assistant* Feb 05:13, Jun 05:10, Dec 05:7, Feb 12:9, Feb 13:16
- *Clinical Examples in Radiology* Spring 05:13, 15, Spring 10:2, 4, Spring 13:10, Spring 22:15, 16, Winter 23:1, Fall 23:26

78815 skull base to mid-thigh

- *CPT Changes: An Insider's View* 2005, 2008
- *CPT Assistant* Feb 05:13, Jun 05:10, Dec 05:7, Feb 12:9, Feb 13:16
- *Clinical Examples in Radiology* Spring 05:13, 15, Spring 10:2, 4, Spring 13:10

78816 whole body

- *CPT Changes: An Insider's View* 2005, 2008
- *CPT Assistant* Feb 05:13, Jun 05:10, Dec 05:7, Feb 12:9, Feb 13:16
- *Clinical Examples in Radiology* Spring 05:13, 15, Spring 10:2, Spring 13:10

(Report 78811-78816 only once per imaging session)

(Computed tomography [CT] performed for other than attenuation correction and anatomical localization is reported using the appropriate site specific CT code with modifier 59)

78830 Code is out of numerical sequence. See 78801-78811

78831 Code is out of numerical sequence. See 78801-78811

78832 Code is out of numerical sequence. See 78801-78811

78835 Code is out of numerical sequence. See 78801-78811

78999 Unlisted miscellaneous procedure, diagnostic nuclear medicine

- *CPT Assistant* Dec 05:7, Feb 12:9, Oct 15:9, Dec 16:16
- *Clinical Examples in Radiology* Summer 08:12, Spring 10:2, 11, Spring 15:9

Therapeutic

The oral and intravenous administration codes in this section are inclusive of the mode of administration. For intra-arterial, intra-cavitary, and intra-articular administration, also use the appropriate injection and/or procedure codes, as well as imaging guidance and radiological supervision and interpretation codes, when appropriate.

79005 Radiopharmaceutical therapy, by oral administration

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Sep 05:1, Feb 12:9
- *Clinical Examples in Radiology* Spring 05:14, Fall 09:5, Winter 12:8

(For monoclonal antibody therapy, use 79403)

79101 Radiopharmaceutical therapy, by intravenous administration

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Sep 05:1, Feb 12:9
- *Clinical Examples in Radiology* Spring 10:8, Winter 12:8, Winter 24:3

(Do not report 79101 in conjunction with 36400, 36410, 79403, 96360, 96374 or 96375, 96409)

(For radiolabeled monoclonal antibody by intravenous infusion, use 79403)

(For infusion or instillation of non-antibody radioelement solution that includes 3 months follow-up care, use 77750)

79200 Radiopharmaceutical therapy, by intracavitary administration

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Sep 05:1, Feb 12:9

79300 Radiopharmaceutical therapy, by interstitial radioactive colloid administration

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Sep 05:1, Feb 12:9

79403 Radiopharmaceutical therapy, radiolabeled monoclonal antibody by intravenous infusion

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Sep 05:1, Feb 12:9

(For pre-treatment imaging, see 78802, 78804)

(Do not report 79403 in conjunction with 79101)

79440 Radiopharmaceutical therapy, by intra-articular administration

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Sep 05:1, Feb 12:9

79445 Radiopharmaceutical therapy, by intra-arterial particulate administration

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Sep 05:1, Dec 06:10, Feb 12:9, Nov 13:6
- *Clinical Examples in Radiology* Summer 15:3, Winter 18:12

(Do not report 79445 in conjunction with 96373, 96420)

(Use appropriate procedural and radiological supervision and interpretation codes for the angiographic and interventional procedures provided prerequisite to intra-arterial radiopharmaceutical therapy)

79999 Radiopharmaceutical therapy, unlisted procedure

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Mar 05:11, Sep 05:1, Jan 07:30, Feb 12:9
- *Clinical Examples in Radiology* Winter 12:8

Pathology and Laboratory Guidelines

Services in Pathology and Laboratory

Separate or Multiple Procedures

Unlisted Service or Procedure

Special Report

Pathology and Laboratory

The following is a listing of headings and subheadings that appear within the Pathology and Laboratory section of the CPT code set. The subheadings or subsections denoted with asterisks (*) below have special instructions unique to that subsection. Where these are indicated, special notes or guidelines will be presented preceding those procedural terminology listings, referring to that subsection specifically. Note that all code ranges in each subsection are listed as they appear in the subsection, even if the code numbers are out of numerical sequence and/or repeated in the next subsection.

Organ or Disease-Oriented Panels* (80047-80076)

Drug Assay* (80305-80377)

Presumptive Drug Class Screening* (80305-80307)

Definitive Drug Testing* (80320-80377)

Definitive Drug Classes Listing* (80320-80373)

Therapeutic Drug Assays* (80143-80299)

Evocative/Suppression Testing* (80400-80439)

Pathology Clinical Consultations* (80503-80506)

Instructions for Selecting a Level of Pathology Clinical Consultation Services*
Medical Decision Making* (80503-80505)
Time* (80503-80506)

Urinalysis* (81000-81099)

Molecular Pathology* (81170-81479)

Tier 1 Molecular Pathology Procedures* (81170-81383)

Tier 2 Molecular Pathology Procedures* (81400-81479)

Genomic Sequencing Procedures and Other Molecular Multianalyte Assays* (81410-81471)

Multianalyte Assays with Algorithmic Analyses* (81490-81599)

Chemistry* (82009-84999)

Hematology and Coagulation* (85002-85999)

Immunology* (86041-86849)

Tissue Typing (86805-86849)

Transfusion Medicine* (86850-86999)

Microbiology* (87003-87999)

Anatomic Pathology (88000-88099)

Postmortem Examination* (88000-88099)

Cytopathology* (88104-88199)

Cytogenetic Studies* (88230-88299)

Surgical Pathology* (88300-88399)

In Vivo (eg, Transcutaneous) Laboratory Procedures* (88720-88749)

Other Procedures* (89049-89240)

Reproductive Medicine Procedures* (89250-89398)

Proprietary Laboratory Analyses* (0001U-0599U)

Molecular Pathology Gene Table

Claim Designation	Abbreviated Gene Name	Full Gene Name	Commonly Associated Proteins/Diseases (Not a complete list)	CPT Code(s)
ABCA4	ABCA4	ATP-binding cassette, sub-family A (ABC1), member 4	Stargardt disease, age-related macular degeneration, hereditary retinal disorders	81408, 81434
ABCC8	ABCC8	ATP-binding cassette, sub-family C (CFTR/MRP), member 8	Familial hyperinsulinism	81401, 81407
ABCD1	ABCD1	ATP-binding cassette, sub-family D (ALD), member 1	Adrenoleukodystrophy	81405
ABL1	ABL1	ABL proto-oncogene 1 non-receptor tyrosine kinase	Acquired imatinib resistance	81401
	ABL1	ABL proto-oncogene 1, non-receptor tyrosine kinase	Acquired imatinib tyrosine kinase inhibitor resistance	81170
ACADM	ACADM	Acyl-coa dehydrogenase, C-4 to C-12 straight chain, MCAD	Medium chain acyl dehydrogenase deficiency, severe inherited conditions	81400, 81401, 81443
ACADS	ACADS	Acyl-coa dehydrogenase, C-2 to C-3 short chain	Short chain acyl-CoA dehydrogenase deficiency	81404, 81405
ACADVL	ACADVL	Acyl-coa dehydrogenase, very long chain	Very long chain acyl-coenzyme A dehydrogenase deficiency	81406
ACE	ACE	Angiotensin converting enzyme	Hereditary blood pressure regulation	81400
ACTA2	ACTA2	Actin, alpha 2, smooth muscle, aorta	Thoracic aortic aneurysms and aortic dissections, aortic dysfunction or dilation	81405, 81410
ACTC1	ACTC1	Actin, alpha, cardiac muscle 1	Familial hypertrophic cardiomyopathy	81405
ACTN4	ACTN4	Actinin, alpha 4	Focal segmental glomerulosclerosis	81406
AFG3L2	AFG3L2	AFG3 atpase family gene 3-like 2 (S. cerevisiae)	Spinocerebellar ataxia	81406
AGL	AGL	Amylo-alpha-1, 6-glucosidase, 4-alpha-glucanotransferase	Glycogen storage disease type III	81407
AGTR1	AGTR1	Angiotensin II receptor, type 1	Essential hypertension	81400
AHI1	AHI1	Abelson helper integration site 1	Joubert syndrome	81407
AIRE	AIRE	Autoimmune regulator	Autoimmune polyendocrinopathy syndrome type 1	81406
ALDH7A1	ALDH7A1	Aldehyde dehydrogenase 7 family, member A1	Pyridoxine-dependent epilepsy, epilepsy	81406, 81419
ANG	ANG	Angiogenin, ribonuclease, rnase A family, 5	Amyotrophic lateral sclerosis	81403
ANK2	ANK2	Ankyrin-2	Cardiac ion channelopathies	81413
ANKRD1	ANKRD1	Ankyrin repeat domain 1	Dilated cardiomyopathy	81405

ANO5	ANO5	Anoctamin 5	Limb-girdle muscular dystrophy	81406
ANOS1	ANOS1	Anosmin-1	Kallmann syndrome 1	81406
	APC	Adenomatous polyposis coli	Familial adenomatosis polyposis (FAP), attenuated FAP, hereditary colon cancer disorders	81201, 81202, 81203
APOB	APOB	Apolipoprotein B	Familial hypercholesterolemia type B	81401, 81407
APOE	APOE	Apolipoprotein E	Hyperlipoproteinemia type III, cardiovascular disease, Alzheimer disease	81401
APP	APP	Amyloid beta (A4) precursor protein	Alzheimer disease	81406
APTX	APTX	Aprataxin	Ataxia with oculomotor apraxia 1	81405
AQP2	AQP2	Aquaporin 2 (collecting duct)	Nephrogenic diabetes insipidus	81404
AR	AR	Androgen receptor	Spinal and bulbar muscular atrophy, Kennedy disease, X chromosome inactivation, androgen insensitivity syndrome	81173, 81174, 81204
ARSA	ARSA	Arylsulfatase A	Arylsulfatase A deficiency, severe inherited conditions	81405, 81443
ARX	ARX	Aristaless related homeobox	X-linked lissencephaly with ambiguous genitalia, X-linked intellectual disability (XLID)	81403, 81404, 81470, 81471
	ASPA	Aspartoacylase	Canavan disease, Ashkenazi Jewish-associated disorders, severe inherited conditions	81200, 81412, 81443
ASPM	ASPM	Asp (abnormal spindle) homolog, microcephaly associated (Drosophila)	Primary microcephaly	81407
ASS1	ASS1	Argininosuccinate synthase 1	Citrullinemia type I	81406
ASXL1	ASXL1	Additional sex combs like 1, transcriptional regulator	Myelodysplastic syndrome, myeloproliferative neoplasms, chronic myelomonocytic leukemia	81175, 81176
ATL1	ATL1	Atlastin gtpase 1	Spastic paraplegia	81406
ATM	ATM	Ataxia telangiectasia mutated	Ataxia telangiectasia	81408
ATN1	ATN1	Atrophin 1	Dentatorubral-pallidoluysian atrophy	81177
ATP1A2	ATP1A2	Atpase, Na+/K+ transporting, alpha 2 polypeptide	Familial hemiplegic migraine	81406
ATP7B	ATP7B	Atpase, Cu++ transporting, beta polypeptide	Wilson disease, severe inherited conditions	81406, 81443

ATRX	ATRX	ATRX chromatin remodeler	X-linked intellectual disability (XLID)	81470, 81471
ATXN1	ATXN1	Ataxin 1	Spinocerebellar ataxia	81178
ATXN2	ATXN2	Ataxin 2	Spinocerebellar ataxia	81179
ATXN3	ATXN3	Ataxin 3	Spinocerebellar ataxia, Machado-Joseph disease	81180
ATXN7	ATXN7	Ataxin 7	Spinocerebellar ataxia	81181
ATXN8OS	ATXN8OS	ATXN8 opposite strand (non-protein coding)	Spinocerebellar ataxia	81182
ATXN10	ATXN10	Ataxin 10	Spinocerebellar ataxia	81183
AVPR2	AVPR2	Arginine vasopressin receptor 2	Nephrogenic diabetes insipidus	81404
BBS1	BBS1	Bardet-Biedl syndrome 1	Bardet-Biedl syndrome	81406
BBS2	BBS2	Bardet-Biedl syndrome 2	Bardet-Biedl syndrome	81406
BBS10	BBS10	Bardet-Biedl syndrome 10	Bardet-Biedl syndrome	81404
BCKDHA	BCKDHA	Branched-chain keto acid dehydrogenase E1, alpha polypeptide	Maple syrup urine disease type 1A, severe inherited conditions	81400, 81405, 81443
BCKDHB	BCKDHB	Branched-chain keto acid dehydrogenase E1, beta polypeptide	Maple syrup urine disease, maple syrup urine disease type 1B, severe inherited conditions	81205, 81406, 81443
	BCR/ABL1	t(9;22)	Chronic myelogenous leukemia	81206, 81207, 81208
BCS1L	BCS1L	BCS1-like (S. cerevisiae)	Leigh syndrome, mitochondrial complex III deficiency, GRACILE syndrome, mitochondrial disorders	81405, 81440
BEST1	BEST1	Bestrophin 1	Vitelliform macular dystrophy	81406
	BLM	Bloom syndrome, recq helicase-like	Bloom syndrome, Ashkenazi Jewish-associated disorders, severe inherited conditions	81209, 81412, 81443
BMPR2	BMPR2	Bone morphogenetic protein receptor, type II (serine/threonine kinase)	Heritable pulmonary arterial hypertension	81405, 81406
	BRAF	V-raf murine sarcoma viral oncogene homolog B1	Colon cancer	81210
BRAF	BRAF	B-Raf proto-oncogene, serine/threonine kinase	Noonan syndrome, Noonan spectrum disorders, solid organ neoplasm, hematolymphoid neoplasm or disorder	81406, 81442
	BRCA1	BRCA1, DNA repair associated	Hereditary breast and ovarian cancer, hereditary breast cancer-related disorders	81165, 81166, 81215

	BRCA2	BRCA2, DNA repair associated	Hereditary breast and ovarian cancer, hereditary breast cancer-related disorders, inherited bone marrow failure syndromes (IBMFS)	81167, 81216, 81217, 81441
	BRCA1 and BRCA2	BRCA1, DNA repair associated BRCA2, DNA repair associated	Hereditary breast and ovarian cancer	81162, 81163, 81164, 81212
	BRIP1	BRCA1 interacting helicase 1	Inherited bone marrow failure syndromes (IBMFS)	81441
BSCL2	BSCL2	Berardinelli-Seip congenital lipodystrophy 2 (seipin)	Berardinelli-Seip congenital lipodystrophy, hereditary peripheral neuropathies	81406, 81448
BTD	BTD	Biotinidase	Biotinidase deficiency	81404
BTK	BTK	Bruton agammaglobulinemia tyrosine kinase	X-linked agammaglobulinemia, chronic lymphocytic leukemia	81406, 81233
C10ORF2	C10orf2	Chromosome 10 open reading frame 2	Mitochondrial DNA depletion syndrome, mitochondrial disorders	81404, 81440
C1P19Q	Chromosome 1p-/19q- deletion analysis	N/A	Glial tumors	81402
CACNA1A	CACNA1A	Calcium channel, voltage-dependent, P/Q type, alpha 1A subunit	Spinocerebellar ataxia, epilepsy	81184, 81185, 81186, 81419
CACNB2	CACNB2	Calcium channel, voltage-dependent, beta 2 subunit	Brugada syndrome	81406
	CALR	Calreticulin	Myeloproliferative disorders	81219
CAPN3	CAPN3	Calpain 3	Limb-girdle muscular dystrophy (LGMD) type 2A, calpainopathy	81406
CASQ2	CASQ2	Calsequestrin 2 (cardiac muscle)	Catecholaminergic polymorphic ventricular tachycardia, cardiac ion channelopathies	81405, 81413
CASR	CASR	Calcium-sensing receptor	Hypocalcemia	81405
CAV3	CAV3	Caveolin 3	CAV3-related distal myopathy, limb-girdle muscular dystrophy type 1C, cardiac ion channelopathies	81404, 81413
CBFBMYH11	CBFB/MYH11	Inv(16)	Acute myeloid leukemia	81401
CBL	CBL	Cbl proto-oncogene, E3 ubiquitin protein ligase	Noonan spectrum disorders	81442
CBS	CBS	Cystathionine-beta-synthase	Homocystinuria, cystathionine beta-synthase deficiency	81401, 81406
CCND1IGH	CCND1/IGH	t(11;14)	Mantle cell lymphoma	81168
CCR5	CCR5	Chemokine C-C motif receptor 5	HIV resistance	81400
CD40LG	CD40LG	CD40 ligand	X-linked hyper IgM syndrome	81404

CDH1	CDH1	Cadherin 1, type 1, E-cadherin (epithelial)	Hereditary diffuse gastric cancer, hereditary breast cancer-related disorders, hereditary colon cancer disorders	81406
CDH23	CDH23	Cadherin-related 23	Usher syndrome, type 1, hearing loss	81408, 81430
CDKL5	CDKL5	Cyclin-dependent kinase-like 5	Early infantile epileptic encephalopathy, X-linked intellectual disability (XLID), epilepsy	81405, 81406, 81419, 81470, 81471
CDKN2A	CDKN2A	Cyclin-dependent kinase inhibitor 2A	CDKN2A-related cutaneous malignant melanoma, solid organ neoplasm or hematolymphoid neoplasm	81404
	CEBPA	CCAAT/enhancer binding protein (C/EBP), alpha	Acute myeloid leukemia, hematolymphoid neoplasm or disorder, solid organ neoplasm	81218
CEL	CEL	Carboxyl ester lipase (bile salt-stimulated lipase)	Maturity-onset diabetes of the young (MODY)	81403
CEP290	CEP290	Centrosomal protein 290kda	Joubert syndrome	81408
CFHARMS2	CFH/ARMS2	Complement factor H/age-related maculopathy susceptibility 2	Macular degeneration	81401
	CFTR	Cystic fibrosis transmembrane conductance regulator	Cystic fibrosis, Ashkenazi Jewish-associated disorders, severe inherited conditions	81220, 81221, 81222, 81223, 81224, 81412, 81443
Ch22Q13	Cytogenomic constitutional targeted microarray analysis of chromosome 22q13 by interrogation of genomic regions for copy number and single nucleotide polymorphism variants	N/A	N/A	81405
	CHD2	Chromodomain helicase DNA binding protein 2	Epilepsy	81419
CHD7	CHD7	Chromodomain helicase DNA binding protein 7	CHARGE syndrome	81407
	Chimerism engraftment analysis	N/A	Post transplantation specimen (eg, hematopoietic stem cell)	81267, 81268
CHRNA4	CHRNA4	Cholinergic receptor, nicotinic, alpha 4	Nocturnal frontal lobe epilepsy	81405
CHRNB2	CHRNB2	Cholinergic receptor, nicotinic, beta 2 (neuronal)	Nocturnal frontal lobe epilepsy	81405
CHROM18Q	Chromosome 18q-		Colon cancer	81402
CLCN1	CLCN1	Chloride channel 1, skeletal muscle	Myotonia congenita	81406
CLCNKB	CLCNKB	Chloride channel, voltage-sensitive Kb	Bartter syndrome 3 and 4b	81406
CLRN1	CLRN1	Clarin 1	Usher syndrome, type 3, hearing loss	81400, 81404, 81430
CNBP	CNBP	CCHC-type zinc finger, nucleic acid binding protein	Myotonic dystrophy type 2	81187
CNGA1	CNGA1	Cyclic nucleotide gated channel alpha 1	Hereditary retinal disorders	81434

CNTNAP2	CNTNAP2	Contactin associated protein-like 2	Pitt-Hopkins-like syndrome 1	81406
COL1A1	COL1A1	Collagen, type I, alpha 1	Osteogenesis imperfecta, type I	81408
COL1A1PDGFB	COL1A1/PDGFB	t(17;22)	Dermatofibrosarcoma protuberans	81402
COL1A2	COL1A2	Collagen, type I, alpha 2	Osteogenesis imperfecta, type I	81408
COL3A1	COL3A1	Collagen, type III, alpha 1	Aortic dysfunction or dilation	81410, 81411
COL4A1	COL4A1	Collagen, type IV, alpha 1	Brain small-vessel disease with hemorrhage	81408
COL4A3	COL4A3	Collagen, type IV, alpha 3 (Goodpasture antigen)	Alport syndrome	81408
COL4A4	COL4A4	Collagen, type IV, alpha 4	Alport syndrome	81407
COL4A5	COL4A5	Collagen, type IV, alpha 5	Alport syndrome	81407, 81408
COL6A1	COL6A1	Collagen, type VI, alpha 1	Collagen type VI-related disorders	81407
COL6A2	COL6A2	Collagen, type VI, alpha 2	Collagen type VI-related disorders	81406, 81407
COL6A3	COL6A3	Collagen, type VI, alpha 3	Collagen type VI-related disorders	81407
COQ2	COQ2	Coenzyme Q2, polyprenyltransferase	Mitochondrial disorders	81440
COX10	COX10	COX10 homolog, cytochrome c oxidase assembly protein	Mitochondrial respiratory chain complex IV deficiency, mitochondrial disorders	81405, 81440
COX15	COX15	COX15 homolog, cytochrome c oxidase assembly protein	Mitochondrial respiratory chain complex IV deficiency	81405
COX6B1	COX6B1	Cytochrome c oxidase subunit vib polypeptide 1	Mitochondrial respiratory chain complex IV deficiency	81404
CPOX	CPOX	Coproporphyrinogen oxidase	Hereditary coproporphyria	81405
CPT1A	CPT1A	Carnitine palmitoyltransferase 1A (liver)	Carnitine palmitoyltransferase 1A (CPT1A) deficiency	81406
CPT2	CPT2	Carnitine palmitoyltransferase 2	Carnitine palmitoyltransferase II deficiency	81404
CRB1	CRB1	Crumbs homolog 1 (Drosophila)	Leber congenital amaurosis, hereditary retinal disorders	81406, 81434
CREBBP	CREBBP	CREB binding protein	Rubinstein-Taybi syndrome	81406, 81407
CRX	CRX	Cone-rod homeobox	Cone-rod dystrophy 2, Leber congenital amaurosis	81404
CSTB	CSTB	Cystatin B (stefin B)	Unverricht-Lundborg disease	81188, 81189, 81190
CTNNB1	CTNNB1	Catenin (cadherin-associated protein), beta 1, 88kda	Desmoid tumors	81403
CTRC	CTRC	Chymotrypsin C	Hereditary pancreatitis	81405
CYP11B1	CYP11B1	Cytochrome P450, family 11, subfamily B, polypeptide 1	Congenital adrenal hyperplasia	81405

CYP17A1	CYP17A1	Cytochrome P450, family 17, subfamily A, polypeptide 1	Congenital adrenal hyperplasia	81405
CYP1B1	CYP1B1	Cytochrome P450, family 1, subfamily B, polypeptide 1	Primary congenital glaucoma	81404
CYP21A2	CYP21A2	Cytochrome P450, family 21, subfamily A, polypeptide 2	Congenital adrenal hyperplasia, 21-hydroxylase deficiency, steroid 21-hydroxylase isoform	81402, 81405
	CYP2C9	Cytochrome P450, family 2, subfamily C, polypeptide 9	Drug metabolism	81227
	CYP2C19	Cytochrome P450, family 2, subfamily C, polypeptide 19	Drug metabolism	81225, 81418
	CYP2D6	Cytochrome P450, family 2, subfamily D, polypeptide 6	Drug metabolism	81226, 81418
CYP3A4	CYP3A4	Cytochrome P450 family 3 subfamily A member 4	Drug metabolism	81230
CYP3A5	CYP3A5	Cytochrome P450 family 3 subfamily A member 5	Drug metabolism	81231
	Cytogenomic (genome-wide) analysis for constitutional chromosomal abnormalities	N/A	N/A	81228, 81229, 81349, 81354
	Cytogenomic (genome-wide) analysis, hematologic malignancy, structural variants and copy number variants, optical genome mapping (OGM)	N/A	N/A	81195
	Cytogenomic neoplasia (genome-wide) microarray analysis	N/A	N/A	81277
DAZSRY	DAZ/SRY	Deleted in azoospermia and sex determining region Y	Male infertility	81403
DBT	DBT	Dihydrolipoamide branched chain transacylase E2	Maple syrup urine disease, type 2	81405, 81406
DCX	DCX	Doublecortin	X-linked lissencephaly	81405
DEKNUP214	DEK/NUP214	t(6;9)	Acute myeloid leukemia	81401
DES	DES	Desmin	Myofibrillar myopathy	81405
DFNB1	DFNB1	N/A	Hearing loss	81431
DFNB59	DFNB59	Deafness, autosomal recessive 59	Autosomal recessive nonsyndromic hearing impairment	81405
DGUOK	DGUOK	Deoxyguanosine kinase	Hepatocerebral mitochondrial DNA depletion syndrome, mitochondrial disorders	81405, 81440

DHCR7	DHCR7	7-dehydrocholesterol reductase	Smith-Lemli-Opitz syndrome, severe inherited conditions	81405, 81443
	DKC1	Dyskerin pseudouridine synthase 1	Inherited bone marrow failure syndromes (IBMFS)	81441
DLAT	DLAT	Dihydrolipoamide S-acetyltransferase	Pyruvate dehydrogenase E2 deficiency	81406
DLD	DLD	Dihydrolipoamide dehydrogenase	Maple syrup urine disease, type III	81406
	DMD	Dystrophin	Duchenne/Becker muscular dystrophy	81161
DMD	DMD	Dystrophin	Duchenne/Becker muscular dystrophy	81408
DMPK	DMPK	Dystrophia myotonica-protein kinase	Myotonic dystrophy, type 1	81234, 81239
DNMT3A	DNMT3A	DNA (cytosine-5-)-methyltransferase 3 alpha	Acute myeloid leukemia, hematolymphoid neoplasm or disorder, solid organ neoplasm	81403
DPYD	DPYD	Dihydropyrimidine dehydrogenase	5-fluorouracil/5-FU and capecitabine drug metabolism	81232
DSC2	DSC2	Desmocollin	Arrhythmogenic right ventricular dysplasia/cardiomyopathy 11	81406
DSG2	DSG2	Desmoglein 2	Arrhythmogenic right ventricular dysplasia/cardiomyopathy 10, hereditary cardiomyopathy	81406, 81439
DSP	DSP	Desmoplakin	Arrhythmogenic right ventricular dysplasia/cardiomyopathy 8	81406
DYSF	DYSF	Dysferlin, limb-girdle muscular dystrophy 2B (autosomal recessive)	Limb-girdle muscular dystrophy	81408
E2APBX1	E2A/PBX1	t(1;19)	Acute lymphocytic leukemia	81401
EFHC1	EFHC1	EF-hand domain (C-terminal) containing 1	Juvenile myoclonic epilepsy	81406
	EGFR	Epidermal growth factor receptor	Non-small cell lung cancer, solid organ neoplasm or hematolymphoid neoplasm	81235
EGR2	EGR2	Early growth response 2	Charcot-Marie-Tooth disease	81404
EIF2B2	EIF2B2	Eukaryotic translation initiation factor 2B, subunit 2 beta, 39kda	Leukoencephalopathy with vanishing white matter	81405
EIF2B3	EIF2B3	Eukaryotic translation initiation factor 2B, subunit 3 gamma, 58kda	Leukoencephalopathy with vanishing white matter	81406
EIF2B4	EIF2B4	Eukaryotic translation initiation factor 2B, subunit 4 delta, 67kda	Leukoencephalopathy with vanishing white matter	81406

EIF2B5	EIF2B5	Eukaryotic translation initiation factor 2B, subunit 5 epsilon, 82kda	Childhood ataxia with central nervous system hypomyelination/vanishing white matter	81406
EMD	EMD	Emerin	Emery-Dreifuss muscular dystrophy	81404, 81405
EML4ALK	EML4/ALK	Inv(2)	Non-small cell lung cancer	81401
ENG	ENG	Endoglin	Hereditary hemorrhagic telangiectasia, type 1	81405, 81406
EPCAM	EPCAM	Epithelial cell adhesion molecule	Lynch syndrome, hereditary colon cancer disorders	81403
EPM2A	EPM2A	Epilepsy, progressive myoclonus type 2A, Lafora disease (laforin)	Progressive myoclonus epilepsy	81404
ESR1PGR	ESR1/PGR	Receptor 1/progesterone receptor	Breast cancer	81402
ETV6RUNX1	ETV6/RUNX1	t(12;21)	Acute lymphocytic leukemia	81401
EWSR1ATF1	EWSR1/ATF1	t(12;22)	Clear cell sarcoma	81401
EWSR1ERG	EWSR1/ERG	t(21;22)	Ewing sarcoma/peripheral neuroectodermal tumor	81401
EWSR1FLI1	EWSR1/FLI1	t(11;22)	Ewing sarcoma/peripheral neuroectodermal tumor	81401
EWSR1WT1	EWSR1/WT1	t(11;22)	Desmoplastic small round cell tumor	81401
EYA1	EYA1	Eyes absent homolog 1 (Drosophila)	Branchio-oto-renal (BOR) spectrum disorders	81405, 81406
EYS	EYS	Eyes shut homolog (Drosophila)	Hereditary retinal disorders	81434
EZH2	EZH2	Enhancer of zeste 2 polycomb repressive complex 2 subunit	Myelodysplastic syndrome, myeloproliferative neoplasms, diffuse large B-cell lymphoma, solid organ or hematolymphoid neoplasm or disorder	81236, 81237
	F2	Prothrombin, coagulation factor II	Hereditary hypercoagulability	81240
F2	F2	Prothrombin, coagulation factor II	Hereditary hypercoagulability	81400
	F5	Coagulation factor V	Hereditary hypercoagulability	81241
F5	F5	Coagulation factor V	Hereditary hypercoagulability	81400
F7	F7	Coagulation factor VII (serum prothrombin conversion accelerator)	Hereditary hypercoagulability	81400
F8	F8	Coagulation factor VIII	Hemophilia A	81403, 81406, 81407
F9	F9	Coagulation factor IX	Hemophilia B	81238
F11	F11	Coagulation factor XI	Coagulation disorder	81401
F12	F12	Coagulation factor XII (Hageman factor)	Angioedema, hereditary, type III; factor XII deficiency	81403
F13B	F13B	Coagulation factor XIII, B polypeptide	Hereditary hypercoagulability	81400

FAH	FAH	Fumarylacetoacetate hydrolase (fumarylacetoacetase)	Tyrosinemia, type 1	81406
	FANCA	FA complementation group A	Inherited bone marrow failure syndromes (IBMFS)	81441
	FANCB	FA complementation group B	Inherited bone marrow failure syndromes (IBMFS)	81441
	FANCC	Fanconi anemia, complementation group C	Fanconi anemia, type C, Ashkenazi Jewish-associated disorders, severe inherited conditions, inherited bone marrow failure syndromes (IBMFS)	81242, 81412, 81441, 81443
	FANCD2	FA complementation group D2	Inherited bone marrow failure syndromes (IBMFS)	81441
	FANCE2	FA complementation group E	Inherited bone marrow failure syndromes (IBMFS)	81441
	FANCF	FA complementation group F	Inherited bone marrow failure syndromes (IBMFS)	81441
	FANCG	FA complementation group G	Inherited bone marrow failure syndromes (IBMFS)	81441
	FANCI	FA complementation group I	Inherited bone marrow failure syndromes (IBMFS)	81441
	FANCL	FA complementation group L	Inherited bone marrow failure syndromes (IBMFS)	81441
FASTKD2	FASTKD2	FAST kinase domains 2	Mitochondrial respiratory chain complex IV deficiency	81406
FBN1	FBN1	Fibrillin 1	Marfan syndrome, aortic dysfunction or dilation	81408, 81410
FGB	FGB	Fibrinogen beta chain	Hereditary ischemic heart disease	81400
FGD1	FGD1	FYVE, rhogef and PH domain containing 1	X-linked intellectual disability (XLID)	81470, 81471
FGF23	FGF23	Fibroblast growth factor 23	Hypophosphatemic rickets	81404
FGFR1	FGFR1	Fibroblast growth factor receptor 1	Pfeiffer syndrome type 1, craniosynostosis, Kallmann syndrome	81400, 81405
FGFR2	FGFR2	Fibroblast growth factor receptor 2	Craniosynostosis, Apert syndrome, Crouzon syndrome	81404
FGFR3	FGFR3	Fibroblast growth factor receptor 3	Muenke syndrome, achondroplasia, hypochondroplasia, isolated craniosynostosis	81400, 81401, 81403, 81404
FH	FH	Fumarate hydratase	Fumarate hydratase deficiency, hereditary leiomyomatosis with renal cell cancer	81405
FHL1	FHL1	Four and a half LIM domains 1	Emery-Dreifuss muscular dystrophy	81404
FIG4	FIG4	FIG4 homolog, SAC1 lipid phosphatase domain containing (S. cerevisiae)	Charcot-Marie-Tooth disease	81406
FIP1L1PDGFRA	FIP1L1/PDGFRA	Del(4q12)	Imatinib-sensitive chronic eosinophilic leukemia	81401
FKRP	FKRP	Fukutin related protein	Congenital muscular dystrophy type 1C (MDC1C), limb-girdle muscular dystrophy (LGMD) type 2I	81404
FKTN	FKTN	Fukutin	Fukuyama congenital muscular dystrophy, limb-girdle muscular dystrophy (LGMD) type 2M or 2L	81400, 81405

FLG	FLG	Filaggrin	Ichthyosis vulgaris	81401
	FLT3	Fms-related tyrosine kinase 3	Acute myeloid leukemia, hematolymphoid neoplasm or disorder, solid organ neoplasm	81245, 81246
	FMR1	Fragile X messenger ribonucleoprotein 1	X-linked intellectual disability (XLID)	81243, 81244, 81470, 81471
FOXG1	FOXG1	Forkhead box G1	Rett syndrome	81404
FOXO1PAX3	FOXO1/PAX3	t(2;13)	Ewing sarcoma/peripheral neuroectodermal tumor, alveolar rhabdomyosarcoma	81401
FOXO1PAX7	FOXO1/PAX7	t(1;13)	Ewing sarcoma/peripheral neuroectodermal tumor, alveolar rhabdomyosarcoma	81401
FSHMD1A	FSHMD1A	Facioscapulohumeral muscular dystrophy 1A	Facioscapulohumeral muscular dystrophy	81404
FTSJ1	FTSJ1	FtsJ RNA 2'-O-methyltransferase 1	X-linked intellectual disability 9	81405, 81406
FUS	FUS	Fused in sarcoma	Amyotrophic lateral sclerosis	81406
FUSDDIT3	FUS/DDIT3	t(12;16)	Myxoid liposarcoma	81401
FXN	FXN	Frataxin	Friedreich ataxia	81284, 81285, 81286, 81289
G6PC	G6PC	Glucose-6-phosphatase, catalytic subunit	Glycogen storage disease, type 1a, von Gierke disease, severe inherited conditions	81250, 81443
G6PD	G6PD	Glucose-6-phosphate dehydrogenase	Hemolytic anemia, jaundice	81247, 81248, 81249
GAA	GAA	Glucosidase, alpha; acid	Glycogen storage disease type II (Pompe disease), severe inherited conditions	81406, 81443
GABRG2	GABRG2	Gamma-aminobutyric acid (GABA) A receptor, gamma 2	Generalized epilepsy with febrile seizures, epilepsy	81405, 81419
GALC	GALC	Galactosylceramidase	Krabbe disease	81401, 81406
GALT	GALT	Galactose-1-phosphate uridylyltransferase	Galactosemia, severe inherited conditions	81401, 81406, 81443
GARS	GARS	Glycyl-trna synthetase	Charcot-Marie-Tooth disease	81406
	GATA1	GATA binding protein 1	Inherited bone marrow failure syndromes (IBMFS)	81441
	GATA2	GATA binding protein 2	Inherited bone marrow failure syndromes (IBMFS)	81441
	GBA	Glucosidase, beta, acid	Gaucher disease, Ashkenazi Jewish-associated disorders, severe inherited conditions	81251, 81412, 81443
GBE1		1,4-alpha-glucan branching enzyme 1	Severe inherited conditions	81443
GCDH	GCDH	Glutaryl-coa dehydrogenase	Glutaricacidemia type 1	81406
GCH1	GCH1	GTP cyclohydrolase 1	Autosomal dominant dopa-responsive dystonia	81405

GDAP1	GDAP1	Ganglioside-induced differentiation-associated protein 1	Charcot-Marie-Tooth disease	81405
GFAP	GFAP	Glial fibrillary acidic protein	Alexander disease	81405
GH1	GH1	Growth hormone 1	Growth hormone deficiency	81404
GHR	GHR	Growth hormone receptor	Laron syndrome	81405
GHRHR	GHRHR	Growth hormone releasing hormone receptor	Growth hormone deficiency	81405
GJB1	GJB1	Gap junction protein, beta 1	Charcot-Marie-Tooth X-linked, hereditary peripheral neuropathies	81403, 81448
	GJB2	Gap junction protein, beta 2, 26kda, connexin 26	Nonsyndromic hearing loss	81252, 81253, 81430, 81431
	GJB6	Gap junction protein, beta 6, 30kda, connexin 30	Nonsyndromic hearing loss	81254, 81431
GLA	GLA	Galactosidase, alpha	Fabry disease	81405
GLUD1	GLUD1	Glutamate dehydrogenase 1	Familial hyperinsulinism	81406
GNAQ	GNAQ	Guanine nucleotide-binding protein G(q) subunit alpha	Uveal melanoma	81403
GNE	GNE	Glucosamine (UDP-N-acetyl)-2-epimerase/N-acetylmannosamine kinase	Inclusion body myopathy 2 (IBM2), Nonaka myopathy	81400, 81406
GP1BB	GP1BB	Glycoprotein Ib (platelet), beta polypeptide	Bernard-Soulier syndrome type B	81404
GPR98	GPR98	G-protein coupled receptor 98	Hearing loss	81430
	GRIN2A	Glutamate ionotropic receptor NMDA type subunit 2A	Epilepsy	81419
GRN	GRN	Granulin	Frontotemporal dementia	81406
H19	H19	Imprinted maternally expressed transcript (non-protein coding)	Beckwith-Wiedemann syndrome	81401
HADHA	HADHA	Hydroxyacyl-coa dehydrogenase/3-ketoacyl-coa thiolase/enoyl-coa hydratase (trifunctional protein) alpha subunit	Long chain acyl-coenzyme A dehydrogenase deficiency	81406
HADHB	HADHB	Hydroxyacyl-coa dehydrogenase/3-ketoacyl-coa thiolase/enoyl-coa hydratase (trifunctional protein), beta subunit	Trifunctional protein deficiency	81406
HBA1/HBA2	HBA1/HBA2	Alpha globin 1 and alpha globin 2	Alpha thalassemia, thalassemia, Hb Bart hydrops fetalis syndrome, HbH disease	81257, 81258, 81259, 81269

HBB	HBB	Hemoglobin, subunit beta	Sickle cell anemia, beta thalassemia, hemoglobinopathy, severe inherited conditions	81361, 81362, 81363, 81364, 81443
HEA	HEA	Human erythrocyte antigen	Sickle cell disease, thalassemia, hemolytic transfusion reactions, hemolytic disease of the fetus or newborn	81403
	HEXA	Hexosaminidase A (alpha polypeptide)	Tay-Sachs disease, Ashkenazi Jewish-associated disorders, severe inherited conditions	81255, 81406, 81412, 81443
	HFE	Hemochromatosis	Hereditary hemochromatosis	81256
	HLA	Human leukocyte antigen genes	Pretransplant and drug therapy testing	81370-81383
HLCS	HLCS	HLCS holocarboxylase synthetase	Holocarboxylase synthetase deficiency	81406
HMBS	HMBS	Hydroxymethylbilane synthase	Acute intermittent porphyria	81406
HNF1A	HNF1A	HNF1 homeobox A	Maturity-onset diabetes of the young (MODY)	81405
HNF1B	HNF1B	HNF1 homeobox B	Maturity-onset diabetes of the young (MODY)	81404, 81405
HNF4A	HNF4A	Hepatocyte nuclear factor 4, alpha	Maturity-onset diabetes of the young (MODY)	81406
HPA1	Human Platelet Antigen 1 genotyping (HPA-1), ITGB3	Integrin, beta 3 (platelet glycoprotein iiia), antigen CD61 (gpiiia)	Neonatal alloimmune thrombocytopenia (NAIT), post-transfusion purpura	81105
HPA2	Human Platelet Antigen 2 genotyping (HPA-2), GP1BA	Glycoprotein Ib (platelet), alpha polypeptide (gpiba)	Neonatal alloimmune thrombocytopenia (NAIT), post-transfusion purpura	81106
HPA3	Human Platelet Antigen 3 genotyping (HPA-3), ITGA2B	Integrin, alpha 2b (platelet glycoprotein iib of iib/iiia complex), antigen CD41 (gpiib)	Neonatal alloimmune thrombocytopenia (NAIT), post-transfusion purpura	81107
HPA4	Human Platelet Antigen 4 genotyping (HPA-4), ITGB3	Integrin, beta 3 (platelet glycoprotein iiia), antigen CD61 (gpiiia)	Neonatal alloimmune thrombocytopenia (NAIT), post-transfusion purpura	81108
HPA5	Human Platelet Antigen 5 genotyping (HPA-5), ITGA2	Integrin, alpha 2 (CD49B, alpha 2 subunit of VLA-2 receptor) (gpia)	Neonatal alloimmune thrombocytopenia (NAIT), post-transfusion purpura	81109
HPA6	Human Platelet Antigen 6 genotyping (HPA-6w), ITGB3	Integrin, beta 3 (platelet glycoprotein iiia, antigen CD61) (gpiiia)	Neonatal alloimmune thrombocytopenia (NAIT), post-transfusion purpura	81110
HPA9	Human Platelet Antigen 9 genotyping (HPA-9w), ITGA2B	Integrin, alpha 2b (platelet glycoprotein iib of iib/iiia complex, antigen CD41) (gpiib)	Neonatal alloimmune thrombocytopenia (NAIT), post-transfusion purpura	81111
HPA15	Human Platelet Antigen 15 genotyping (HPA-15), CD109	CD109 molecule	Neonatal alloimmune thrombocytopenia (NAIT), post-transfusion purpura	81112
HRAS	HRAS	V-Ha-ras Harvey rat sarcoma viral oncogene homolog	Costello syndrome, Noonan spectrum disorders	81403, 81404, 81442
HSD3B2	HSD3B2	Hydroxy-delta-5-steroid dehydrogenase, 3 beta- and steroid delta-isomerase 2	3-beta-hydroxysteroid dehydrogenase type II deficiency	81404

HSD11B2	HSD11B2	Hydroxysteroid (11-beta) dehydrogenase 2	Mineralocorticoid excess syndrome	81404
HSPB1	HSPB1	Heat shock 27kda protein 1	Charcot-Marie-Tooth disease	81404
HTRA1	HTRA1	Htra serine peptidase 1	Macular degeneration	81405
HTT	HTT	Huntingtin	Huntington disease	81271, 81274
HUWE1	HUWE1	HECT, UBA and WWE domain containing 1, E3 ubiquitin protein ligase	X-linked intellectual disability (XLID)	81470, 81471
IDH1	IDH1	Isocitrate dehydrogenase 1 (NADP+), soluble	Glioma, hematolymphoid neoplasm or disorder, solid organ neoplasm	81120
IDH2	IDH2	Isocitrate dehydrogenase 2 (NADP+), mitochondrial	Glioma, hematolymphoid neoplasm or disorder, solid organ neoplasm	81121
IDS	IDS	Iduronate 2-sulfatase	Mucopolysaccharidosis, type II	81405
IDUA	IDUA	Iduronidase, alpha-L-	Mucopolysaccharidosis type I	81406
IFNL3	IFNL3	Interferon, lambda 3	Drug response	81283
	IGH@	Immunoglobulin heavy chain locus	Leukemias and lymphomas, B-cell	81261, 81262, 81263
IGHBCL2	IGH@/BCL2	t(14;18)	Follicular lymphoma	81278, 81401
	IGK@	Immunoglobulin kappa light chain locus	Leukemia and lymphoma, B-cell	81264
	IKBKAP	Inhibitor of kappa light polypeptide gene enhancer in B-cells, kinase complex-associated protein	Familial dysautonomia, Ashkenazi Jewish-associated disorders, severe inherited conditions	81260, 81412, 81443
IL1RAPL	IL1RAPL	Interleukin 1 receptor accessory protein	X-linked intellectual disability (XLID)	81470, 81471
IL2RG	IL2RG	Interleukin 2 receptor, gamma	X-linked severe combined immunodeficiency	81405
INF2	INF2	Inverted formin, FH2 and WH2 domain containing	Focal segmental glomerulosclerosis	81406
INS	INS	Insulin	Diabetes mellitus	81404
ISPD	ISPD	Isoprenoid synthase domain containing	Muscle-eye-brain disease, Walker-Warburg syndrome	81405
ITPR1	ITPR1	Inositol 1,4,5-trisphosphate receptor, type 1	Spinocerebellar ataxia	81408
IVD	IVD	Isovaleryl-coa dehydrogenase	Isovaleric acidemia	81400, 81406
JAG1	JAG1	Jagged 1	Alagille syndrome	81406, 81407
	JAK2	Janus kinase 2	Myeloproliferative disorder, hematolymphoid neoplasm or disorder, solid organ neoplasm	81270, 81279
JUP	JUP	Junction plakoglobin	Arrhythmogenic right ventricular dysplasia/cardiomyopathy 11	81406

KCNC3	KCNC3	Potassium voltage-gated channel, Shaw-related subfamily, member 3	Spinocerebellar ataxia	81403
KCNE1	KCNE1	Potassium voltage-gated channel, subfamily E, member 1	Cardiac ion channelopathies	81413
KCNE2	KCNE2	Potassium voltage-gated channel, subfamily E, member 2	Cardiac ion channelopathies	81413
KCNH2	KCNH2	Potassium voltage-gated channel, subfamily H (eag-related), member 2	Short QT syndrome, long QT syndrome, cardiac ion channelopathies	81406, 81413, 81414
KCNJ1	KCNJ1	Potassium inwardly-rectifying channel, subfamily J, member 1	Bartter syndrome	81404
KCNJ2	KCNJ2	Potassium inwardly-rectifying channel, subfamily J, member 2	Andersen-Tawil syndrome, cardiac ion channelopathies	81403, 81413
KCNJ10	KCNJ10	Potassium inwardly-rectifying channel, subfamily J, member 10	SeSAME syndrome, EAST syndrome, sensorineural hearing loss	81404
KCNJ11	KCNJ11	Potassium inwardly-rectifying channel, subfamily J, member 11	Familial hyperinsulinism	81403
KCNQ1	KCNQ1	Potassium voltage-gated channel, KQT-like subfamily, member 1	Short QT syndrome, long QT syndrome, cardiac ion channelopathies	81406, 81413, 81414
KCNQ1OT1	KCNQ1OT1	KCNQ1 overlapping transcript 1 (non-protein coding)	Beckwith-Wiedemann syndrome	81401
KCNQ2	KCNQ2	Potassium voltage-gated channel, KQT-like subfamily, member 2	Epileptic encephalopathy, epilepsy	81406, 81419
KDM5C	KDM5C	Lysine demethylase 5C	X-linked intellectual disability (XLID)	81407, 81470, 81471
KIAA0196	KIAA0196	Kiaa0196	Spastic paraplegia	81407
KIR	KIR	Killer cell immunoglobulin-like receptor	Hematopoietic stem cell transplantation	81403
	KIT	V-kit Hardy-Zuckerman 4 feline sarcoma viral oncogene homolog	Gastrointestinal stromal tumor, acute myeloid leukemia, melanoma, solid organ neoplasm, hematolymphoid neoplasm or disorder	81272, 81273
	KRAS	V-Ki-ras2 Kirsten rat sarcoma viral oncogene homolog	Carcinoma, Noonan syndrome	81275, 81276
KRAS	KRAS	Kirsten rat sarcoma viral oncogene homolog	Noonan syndrome, Noonan spectrum disorders, solid organ neoplasm, hematolymphoid neoplasm or disorder	81405, 81442
L1CAM	L1CAM	L1 cell adhesion molecule	MASA syndrome, X-linked hydrocephaly, X-linked intellectual disability (XLID)	81407, 81470, 81471

LAMA2	LAMA2	Laminin, alpha 2	Congenital muscular dystrophy	81408
LAMB2	LAMB2	Laminin, beta 2 (laminin S)	Pierson syndrome	81407
LAMP2	LAMP2	Lysosomal-associated membrane protein 2	Danon disease	81405
LCT	LCT	Lactase-phlorizin hydrolase	Lactose intolerance	81400
LDB3	LDB3	LIM domain binding 3	Familial dilated cardiomyopathy, myofibrillar myopathy	81406
LDLR	LDLR	Low density lipoprotein receptor	Familial hypercholesterolemia	81405, 81406
LEPR	LEPR	Leptin receptor	Obesity with hypogonadism	81406
LHCGR	LHCGR	Luteinizing hormone/choriogonadotropin receptor	Precocious male puberty	81406
LINC00518	LINC00518	Long intergenic non-protein coding RNA 518	Melanoma	81401
LITAF	LITAF	Lipopolysaccharide-induced TNF factor	Charcot-Marie-Tooth disease	81404
LMNA	LMNA	Lamin A/C	Emery-Dreifuss muscular dystrophy (EDMD1, 2, and 3) limb-girdle muscular dystrophy (LGMD) type 1B, dilated cardiomyopathy (CMD1A), familial partial lipodystrophy (FPLD2)	81406
LRP5	LRP5	Low density lipoprotein receptor-related protein 5	Osteopetrosis	81406
LRRK2	LRRK2	Leucine-rich repeat kinase 2	Parkinson disease	81401, 81408
MAP2K1	MAP2K1	Mitogen-activated protein kinase 1	Cardiofaciocutaneous syndrome, Noonan spectrum disorders	81406, 81442
MAP2K2	MAP2K2	Mitogen-activated protein kinase 2	Cardiofaciocutaneous syndrome, Noonan spectrum disorders	81406, 81442
MAPT	MAPT	Microtubule-associated protein tau	Frontotemporal dementia	81406
MC4R	MC4R	Melanocortin 4 receptor	Obesity	81403
MCCC1	MCCC1	Methylcrotonoyl-coa carboxylase 1 (alpha)	3-methylcrotonyl-CoA carboxylase deficiency	81406
MCCC2	MCCC2	Methylcrotonoyl-coa carboxylase 2 (beta)	3-methylcrotonyl carboxylase deficiency	81406
	MCOLN1	Mucolipin 1	Mucolipidosis, type IV, Ashkenazi Jewish-associated disorders, severe inherited conditions	81290, 81412, 81443
	MECP2	Methyl cpg binding protein 2	Rett syndrome, X-linked intellectual disability (XLID), epilepsy	81302, 81303, 81304, 81419, 81470, 81471
MED12	MED12	Mediator complex subunit 12	FG syndrome type 1, Lujan syndrome, X-linked intellectual disability (XLID)	81401, 81470, 81471
MEFV	MEFV	Mediterranean fever	Familial Mediterranean fever	81402, 81404

MEG3DLK1	MEG3/DLK1	Maternally expressed 3 (non-protein coding)/delta-like 1 homolog (Drosophila)	Intrauterine growth retardation	81401
MEN1	MEN1	Multiple endocrine neoplasia 1	Multiple endocrine neoplasia type 1, Wermer syndrome	81404, 81405
MFN2	MFN2	Mitofusin 2	Charcot-Marie-Tooth disease, hereditary peripheral neuropathies	81406, 81448
	MGMT	O-6-methylguanine-DNA methyltransferase	Glioblastoma multiforme	81287
MICA	MICA	MHC class I polypeptide-related sequence A	Solid organ transplantation	81403
	Microsatellite instability analysis	N/A	Hereditary nonpolyposis colorectal cancer, Lynch syndrome	81301
MID1	MID1	Midline 1	X-linked intellectual disability (XLID)	81470, 81471
	MLH1	Mutl homolog 1, colon cancer, nonpolyposis type 2	Hereditary nonpolyposis colorectal cancer, Lynch syndrome, hereditary breast cancer-related disorders, hereditary colon cancer disorders	81288, 81292, 81293, 81294
MLLAFF1	MLL/AFF1	t(4;11)	Acute lymphoblastic leukemia	81401
MLLMLLT3	MLL/MLLT3	t(9;11)	Acute myeloid leukemia	81401
MMAA	MMAA	Methylmalonic aciduria (cobalamine deficiency) type A	MMAA-related methylmalonic acidemia	81405
MMAB	MMAB	Methylmalonic aciduria (cobalamine deficiency) type B	MMAA-related methylmalonic acidemia	81405
MMACHC	MMACHC	Methylmalonic aciduria (cobalamin deficiency) cblc type, with homocystinuria	Methylmalonic acidemia and homocystinuria	81404
MPI	MPI	Mannose phosphate isomerase	Congenital disorder of glycosylation 1b	81405
MPL	MPL	MPL proto-oncogene, thrombopoietin receptor	Myeloproliferative disorder, inherited bone marrow failure syndromes (IBMFS)	81338, 81339, 81441
MPV17	MPV17	Mpv17 mitochondrial inner membrane protein	Mitochondrial DNA depletion syndrome, mitochondrial disorders	81404, 81405, 81440
MPZ	MPZ	Myelin protein zero	Charcot-Marie-Tooth disease, hereditary peripheral neuropathies	81405, 81448
	MSH2	Muts homolog 2, colon cancer, nonpolyposis type 1	Hereditary nonpolyposis colorectal cancer, Lynch syndrome, hereditary breast cancer-related disorders, hereditary colon cancer disorders	81295, 81296, 81297
	MSH6	Muts homolog 6 (E. Coli)	Hereditary nonpolyposis colorectal cancer, Lynch syndrome, hereditary breast cancer-related disorders, hereditary colon cancer disorders	81298, 81299, 81300

MTATP6	MT-ATP6	Mitochondrially encoded ATP synthase 6	Neuropathy with ataxia and retinitis pigmentosa (NARP), Leigh syndrome	81401
	MTHFR	5,10-methylenetetrahydrofolate reductase	Hereditary hypercoagulability	81291
MTM1	MTM1	Myotubularin 1	X-linked centronuclear myopathy	81405, 81406
MTND4ND6	MT-ND4, MT-ND6	Mitochondrially encoded NADH dehydrogenase 4, mitochondrially encoded NADH dehydrogenase 6	Leber hereditary optic neuropathy (LHON)	81401
MTND5	MT-ND5	Mitochondrially encoded trna leucine 1 (UUA/G), mitochondrially encoded NADH dehydrogenase 5	Mitochondrial encephalopathy with lactic acidosis and stroke-like episodes (MELAS)	81401
MTRNR1	MT-RNR1	Mitochondrially encoded 12S RNA	Nonsyndromic hearing loss	81401, 81403, 81430
MTTK	MT-TK	Mitochondrially encoded trna lysine	Myoclonic epilepsy with ragged-red fibers (MERRF)	81401
MTTL1	MT-TL1	Mitochondrially encoded trna leucine 1 (UUA/G)	Diabetes and hearing loss	81401
MTTS1	MT-TS1	Mitochondrially encoded trna serine 1	Nonsyndromic hearing loss	81403
MTTS1RNR1	MT-TS1, MT-RNR1	Mitochondrially encoded trna serine 1 (UCN), mitochondrially encoded 12S RNA	Nonsyndromic sensorineural deafness (including aminoglycoside-induced nonsyndromic deafness)	81401
MUT	MUT	Methylmalonyl coa mutase	Methylmalonic acidemia	81406
MUTYH	MUTYH	Muty homolog (E. Coli)	MYH-associated polyposis, hereditary colon cancer disorders	81401, 81406
MYBPC3	MYBPC3	Myosin binding protein C, cardiac	Familial hypertrophic cardiomyopathy, hereditary cardiomyopathy	81407, 81439
MYD88	MYD88	Myeloid differentiation primary response 88	Waldenstrom's macroglobulinemia, lymphoplasmacytic leukemia	81305
MYH6	MYH6	Myosin, heavy chain 6, cardiac muscle, alpha	Familial dilated cardiomyopathy	81407
MYH7	MYH7	Myosin, heavy chain 7, cardiac muscle, beta	Familial hypertrophic cardiomyopathy, Laing distal myopathy, hereditary cardiomyopathy	81407, 81439
MYH11	MYH11	Myosin, heavy chain 11, smooth muscle	Thoracic aortic aneurysms and aortic dissections, aortic dysfunction or dilation	81408, 81410, 81411
MYL2	MYL2	Myosin, light chain 2, regulatory, cardiac, slow	Familial hypertrophic cardiomyopathy	81405
MYL3	MYL3	Myosin, light chain 3, alkali, ventricular, skeletal, slow	Familial hypertrophic cardiomyopathy	81405
MYLK	MYLK	Myosin light chain kinase	Aortic dysfunction or dilation	81410
MYO7A	MYO7A	Myosin VIIA	Usher syndrome, type 1, hearing loss	81407, 81430
MYO15A	MYO15A	Myosin XVA	Hearing loss	81430

MYOT	MYOT	Myotilin	Limb-girdle muscular dystrophy	81405
NDP	NDP	Norrie disease (pseudoglioma)	Norrie disease	81403, 81404
NDUFA1	NDUFA1	NADH dehydrogenase (ubiquinone) 1 alpha subcomplex, 1, 7.5kda	Leigh syndrome, mitochondrial complex I deficiency	81404
NDUFAF2	NDUFAF2	NADH dehydrogenase (ubiquinone) 1 alpha subcomplex, assembly factor 2	Leigh syndrome, mitochondrial complex I deficiency	81404
NDUFS1	NDUFS1	NADH dehydrogenase (ubiquinone) Fe-S protein 1, 75kda (NADH-coenzyme Q reductase)	Leigh syndrome, mitochondrial complex I deficiency	81406
NDUFS4	NDUFS4	NADH dehydrogenase (ubiquinone) Fe-S protein 4, 18kda (NADH-coenzyme Q reductase)	Leigh syndrome, mitochondrial complex I deficiency	81404
NDUFS7	NDUFS7	NADH dehydrogenase (ubiquinone) Fe-S protein 7, 20kda (NADH-coenzyme Q reductase)	Leigh syndrome, mitochondrial complex I deficiency	81405
NDUFS8	NDUFS8	NADH dehydrogenase (ubiquinone) Fe-S protein 8, 23kda (NADH-coenzyme Q reductase)	Leigh syndrome, mitochondrial complex I deficiency	81405
NDUFV1	NDUFV1	NADH dehydrogenase (ubiquinone) flavoprotein 1, 51kda	Leigh syndrome, mitochondrial complex I deficiency	81405
NEB	NEB	Nebulin	Nemaline myopathy 2	81400, 81408
NEFL	NEFL	Neurofilament, light polypeptide	Charcot-Marie-Tooth disease	81405
NF1	NF1	Neurofibromin 1	Neurofibromatosis, type 1	81408
NF2	NF2	Neurofibromin 2 (merlin)	Neurofibromatosis, type 2	81405, 81406
NHLRC1	NHLRC1	NHL repeat containing 1	Progressive myoclonus epilepsy	81403
	NHP2	NHP2 ribonucleoprotein	Inherited bone marrow failure syndromes (IBMFS)	81441
NIPA1	NIPA1	Non-imprinted in Prader-Willi/Angelman syndrome 1	Spastic paraplegia	81404
NLGN3	NLGN3	Neuroligin 3	Autism spectrum disorders	81405
NLGN4X	NLGN4X	Neuroligin 4, X-linked	Autism spectrum disorders	81404, 81405
NOD2	NOD2	Nucleotide-binding oligomerization domain containing 2	Crohn's disease, Blau syndrome	81401
	NOP10	NOP10 ribonucleoprotein	Inherited bone marrow failure syndromes (IBMFS)	81441
NOS	Known familial variant NOS	N/A	N/A	81403

NOTCH1	NOTCH1	Notch 1	Aortic valve disease, hematolymphoid neoplasm or disorder or solid organ neoplasm	81407
NOTCH3	NOTCH3	Notch 3	Cerebral autosomal dominant arteriopathy with subcortical infarcts and leukoencephalopathy (CADASIL)	81406
NPC1	NPC1	Niemann-Pick disease, type C1	Niemann-Pick disease	81406
NPC2	NPC2	Niemann-Pick disease, type C2 (epididymal secretory protein E1)	Niemann-Pick disease type C2	81404
NPHP1	NPHP1	Nephronophthisis 1 (juvenile)	Joubert syndrome	81405, 81406
NPHS1	NPHS1	Nephrosis 1, congenital, Finnish type (nephrin)	Congenital Finnish nephrosis	81407
NPHS2	NPHS2	Nephrosis 2, idiopathic, steroid-resistant (podocin)	Steroid-resistant nephrotic syndrome	81405
	NPM1	Nucleophosmin	Acute myeloid leukemia, hematolymphoid neoplasm or disorder or solid organ neoplasm	81310
NPM1ALK	NPM1/ALK	t(2;5)	Anaplastic large cell lymphoma	81401
NR0B1	NR0B1	Nuclear receptor subfamily 0, group B, member 1	Congenital adrenal hypoplasia	81404
	NRAS	Neuroblastoma RAS viral (v-ras) oncogene homolog	Colorectal carcinoma, Noonan spectrum disorders, solid organ neoplasm, hematolymphoid neoplasm or disorder	81311, 81442
NSD1	NSD1	Nuclear receptor binding SET domain protein 1	Sotos syndrome	81405, 81406
	NTRK	Neurotrophic-tropomyosin receptor tyrosine kinase 1, 2, and 3	Solid tumors	81194
	NTRK1	Neurotrophic receptor tyrosine kinase 1	Solid tumors	81191
	NTRK2	Neurotrophic receptor tyrosine kinase 2	Solid tumors	81192
	NTRK3	Neurotrophic receptor tyrosine kinase 3	Solid tumors	81193
	NUDT15	Nudix hydrolase 15	Drug metabolism	81306
OCRL	OCRL	Oculocerebrorenal syndrome of Lowe	X-linked intellectual disability (XLID)	81470, 81471
OPA1	OPA1	Optic atrophy 1	Optic atrophy, mitochondrial disorders	81406, 81407, 81440
OPTN	OPTN	Optineurin	Amyotrophic lateral sclerosis	81406
OTC	OTC	Ornithine carbamoyltransferase	Ornithine transcarbamylase deficiency	81405
OTOF	OTOF	Otoferlin	Hearing loss	81430
PABPN1	PABPN1	Poly(A) binding protein, nuclear 1	Oculopharyngeal muscular dystrophy	81312

PAFAH1B1	PAFAH1B1	Platelet-activating factor acetylhydrolase 1b, regulatory subunit 1 (45kda)	Lissencephaly, Miller-Dieker syndrome	81405, 81406
PAH	PAH	Phenylalanine hydroxylase	Phenylketonuria, severe inherited conditions	81406, 81443
PALB2	PALB2	Partner and localizer of BRCA2	Breast and pancreatic cancer, hereditary breast cancer-related disorders, inherited bone marrow failure syndromes (IBMFS)	81307, 81308, 81441
PARK2	PARK2	Parkinson protein 2, E3 ubiquitin protein ligase (parkin)	Parkinson disease	81405, 81406
PAX2	PAX2	Paired box 2	Renal coloboma syndrome	81406
PAX8PPARG	PAX8/PPARG	t(2;3) (q13;p25)	Follicular thyroid carcinoma	81401
PC	PC	Pyruvate carboxylase	Pyruvate carboxylase deficiency	81406
	PCA3/KLK3	Prostate cancer antigen 3/kallikrein-related peptidase 3	Prostate cancer	81313
PCCA	PCCA	Propionyl coa carboxylase, alpha polypeptide	Propionic acidemia, type 1	81405, 81406
PCCB	PCCB	Propionyl coa carboxylase, beta polypeptide	Propionic acidemia	81406
PCDH15	PCDH15	Protocadherin-related 15	Usher syndrome type 1F, Usher syndrome type 1, hearing loss	81400, 81406, 81407, 81430
PCDH19	PCDH19	Protocadherin 19	Epileptic encephalopathy, epilepsy	81405, 81419
PCSK9	PCSK9	Proprotein convertase subtilisin/kexin type 9	Familial hypercholesterolemia	81406
PDE6A	PDE6A	Phosphodiesterase 6A, CGMP-specific, rod, alpha	Hereditary retinal disorders	81434
PDE6B	PDE6B	Phosphodiesterase 6B, CGMP-specific, rod, beta	Hereditary retinal disorders	81434
	PDGFRA	Platelet-derived growth factor receptor, alpha polypeptide	Gastrointestinal stromal tumor, solid organ neoplasm or hematolymphoid neoplasm	81314
PDHA1	PDHA1	Pyruvate dehydrogenase (lipoamide) alpha 1	Lactic acidosis	81405, 81406
PDHB	PDHB	Pyruvate dehydrogenase (lipoamide) beta	Lactic acidosis	81405
PDHX	PDHX	Pyruvate dehydrogenase complex, component X	Lactic acidosis	81406
PDSS2	PDSS2	Decaprenyl diphosphate synthase subunit 2	Mitochondrial disorders	81440
PDX1	PDX1	Pancreatic and duodenal homeobox 1	Maturity-onset diabetes of the young (MODY)	81404
PHEX	PHEX	Phosphate regulating endopeptidase homolog, X-linked	Hypophosphatemic rickets	81406
PHOX2B	PHOX2B	Paired-like homeobox 2b	Congenital central hypoventilation syndrome	81403, 81404
PIK3CA	PIK3CA	Phosphatidylinositol-4,5-bisphosphate 3-kinase, catalytic subunit alpha	Colorectal cancer, breast cancer, solid organ neoplasm or hematolymphoid neoplasm	81309

PINK1	PINK1	PTEN induced putative kinase 1	Parkinson disease	81405
PKD1	PKD1	Polycystic kidney disease 1 (autosomal dominant)	Polycystic kidney disease	81407
PKD2	PKD2	Polycystic kidney disease 2 (autosomal dominant)	Polycystic kidney disease	81406
PKHD1	PKHD1	Polycystic kidney and hepatic disease 1	Autosomal recessive polycystic kidney disease	81408
PKLR	PKLR	Pyruvate kinase, liver and RBC	Pyruvate kinase deficiency	81405
PKP2	PKP2	Plakophilin 2	Arrhythmogenic right ventricular dysplasia/cardiomyopathy 9, hereditary cardiomyopathy	81406, 81439
PLCE1	PLCE1	Phospholipase C, epsilon 1	Nephrotic syndrome type 3	81407
	PLCG2	Phospholipase C gamma 2	Chronic lymphocytic leukemia	81320
PLN	PLN	Phospholamban	Dilated cardiomyopathy, hypertrophic cardiomyopathy	81403
PLP1	PLP1	Proteolipid protein 1	Pelizaeus-Merzbacher disease, spastic paraplegia	81404, 81405
	PML/RARalpha	t(15;17) promyelocytic leukemia/retinoic acid receptor alpha	Promyelocytic leukemia	81315, 81316
	PMP22	Peripheral myelin protein 22	Charcot-Marie-Tooth disease, hereditary neuropathy with liability to pressure palsies	81324, 81325, 81326
	PMS2	Postmeiotic segregation increased 2 (S. cerevisiae)	Hereditary nonpolyposis colorectal cancer, Lynch syndrome	81317, 81318, 81319
PNKD	PNKD	Paroxysmal nonkinesigenic dyskinesia	Paroxysmal nonkinesigenic dyskinesia	81406
POLG	POLG	Polymerase (DNA directed), gamma	Alpers-Huttenlocher syndrome, autosomal dominant progressive external ophthalmoplegia, mitochondrial disorders, epilepsy	81406, 81419, 81440
POLG2	POLG2	Polymerase (DNA directed), gamma 2	Mitochondrial disorders	81440
POMGNT1	POMGNT1	Protein O-linked mannose beta1,2-N acetylglucosaminyltransferase	Muscle-eye-brain disease, Walker-Warburg syndrome	81406
POMT1	POMT1	Protein-O-mannosyltransferase 1	Limb-girdle muscular dystrophy (LGMD) type 2K, Walker-Warburg syndrome	81406
POMT2	POMT2	Protein-O-mannosyltransferase 2	Limb-girdle muscular dystrophy (LGMD) type 2N, Walker-Warburg syndrome	81406
POU1F1	POU1F1	POU class 1 homeobox 1	Combined pituitary hormone deficiency	81405
PPOX	PPOX	Protoporphyrinogen oxidase	Variegate porphyria	81406
PPP2R2B	PPP2R2B	Protein phosphatase 2, regulatory subunit B, beta	Spinocerebellar ataxia	81343
PQBP1	PQBP1	Polyglutamine binding protein 1	Renpenning syndrome	81404, 81405

PRAME	PRAME	Preferentially expressed antigen in melanoma	Melanoma	81401
PRKAG2	PRKAG2	Protein kinase, AMP-activated, gamma 2 non-catalytic subunit	Familial hypertrophic cardiomyopathy with Wolff-Parkinson-White syndrome, lethal congenital glycogen storage disease of heart	81406
PRKCG	PRKCG	Protein kinase C, gamma; (sodium channel, voltage-gated, type IV, alpha subunit)	Spinocerebellar ataxia; hyperkalemic periodic paralysis	81406
PRNP	PRNP	Srion protein	Genetic prion disease	81404
PROP1	PROP1	PROP paired-like homeobox 1	Combined pituitary hormone deficiency	81404
PRPF31	PRPF31	Pre-MRNA processing factor 31	Hereditary retinal disorders	81434
PRPH2	PRPH2	Peripherin 2 (retinal degeneration, slow)	Retinitis pigmentosa, hereditary retinal disorders	81404, 81434
	PRRT2	Proline rich transmembrane protein 2	Epilepsy	81419
PRSS1	PRSS1	Protease, serine, 1 (trypsin 1)	Hereditary pancreatitis	81401, 81404
PRX	PRX	Periaxin	Charcot-Marie-Tooth disease	81405
PSEN1	PSEN1	Presenilin 1	Alzheimer disease	81405
PSEN2	PSEN2	Presenilin 2 (Alzheimer disease 4)	Alzheimer disease	81406
	PTEN	Phosphatase and tensin homolog	Cowden syndrome, PTEN hamartoma tumor syndrome, hereditary breast cancer-related disorders, hereditary colon cancer disorders, solid organ neoplasm or hematolymphoid neoplasm	81321, 81322, 81323
PTPN11	PTPN11	Protein tyrosine phosphatase, non-receptor type 11	Noonan syndrome, LEOPARD syndrome, Noonan spectrum disorders	81406, 81442
PYGM	PYGM	Phosphorylase, glycogen, muscle	Glycogen storage disease type V, McArdle disease	81401, 81406
RAB7A	RAB7A	RAB7A, member RAS oncogene family	Charcot-Marie-Tooth disease	81405
	RAD51C	RAD51 paralog C	Inherited bone marrow failure syndromes (IBMFS)	81441
RAF1	RAF1	V-raf-1 murine leukemia viral oncogene homolog 1	LEOPARD syndrome, Noonan spectrum disorder	81404, 81406, 81442
RAI1	RAI1	Retinoic acid induced 1	Smith-Magenis syndrome	81405
RDH12	RDH12	Retinol dehydrogenase 12 (All-Trans/9-Cis/11-Cis)	Hereditary retinal disorders	81434
REEP1	REEP1	Receptor accessory protein 1	Spastic paraplegia, hereditary peripheral neuropathies	81405, 81448
RET	RET	Ret proto-oncogene	Multiple endocrine neoplasia, type 2A and familial medullary thyroid carcinoma, Hirschsprung disease, solid organ neoplasm or hematolymphoid neoplasm	81404, 81405, 81406
RHDDA	RHD, deletion analysis	Rh blood group, D antigen	Hemolytic disease of the fetus and newborn, Rh maternal/fetal compatibility	81403

PRAME	PRAME	Preferentially expressed antigen in melanoma	Melanoma	81401
PRKAG2	PRKAG2	Protein kinase, AMP-activated, gamma 2 non-catalytic subunit	Familial hypertrophic cardiomyopathy with Wolff-Parkinson-White syndrome, lethal congenital glycogen storage disease of heart	81406
PRKCG	PRKCG	Protein kinase C, gamma; (sodium channel, voltage-gated, type IV, alpha subunit)	Spinocerebellar ataxia; hyperkalemic periodic paralysis	81406
PRNP	PRNP	Srion protein	Genetic prion disease	81404
PROP1	PROP1	PROP paired-like homeobox 1	Combined pituitary hormone deficiency	81404
PRPF31	PRPF31	Pre-MRNA processing factor 31	Hereditary retinal disorders	81434
PRPH2	PRPH2	Peripherin 2 (retinal degeneration, slow)	Retinitis pigmentosa, hereditary retinal disorders	81404, 81434
	PRRT2	Proline rich transmembrane protein 2	Epilepsy	81419
PRSS1	PRSS1	Protease, serine, 1 (trypsin 1)	Hereditary pancreatitis	81401, 81404
PRX	PRX	Periaxin	Charcot-Marie-Tooth disease	81405
PSEN1	PSEN1	Presenilin 1	Alzheimer disease	81405
PSEN2	PSEN2	Presenilin 2 (Alzheimer disease 4)	Alzheimer disease	81406
	PTEN	Phosphatase and tensin homolog	Cowden syndrome, PTEN hamartoma tumor syndrome, hereditary breast cancer-related disorders, hereditary colon cancer disorders, solid organ neoplasm or hematolymphoid neoplasm	81321, 81322, 81323
PTPN11	PTPN11	Protein tyrosine phosphatase, non-receptor type 11	Noonan syndrome, LEOPARD syndrome, Noonan spectrum disorders	81406, 81442
PYGM	PYGM	Phosphorylase, glycogen, muscle	Glycogen storage disease type V, McArdle disease	81401, 81406
RAB7A	RAB7A	RAB7A, member RAS oncogene family	Charcot-Marie-Tooth disease	81405
	RAD51C	RAD51 paralog C	Inherited bone marrow failure syndromes (IBMFS)	81441
RAF1	RAF1	V-raf-1 murine leukemia viral oncogene homolog 1	LEOPARD syndrome, Noonan spectrum disorder	81404, 81406, 81442
RAI1	RAI1	Retinoic acid induced 1	Smith-Magenis syndrome	81405
RDH12	RDH12	Retinol dehydrogenase 12 (All-Trans/9-Cis/11-Cis)	Hereditary retinal disorders	81434
REEP1	REEP1	Receptor accessory protein 1	Spastic paraplegia, hereditary peripheral neuropathies	81405, 81448
RET	RET	Ret proto-oncogene	Multiple endocrine neoplasia, type 2A and familial medullary thyroid carcinoma, Hirschsprung disease, solid organ neoplasm or hematolymphoid neoplasm	81404, 81405, 81406
RHDDA	RHD, deletion analysis	Rh blood group, D antigen	Hemolytic disease of the fetus and newborn, Rh maternal/fetal compatibility	81403

SCN4A	SCN4A	Sodium channel, voltage-gated, type IV, alpha subunit	Hyperkalemic periodic paralysis	81406
	SCN8A	Sodium voltage-gated channel alpha subunit 8	Epilepsy	81419
SCN5A	SCN5A	Sodium channel, voltage-gated, type V, alpha subunit	Familial dilated cardiomyopathy, cardiac ion channelopathies	81407, 81413
SCNN1A	SCNN1A	Sodium channel, nonvoltage-gated 1 alpha	Pseudohypoaldosteronism	81406
SCNN1B	SCNN1B	Sodium channel, nonvoltage-gated 1, beta	Liddle syndrome, pseudohypoaldosteronism	81406
SCNN1G	SCNN1G	Sodium channel, nonvoltage-gated 1, gamma	Liddle syndrome, pseudohypoaldosteronism	81406
SCO1	SCO1	SCO cytochrome oxidase deficient homolog 1	Mitochondrial respiratory chain complex IV deficiency, mitochondrial disorders	81405, 81440
SCO2	SCO2	SCO cytochrome oxidase deficient homolog 2 (SCO1L)	Mitochondrial respiratory chain complex IV deficiency, mitochondrial disorders	81404, 81440
SDHA	SDHA	Succinate dehydrogenase complex, subunit A, flavoprotein (Fp)	Leigh syndrome, mitochondrial complex II deficiency	81406
SDHB	SDHB	Succinate dehydrogenase complex, subunit B, iron sulfur	Hereditary paraganglioma, hereditary neuroendocrine tumor disorders	81405
SDHC	SDHC	Succinate dehydrogenase complex, subunit C, integral membrane protein, 15kda	Hereditary paraganglioma-pheochromocytoma syndrome, hereditary neuroendocrine tumor disorders	81404, 81405
SDHD	SDHD	Succinate dehydrogenase complex, subunit D, integral membrane protein	Hereditary paraganglioma, hereditary neuroendocrine tumor disorders	81404
SEPT9	SEPT9	Septin 9	Colorectal cancer	81327
	SERPINA1	Serpin peptidase inhibitor, clade A, alpha-1 antiproteinase, antitrypsin, member 1	Alpha-1-antitrypsin deficiency	81332
SERPINE1	SERPINE1	Serpine peptidase inhibitor clade E, member 1, plasminogen activator inhibitor -1, PAI-1	Thrombophilia	81400
SETX	SETX	Senataxin	Ataxia	81406
	SF3B1	Splicing factor [3b] subunit B1	Myelodysplastic syndrome/acute myeloid leukemia	81347
SGCA	SGCA	Sarcoglycan, alpha (50kda dystrophin-associated glycoprotein)	Limb-girdle muscular dystrophy	81405
SGCB	SGCB	Sarcoglycan, beta (43kda dystrophin-associated glycoprotein)	Limb-girdle muscular dystrophy	81405
SGCD	SGCD	Sarcoglycan, delta (35kda dystrophin-associated glycoprotein)	Limb-girdle muscular dystrophy	81405
SGCE	SGCE	Sarcoglycan, epsilon	Myoclonic dystonia	81405, 81406

SGCG	SGCG	Sarcoglycan, gamma (35kda dystrophin-associated glycoprotein)	Limb-girdle muscular dystrophy	81404, 81405
SH2D1A	SH2D1A	SH2 domain containing 1A	X-linked lymphoproliferative syndrome	81403, 81404
SH3TC2	SH3TC2	SH3 domain and tetratricopeptide repeats 2	Charcot-Marie-Tooth disease	81406
SHOC2	SHOC2	Soc-2 suppressor of clear homolog	Noonan-like syndrome with loose anagen hair, Noonan spectrum disorders	81400, 81405, 81442
	Short Tandem Repeat (STR)	N/A	Pre-transplant recipient, donor germline testing, post-transplant recipient	81265, 81266
SHOX	SHOX	Short stature homeobox	Langer mesomelic dysplasia	81405
SIL1	SIL1	SIL1 homolog, endoplasmic reticulum chaperone (S. cerevisiae)	Ataxia	81405
SLC2A1	SLC2A1	Solute carrier family 2 (facilitated glucose transporter), member 1	Glucose transporter type 1 (GLUT 1) deficiency syndrome, epilepsy	81405, 81419
SLC2A10	SLC2A10	Solute carrier family 2 (facilitated glucose transporter), member 10	Aortic dysfunction or dilation	81410
SLC9A6	SLC9A6	Solute carrier family 9 (sodium/hydrogen exchanger), member 6	Christianson syndrome, epilepsy	81406, 81419
SLC12A1	SLC12A1	Solute carrier family 12 (sodium/potassium/chloride transporters), member 1	Bartter syndrome	81407
SLC12A3	SLC12A3	Solute carrier family 12 (sodium/chloride transporters), member 3	Gitelman syndrome	81407
SLC16A2	SLC16A2	Solute carrier family 16, member 2 (thyroid hormone transporter)	Specific thyroid hormone cell transporter deficiency, Allan-Herndon-Dudley syndrome, X-linked intellectual disability (XLID)	81404, 81405, 81470, 81471
SLC22A5	SLC22A5	Solute carrier family 22 (organic cation/carnitine transporter), member 5	Systemic primary carnitine deficiency	81405
SLC25A4	SLC25A4	Solute carrier family 25 (mitochondrial carrier; adenine nucleotide translocator), member 4	Progressive external ophthalmoplegia, mitochondrial disorders	81404, 81440
SLC25A20	SLC25A20	Solute carrier family 25 (carnitine/acylcarnitine translocase), member 20	Carnitine-acylcarnitine translocase deficiency	81404, 81405
SLC26A4	SLC26A4	Solute carrier family 26, member 4	Pendred syndrome, hearing loss	81406, 81430
SLC37A4	SLC37A4	Solute carrier family 37 (glucose-6-phosphate transporter), member 4	Glycogen storage disease type Ib	81406

SLCO1B1	SLCO1B1	Solute carrier organic anion transporter family, member 1B1	Adverse drug reaction	81328
SMAD3	SMAD3	SMAD family member 3	Aortic dysfunction or dilation	81410
SMAD4	SMAD4	SMAD family member 4	Hemorrhagic telangiectasia syndrome, juvenile polyposis, hereditary colon cancer disorders	81405, 81406
SMN1	SMN1	Survival of motor neuron 1, telomeric	Spinal muscular atrophy	81329, 81336, 81337
SMN1SMN2	SMN1/SMN2	Survival of motor neuron 1, telomeric/survival of motor neuron 2, centromeric	Spinal muscular atrophy	81329
	SMPD1	Sphingomyelin phosphodiesterase 1, acid lysosomal	Niemann-Pick disease, type A, Ashkenazi Jewish-associated disorders	81330, 81412
	SNRPN/UBE3A	Small nuclear ribonucleoprotein polypeptide N and ubiquitin protein ligase E3A	Prader-Willi syndrome and/or Angelman syndrome	81331
SOD1	SOD1	Superoxide dismutase 1, soluble	Amyotrophic lateral sclerosis	81404
SOS1	SOS1	Son of sevenless homolog 1	Noonan syndrome, gingival fibromatosis, Noonan spectrum disorders	81406, 81442
SPAST	SPAST	Spastin	Spastic paraplegia, hereditary peripheral neuropathies	81405, 81406, 81448
SPG11	SPG11	Spastic paraplegia 11 (autosomal recessive)	Spastic paraplegia, hereditary peripheral neuropathies	81407, 81448
SPG7	SPG7	Spastic paraplegia 7 (pure and complicated autosomal recessive)	Spastic paraplegia	81405, 81406
SPINK1	SPINK1	Serine peptidase inhibitor, Kazal type 1	Hereditary pancreatitis	81404
SPRED1	SPRED1	Sprouty-related, EVH1 domain containing 1	Legius syndrome	81405
SPTBN2	SPTBN2	Spectrin, beta, non-erythrocytic 2	Spinocerebellar ataxia	81407
SPTLC1	SPTLC1	Serine palmitoyltransferase, long chain base subunit 1	Hereditary peripheral neuropathies	81448
	SRSF2	Serine and arginine-rich splicing factor 2	Myelodysplastic syndrome, acute myeloid leukemia	81348
SRY	SRY	Sex determining region Y	46, XX testicular disorder of sex development, gonadal dysgenesis	81400
SS18SSX1	SS18/SSX1	t(x;18)	Synovial sarcoma	81401
SS18SSX2	SS18/SSX2	t(x;18)	Synovial sarcoma	81401
STAT3	STAT3	Signal transducer and activator of transcription 3 (acute-phase response factor)	Autosomal dominant hyper-IgE syndrome	81405
STK11	STK11	Serine/threonine kinase 11	Peutz-Jeghers syndrome, hereditary breast cancer-related disorders, hereditary colon cancer disorders	81404, 81405
STRC	STRC	Stereocilin	Hearing loss	81431

STXBP1	STXBP1	Syntaxin binding protein 1	Epileptic encephalopathy, epilepsy	81406, 81419
SUCLA2	SUCLA2	Succinate-coa ligase ADP-forming beta subunit	Mitochondrial disorders	81440
SUCLG1	SUCLG1	Succinate-coa ligase alpha subunit	Mitochondrial disorders	81440
SURF1	SURF1	Surfeit 1	Mitochondrial respiratory chain complex IV deficiency	81405
	SYNGAP1	Synaptic Ras gtpase activating protein 1	Epilepsy	81419
TACO1	TACO1	Translational activator of mitochondrial encoded cytochrome c oxidase I	Mitochondrial respiratory chain complex IV deficiency	81404
TARDBP	TARDBP	TAR DNA binding protein	Amyotrophic lateral sclerosis	81405
TAZ	TAZ	Tafazzin	Methylglutaconic aciduria type 2, Barth syndrome, mitochondrial disorders	81406, 81440
TBP	TBP	TATA box binding protein	Spinocerebellar ataxia	81344
TBX5	TBX5	T-box 5	Holt-Oram syndrome	81405
TCF4	TCF4	Transcription factor 4	Pitt-Hopkins syndrome, epilepsy	81405, 81406, 81419
	TERT	Telomerase reverse transcriptase	Thyroid carcinoma, glioblastoma multiforme, inherited bone marrow failure syndromes (IBMFS)	81345, 81441
	TGFBI	Transforming growth factor beta-induced	Corneal dystrophy	81333
TGFBR1	TGFBR1	Transforming growth factor, beta receptor 1	Marfan syndrome, aortic dysfunction or dilation	81405, 81410, 81411
TGFBR2	TGFBR2	Transforming growth factor, beta receptor 2	Marfan syndrome, aortic dysfunction or dilation	81405, 81410, 81411
TH	TH	Tyrosine hydroxylase	Segawa syndrome	81406
THAP1	THAP1	THAP domain containing, apoptosis associated protein 1	Torsion dystonia	81404
THRB	THRB	Thyroid hormone receptor, beta	Thyroid hormone resistance, thyroid hormone beta receptor deficiency	81405
	TINF2	TERF1 interacting nuclear factor 2	Inherited bone marrow failure syndromes (IBMFS)	81441
TK2	TK2	Thymidine kinase 2, mitochondrial	Mitochondrial DNA depletion syndrome, mitochondrial disorders	81405, 81440
TMC1	TMC1	Transmembrane channel-like 1	Hearing loss	81430
TMEM43	TMEM43	Transmembrane protein 43	Arrhythmogenic right ventricular cardiomyopathy	81406
TMEM67	TMEM67	Transmembrane protein 67	Joubert syndrome	81407
TMPRSS3	TMPRSS3	Transmembrane protease, serine 3	Hearing loss	81430

TNNC1	TNNC1	Troponin C type 1 (slow)	Hypertrophic cardiomyopathy or dilated cardiomyopathy	81405
TNNI3	TNNI3	Troponin I, type 3 (cardiac)	Familial hypertrophic cardiomyopathy	81405
TNNT2	TNNT2	Troponin T, type 2 (cardiac)	Familial hypertrophic cardiomyopathy	81406
TOR1A	TOR1A	Torsin family 1, member A (torsin A)	Early-onset primary dystonia (DYT1), torsion dystonia	81400, 81404
TP53	TP53	Tumor protein 53	Li-Fraumeni syndrome, hereditary breast cancer–related disorders	81351, 81352, 81353
TPM1	TPM1	Tropomyosin 1 (alpha)	Familial hypertrophic cardiomyopathy	81405
TPMT	TPMT	Thiopurine S-methyltransferase	Drug metabolism	81335
	TPP1	Tripeptidyl peptidase 1	Epilepsy	81419
	TRB@	T cell antigen receptor, beta	Leukemia and lymphoma	81340, 81341
TRD	TRD@	T cell antigen receptor, delta	Leukemia and lymphoma	81402
	TRG@	T cell antigen receptor, gamma	Leukemia and lymphoma	81342
TRPC6	TRPC6	Transient receptor potential cation channel, subfamily C, member 6	Focal segmental glomerulosclerosis	81406
TSC1	TSC1	Tuberous sclerosis 1	Tuberous sclerosis, epilepsy	81405, 81406, 81419
TSC2	TSC2	Tuberous sclerosis 2	Tuberous sclerosis, epilepsy	81406, 81407, 81419
TTN	TTN	Titin	Hereditary cardiomyopathy	81439
TTPA	TTPA	Tocopherol (alpha) transfer protein	Ataxia	81404
TTR	TTR	Transthyretin	Familial transthyretin amyloidosis	81404
TWIST1	TWIST1	Twist homolog 1 (Drosophila)	Saethre-Chotzen syndrome	81403, 81404
TYMP	TYMP	Thymidine phosphorylase	Mitochondrial DNA depletion syndrome, mitochondrial disorders	81405, 81440
TYMS	TYMS	Thymidylate synthetase	5-fluorouracil/5-FU drug metabolism	81346
TYR	TYR	Tyrosinase (oculocutaneous albinism IA)	Oculocutaneous albinism IA	81404
	U2AF1	U2 small nuclear RNA auxiliary factor 1	Myelodysplastic syndrome, acute myeloid leukemia	81357
UBA1	UBA1	Ubiquitin-like modifier activating enzyme 1	Spinal muscular atrophy, X-linked	81403
UBE3A	UBE3A	Ubiquitin protein ligase E3A	Angelman syndrome	81406
UGT1A1	UGT1A1	UDP glucuronosyltransferase 1 family, polypeptide A1	Drug metabolism, Gilbert syndrome, Crigler-Najjar syndrome	81350, 81404

UPD	UPD	Uniparental disomy	Russell-Silver syndrome, Prader-Willi/Angelman syndrome	81402
USH1C	USH1C	Usher syndrome 1C (autosomal recessive, severe)	Usher syndrome, type 1, hearing loss	81407, 81430
USH1G	USH1G	Usher syndrome 1G (autosomal recessive)	Usher syndrome, type 1, hearing loss	81404, 81430
USH2A	USH2A	Usher syndrome 2A (autosomal recessive, mild)	Usher syndrome, type 2, hearing loss, hereditary retinal disorders	81408, 81430, 81434
VHL	VHL	Von Hippel-Lindau tumor suppressor	Von Hippel-Lindau familial cancer syndrome, hereditary neuroendocrine tumor disorders	81403, 81404
	VKORC1	Vitamin K epoxide reductase complex, subunit 1	Warfarin metabolism	81355
VPS13B	VPS13B	Vacuolar protein sorting 13 homolog B (yeast)	Cohen syndrome	81407, 81408
VWF	VWF	Von Willebrand factor	Von Willebrand disease types 1, 1C, 2A, 2B, 2M, 2N, 3	81401, 81403, 81404, 81405, 81406, 81408
WAS	WAS	Wiskott-Aldrich syndrome (eczema-thrombocytopenia)	Wiskott-Aldrich syndrome	81406
WDR62	WDR62	WD repeat domain 62	Primary autosomal recessive microcephaly	81407
WFS1	WFS1	Wolfram syndrome 1	Hearing loss	81430
WT1	WT1	Wilms tumor 1	Denys-Drash syndrome, familial Wilms tumor	81405
ZEB2	ZEB2	Zinc finger E-box binding homeobox 2	Mowat-Wilson syndrome, epilepsy	81404, 81405, 81419
ZNF41	ZNF41	Zinc finger protein 41	X-linked intellectual disability 89	81404
	ZRSR2	Zinc finger CCCH-type, RNA binding motif and serine/arginine rich 2	Myelodysplastic syndrome, acute myeloid leukemia	81360

Pathology and Laboratory Guidelines

Guidelines to direct general reporting of services are presented in the **Introduction.** Some of the commonalities are repeated here for the convenience of those referring to this section on **Pathology and Laboratory.** Other definitions and items unique to Pathology and Laboratory are also listed.

Services in Pathology and Laboratory

Services in Pathology and Laboratory are provided by a physician or by technologists under responsible supervision of a physician.

Separate or Multiple Procedures

It is appropriate to designate multiple procedures that are rendered on the same date by separate entries.

Unlisted Service or Procedure

A service or procedure may be provided that is not listed in this edition of the CPT codebook. When reporting such a service, the appropriate "Unlisted Procedure" code may be used to indicate the service, identifying it by "Special Report" as discussed below. The "Unlisted Procedures" and accompanying codes for **Pathology and Laboratory** are as follows:

81099 Unlisted urinalysis procedure
81479 Unlisted molecular pathology procedure
81599 Unlisted multianalyte assay with algorithmic analysis
84999 Unlisted chemistry procedure
85999 Unlisted hematology and coagulation procedure
86486 unlisted antigen, each
86849 Unlisted immunology procedure
86999 Unlisted transfusion medicine procedure
87999 Unlisted microbiology procedure
88099 Unlisted necropsy (autopsy) procedure
88199 Unlisted cytopathology procedure
88299 Unlisted cytogenetic study
88399 Unlisted surgical pathology procedure
88749 Unlisted in vivo (eg, transcutaneous) laboratory service
89240 Unlisted miscellaneous pathology test
89398 Unlisted reproductive medicine laboratory procedure

Special Report

A service that is rarely provided, unusual, variable, or new may require a special report. Pertinent information should include an adequate definition or description of the nature, extent, and need for the procedure; and the time, effort, and equipment necessary to provide the service.

Pathology and Laboratory

Organ or Disease-Oriented Panels

These panels were developed for coding purposes only and should not be interpreted as clinical parameters. The tests listed with each panel identify the defined components of that panel.

These panel components are not intended to limit the performance of other tests. If one performs tests in addition to those specifically indicated for a particular panel, those tests should be reported separately in addition to the panel code.

Do not report two or more panel codes that include any of the same constituent tests performed from the same patient collection. If a group of tests overlaps two or more panels, report the panel that incorporates the greater number of tests to fulfill the code definition and report the remaining tests using individual test codes (eg, do not report 80047 in conjunction with 80053).

80047 Basic metabolic panel (Calcium, ionized)

This panel must include the following:

Calcium, ionized (82330)

Carbon dioxide (bicarbonate) (82374)

Chloride (82435)

Creatinine (82565)

Glucose (82947)

Potassium (84132)

Sodium (84295)

Urea Nitrogen (BUN) (84520)

CPT Changes: An Insider's View 2008

CPT Assistant Apr 08:5, Apr 13:10, Dec 20:3, Jan 21:12, May 21:8, Jul 22:20

80048 Basic metabolic panel (Calcium, total)

This panel must include the following:

Calcium, total (82310)

Carbon dioxide (bicarbonate) (82374)

Chloride (82435)

Creatinine (82565)

Glucose (82947)

Potassium (84132)

Sodium (84295)

Urea nitrogen (BUN) (84520)

CPT Changes: An Insider's View 2000, 2008, 2009

CPT Assistant Jan 98:6, Sep 99:11, Nov 99:44, Jan 00:7, Aug 05:9

80050 General health panel

This panel must include the following:

Comprehensive metabolic panel (80053)

Blood count, complete (CBC), automated and automated differential WBC count (85025 or 85027 and 85004)

OR

Blood count, complete (CBC), automated (85027) and appropriate manual differential WBC count (85007 or 85009)

Thyroid stimulating hormone (TSH) (84443)

CPT Changes: An Insider's View 2001, 2004

CPT Assistant Winter 92:14, Summer 93:14, Jun 97:10, Nov 97:28, Jan 98:6, Sep 99:11

80051 Electrolyte panel

This panel must include the following:

Carbon dioxide (bicarbonate) (82374)

Chloride (82435)

Potassium (84132)

Sodium (84295)

CPT Assistant Nov 97:28, Jan 98:7, Sep 99:11

80053 Comprehensive metabolic panel

This panel must include the following:

Albumin (82040)

Bilirubin, total (82247)

Calcium, total (82310)

Carbon dioxide (bicarbonate) (82374)

Chloride (82435)

Creatinine (82565)

Glucose (82947)

Phosphatase, alkaline (84075)

Potassium (84132)

Protein, total (84155)

Sodium (84295)

Transferase, alanine amino (ALT) (SGPT) (84460)

Transferase, aspartate amino (AST) (SGOT) (84450)

Urea nitrogen (BUN) (84520)

CPT Changes: An Insider's View 2000, 2009

CPT Assistant Jan 98:6, Nov 98:23, Sep 99:11, Nov 99:44, May 00:11, Jan 05:46, Apr 08:5, Apr 10:11, Apr 13:10, May 21:9, Jul 22:20

80055 Obstetric panel

This panel must include the following:

Blood count, complete (CBC), automated and automated differential WBC count (85025 or 85027 and 85004)

OR

Blood count, complete (CBC), automated (85027) and appropriate manual differential WBC count (85007 or 85009)

Hepatitis B surface antigen (HBsAg) (87340)

Antibody, rubella (86762)

Syphilis test, non-treponemal antibody; qualitative (eg, VDRL, RPR, ART) (86592)

Antibody screen, RBC, each serum technique (86850)

Blood typing, ABO (86900) AND

Blood typing, Rh (D) (86901)

CPT Changes: An Insider's View 2004

CPT Assistant Winter 92:14, Summer 93:14, Jun 97:10, Apr 99:6, Sep 99:11

(When syphilis screening is performed using a treponemal antibody approach [86780], do not use 80055. Use the individual codes for the tests performed in the obstetric panel)

 # 80081 Obstetric panel (includes HIV testing)

This panel must include the following:

Blood count, complete (CBC), and automated differential WBC count (85025 or 85027 and 85004)

OR

Blood count, complete (CBC), automated (85027) and appropriate manual differential WBC count (85007 or 85009)

Hepatitis B surface antigen (HBsAg) (87340)

HIV-1 antigen(s), with HIV-1 and HIV-2 antibodies, single result (87389)

Antibody, rubella (86762)

Syphilis test, non-treponemal antibody; qualitative (eg, VDRL, RPR, ART) (86592)

Antibody screen, RBC, each serum technique (86850)

Blood typing, ABO (86900) AND

Blood typing, Rh (D) (86901)

CPT Changes: An Insider's View 2016

(When syphilis screening is performed using a treponemal antibody approach [86780], do not use 80081. Use the individual codes for the tests performed in the Obstetric panel)

80061 Lipid panel

This panel must include the following:

Cholesterol, serum, total (82465)

Lipoprotein, direct measurement, high density cholesterol (HDL cholesterol) (83718)

Triglycerides (84478)

CPT Assistant Winter 92:14, Summer 93:14, Jun 97:10, Sep 99:11, Mar 00:11, Feb 05:9, Sep 17:12

80069 Renal function panel

This panel must include the following:

Albumin (82040)

Calcium, total (82310)

Carbon dioxide (bicarbonate) (82374)

Chloride (82435)

Creatinine (82565)

Glucose (82947)

Phosphorus inorganic (phosphate) (84100)

Potassium (84132)

Sodium (84295)

Urea nitrogen (BUN) (84520)

CPT Changes: An Insider's View 2000, 2009

CPT Assistant Sep 99:11, Nov 99:44

80074 Acute hepatitis panel

This panel must include the following:

Hepatitis A antibody (HAAb), IgM antibody (86709)

Hepatitis B core antibody (HBcAb), IgM antibody (86705)

Hepatitis B surface antigen (HBsAg) (87340)

Hepatitis C antibody (86803)

CPT Changes: An Insider's View 2000

CPT Assistant Sep 99:11, Nov 99:45

80076 Hepatic function panel

This panel must include the following:

Albumin (82040)

Bilirubin, total (82247)

Bilirubin, direct (82248)

Phosphatase, alkaline (84075)

Protein, total (84155)

Transferase, alanine amino (ALT) (SGPT) (84460)

Transferase, aspartate amino (AST) (SGOT) (84450)

CPT Changes: An Insider's View 2000

CPT Assistant Winter 92:14, Summer 93:14, Jun 97:10, Jan 98:6, Apr 99:6, Sep 99:11, Nov 99:45, Jan 00:7, Aug 05:9

80081 Code is out of numerical sequence. See 80053-80069

Drug Assay

Drug procedures are divided into three subsections:

Therapeutic Drug Assay, **Drug Assay**, and **Chemistry**—with code selection dependent on the purpose and type of patient results obtained. Therapeutic Drug Assays are performed to monitor clinical response to a known, prescribed medication. The two major categories for drug testing in the Drug Assay subsection are:

1. **Presumptive Drug Class** procedures are used to identify possible use or non-use of a drug or drug class. A presumptive test may be followed by a definitive test in order to specifically identify drugs or metabolites.
2. **Definitive Drug Class** procedures are qualitative or quantitative test to identify possible use or non-use of a drug. These test identify specific drugs and associated metabolites, if performed. A presumptive test is not required prior to a definitive drug test.

The material for drug class procedures may be any specimen type unless otherwise specified in the code descriptor (eg, urine, blood, oral fluid, meconium, hair). Procedures can be qualitative (eg, positive/negative or present/absent), semi-quantitative, or quantitative (measured) depending on the purpose of the testing. Therapeutic drug assay (TDA) procedures are typically quantitative tests and the specimen type is whole blood, serum, plasma, or cerebrospinal fluid.

When the same procedure(s) is performed on more than one specimen type (eg, blood and urine), the appropriate code is reported separately for each specimen type using modifier 59.

Drugs or classes of drugs may be commonly assayed first by a presumptive screening method followed by a definitive drug identification method. Presumptive methods include, but are not limited to, immunoassays (IA, EIA, ELISA, RIA, EMIT, FPIA, etc), enzymatic methods (alcohol dehydrogenase, etc), chromatographic methods without mass spectrometry (TLC, HPLC, GC, etc), or mass spectrometry without adequate drug resolution by chromatography (MS-TOF, DART, DESI, LDTD, MALDI). LC-MS, LCMS/MS, or mass spectrometry without adequate drug resolution by chromatography may also be used for presumptive testing if the chromatographic phase is not adequate to identify individual drugs and distinguish between structural isomers or isobaric compounds. All drug class immunoassays are considered presumptive, whether qualitative, semi-quantitative, or quantitative. Methods that cannot distinguish between structural isomers (such as morphine and hydromorphone or methamphetamine and phentermine) are also considered presumptive.

DEFINITIONS AND ACRONYM CONVERSION LISTING

Drug Testing Term/Acronym	Definition
6-MAM	Acronym for the heroin drug metabolite 6-monacetylmorphine
Acid	Descriptor for classifying drug/drug metabolite molecules based upon chemical ionization properties. Laboratory procedures for drug isolation and identification may include acid, base, or neutral groupings.
AM	A category of synthetic marijuana drugs discovered by and named after Alexandros Makriyannis at Northeastern University
Analog	A structural derivative of a parent chemical compound that often differs from it by a single element
Analyte	The substance or chemical constituent that is of interest in an analytical procedure
Base	Descriptor for classifying drug/drug metabolite molecules based upon chemical ionization properties. Laboratory procedures for drug isolation and identification may include acid, base, or neutral groupings.
Card(s)	Multiplexed presumptive drug class(es) immunoassay product that is read by visual observation, including instrumented when performed
Cassette(s)	Multiplexed presumptive drug class immunoassay product(s) that is read by visual observation, including instrumented when performed
CEDIA	Acronym for Cloned-Enzyme-Donor-Immuno-Assay. CEDIA immunoassay is a competitive antibody binding procedure that utilizes enzyme donor fragment-labeled antigens (drugs) to compete for antigens (drugs) contained in the patient sample. Recombination of enzyme donor fragment and enzyme acceptor fragment produces a functional enzyme. CEDIA immunoassay enzyme activity is proportional to concentration of drug(s) detected.
Chromatography	An analytical technique used to separate components of a mixture. See thin layer chromatography, gas chromatography, and high performance chromatography.
Confirmatory	Term used to describe definitive identification/quantitation procedures that are secondary to presumptive screening methods
DART	Acronym for Direct-Analysis-in-Real-Time. DART is an atmospheric pressure ionization method for mass spectrometry analysis
Definitive Drug Procedure	A procedure that provides specific identification of individual drugs and drug metabolites
DESI	Acronym for Desorption-ElectroSpray-Ionization. DESI is a combination of electrospray ionization and desorption ionization methods for mass spectrometry analysis.
Dipstick	A multiplexed presumptive drug class immunoassay product that is read by visual observation, including instrumented when performed
Drug test cup	A multiplexed presumptive drug class immunoassay product that is read by visual observation, including instrumented when performed
EDDP	Acronym for the methadone drug metabolite 2-ethylidene-1,5-dimethyl-3,3-diphenylpyrrolidine
EIA	Acronym for Enzyme Immuno-Assay. Enzyme immunoassay is a competitive antibody binding procedure that utilizes enzyme-labeled antigens (drugs) to compete for antigens (drugs) contained in the patient sample. Enzyme immunoassay enzyme activity is proportional to concentration of drug(s) detected
ELISA	Acronym for Enzyme-Linked Immunosorbent Assay. ELISA is a competitive binding immunoassay that is designed to measure antigens (drugs) or antibodies. ELISA immunoassay results are proportional to concentration of drug(s) detected.
EMIT	Acronym for Enzyme-Multiplied-Immunoassay-Test. EMIT is a trade name for a type of enzyme immunoassay (EIA).

FPIA	Acronym for Fluorescence Polarization Immuno-Assay. FPIA is a competitive binding immunoassay that utilizes fluorescein-labeled antigens (drugs) to compete for antigens (drugs) contained in the patient sample. The measure of polarized light emission is inversely proportional to the concentration of drug(s) detected.
Gas chromatography	Gas chromatography is a chromatography technique in which patient sample preparations are vaporized into a gas (mobile phase) which flows through a tubular column (containing a stationary phase) and into a detector. The retention time of a drug on the column is determined by partitioning characteristics of the drug into the mobile and stationary phases. Chromatography column detectors may be non-specific (eg, flame ionization) or specific (eg, mass spectrometry). The combination of column retention time and specific detector response provides a definitive identification of the drug or drug metabolite.
GC	Acronym for gas chromatography
GC-MS	Acronym for gas chromatography mass spectrometry
GC-MS/MS	Acronym for gas chromatography mass spectrometry/mass spectrometry
High performance liquid chromatography	High performance liquid chromatography is a chromatography technique in which patient sample preparations are injected into a liquid (mobile phase) which flows through a tubular column (containing a stationary phase) and into a detector. The retention time of a drug on the column is determined by partitioning characteristics of the drug into the mobile and stationary phases. Chromatography column detectors may be non-specific (eg, ultra-violet spectrophotometry) or specific (eg, mass spectrometry). The combination of column retention time and specific detector response provides a definitive identification of the drug or drug metabolite. High performance liquid chromatography is also called high pressure liquid chromatography.
HPLC	Acronym for high performance liquid chromatography
HU	A category of synthetic marijuana drugs discovered by and named after Raphael Mechoulam at Hebrew University
IA	Acronym for immunoassay
Immunoassay	Antigen-antibody binding procedures utilized to detect antigens (eg, drugs and/or drug metabolites) in patient samples. Immunoassay designs include competitive or non-competitive with various mechanisms for detection.
Isobaric	In mass spectrometry, ions with the same mass
Isomers	Compounds that have the same molecular formula but differ in structural formula
JWH	A category of synthetic marijuana drugs discovered by and named after John W. Huffman at Clemson University.
KIMS	Acronym for kinetic interaction of microparticles in solution. KIMS immunoassay is a competitive antibody binding procedure that utilizes microparticle-labeled antigens (drugs) to compete for antigens (drugs) contained in the patient sample. Microparticle immunoassay absorbance increase is inversely proportional to concentration of drug(s) detected.
LC-MS	Acronym for liquid chromatography mass spectrometry
LC-MS/MS	Acronym for liquid chromatography mass spectrometry/mass spectrometry
LDTD	Acronym for laser diode thermal desorption. LDTD is a combination of atmospheric pressure chemical ionization and laser diode thermal desorption methods for mass spectrometry analysis.
MALDI	Acronym for matrix assisted laser desorption/ionization mass spectrometry. MALDI is a soft ionization technique that reduces molecular fragmentation.
MDA	Acronym for the drug 3,4-methylenedioxyamphetamine. MDA is also a drug metabolite of MDMA.
MDEA	Acronym for the drug 3,4-methylenedioxy-N-ethylamphetamine
MDMA	Acronym for the drug 3,4-methylenedioxy-N-methylamphetamine
MDPV	Acronym for the drug methylenedioxypyrovalerone

MS	Acronym for mass spectrometry. MS is an identification technique that measures the charge-to-mass ratio of charged particles. There are several types of mass spectrometry instruments, such as magnetic sectoring, time of flight, quadrupole mass filter, ion traps, and Fourier transformation. Mass spectrometry is used as part of the process to assign definitive identification of drugs and drug metabolites.
MS/MS	Acronym for mass spectrometry/mass spectrometry. MS/MS instruments combine multiple units of mass spectrometry filters into a single instrument. MS/MS is also called tandem mass spectrometry.
MS-TOF	Acronym for mass spectrometry time of flight. Time of flight is a mass spectrometry identification technique that utilizes ion velocity to determine the mass-to-charge ratio.
Multiplexed	Descriptor for a multiple component test device that simultaneously measures multiple analytes (drug classes) in a single analysis.
Neutral	Descriptor for classifying drug/drug metabolite molecules based upon chemical ionization properties. Laboratory procedures for drug isolation and identification may include acid, base, or neutral groupings.
ng/mL	Unit of measure for weight per volume calculated as nanograms per milliliter. The ng/mL unit of measure is equivalent to the µ/L unit of measure.
Optical observation	Optical observation refers to procedure results that are interpreted visually with or without instrumentation assistance.
Opiate	Medicinal category of narcotic alkaloid drugs that are natural products in the opium poppy plant Papaver somniferum. This immunoassay class of drugs typically includes detection of codeine, dihydrocodeine, hydrocodone, hydromorphone, and morphine.
Opioids	A category of medicinal synthetic or semi-synthetic narcotic alkaloid opioid receptor stimulating drugs including butorphanol, desomorphine, dextromethorphan, dextrorphan, levorphanol, meperidine, naloxone, naltrexone, normeperidine, and pentazocine.
Presumptive	Drug test results that indicate possible, but not definitive, presence of drugs and/or drug metabolites
QTOF	Acronym for quadrupole-time of flight mass spectrometry. QTOF is a hybrid mass spectrometry identification technique that combines ion velocity with tandem quadrupole mass spectrometry (MS or MS/MS) to determine the mass-to-charge ratio.
RCS	A category of synthetic marijuana drugs that are analogs of JHW compounds. See JWH.
RIA	Acronym for radio-immuno-assay. Radioimmunoassay is a competitive antibody binding procedure that utilizes radioactive-labeled antigens (drugs) to compete for antigens (drugs) contained in the patient sample. The measure of radioactivity is inversely proportional to concentration of drug(s) detected.
Stereoisomers	Isomeric molecules that have the same molecular formula and sequence of bonded atoms (constitution), but that differ only in the three-dimensional orientations of their atoms in space
Substance	A substance is a drug that does not have an established therapeutic use as distinguished from other analytes listed in the Chemistry section (82009-84999).
TDM	Acronym for therapeutic drug monitoring
THC	Acronym for marijuana active drug ingredient tetrahydrocannabinol
Therapeutic Drug Monitoring	Analysis of blood (serum, plasma) drug concentration to monitor clinical response to therapy
Time of flight	Time of flight is a mass spectrometry technique that utilizes ion velocity to determine the mass-to-charge ratio
TLC	Acronym for thin layer chromatography
TOF	Acronym for time of flight
µ/L	Unit of measure for mass per volume calculated as micrograms per liter. The µ/L unit of measure is equivalent to the ng/mL unit of measure.

Definitive drug identification methods are able to identify individual drugs and distinguish between structural isomers but not necessarily stereoisomers. Definitive methods include, but are not limited to, gas chromatography with mass spectrometry (any type, single or tandem) and liquid chromatography mass spectrometry (any type, single or tandem) and excludes immunoassays (eg, IA, EIA, ELISA, RIA, EMIT, FPIA), and enzymatic methods (eg, alcohol dehydrogenase).

For chromatography, each combination of stationary and mobile phase is to be counted as one procedure.

Presumptive Drug Class Screening

Drugs or classes of drugs may be commonly assayed first by a presumptive screening method followed by a definitive drug identification method. The methodology is considered when coding presumptive procedures. Each code (80305, 80306, 80307) represents all drugs and drug classes performed by the respective methodology per date of service. Each code also includes all sample validation procedures performed. Examples of sample validation procedures may include, but are not limited to, pH, specific gravity, and nitrite. The codes (80305, 80306, 80307) represent three different method categories:

1. Code 80305 is used to report procedures in which the results are read by direct optical observation. The results are visually read. Examples of these procedures are dipsticks, cups, cards, and cartridges. Report 80305 once, irrespective of the number of direct observation drug class procedures performed or results on any date of service.
2. Code 80306 is used to report procedures when an instrument is used to assist in determining the result of a direct optical observation methodology. Examples of these procedures are dipsticks, cards, and cartridges inserted into an instrument that determines the final result of an optical observation methodology. Report 80306 once, irrespective of the number of drug class procedures or results on any date of service.
3. Code 80307 is used to report any number of devices or procedures by instrumented chemistry analyzers. There are many different instrumented methodologies available to perform presumptive drug assays. Examples include immunoassay (eg, EIA, ELISA, EMIT, FPIA, IA, KIMS, RIA), chromatography (eg, GC, HPLC), and mass spectrometry, either with or without chromatography (eg, DART, DESI, GC-MS, GC-MS/MS, LC-MS, LC-MS/MS, LDTD, MALDI, TOF). Some of these methodologies may be used for definitive drug testing also, but, for the purpose of presumptive drug testing, the presumptive method is insufficient to provide definitive drug identification. Report 80307 once, irrespective of the number of drug class procedures or results on any date of service.

 # 80305 Drug test(s), presumptive, any number of drug classes, any number of devices or procedures; capable of being read by direct optical observation only (eg, utilizing immunoassay [eg, dipsticks, cups, cards, or cartridges]), includes sample validation when performed, per date of service

- *CPT Changes: An Insider's View* 2017, 2018
- *CPT Assistant* Mar 17:6, Jul 18:15

 # 80306 read by instrument assisted direct optical observation (eg, utilizing immunoassay [eg, dipsticks, cups, cards, or cartridges]), includes sample validation when performed, per date of service

- *CPT Changes: An Insider's View* 2017, 2018
- *CPT Assistant* Mar 17:6

 # 80307 by instrument chemistry analyzers (eg, utilizing immunoassay [eg, EIA, ELISA, EMIT, FPIA, IA, KIMS, RIA]), chromatography (eg, GC, HPLC), and mass spectrometry either with or without chromatography, (eg, DART, DESI, GC-MS, GC-MS/MS, LC-MS, LC-MS/MS, LDTD, MALDI, TOF) includes sample validation when performed, per date of service

- *CPT Changes: An Insider's View* 2017, 2018
- *CPT Assistant* Mar 17:6

Definitive Drug Testing

Definitive drug identification methods are able to identify individual drugs and distinguish between structural isomers but not necessarily stereoisomers. Definitive methods include, but are not limited to, gas chromatography with mass spectrometry (any type, single or tandem) and liquid chromatography mass spectrometry (any type, single or tandem) and exclude immunoassays (eg, IA, EIA, ELISA, RIA, EMIT, FPIA) and enzymatic methods (eg, alcohol dehydrogenase).

Use 80320-80377 to report definitive drug class procedures. Definitive testing may be qualitative, quantitative, or a combination of qualitative and quantitative for the same patient on the same date of service.

The **Definitive Drug Classes Listing** provides the drug classes, their associated CPT codes, and the drugs included in each class. Each category of a drug class, including metabolite(s) if performed (except stereoisomers), is reported once per date of service. Metabolites not listed in the table may be reported using the code for the parent drug. Drug class metabolite(s) is not reported separately unless the metabolite(s) is listed as a separate category in **Definitive Drug Classes Listing** (eg, heroin metabolite).

Drug classes may contain one or more codes based on the number of analytes. For example, an analysis in which five or more amphetamines and/or amphetamine metabolites would be reported with 80326. The code is based on the number of reported analytes and not the capacity of the analysis.

Definitive drug procedures that are not specified in 80320-80373 should be reported using the unlisted definitive procedure codes 80375, 80376, 80377, unless the specific analyte is listed in the **Therapeutic Drug Assays** (80143-80203) or **Chemistry** (82009-84830) sections.

See the **Definitive Drug Classes Listing** table for a listing of the more common analytes within each drug class.

(To report definitive drug testing for antihistamines, see 80375, 80376, 80377)

For Example:

To report amphetamine and methamphetamine using any number of definitive procedures, report 80324 once per facility per date of service.

To report codeine, hydrocodone, hydromorphone, morphine using any number of definitive procedures, report 80361 once per facility per date of service.

To report codeine, hydrocodone, hydromorphone, morphine, oxycodone, oxymorphone, naloxone, naltrexone performed using any number of definitive procedures report 80361 X 1, 80362 X 1, and 80365 X 1 per facility per date of service.

To report benzoylecgonine, cocaine, carboxy-THC, meperidine, normeperidine using any number of definitive procedures, report 80349 X 1, 80353 X 1, and 80362 X 1 per facility per date of service.

Definitive Drug Classes Listing

Drugs and metabolites included in each definitive drug class are listed in the Definitive Drug Classes Listing table. This is not a comprehensive list. FDA classification of drugs not listed should be used where possible within the defined drug classes. Any metabolites that are not listed should be categorized with the parent drug. Drugs and metabolites not listed may be reported using codes from the Therapeutic Drug Assay (80143-80299) or Chemistry (82009-84999) sections.

Therapeutic Drug Assays

Therapeutic drug assays are performed to monitor levels of a known, prescribed, or over-the-counter medication.

The material for examination is whole blood, serum, plasma, or cerebrospinal fluid. Examination is quantitative. Coding is by parent drug; measured metabolites of the drug are included in the code, if performed.

DEFINITIVE DRUG CLASSES LISTING

Codes	Classes	Drugs
80320	Alcohol(s)	Acetone, ethanol, ethchlorvynol, ethylene glycol, isopropanol, isopropyl alcohol, methanol
80321-80322	Alcohol Biomarkers	Ethanol conjugates (ethyl glucuronide [ETG], ethyl sulfate [ETS], fatty acid ethyl esters, phosphatidylethanol)
80323	Alkaloids, not otherwise specified	7-Hydroxymitragynine, atropine, cotinine, lysergic acid diethylamide (LSD), mescaline, mitragynine, nicotine, psilocin, psilocybin, scopolamine
80324-80326	Amphetamines	Amphetamine, ephedrine, lisdexamphetamine, methamphetamine, phentermine, phenylpropanolamine, pseudoephedrine
80327-80328	Anabolic steroids	1-Androstenediol, 1-androstenedione, 1-testosterone, 4-hydroxy-testosterone, 6-oxo, 19-norandrostenedione, androstenedione, androstanolone, bolandiol, bolasterone, boldenone, boldione, calusterone, clostebol, danazol, dehydrochlormethyltestosterone, dihydrotestosterone, drostanolone, epiandrosterone, epitestosterone, fluoxymesterone, furazabol, mestanolone, mesterolone, methandienone, methandriol, methenolone, methydienolone, methyl-1-testosterone, methylnortestosterone, methyltestosterone, mibolerone, nandrolone, norbolethone, norclostebol, norethandrolone, norethindrone, oxabolone, oxandrolone, oxymesterone, oxymetholone, stanozolol, stenbolone, tibolone, trenbolone, zeranol
80329-80331	Analgesics, non-opioid	Acetaminophen, diclofenac ibuprofen, ketoprofen, naproxen, oxaprozin, salicylate
80332-80334	Antidepressants, serotonergic class	Citalopram, duloxetine, escitalopram, fluoxetine, fluvoxamine, paroxetine, sertraline
80335-80337	Antidepressants, tricyclic and other cyclicals	Amitriptyline, amoxapine, clomipramine, demexiptiline, desipramine, doxepin, imipramine, maprotiline, mirtazpine, nortriptyline, protriptyline

80338	Antidepressants, not otherwise specified	Bupropion, desyenlafaxine, isocarboxazid, nefazodone, phenelzine, selegiline, tranylcypromine, trazodone, venlafaxine
80339-80341	Antiepileptics not otherwise specified	Carbamazepine, clobazam, diamethadione, ethosuximide, ezogabine, lamotrigine, levetiracetam, methsuximide, oxcarbazepine, phenytoin, primidone, rufinamide, tiagabine, topiramate, trimethadione, valproic acid, zonisamide
80342-80344	Antipsychotics not otherwise specified	Aripiprazole, chlorpromazine, clozapine, fluphenazine, haloperidol, loxapine, mesoridazine, molindone, olanzapine, paliperidone, perphenazine, phenothiazine, pimozide, prochlorperazine, quetiapine, risperidone, trifluoperazine, thiothixene, thoridazine, ziprasidone
80345	Barbiturates	Amobarbital, aprobarbital, butalbital, cyclobarbital, mephobarbital, pentobarbital, phenobarbital, secobarbital, talbutal, thiopental
80346, 80347	Benzodiazepines	Alprazolam, chlordiazepoxide, clonazepam, clorazepate, diazepam, estazolam, flunitrazepam, flurazepam, halazepam, lorazepam, midazolam, nitrazepam, nordazepam, oxazepam, prazepam, quazepam, temazepam
80348	Buprenorphine	Buprenorphine
80349	Cannabinoids, natural	Marijuana, dronabinol carboxy-THC
80350-80352	Cannabinoids, synthetic	CP-47,497, CP497 C8-homolog, JWH-018 and AM678, JWH-073, JWH-019, JWH-200, JWH-210, JWH-250, JWH-081, JWH-122, HWH-398, AM-2201, AM-694, SR-19 and RCS-4, SR-18 and RCS-8, JWH-203, UR-144, XLR-11, MAM-2201, AKB-48
80353	Cocaine	Benzoylecgonine, cocaethylene, cocaine, ecgonine methyl ester, norcocaine
80354	Fentanyls	Acetylfentanyl, alfentanil, fentanyl, remifentanil, sufentanil
80355	Gabapentin, non-blood	Gabapentin
80356	Heroin metabolite	6-acetylmorphine, acetylcodeine, diacetylmorphine
80368	Hypnotics, sedative (non-benzodiazepines)	See Sedative Hypnotics
80357	Ketamine and Norketamine	Ketamine, norketamine
80358	Methadone	Methadone and EDDP
80359	Methylenedioxyamphetamines	MDA, MDEA, MDMA
80360	Methylphenidate	Methylphenidate, ritalinic acid
80357	Norketamine	See Ketamine
80368	Non-Benzodiazepines	See Hypnotics, sedative
80361	Opiates	Codeine, dihydrocodeine, hydrocodone, hydromorphone, morphine
80362-80364	Opioids and opiate analogs	Butorphanol, desomorphine, dextromethorphan, dextrorphan, levorphanol, meperidine, naloxone, naltrexone, normeperidine, pentazocine
80365	Oxycodone	Oxycodone, oxymorphone
83992	Phencyclidine	Phencyclidine
80366	Pregabalin	Pregabalin
80367	Propoxyphene	Norpropoxyphene, propoxyphene
80368	Sedative hypnotics (non-benzodiazepines)	Eszopiclone, zaleplon, zolpidem
80369, 80370	Skeletal muscle relaxants	Baclofen, carisoprodol, cyclobenzaprine, meprobamate, metaxalone, methocarbamol, orphenadrine, tizanidide
80371	Stimulants, synthetic	2C-B, 2C-E, 2C-I, 2C-H, 3TFMPP, 4-methylethcathinone, alpha-PVP, benzylpiperazine, bromodragonfly, cathinone, m-CPP, MDPBP, MDPPP, MDPV, mephedrone, methcathinone, methylone, phenethylamines, salvinorin, tryptamines
80372	Tapentadol	Tapentadol
80373	Tramadol	Tramadol

Evocative/Suppression Testing

The following test panels involve the administration of evocative or suppressive agents and the baseline and subsequent measurement of their effects on chemical constituents. These codes are to be used for the reporting of the laboratory component of the overall testing protocol. For the administration of the evocative or suppressive agents, see Hydration, Therapeutic, Prophylactic, Diagnostic Injections and Infusions, and Chemotherapy and Other Highly Complex Drug or Highly Complex Biologic Agent Administration (eg, 96365, 96366, 96367, 96368, 96372, 96374, 96375, 96376). In the code descriptors where reference is made to a particular analyte (eg, Cortisol: 82533 x 2) the "x 2" refers to the number of times the test for that particular analyte is performed.

80400 ACTH stimulation panel; for adrenal insufficiency

This panel must include the following:

Cortisol (82533 x 2)

➔ *CPT Assistant* Summer 94:1, Fall 94:10, Aug 05:9

80402 for 21 hydroxylase deficiency

This panel must include the following:

Cortisol (82533 x 2)

17 hydroxyprogesterone (83498 x 2)

➔ *CPT Assistant* Summer 94:1, Fall 94:10

80406 for 3 beta-hydroxydehydrogenase deficiency

This panel must include the following:

Cortisol (82533 x 2)

17 hydroxypregnenolone (84143 x 2)

➔ *CPT Assistant* Summer 94:1, Fall 94:10

80408 Aldosterone suppression evaluation panel (eg, saline infusion)

This panel must include the following:

Aldosterone (82088 x 2)

Renin (84244 x 2)

➔ *CPT Assistant* Summer 94:1, Fall 94:10

80410 Calcitonin stimulation panel (eg, calcium, pentagastrin)

This panel must include the following:

Calcitonin (82308 x 3)

➔ *CPT Assistant* Summer 94:1, Fall 94:11

80412 Corticotropic releasing hormone (CRH) stimulation panel

This panel must include the following:

Cortisol (82533 x 6)

Adrenocorticotropic hormone (ACTH) (82024 x 6)

CPT Assistant Summer 94:1, Fall 94:11

80414 Chorionic gonadotropin stimulation panel; testosterone response

This panel must include the following:

Testosterone (84403 x 2 on 3 pooled blood samples)

CPT Changes: An Insider's View 2009

CPT Assistant Summer 94:1, Fall 94:11

80415 estradiol response

This panel must include the following:

Estradiol, total (82670 x 2 on 3 pooled blood samples)

CPT Changes: An Insider's View 2009, 2021

CPT Assistant Summer 94:1, Fall 94:11

80416 Renal vein renin stimulation panel (eg, captopril)

This panel must include the following:

Renin (84244 x 6)

CPT Assistant Summer 94:1

80417 Peripheral vein renin stimulation panel (eg, captopril)

This panel must include the following:

Renin (84244 x 2)

80418 Combined rapid anterior pituitary evaluation panel

This panel must include the following:

Adrenocorticotropic hormone (ACTH) (82024 x 4)

Luteinizing hormone (LH) (83002 x 4)

Follicle stimulating hormone (FSH) (83001 x 4)

Prolactin (84146 x 4)

Human growth hormone (HGH) (83003 x 4)

Cortisol (82533 x 4)

Thyroid stimulating hormone (TSH) (84443 x 4)

CPT Assistant Summer 94:1, Fall 94:13

80420 Dexamethasone suppression panel, 48 hour

This panel must include the following:

Free cortisol, urine (82530 x 2)

Cortisol (82533 x 2)

Volume measurement for timed collection (81050 x 2)

CPT Assistant Fall 94:13

(For single dose dexamethasone, use 82533)

80422 Glucagon tolerance panel; for insulinoma

This panel must include the following:

Glucose (82947 x 3)

Insulin (83525 x 3)

CPT Assistant Summer 94:1, Fall 94:13

80424 for pheochromocytoma

This panel must include the following:

Catecholamines, fractionated (82384 x 2)

CPT Assistant Summer 94:1, Fall 94:14

80426 Gonadotropin releasing hormone stimulation panel

This panel must include the following:

Follicle stimulating hormone (FSH) (83001 x 4)

Luteinizing hormone (LH) (83002 x 4)

CPT Assistant Summer 94:1, Fall 94:14

80428 Growth hormone stimulation panel (eg, arginine infusion, l-dopa administration)

This panel must include the following:

Human growth hormone (HGH) (83003 x 4)

CPT Assistant Summer 94:1, Fall 94:14

80430 Growth hormone suppression panel (glucose administration)

This panel must include the following:

Glucose (82947 x 3)

Human growth hormone (HGH) (83003 x 4)

CPT Assistant Summer 94:1, Fall 94:14

80432 Insulin-induced C-peptide suppression panel

This panel must include the following:

Insulin (83525)

C-peptide (84681 x 5)

Glucose (82947 x 5)

CPT Assistant Summer 94:1, Fall 94:15

80434 Insulin tolerance panel; for ACTH insufficiency

This panel must include the following:

Cortisol (82533 x 5)

Glucose (82947 x 5)

CPT Assistant Summer 94:1, Fall 94:15

80435 for growth hormone deficiency

This panel must include the following:

Glucose (82947 x 5)

Human growth hormone (HGH) (83003 x 5)

CPT Assistant Summer 94:1, Fall 94:15, Oct 21:14

80436 Metyrapone panel

This panel must include the following:

Cortisol (82533 x 2)

11 deoxycortisol (82634 x 2)

CPT Assistant Summer 94:1, Fall 94:16

80438 Thyrotropin releasing hormone (TRH) stimulation panel; 1 hour

This panel must include the following:

Thyroid stimulating hormone (TSH) (84443 x 3)

CPT Assistant Summer 94:1, Fall 94:16

80439 2 hour

This panel must include the following:

Thyroid stimulating hormone (TSH) (84443 x 4)

CPT Assistant Summer 94:1, Fall 94:16

Pathology Clinical Consultations

Physician review of pathology and laboratory findings is frequently performed in the course of providing care to patients. Review of pathology and laboratory test results occurs in conjunction with the provision of an evaluation and management (E/M) service. Considered part of the non-face-to-face time activities associated with the overall E/M service, reviewing pathology and laboratory results is not a separately reportable service. Communicating results to the patient, family, or caregiver of independent interpretation of results (not separately reported) may constitute an E/M service.

Pathology clinical consultation services codes (80503, 80504, 80505, 80506) describe physician pathology clinical consultation services provided at the request of another physician or other qualified health care professional at the same or another facility or institution.

A pathology clinical consultation is a service, including a written report, rendered by the pathologist in response to a request (eg, written request, electronic request, phone request, or face-to-face request) from a physician or other qualified health care professional that is related to clinical assessment, evaluation of pathology and laboratory findings, or other relevant clinical or diagnostic information that requires additional medical interpretive judgment. Reporting pathology and laboratory findings or other relevant clinical or diagnostic information without medical interpretive judgment is not considered a pathology clinical consultation.

The pathology clinical consultation services (80503, 80504, 80505, 80506) may be reported when the following criteria have been met:

- The pathologist renders a pathology clinical consultation at the request of a physician or other qualified health care professional at the same or another institution.
- The pathology clinical consultation request is related to pathology and laboratory findings or other relevant clinical or diagnostic information (eg, radiology findings or operative/procedural notes) that require additional medical interpretive judgment.

A pathologist may also render a pathology clinical consultation when mandated by federal or state regulation (eg, Clinical Laboratory Improvement Amendments [CLIA]).

Instructions for Selecting a Level of Pathology Clinical Consultation Services

Selection of the appropriate level of pathology clinical consultation services may be based on either the total time for pathology clinical consultation services performed on the date of consultation **or** the level of medical decision making as defined for each service.

Medical Decision Making

See Medical Decision Making table on page 617.

		Elements of Medical Decision Making		
Code	**Level of MDM (Based on 2 out of 3 Elements of MDM)**	**Number and Complexity of Problems Addressed**	**Amount and/or Complexity of Data to Be Reviewed and Analyzed** ***Each unique test, order, or document contributes to the combination of 2 or combination of 3 in Category 1 below.***	**Risk of Complications and/or Morbidity or Mortality of Patient Management**
80503	**Straightforward**	**Low** ▪ **1** to **2** laboratory or pathology findings; **or** ▪ **2** or more self-limited problems	**Limited** *(Must meet the requirements of at least 1 of the 2 categories)* **Category 1: Tests and documents** ▪ **Any combination of 2 from the following:** • Review of prior note(s) from each unique source*; • Review of the result(s) of each unique test*; • Ordering or recommending additional or follow-up testing* **or** **Category 2: Assessment requiring an independent historian(s)** *(For the categories of independent interpretation of tests and discussion of management or test interpretation, see moderate or high)*	**Low risk of morbidity from additional diagnostic testing or treatment**
80504	**Moderate**	**Moderate** ▪ **3** to **4** laboratory or pathology findings; **or** ▪ **1** or more chronic illnesses with exacerbation, progression, or side effects of treatment; **or** ▪ **2** or more stable chronic illnesses; **or** ▪ **1** undiagnosed new problem with uncertain prognosis; **or** ▪ **1** acute illness with systemic symptoms	**Moderate** *(Must meet the requirements of at least 1 out of 3 categories)* **Category 1: Tests, documents, or independent historian(s)** ▪ **Any combination of 3 from the following:** • Review of prior note(s) from each unique source*; • Review of the result(s) of each unique test*; • Ordering or recommending additional or follow-up testing*; • Assessment requiring an independent historian(s) **or** **Category 2: Independent interpretation of tests** ▪ Independent interpretation of a test performed by another physician/other qualified health care professional (not separately reported); **or** **Category 3: Discussion of management or test interpretation** ▪ Discussion of management or test interpretation with external physician/other qualified health care professional/appropriate source (not separately reported)	**Moderate risk of morbidity from additional diagnostic testing or treatment** *Examples only:* Prescription drug management ▪ Decision regarding minor surgery with identified patient or procedure risk factors ▪ Decision regarding elective major surgery without identified patient or procedure risk factors ▪ Diagnosis or treatment significantly limited by social determinants of health
80505	**High**	**High** ▪ **5** or more laboratory or pathology findings; **or** ▪ **1** or more chronic illnesses with severe exacerbation, progression, or side effects of treatment; **or** ▪ **1** acute or chronic illness or injury that poses a threat to life or bodily function	**Extensive** *(Must meet the requirements of at least 2 out of 3 categories)* **Category 1: Tests, documents, or independent historian(s)** ▪ **Any combination of 3 from the following:** • Review of prior note(s) from each unique source*; • Review of the result(s) of each unique test*; • Ordering or recommending additional or follow-up testing*; • Assessment requiring an independent historian(s) **or** **Category 2: Independent interpretation of tests** ▪ Independent interpretation of a test performed by another physician/other qualified health care professional (not separately reported); **or** ▪ **Category 3: Discussion of management or test interpretation** Discussion of management or test interpretation with external physician/other qualified health care professional/appropriate source (not separately reported)	**High risk of morbidity from additional diagnostic testing or treatment** *Examples only:* ▪ Drug therapy requiring intensive monitoring for toxicity ▪ Decision regarding elective major surgery with identified patient or procedure risk factors ▪ Decision regarding emergency major surgery ▪ Decision regarding hospitalization

Time

Time alone may be used to select the appropriate code level for the pathology clinical consultation services codes (ie, 80503, 80504, 80505). When time is used to select the appropriate level for pathology clinical consultation codes, time is defined by the service descriptions. When prolonged service time occurs, add-on code 80506 may be reported. The appropriate time should be documented in the medical record when it is used as the basis for code selection.

Total time on the date of the consultation (pathology clinical consultation services): For coding purposes, time for these services is the total time on the date of the consultation. It includes time personally spent by the consultant on the day of the consultation (includes time in activities that require the consultant and does not include time in activities normally performed by clinical staff).

Consultant time includes the following activities, when performed:

- Review of available medical history, including presenting complaint, signs and symptoms, personal and family history
- Review of test results
- Review of all relevant past and current laboratory, pathology, and clinical findings
- Arriving at a tentative conclusion/differential diagnosis
- Comparing against previous study reports, including radiographic reports, images as applicable, and results of other clinical testing
- Ordering or recommending additional or follow-up testing
- Referring and communicating with other health care professionals (not separately reported)
- Counseling and educating the clinician or other qualified health care professional
- Documenting the clinical consultation report in the electronic or other health record

80503 Pathology clinical consultation; for a clinical problem, with limited review of patient's history and medical records and straightforward medical decision making

When using time for code selection, 5-20 minutes of total time is spent on the date of the consultation.

CPT Changes: An Insider's View 2022
CPT Assistant Feb 22:3, Mar 22:13

(For consultations involving the examination and evaluation of the patient, see evaluation and management services)

80504 for a moderately complex clinical problem, with review of patient's history and medical records and moderate level of medical decision making

When using time for code selection, 21-40 minutes of total time is spent on the date of the consultation.

CPT Changes: An Insider's View 2022
CPT Assistant Feb 22:3, Mar 22:13

80505 for a highly complex clinical problem, with comprehensive review of patient's history and medical records and high level of medical decision making

When using time for code selection, 41-60 minutes of total time is spent on the date of the consultation.

CPT Changes: An Insider's View 2022
CPT Assistant Feb 22:3, Mar 22:13

+ 80506 prolonged service, each additional 30 minutes (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2022
CPT Assistant Feb 22:3, Mar 22:13

(Use 80506 in conjunction with 80505)

(Do not report 80503, 80504, 80505, 80506 in conjunction with 88321, 88323, 88325)

(Prolonged pathology clinical consultation service of less than 15 additional minutes is not reported separately)

(For consultations involving the examination and evaluation of the patient, see evaluation and management services)

Urinalysis

Urinalysis procedures that are not specified in 81000, 81001, 81002, 81003, 81005, 81007, 81015, 81020, 81025, 81050 may be reported using either the appropriate analyte-specific code in the Chemistry (82009-84830) subsection or the unlisted urinalysis procedure code 81099, if an analyte-specific code is not available.

81000 Urinalysis, by dip stick or tablet reagent for bilirubin, glucose, hemoglobin, ketones, leukocytes, nitrite, pH, protein, specific gravity, urobilinogen, any number of these constituents; non-automated, with microscopy

CPT Assistant Winter 90:4, Winter 91:10, Fall 93:25, Aug 05:9, Jul 18:15, Jan 24:17

81001 automated, with microscopy

81002 non-automated, without microscopy

CPT Assistant Mar 98:3, Apr 07:1

81003 automated, without microscopy

CPT Assistant Apr 07:1

81005 Urinalysis; qualitative or semiquantitative, except immunoassays

CPT Assistant Winter 90:4, Winter 91:10, Fall 93:25

(For non-immunoassay reagent strip urinalysis, see 81000, 81002)

(For immunoassay, qualitative or semiquantitative, use 83518)

(For microalbumin, see 82043, 82044)

81007 bacteriuria screen, except by culture or dipstick

CPT Changes: An Insider's View 2001

(For culture, see 87086-87088)

(For dipstick, use 81000 or 81002)

81015 microscopic only

CPT Assistant Nov 17:11

(For sperm evaluation for retrograde ejaculation, use 89331)

81020 2 or 3 glass test

CPT Assistant Winter 90:4, Winter 91:10

81025 Urine pregnancy test, by visual color comparison methods

CPT Assistant Mar 98:3

81050 Volume measurement for timed collection, each

CPT Assistant Jan 24:17

81099 Unlisted urinalysis procedure

CPT Assistant Aug 05:9, Jan 24:17

Molecular Pathology

Molecular pathology procedures are medical laboratory procedures involving the analyses of nucleic acid (ie, DNA, RNA) to detect variants in genes that may be indicative of germline (eg, constitutional disorders) or somatic (eg, neoplasia) conditions, or to test for histocompatibility antigens (eg, HLA). Code selection is typically based on the specific gene(s) that is being analyzed. Genes are described using Human Genome Organization (HUGO) approved gene names and are italicized in the code descriptors. Gene names were taken from tables of the HUGO Gene Nomenclature Committee (HGNC) at the time the CPT codes were developed. For the most part, Human Genome Variation Society (HGVS) recommendations were followed for the names of specific molecular variants. The familiar name is used for some variants because defined criteria were not in place when the variant was first described or because HGVS recommendations were changed over time (eg, intronic variants, processed proteins). When the gene name is represented by an abbreviation, the abbreviation is listed first, followed by the full gene name italicized in parentheses (eg, "F5 *[coagulation Factor V]*"), except for the HLA series of codes. Proteins or diseases commonly associated with the genes are listed as examples in the code descriptors. The examples do not represent all conditions in which testing of the gene may be indicated.

Codes that describe tests to assess for the presence of gene variants (see definitions) use common gene variant names. Typically, all of the listed variants would be tested. However, these lists are not exclusive. If other variants are also tested in the analysis, they would be included in the procedure and not reported separately. Full gene sequencing should not be reported using codes that assess for the presence of gene variants unless specifically stated in the code descriptor.

The molecular pathology codes include all analytical services performed in the test (eg, cell lysis, nucleic acid stabilization, extraction, digestion, amplification, and detection). Any procedures required prior to cell lysis (eg, microdissection, codes 88380 and 88381) should be reported separately.

The results of the procedure may require interpretation by a physician or other qualified health care professional. When only the interpretation and report are performed, modifier 26 may be appended to the specific molecular pathology code.

All analyses are qualitative unless otherwise noted.

For microbial identification, see 87149-87153 and 87471-87801, and 87900-87904. For in situ hybridization analyses, see 88271-88275 and 88365-88368.

Molecular pathology procedures that are not specified in 81161, 81200-81383 should be reported using either the appropriate Tier 2 code (81400-81408) or the unlisted molecular pathology procedure code, 81479.

Definitions

For purposes of CPT reporting, the following definitions apply:

Abnormal allele: an alternative form of a gene that contains a disease-related variation from the normal sequence.

Breakpoint: the region at which a chromosome breaks during a translocation (defined elsewhere). These regions are often consistent for a given translocation.

Codon: a discrete unit of three nucleotides of a DNA or mRNA sequence that encodes a specific amino acid within, or signals the termination of, a polypeptide.

Common variants: variants (as defined elsewhere) that are associated with compromised gene function and are interrogated in a single round of laboratory testing (in a single, typically multiplex, assay format or using more than one assay to encompass all variants to be tested). These variants typically fit the definition of a "mutation," and are usually the predominant ones causing disease. Testing for additional uncommon variants may provide additional limited value in assessment of a patient. Often there are professional society recommendations or guidelines for which variants are most appropriate to test (eg, American College of Medical Genetics/American College of Obstetrics and Gynecology guidelines for variants used in population screening for cystic fibrosis).

Constitutional: synonymous with germline, often used in reference to the genetic code that is present at birth.

Copy number variants (CNVs): structural changes in the genome composed of large deletions or duplications. CNVs can be found in the germline, but can also occur in somatic cells. See also Duplication/Deletion (Dup/Del).

Cytogenomic: a comprehensive genome-wide analysis of chromosomal and genetic abnormalities using molecular-based technologies.

DNA methylation: the process of adding methyl groups to a DNA sequence, specifically adenine and cytosine nucleotides, thereby affecting transcription of that sequence. DNA hyper-methylation in a gene promoter typically represses gene transcription. DNA methylation serves as a regulatory mechanism in numerous scenarios including development, chromosome inactivation, and carcinogenesis.

DNA methylation analysis: analytical protocols are designed to evaluate the degree of DNA methylation related to specific disease processes. This analysis has various applications, qualitative or quantitative, and could be gene specific or encompass global degrees of methylation. All assays employ specific maneuvers (eg, chemical, enzymatic) that allow for distinguishable evaluation of methylated and non-methylated sequences.

Duplication/Deletion (Dup/Del): terms that are usually used together with the "/" to refer to molecular testing, which assesses the dosage of a particular genomic region. The region tested is typically of modest to substantial size—from several dozen to several million or more nucleotides. Normal gene dosage is two copies per cell, except for the sex chromosomes (X and Y). Thus, zero or one copy represents a deletion, and three (or more) copies represent a duplication.

Dynamic mutation: polynucleotide (eg, trinucleotide) repeats that are in or associated with genes that can undergo disease-producing increases or decreases in the numbers of repeats within tissues and across generations.

Exome: DNA sequences within the human genome that code for proteins (coding regions).

Exon: typically, one of multiple nucleic acid sequences used to encode information for a gene product (polypeptide or protein). Exons are separated from each other by non-protein-coding sequences known as introns. Exons at the respective ends of a gene also contain nucleic acid sequence that does not code for the gene's protein product.

Gene: a nucleic acid sequence that typically contains information for coding a protein as well as for the regulated expression of that protein. Human genes usually contain multiple protein coding regions (exons) separated by non-protein coding regions (introns). See also *exon*, *intron*, and *polypeptide*.

Gene expression: the sequence of events that results in the production and assembly of a protein product corresponding to the information encoded in a specific gene. The process begins with the transcription of gene sequences to produce an mRNA intermediary, which is subsequently translated to produce a specific protein product.

Genome: the total (nuclear) human genetic content.

Heteroplasmy: the copy number of a variant within a cell; it is expressed as a percent. It reflects the varied distribution and dosage of mutant mitochondria in tissues and organs (mitotic segregation).

Intron: a nucleic acid sequence found between exons in human genes. An intron contains essential sequences for its proper removal (by a process known as *splicing*) to join exons together and thus facilitate production of a functional protein from a gene. An intron is sometimes referred to as an intervening sequence (IVS).

Inversion: a defect in a chromosome in which a segment breaks and reinserts in the same place but in the opposite orientation.

Loss of heterozygosity (LOH, allelic imbalance): an event that can occur in dividing cells that are heterozygous for one or more alleles, in which a daughter cell becomes hemizygous or homozygous for the allele(s) through mitotic recombination, deletion, or other chromosomal event.

Low-pass sequencing: a method of genome sequencing intended for cytogenomic analysis of chromosomal abnormalities, such as that performed for trait mapping or copy number variation, typically performed to an average depth of sequencing ranging from 0.1 to 5X.

Microarray: surface(s) on which multiple specific nucleic acid sequences are attached in a known arrangement. Sometimes referred to as a "gene chip." Examples of uses of microarrays include evaluation of a patient specimen for gains or losses of DNA sequences (copy number variants, CNVs), identification of the presence of specific nucleotide sequence variants (also known as single nucleotide polymorphisms, SNPs), mRNA expression levels, or DNA sequence analysis.

Mitochondrial DNA (mtDNA): DNA located in the mitochondria, which are cytoplasmic organelles involved with energy production. MtDNA contains 37 genes coding for oxidative phosphorylation enzymes, transfer RNAs (tRNAs) and ribosomal RNAs (rRNAs).

Mutations: typically are variants associated with altered gene function that lead to functional deficits or disease (pathogenic).

Mutation scanning: a technique (eg, single strand conformation polymorphism, temperature gradient gel electrophoresis, etc.) typically employed on multiple PCR amplicons to indicate the presence of DNA sequence variants by differences in physical properties compared to normal. Variants are then further characterized by DNA sequence analysis only in amplicons which demonstrate differences.

Nuclear DNA: DNA located in the nucleus of a cell, generally packaged in chromosomes.

►***Optical Genome Mapping (OGM):*** Genome-wide analysis technique for analyzing chromosomal structural features at a high resolution. It involves evaluation of patterns generated by fluorescent tags labeled to specific DNA sequences within long (eg, 150-500kb) DNA molecules aligned to a reference map to detect changes indicative of structural abnormalities (eg, insertions, deletions, duplications, inversions, translocations).◄

Polymorphisms: typically are variants that do not compromise gene function or produce disease (benign).

Polypeptide: a sequence of amino acids covalently linked in a specified order. Polypeptides alone or in combination with other polypeptide subunits are the building blocks of proteins.

Promoter: a region of DNA associated with a gene (on the same strand) which regulates gene expression. Promoter regions can affect gene transcription through the binding of specific transcription factors.

Short tandem repeat (STR): a region of DNA where a pattern of two or more nucleotides are repeated. The number of repeating segments can be used as genetic markers for human identity testing.

Single-nucleotide polymorphism (SNP): a DNA sequence variation existing at a significant frequency in the population, in which a single nucleotide (A, T, C, or G) differs between individuals and/or within an individual's paired chromosomes.

Somatic: synonymous with acquired, referring to genetic code alterations that develop after birth (eg, occurring in neoplastic cells).

Translocation: an abnormality resulting from the breakage of a chromosome and the relocation of a portion of that chromosome's DNA sequence to the same or another chromosome. Most common translocations involve a reciprocal exchange of DNA sequences between two differently numbered (ie, non-homologous) chromosomes, with or without a clinically significant loss of DNA.

Uniparental disomy (UPD): abnormal inheritance of both members of a chromosome pair from one parent, with absence of the other parent's chromosome for the pair.

Variant: a nucleotide sequence difference from the "normal" (predominant) sequence for a given region. Variants are typically of two types: substitutions of one nucleotide for another, and deletions or insertions of nucleotides. Occasionally, variants reflect several nucleotide sequence changes in reasonably close proximity on the same chromosomal strand of DNA (a haplotype). These nucleotide sequence variants often result in amino acid changes in the protein made by the gene. The term *variant* does not itself carry a functional implication for those protein changes.

Variants in introns are typically described in one of two ways. The altered nucleotide(s) within a defined intervening sequence (eg, IVS3-2A>G) of a gene is listed with a "+" or "-" sign, which indicates the position relative to the first or last nucleotide of the intron. Or, the variant position is indicated relative to the last nucleotide of the preceding exon or first nucleotide of the following exon (eg, c.171+1G>A c.172-1G>T are single nucleotide changes at the first and last nucleotide of a given intron for a specific gene).

The majority of the variants described here are listed by the amino acid change using the single letter amino acid code for the original amino acid followed by the numerical position in the protein product and the amino acid substitution, eg, for *ASPA* E285A, Glutamic acid (E) at position 285 is replaced with an alanine (A). A few of the variants are described by the DNA change using the numerical position followed by the original nucleotide, a greater than sign (>) and the new nucleotide, eg, *MTHFR*. 677C>T.

A known familial variant is a specific mutation that has previously been identified within a patient's family.

Tier 1 Molecular Pathology Procedures

The following codes represent gene-specific and genomic procedures:

CPT Assistant May 12:4, Aug 16:10, Nov 18:9

81227 Code is out of numerical sequence. See 81223-81226

 # 81230 *CYP3A4 (cytochrome P450 family 3 subfamily A member 4)* (eg, drug metabolism), gene analysis, common variant(s) (eg, *2, *22)

CPT Changes: An Insider's View 2018

CPT Assistant Nov 18:9

 # 81231 *CYP3A5 (cytochrome P450 family 3 subfamily A member 5)* (eg, drug metabolism), gene analysis, common variants (eg, *2, *3, *4, *5, *6, *7)

CPT Changes: An Insider's View 2018

CPT Assistant Nov 18:9

81228 Cytogenomic (genome-wide) analysis for constitutional chromosomal abnormalities; interrogation of genomic regions for copy number variants, comparative genomic hybridization [CGH] microarray analysis

CPT Changes: An Insider's View 2012, 2022

CPT Assistant May 12:4, Sep 13:4, 6, Aug 16:10, Nov 18:9

(Do not report 81228 in conjunction with 81229, 81349)

81229 interrogation of genomic regions for copy number and single nucleotide polymorphism (SNP) variants, comparative genomic hybridization (CGH) microarray analysis

CPT Changes: An Insider's View 2012, 2022

CPT Assistant May 12:4, Sep 13:4, Aug 16:10, Nov 18:9, Apr 24:36

(Do not report 81229 in conjunction with 81228, 81349)

(Do not report 88271 when performing cytogenomic [genome-wide] analysis for constitutional chromosomal abnormalities)

(For genomic sequencing procedures or other molecular multianalyte assays for copy number analysis using circulating cell-free fetal DNA in maternal blood, see 81420, 81422, 81479)

 # 81349 interrogation of genomic regions for copy number and loss-of-heterozygosity variants, low-pass sequencing analysis

CPT Changes: An Insider's View 2022

(When performing cytogenomic [genome-wide] analysis for constitutional chromosomal abnormalities that is not genome-wide [ie, regionally targeted], report the specific code for the targeted analysis if available [eg, 81405], or the unlisted molecular pathology code [81479])

(Do not report 81349 in conjunction with 81228, 81229)

(Do not report 81349 when analysis for chromosomal abnormalities is performed by sequence analysis included in 81425, 81426)

(Do not report analyte-specific molecular pathology procedures separately in conjunction with 81228, 81229, 81349, when the specific analytes are included as part of the cytogenomic [genome-wide] analysis for constitutional chromosomal abnormalities)

#● **81354** interrogation of structural and copy number variants, optical genome mapping (OGM)

CPT Changes: An Insider's View 2026

 # 81277 Cytogenomic neoplasia (genome-wide) microarray analysis, interrogation of genomic regions for copy number and loss-of-heterozygosity variants for chromosomal abnormalities

CPT Changes: An Insider's View 2020

CPT Assistant Feb 20:10

(Do not report analyte-specific molecular pathology procedures separately when the specific analytes are included as part of the cytogenomic microarray analysis for neoplasia)

(Do not report 88271 when performing cytogenomic microarray analysis)

 # 81195 Cytogenomic (genome-wide) analysis, hematologic malignancy, structural variants and copy number variants, optical genome mapping (OGM)

CPT Changes: An Insider's View 2025

81230 Code is out of numerical sequence. See 81225-81229

81231 Code is out of numerical sequence. See 81225-81229

 # 81161 *DMD (dystrophin)* (eg, Duchenne/Becker muscular dystrophy) deletion analysis, and duplication analysis, if performed

CPT Changes: An Insider's View 2013

CPT Assistant Aug 16:10, Nov 18:9

 # 81234 *DMPK (DM1 protein kinase)* (eg, myotonic dystrophy type 1) gene analysis; evaluation to detect abnormal (expanded) alleles

CPT Changes: An Insider's View 2019

CPT Assistant Nov 18:9

 # 81239 characterization of alleles (eg, expanded size)

CPT Changes: An Insider's View 2019

CPT Assistant Nov 18:9

81232 *DPYD (dihydropyrimidine dehydrogenase)* (eg, 5-fluorouracil/5-FU and capecitabine drug metabolism), gene analysis, common variant(s) (eg, *2A, *4, *5, *6)

CPT Changes: An Insider's View 2018

CPT Assistant Nov 18:9

81233 Code is out of numerical sequence. See 81215-81220

81234 Code is out of numerical sequence. See 81228-81235

81235 *EGFR (epidermal growth factor receptor)* (eg, non-small cell lung cancer) gene analysis, common variants (eg, exon 19 LREA deletion, L858R, T790M, G719A, G719S, L861Q)

CPT Changes: An Insider's View 2013

CPT Assistant Sep 13:3, Aug 16:10, Nov 18:9

81236 *EZH2 (enhancer of zeste 2 polycomb repressive complex 2 subunit)* (eg, myelodysplastic syndrome, myeloproliferative neoplasms) gene analysis, full gene sequence

CPT Changes: An Insider's View 2019

CPT Assistant Nov 18:9, Jul 19:3

81237 *EZH2 (enhancer of zeste 2 polycomb repressive complex 2 subunit)* (eg, diffuse large B-cell lymphoma) gene analysis, common variant(s) (eg, codon 646)

CPT Changes: An Insider's View 2019

CPT Assistant Nov 18:9, Jul 19:3

81238 Code is out of numerical sequence. See 81240-81248

81239 Code is out of numerical sequence. See 81228-81235

81240 *F2 (prothrombin, coagulation factor II)* (eg, hereditary hypercoagulability) gene analysis, 20210G>A variant
- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Aug 16:10, Nov 18:9

81241 *F5 (coagulation factor V)* (eg, hereditary hypercoagulability) gene analysis, Leiden variant
- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Aug 16:10, Nov 18:9

 # 81238 *F9 (coagulation factor IX)* (eg, hemophilia B), full gene sequence
- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Nov 18:9

81242 *FANCC (Fanconi anemia, complementation group C)* (eg, Fanconi anemia, type C) gene analysis, common variant (eg, IVS4+4A>T)
- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Aug 16:10, Nov 18:9

 # 81245 *FLT3 (fms-related tyrosine kinase 3)* (eg, acute myeloid leukemia), gene analysis; internal tandem duplication (ITD) variants (ie, exons 14, 15)
- *CPT Changes: An Insider's View* 2012, 2015
- *CPT Assistant* May 12:4, Jan 15:3, Aug 16:10, Nov 18:9

 # 81246 tyrosine kinase domain (TKD) variants (eg, D835, I836)
- *CPT Changes: An Insider's View* 2015
- *CPT Assistant* Jan 15:3, Aug 16:10, Nov 18:9

81243 *FMR1 (fragile X messenger ribonucleoprotein 1)* (eg, fragile X syndrome, X-linked intellectual disability [XLID]) gene analysis; evaluation to detect abnormal (eg, expanded) alleles
- *CPT Changes: An Insider's View* 2012, 2024
- *CPT Assistant* May 12:4, Aug 16:10, Nov 18:9

(For evaluation to detect and characterize abnormal alleles, see 81243, 81244)

(For evaluation to detect and characterize abnormal alleles using a single assay [eg, PCR], use 81243)

81244 characterization of alleles (eg, expanded size and promoter methylation status)
- *CPT Changes: An Insider's View* 2012, 2019, 2024
- *CPT Assistant* May 12:4, Aug 16:10, Nov 18:9, Jul 19:3

81245 Code is out of numerical sequence. See 81240-81248

81246 Code is out of numerical sequence. See 81240-81248

 # 81284 *FXN (frataxin)* (eg, Friedreich ataxia) gene analysis; evaluation to detect abnormal (expanded) alleles
- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:9

 # 81285 characterization of alleles (eg, expanded size)
- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:9

 # 81286 full gene sequence
- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:9

 # 81289 known familial variant(s)

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:9

 # 81250 *G6PC (glucose-6-phosphatase, catalytic subunit)* (eg, Glycogen storage disease, type 1a, von Gierke disease) gene analysis, common variants (eg, R83C, Q347X)

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Aug 16:10, Nov 18:9

81247 *G6PD (glucose-6-phosphate dehydrogenase)* (eg, hemolytic anemia, jaundice), gene analysis; common variant(s) (eg, A, A-)

- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Nov 18:9

81248 known familial variant(s)

- *CPT Changes: An Insider's View* 2018

81249 full gene sequence

- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Nov 18:9

81250 Code is out of numerical sequence. See 81243-81248

81251 *GBA (glucosidase, beta, acid)* (eg, Gaucher disease) gene analysis, common variants (eg, N370S, 84GG, L444P, IVS2+1G>A)

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Aug 16:10, Nov 18:9

81252 *GJB2 (gap junction protein, beta 2, 26kDa, connexin 26)* (eg, nonsyndromic hearing loss) gene analysis; full gene sequence

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Sep 13:3, Aug 16:10, Nov 18:9

81253 known familial variants

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Sep 13:3, Aug 16:10, Nov 18:9

81254 *GJB6 (gap junction protein, beta 6, 30kDa, connexin 30)* (eg, nonsyndromic hearing loss) gene analysis, common variants (eg, 309kb [del(GJB6-D13S1830)] and 232kb [del(GJB6-D13S1854)])

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Sep 13:3, Aug 16:10, Nov 18:9

 # 81257 *HBA1/HBA2 (alpha globin 1 and alpha globin 2)* (eg, alpha thalassemia, Hb Bart hydrops fetalis syndrome, HbH disease), gene analysis; common deletions or variant (eg, Southeast Asian, Thai, Filipino, Mediterranean, alpha3.7, alpha4.2, alpha20.5, Constant Spring)

- *CPT Changes: An Insider's View* 2012, 2018
- *CPT Assistant* May 12:4, Aug 16:10, Nov 18:9

 # 81258 known familial variant

- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Nov 18:9

 # 81259 full gene sequence

- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Nov 18:9

 # 81269 duplication/deletion variants

CPT Changes: An Insider's View 2018

CPT Assistant Nov 18:9

 # 81361 *HBB (hemoglobin, subunit beta)* (eg, sickle cell anemia, beta thalassemia, hemoglobinopathy); common variant(s) (eg, HbS, HbC, HbE)

CPT Changes: An Insider's View 2018

CPT Assistant Nov 18:9

 # 81362 known familial variant(s)

CPT Changes: An Insider's View 2018

CPT Assistant Nov 18:9

 # 81363 duplication/deletion variant(s)

CPT Changes: An Insider's View 2018

CPT Assistant Sep 18:14, Nov 18:9

 # 81364 full gene sequence

CPT Changes: An Insider's View 2018

CPT Assistant Sep 18:14, Nov 18:9

81255 *HEXA (hexosaminidase A [alpha polypeptide])* (eg, Tay-Sachs disease) gene analysis, common variants (eg, 1278insTATC, 1421+1G>C, G269S)

CPT Changes: An Insider's View 2012

CPT Assistant May 12:4, Aug 16:10, Nov 18:9

81256 *HFE (hemochromatosis)* (eg, hereditary hemochromatosis) gene analysis, common variants (eg, C282Y, H63D)

CPT Changes: An Insider's View 2012

CPT Assistant May 12:4, Aug 16:10, Nov 18:9

81257 Code is out of numerical sequence. See 81253-81256

81258 Code is out of numerical sequence. See 81253-81256

81259 Code is out of numerical sequence. See 81253-81256

 # 81271 *HTT (huntingtin)* (eg, Huntington disease) gene analysis; evaluation to detect abnormal (eg, expanded) alleles

CPT Changes: An Insider's View 2019

CPT Assistant Nov 18:9

 # 81274 characterization of alleles (eg, expanded size)

CPT Changes: An Insider's View 2019

CPT Assistant Nov 18:9

 # 81105 *Human Platelet Antigen 1 genotyping (HPA-1), ITGB3 (integrin, beta 3 [platelet glycoprotein IIIa], antigen CD61 [GPIIIa])* (eg, neonatal alloimmune thrombocytopenia [NAIT], post-transfusion purpura), gene analysis, common variant, HPA-1a/b (L33P)

CPT Changes: An Insider's View 2018

 # 81106 *Human Platelet Antigen 2 genotyping (HPA-2), GP1BA (glycoprotein Ib [platelet], alpha polypeptide [GPIba])* (eg, neonatal alloimmune thrombocytopenia [NAIT], post-transfusion purpura), gene analysis, common variant, HPA-2a/b (T145M)

CPT Changes: An Insider's View 2018

 # 81107 *Human Platelet Antigen 3 genotyping (HPA-3), ITGA2B (integrin, alpha 2b [platelet glycoprotein IIb of IIb/IIIa complex], antigen CD41 [GPIIb])* (eg, neonatal alloimmune thrombocytopenia [NAIT], post-transfusion purpura), gene analysis, common variant, HPA-3a/b (I843S)

CPT Changes: An Insider's View 2018

 # 81108 *Human Platelet Antigen 4 genotyping (HPA-4), ITGB3 (integrin, beta 3 [platelet glycoprotein IIIa], antigen CD61 [GPIIIa])* (eg, neonatal alloimmune thrombocytopenia [NAIT], post-transfusion purpura), gene analysis, common variant, HPA-4a/b (R143Q)

CPT Changes: An Insider's View 2018

 # 81109 *Human Platelet Antigen 5 genotyping (HPA-5), ITGA2 (integrin, alpha 2 [CD49B, alpha 2 subunit of VLA-2 receptor] [GPIa])* (eg, neonatal alloimmune thrombocytopenia [NAIT], post-transfusion purpura), gene analysis, common variant (eg, HPA-5a/b [K505E])

CPT Changes: An Insider's View 2018

 # 81110 *Human Platelet Antigen 6 genotyping (HPA-6w), ITGB3 (integrin, beta 3 [platelet glycoprotein IIIa, antigen CD61] [GPIIIa])* (eg, neonatal alloimmune thrombocytopenia [NAIT], post-transfusion purpura), gene analysis, common variant, HPA-6a/b (R489Q)

CPT Changes: An Insider's View 2018

 # 81111 *Human Platelet Antigen 9 genotyping (HPA-9w), ITGA2B (integrin, alpha 2b [platelet glycoprotein IIb of IIb/IIIa complex, antigen CD41] [GPIIb])* (eg, neonatal alloimmune thrombocytopenia [NAIT], post-transfusion purpura), gene analysis, common variant, HPA-9a/b (V837M)

CPT Changes: An Insider's View 2018

 # 81112 *Human Platelet Antigen 15 genotyping (HPA-15), CD109 (CD109 molecule)* (eg, neonatal alloimmune thrombocytopenia [NAIT], post-transfusion purpura), gene analysis, common variant, HPA-15a/b (S682Y)

CPT Changes: An Insider's View 2018

 # 81120 *IDH1 (isocitrate dehydrogenase 1 [NADP+], soluble)* (eg, glioma), common variants (eg, R132H, R132C)

CPT Changes: An Insider's View 2018

 # 81121 *IDH2 (isocitrate dehydrogenase 2 [NADP+], mitochondrial)* (eg, glioma), common variants (eg, R140W, R172M)

CPT Changes: An Insider's View 2018

 # 81283 *IFNL3 (interferon, lambda 3)* (eg, drug response), gene analysis, rs12979860 variant

CPT Changes: An Insider's View 2018

CPT Assistant Nov 18:9

 # 81261 *IGH@ (Immunoglobulin heavy chain locus)* (eg, leukemias and lymphomas, B-cell), gene rearrangement analysis to detect abnormal clonal population(s); amplified methodology (eg, polymerase chain reaction)

CPT Changes: An Insider's View 2012

CPT Assistant May 12:4, Sep 13:7, Aug 16:10, Nov 18:9

 # 81262 direct probe methodology (eg, Southern blot)

CPT Changes: An Insider's View 2012

CPT Assistant May 12:4, Aug 16:10, Nov 18:9

 # 81263 *IGH@ (Immunoglobulin heavy chain locus)* (eg, leukemia and lymphoma, B-cell), variable region somatic mutation analysis

CPT Changes: An Insider's View 2012

CPT Assistant May 12:4, Aug 16:10, Nov 18:9

 # 81278 *IGH@/BCL2 (t(14;18))* (eg, follicular lymphoma) translocation analysis, major breakpoint region (MBR) and minor cluster region (mcr) breakpoints, qualitative or quantitative

CPT Changes: An Insider's View 2021

CPT Assistant Aug 21:10

 # 81264 *IGK@ (Immunoglobulin kappa light chain locus)* (eg, leukemia and lymphoma, B-cell), gene rearrangement analysis, evaluation to detect abnormal clonal population(s)

CPT Changes: An Insider's View 2012

CPT Assistant May 12:4, Aug 16:10, Nov 18:9

(For immunoglobulin lambda gene *[IGL@]* rearrangement or immunoglobulin kappa deleting element, *[IGKDEL]* analysis, use 81479)

81260 *IKBKAP (inhibitor of kappa light polypeptide gene enhancer in B-cells, kinase complex-associated protein)* (eg, familial dysautonomia) gene analysis, common variants (eg, 2507+6T>C, R696P)

CPT Changes: An Insider's View 2012

CPT Assistant May 12:4, Aug 16:10, Nov 18:9

81261 Code is out of numerical sequence. See 81255-81270

Human leukocyte antigen (HLA) typing is performed to assess compatibility of recipients and potential donors as a part of solid organ and hematopoietic stem cell pretransplant testing. HLA testing is also performed to identify HLA alleles and allele groups (antigen equivalents) associated with specific diseases and individualized responses to drug therapy (eg, HLA-B*27 and ankylosing spondylitis and HLA-B*57:01 and abacavir hypersensitivity), as well as other clinical uses. One or more HLA genes may be tested in specific clinical situations (eg, HLA-DQB1 for narcolepsy and HLA-A, -B, -C, -DRB1, and -DQB1 for kidney transplantation). Each HLA gene typically has multiple variant alleles or allele groups that can be identified by typing. For HLA result reporting, a low resolution HLA type is denoted by a two digit HLA name (eg, A*02) and intermediate resolution typing by a string of alleles or an NMDP (National Marrow Donor Program) code (eg, B*14:01/07N/08/12/14, B*39CKGN). Both low and intermediate resolutions are considered low resolution for code assignment. High resolution typing resolves the common well defined (CWD) alleles and is usually denoted by at least 4 digits (eg, A*02:02, *03:01:01:01, A*26:01:01G, and C*03:04P), however, high resolution typing may include some ambiguities for rare alleles, which may be reported as a string of alleles or an NMDP code.

If additional testing is required to resolve ambiguous allele combinations for high resolution typing, this is included in the base HLA typing codes below. The gene names have been italicized similar to the other molecular pathology codes.

(For HLA antigen typing by non-molecular pathology techniques, see 86812, 86813, 86816, 86817, 86821)

81370 HLA Class I and II typing, low resolution (eg, antigen equivalents); *HLA-A, -B, -C, -DRB1/3/4/5*, and *-DQB1*

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Aug 16:10, Nov 18:9

81371 *HLA-A, -B, and -DRB1* (eg, verification typing)

- *CPT Changes: An Insider's View* 2012, 2014
- *CPT Assistant* May 12:4, Aug 16:10, Nov 18:9

(When HLA typing includes a determination of the presence or absence of the DRB3/4/5 genes, that service is included in the typing and is not separately reported)

81372 HLA Class I typing, low resolution (eg, antigen equivalents); complete *(ie, HLA-A, -B*, and *-C)*

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Aug 16:10, Nov 18:9

(When performing both Class I and II low resolution *HLA typing for HLA-A,-B,-C, -DRB1/3/4/5*, and *-DQB1*, use 81370)

81373 one locus *(eg, HLA-A, -B, or -C)*, each

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Jun 12:16, Aug 16:10, Nov 18:9

(When performing a complete Class I *[HLA-A,-B*, and *-C]* low resolution HLA typing, use 81372)

(When the presence or absence of a single antigen equivalent is reported using low resolution testing, use 81374)

81374 one antigen equivalent (eg, *B*27)*, each

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Jun 12:16, Aug 16:10, Nov 18:9

(When testing for presence or absence of more than 2 antigen equivalents at a locus, use 81373 for each locus tested)

81375 HLA Class II typing, low resolution (eg, antigen equivalents); *HLA-DRB1/3/4/5* and *-DQB1*

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Aug 16:10, Nov 18:9

(When performing both Class I and II low resolution HLA typing *for HLA-A,-B,-C, -DRB1/3/4/5*, and *–DQB1*, use 81370)

81376 one locus *(eg, HLA-DRB1, -DRB3/4/5, -DQB1, -DQA1, -DPB1, or -DPA1)*, each

- *CPT Changes: An Insider's View* 2012, 2014
- *CPT Assistant* May 12:4, Jun 12:16, Aug 16:10, Nov 18:9

(When low resolution typing is performed for *HLA-DRB1/3/4/5* and *-DQB1*, use 81375)

(When HLA typing includes a determination of the presence or absence of the DRB3/4/5 genes, that service is included in the typing and is not separately reported. When low or intermediate resolution typing of any or all of the DRB3/4/5 genes is performed, treat as one locus)

81377 one antigen equivalent, each

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Jun 12:16, Aug 16:10, Nov 18:9

(When testing for presence or absence of more than 2 antigen equivalents at a locus, use 81376 for each locus)

81378 HLA Class I and II typing, high resolution (ie, alleles or allele groups), *HLA-A, -B, -C*, and *-DRB1*

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Jun 12:16, Aug 16:10, Nov 18:9

81379 HLA Class I typing, high resolution (ie, alleles or allele groups); complete (ie, *HLA-A, -B*, and *-C)*

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Aug 16:10, Nov 18:9, Jan 24:17

81380 one locus (eg, *HLA-A, -B*, or *-C)*, each

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Jun 12:16, Aug 16:10, Nov 18:9

(When a complete Class I high resolution typing for *HLA-A,-B*, and *-C* is performed, use 81379)

(When the presence or absence of a single allele or allele group is reported using high resolution testing, use 81381)

81381 one allele or allele group (eg, *B*57:01P)*, each

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Jun 12:16, Aug 16:10, Nov 18:9

(When testing for the presence or absence of more than 2 alleles or allele groups at a locus, use 81380 for each locus)

81382 HLA Class II typing, high resolution (ie, alleles or allele groups); one locus (eg, *HLA-DRB1, -DRB3/4/5, -DQB1, -DQA1, -DPB1*, or *-DPA1*), each

- *CPT Changes: An Insider's View* 2012, 2014
- *CPT Assistant* May 12:4, Jun 12:16, Nov 18:9

(When only the presence or absence of a single allele or allele group is reported using high resolution testing, use 81383)

(When high resolution typing of any or all of the DRB3/4/5 genes is performed, treat as one locus)

81383 one allele or allele group (eg, *HLA-DQB1*06:02P)*, each

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* May 12:4, Jun 12:16, Nov 18:9

(When testing for the presence or absence of more than 2 alleles or allele groups at a locus, use 81382 for each locus)

Tier 2 Molecular Pathology Procedures

The following molecular pathology procedure (Tier 2) codes are used to report procedures not listed in the Tier 1 molecular pathology codes (81161, 81200-81383). They represent medically useful procedures that are generally performed in lower volumes than Tier 1 procedures (eg, the incidence of the disease being tested is rare). They are arranged by level of technical resources and interpretive work by the physician or other qualified health care professional. The individual analyses listed under each code (ie, level of procedure) utilize the definitions and coding principles as described in the introduction preceding the Tier 1 molecular pathology codes. The parenthetical examples of methodologies presented near the beginning of each code provide general guidelines used to group procedures for a given level and are not all-inclusive.

Use the appropriate molecular pathology procedure level code that includes the specific analyte listed after the code descriptor. If the analyte tested is not listed under one of the Tier 2 codes or is not represented by a Tier 1 code, use the unlisted molecular pathology procedure code, 81479. See the Introduction section of the CPT code set for a complete list of the dates of release and implementation.

81400 Molecular pathology procedure, Level 1 (eg, identification of single germline variant [eg, SNP] by techniques such as restriction enzyme digestion or melt curve analysis)

ACADM (acyl-CoA dehydrogenase, C-4 to C-12 straight chain, MCAD) (eg, medium chain acyl dehydrogenase deficiency), K304E variant

ACE (angiotensin converting enzyme) (eg, hereditary blood pressure regulation), insertion/deletion variant

AGTR1 (angiotensin II receptor, type 1) (eg, essential hypertension), 1166A>C variant

BCKDHA (branched chain keto acid dehydrogenase E1, alpha polypeptide) (eg, maple syrup urine disease, type 1A), Y438N variant

CCR5 (chemokine C-C motif receptor 5) (eg, HIV resistance), 32-bp deletion mutation/794 825del32 deletion

CLRN1 (clarin 1) (eg, Usher syndrome, type 3), N48K variant

F2 (coagulation factor 2) (eg, hereditary hypercoagulability), 1199G>A variant

F5 (coagulation factor V) (eg, hereditary hypercoagulability), HR2 variant

F7 (coagulation factor VII [serum prothrombin conversion accelerator]) (eg, hereditary hypercoagulability), R353Q variant

F13B (coagulation factor XIII, B polypeptide) (eg, hereditary hypercoagulability), V34L variant

FGB (fibrinogen beta chain) (eg, hereditary ischemic heart disease), -455G>A variant

FGFR1 (fibroblast growth factor receptor 1) (eg, Pfeiffer syndrome type 1, craniosynostosis), P252R variant

FGFR3 (fibroblast growth factor receptor 3) (eg, Muenke syndrome), P250R variant

FKTN (fukutin) (eg, Fukuyama congenital muscular dystrophy), retrotransposon insertion variant

GNE (glucosamine [UDP-N-acetyl]-2-epimerase/N-acetylmannosamine kinase) (eg, inclusion body myopathy 2 [IBM2], Nonaka myopathy), M712T variant

IVD (isovaleryl-CoA dehydrogenase) (eg, isovaleric acidemia), A282V variant

LCT (lactase-phlorizin hydrolase) (eg, lactose intolerance), 13910 C>T variant

NEB (nebulin) (eg, nemaline myopathy 2), exon 55 deletion variant

PCDH15 (protocadherin-related 15) (eg, Usher syndrome type 1F), R245X variant

SERPINE1 (serpine peptidase inhibitor clade E, member 1, plasminogen activator inhibitor -1, PAI-1) (eg, thrombophilia), 4G variant

SHOC2 (soc-2 suppressor of clear homolog) (eg, Noonan-like syndrome with loose anagen hair), S2G variant

SRY (sex determining region Y) (eg, 46,XX testicular disorder of sex development, gonadal dysgenesis), gene analysis

TOR1A (torsin family 1, member A [torsin A]) (eg, early-onset primary dystonia [DYT1]), 907_909delGAG (904_906delGAG) variant

➔ *CPT Changes: An Insider's View* 2012, 2013, 2014, 2018, 2019

➔ *CPT Assistant* May 12:4, Jul 13:12, Sep 13:4-5, 8, Jan 15:3, Aug 16:10, Nov 18:9, Jul 19:3

81401 Molecular pathology procedure, Level 2 (eg, 2-10 SNPs, 1 methylated variant, or 1 somatic variant [typically using nonsequencing target variant analysis], or detection of a dynamic mutation disorder/triplet repeat)

ABCC8 (ATP-binding cassette, sub-family C [CFTR/MRP], member 8) (eg, familial hyperinsulinism), common variants (eg, c.3898-9G>A [c.3992-9G>A], F1388del)

ABL1 (ABL proto-oncogene 1, non-receptor tyrosine kinase) (eg, acquired imatinib resistance), T315I variant

ACADM (acyl-CoA dehydrogenase, C-4 to C-12 straight chain, MCAD) (eg, medium chain acyl dehydrogenase deficiency), commons variants (eg, K304E, Y42H)

ADRB2 (adrenergic beta-2 receptor surface) (eg, drug metabolism), common variants (eg, G16R, Q27E)

APOB (apolipoprotein B) (eg, familial hypercholesterolemia type B), common variants (eg, R3500Q, R3500W)

APOE (apolipoprotein E) (eg, hyperlipoproteinemia type III, cardiovascular disease, Alzheimer disease), common variants (eg, *2, *3, *4)

CBFB/MYH11 (inv(16)) (eg, acute myeloid leukemia), qualitative, and quantitative, if performed

CBS (cystathionine-beta-synthase) (eg, homocystinuria, cystathionine beta-synthase deficiency), common variants (eg, I278T, G307S)

CFH/ARMS2 (complement factor H/age-related maculopathy susceptibility 2) (eg, macular degeneration), common variants (eg, Y402H [CFH], A69S [ARMS2])

DEK/NUP214 (t(6;9)) (eg, acute myeloid leukemia), translocation analysis, qualitative, and quantitative, if performed

E2A/PBX1 (t(1;19)) (eg, acute lymphocytic leukemia), translocation analysis, qualitative, and quantitative, if performed

EML4/ALK (inv(2)) (eg, non-small cell lung cancer), translocation or inversion analysis

ETV6/RUNX1 (t(12;21)) (eg, acute lymphocytic leukemia), translocation analysis, qualitative, and quantitative, if performed

EWSR1/ATF1 (t(12;22)) (eg, clear cell sarcoma), translocation analysis, qualitative, and quantitative, if performed

EWSR1/ERG (t(21;22)) (eg, Ewing sarcoma/peripheral neuroectodermal tumor), translocation analysis, qualitative, and quantitative, if performed

EWSR1/FLI1 (t(11;22)) (eg, Ewing sarcoma/peripheral neuroectodermal tumor), translocation analysis, qualitative, and quantitative, if performed

EWSR1/WT1 (t(11;22)) (eg, desmoplastic small round cell tumor), translocation analysis, qualitative, and quantitative, if performed

F11 (coagulation factor XI) (eg, coagulation disorder), common variants (eg, E117X [Type II], F283L [Type III], IVS14del14, and IVS14+1G>A [Type I])

FGFR3 (fibroblast growth factor receptor 3) (eg, achondroplasia, hypochondroplasia), common variants (eg, 1138G>A, 1138G>C, 1620C>A, 1620C>G)

FIP1L1/PDGFRA (del[4q12]) (eg, imatinib-sensitive chronic eosinophilic leukemia), qualitative, and quantitative, if performed

FLG (filaggrin) (eg, ichthyosis vulgaris), common variants (eg, R501X, 2282del4, R2447X, S3247X, 3702delG)

FOXO1/PAX3 (t(2;13)) (eg, alveolar rhabdomyosarcoma), translocation analysis, qualitative, and quantitative, if performed

FOXO1/PAX7 (t(1;13)) (eg, alveolar rhabdomyosarcoma), translocation analysis, qualitative, and quantitative, if performed

FUS/DDIT3 (t(12;16)) (eg, myxoid liposarcoma), translocation analysis, qualitative, and quantitative, if performed

GALC (galactosylceramidase) (eg, Krabbe disease), common variants (eg, c.857G>A, 30-kb deletion)

GALT (galactose-1-phosphate uridylyltransferase) (eg, galactosemia), common variants (eg, Q188R, S135L, K285N, T138M, L195P, Y209C, IVS2-2A>G, P171S, del5kb, N314D, L218L/N314D)

H19 (imprinted maternally expressed transcript [non-protein coding]) (eg, Beckwith-Wiedemann syndrome), methylation analysis

IGH@/BCL2 (t(14;18)) (eg, follicular lymphoma), translocation analysis; single breakpoint (eg, major breakpoint region [MBR] or minor cluster region [mcr]), qualitative or quantitative

(When both MBR and mcr breakpoints are performed, use 81278)

KCNQ1OT1 (KCNQ1 overlapping transcript 1 [non-protein coding]) (eg, Beckwith-Wiedemann syndrome), methylation analysis

LINC00518 (long intergenic non-protein coding RNA 518) (eg, melanoma), expression analysis

LRRK2 (leucine-rich repeat kinase 2) (eg, Parkinson disease), common variants (eg, R1441G, G2019S, I2020T)

MED12 (mediator complex subunit 12) (eg, FG syndrome type 1, Lujan syndrome), common variants (eg, R961W, N1007S)

MEG3/DLK1 (maternally expressed 3 [non-protein coding]/delta-like 1 homolog [Drosophila]) (eg, intrauterine growth retardation), methylation analysis

MLL/AFF1 (t(4;11)) (eg, acute lymphoblastic leukemia), translocation analysis, qualitative, and quantitative, if performed

MLL/MLLT3 (t(9;11)) (eg, acute myeloid leukemia), translocation analysis, qualitative, and quantitative, if performed

MT-ATP6 (mitochondrially encoded ATP synthase 6) (eg, neuropathy with ataxia and retinitis pigmentosa [NARP], Leigh syndrome), common variants (eg, m.8993T>G, m.8993T>C)

MT-ND4, MT-ND6 (mitochondrially encoded NADH dehydrogenase 4, mitochondrially encoded NADH dehydrogenase 6) (eg, Leber hereditary optic neuropathy [LHON]), common variants (eg, m.11778G>A, m.3460G>A, m.14484T>C)

MT-ND5 (mitochondrially encoded tRNA leucine 1 [UUA/G], mitochondrially encoded NADH dehydrogenase 5) (eg, mitochondrial encephalopathy with lactic acidosis and stroke-like episodes [MELAS]), common variants (eg, m.3243A>G, m.3271T>C, m.3252A>G, m.13513G>A)

MT-RNR1 (mitochondrially encoded 12S RNA) (eg, nonsyndromic hearing loss), common variants (eg, m.1555A>G, m.1494C>T)

MT-TK (mitochondrially encoded tRNA lysine) (eg, myoclonic epilepsy with ragged-red fibers [MERRF]), common variants (eg, m.8344A>G, m.8356T>C)

MT-TL1 (mitochondrially encoded tRNA leucine 1 [UUA/G]) (eg, diabetes and hearing loss), common variants (eg, m.3243A>G, m.14709 T>C) MT-TL1

MT-TS1, MT-RNR1 (mitochondrially encoded tRNA serine 1 [UCN], mitochondrially encoded 12S RNA) (eg, nonsyndromic sensorineural deafness [including aminoglycoside-induced nonsyndromic deafness]), common variants (eg, m.7445A>G, m.1555A>G)

MUTYH (mutY homolog [E. coli]) (eg, MYH-associated polyposis), common variants (eg, Y165C, G382D)

NOD2 (nucleotide-binding oligomerization domain containing 2) (eg, Crohn's disease, Blau syndrome), common variants (eg, SNP 8, SNP 12, SNP 13)

NPM1/ALK (t(2;5)) (eg, anaplastic large cell lymphoma), translocation analysis

PAX8/PPARG (t(2;3) (q13;p25)) (eg, follicular thyroid carcinoma), translocation analysis

PRAME (preferentially expressed antigen in melanoma) (eg, melanoma), expression analysis

PRSS1 (protease, serine, 1 [trypsin 1]) (eg, hereditary pancreatitis), common variants (eg, N29I, A16V, R122H)

PYGM (phosphorylase, glycogen, muscle) (eg, glycogen storage disease type V, McArdle disease), common variants (eg, R50X, G205S)

RUNX1/RUNX1T1 (t(8;21)) (eg, acute myeloid leukemia) translocation analysis, qualitative, and quantitative, if performed

SS18/SSX1 (t(X;18)) (eg, synovial sarcoma), translocation analysis, qualitative, and quantitative, if performed

SS18/SSX2 (t(X;18)) (eg, synovial sarcoma), translocation analysis, qualitative, and quantitative, if performed

VWF (von Willebrand factor) (eg, von Willebrand disease type 2N), common variants (eg, T791M, R816W, R854Q)

➔ *CPT Changes: An Insider's View* 2012, 2013, 2014, 2016, 2017, 2018, 2019, 2021

➔ *CPT Assistant* May 12:4, Jul 13:12, Sep 13:5, Jan 15:3, Aug 16:10, Nov 18:9, Jul 19:3

81402 Molecular pathology procedure, Level 3 (eg, >10 SNPs, 2-10 methylated variants, or 2-10 somatic variants [typically using non-sequencing target variant analysis], immunoglobulin and T-cell receptor gene rearrangements, duplication/deletion variants of 1 exon, loss of heterozygosity [LOH], uniparental disomy [UPD])

Chromosome 1p-/19q- (eg, glial tumors), deletion analysis

Chromosome 18q- (eg, D18S55, D18S58, D18S61, D18S64, and D18S69) (eg, colon cancer), allelic imbalance assessment (ie, loss of heterozygosity)

COL1A1/PDGFB (t(17;22)) (eg, dermatofibrosarcoma protuberans), translocation analysis, multiple breakpoints, qualitative, and quantitative, if performed

CYP21A2 (cytochrome P450, family 21, subfamily A, polypeptide 2) (eg, congenital adrenal hyperplasia, 21-hydroxylase deficiency), common variants (eg, IVS2-13G, P30L, I172N, exon 6 mutation cluster [I235N, V236E, M238K], V281L, L307FfsX6, Q318X, R356W, P453S, G110VfsX21, 30-kb deletion variant)

ESR1/PGR (receptor 1/progesterone receptor) ratio (eg, breast cancer)

MEFV (Mediterranean fever) (eg, familial Mediterranean fever), common variants (eg, E148Q, P369S, F479L, M680I, I692del, M694V, M694I, K695R, V726A, A744S, R761H)

TRD@ (T cell antigen receptor, delta) (eg, leukemia and lymphoma), gene rearrangement analysis, evaluation to detect abnormal clonal population

Uniparental disomy (UPD) (eg, Russell-Silver syndrome, Prader-Willi/Angelman syndrome), short tandem repeat (STR) analysis

➔ *CPT Changes: An Insider's View* 2012, 2013, 2014, 2015, 2016, 2021

➔ *CPT Assistant* May 12:4, Jul 13:12, Sep 13:5, 9, Jan 15:3, Aug 16:10, Nov 18:9, Aug 21:10

81403 Molecular pathology procedure, Level 4 (eg, analysis of single exon by DNA sequence analysis, analysis of >10 amplicons using multiplex PCR in 2 or more independent reactions, mutation scanning or duplication/deletion variants of 2-5 exons)

ANG (angiogenin, ribonuclease, RNase A family, 5) (eg, amyotrophic lateral sclerosis), full gene sequence

ARX (aristaless related homeobox) (eg, X-linked lissencephaly with ambiguous genitalia, X-linked intellectual disability), duplication/deletion analysis

CEL (carboxyl ester lipase [bile salt-stimulated lipase]) (eg, maturity-onset diabetes of the young [MODY]), targeted sequence analysis of exon 11 (eg, c.1785delC, c.1686delT)

CTNNB1 (catenin [cadherin-associated protein], beta 1, 88kDa) (eg, desmoid tumors), targeted sequence analysis (eg, exon 3)

DAZ/SRY (deleted in azoospermia and sex determining region Y) (eg, male infertility), common deletions (eg, AZFa, AZFb, AZFc, AZFd)

DNMT3A (DNA [cytosine-5-]-methyltransferase 3 alpha) (eg, acute myeloid leukemia), targeted sequence analysis (eg, exon 23)

EPCAM (epithelial cell adhesion molecule) (eg, Lynch syndrome), duplication/deletion analysis

F8 (coagulation factor VIII) (eg, hemophilia A), inversion analysis, intron 1 and intron 22A

F12 (coagulation factor XII [Hageman factor]) (eg, angioedema, hereditary, type III; factor XII deficiency), targeted sequence analysis of exon 9

FGFR3 (fibroblast growth factor receptor 3) (eg, isolated craniosynostosis), targeted sequence analysis (eg, exon 7)

(For targeted sequence analysis of multiple FGFR3 exons, use 81404)

GJB1 (gap junction protein, beta 1) (eg, Charcot-Marie-Tooth X-linked), full gene sequence

GNAQ (guanine nucleotide-binding protein G[q] subunit alpha) (eg, uveal melanoma), common variants (eg, R183, Q209)

Human erythrocyte antigen gene analyses (eg, SLC14A1 [Kidd blood group], BCAM [Lutheran blood group], ICAM4 [Landsteiner-Wiener blood group], SLC4A1 [Diego blood group], AQP1 [Colton blood group], ERMAP [Scianna blood group], RHCE [Rh blood group, CcEe antigens], KEL [Kell blood group], DARC [Duffy blood group], GYPA, GYPB, GYPE [MNS blood group], ART4 [Dombrock blood group]) (eg, sickle-cell disease, thalassemia, hemolytic transfusion reactions, hemolytic disease of the fetus or newborn), common variants

HRAS (v-Ha-ras Harvey rat sarcoma viral oncogene homolog) (eg, Costello syndrome), exon 2 sequence

KCNC3 (potassium voltage-gated channel, Shaw-related subfamily, member 3) (eg, spinocerebellar ataxia), targeted sequence analysis (eg, exon 2)

KCNJ2 (potassium inwardly-rectifying channel, subfamily J, member 2) (eg, Andersen-Tawil syndrome), full gene sequence

KCNJ11 (potassium inwardly-rectifying channel, subfamily J, member 11) (eg, familial hyperinsulinism), full gene sequence

Killer cell immunoglobulin-like receptor (KIR) gene family (eg, hematopoietic stem cell transplantation), genotyping of KIR family genes

Known familial variant not otherwise specified, for gene listed in Tier 1 or Tier 2, or identified during a genomic sequencing procedure, DNA sequence analysis, each variant exon

(For a known familial variant that is considered a common variant, use specific common variant Tier 1 or Tier 2 code)

MC4R (melanocortin 4 receptor) (eg, obesity), full gene sequence

MICA (MHC class I polypeptide-related sequence A) (eg, solid organ transplantation), common variants (eg, *001, *002)

MT-RNR1 (mitochondrially encoded 12S RNA) (eg, nonsyndromic hearing loss), full gene sequence

MT-TS1 (mitochondrially encoded tRNA serine 1) (eg, nonsyndromic hearing loss), full gene sequence

NDP (Norrie disease [pseudoglioma]) (eg, Norrie disease), duplication/deletion analysis

NHLRC1 (NHL repeat containing 1) (eg, progressive myoclonus epilepsy), full gene sequence

PHOX2B (paired-like homeobox 2b) (eg, congenital central hypoventilation syndrome), duplication/deletion analysis

PLN (phospholamban) (eg, dilated cardiomyopathy, hypertrophic cardiomyopathy), full gene sequence

RHD (Rh blood group, D antigen) (eg, hemolytic disease of the fetus and newborn, Rh maternal/fetal compatibility), deletion analysis (eg, exons 4, 5, and 7, pseudogene)

RHD (Rh blood group, D antigen) (eg, hemolytic disease of the fetus and newborn, Rh maternal/fetal compatibility), deletion analysis (eg, exons 4, 5, and 7, pseudogene), performed on cell-free fetal DNA in maternal blood

(For human erythrocyte gene analysis of RHD, use a separate unit of 81403)

SH2D1A (SH2 domain containing 1A) (eg, X-linked lymphoproliferative syndrome), duplication/deletion analysis

TWIST1 (twist homolog 1 [Drosophila]) (eg, Saethre-Chotzen syndrome), duplication/deletion analysis

UBA1 (ubiquitin-like modifier activating enzyme 1) (eg, spinal muscular atrophy, X-linked), targeted sequence analysis (eg, exon 15)

VHL (von Hippel-Lindau tumor suppressor) (eg, von Hippel-Lindau familial cancer syndrome), deletion/duplication analysis

VWF (von Willebrand factor) (eg, von Willebrand disease types 2A, 2B, 2M), targeted sequence analysis (eg, exon 28)

CPT Changes: An Insider's View 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2021, 2024

CPT Assistant May 12:4, Jul 13:12, Sep 13:3, Jan 15:3, Aug 16:10, May 18:6, Nov 18:9, Jul 19:3, Aug 21:10

81404 Molecular pathology procedure, Level 5 (eg, analysis of 2-5 exons by DNA sequence analysis, mutation scanning or duplication/deletion variants of 6-10 exons, or characterization of a dynamic mutation disorder/triplet repeat by Southern blot analysis)

ACADS (acyl-CoA dehydrogenase, C-2 to C-3 short chain) (eg, short chain acyl-CoA dehydrogenase deficiency), targeted sequence analysis (eg, exons 5 and 6)

AQP2 (aquaporin 2 [collecting duct]) (eg, nephrogenic diabetes insipidus), full gene sequence

ARX (aristaless related homeobox) (eg, X-linked lissencephaly with ambiguous genitalia, X-linked intellectual disability), full gene sequence

AVPR2 (arginine vasopressin receptor 2) (eg, nephrogenic diabetes insipidus), full gene sequence

BBS10 (Bardet-Biedl syndrome 10) (eg, Bardet-Biedl syndrome), full gene sequence

BTD (biotinidase) (eg, biotinidase deficiency), full gene sequence

C10orf2 (chromosome 10 open reading frame 2) (eg, mitochondrial DNA depletion syndrome), full gene sequence

CAV3 (caveolin 3) (eg, CAV3-related distal myopathy, limb-girdle muscular dystrophy type 1C), full gene sequence

CD40LG (CD40 ligand) (eg, X-linked hyper IgM syndrome), full gene sequence

CDKN2A (cyclin-dependent kinase inhibitor 2A) (eg, CDKN2A-related cutaneous malignant melanoma, familial atypical mole-malignant melanoma syndrome), full gene sequence

CLRN1 (clarin 1) (eg, Usher syndrome, type 3), full gene sequence

COX6B1 (cytochrome c oxidase subunit VIb polypeptide 1) (eg, mitochondrial respiratory chain complex IV deficiency), full gene sequence

CPT2 (carnitine palmitoyltransferase 2) (eg, carnitine palmitoyltransferase II deficiency), full gene sequence

CRX (cone-rod homeobox) (eg, cone-rod dystrophy 2, Leber congenital amaurosis), full gene sequence

CYP1B1 (cytochrome P450, family 1, subfamily B, polypeptide 1) (eg, primary congenital glaucoma), full gene sequence

EGR2 (early growth response 2) (eg, Charcot-Marie-Tooth), full gene sequence

EMD (emerin) (eg, Emery-Dreifuss muscular dystrophy), duplication/deletion analysis

EPM2A (epilepsy, progressive myoclonus type 2A, Lafora disease [laforin]) (eg, progressive myoclonus epilepsy), full gene sequence

FGF23 (fibroblast growth factor 23) (eg, hypophosphatemic rickets), full gene sequence

FGFR2 (fibroblast growth factor receptor 2) (eg, craniosynostosis, Apert syndrome, Crouzon syndrome), targeted sequence analysis (eg, exons 8, 10)

FGFR3 (fibroblast growth factor receptor 3) (eg, achondroplasia, hypochondroplasia), targeted sequence analysis (eg, exons 8, 11, 12, 13)

FHL1 (four and a half LIM domains 1) (eg, Emery-Dreifuss muscular dystrophy), full gene sequence

FKRP (fukutin related protein) (eg, congenital muscular dystrophy type 1C [MDC1C], limb-girdle muscular dystrophy [LGMD] type 2I), full gene sequence

FOXG1 (forkhead box G1) (eg, Rett syndrome), full gene sequence

FSHMD1A (facioscapulohumeral muscular dystrophy 1A) (eg, facioscapulohumeral muscular dystrophy), evaluation to detect abnormal (eg, deleted) alleles

FSHMD1A (facioscapulohumeral muscular dystrophy 1A) (eg, facioscapulohumeral muscular dystrophy), characterization of haplotype(s) (ie, chromosome 4A and 4B haplotypes)

GH1 (growth hormone 1) (eg, growth hormone deficiency), full gene sequence

GP1BB (glycoprotein Ib [platelet], beta polypeptide) (eg, Bernard-Soulier syndrome type B), full gene sequence

(For common deletion variants of alpha globin 1 and alpha globin 2 genes, use 81257)

HNF1B (HNF1 homeobox B) (eg, maturity-onset diabetes of the young [MODY]), duplication/deletion analysis

HRAS (v-Ha-ras Harvey rat sarcoma viral oncogene homolog) (eg, Costello syndrome), full gene sequence

HSD3B2 (hydroxy-delta-5-steroid dehydrogenase, 3 beta- and steroid delta-isomerase 2) (eg, 3-beta-hydroxysteroid dehydrogenase type II deficiency), full gene sequence

HSD11B2 (hydroxysteroid [11-beta] dehydrogenase 2) (eg, mineralocorticoid excess syndrome), full gene sequence

HSPB1 (heat shock 27kDa protein 1) (eg, Charcot-Marie-Tooth disease), full gene sequence

INS (insulin) (eg, diabetes mellitus), full gene sequence

KCNJ1 (potassium inwardly-rectifying channel, subfamily J, member 1) (eg, Bartter syndrome), full gene sequence

KCNJ10 (potassium inwardly-rectifying channel, subfamily J, member 10) (eg, SeSAME syndrome, EAST syndrome, sensorineural hearing loss), full gene sequence

LITAF (lipopolysaccharide-induced TNF factor) (eg, Charcot-Marie-Tooth), full gene sequence

MEFV (Mediterranean fever) (eg, familial Mediterranean fever), full gene sequence

MEN1 (multiple endocrine neoplasia I) (eg, multiple endocrine neoplasia type 1, Wermer syndrome), duplication/deletion analysis

MMACHC (methylmalonic aciduria [cobalamin deficiency] cblC type, with homocystinuria) (eg, methylmalonic acidemia and homocystinuria), full gene sequence

MPV17 (MpV17 mitochondrial inner membrane protein) (eg, mitochondrial DNA depletion syndrome), duplication/deletion analysis

NDP (Norrie disease [pseudoglioma]) (eg, Norrie disease), full gene sequence

NDUFA1 (NADH dehydrogenase [ubiquinone] 1 alpha subcomplex, 1, 7.5kDa) (eg, Leigh syndrome, mitochondrial complex I deficiency), full gene sequence

NDUFAF2 (NADH dehydrogenase [ubiquinone] 1 alpha subcomplex, assembly factor 2) (eg, Leigh syndrome, mitochondrial complex I deficiency), full gene sequence

NDUFS4 (NADH dehydrogenase [ubiquinone] Fe-S protein 4, 18kDa [NADH-coenzyme Q reductase]) (eg, Leigh syndrome, mitochondrial complex I deficiency), full gene sequence

NIPA1 (non-imprinted in Prader-Willi/Angelman syndrome 1) (eg, spastic paraplegia), full gene sequence

NLGN4X (neuroligin 4, X-linked) (eg, autism spectrum disorders), duplication/deletion analysis

NPC2 (Niemann-Pick disease, type C2 [epididymal secretory protein E1]) (eg, Niemann-Pick disease type C2), full gene sequence

NR0B1 (nuclear receptor subfamily 0, group B, member 1) (eg, congenital adrenal hypoplasia), full gene sequence

PDX1 (pancreatic and duodenal homeobox 1) (eg, maturity-onset diabetes of the young [MODY]), full gene sequence

PHOX2B (paired-like homeobox 2b) (eg, congenital central hypoventilation syndrome), full gene sequence

PLP1 (proteolipid protein 1) (eg, Pelizaeus-Merzbacher disease, spastic paraplegia), duplication/deletion analysis

PQBP1 (polyglutamine binding protein 1) (eg, Renpenning syndrome), duplication/deletion analysis

PRNP (prion protein) (eg, genetic prion disease), full gene sequence

PROP1 (PROP paired-like homeobox 1) (eg, combined pituitary hormone deficiency), full gene sequence

PRPH2 (peripherin 2 [retinal degeneration, slow]) (eg, retinitis pigmentosa), full gene sequence

PRSS1 (protease, serine, 1 [trypsin 1]) (eg, hereditary pancreatitis), full gene sequence

RAF1 (v-raf-1 murine leukemia viral oncogene homolog 1) (eg, LEOPARD syndrome), targeted sequence analysis (eg, exons 7, 12, 14, 17)

RET (ret proto-oncogene) (eg, multiple endocrine neoplasia, type 2B and familial medullary thyroid carcinoma), common variants (eg, M918T, 2647_2648delinsTT, A883F)

RHO (rhodopsin) (eg, retinitis pigmentosa), full gene sequence

RP1 (retinitis pigmentosa 1) (eg, retinitis pigmentosa), full gene sequence

SCN1B (sodium channel, voltage-gated, type I, beta) (eg, Brugada syndrome), full gene sequence

SCO2 (SCO cytochrome oxidase deficient homolog 2 [SCO1L]) (eg, mitochondrial respiratory chain complex IV deficiency), full gene sequence

SDHC (succinate dehydrogenase complex, subunit C, integral membrane protein, 15kDa) (eg, hereditary paraganglioma-pheochromocytoma syndrome), duplication/deletion analysis

SDHD (succinate dehydrogenase complex, subunit D, integral membrane protein) (eg, hereditary paraganglioma), full gene sequence

SGCG (sarcoglycan, gamma [35kDa dystrophin-associated glycoprotein]) (eg, limb-girdle muscular dystrophy), duplication/deletion analysis

SH2D1A (SH2 domain containing 1A) (eg, X-linked lymphoproliferative syndrome), full gene sequence

SLC16A2 (solute carrier family 16, member 2 [thyroid hormone transporter]) (eg, specific thyroid hormone cell transporter deficiency, Allan-Herndon-Dudley syndrome), duplication/deletion analysis

SLC25A20 (solute carrier family 25 [carnitine/acylcarnitine translocase], member 20) (eg, carnitine-acylcarnitine translocase deficiency), duplication/deletion analysis

SLC25A4 (solute carrier family 25 [mitochondrial carrier; adenine nucleotide translocator], member 4) (eg, progressive external ophthalmoplegia), full gene sequence

SOD1 (superoxide dismutase 1, soluble) (eg, amyotrophic lateral sclerosis), full gene sequence

SPINK1 (serine peptidase inhibitor, Kazal type 1) (eg, hereditary pancreatitis), full gene sequence

STK11 (serine/threonine kinase 11) (eg, Peutz-Jeghers syndrome), duplication/deletion analysis

TACO1 (translational activator of mitochondrial encoded cytochrome c oxidase I) (eg, mitochondrial respiratory chain complex IV deficiency), full gene sequence

THAP1 (THAP domain containing, apoptosis associated protein 1) (eg, torsion dystonia), full gene sequence

TOR1A (torsin family 1, member A [torsin A]) (eg, torsion dystonia), full gene sequence

TTPA (tocopherol [alpha] transfer protein) (eg, ataxia), full gene sequence

TTR (transthyretin) (eg, familial transthyretin amyloidosis), full gene sequence

TWIST1 (twist homolog 1 [Drosophila]) (eg, Saethre-Chotzen syndrome), full gene sequence

TYR (tyrosinase [oculocutaneous albinism IA]) (eg, oculocutaneous albinism IA), full gene sequence

UGT1A1 (UDP glucuronosyltransferase 1 family, polypeptide A1) (eg, hereditary unconjugated hyperbilirubinemia [Crigler-Najjar syndrome]) full gene sequence

USH1G (Usher syndrome 1G [autosomal recessive]) (eg, Usher syndrome, type 1), full gene sequence

VHL (von Hippel-Lindau tumor suppressor) (eg, von Hippel-Lindau familial cancer syndrome), full gene sequence

VWF (von Willebrand factor) (eg, von Willebrand disease type 1C), targeted sequence analysis (eg, exons 26, 27, 37)

ZEB2 (zinc finger E-box binding homeobox 2) (eg, Mowat-Wilson syndrome), duplication/deletion analysis

ZNF41 (zinc finger protein 41) (eg, X-linked intellectual disability 89), full gene sequence

➔ *CPT Changes: An Insider's View* 2012, 2013, 2014, 2015, 2016, 2018, 2019, 2020, 2021, 2024

➔ *CPT Assistant* May 12:4, Jul 13:12, Sep 13:6-7, 9, Jan 15:3, Aug 16:10, May 18:6, Nov 18:9, Jul 19:3, Apr 20:9

81405 Molecular pathology procedure, Level 6 (eg, analysis of 6-10 exons by DNA sequence analysis, mutation scanning or duplication/deletion variants of 11-25 exons, regionally targeted cytogenomic array analysis)

ABCD1 (ATP-binding cassette, sub-family D [ALD], member 1) (eg, adrenoleukodystrophy), full gene sequence

ACADS (acyl-CoA dehydrogenase, C-2 to C-3 short chain) (eg, short chain acyl-CoA dehydrogenase deficiency), full gene sequence

ACTA2 (actin, alpha 2, smooth muscle, aorta) (eg, thoracic aortic aneurysms and aortic dissections), full gene sequence

ACTC1 (actin, alpha, cardiac muscle 1) (eg, familial hypertrophic cardiomyopathy), full gene sequence

ANKRD1 (ankyrin repeat domain 1) (eg, dilated cardiomyopathy), full gene sequence

APTX (aprataxin) (eg, ataxia with oculomotor apraxia 1), full gene sequence

ARSA (arylsulfatase A) (eg, arylsulfatase A deficiency), full gene sequence

BCKDHA (branched chain keto acid dehydrogenase E1, alpha polypeptide) (eg, maple syrup urine disease, type 1A), full gene sequence

BCS1L (BCS1-like [S. cerevisiae]) (eg, Leigh syndrome, mitochondrial complex III deficiency, GRACILE syndrome), full gene sequence

BMPR2 (bone morphogenetic protein receptor, type II [serine/threonine kinase]) (eg, heritable pulmonary arterial hypertension), duplication/deletion analysis

CASQ2 (calsequestrin 2 [cardiac muscle]) (eg, catecholaminergic polymorphic ventricular tachycardia), full gene sequence

CASR (calcium-sensing receptor) (eg, hypocalcemia), full gene sequence

CDKL5 (cyclin-dependent kinase-like 5) (eg, early infantile epileptic encephalopathy), duplication/deletion analysis

CHRNA4 (cholinergic receptor, nicotinic, alpha 4) (eg, nocturnal frontal lobe epilepsy), full gene sequence

CHRNB2 (cholinergic receptor, nicotinic, beta 2 [neuronal]) (eg, nocturnal frontal lobe epilepsy), full gene sequence

COX10 (COX10 homolog, cytochrome c oxidase assembly protein) (eg, mitochondrial respiratory chain complex IV deficiency), full gene sequence

COX15 (COX15 homolog, cytochrome c oxidase assembly protein) (eg, mitochondrial respiratory chain complex IV deficiency), full gene sequence

CPOX (coproporphyrinogen oxidase) (eg, hereditary coproporphyria), full gene sequence

CTRC (chymotrypsin C) (eg, hereditary pancreatitis), full gene sequence

CYP11B1 (cytochrome P450, family 11, subfamily B, polypeptide 1) (eg, congenital adrenal hyperplasia), full gene sequence

CYP17A1 (cytochrome P450, family 17, subfamily A, polypeptide 1) (eg, congenital adrenal hyperplasia), full gene sequence

CYP21A2 (cytochrome P450, family 21, subfamily A, polypeptide2) (eg, steroid 21-hydroxylase isoform, congenital adrenal hyperplasia), full gene sequence

Cytogenomic constitutional targeted microarray analysis of chromosome 22q13 by interrogation of genomic regions for copy number and single nucleotide polymorphism (SNP) variants for chromosomal abnormalities

(When performing cytogenomic [genome-wide] analysis for constitutional chromosomal abnormalities, see 81228, 81229, 81349)

(Do not report analyte-specific molecular pathology procedures separately when the specific analytes are included as part of the microarray analysis of chromosome 22q13)

(Do not report 88271 when performing cytogenomic microarray analysis)

DBT (dihydrolipoamide branched chain transacylase E2) (eg, maple syrup urine disease, type 2), duplication/deletion analysis

DCX (doublecortin) (eg, X-linked lissencephaly), full gene sequence

DES (desmin) (eg, myofibrillar myopathy), full gene sequence

DFNB59 (deafness, autosomal recessive 59) (eg, autosomal recessive nonsyndromic hearing impairment), full gene sequence

DGUOK (deoxyguanosine kinase) (eg, hepatocerebral mitochondrial DNA depletion syndrome), full gene sequence

DHCR7 (7-dehydrocholesterol reductase) (eg, Smith-Lemli-Opitz syndrome), full gene sequence

EIF2B2 (eukaryotic translation initiation factor 2B, subunit 2 beta, 39kDa) (eg, leukoencephalopathy with vanishing white matter), full gene sequence

EMD (emerin) (eg, Emery-Dreifuss muscular dystrophy), full gene sequence

ENG (endoglin) (eg, hereditary hemorrhagic telangiectasia, type 1), duplication/deletion analysis

EYA1 (eyes absent homolog 1 [Drosophila]) (eg, branchio-oto-renal [BOR] spectrum disorders), duplication/deletion analysis

FGFR1 (fibroblast growth factor receptor 1) (eg, Kallmann syndrome 2), full gene sequence

FH (fumarate hydratase) (eg, fumarate hydratase deficiency, hereditary leiomyomatosis with renal cell cancer), full gene sequence

FKTN (fukutin) (eg, limb-girdle muscular dystrophy [LGMD] type 2M or 2L), full gene sequence

FTSJ1 (FtsJ RNA 2'-O-methyltransferase 1) (eg, X-linked intellectual disability 9), duplication/deletion analysis

GABRG2 (gamma-aminobutyric acid [GABA] A receptor, gamma 2) (eg, generalized epilepsy with febrile seizures), full gene sequence

GCH1 (GTP cyclohydrolase 1) (eg, autosomal dominant dopa-responsive dystonia), full gene sequence

GDAP1 (ganglioside-induced differentiation-associated protein 1) (eg, Charcot-Marie-Tooth disease), full gene sequence

GFAP (glial fibrillary acidic protein) (eg, Alexander disease), full gene sequence

GHR (growth hormone receptor) (eg, Laron syndrome), full gene sequence

GHRHR (growth hormone releasing hormone receptor) (eg, growth hormone deficiency), full gene sequence

GLA (galactosidase, alpha) (eg, Fabry disease), full gene sequence

HNF1A (HNF1 homeobox A) (eg, maturity-onset diabetes of the young [MODY]), full gene sequence

HNF1B (HNF1 homeobox B) (eg, maturity-onset diabetes of the young [MODY]), full gene sequence

HTRA1 (HtrA serine peptidase 1) (eg, macular degeneration), full gene sequence

IDS (iduronate 2-sulfatase) (eg, mucopolysacchridosis, type II), full gene sequence

IL2RG (interleukin 2 receptor, gamma) (eg, X-linked severe combined immunodeficiency), full gene sequence

ISPD (isoprenoid synthase domain containing) (eg, muscle-eye-brain disease, Walker-Warburg syndrome), full gene sequence

KRAS (Kirsten rat sarcoma viral oncogene homolog) (eg, Noonan syndrome), full gene sequence

LAMP2 (lysosomal-associated membrane protein 2) (eg, Danon disease), full gene sequence

LDLR (low density lipoprotein receptor) (eg, familial hypercholesterolemia), duplication/deletion analysis

MEN1 (multiple endocrine neoplasia I) (eg, multiple endocrine neoplasia type 1, Wermer syndrome), full gene sequence

MMAA (methylmalonic aciduria [cobalamine deficiency] type A) (eg, MMAA-related methylmalonic acidemia), full gene sequence

MMAB (methylmalonic aciduria [cobalamine deficiency] type B) (eg, MMAA-related methylmalonic acidemia), full gene sequence

MPI (mannose phosphate isomerase) (eg, congenital disorder of glycosylation 1b), full gene sequence

MPV17 (MpV17 mitochondrial inner membrane protein) (eg, mitochondrial DNA depletion syndrome), full gene sequence

MPZ (myelin protein zero) (eg, Charcot-Marie-Tooth), full gene sequence

MTM1 (myotubularin 1) (eg, X-linked centronuclear myopathy), duplication/deletion analysis

MYL2 (myosin, light chain 2, regulatory, cardiac, slow) (eg, familial hypertrophic cardiomyopathy), full gene sequence

MYL3 (myosin, light chain 3, alkali, ventricular, skeletal, slow) (eg, familial hypertrophic cardiomyopathy), full gene sequence

MYOT (myotilin) (eg, limb-girdle muscular dystrophy), full gene sequence

NDUFS7 (NADH dehydrogenase [ubiquinone] Fe-S protein 7, 20kDa [NADH-coenzyme Q reductase]) (eg, Leigh syndrome, mitochondrial complex I deficiency), full gene sequence

NDUFS8 (NADH dehydrogenase [ubiquinone] Fe-S protein 8, 23kDa [NADH-coenzyme Q reductase]) (eg, Leigh syndrome, mitochondrial complex I deficiency), full gene sequence

NDUFV1 (NADH dehydrogenase [ubiquinone] flavoprotein 1, 51kDa) (eg, Leigh syndrome, mitochondrial complex I deficiency), full gene sequence

NEFL (neurofilament, light polypeptide) (eg, Charcot-Marie-Tooth), full gene sequence

NF2 (neurofibromin 2 [merlin]) (eg, neurofibromatosis, type 2), duplication/deletion analysis

NLGN3 (neuroligin 3) (eg, autism spectrum disorders), full gene sequence

NLGN4X (neuroligin 4, X-linked) (eg, autism spectrum disorders), full gene sequence

NPHP1 (nephronophthisis 1 [juvenile]) (eg, Joubert syndrome), deletion analysis, and duplication analysis, if performed

NPHS2 (nephrosis 2, idiopathic, steroid-resistant [podocin]) (eg, steroid-resistant nephrotic syndrome), full gene sequence

NSD1 (nuclear receptor binding SET domain protein 1) (eg, Sotos syndrome), duplication/deletion analysis

OTC (ornithine carbamoyltransferase) (eg, ornithine transcarbamylase deficiency), full gene sequence

PAFAH1B1 (platelet-activating factor acetylhydrolase 1b, regulatory subunit 1 [45kDa]) (eg, lissencephaly, Miller-Dieker syndrome), duplication/deletion analysis

PARK2 (Parkinson protein 2, E3 ubiquitin protein ligase [parkin]) (eg, Parkinson disease), duplication/deletion analysis

PCCA (propionyl CoA carboxylase, alpha polypeptide) (eg, propionic acidemia, type 1), duplication/deletion analysis

PCDH19 (protocadherin 19) (eg, epileptic encephalopathy), full gene sequence

PDHA1 (pyruvate dehydrogenase [lipoamide] alpha 1) (eg, lactic acidosis), duplication/deletion analysis

PDHB (pyruvate dehydrogenase [lipoamide] beta) (eg, lactic acidosis), full gene sequence

PINK1 (PTEN induced putative kinase 1) (eg, Parkinson disease), full gene sequence

PKLR (pyruvate kinase, liver and RBC) (eg, pyruvate kinase deficiency), full gene sequence

PLP1 (proteolipid protein 1) (eg, Pelizaeus-Merzbacher disease, spastic paraplegia), full gene sequence

POU1F1 (POU class 1 homeobox 1) (eg, combined pituitary hormone deficiency), full gene sequence

PRX (periaxin) (eg, Charcot-Marie-Tooth disease), full gene sequence

PQBP1 (polyglutamine binding protein 1) (eg, Renpenning syndrome), full gene sequence

PSEN1 (presenilin 1) (eg, Alzheimer disease), full gene sequence

RAB7A (RAB7A, member RAS oncogene family) (eg, Charcot-Marie-Tooth disease), full gene sequence

RAI1 (retinoic acid induced 1) (eg, Smith-Magenis syndrome), full gene sequence

REEP1 (receptor accessory protein 1) (eg, spastic paraplegia), full gene sequence

RET (ret proto-oncogene) (eg, multiple endocrine neoplasia, type 2A and familial medullary thyroid carcinoma), targeted sequence analysis (eg, exons 10, 11, 13-16)

RPS19 (ribosomal protein S19) (eg, Diamond-Blackfan anemia), full gene sequence

RRM2B (ribonucleotide reductase M2 B [TP53 inducible]) (eg, mitochondrial DNA depletion), full gene sequence

SCO1 (SCO cytochrome oxidase deficient homolog 1) (eg, mitochondrial respiratory chain complex IV deficiency), full gene sequence

SDHB (succinate dehydrogenase complex, subunit B, iron sulfur) (eg, hereditary paraganglioma), full gene sequence

SDHC (succinate dehydrogenase complex, subunit C, integral membrane protein, 15kDa) (eg, hereditary paraganglioma-pheochromocytoma syndrome), full gene sequence

SGCA (sarcoglycan, alpha [50kDa dystrophin-associated glycoprotein]) (eg, limb-girdle muscular dystrophy), full gene sequence

SGCB (sarcoglycan, beta [43kDa dystrophin-associated glycoprotein]) (eg, limb-girdle muscular dystrophy), full gene sequence

SGCD (sarcoglycan, delta [35kDa dystrophin-associated glycoprotein]) (eg, limb-girdle muscular dystrophy), full gene sequence

SGCE (sarcoglycan, epsilon) (eg, myoclonic dystonia), duplication/deletion analysis

SGCG (sarcoglycan, gamma [35kDa dystrophin-associated glycoprotein]) (eg, limb-girdle muscular dystrophy), full gene sequence

SHOC2 (soc-2 suppressor of clear homolog) (eg, Noonan-like syndrome with loose anagen hair), full gene sequence

SHOX (short stature homeobox) (eg, Langer mesomelic dysplasia), full gene sequence

SIL1 (SIL1 homolog, endoplasmic reticulum chaperone [S. cerevisiae]) (eg, ataxia), full gene sequence

SLC2A1 (solute carrier family 2 [facilitated glucose transporter], member 1) (eg, glucose transporter type 1 [GLUT 1] deficiency syndrome), full gene sequence

SLC16A2 (solute carrier family 16, member 2 [thyroid hormone transporter]) (eg, specific thyroid hormone cell transporter deficiency, Allan-Herndon-Dudley syndrome), full gene sequence

SLC22A5 (solute carrier family 22 [organic cation/carnitine transporter], member 5) (eg, systemic primary carnitine deficiency), full gene sequence

SLC25A20 (solute carrier family 25 [carnitine/acylcarnitine translocase], member 20) (eg, carnitine-acylcarnitine translocase deficiency), full gene sequence

SMAD4 (SMAD family member 4) (eg, hemorrhagic telangiectasia syndrome, juvenile polyposis), duplication/deletion analysis

SPAST (spastin) (eg, spastic paraplegia), duplication/deletion analysis

SPG7 (spastic paraplegia 7 [pure and complicated autosomal recessive]) (eg, spastic paraplegia), duplication/deletion analysis

SPRED1 (sprouty-related, EVH1 domain containing 1) (eg, Legius syndrome), full gene sequence

STAT3 (signal transducer and activator of transcription 3 [acute-phase response factor]) (eg, autosomal dominant hyper-IgE syndrome), targeted sequence analysis (eg, exons 12, 13, 14, 16, 17, 20, 21)

STK11 (serine/threonine kinase 11) (eg, Peutz-Jeghers syndrome), full gene sequence

SURF1 (surfeit 1) (eg, mitochondrial respiratory chain complex IV deficiency), full gene sequence

TARDBP (TAR DNA binding protein) (eg, amyotrophic lateral sclerosis), full gene sequence

TBX5 (T-box 5) (eg, Holt-Oram syndrome), full gene sequence

TCF4 (transcription factor 4) (eg, Pitt-Hopkins syndrome), duplication/deletion analysis

TGFBR1 (transforming growth factor, beta receptor 1) (eg, Marfan syndrome), full gene sequence

TGFBR2 (transforming growth factor, beta receptor 2) (eg, Marfan syndrome), full gene sequence

THRB (thyroid hormone receptor, beta) (eg, thyroid hormone resistance, thyroid hormone beta receptor deficiency), full gene sequence or targeted sequence analysis of >5 exons

TK2 (thymidine kinase 2, mitochondrial) (eg, mitochondrial DNA depletion syndrome), full gene sequence

TNNC1 (troponin C type 1 [slow]) (eg, hypertrophic cardiomyopathy or dilated cardiomyopathy), full gene sequence

TNNI3 (troponin I, type 3 [cardiac]) (eg, familial hypertrophic cardiomyopathy), full gene sequence

TPM1 (tropomyosin 1 [alpha]) (eg, familial hypertrophic cardiomyopathy), full gene sequence

TSC1 (tuberous sclerosis 1) (eg, tuberous sclerosis), duplication/deletion analysis

TYMP (thymidine phosphorylase) (eg, mitochondrial DNA depletion syndrome), full gene sequence

VWF (von Willebrand factor) (eg, von Willebrand disease type 2N), targeted sequence analysis (eg, exons 18-20, 23-25)

WT1 (Wilms tumor 1) (eg, Denys-Drash syndrome, familial Wilms tumor), full gene sequence

ZEB2 (zinc finger E-box binding homeobox 2) (eg, Mowat-Wilson syndrome), full gene sequence

➔ *CPT Changes: An Insider's View* 2012, 2013, 2014, 2015, 2024

➔ *CPT Assistant* May 12:4, Jul 13:12, Sep 13:8, 10, Jan 15:3, Aug 16:10, May 18:6, Sep 18:15, Nov 18:9, Jul 19:3

81406 Molecular pathology procedure, Level 7 (eg, analysis of 11-25 exons by DNA sequence analysis, mutation scanning or duplication/deletion variants of 26-50 exons)

ACADVL (acyl-CoA dehydrogenase, very long chain) (eg, very long chain acyl-coenzyme A dehydrogenase deficiency), full gene sequence

ACTN4 (actinin, alpha 4) (eg, focal segmental glomerulosclerosis), full gene sequence

AFG3L2 (AFG3 ATPase family gene 3-like 2 [S. cerevisiae]) (eg, spinocerebellar ataxia), full gene sequence

AIRE (autoimmune regulator) (eg, autoimmune polyendocrinopathy syndrome type 1), full gene sequence

ALDH7A1 (aldehyde dehydrogenase 7 family, member A1) (eg, pyridoxine-dependent epilepsy), full gene sequence

ANO5 (anoctamin 5) (eg, limb-girdle muscular dystrophy), full gene sequence

ANOS1 (anosmin-1) (eg, Kallmann syndrome 1), full gene sequence

APP (amyloid beta [A4] precursor protein) (eg, Alzheimer disease), full gene sequence

ASS1 (argininosuccinate synthase 1) (eg, citrullinemia type I), full gene sequence

ATL1 (atlastin GTPase 1) (eg, spastic paraplegia), full gene sequence

ATP1A2 (ATPase, Na+/K+ transporting, alpha 2 polypeptide) (eg, familial hemiplegic migraine), full gene sequence

ATP7B (ATPase, Cu++ transporting, beta polypeptide) (eg, Wilson disease), full gene sequence

BBS1 (Bardet-Biedl syndrome 1) (eg, Bardet-Biedl syndrome), full gene sequence

BBS2 (Bardet-Biedl syndrome 2) (eg, Bardet-Biedl syndrome), full gene sequence

BCKDHB (branched-chain keto acid dehydrogenase E1, beta polypeptide) (eg, maple syrup urine disease, type 1B), full gene sequence

BEST1 (bestrophin 1) (eg, vitelliform macular dystrophy), full gene sequence

BMPR2 (bone morphogenetic protein receptor, type II [serine/threonine kinase]) (eg, heritable pulmonary arterial hypertension), full gene sequence

BRAF (B-Raf proto-oncogene, serine/threonine kinase) (eg, Noonan syndrome), full gene sequence

BSCL2 (Berardinelli-Seip congenital lipodystrophy 2 [seipin]) (eg, Berardinelli-Seip congenital lipodystrophy), full gene sequence

BTK (Bruton agammaglobulinemia tyrosine kinase) (eg, X-linked agammaglobulinemia), full gene sequence

CACNB2 (calcium channel, voltage-dependent, beta 2 subunit) (eg, Brugada syndrome), full gene sequence

CAPN3 (calpain 3) (eg, limb-girdle muscular dystrophy [LGMD] type 2A, calpainopathy), full gene sequence

CBS (cystathionine-beta-synthase) (eg, homocystinuria, cystathionine beta-synthase deficiency), full gene sequence

CDH1 (cadherin 1, type 1, E-cadherin [epithelial]) (eg, hereditary diffuse gastric cancer), full gene sequence

CDKL5 (cyclin-dependent kinase-like 5) (eg, early infantile epileptic encephalopathy), full gene sequence

CLCN1 (chloride channel 1, skeletal muscle) (eg, myotonia congenita), full gene sequence

CLCNKB (chloride channel, voltage-sensitive Kb) (eg, Bartter syndrome 3 and 4b), full gene sequence

CNTNAP2 (contactin-associated protein-like 2) (eg, Pitt-Hopkins-like syndrome 1), full gene sequence

COL6A2 (collagen, type VI, alpha 2) (eg, collagen type VI-related disorders), duplication/deletion analysis

CPT1A (carnitine palmitoyltransferase 1A [liver]) (eg, carnitine palmitoyltransferase 1A [CPT1A] deficiency), full gene sequence

CRB1 (crumbs homolog 1 [Drosophila]) (eg, Leber congenital amaurosis), full gene sequence

CREBBP (CREB binding protein) (eg, Rubinstein-Taybi syndrome), duplication/deletion analysis

DBT (dihydrolipoamide branched chain transacylase E2) (eg, maple syrup urine disease, type 2), full gene sequence

DLAT (dihydrolipoamide S-acetyltransferase) (eg, pyruvate dehydrogenase E2 deficiency), full gene sequence

DLD (dihydrolipoamide dehydrogenase) (eg, maple syrup urine disease, type III), full gene sequence

DSC2 (desmocollin) (eg, arrhythmogenic right ventricular dysplasia/cardiomyopathy 11), full gene sequence

DSG2 (desmoglein 2) (eg, arrhythmogenic right ventricular dysplasia/cardiomyopathy 10), full gene sequence

DSP (desmoplakin) (eg, arrhythmogenic right ventricular dysplasia/cardiomyopathy 8), full gene sequence

EFHC1 (EF-hand domain [C-terminal] containing 1) (eg, juvenile myoclonic epilepsy), full gene sequence

EIF2B3 (eukaryotic translation initiation factor 2B, subunit 3 gamma, 58kDa) (eg, leukoencephalopathy with vanishing white matter), full gene sequence

EIF2B4 (eukaryotic translation initiation factor 2B, subunit 4 delta, 67kDa) (eg, leukoencephalopathy with vanishing white matter), full gene sequence

EIF2B5 (eukaryotic translation initiation factor 2B, subunit 5 epsilon, 82kDa) (eg, childhood ataxia with central nervous system hypomyelination/vanishing white matter), full gene sequence

ENG (endoglin) (eg, hereditary hemorrhagic telangiectasia, type 1), full gene sequence

EYA1 (eyes absent homolog 1 [Drosophila]) (eg, branchio-oto-renal [BOR] spectrum disorders), full gene sequence

F8 (coagulation factor VIII) (eg, hemophilia A), duplication/deletion analysis

FAH (fumarylacetoacetate hydrolase [fumarylacetoacetase]) (eg, tyrosinemia, type 1), full gene sequence

FASTKD2 (FAST kinase domains 2) (eg, mitochondrial respiratory chain complex IV deficiency), full gene sequence

FIG4 (FIG4 homolog, SAC1 lipid phosphatase domain containing [S. cerevisiae]) (eg, Charcot-Marie-Tooth disease), full gene sequence

FTSJ1 (FtsJ RNA 2'-O-methyltransferase 1) (eg, X-linked intellectual disability 9), full gene sequence

FUS (fused in sarcoma) (eg, amyotrophic lateral sclerosis), full gene sequence

GAA (glucosidase, alpha; acid) (eg, glycogen storage disease type II [Pompe disease]), full gene sequence

GALC (galactosylceramidase) (eg, Krabbe disease), full gene sequence

GALT (galactose-1-phosphate uridylyltransferase) (eg, galactosemia), full gene sequence

GARS (glycyl-tRNA synthetase) (eg, Charcot-Marie-Tooth disease), full gene sequence

GCDH (glutaryl-CoA dehydrogenase) (eg, glutaricacidemia type 1), full gene sequence

GCK (glucokinase [hexokinase 4]) (eg, maturity-onset diabetes of the young [MODY]), full gene sequence

GLUD1 (glutamate dehydrogenase 1) (eg, familial hyperinsulinism), full gene sequence

GNE (glucosamine [UDP-N-acetyl]-2-epimerase/N-acetylmannosamine kinase) (eg, inclusion body myopathy 2 [IBM2], Nonaka myopathy), full gene sequence

GRN (granulin) (eg, frontotemporal dementia), full gene sequence

HADHA (hydroxyacyl-CoA dehydrogenase/3-ketoacyl-CoA thiolase/enoyl-CoA hydratase [trifunctional protein] alpha subunit) (eg, long chain acyl-coenzyme A dehydrogenase deficiency), full gene sequence

HADHB (hydroxyacyl-CoA dehydrogenase/3-ketoacyl-CoA thiolase/enoyl-CoA hydratase [trifunctional protein], beta subunit) (eg, trifunctional protein deficiency), full gene sequence

HEXA (hexosaminidase A, alpha polypeptide) (eg, Tay-Sachs disease), full gene sequence

HLCS (HLCS holocarboxylase synthetase) (eg, holocarboxylase synthetase deficiency), full gene sequence

HMBS (hydroxymethylbilane synthase) (eg, acute intermittent porphyria), full gene sequence

HNF4A (hepatocyte nuclear factor 4, alpha) (eg, maturity-onset diabetes of the young [MODY]), full gene sequence

IDUA (iduronidase, alpha-L-) (eg, mucopolysaccharidosis type I), full gene sequence

INF2 (inverted formin, FH2 and WH2 domain containing) (eg, focal segmental glomerulosclerosis), full gene sequence

IVD (isovaleryl-CoA dehydrogenase) (eg, isovaleric acidemia), full gene sequence

JAG1 (jagged 1) (eg, Alagille syndrome), duplication/deletion analysis

JUP (junction plakoglobin) (eg, arrhythmogenic right ventricular dysplasia/cardiomyopathy 11), full gene sequence

KCNH2 (potassium voltage-gated channel, subfamily H [eag-related], member 2) (eg, short QT syndrome, long QT syndrome), full gene sequence

KCNQ1 (potassium voltage-gated channel, KQT-like subfamily, member 1) (eg, short QT syndrome, long QT syndrome), full gene sequence

KCNQ2 (potassium voltage-gated channel, KQT-like subfamily, member 2) (eg, epileptic encephalopathy), full gene sequence

LDB3 (LIM domain binding 3) (eg, familial dilated cardiomyopathy, myofibrillar myopathy), full gene sequence

LDLR (low density lipoprotein receptor) (eg, familial hypercholesterolemia), full gene sequence

LEPR (leptin receptor) (eg, obesity with hypogonadism), full gene sequence

LHCGR (luteinizing hormone/choriogonadotropin receptor) (eg, precocious male puberty), full gene sequence

LMNA (lamin A/C) (eg, Emery-Dreifuss muscular dystrophy [EDMD1, 2 and 3] limb-girdle muscular dystrophy [LGMD] type 1B, dilated cardiomyopathy [CMD1A], familial partial lipodystrophy [FPLD2]), full gene sequence

LRP5 (low density lipoprotein receptor-related protein 5) (eg, osteopetrosis), full gene sequence

MAP2K1 (mitogen-activated protein kinase 1) (eg, cardiofaciocutaneous syndrome), full gene sequence

MAP2K2 (mitogen-activated protein kinase 2) (eg, cardiofaciocutaneous syndrome), full gene sequence

MAPT (microtubule-associated protein tau) (eg, frontotemporal dementia), full gene sequence

MCCC1 (methylcrotonoyl-CoA carboxylase 1 [alpha]) (eg, 3-methylcrotonyl-CoA carboxylase deficiency), full gene sequence

MCCC2 (methylcrotonoyl-CoA carboxylase 2 [beta]) (eg, 3-methylcrotonyl carboxylase deficiency), full gene sequence

MFN2 (mitofusin 2) (eg, Charcot-Marie-Tooth disease), full gene sequence

MTM1 (myotubularin 1) (eg, X-linked centronuclear myopathy), full gene sequence

MUT (methylmalonyl CoA mutase) (eg, methylmalonic acidemia), full gene sequence

MUTYH (mutY homolog [E. coli]) (eg, MYH-associated polyposis), full gene sequence

NDUFS1 (NADH dehydrogenase [ubiquinone] Fe-S protein 1, 75kDa [NADH-coenzyme Q reductase]) (eg, Leigh syndrome, mitochondrial complex I deficiency), full gene sequence

NF2 (neurofibromin 2 [merlin]) (eg, neurofibromatosis, type 2), full gene sequence

NOTCH3 (notch 3) (eg, cerebral autosomal dominant arteriopathy with subcortical infarcts and leukoencephalopathy [CADASIL]), targeted sequence analysis (eg, exons 1-23)

NPC1 (Niemann-Pick disease, type C1) (eg, Niemann-Pick disease), full gene sequence

NPHP1 (nephronophthisis 1 [juvenile]) (eg, Joubert syndrome), full gene sequence

NSD1 (nuclear receptor binding SET domain protein 1) (eg, Sotos syndrome), full gene sequence

OPA1 (optic atrophy 1) (eg, optic atrophy), duplication/deletion analysis

OPTN (optineurin) (eg, amyotrophic lateral sclerosis), full gene sequence

PAFAH1B1 (platelet-activating factor acetylhydrolase 1b, regulatory subunit 1 [45kDa]) (eg, lissencephaly, Miller-Dieker syndrome), full gene sequence

PAH (phenylalanine hydroxylase) (eg, phenylketonuria), full gene sequence

PARK2 (Parkinson protein 2, E3 ubiquitin protein ligase [parkin]) (eg, Parkinson disease), full gene sequence

PAX2 (paired box 2) (eg, renal coloboma syndrome), full gene sequence

PC (pyruvate carboxylase) (eg, pyruvate carboxylase deficiency), full gene sequence

PCCA (propionyl CoA carboxylase, alpha polypeptide) (eg, propionic acidemia, type 1), full gene sequence

PCCB (propionyl CoA carboxylase, beta polypeptide) (eg, propionic acidemia), full gene sequence

PCDH15 (protocadherin-related 15) (eg, Usher syndrome type 1F), duplication/deletion analysis

PCSK9 (proprotein convertase subtilisin/kexin type 9) (eg, familial hypercholesterolemia), full gene sequence

PDHA1 (pyruvate dehydrogenase [lipoamide] alpha 1) (eg, lactic acidosis), full gene sequence

PDHX (pyruvate dehydrogenase complex, component X) (eg, lactic acidosis), full gene sequence

PHEX (phosphate-regulating endopeptidase homolog, X-linked) (eg, hypophosphatemic rickets), full gene sequence

PKD2 (polycystic kidney disease 2 [autosomal dominant]) (eg, polycystic kidney disease), full gene sequence

PKP2 (plakophilin 2) (eg, arrhythmogenic right ventricular dysplasia/cardiomyopathy 9), full gene sequence

PNKD (paroxysmal nonkinesigenic dyskinesia) (eg, paroxysmal nonkinesigenic dyskinesia), full gene sequence

POLG (polymerase [DNA directed], gamma) (eg, Alpers-Huttenlocher syndrome, autosomal dominant progressive external ophthalmoplegia), full gene sequence

POMGNT1 (protein O-linked mannose beta1,2-N acetylglucosaminyltransferase) (eg, muscle-eye-brain disease, Walker-Warburg syndrome), full gene sequence

POMT1 (protein-O-mannosyltransferase 1) (eg, limb-girdle muscular dystrophy [LGMD] type 2K, Walker-Warburg syndrome), full gene sequence

POMT2 (protein-O-mannosyltransferase 2) (eg, limb-girdle muscular dystrophy [LGMD] type 2N, Walker-Warburg syndrome), full gene sequence

PPOX (protoporphyrinogen oxidase) (eg, variegate porphyria), full gene sequence

PRKAG2 (protein kinase, AMP-activated, gamma 2 non-catalytic subunit) (eg, familial hypertrophic cardiomyopathy with Wolff-Parkinson-White syndrome, lethal congenital glycogen storage disease of heart), full gene sequence

PRKCG (protein kinase C, gamma) (eg, spinocerebellar ataxia), full gene sequence

PSEN2 (presenilin 2 [Alzheimer disease 4]) (eg, Alzheimer disease), full gene sequence

PTPN11 (protein tyrosine phosphatase, non-receptor type 11) (eg, Noonan syndrome, LEOPARD syndrome), full gene sequence

PYGM (phosphorylase, glycogen, muscle) (eg, glycogen storage disease type V, McArdle disease), full gene sequence

RAF1 (v-raf-1 murine leukemia viral oncogene homolog 1) (eg, LEOPARD syndrome), full gene sequence

RET (ret proto-oncogene) (eg, Hirschsprung disease), full gene sequence

RPE65 (retinal pigment epithelium-specific protein 65kDa) (eg, retinitis pigmentosa, Leber congenital amaurosis), full gene sequence

RYR1 (ryanodine receptor 1, skeletal) (eg, malignant hyperthermia), targeted sequence analysis of exons with functionally-confirmed mutations

SCN4A (sodium channel, voltage-gated, type IV, alpha subunit) (eg, hyperkalemic periodic paralysis), full gene sequence

SCNN1A (sodium channel, nonvoltage-gated 1 alpha) (eg, pseudohypoaldosteronism), full gene sequence

SCNN1B (sodium channel, nonvoltage-gated 1, beta) (eg, Liddle syndrome, pseudohypoaldosteronism), full gene sequence

SCNN1G (sodium channel, nonvoltage-gated 1, gamma) (eg, Liddle syndrome, pseudohypoaldosteronism), full gene sequence

SDHA (succinate dehydrogenase complex, subunit A, flavoprotein [Fp]) (eg, Leigh syndrome, mitochondrial complex II deficiency), full gene sequence

SETX (senataxin) (eg, ataxia), full gene sequence

SGCE (sarcoglycan, epsilon) (eg, myoclonic dystonia), full gene sequence

SH3TC2 (SH3 domain and tetratricopeptide repeats 2) (eg, Charcot-Marie-Tooth disease), full gene sequence

SLC9A6 (solute carrier family 9 [sodium/hydrogen exchanger], member 6) (eg, Christianson syndrome), full gene sequence

SLC26A4 (solute carrier family 26, member 4) (eg, Pendred syndrome), full gene sequence

SLC37A4 (solute carrier family 37 [glucose-6-phosphate transporter], member 4) (eg, glycogen storage disease type Ib), full gene sequence

SMAD4 (SMAD family member 4) (eg, hemorrhagic telangiectasia syndrome, juvenile polyposis), full gene sequence

SOS1 (son of sevenless homolog 1) (eg, Noonan syndrome, gingival fibromatosis), full gene sequence

SPAST (spastin) (eg, spastic paraplegia), full gene sequence

SPG7 (spastic paraplegia 7 [pure and complicated autosomal recessive]) (eg, spastic paraplegia), full gene sequence

STXBP1 (syntaxin-binding protein 1) (eg, epileptic encephalopathy), full gene sequence

TAZ (tafazzin) (eg, methylglutaconic aciduria type 2, Barth syndrome), full gene sequence

TCF4 (transcription factor 4) (eg, Pitt-Hopkins syndrome), full gene sequence

TH (tyrosine hydroxylase) (eg, Segawa syndrome), full gene sequence

TMEM43 (transmembrane protein 43) (eg, arrhythmogenic right ventricular cardiomyopathy), full gene sequence

TNNT2 (troponin T, type 2 [cardiac]) (eg, familial hypertrophic cardiomyopathy), full gene sequence

TRPC6 (transient receptor potential cation channel, subfamily C, member 6) (eg, focal segmental glomerulosclerosis), full gene sequence

TSC1 (tuberous sclerosis 1) (eg, tuberous sclerosis), full gene sequence

TSC2 (tuberous sclerosis 2) (eg, tuberous sclerosis), duplication/deletion analysis

UBE3A (ubiquitin protein ligase E3A) (eg, Angelman syndrome), full gene sequence

UMOD (uromodulin) (eg, glomerulocystic kidney disease with hyperuricemia and isosthenuria), full gene sequence

VWF (von Willebrand factor) (von Willebrand disease type 2A), extended targeted sequence analysis (eg, exons 11-16, 24-26, 51, 52)

WAS (Wiskott-Aldrich syndrome [eczema-thrombocytopenia]) (eg, Wiskott-Aldrich syndrome), full gene sequence

81407 Molecular pathology procedure, Level 8 (eg, analysis of 26-50 exons by DNA sequence analysis, mutation scanning or duplication/deletion variants of >50 exons, sequence analysis of multiple genes on one platform)

ABCC8 (ATP-binding cassette, sub-family C [CFTR/MRP], member 8) (eg, familial hyperinsulinism), full gene sequence

AGL (amylo-alpha-1, 6-glucosidase, 4-alpha-glucanotransferase) (eg, glycogen storage disease type III), full gene sequence

AHI1 (Abelson helper integration site 1) (eg, Joubert syndrome), full gene sequence

APOB (apolipoprotein B) (eg, familial hypercholesterolemia type B) full gene sequence

ASPM (asp [abnormal spindle] homolog, microcephaly associated [Drosophila]) (eg, primary microcephaly), full gene sequence

CHD7 (chromodomain helicase DNA binding protein 7) (eg, CHARGE syndrome), full gene sequence

COL4A4 (collagen, type IV, alpha 4) (eg, Alport syndrome), full gene sequence

COL4A5 (collagen, type IV, alpha 5) (eg, Alport syndrome), duplication/deletion analysis

COL6A1 (collagen, type VI, alpha 1) (eg, collagen type VI-related disorders), full gene sequence

COL6A2 (collagen, type VI, alpha 2) (eg, collagen type VI-related disorders), full gene sequence

COL6A3 (collagen, type VI, alpha 3) (eg, collagen type VI-related disorders), full gene sequence

CREBBP (CREB binding protein) (eg, Rubinstein-Taybi syndrome), full gene sequence

F8 (coagulation factor VIII) (eg, hemophilia A), full gene sequence

JAG1 (jagged 1) (eg, Alagille syndrome), full gene sequence

KDM5C (lysine demethylase 5C) (eg, X-linked intellectual disability), full gene sequence

KIAA0196 (KIAA0196) (eg, spastic paraplegia), full gene sequence

L1CAM (L1 cell adhesion molecule) (eg, MASA syndrome, X-linked hydrocephaly), full gene sequence

LAMB2 (laminin, beta 2 [laminin S]) (eg, Pierson syndrome), full gene sequence

MYBPC3 (myosin binding protein C, cardiac) (eg, familial hypertrophic cardiomyopathy), full gene sequence

MYH6 (myosin, heavy chain 6, cardiac muscle, alpha) (eg, familial dilated cardiomyopathy), full gene sequence

MYH7 (myosin, heavy chain 7, cardiac muscle, beta) (eg, familial hypertrophic cardiomyopathy, Liang distal myopathy), full gene sequence

MYO7A (myosin VIIA) (eg, Usher syndrome, type 1), full gene sequence

NOTCH1 (notch 1) (eg, aortic valve disease), full gene sequence

NPHS1 (nephrosis 1, congenital, Finnish type [nephrin]) (eg, congenital Finnish nephrosis), full gene sequence

OPA1 (optic atrophy 1) (eg, optic atrophy), full gene sequence

PCDH15 (protocadherin-related 15) (eg, Usher syndrome, type 1), full gene sequence

PKD1 (polycystic kidney disease 1 [autosomal dominant]) (eg, polycystic kidney disease), full gene sequence

PLCE1 (phospholipase C, epsilon 1) (eg, nephrotic syndrome type 3), full gene sequence

SCN1A (sodium channel, voltage-gated, type 1, alpha subunit) (eg, generalized epilepsy with febrile seizures), full gene sequence

SCN5A (sodium channel, voltage-gated, type V, alpha subunit) (eg, familial dilated cardiomyopathy), full gene sequence

SLC12A1 (solute carrier family 12 [sodium/potassium/chloride transporters], member 1) (eg, Bartter syndrome), full gene sequence

SLC12A3 (solute carrier family 12 [sodium/chloride transporters], member 3) (eg, Gitelman syndrome), full gene sequence

SPG11 (spastic paraplegia 11 [autosomal recessive]) (eg, spastic paraplegia), full gene sequence

SPTBN2 (spectrin, beta, non-erythrocytic 2) (eg, spinocerebellar ataxia), full gene sequence

TMEM67 (transmembrane protein 67) (eg, Joubert syndrome), full gene sequence

TSC2 (tuberous sclerosis 2) (eg, tuberous sclerosis), full gene sequence

USH1C (Usher syndrome 1C [autosomal recessive, severe]) (eg, Usher syndrome, type 1), full gene sequence

VPS13B (vacuolar protein sorting 13 homolog B [yeast]) (eg, Cohen syndrome), duplication/deletion analysis

WDR62 (WD repeat domain 62) (eg, primary autosomal recessive microcephaly), full gene sequence

81408 Molecular pathology procedure, Level 9 (eg, analysis of >50 exons in a single gene by DNA sequence analysis)

ABCA4 (ATP-binding cassette, sub-family A [ABC1], member 4) (eg, Stargardt disease, age-related macular degeneration), full gene sequence

ATM (ataxia telangiectasia mutated) (eg, ataxia telangiectasia), full gene sequence

CDH23 (cadherin-related 23) (eg, Usher syndrome, type 1), full gene sequence

CEP290 (centrosomal protein 290kDa) (eg, Joubert syndrome), full gene sequence

COL1A1 (collagen, type I, alpha 1) (eg, osteogenesis imperfecta, type I), full gene sequence

COL1A2 (collagen, type I, alpha 2) (eg, osteogenesis imperfecta, type I), full gene sequence

COL4A1 (collagen, type IV, alpha 1) (eg, brain small-vessel disease with hemorrhage), full gene sequence

COL4A3 (collagen, type IV, alpha 3 [Goodpasture antigen]) (eg, Alport syndrome), full gene sequence

COL4A5 (collagen, type IV, alpha 5) (eg, Alport syndrome), full gene sequence

DMD (dystrophin) (eg, Duchenne/Becker muscular dystrophy), full gene sequence

DMD (dystrophin) (eg, Duchenne/Becker muscular dystrophy), full gene sequence

DYSF (dysferlin, limb girdle muscular dystrophy 2B [autosomal recessive]) (eg, limb-girdle muscular dystrophy), full gene sequence

FBN1 (fibrillin 1) (eg, Marfan syndrome), full gene sequence

ITPR1 (inositol 1,4,5-trisphosphate receptor, type 1) (eg, spinocerebellar ataxia), full gene sequence

LAMA2 (laminin, alpha 2) (eg, congenital muscular dystrophy), full gene sequence

LRRK2 (leucine-rich repeat kinase 2) (eg, Parkinson disease), full gene sequence

MYH11 (myosin, heavy chain 11, smooth muscle) (eg, thoracic aortic aneurysms and aortic dissections), full gene sequence

NEB (nebulin) (eg, nemaline myopathy 2), full gene sequence

NF1 (neurofibromin 1) (eg, neurofibromatosis, type 1), full gene sequence

PKHD1 (polycystic kidney and hepatic disease 1) (eg, autosomal recessive polycystic kidney disease), full gene sequence

RYR1 (ryanodine receptor 1, skeletal) (eg, malignant hyperthermia), full gene sequence

RYR2 (ryanodine receptor 2 [cardiac]) (eg, catecholaminergic polymorphic ventricular tachycardia, arrhythmogenic right ventricular dysplasia), full gene sequence or targeted sequence analysis of > 50 exons

USH2A (Usher syndrome 2A [autosomal recessive, mild]) (eg, Usher syndrome, type 2), full gene sequence

VPS13B (vacuolar protein sorting 13 homolog B [yeast]) (eg, Cohen syndrome), full gene sequence

VWF (von Willebrand factor) (eg, von Willebrand disease types 1 and 3), full gene sequence

CPT Changes: An Insider's View 2013

CPT Assistant Jul 13:12, Sep 13:4, 8, Jan 15:3, Apr 16:4, Aug 16:10, Sep 16:10, Apr 17:10, Jun 18:8, Sep 18:15, Nov 18:9, Dec 18:10, May 19:5, Jun 19:11, Oct 20:8, Dec 20:14, Feb 21:14, Mar 23:36

Genomic Sequencing Procedures and Other Molecular Multianalyte Assays

Genomic sequencing procedures (GSPs) and other molecular multianalyte assays are DNA and/or RNA sequence analysis methods that simultaneously assay multiple genes or genetic regions relevant to a clinical situation. They may target specific combinations of genes or genetic material, or they may assay the exome or genome. The technology typically used for genomic sequencing is massively parallel sequencing (MPS) (eg, next-generation sequencing [NGS]) although other technologies may be employed. GSPs are performed on nucleic acids from germline or neoplastic samples. Examples of applications include aneuploidy analysis of cell-free circulating fetal DNA, gene panels for somatic alterations in neoplasms, and sequence analysis of the exome or genome to determine the cause of developmental delay. Exome and genome procedures are designed to evaluate the genetic material in totality or near totality. Although commonly used to identify sequence (base) changes, they can also be used to identify copy number, structural changes, and abnormal zygosity patterns, and these analyses may be performed in combination or as separate and distinct studies. Another unique feature of GSPs is the ability to "re-query" or re-evaluate the sequence data (eg, complex phenotype such as developmental delay is reassessed when new genetic knowledge is attained, or for a separate unrelated clinical indication). The analyses below are often performed using NGS/MPS technology; however, they may also be performed using molecular techniques (eg, polymerase chain reaction [PCR] methods and microarrays). These codes should be used when the components of the descriptor(s) are fulfilled regardless of the technique used for analysis, unless specifically noted in the code descriptor. When a GSP assay includes gene(s) that is listed in more than one code descriptor, the code for the most specific test for the primary disorder sought should be reported, rather than reporting multiple codes for the same gene(s). When all of the components of the descriptor are not performed, use individual Tier 1 codes, Tier 2 codes, or 81479 (Unlisted molecular pathology procedure).

Testing for somatic alterations in neoplasms may be reported differently depending on whether combined or separate methods and analyses are used for both DNA and RNA analytes. Procedures for somatic alterations in neoplasms which include DNA analysis or DNA and RNA analysis using a single combined method are reported with 81445, 81450, 81455, 81457, 81458, 81459, 81462, 81463, 81464. RNA analysis performed using a separate method is reported with 81449, 81451, 81456. When evaluation for tumor mutation burden (TMB) and/or microsatellite instability (MSI) is performed as part of the same test for somatic alterations in neoplasms, report 81457, 81458, 81459. When a genomic sequencing procedure (GSP) is performed on cell-free nucleic acid (eg, plasma), sometimes referred to as a liquid biopsy, report 81462, 81463, 81464.

Definitions

Cell-free nucleic acid: DNA or RNA released into the blood and other body fluids. Cell-free nucleic acid released from fetal cells can be sampled for non-invasive prenatal testing (NIPT) while that released from tumor cells can be sampled for cancer, sometimes referred to as tumor liquid biopsy.

Copy number variants (CNVs): structural changes in the genome which are composed of large deletions or duplications. CNVs can be found in the germline but can also occur in somatic cells. See also Duplication/Deletion (Dup/Del). Duplications may also be referred to as amplifications.

Duplication/Deletion (Dup/Del): terms that are usually used together with the "/" to refer to molecular testing, which assesses the dosage of a particular genomic region. The region tested is typically of modest to substantial size, from several dozen to several million or more nucleotides. Normal gene dosage is two copies per cell, except for the sex chromosomes (X and Y). Thus, zero or one copy represents a deletion and three (or more) copies represent a duplication.

Low-pass sequencing: a method of genome sequencing intended for cytogenomic analysis of chromosomal abnormalities, such as that performed for trait mapping or copy number variation, typically performed to an average depth of sequencing ranging from 0.1 to 5X.

Massively parallel sequencing (MPS): high-throughput method used to determine a portion of the nucleotide sequences in an individual patient's genome, utilizing advanced (non-Sanger) sequencing technologies that are capable of processing multiple DNA and/or RNA sequences in parallel. While other technologies exist, next-generation sequencing (NGS) is a common technique used to achieve MPS.

Microsatellite instability (MSI): a type of DNA hypermutation or predisposition to mutation in which replication errors are not corrected due to defective DNA mismatch repair (dMMR) mechanism. MSI manifests as insertions or deletions in short tandem repeat (STR) (defined in the molecular pathology guidelines) alleles and can be identified by changes in the DNA repeat sequence length.

Rearrangements: structural chromosomal variations such as deletions, insertions, inversions (defined in the molecular pathology guidelines), or translocations (defined in the molecular pathology guidelines) that bring together genetic material that is not normally adjacent in the unmodified genome. It can manifest as abnormal gene expression or as an abnormal fusion product at the RNA and/or protein level. Rearrangement can also refer to the process by which immunoglobulin and T cell receptor genes are normally modified.

Tumor mutational burden (TMB): the number of somatic mutations detected per million bases (Mb) of genomic sequence investigated from a cancer specimen. It is usually obtained from analysis using a next generation sequencing method. It is considered a biomarker to guide immunotherapy decisions for patients with cancer.

The assays in this section represent discrete genetic values, properties, or characteristics in which the measurement or analysis of each analyte is potentially of independent medical significance or useful in medical management. In contrast to multianalyte assays with algorithmic analyses (MAAAs), the assays in this section do not represent algorithmically combined results to obtain a risk score or other value, which in itself represents a new and distinct medical property that is of independent medical significance relative to the individual, component test results.

(For cytogenomic [genome-wide] analysis for constitutional chromosomal abnormalities, see 81228, 81229, 81349, 81405, 81406)

81410 Aortic dysfunction or dilation (eg, Marfan syndrome, Loeys Dietz syndrome, Ehler Danlos syndrome type IV, arterial tortuosity syndrome); genomic sequence analysis panel, must include sequencing of at least 9 genes, including *FBN1, TGFBR1, TGFBR2, COL3A1, MYH11, ACTA2, SLC2A10, SMAD3*, and *MYLK*

- *CPT Changes: An Insider's View* 2015
- *CPT Assistant* Jan 15:3

81411 duplication/deletion analysis panel, must include analyses for *TGFBR1, TGFBR2, MYH11, and COL3A1*

- *CPT Changes: An Insider's View* 2015
- *CPT Assistant* Jan 15:3

81412 Ashkenazi Jewish associated disorders (eg, Bloom syndrome, Canavan disease, cystic fibrosis, familial dysautonomia, Fanconi anemia group C, Gaucher disease, Tay-Sachs disease), genomic sequence analysis panel, must include sequencing of at least 9 genes, including *ASPA, BLM, CFTR, FANCC, GBA, HEXA, IKBKAP, MCOLN1*, and *SMPD1*

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Apr 16:4, Nov 18:9

81413 Cardiac ion channelopathies (eg, Brugada syndrome, long QT syndrome, short QT syndrome, catecholaminergic polymorphic ventricular tachycardia); genomic sequence analysis panel, must include sequencing of at least 10 genes, including *ANK2, CASQ2, CAV3, KCNE1, KCNE2, KCNH2, KCNJ2, KCNQ1, RYR2*, and *SCN5A*

- *CPT Changes: An Insider's View* 2017
- *CPT Assistant* Apr 17:3

81414 duplication/deletion gene analysis panel, must include analysis of at least 2 genes, including *KCNH2* and *KCNQ1*

- *CPT Changes: An Insider's View* 2017
- *CPT Assistant* Apr 17:3

(For genomic sequencing panel testing for cardiomyopathies, use 81439)

(Do not report 81413, 81414 in conjunction with 81439 when performed on the same date of service)

 # 81418 Drug metabolism (eg, pharmacogenomics) genomic sequence analysis panel, must include testing of at least 6 genes, including *CYP2C19, CYP2D6*, and *CYP2D6* duplication/deletion analysis

- *CPT Changes: An Insider's View* 2023

 # 81419 Epilepsy genomic sequence analysis panel, must include analyses for *ALDH7A1, CACNA1A, CDKL5, CHD2, GABRG2, GRIN2A, KCNQ2, MECP2, PCDH19, POLG, PRRT2, SCN1A, SCN1B, SCN2A, SCN8A, SLC2A1, SLC9A6, STXBP1, SYNGAP1, TCF4, TPP1, TSC1, TSC2*, and *ZEB2*

- *CPT Changes: An Insider's View* 2021

81415 Exome (eg, unexplained constitutional or heritable disorder or syndrome); sequence analysis

- *CPT Changes: An Insider's View* 2015
- *CPT Assistant* Jan 15:3

 # 81418 Drug metabolism (eg, pharmacogenomics) genomic sequence analysis panel, must include testing of at least 6 genes, including *CYP2C19, CYP2D6*, and *CYP2D6* duplication/deletion analysis

CPT Changes: An Insider's View 2023

 # 81419 Epilepsy genomic sequence analysis panel, must include analyses for *ALDH7A1, CACNA1A, CDKL5, CHD2, GABRG2, GRIN2A, KCNQ2, MECP2, PCDH19, POLG, PRRT2, SCN1A, SCN1B, SCN2A, SCN8A, SLC2A1, SLC9A6, STXBP1, SYNGAP1, TCF4, TPP1, TSC1, TSC2*, and *ZEB2*

CPT Changes: An Insider's View 2021

81415 Exome (eg, unexplained constitutional or heritable disorder or syndrome); sequence analysis

CPT Changes: An Insider's View 2015

CPT Assistant Jan 15:3

+ 81416 sequence analysis, each comparator exome (eg, parents, siblings) (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2015

CPT Assistant Jan 15:3

(Use 81416 in conjunction with 81415)

81417 re-evaluation of previously obtained exome sequence (eg, updated knowledge or unrelated condition/syndrome)

CPT Changes: An Insider's View 2015

CPT Assistant Jan 15:3

(Do not report 81417 for incidental findings)

(Do not report 81349 when analysis for chromosomal abnormalities is performed by sequence analysis included in 81415, 81416)

(For cytogenomic [genome-wide] copy number assessment, see 81228, 81229)

81418 Code is out of numerical sequence. See 81414-81416

81419 Code is out of numerical sequence. See 81413-81416

81420 Fetal chromosomal aneuploidy (eg, trisomy 21, monosomy X) genomic sequence analysis panel, circulating cell-free fetal DNA in maternal blood, must include analysis of chromosomes 13, 18, and 21

CPT Changes: An Insider's View 2015

CPT Assistant Jan 15:3, Dec 15:17, Apr 18:11

(Do not report 81228, 81229, 88271 when performing genomic sequencing procedures or other molecular multianalyte assays for copy number analysis)

(Do not report 81349 when analysis for chromosomal abnormalities is performed by sequence analysis included in 81425, 81426)

81422 Fetal chromosomal microdeletion(s) genomic sequence analysis (eg, DiGeorge syndrome, Cri-du-chat syndrome), circulating cell-free fetal DNA in maternal blood

CPT Changes: An Insider's View 2017

CPT Assistant Apr 17:3

(Do not report 81228, 81229, 88271 when performing genomic sequencing procedures or other molecular multianalyte assays for copy number analysis)

(Do not report 81349 when analysis for chromosomal abnormalities is performed by sequence analysis included in 81425, 81426)

Code	Specimen Source			Nucleic Acid	Sequence Variants	Copy Number Variants	Microsatellite Instability	Tumor Mutation Burden	Rearrangements

81479 Code is out of numerical sequence. See 81407-81411

Multianalyte Assays with Algorithmic Analyses

Multianalyte Assays with Algorithmic Analyses (MAAAs) are procedures that utilize multiple results derived from panels of analyses of various types, including molecular pathology assays, fluorescent in situ hybridization assays, and non-nucleic acid based assays (eg, proteins, polypeptides, lipids, carbohydrates). Algorithmic analysis using the results of these assays as well as other patient information (if used) is then performed and typically reported as a numeric score(s) or as a probability. MAAAs are typically unique to a single clinical laboratory or manufacturer. The results of individual component procedure(s) that are inputs to the MAAAs may be provided on the associated laboratory report; however, these assays are not separately reported using additional codes.

The format for the code descriptors of MAAAs usually include (in order):

- Disease type (eg, oncology, autoimmune, tissue rejection),
- Material(s) analyzed (eg, DNA, RNA, protein, antibody),
- Number of markers (eg, number of genes, number of proteins),
- Methodology(ies) (eg, microarray, real-time [RT]-PCR, in situ hybridization [ISH], enzyme linked immunosorbent assays [ELISA]),
- Number of functional domains (if indicated),
- Specimen type (eg, blood, fresh tissue, formalin-fixed paraffin-embedded),
- Algorithm result type (eg, prognostic, diagnostic),
- Report (eg, probability index, risk score)

In contrast to GSPs and other molecular multianalyte assays, the assays in this section represent algorithmically combined results of analyses of multiple analytes to obtain a risk score or other value which in itself represents a new and distinct medical property that is of independent medical significance relative to the individual component test results in clinical context in which the assay is performed.

MAAAs, including those that do not have a Category I code, may be found in Appendix O. MAAAs that do not have a Category I code are identified in Appendix O by a four-digit number followed by the letter "M." The Category I MAAA codes that are included in this subsection are also included in Appendix O. All MAAA codes are listed in Appendix O along with the procedure's proprietary name. In order to report an MAAA code, the analysis performed must fulfill the code descriptor **and**, if proprietary, must be the test represented by the proprietary name listed in Appendix O.

When a specific MAAA procedure is not listed below or in Appendix O, the procedure must be reported using the Category I MAAA unlisted code (81599).

These codes encompass all analytical services required (eg, cell lysis, nucleic acid stabilization, extraction, digestion, amplification, hybridization, and detection) in addition to the algorithmic analysis itself. Procedures that are required prior to cell lysis (eg, microdissection, codes 88380 and 88381) should be reported separately.

81490 Autoimmune (rheumatoid arthritis), analysis of 12 biomarkers using immunoassays, utilizing serum, prognostic algorithm reported as a disease activity score

CPT Changes: An Insider's View 2016

(Do not report 81490 in conjunction with 86140)

 # 81595 Cardiology (heart transplant), mRNA, gene expression profiling by real-time quantitative PCR of 20 genes (11 content and 9 housekeeping), utilizing subfraction of peripheral blood, algorithm reported as a rejection risk score

CPT Changes: An Insider's View 2016

81493 Coronary artery disease, mRNA, gene expression profiling by real-time RT-PCR of 23 genes, utilizing whole peripheral blood, algorithm reported as a risk score

CPT Changes: An Insider's View 2016

81500 Code is out of numerical sequence. See 81536-81541

81503 Code is out of numerical sequence. See 81536-81541

81506 Endocrinology (type 2 diabetes), biochemical assays of seven analytes (glucose, HbA1c, insulin, hs-CRP, adiponectin, ferritin, interleukin 2-receptor alpha), utilizing serum or plasma, algorithm reporting a risk score

CPT Changes: An Insider's View 2013

(Do not report 81506 in conjunction with constituent components [ie, 82728, 82947, 83036, 83525, 86141], 84999 [for adopectin], and 83520 [for interleukin 2-receptor alpha])

81507 Fetal aneuploidy (trisomy 21, 18, and 13) DNA sequence analysis of selected regions using maternal plasma, algorithm reported as a risk score for each trisomy

CPT Changes: An Insider's View 2014

CPT Assistant Apr 18:11

(Do not report 81228, 81229, 88271 when performing genomic sequencing procedures or other molecular multianalyte assays for copy number analysis)

(For cytogenomic [genome-wide] analysis for constitutional chromosomal abnormalities interrogation of genomic regions for copy number and loss-of-heterozygosity variants, low-pass sequencing analysis, use 81349)

81508 Fetal congenital abnormalities, biochemical assays of two proteins (PAPP-A, hCG [any form]), utilizing maternal serum, algorithm reported as a risk score

CPT Changes: An Insider's View 2013

(Do not report 81508 in conjunction with 84163, 84702)

81509 Fetal congenital abnormalities, biochemical assays of three proteins (PAPP-A, hCG [any form], DIA), utilizing maternal serum, algorithm reported as a risk score

CPT Changes: An Insider's View 2013

(Do not report 81509 in conjunction with 84163, 84702, 86336)

81510 Fetal congenital abnormalities, biochemical assays of three analytes (AFP, uE3, hCG [any form]), utilizing maternal serum, algorithm reported as a risk score

CPT Changes: An Insider's View 2013

(Do not report 81510 in conjunction with 82105, 82677, 84702)

81511 Fetal congenital abnormalities, biochemical assays of four analytes (AFP, uE3, hCG [any form], DIA) utilizing maternal serum, algorithm reported as a risk score (may include additional results from previous biochemical testing)

CPT Changes: An Insider's View 2013

(Do not report 81511 in conjunction with 82105, 82677, 84702, 86336)

81512 Fetal congenital abnormalities, biochemical assays of five analytes (AFP, uE3, total hCG, hyperglycosylated hCG, DIA) utilizing maternal serum, algorithm reported as a risk score

- *CPT Changes: An Insider's View* 2013

(Do not report 81512 in conjunction with 82105, 82677, 84702, 86336)

81513 Infectious disease, bacterial vaginosis, quantitative real-time amplification of RNA markers for Atopobium vaginae, Gardnerella vaginalis, and Lactobacillus species, utilizing vaginal-fluid specimens, algorithm reported as a positive or negative result for bacterial vaginosis

- *CPT Changes: An Insider's View* 2021
- *CPT Assistant* Mar 21:8

81514 Infectious disease, bacterial vaginosis and vaginitis, quantitative real-time amplification of DNA markers for Gardnerella vaginalis, Atopobium vaginae, Megasphaera type 1, Bacterial Vaginosis Associated Bacteria-2 (BVAB-2), and Lactobacillus species (L. crispatus and L. jensenii), utilizing vaginal-fluid specimens, algorithm reported as a positive or negative for high likelihood of bacterial vaginosis, includes separate detection of Trichomonas vaginalis and/or Candida species (C. albicans, C. tropicalis, C. parapsilosis, C. dubliniensis), Candida glabrata, Candida krusei, when reported

- *CPT Changes: An Insider's View* 2021
- *CPT Assistant* Mar 21:8

(Do not report 81514 in conjunction with 87480, 87481, 87482, 87510, 87511, 87512, 87660, 87661)

81515 Infectious disease, bacterial vaginosis and vaginitis, real-time PCR amplification of DNA markers for Atopobium vaginae, Atopobium species, Megasphaera type 1, and Bacterial Vaginosis Associated Bacteria-2 (BVAB-2), utilizing vaginal-fluid specimens, algorithm reported as positive or negative for high likelihood of bacterial vaginosis, includes separate detection of Trichomonas vaginalis and Candida species (C. albicans, C. tropicalis, C. parapsilosis, C. dubliniensis), Candida glabrata/Candida krusei, when reported

- *CPT Changes: An Insider's View* 2025

 # 81596 Infectious disease, chronic hepatitis C virus (HCV) infection, six biochemical assays (ALT, A2-macroglobulin, apolipoprotein A-1, total bilirubin, GGT, and haptoglobin) utilizing serum, prognostic algorithm reported as scores for fibrosis and necroinflammatory activity in liver

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Jul 19:3

81517 Liver disease, analysis of 3 biomarkers (hyaluronic acid [HA], procollagen III amino terminal peptide [PIIINP], tissue inhibitor of metalloproteinase 1 [TIMP-1]), using immunoassays, utilizing serum, prognostic algorithm reported as a risk score and risk of liver fibrosis and liver-related clinical events within 5 years

- *CPT Changes: An Insider's View* 2024
- *CPT Assistant* Jun 24:1

(Do not report 81517 in conjunction with 83520 for identification of biomarkers included for liver disease analysis)

81518 Oncology (breast), mRNA, gene expression profiling by real-time RT-PCR of 11 genes (7 content and 4 housekeeping), utilizing formalin-fixed paraffin-embedded tissue, algorithms reported as percentage risk for metastatic recurrence and likelihood of benefit from extended endocrine therapy

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Jul 19:3

 # 81522 Oncology (breast), mRNA, gene expression profiling by RT-PCR of 12 genes (8 content and 4 housekeeping), utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as recurrence risk score

- *CPT Changes: An Insider's View* 2020

81519 Oncology (breast), mRNA, gene expression profiling by real-time RT-PCR of 21 genes, utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as recurrence score

- *CPT Changes: An Insider's View* 2015
- *CPT Assistant* Jan 15:3

81520 Oncology (breast), mRNA gene expression profiling by hybrid capture of 58 genes (50 content and 8 housekeeping), utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as a recurrence risk score

- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Jun 18:8

81521 Oncology (breast), mRNA, microarray gene expression profiling of 70 content genes and 465 housekeeping genes, utilizing fresh frozen or formalin-fixed paraffin-embedded tissue, algorithm reported as index related to risk of distant metastasis

CPT Changes: An Insider's View 2018

CPT Assistant Jun 18:8

(Do not report 81521 in conjunction with 81523 for the same specimen)

81522 Code is out of numerical sequence. See 81513-81520

81523 Oncology (breast), mRNA, next-generation sequencing gene expression profiling of 70 content genes and 31 housekeeping genes, utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as index related to risk to distant metastasis

CPT Changes: An Insider's View 2022

(Do not report 81523 in conjunction with 81521 for the same specimen)

● **81524** Oncology (central nervous system tumor), DNA methylation analysis of at least 10,000 methylation sites, utilizing DNA extracted from formalin-fixed tumor tissue, algorithm(s) reported as probability of matching a reference tumor family and class, and *MGMT (O-6-methylguanine-DNA methyltransferase)* promoter methylation status, if performed

CPT Changes: An Insider's View 2026

►(If *MGMT* promoter methylation analysis is performed separately, use 81287)◄

81525 Oncology (colon), mRNA, gene expression profiling by real-time RT-PCR of 12 genes (7 content and 5 housekeeping), utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as a recurrence score

81528 Oncology (colorectal) screening, quantitative real-time target and signal amplification of 10 DNA markers (*KRAS* mutations, promoter methylation of *NDRG4* and *BMP3*) and fecal hemoglobin, utilizing stool, algorithm reported as a positive or negative result

CPT Changes: An Insider's View 2016

(Do not report 81528 in conjunction with 81275, 82274)

81529 Oncology (cutaneous melanoma), mRNA, gene expression profiling by real-time RT-PCR of 31 genes (28 content and 3 housekeeping), utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as recurrence risk, including likelihood of sentinel lymph node metastasis

CPT Changes: An Insider's View 2021

81535 Oncology (gynecologic), live tumor cell culture and chemotherapeutic response by DAPI stain and morphology, predictive algorithm reported as a drug response score; first single drug or drug combination

CPT Changes: An Insider's View 2016

+ 81536 each additional single drug or drug combination (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2016

(Use 81536 in conjunction with 81535)

81538 Oncology (lung), mass spectrometric 8-protein signature, including amyloid A, utilizing serum, prognostic and predictive algorithm reported as good versus poor overall survival

CPT Changes: An Insider's View 2016

 # 81500 Oncology (ovarian), biochemical assays of two proteins (CA-125 and HE4), utilizing serum, with menopausal status, algorithm reported as a risk score

CPT Changes: An Insider's View 2013

CPT Assistant Jun 19:11

(Do not report 81500 in conjunction with 86304, 86305)

 # 81503 Oncology (ovarian), biochemical assays of five proteins (CA-125, apolipoprotein A1, beta-2 microglobulin, transferrin, and pre-albumin), utilizing serum, algorithm reported as a risk score

CPT Changes: An Insider's View 2013

(Do not report 81503 in conjunction with 82172, 82232, 84134, 84466, 86304)

81539 Oncology (high-grade prostate cancer), biochemical assay of four proteins (Total PSA, Free PSA, Intact PSA, and human kallikrein-2 [hK2]), utilizing plasma or serum, prognostic algorithm reported as a probability score

CPT Changes: An Insider's View 2017

CPT Assistant Apr 17:4

81541 Oncology (prostate), mRNA gene expression profiling by real-time RT-PCR of 46 genes (31 content and 15 housekeeping), utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as a disease-specific mortality risk score

CPT Changes: An Insider's View 2018

CPT Assistant Aug 18:8

81542 Oncology (prostate), mRNA, microarray gene expression profiling of 22 content genes, utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as metastasis risk score

CPT Changes: An Insider's View 2020

CPT Assistant Oct 20:8

81546 Code is out of numerical sequence. See 81542-81554

81551 Oncology (prostate), promoter methylation profiling by real-time PCR of 3 genes (*GSTP1, APC, RASSF1*), utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as a likelihood of prostate cancer detection on repeat biopsy

CPT Changes: An Insider's View 2018

CPT Assistant Aug 18:8

 # 81546 Oncology (thyroid), mRNA, gene expression analysis of 10,196 genes, utilizing fine needle aspirate, algorithm reported as a categorical result (eg, benign or suspicious)

CPT Changes: An Insider's View 2021

 # 81504 Oncology (tissue of origin), microarray gene expression profiling of >2,000 genes, utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as tissue similarity scores

CPT Changes: An Insider's View 2014

 # 81540 Oncology (tumor of unknown origin), mRNA, gene expression profiling by real-time RT-PCR of 92 genes (87 content and 5 housekeeping) to classify tumor into main cancer type and subtype, utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as a probability of a predicted main cancer type and subtype

CPT Changes: An Insider's View 2016

81552 Oncology (uveal melanoma), mRNA, gene expression profiling by real-time RT-PCR of 15 genes (12 content and 3 housekeeping), utilizing fine needle aspirate or formalin-fixed paraffin-embedded tissue, algorithm reported as risk of metastasis

CPT Changes: An Insider's View 2020

CPT Assistant Jan 20:10

81554 Pulmonary disease (idiopathic pulmonary fibrosis [IPF]), mRNA, gene expression analysis of 190 genes, utilizing transbronchial biopsies, diagnostic algorithm reported as categorical result (eg, positive or negative for high probability of usual interstitial pneumonia [UIP])

CPT Changes: An Insider's View 2021

CPT Assistant Mar 21:6

81558 Transplantation medicine (allograft rejection, kidney), mRNA, gene expression profiling by quantitative polymerase chain reaction (qPCR) of 139 genes, utilizing whole blood, algorithm reported as a binary categorization as transplant excellence, which indicates immune quiescence, or not transplant excellence, indicating subclinical rejection

CPT Changes: An Insider's View 2025

81560 Transplantation medicine (allograft rejection, pediatric liver and small bowel), measurement of donor and third-party-induced CD154+T-cytotoxic memory cells, utilizing whole peripheral blood, algorithm reported as a rejection risk score

CPT Changes: An Insider's View 2022

(Do not report 81560 in conjunction with 85032, 86353, 86821, 88184, 88185, 88187, 88230, 88240, 88241, 0018M)

81599 Unlisted multianalyte assay with algorithmic analysis

CPT Changes: An Insider's View 2013

CPT Assistant Apr 18:11, Jun 18:8, Jun 19:11

(Do not use 81599 for multianalyte assays with algorithmic analyses listed in Appendix O)

Chemistry

The material for examination may be from any source unless otherwise specified in the code descriptor. When an analyte is measured in multiple specimens from different sources, or in specimens that are obtained at different times, the analyte is reported separately for each source and for each specimen. The examination is quantitative unless specified. To report an organ or disease oriented panel, see codes 80048-80076.

Clinical information or mathematically calculated values, which are not specifically requested by the ordering physician and are derived from the results of other ordered or performed laboratory tests, are considered part of the ordered test procedure(s) and therefore are not separately reportable service(s).

When the requested analyte result is derived using a calculation that requires values from nonrequested laboratory analyses, only the requested analyte code should be reported.

When the calculated analyte determination requires values derived from other requested and nonrequested laboratory analyses, the requested analyte codes (including those calculated) should be reported.

An exception to the above is when an analyte (eg, urinary creatinine) is performed to compensate for variations in urine concentration (eg, microalbumin, thromboxane metabolites) in random urine samples; the appropriate CPT code is reported for both the ordered analyte and the additional required analyte. When the calculated result(s) represent an algorithmically derived numeric score or probability, see the appropriate multianalyte assay with algorithmic analyses (MAAA) code or the MAAA unlisted code (81599).

Analytes that are not specified by either an analyte-specific or method-specific code in the Chemistry (82009-84830) subsection may be reported using the unlisted chemistry procedure code 84999.

82009 Ketone body(s) (eg, acetone, acetoacetic acid, beta-hydroxybutyrate); qualitative

CPT Changes: An Insider's View 2015, 2021

82077 any specimen except urine and breath, immunoassay (eg, IA, EIA, ELISA, RIA, EMIT, FPIA) and enzymatic methods (eg, alcohol dehydrogenase)

CPT Changes: An Insider's View 2021

(For definitive drug testing for alcohol [ethanol], use 80320)

82085 Aldolase

82088 Aldosterone

CPT Assistant Oct 10:7

(Alkaline phosphatase, see 84075, 84080)

(Alphaketoglutarate, see 82009, 82010)

(Alpha tocopherol [Vitamin E], use 84446)

82103 Alpha-1-antitrypsin; total

82104 phenotype

82105 Alpha-fetoprotein (AFP); serum

82106 amniotic fluid

82107 AFP-L3 fraction isoform and total AFP (including ratio)

CPT Changes: An Insider's View 2007

82108 Aluminum

82120 Amines, vaginal fluid, qualitative

CPT Changes: An Insider's View 2000

CPT Assistant Nov 99:45

(For combined pH and amines test for vaginitis, use 82120 and 83986)

82127 Amino acids; single, qualitative, each specimen

CPT Assistant Nov 98:24

82128 multiple, qualitative, each specimen

CPT Assistant Nov 98:24

82131 single, quantitative, each specimen

CPT Assistant May 98:11, Nov 98:24

82135 Aminolevulinic acid, delta (ALA)

82136 Amino acids, 2 to 5 amino acids, quantitative, each specimen

CPT Assistant Nov 98:24

82139 Amino acids, 6 or more amino acids, quantitative, each specimen

CPT Assistant Nov 98:24

82140 Ammonia

82143 Amniotic fluid scan (spectrophotometric)

(For L/S ratio, use 83661)

(Amobarbital, use 80345)

82150 Amylase

(For amyloid, beta, see 82233, 82234)

82154 Androstanediol glucuronide

CPT Assistant Summer 94:5

82157 Androstenedione

82160 Androsterone

82163 Angiotensin II

82164 Angiotensin I - converting enzyme (ACE)

(Antidiuretic hormone (ADH), use 84588)

(Antimony, use 83015)

(Antitrypsin, alpha-1-, see 82103, 82104)

82166 Anti-mullerian hormone (AMH)

CPT Changes: An Insider's View 2024

CPT Assistant Jun 24:1

82172 Apolipoprotein, each

82175 Arsenic

(For heavy metal screening, use 83015)

82180 Ascorbic acid (Vitamin C), blood

(Aspirin, see acetylsalicylic acid, 80329, 80330, 80331)

(For salicylate by immunoassay or enzymatic methods, use 80179)

(Atherogenic index, blood, ultracentrifugation, quantitative, use 83701)

82190 Atomic absorption spectroscopy, each analyte

CPT Assistant Oct 10:7

82232 Beta-2 microglobulin

(Bicarbonate, use 82374)

82233 Beta-amyloid; 1-40 (Abeta 40)

CPT Changes: An Insider's View 2025

CPT Assistant Mar 25:11

82234 1-42 (Abeta 42)

CPT Changes: An Insider's View 2025

CPT Assistant Mar 25:11

82239 Bile acids; total

82240 cholylglycine

(For bile pigments, urine, see 81000-81005)

82247 Bilirubin; total

CPT Assistant Nov 98:24, Apr 99:6, Dec 99:1, Jan 00:7, Dec 08:5, Apr 10:11

82248 direct

CPT Assistant Nov 98:24, Apr 99:6, Dec 99:1, Apr 10:11

82252 feces, qualitative

82261 Biotinidase, each specimen

CPT Assistant Nov 98:24

82270 Blood, occult, by peroxidase activity (eg, guaiac), qualitative; feces, consecutive collected specimens with single determination, for colorectal neoplasm screening (ie, patient was provided 3 cards or single triple card for consecutive collection)

CPT Changes: An Insider's View 2002, 2006

CPT Assistant Sep 03:15, Feb 06:7, Apr 08:5

82271 other sources

CPT Changes: An Insider's View 2006

CPT Assistant Feb 06:7

82272 Blood, occult, by peroxidase activity (eg, guaiac), qualitative, feces, 1-3 simultaneous determinations, performed for other than colorectal neoplasm screening

CPT Changes: An Insider's View 2006, 2008

CPT Assistant Feb 06:7, Apr 08:5, Jun 09:10

(Blood urea nitrogen [BUN], see 84520, 84525)

82274 Blood, occult, by fecal hemoglobin determination by immunoassay, qualitative, feces, 1-3 simultaneous determinations

CPT Changes: An Insider's View 2002

82286 Bradykinin

CPT Assistant Oct 10:7

82300 Cadmium

CPT Assistant Aug 05:9, Oct 10:7

82306 Vitamin D; 25 hydroxy, includes fraction(s), if performed

CPT Changes: An Insider's View 2010

 # 82652 1, 25 dihydroxy, includes fraction(s), if performed

CPT Changes: An Insider's View 2010

82308 Calcitonin

82310 Calcium; total

CPT Assistant Dec 99:2

82330 ionized

CPT Assistant Apr 13:10, Jul 22:20

82331 after calcium infusion test

82340 urine quantitative, timed specimen

82355 Calculus; qualitative analysis

CPT Changes: An Insider's View 2002

82360 quantitative analysis, chemical

82365 infrared spectroscopy

82370 X-ray diffraction

CPT Changes: An Insider's View 2001

(Carbamates, see individual listings)

82373 Carbohydrate deficient transferrin

CPT Changes: An Insider's View 2001

82374 Carbon dioxide (bicarbonate)

CPT Assistant Dec 99:2, Apr 13:10, Jul 22:20

(See also 82803)

82375 Carboxyhemoglobin; quantitative

CPT Changes: An Insider's View 2009

82376 qualitative

CPT Changes: An Insider's View 2009

(For transcutaneous measurement of carboxyhemoglobin, use 88740)

82378 Carcinoembryonic antigen (CEA)

CPT Assistant Fall 93:25, Aug 96:11

82379 Carnitine (total and free), quantitative, each specimen

CPT Assistant Nov 98:24

(For acylcarnitine, see 82016, 82017)

82380 Carotene

82382 Catecholamines; total urine

82383 blood

82384 fractionated

(For urine metabolites, see 83835, 84585)

82387 Cathepsin-D

82390 Ceruloplasmin

82397 Chemiluminescent assay

CPT Assistant Fall 93:25, Oct 10:7

82415 Chloramphenicol

CPT Assistant Aug 05:9, Oct 10:7

82435 Chloride; blood

CPT Assistant Dec 99:2, Apr 13:10, Jul 22:20

82436 urine

82438 other source

CPT Assistant Jul 03:7

(For sweat collection by iontophoresis, use 89230)

82441 Chlorinated hydrocarbons, screen

(Cholecalciferol [Vitamin D], use 82306)

82465 Cholesterol, serum or whole blood, total

CPT Changes: An Insider's View 2001

CPT Assistant Dec 99:2, Mar 00:11, Feb 05:9

(For high density lipoprotein [HDL], use 83718)

82480 Cholinesterase; serum

82482 RBC

82485 Chondroitin B sulfate, quantitative

(Chorionic gonadotropin, see gonadotropin, 84702, 84703)

82495 Chromium

CPT Assistant Oct 10:7

82507 Citrate

CPT Assistant Aug 05:9, Oct 10:7

(Cocaine, qualitative analysis, use 80353)

(Codeine, qualitative analysis, use 80361)

(Complement, see 86160-86162)

82523 Collagen cross links, any method

82525 Copper

(Coproporphyrin, see 84119, 84120)

(Corticosteroids, use 83491)

82528 Corticosterone

82530 Cortisol; free

CPT Assistant Summer 94:3

82533 total

CPT Assistant Summer 94:3

(C-peptide, use 84681)

82540 Creatine

82542 Column chromatography, includes mass spectrometry, if performed (eg, HPLC, LC, LC/MS, LC/MS-MS, GC, GC/MS-MS, GC/MS, HPLC/MS), non-drug analyte(s) not elsewhere specified, qualitative or quantitative, each specimen

CPT Changes: An Insider's View 2015, 2016

CPT Assistant Nov 98:24-25, Apr 15:3

(Do not report more than one unit of 82542 for each specimen)

(For column chromatography/mass spectrometry of drugs or substances, see 80305, 80306, 80307, 80320-80377, or specific analyte code[s] in the **Chemistry** section)

82550 Creatine kinase (CK), (CPK); total

CPT Assistant Feb 98:1, Dec 99:2

82552 isoenzymes

CPT Assistant Feb 98:1

82553 MB fraction only

CPT Assistant Feb 98:1, Oct 21:14

82554 isoforms

CPT Assistant Feb 98:1

82565 Creatinine; blood

CPT Assistant Dec 99:2, Apr 13:10, Jul 22:20

82570 other source

82575 clearance

82585 Cryofibrinogen

82595 Cryoglobulin, qualitative or semi-quantitative (eg, cryocrit)

CPT Changes: An Insider's View 2001

CPT Assistant Oct 10:7

(For quantitative, cryoglobulin, see 82784, 82785)

(Crystals, pyrophosphate vs urate, use 89060)

82600 Cyanide

CPT Assistant Aug 05:9, Oct 10:7

82607 Cyanocobalamin (Vitamin B-12);

CPT Assistant Oct 21:14

82608 unsaturated binding capacity

(Cyclic AMP, use 82030)

(Cyclosporine, use 80158)

82610 Cystatin C

CPT Changes: An Insider's View 2008

CPT Assistant Apr 08:5, Aug 08:13

82615 Cystine and homocystine, urine, qualitative

82626 Dehydroepiandrosterone (DHEA)

CPT Assistant Summer 94:4

(Do not report 82626 in conjunction with 80327, 80328 to identify anabolic steroid testing for testosterone)

82627 Dehydroepiandrosterone-sulfate (DHEA-S)

CPT Assistant Summer 94:4

(Delta-aminolevulinic acid (ALA), use 82135)

82633 Desoxycorticosterone, 11-

82634 Deoxycortisol, 11-

(Dexamethasone suppression test, use 80420)

(Diastase, urine, use 82150)

82638 Dibucaine number

(Dichloroethane, use 82441)

(Dichloromethane, use 82441)

(Diethylether, use 84600)

82642 Dihydrotestosterone (DHT)

CPT Changes: An Insider's View 2019

(For dihydrotestosterone analysis for anabolic drug testing, see 80327, 80328)

(Dipropylacetic acid, use 80164)

(Dopamine, see 82382-82384)

(Duodenal contents, see individual enzymes; for intubation and collection, see 43756, 43757)

82652 Code is out of numerical sequence. See 82300-82310

82653 Code is out of numerical sequence. See 82642-82658

82656 Elastase, pancreatic (EL-1), fecal; qualitative or semi-quantitative

CPT Changes: An Insider's View 2005, 2022

CPT Assistant Sep 05:9

 # 82653 quantitative

CPT Changes: An Insider's View 2022

82657 Enzyme activity in blood cells, cultured cells, or tissue, not elsewhere specified; nonradioactive substrate, each specimen

CPT Assistant Nov 98:25, Apr 23:18

82658 radioactive substrate, each specimen

CPT Assistant Nov 98:25

82664 Electrophoretic technique, not elsewhere specified

(Endocrine receptor assays, see 84233-84235)

82668 Erythropoietin

82670 Estradiol; total

CPT Changes: An Insider's View 2021

 # 82681 free, direct measurement (eg, equilibrium dialysis)

CPT Changes: An Insider's View 2021

82671 Estrogens; fractionated

82672 total

(Estrogen receptor assay, use 84233)

82677 Estriol

82679 Estrone

(For definitive drug testing for alcohol [ethanol], use 80320)

(For alcohol [ethanol] by immunoassay or enzymatic methods, use 82077)

82681 Code is out of numerical sequence. See 82668-82672

82693 Ethylene glycol

82696 Etiocholanolone

CPT Assistant Oct 10:7

(For fractionation of ketosteroids, use 83593)

82705 Fat or lipids, feces; qualitative

CPT Assistant Aug 05:9, Oct 10:7

82710 quantitative

82715 Fat differential, feces, quantitative

82725 Fatty acids, nonesterified

82726 Very long chain fatty acids

CPT Assistant Nov 98:25

82728 Ferritin

(Fetal hemoglobin, see hemoglobin 83030, 83033, and 85460)

(Fetoprotein, alpha-1, see 82105, 82106)

82731 Fetal fibronectin, cervicovaginal secretions, semi-quantitative

CPT Assistant Nov 98:25

82735 Fluoride

(Foam stability test, use 83662)

82746 Folic acid; serum

82747 RBC

(Follicle stimulating hormone [FSH], use 83001)

82757 Fructose, semen

(Fructosamine, use 82985)

(Fructose, TLC screen, use 84375)

82759 Galactokinase, RBC

82760 Galactose

82775 Galactose-1-phosphate uridyl transferase; quantitative

82776 screen

82777 Galectin-3

CPT Changes: An Insider's View 2013

82784 Gammaglobulin (immunoglobulin); IgA, IgD, IgG, IgM, each

CPT Changes: An Insider's View 2010

CPT Assistant Spring 94:31, Aug 00:11

82785 IgE

CPT Changes: An Insider's View 2010

CPT Assistant Spring 94:31

(For allergen specific IgE, see 86003, 86005)

82787 immunoglobulin subclasses (eg, IgG1, 2, 3, or 4), each

CPT Changes: An Insider's View 2001, 2010

CPT Assistant Oct 10:7

(Gamma-glutamyltransferase [GGT], use 82977)

82800 Gases, blood, pH only

CPT Assistant Aug 05:9, Oct 10:7

82803 Gases, blood, any combination of pH, pCO_2, pO_2, CO_2, HCO_3 (including calculated O_2 saturation);

(Use 82803 for 2 or more of the above listed analytes)

82805 with O_2 saturation, by direct measurement, except pulse oximetry

82810 Gases, blood, O_2 saturation only, by direct measurement, except pulse oximetry

(For pulse oximetry, use 94760)

82820 Hemoglobin-oxygen affinity (pO_2 for 50% hemoglobin saturation with oxygen)

CPT Assistant Oct 10:7

(For gastric acid analysis, use 82930)

82930 Gastric acid analysis, includes pH if performed, each specimen

CPT Changes: An Insider's View 2011

CPT Assistant Oct 10:7, Dec 10:7, Sep 11:3

82938 Gastrin after secretin stimulation

82941 Gastrin

CPT Assistant Aug 05:9

(Gentamicin, use 80170)

(GGT, use 82977)

(For a qualitative column chromatography procedure [eg, gas liquid chromatography], use the appropriate specific analyte code, if available, or 82542)

82943 Glucagon

82945 Glucose, body fluid, other than blood

CPT Changes: An Insider's View 2001

82946 Glucagon tolerance test

82947 Glucose; quantitative, blood (except reagent strip)

CPT Changes: An Insider's View 2001

CPT Assistant Summer 93:14, Summer 94:5, Sep 99:10, Dec 99:2, Jun 02:3, Feb 05:9, Apr 13:10, May 21:8, Oct 21:14, Jul 22:20

82948 blood, reagent strip

CPT Assistant Summer 94:5, Jan 99:10, Nov 10:10, Oct 11:8

82950 post glucose dose (includes glucose)

CPT Assistant Sep 99:10, Jun 02:3, Feb 05:9

82951 tolerance test (GTT), 3 specimens (includes glucose)

CPT Assistant Feb 01:10, Feb 05:9, Oct 10:7

+ 82952 tolerance test, each additional beyond 3 specimens (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2011

CPT Assistant Feb 01:10, Oct 10:7, Dec 10:7

(Use 82952 in conjunction with 82951)

(For insulin tolerance test, see 80434, 80435)

(For leucine tolerance test, use 80428)

(For semiquantitative urine glucose, see 81000, 81002, 81005, 81099)

82955 Glucose-6-phosphate dehydrogenase (G6PD); quantitative

82960 screen

(For glucose tolerance test with medication, use 96374 in addition)

82962 Glucose, blood by glucose monitoring device(s) cleared by the FDA specifically for home use

CPT Assistant Summer 94:4, Jan 99:10, Nov 10:10, Oct 11:8

82963 Glucosidase, beta

82965 Glutamate dehydrogenase

82977 Glutamyltransferase, gamma (GGT)

CPT Assistant Dec 99:1

82978 Glutathione

82979 Glutathione reductase, RBC

(Glycohemoglobin, use 83036)

82985 Glycated protein

CPT Assistant Summer 94:2

(Gonadotropin, chorionic, see 84702, 84703)

83001 Gonadotropin; follicle stimulating hormone (FSH)

CPT Assistant Aug 05:9, Oct 10:7

83002 luteinizing hormone (LH)

(For luteinizing releasing factor [LRH], use 83727)

83003 Growth hormone, human (HGH) (somatotropin)

CPT Assistant Oct 21:14

(For antibody to human growth hormone, use 86277)

83006 Growth stimulation expressed gene 2 (ST2, Interleukin 1 receptor like-1)

CPT Changes: An Insider's View 2015

83009 Helicobacter pylori, blood test analysis for urease activity, non-radioactive isotope (eg, C-13)

CPT Changes: An Insider's View 2005

(For H. pylori, breath test analysis for urease activity, see 83013, 83014)

83010 Haptoglobin; quantitative

83012 phenotypes

83013 Helicobacter pylori; breath test analysis for urease activity, non-radioactive isotope (eg, C-13)

CPT Changes: An Insider's View 2001, 2002, 2005

CPT Assistant Nov 98:25, Feb 99:8, Nov 99:45

83014 drug administration

CPT Changes: An Insider's View 2005

CPT Assistant Nov 98:25, Feb 99:8, Nov 99:45

(For H. pylori, stool, use 87338. For H. pylori, liquid scintillation counter, see 78267, 78268. For H. pylori, immunoassay, use 87339)

(For H. pylori, blood test analysis for urease activity, use 83009)

▲ **83015** Heavy metal (eg, antimony, arsenic, barium, beryllium, bismuth, gadolinium, mercury); qualitative, any number of analytes

CPT Changes: An Insider's View 2017, 2026

CPT Assistant Apr 22:14

▲ **83018** quantitative, each, not elsewhere specified

CPT Changes: An Insider's View 2017, 2026

CPT Assistant Apr 22:14

(Use an analyte-specific heavy metal quantitative code, instead of 83018, when available)

83020 Hemoglobin fractionation and quantitation; electrophoresis (eg, A2, S, C, and/or F)

CPT Assistant Nov 98:25

83021 chromatography (eg, A2, S, C, and/or F)

CPT Assistant Nov 98:25, Dec 99:7

(For glycosylated [A1c] hemoglobin analysis, by electrophoresis or chromatography, in the absence of an identified hemoglobin variant, use 83036)

83026 Hemoglobin; by copper sulfate method, non-automated

83030 F (fetal), chemical

83033 F (fetal), qualitative

CPT Changes: An Insider's View 2001

83036 glycosylated (A1C)

CPT Changes: An Insider's View 2006

CPT Assistant Summer 94:2, Feb 06:7, Oct 06:15

(For glycosylated [A1C] hemoglobin analysis, by electrophoresis or chromatography, in the setting of an identified hemoglobin variant, see 83020, 83021)

(For fecal hemoglobin detection by immunoassay, use 82274)

83037 glycosylated (A1C) by device cleared by FDA for home use
- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Feb 06:7, Oct 06:15

83045 methemoglobin, qualitative
83050 methemoglobin, quantitative

(For transcutaneous quantitative methemoglobin determination, use 88741)

83051 plasma
83060 sulfhemoglobin, quantitative
83065 thermolabile
83068 unstable, screen
83069 urine
83070 Hemosiderin, qualitative

(HIAA, use 83497)

(For a qualitative column chromatography procedure [eg, high performance liquid chromatography], use the appropriate specific analyte code, if available, or 82542)

83080 b-Hexosaminidase, each assay
- *CPT Assistant* Nov 98:25

83088 Histamine

(Hollander test, see 43754, 43755)

CPT Assistant Oct 10:7

83605 Lactate (lactic acid)

CPT Assistant Aug 05:9, Oct 10:7

83615 Lactate dehydrogenase (LD), (LDH);

CPT Assistant Fall 93:25, Feb 98:1, Dec 99:2

83625 isoenzymes, separation and quantitation

CPT Assistant Fall 93:25, Feb 98:1

83630 Lactoferrin, fecal; qualitative

CPT Changes: An Insider's View 2005, 2006

CPT Assistant Feb 06:7

83631 quantitative

CPT Changes: An Insider's View 2006

CPT Assistant Feb 06:7, Jan 07:29

83632 Lactogen, human placental (HPL) human chorionic somatomammotropin

83633 Lactose, urine, qualitative

(For tolerance, see 82951, 82952)

(For breath hydrogen/methane test for lactase deficiency, use 91065)

83655 Lead

83661 Fetal lung maturity assessment; lecithin sphingomyelin (L/S) ratio

- *CPT Changes: An Insider's View* 2001

83662 foam stability test

83663 fluorescence polarization

- *CPT Changes: An Insider's View* 2001

83664 lamellar body density

- *CPT Changes: An Insider's View* 2001

(For phosphatidylglycerol, use 84081)

83670 Leucine aminopeptidase (LAP)

83690 Lipase

83695 Lipoprotein (a)

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Feb 06:7

83698 Lipoprotein-associated phospholipase A_2 (Lp-PLA_2)

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Oct 10:7

83700 Lipoprotein, blood; electrophoretic separation and quantitation

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Feb 06:7, Oct 10:7

83701 high resolution fractionation and quantitation of lipoproteins including lipoprotein subclasses when performed (eg, electrophoresis, ultracentrifugation)

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Feb 06:7

83704 quantitation of lipoprotein particle number(s) (eg, by nuclear magnetic resonance spectroscopy), includes lipoprotein particle subclass(es), when performed

- *CPT Changes: An Insider's View* 2006, 2017
- *CPT Assistant* Feb 06:7

83718 Lipoprotein, direct measurement; high density cholesterol (HDL cholesterol)

- *CPT Assistant* Oct 99:11, Mar 00:11, Feb 05:9

83719 VLDL cholesterol

- *CPT Assistant* Oct 99:11

83721 LDL cholesterol

- *CPT Assistant* Nov 98:25, Oct 99:11

83722 small dense LDL cholesterol

- *CPT Changes: An Insider's View* 2019

(For fractionation by high resolution electrophoresis or ultracentrifugation, use 83701)

(For lipoprotein particle numbers and subclasses analysis by nuclear magnetic resonance spectroscopy, use 83704)

83727 Luteinizing releasing factor (LRH)

(Luteinizing hormone [LH], use 83002)

(Macroglobulins, alpha-2, use 86329)

83735 Magnesium
83775 Malate dehydrogenase

(Maltose tolerance, see 82951, 82952)

(Mammotropin, use 84146)
83785 Manganese
83789 Mass spectrometry and tandem mass spectrometry (eg, MS, MS/MS, MALDI, MS-TOF, QTOF), non-drug analyte(s) not elsewhere specified, qualitative or quantitative, each specimen
- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Nov 98:26, Oct 10:7

(Do not report more than one unit of 83789 for each specimen)

(For column chromatography/mass spectrometry of drugs or substances, see 80305, 80306, 80307, 80320-80377, or specific analyte code[s] in the **Chemistry** section)
83825 Mercury, quantitative

(Mercury screen, use 83015)
83835 Metanephrines

(For catecholamines, see 82382-82384)

(Methamphetamine, see 80324, 80325, 80326)

(Methane breath test, use 91065)
83857 Methemalbumin

(Methemoglobin, see hemoglobin 83045, 83050)

(Methyl alcohol, use 80320)

(Microalbumin, see 82043 for quantitative, see 82044 for semiquantitative)
83861 Microfluidic analysis utilizing an integrated collection and analysis device, tear osmolarity
- *CPT Changes: An Insider's View* 2011
- *CPT Assistant* Dec 10:7

(Microglobulin, beta-2, use 82232)

(For microfluidic tear osmolarity of both eyes, report 83861 twice)
83864 Mucopolysaccharides, acid, quantitative
83872 Mucin, synovial fluid (Ropes test)
83873 Myelin basic protein, cerebrospinal fluid
- *CPT Changes: An Insider's View* 2002

(For oligoclonal bands, use 83916)
83874 Myoglobin
- *CPT Assistant* Feb 98:1

83876 Myeloperoxidase (MPO)
- *CPT Changes: An Insider's View* 2009

83880 Natriuretic peptide
- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Jul 03:7

83883 Nephelometry, each analyte not elsewhere specified

83884 Neurofilament light chain (NfL)

CPT Changes: An Insider's View 2025

83885 Nickel

83915 Nucleotidase 5'-

83916 Oligoclonal immune (oligoclonal bands)

CPT Changes: An Insider's View 2002

83918 Organic acids; total, quantitative, each specimen

CPT Changes: An Insider's View 2001

CPT Assistant Mar 96:11, Nov 98:26

83919 qualitative, each specimen

CPT Assistant Nov 98:26

83921 Organic acid, single, quantitative

CPT Changes: An Insider's View 2001

83930 Osmolality; blood

83935 urine

(For tear osmolarity using microfluidic analysis, use 83861)

83937 Osteocalcin (bone g1a protein)

CPT Assistant Summer 94:5

83945 Oxalate

83950 Oncoprotein; HER-2/neu

CPT Changes: An Insider's View 2002, 2009

(For tissue, see 88342, 88365)

83951 des-gamma-carboxy-prothrombin (DCP)

CPT Changes: An Insider's View 2009

83970 Parathormone (parathyroid hormone)

(Pesticide, quantitative, see code for specific method. For screen for chlorinated hydrocarbons, use 82441)

83986 pH; body fluid, not otherwise specified

CPT Changes: An Insider's View 2010

CPT Assistant Sep 13:13, May 16:14

83987 exhaled breath condensate

CPT Changes: An Insider's View 2010

(For blood pH, see 82800, 82803)

(Phenobarbital, use 80345)

83992 Code is out of numerical sequence. See Definitive Drug Testing subsection

83993 Calprotectin, fecal

CPT Changes: An Insider's View 2008

CPT Assistant Apr 08:5, Oct 10:7

84030 Phenylalanine (PKU), blood

(Phenylalanine-tyrosine ratio, see 84030, 84510)

84035 Phenylketones, qualitative

84060 Phosphatase, acid; total

84066 prostatic

84075 Phosphatase, alkaline;

CPT Assistant Dec 99:2

84078 heat stable (total not included)
84080 isoenzymes
84081 Phosphatidylglycerol

(Phosphates inorganic, use 84100)

(Phosphates, organic, see code for specific method. For cholinesterase, see 82480, 82482)
84085 Phosphogluconate, 6-, dehydrogenase, RBC
84087 Phosphohexose isomerase

➔ *CPT Assistant* Oct 10:7
84100 Phosphorus inorganic (phosphate);

➔ *CPT Assistant* Dec 99:2, Aug 05:9, Oct 10:7
84105 urine

(Pituitary gonadotropins, see 83001-83002)

(PKU, see 84030, 84035)
84106 Porphobilinogen, urine; qualitative
84110 quantitative
84112 Evaluation of cervicovaginal fluid for specific amniotic fluid protein(s) (eg, placental alpha microglobulin-1 [PAMG-1], placental protein 12 [PP12], alpha-fetoprotein), qualitative, each specimen

➔ *CPT Changes: An Insider's View* 2011, 2014
➔ *CPT Assistant* Oct 10:8, Dec 10:8
84119 Porphyrins, urine; qualitative
84120 quantitation and fractionation
84126 Porphyrins, feces, quantitative

(Porphyrin precursors, see 82135, 84106, 84110)

(For protoporphyrin, RBC, see 84202, 84203)
84132 Potassium; serum, plasma or whole blood

➔ *CPT Changes: An Insider's View* 2009

84133 urine
84134 Prealbumin

(For microalbumin, see 82043, 82044)
84135 Pregnanediol
84138 Pregnanetriol
84140 Pregnenolone

➔ *CPT Assistant* Summer 94:6
84143 17-hydroxypregnenolone

➔ *CPT Assistant* Summer 94:6
84144 Progesterone

(Progesterone receptor assay, use 84234)

(For proinsulin, use 84206)
84145 Procalcitonin (PCT)

➔ *CPT Changes: An Insider's View* 2010
84146 Prolactin

84150 Prostaglandin, each

84152 Prostate specific antigen (PSA); complexed (direct measurement)

CPT Changes: An Insider's View 2001

84153 total

CPT Assistant Fall 93:26, May 96:10, Aug 96:10, Jan 97:10, Nov 98:26, Aug 99:5, Dec 99:10

84154 free

CPT Assistant Nov 98:26, Aug 99:5, Dec 99:10

84155 Protein, total, except by refractometry; serum, plasma or whole blood

CPT Changes: An Insider's View 2004, 2009

CPT Assistant Dec 99:2, Jan 00:7

84156 urine

CPT Changes: An Insider's View 2004

84157 other source (eg, synovial fluid, cerebrospinal fluid)

CPT Changes: An Insider's View 2004

84160 Protein, total, by refractometry, any source

CPT Changes: An Insider's View 2004

(For urine total protein by dipstick method, use 81000-81003)

84163 Pregnancy-associated plasma protein-A (PAPP-A)

CPT Changes: An Insider's View 2005

84165 Protein; electrophoretic fractionation and quantitation, serum

CPT Changes: An Insider's View 2004, 2005

84166 electrophoretic fractionation and quantitation, other fluids with concentration (eg, urine, CSF)

CPT Changes: An Insider's View 2005

84181 Western Blot, with interpretation and report, blood or other body fluid

84182 Western Blot, with interpretation and report, blood or other body fluid, immunological probe for band identification, each

CPT Assistant Oct 10:7

(For Western Blot tissue analysis, use 88371)

84202 Protoporphyrin, RBC; quantitative

CPT Assistant Aug 05:9, Oct 10:7

84203 screen

84206 Proinsulin

(Pseudocholinesterase, use 82480)

84207 Pyridoxal phosphate (Vitamin B-6)

84210 Pyruvate

84220 Pyruvate kinase

84228 Quinine

CPT Assistant Apr 15:3

84233 Receptor assay; estrogen

84234 progesterone

84235 endocrine, other than estrogen or progesterone (specify hormone)

84238 non-endocrine (specify receptor)

CPT Changes: An Insider's View 2006

CPT Assistant Nov 05:14

84244 Renin

84252 Riboflavin (Vitamin B-2)

(Salicylates, see 80329, 80330, 80331)

(For salicylate by immunoassay or enzymatic methods, use 80179)

(Secretin test, see 99070, 43756, 43757 and appropriate analyses)

84255 Selenium

84260 Serotonin

(For urine metabolites (HIAA), use 83497)

84270 Sex hormone binding globulin (SHBG)

- *CPT Assistant* Summer 94:4

84275 Sialic acid

(Sickle hemoglobin, use 85660)

84577 Urobilinogen, feces, quantitative
84578 Urobilinogen, urine; qualitative
84580 quantitative, timed specimen
84583 semiquantitative
(Uroporphyrins, use 84120)
(Valproic acid [dipropylacetic acid], use 80164)

84585 Vanillylmandelic acid (VMA), urine

84586 Vasoactive intestinal peptide (VIP)

CPT Assistant Summer 94:6

84588 Vasopressin (antidiuretic hormone, ADH)

CPT Assistant Jan 18:7

84590 Vitamin A

CPT Assistant Aug 05:9

(Vitamin B-1, use 84425)

(Vitamin B-2, use 84252)

(Vitamin B-6, use 84207)

(Vitamin B-12, use 82607)

(Vitamin C, use 82180)

(Vitamin D, see 82306, 82652)

(Vitamin E, use 84446)

84591 Vitamin, not otherwise specified

CPT Changes: An Insider's View 2001

CPT Assistant Oct 21:14

84597 Vitamin K

CPT Assistant Oct 10:7

(VMA, use 84585)

84600 Volatiles (eg, acetic anhydride, diethylether)

CPT Changes: An Insider's View 2015

CPT Assistant Aug 05:9, Oct 10:7

(For carbon tetrachloride, dichloroethane, dichloromethane, use 82441)

(For isopropyl alcohol and methanol, use 80320)

(Volume, blood, RISA or Cr-51, see 78110, 78111)

84620 Xylose absorption test, blood and/or urine

(For administration, use 99070)

84630 Zinc

84681 C-peptide

CPT Assistant Oct 10:7

84702 Gonadotropin, chorionic (hCG); quantitative

CPT Assistant Oct 10:7

84703 qualitative

(For urine pregnancy test by visual color comparison, use 81025)

84704 free beta chain

CPT Changes: An Insider's View 2008

CPT Assistant Apr 08:5, Aug 08:13, Oct 10:7

84830 Ovulation tests, by visual color comparison methods for human luteinizing hormone

CPT Assistant Oct 10:7, Jun 15:10, Jan 24:17

84999 Unlisted chemistry procedure

CPT Assistant Oct 00:24, Aug 05:9, Oct 10:7, Dec 10:7, Apr 15:3, Oct 21:14, Jan 24:17, Jun 24:1

(For definitive testing of a drug, not otherwise specified, see 80299, 80375, 80376, 80377)

Hematology and Coagulation

Hematology and coagulation analytes/procedures that are not specified in 85002-85810 and are not in the Chemistry (82009-84830), Immunology (86015-86835), or Transfusion Medicine (86850-86985) subsections may be reported using the unlisted hematology and coagulation procedure code 85999.

(For blood banking procedures, see **Transfusion Medicine**)

(Agglutinins, see **Immunology**)

(Antiplasmin, use 85410)

(Antithrombin III, see 85300, 85301)

85002 Bleeding time

- *CPT Assistant* Aug 05:9

85004 Blood count; automated differential WBC count

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Jan 04:26

85007 blood smear, microscopic examination with manual differential WBC count

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Jul 03:7, Jan 04:26

85008 blood smear, microscopic examination without manual differential WBC count

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Jul 03:8, Jan 04:26

(For other fluids [eg, CSF], see 89050, 89051)

85009 manual differential WBC count, buffy coat

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Jul 03:7, Jan 04:26

(Eosinophils, nasal smear, use 89190)

85013 spun microhematocrit

85014 hematocrit (Hct)

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Jul 03:7

85018 hemoglobin (Hgb)

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Jul 03:8

(For other hemoglobin determination, see 83020-83069)

(For immunoassay, hemoglobin, fecal, use 82274)

(For transcutaneous hemoglobin measurement, use 88738)

85025 complete (CBC), automated (Hgb, Hct, RBC, WBC and platelet count) and automated differential WBC count

CPT Changes: An Insider's View 2003
CPT Assistant Jul 00:11, Jul 03:7, Jan 04:26, Jul 11:16, Jul 22:20

CPT Assistant Jul 03:8

85049 platelet, automated

CPT Changes: An Insider's View 2003

85055 Reticulated platelet assay

CPT Changes: An Insider's View 2004

85060 Blood smear, peripheral, interpretation by physician with written report

(Use 0854T in conjunction with 85060, when the digitization of glass microscope slides is performed)

85097 Bone marrow, smear interpretation

CPT Changes: An Insider's View 2002
CPT Assistant Winter 92:17, Jul 98:4, Mar 03:22

(Use 0855T in conjunction with 85097, when the digitization of glass microscope slides is performed)

(For special stains, see 88312, 88313)

(For bone biopsy, see 20220, 20225, 20240, 20245, 20250, 20251)

85130 Chromogenic substrate assay

CPT Assistant Aug 05:9

(Circulating anti-coagulant screen [mixing studies], see 85611, 85732)

85170 Clot retraction

85175 Clot lysis time, whole blood dilution

(Clotting factor I [fibrinogen], see 85384, 85385)

85210 Clotting; factor II, prothrombin, specific

CPT Assistant Aug 05:9

(See also 85610-85613)

85220 factor V (AcG or proaccelerin), labile factor
85230 factor VII (proconvertin, stable factor)
85240 factor VIII (AHG), 1-stage
85244 factor VIII related antigen
85245 factor VIII, VW factor, ristocetin cofactor
85246 factor VIII, VW factor antigen
85247 factor VIII, von Willebrand factor, multimetric analysis
85250 factor IX (PTC or Christmas)
85260 factor X (Stuart-Prower)
85270 factor XI (PTA)
85280 factor XII (Hageman)
85290 factor XIII (fibrin stabilizing)
85291 factor XIII (fibrin stabilizing), screen solubility
85292 prekallikrein assay (Fletcher factor assay)
85293 high molecular weight kininogen assay (Fitzgerald factor assay)
85300 Clotting inhibitors or anticoagulants; antithrombin III, activity
CPT Assistant Aug 05:9
85301 antithrombin III, antigen assay
85302 protein C, antigen
85303 protein C, activity
85305 protein S, total
85306 protein S, free
85307 Activated Protein C (APC) resistance assay
CPT Changes: An Insider's View 2001
85335 Factor inhibitor test
85337 Thrombomodulin

(For mixing studies for inhibitors, use 85732)

85345 Coagulation time; Lee and White
85347 activated
CPT Assistant Apr 19:11
85348 other methods

(Differential count, see 85007 et seq)

(Duke bleeding time, use 85002)

(Eosinophils, nasal smear, use 89190)

85360 Euglobulin lysis

(Fetal hemoglobin, see 83030, 83033, 85460)

85362 Fibrin(ogen) degradation (split) products (FDP) (FSP); agglutination slide, semiquantitative

(Immunoelectrophoresis, use 86320)

85366 paracoagulation
85370 quantitative
85378 Fibrin degradation products, D-dimer; qualitative or semiquantitative
CPT Changes: An Insider's View 2003
CPT Assistant Jul 03:8
85379 quantitative

(For ultrasensitive and standard sensitivity quantitative D-dimer, use 85379)

85380 ultrasensitive (eg, for evaluation for venous thromboembolism), qualitative or semiquantitative
- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Jul 03:8

85384 Fibrinogen; activity
- *CPT Assistant* Apr 19:11

85385 antigen

85390 Fibrinolysins or coagulopathy screen, interpretation and report
- *CPT Assistant* Apr 19:11

85396 Coagulation/fibrinolysis assay, whole blood (eg, viscoelastic clot assessment), including use of any pharmacologic additive(s), as indicated, including interpretation and written report, per day
- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Apr 19:11

85397 Coagulation and fibrinolysis, functional activity, not otherwise specified (eg, ADAMTS-13), each analyte
- *CPT Changes: An Insider's View* 2009

85400 Fibrinolytic factors and inhibitors; plasmin
- *CPT Assistant* Aug 05:9

85410 alpha-2 antiplasmin

85415 plasminogen activator

85420 plasminogen, except antigenic assay

85421 plasminogen, antigenic assay

(Fragility, red blood cell, see 85547, 85555-85557)

85441 Heinz bodies; direct

85445 induced, acetyl phenylhydrazine

(Hematocrit [PCV], see 85014, 85025, 85027)

(Hemoglobin, see 83020-83068, 85018, 85025, 85027)

85460 Hemoglobin or RBCs, fetal, for fetomaternal hemorrhage; differential lysis (Kleihauer-Betke)
- *CPT Assistant* Fall 93:25

(See also 83030, 83033)

(Hemolysins, see 86940, 86941)

85461 rosette

85475 Hemolysin, acid

(See also 86940, 86941)

85520 Heparin assay
- *CPT Assistant* Aug 05:9

85525 Heparin neutralization
- *CPT Assistant* Aug 17:10

85530 Heparin-protamine tolerance test

85536 Iron stain, peripheral blood
- *CPT Changes: An Insider's View* 2001

(For iron stains on bone marrow or other tissues with physician evaluation, use 88313)

85540 Leukocyte alkaline phosphatase with count

85547 Mechanical fragility, RBC

85549 Muramidase

(Nitroblue tetrazolium dye test, use 86384)

85555 Osmotic fragility, RBC; unincubated
85557 incubated

(Packed cell volume, use 85013)

(Partial thromboplastin time, see 85730, 85732)

(Parasites, blood [eg, malaria smears], use 87207)

(Plasmin, use 85400)

(Plasminogen, use 85420)

(Plasminogen activator, use 85415)

85576 Platelet, aggregation (in vitro), each agent

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Jul 96:10, Apr 19:11

(For thromboxane metabolite[s], including thromboxane, if performed, measurement[s] in urine, use 84431)

85597 Phospholipid neutralization; platelet

- *CPT Changes: An Insider's View* 2011
- *CPT Assistant* Oct 10:8, Dec 10:8, Apr 11:9

85598 hexagonal phospholipid

- *CPT Changes: An Insider's View* 2011
- *CPT Assistant* Oct 10:8, Dec 10:8, Apr 11:9

85610 Prothrombin time;

- *CPT Assistant* Aug 05:9

85611 substitution, plasma fractions, each

85612 Russell viper venom time (includes venom); undiluted

85613 diluted

(Red blood cell count, see 85025, 85027, 85041)

85635 Reptilase test

(Reticulocyte count, see 85044, 85045)

85651 Sedimentation rate, erythrocyte; non-automated

85652 automated

85660 Sickling of RBC, reduction

(Hemoglobin electrophoresis, use 83020)

(Smears [eg, for parasites, malaria], use 87207)

85670 Thrombin time; plasma

85675 titer

85705 Thromboplastin inhibition, tissue

- *CPT Assistant* Aug 05:9

(For individual clotting factors, see 85245-85247)

85730 Thromboplastin time, partial (PTT); plasma or whole blood

85732 substitution, plasma fractions, each

- *CPT Assistant* Apr 11:9

85810 Viscosity

(von Willebrand factor assay, see 85245-85247)

(WBC count, see 85025, 85027, 85048, 89050)

85999 Unlisted hematology and coagulation procedure

- *CPT Assistant* Aug 05:9, Oct 09:12, Aug 17:10

Immunology

Immunology analytes/procedures that are not specified in 86015-86835 and are not in the Chemistry subsection (82009-84830) may be reported using the unlisted immunology procedure code 86849.

 # 86041 Acetylcholine receptor (AChR); binding antibody
- *CPT Changes: An Insider's View* 2024
- *CPT Assistant* Jul 24:1

 # 86042 blocking antibody
- *CPT Changes: An Insider's View* 2024
- *CPT Assistant* Jul 24:1

 # 86043 modulating antibody
- *CPT Changes: An Insider's View* 2024
- *CPT Assistant* Jul 24:1

 # 86015 Actin (smooth muscle) antibody (ASMA), each
- *CPT Changes: An Insider's View* 2022
- *CPT Assistant* Sep 22:3, Jan 24:17, Jul 24:1

(Actinomyces, antibodies to, use 86602)

(Adrenal cortex antibodies, see 86255, 86256)

86000 Agglutinins, febrile (eg, Brucella, Francisella, Murine typhus, Q fever, Rocky Mountain spotted fever, scrub typhus), each antigen
- *CPT Assistant* Aug 05:9

(For antibodies to infectious agents, see 86602-86804)

86001 Allergen specific IgG quantitative or semiquantitative, each allergen
- *CPT Changes: An Insider's View* 2001

(Agglutinins and autohemolysins, see 86940, 86941)

86003 Allergen specific IgE; quantitative or semiquantitative, crude allergen extract, each
- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Spring 94:31

(For total quantitative IgE, use 82785)

86005 qualitative, multiallergen screen (eg, disk, sponge, card)
- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Spring 94:31

86008 quantitative or semiquantitative, recombinant or purified component, each
- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Jul 24:1

(For amyloid, beta, see 82233, 82234)

(For total qualitative IgE, use 83518)

(Alpha-1 antitrypsin, see 82103, 82104)

(Alpha-1 feto-protein, see 82105, 82106)

(Anti-AChR [acetylcholine receptor] antibody, see 86041, 86042, 86043)

(Anticardiolipin antibody, use 86147)

(Anti-DNA, use 86225)

(Anti-deoxyribonuclease titer, use 86215)

86015 Code is out of numerical sequence. See 85810-86001
86021 Antibody identification; leukocyte antibodies
86022 platelet antibodies
86023 platelet associated immunoglobulin assay
86036 Antineutrophil cytoplasmic antibody (ANCA); screen, each antibody
CPT Changes: An Insider's View 2022
CPT Assistant Sep 22:3
86037 titer, each antibody
CPT Changes: An Insider's View 2022
CPT Assistant Sep 22:3
86038 Antinuclear antibodies (ANA);
CPT Assistant Feb 22:15
86039 titer
CPT Assistant Feb 22:15

(Antistreptococcal antibody, ie, anti-DNAse, use 86215)

(Antistreptokinase titer, use 86590)
86041 Code is out of numerical sequence. See 85810-86001
86042 Code is out of numerical sequence. See 85810-86001
86043 Code is out of numerical sequence. See 85810-86001
86051 Code is out of numerical sequence. See 86060-86078
86052 Code is out of numerical sequence. See 86060-86078
86053 Code is out of numerical sequence. See 86060-86078
86060 Antistreptolysin 0; titer

(For antibodies to infectious agents, see 86602-86804)
86063 screen

(For antibodies to infectious agents, see 86602-86804)

(Blastomyces, antibodies to, use 86612)
 # 86051 Aquaporin-4 (neuromyelitis optica [NMO]) antibody; enzyme-linked immunosorbent immunoassay (ELISA)
CPT Changes: An Insider's View 2022
CPT Assistant Apr 22:3
 # 86052 cell-based immunofluorescence assay (CBA), each
CPT Changes: An Insider's View 2022
CPT Assistant Apr 22:3
 # 86053 flow cytometry (ie, fluorescence-activated cell sorting [FACS]), each
CPT Changes: An Insider's View 2022
CPT Assistant Apr 22:3
86077 Blood bank physician services; difficult cross match and/or evaluation of irregular antibody(s), interpretation and written report
86078 investigation of transfusion reaction including suspicion of transmissible disease, interpretation and written report
86079 authorization for deviation from standard blood banking procedures (eg, use of outdated blood, transfusion of Rh incompatible units), with written report

(Brucella, antibodies to, use 86622)

(Candida, antibodies to, use 86628. For skin testing, use 86485)

(Candida, antibodies to, use 86628. For skin testing, use 86485)

86140 C-reactive protein;

CPT Changes: An Insider's View 2002

CPT Assistant Aug 05:9

(Candidiasis, use 86628)

86141 high sensitivity (hsCRP)

CPT Changes: An Insider's View 2002

86146 Beta 2 Glycoprotein I antibody, each

CPT Changes: An Insider's View 2001

86147 Cardiolipin (phospholipid) antibody, each Ig class

CPT Changes: An Insider's View 2001

 # 86152 Cell enumeration using immunologic selection and identification in fluid specimen (eg, circulating tumor cells in blood);

CPT Changes: An Insider's View 2013

(For physician interpretation and report, use 86153. For cell enumeration with interpretation and report, use 86152 and 86153)

 # 86153 physician interpretation and report, when required

CPT Changes: An Insider's View 2013

(For cell enumeration, use 86152. For cell enumeration with interpretation and report, use 86152 and 86153)

(For flow cytometric immunophenotyping, see 88184-88189)

(For flow cytometric quantitation, see 86355, 86356, 86357, 86359, 86360, 86361, 86367)

86148 Anti-phosphatidylserine (phospholipid) antibody

CPT Assistant Nov 97:30, Jul 03:8, Nov 03:5

(To report antiprothrombin [phospholipid cofactor] antibody, use 86849)

86152 Code is out of numerical sequence. See 86146-86155

86153 Code is out of numerical sequence. See 86146-86155

86155 Chemotaxis assay, specify method

(Clostridium difficile toxin, use 87230)

(Coccidioides, antibodies to, use 86635)

86156 Cold agglutinin; screen

86157 titer

86160 Complement; antigen, each component

86161 functional activity, each component

86162 total hemolytic (CH50)

86171 Complement fixation tests, each antigen

(Coombs test, see 86880-86886)

86200 Cyclic citrullinated peptide (CCP), antibody

CPT Changes: An Insider's View 2006

CPT Assistant Mar 06:6

86215 Deoxyribonuclease, antibody

CPT Assistant Aug 05:9

86225 Deoxyribonucleic acid (DNA) antibody; native or double stranded

(Echinococcus, antibodies to, see code for specific method)

(For HIV antibody tests, see 86701-86703)

86226 single stranded

CPT Assistant Feb 22:15

(Anti D.S., DNA, IFA, eg, using C.Lucilae, see 86255 and 86256)

86231 Endomysial antibody (EMA), each immunoglobulin (Ig) class

CPT Changes: An Insider's View 2022

CPT Assistant Mar 22:11

86235 Extractable nuclear antigen, antibody to, any method (eg, nRNP, SS-A, SS-B, Sm, RNP, Sc170, J01), each antibody

86255 Fluorescent noninfectious agent antibody; screen, each antibody

CPT Assistant Nov 98:27, Feb 22:15, Mar 22:11, Sep 22:3, Jul 24:1

86256 titer, each antibody

CPT Assistant Feb 22:15, Sep 22:3, Jul 24:1

(Fluorescent technique for antigen identification in tissue, use 88346; for indirect fluorescence, see 88346, 88350)

(FTA, use 86780)

(Gel [agar] diffusion tests, use 86331)

86258 Gliadin (deamidated) (DGP) antibody, each immunoglobulin (Ig) class

CPT Changes: An Insider's View 2022

CPT Assistant Mar 22:11

86277 Growth hormone, human (HGH), antibody

86280 Hemagglutination inhibition test (HAI)

(For rubella, use 86762)

(For antibodies to infectious agents, see 86602-86804)

86294 Immunoassay for tumor antigen, qualitative or semiquantitative (eg, bladder tumor antigen)

CPT Changes: An Insider's View 2001

(For qualitative NMP22 protein, use 86386)

86300 Immunoassay for tumor antigen, quantitative; CA 15-3 (27.29)

CPT Changes: An Insider's View 2001

CPT Assistant Aug 05:9

86301 CA 19-9

CPT Changes: An Insider's View 2001

86304 CA 125

CPT Changes: An Insider's View 2001

(For measurement of serum HER-2/neu oncoprotein, see 83950)

(For hepatitis delta agent, antibody, use 86692)

(For hepatitis delta agent, antigen, use 87380)

(For hepatitis D [delta], quantification, use 87523)

86305 Human epididymis protein 4 (HE4)

CPT Changes: An Insider's View 2010

86308 Heterophile antibodies; screening

(For antibodies to infectious agents, see 86602-86804)

86309 titer

(For antibodies to infectious agents, see 86602-86804)

86310 titers after absorption with beef cells and guinea pig kidney

(Histoplasma, antibodies to, use 86698. For skin testing, use 86510)

(For antibodies to infectious agents, see 86602-86804)

(Human growth hormone antibody, use 86277)

86316 Immunoassay for tumor antigen, other antigen, quantitative (eg, CA 50, 72-4, 549), each

CPT Changes: An Insider's View 2001

CPT Assistant May 96:11, Aug 96:11, Apr 98:15, Aug 99:5, Dec 99:10

86317 Immunoassay for infectious agent antibody, quantitative, not otherwise specified

CPT Assistant Nov 97:30-31

(For immunoassay techniques for non-infectious agent antigens, see 83516, 83518, 83519, 83520)

(For particle agglutination procedures, use 86403)

(For infectious agent antigen detection by immunoassay technique, see 87301-87451. For infectious agent antigen detection by immunoassay technique with direct optical [ie, visual] observation, see 87802-87899)

86318 Immunoassay for infectious agent antibody(ies), qualitative or semiquantitative, single-step method (eg, reagent strip);

CPT Changes: An Insider's View 2021

CPT Assistant Mar 07:10

 # 86328 severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19])

CPT Changes: An Insider's View 2021

(For severe acute respiratory syndrome coronavirus 2 [SARS-CoV-2] [coronavirus disease {COVID-19}] antibody testing using multiple-step method, use 86769)

86320 Immunoelectrophoresis; serum

86325 other fluids (eg, urine, cerebrospinal fluid) with concentration

CPT Changes: An Insider's View 2002

(86327 has been deleted)

86328 Code is out of numerical sequence. See 86317-86325

86329 Immunodiffusion; not elsewhere specified

CPT Assistant Aug 00:11

86331 gel diffusion, qualitative (Ouchterlony), each antigen or antibody

86332 Immune complex assay

86334 Immunofixation electrophoresis; serum

CPT Changes: An Insider's View 2005

86335 other fluids with concentration (eg, urine, CSF)

CPT Changes: An Insider's View 2005

86336 Inhibin A

CPT Changes: An Insider's View 2002

86337 Insulin antibodies

86340 Intrinsic factor antibodies

(Leptospira, antibodies to, use 86720)

(Leukoagglutinins, use 86021)

86341 Islet cell antibody

CPT Assistant Summer 94:6

86343 Leukocyte histamine release test (LHR)

86344 Leukocyte phagocytosis

86352 Cellular function assay involving stimulation (eg, mitogen or antigen) and detection of biomarker (eg, ATP)

CPT Changes: An Insider's View 2010

86353 Lymphocyte transformation, mitogen (phytomitogen) or antigen induced blastogenesis

(Malaria antibodies, use 86750)

(For cellular function assay involving stimulation and detection of biomarker, use 86352)

86355 B cells, total count

CPT Changes: An Insider's View 2006
CPT Assistant Mar 06:6, Apr 08:5

86356 Mononuclear cell antigen, quantitative (eg, flow cytometry), not otherwise specified, each antigen

CPT Changes: An Insider's View 2008
CPT Assistant Apr 08:5

(Do not report 88187-88189 for interpretation of 86355, 86356, 86357, 86359, 86360, 86361, 86367)

 # 86366 Muscle-specific kinase (MuSK) antibody

CPT Changes: An Insider's View 2024
CPT Assistant Jul 24:1

 # 86362 Myelin oligodendrocyte glycoprotein (MOG-IgG1) antibody; cell-based immunofluorescence assay (CBA), each

CPT Changes: An Insider's View 2022
CPT Assistant Apr 22:3

 # 86363 flow cytometry (ie, fluorescence-activated cell sorting [FACS]), each

CPT Changes: An Insider's View 2022
CPT Assistant Apr 22:3

86357 Natural killer (NK) cells, total count

CPT Changes: An Insider's View 2006
CPT Assistant Mar 06:6, Apr 08:5

 # 86364 Tissue transglutaminase, each immunoglobulin (Ig) class

CPT Changes: An Insider's View 2022
CPT Assistant Mar 22:11

86359 T cells; total count

CPT Assistant Nov 97:30, Apr 08:5

86360 absolute CD4 and CD8 count, including ratio

CPT Assistant Nov 97:30, Jan 07:29, Apr 08:5

86361 absolute CD4 count

CPT Assistant Nov 97:30, Apr 08:5

86362 Code is out of numerical sequence. See 86355-86360

86363 Code is out of numerical sequence. See 86355-86360

86364 Code is out of numerical sequence. See 86355-86360

86366 Code is out of numerical sequence. See 86355-86360

86367 Stem cells (ie, CD34), total count

CPT Changes: An Insider's View 2006
CPT Assistant Mar 06:6, Apr 08:5, Oct 13:3

(For flow cytometric immunophenotyping for the assessment of potential hematolymphoid neoplasia, see 88184-88189)

86376 Microsomal antibodies (eg, thyroid or liver-kidney), each

86381 Mitochondrial antibody (eg, M2), each

CPT Changes: An Insider's View 2022
CPT Assistant Sep 22:3

86382 Neutralization test, viral

 # 86408 Neutralizing antibody, severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]); screen

CPT Changes: An Insider's View 2022

 # 86409 titer

CPT Changes: An Insider's View 2022

 # 86413 Severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]) antibody, quantitative
CPT Changes: An Insider's View 2022
86384 Nitroblue tetrazolium dye test (NTD)
86386 Nuclear Matrix Protein 22 (NMP22), qualitative
CPT Changes: An Insider's View 2012

(Ouchterlony diffusion, use 86331)

(Platelet antibodies, see 86022, 86023)
86403 Particle agglutination; screen, each antibody
CPT Assistant Aug 05:9
86406 titer, each antibody

(Pregnancy test, see 84702, 84703)

(Rapid plasma reagin test (RPR), see 86592, 86593)
86408 Code is out of numerical sequence. See 86376-86386
86409 Code is out of numerical sequence. See 86376-86386
86413 Code is out of numerical sequence. See 86376-86386
86430 Rheumatoid factor; qualitative
86431 quantitative

(Serologic test for syphilis, see 86592, 86593)
86480 Tuberculosis test, cell mediated immunity antigen response measurement; gamma interferon
CPT Changes: An Insider's View 2006, 2011
CPT Assistant Mar 06:6, Oct 10:7, Dec 10:8, Dec 19:13
86481 enumeration of gamma interferon-producing T-cells in cell suspension
CPT Changes: An Insider's View 2011
CPT Assistant Oct 10:8, Dec 10:8, Dec 19:13
86485 Skin test; candida

(For antibody, candida, use 86628)
86486 unlisted antigen, each
CPT Changes: An Insider's View 2008

(86490 has been deleted)
86510 histoplasmosis
CPT Assistant Aug 05:9

(For histoplasma, antibody, use 86698)
86580 tuberculosis, intradermal

(For tuberculosis test, cell mediated immunity measurement of gamma interferon antigen response, use 86480)

(For skin tests for allergy, see 95012-95199)

(Smooth muscle antibody, use 86015)

(Sporothrix, antibodies to, see code for specific method)
86581 Streptococcus pneumoniae antibody (IgG), serotypes, multiplex immunoassay, quantitative
CPT Changes: An Insider's View 2025
86590 Streptokinase, antibody

(For antibodies to infectious agents, see 86602-86804)

(Streptolysin O antibody, see antistreptolysin O, 86060, 86063)

86592 Syphilis test, non-treponemal antibody; qualitative (eg, VDRL, RPR, ART)

CPT Changes: An Insider's View 2010

(Thyroglobulin antibody, use 86800)

(Thyroglobulin, use 84432)

(Thyroid microsomal antibody, use 86376)

(For toxoplasma antibody, see 86777-86778)

86596 Voltage-gated calcium channel antibody, each

CPT Changes: An Insider's View 2022

CPT Assistant Sep 22:3

The following codes (86602-86804) are qualitative or semiquantitative immunoassays performed by multiple-step methods for the detection of antibodies to infectious agents. For immunoassays by single-step method (eg, reagent strips), see codes 86318, 86328. Procedures for the identification of antibodies should be coded as precisely as possible. For example, an antibody to a virus could be coded with increasing specificity for virus, family, genus, species, or type. In some cases, further precision may be added to codes by specifying the class of immunoglobulin being detected. When multiple tests are done to detect antibodies to organisms classified more precisely than the specificity allowed by available codes, it is appropriate to code each as a separate service. For example, a test for antibody to an enterovirus is coded as 86658. Coxsackie viruses are enteroviruses, but there are no codes for the individual species of enterovirus. If assays are performed for antibodies to coxsackie A and B species, each assay should be separately coded. Similarly, if multiple assays are performed for antibodies of different immunoglobulin classes, each assay should be coded separately. When a coding option exists for reporting IgM specific antibodies (eg, 86632), the corresponding nonspecific code (eg, 86631) may be reported for performance of either an antibody analysis not specific for a particular immunoglobulin class or for an IgG analysis.

(For the detection of antibodies other than those to infectious agents, see specific antibody [eg, 86015, 86021-86023, 86376, 86800, 86850-86870] or specific method [eg, 83516, 86255, 86256])

(For infectious agent/antigen detection, see 87260-87899)

86602 Antibody; actinomyces

Microbiology

Includes bacteriology, mycology, parasitology, and virology.

Presumptive identification of microorganisms is defined as identification by colony morphology, growth on selective media, Gram stains, or up to three tests (eg, catalase, oxidase, indole, urease). Definitive identification of microorganisms is defined as an identification to the genus or species level that requires additional tests (eg, biochemical panels, slide cultures). If additional studies involve molecular probes, nucleic acid sequencing, chromatography, or immunologic techniques, these should be separately coded using 87140-87158, in addition to definitive identification codes. The molecular diagnostic codes (eg, 81161, 81200-81408) are not to be used in combination with or instead of the procedures represented by 87140-87158. For multiple specimens/sites use modifier 59. For repeat laboratory tests performed on the same day, use modifier 91.

Microbiology analytes/procedures that are not specified in 87003-87912 and are not in the Chemistry (82009-84830) or Immunology (86015-86835) subsections may be reported using the unlisted microbiology procedure code 87999.

CPT Assistant Nov 01:10, Dec 24:52

+ **87187** microdilution or agar dilution, minimum lethal concentration (MLC), each plate (List separately in addition to code for primary procedure)
CPT Changes: An Insider's View 2001
CPT Assistant Nov 01:10

(Use 87187 in conjunction with 87186 or 87188)

87188 macrobroth dilution method, each agent
CPT Changes: An Insider's View 2001
CPT Assistant Nov 01:10

87190 mycobacteria, proportion method, each agent
CPT Changes: An Insider's View 2001

(For other mycobacterial susceptibility studies, see 87181, 87184, 87186, or 87188)

87197 Serum bactericidal titer (Schlichter test)

87205 Smear, primary source with interpretation; Gram or Giemsa stain for bacteria, fungi, or cell types
CPT Changes: An Insider's View 2001
CPT Assistant Aug 05:9, Oct 09:12

87206 fluorescent and/or acid fast stain for bacteria, fungi, parasites, viruses or cell types
CPT Changes: An Insider's View 2001

87207 special stain for inclusion bodies or parasites (eg, malaria, coccidia, microsporidia, trypanosomes, herpes viruses)
CPT Changes: An Insider's View 2001, 2003
CPT Assistant Jul 03:8, Mar 06:6

(For direct smears with concentration and identification, use 87177)

(For thick smear preparation, use 87015)

(For fat, meat, fibers, nasal eosinophils, and starch, see miscellaneous section)

87209 complex special stain (eg, trichrome, iron hemotoxylin) for ova and parasites
CPT Changes: An Insider's View 2006
CPT Assistant Mar 06:6

87210 wet mount for infectious agents (eg, saline, India ink, KOH preps)
CPT Changes: An Insider's View 2001
CPT Assistant May 16:14

(For KOH examination of skin, hair or nails, see 87220)

87220 Tissue examination by KOH slide of samples from skin, hair, or nails for fungi or ectoparasite ova or mites (eg, scabies)
CPT Changes: An Insider's View 2001
87230 Toxin or antitoxin assay, tissue culture (eg, Clostridium difficile toxin)
87250 Virus isolation; inoculation of embryonated eggs, or small animal, includes observation and dissection
CPT Changes: An Insider's View 2001
87252 tissue culture inoculation, observation, and presumptive identification by cytopathic effect
CPT Changes: An Insider's View 2001
87253 tissue culture, additional studies or definitive identification (eg, hemabsorption, neutralization, immunofluorescence stain), each isolate
CPT Changes: An Insider's View 2001

(Electron microscopy, use 88348)

(Inclusion bodies in tissue sections, see 88304-88309; in smears, see 87207-87210; in fluids, use 88106)
87254 centrifuge enhanced (shell vial) technique, includes identification with immunofluorescence stain, each virus
CPT Changes: An Insider's View 2001, 2003
CPT Assistant Jul 03:8

(Report 87254 in addition to 87252 as appropriate)
87255 including identification by non-immunologic method, other than by cytopathic effect (eg, virus specific enzymatic activity)
CPT Changes: An Insider's View 2003
CPT Assistant Jul 03:9

These codes are intended for primary source only. For similar studies on culture material, refer to codes 87140-87158. Infectious agents by antigen detection, immunofluorescence microscopy, or nucleic acid probe techniques should be reported as precisely as possible. The molecular pathology procedures codes (81161, 81200-81408) are not to be used in combination with or instead of the procedures represented by 87471-87801. The most specific code possible should be reported. If there is no specific agent code, the general methodology code (eg, 87299, 87449, 87797, 87798, 87799, 87899) should be used. For identification of antibodies to many of the listed infectious agents, see 86602-86804. When separate results are reported for different species or strain of organisms, each result should be coded separately. Use modifier 59 when separate results are reported for different species or strains that are described by the same code.

When identifying infectious agents on primary-source specimens (eg, tissue, smear) microscopically by direct/indirect immunofluorescent assay [IFA] techniques, see 87260-87300. When identifying infectious agents on primary-source specimens or derivatives via non-microscopic immunochemical techniques with fluorescence detection (ie, fluorescence immunoassay [FIA]), see 87301-87451, 87802-87899. When identifying infectious agents on primary-source specimens using antigen detection by immunoassay with direct optical (ie, visual) observation, see 87802-87899.

87260 Infectious agent antigen detection by immunofluorescent technique; adenovirus

87631 respiratory virus (eg, adenovirus, influenza virus, coronavirus, metapneumovirus, parainfluenza virus, respiratory syncytial virus, rhinovirus), includes multiplex reverse transcription, when performed, and multiplex amplified probe technique, multiple types or subtypes, 3-5 targets

CPT Changes: An Insider's View 2013, 2015

CPT Assistant Sep 13:3, Apr 20:3

87632 respiratory virus (eg, adenovirus, influenza virus, coronavirus, metapneumovirus, parainfluenza virus, respiratory syncytial virus, rhinovirus), includes multiplex reverse transcription, when performed, and multiplex amplified probe technique, multiple types or subtypes, 6-11 targets

CPT Changes: An Insider's View 2013, 2015

CPT Assistant Sep 13:3, Apr 20:3

87633 respiratory virus (eg, adenovirus, influenza virus, coronavirus, metapneumovirus, parainfluenza virus, respiratory syncytial virus, rhinovirus), includes multiplex reverse transcription, when performed, and multiplex amplified probe technique, multiple types or subtypes, 12-25 targets

CPT Changes: An Insider's View 2013, 2015

CPT Assistant Sep 13:3, Apr 20:3

(Use 87631-87633 for nucleic acid assays which detect multiple respiratory viruses in a multiplex reaction [ie, single procedure with multiple results])

(For assays that are used to type or subtype influenza viruses only, see 87501-87503)

(For assays that include influenza viruses with additional respiratory viruses, see 87631-87633)

(For detection of multiple infectious agents not otherwise specified which report a single result, see 87800, 87801)

87634 respiratory syncytial virus, amplified probe technique

CPT Changes: An Insider's View 2018

(For assays that include respiratory syncytial virus with additional respiratory viruses, see 87631, 87632, 87633)

87635 severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]), amplified probe technique

- *CPT Changes: An Insider's View* 2021
- *CPT Assistant* Apr 20:3, Oct 23:10

87636 severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]) and influenza virus types A and B, multiplex amplified probe technique

- *CPT Changes: An Insider's View* 2022
- *CPT Assistant* Oct 23:10

87637 severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]), influenza virus types A and B, and respiratory syncytial virus, multiplex amplified probe technique

- *CPT Changes: An Insider's View* 2022
- *CPT Assistant* Oct 23:10

(For nucleic acid detection of multiple respiratory infectious agents, not including severe acute respiratory syndrome coronavirus 2 [SARS-CoV-2] [coronavirus disease {COVID-19}], see 87631, 87632, 87633)

(For nucleic acid detection of multiple respiratory infectious agents, including severe acute respiratory syndrome coronavirus 2 [SARS-CoV-2] [coronavirus disease {COVID-19}] in conjunction with additional target[s] beyond influenza virus types A and B and respiratory syncytial virus, see 87631, 87632, 87633)

(For infectious agent genotype analysis by nucleic acid [DNA or RNA] for severe acute respiratory syndrome coronavirus 2 [SARS-CoV-2] [coronavirus disease {COVID-19}], mutation identification in targeted region[s], use 87913)

(For SARS-CoV-2 variant analysis, use 87913)

87640 Staphylococcus aureus, amplified probe technique

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Aug 07:7, May 12:5, Sep 13:3

87641 Staphylococcus aureus, methicillin resistant, amplified probe technique

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Aug 07:7, Sep 13:3

(For assays that detect methicillin resistance and identify Staphylococcus aureus using a single nucleic acid sequence, use 87641)

87650 Streptococcus, group A, direct probe technique

- *CPT Assistant* Sep 13:4

87651 Streptococcus, group A, amplified probe technique

- *CPT Assistant* Sep 13:4

87652 Streptococcus, group A, quantification

87999 Unlisted microbiology procedure
- *CPT Assistant* Aug 05:9, Jan 24:17

Anatomic Pathology

Postmortem Examination

Procedures 88000 through 88099 represent physician services only. Use modifier 90 for outside laboratory services.

Postmortem examination procedures that are not specified in 88000-88045 may be reported using the unlisted necropsy (autopsy) procedure code 88099.

88000 Necropsy (autopsy), gross examination only; without CNS
- *CPT Assistant* Aug 05:9, Jan 24:17

88005 with brain

88007 with brain and spinal cord

88012 infant with brain

88014 stillborn or newborn with brain

88016 macerated stillborn

88020 Necropsy (autopsy), gross and microscopic; without CNS

88025 with brain

88027 with brain and spinal cord

88028 infant with brain

88029 stillborn or newborn with brain

88036 Necropsy (autopsy), limited, gross and/or microscopic; regional

88037 single organ

88040 Necropsy (autopsy); forensic examination

88045 coroner's call
- *CPT Assistant* Jan 24:17

88099 Unlisted necropsy (autopsy) procedure
- *CPT Assistant* Jan 24:17

Cytopathology

Cytopathology procedures that are not specified in 88104-88189 may be reported using the unlisted cytopathology procedure code 88199.

88104 Cytopathology, fluids, washings or brushings, except cervical or vaginal; smears with interpretation

CPT Assistant Spring 91:6, Fall 94:3, Aug 05:9, Jan 24:17

(Use 0827T in conjunction with 88104, when the digitization of glass microscope slides is performed)

88106 simple filter method with interpretation

CPT Changes: An Insider's View 2007

CPT Assistant Fall 94:3

(Use 0828T in conjunction with 88106, when the digitization of glass microscope slides is performed)

(Do not report 88106 in conjunction with 88104)

(For nongynecological selective cellular enhancement including filter transfer techniques, use 88112)

88108 Cytopathology, concentration technique, smears and interpretation (eg, Saccomanno technique)

CPT Assistant Fall 94:3, Nov 97:34, Jan 98:6

(Use 0829T in conjunction with 88108, when the digitization of glass microscope slides is performed)

(For cervical or vaginal smears, see 88150-88155)

(For gastric intubation with lavage, see 43754, 43755)

(For x-ray localization, use 74340)

88112 Cytopathology, selective cellular enhancement technique with interpretation (eg, liquid based slide preparation method), except cervical or vaginal

CPT Changes: An Insider's View 2004

(Use 0830T in conjunction with 88112, when the digitization of glass microscope slides is performed)

(Do not report 88112 with 88108)

88120 Cytopathology, in situ hybridization (eg, FISH), urinary tract specimen with morphometric analysis, 3-5 molecular probes, each specimen; manual

CPT Changes: An Insider's View 2011

CPT Assistant Oct 10:9, Dec 10:9

88121 using computer-assisted technology

CPT Changes: An Insider's View 2011

CPT Assistant Oct 10:9, Dec 10:9

(For morphometric in situ hybridization on cytologic specimens other than urinary tract, see 88367, 88368)

(For more than 5 probes, use 88399)

88125 Cytopathology, forensic (eg, sperm)

88130 Sex chromatin identification; Barr bodies

88140 peripheral blood smear, polymorphonuclear drumsticks

CPT Assistant Nov 98:27-28, Mar 06:6

(For Guard stain, use 88313)

Codes 88141-88155, 88164-88167, 88174-88175 are used to report cervical or vaginal screening by various methods and to report physician interpretation services. Use codes 88150, 88152, 88153 to report conventional Pap smears that are examined using non-Bethesda reporting. Use codes 88164-88167 to report conventional Pap smears that are examined using the Bethesda System of reporting. Use codes 88142-88143 to report liquid-based specimens processed as thin-layer preparations that are examined using any system of reporting (Bethesda or non-Bethesda). Use codes 88174-88175 to report automated screening of liquid-based specimens that are examined using any system of reporting (Bethesda or non-Bethesda).Within each of these three code families choose the one code that describes the screening method(s) used. Codes 88141 and 88155 should be reported in addition to the screening code chosen when the additional services are provided. Manual rescreening requires a complete visual reassessment of the entire slide initially screened by either an automated or manual process. Manual review represents an assessment of selected cells or regions of a slide identified by initial automated review.

88141 Cytopathology, cervical or vaginal (any reporting system), requiring interpretation by physician

CPT Assistant Nov 97:35, Jan 98:6, Jan 99:11, May 99:6, Nov 99:46, Mar 04:6, Mar 05:16, May 11:10, Dec 11:17

(Use 88141 in conjunction with 88142, 88143, 88147, 88148, 88150, 88152, 88153, 88164-88167, 88174-88175)

(Use 0831T in conjunction with 88141, when the digitization of glass microscope slides is performed)

88142 Cytopathology, cervical or vaginal (any reporting system), collected in preservative fluid, automated thin layer preparation; manual screening under physician supervision

CPT Assistant Nov 97:34-35, Jan 98:6, Nov 98:28, May 99:6, Jul 03:7, Mar 04:4

88143 with manual screening and rescreening under physician supervision

CPT Assistant Nov 97:34-35, Nov 98:28, May 99:6, Jul 03:7, Mar 04:4, Mar 05:16

(For automated screening of automated thin layer preparation, see 88174, 88175)

88147 Cytopathology smears, cervical or vaginal; screening by automated system under physician supervision

CPT Assistant Nov 97:35, Nov 98:28, Jan 99:11, May 99:6, Nov 99:46, Mar 04:6

88148 screening by automated system with manual rescreening under physician supervision

CPT Changes: An Insider's View 2000

CPT Assistant Jan 99:1, May 99:6, Nov 99:46, Mar 04:6

88150 Cytopathology, slides, cervical or vaginal; manual screening under physician supervision

CPT Assistant Winter 91:19, Nov 97:34-35, Nov 98:28, May 99:6, Mar 04:5

88152 with manual screening and computer-assisted rescreening under physician supervision

CPT Assistant Nov 97:35, Jan 98:6, May 99:6, Mar 04:5

88153 with manual screening and rescreening under physician supervision

CPT Assistant Nov 97:34-35, Nov 98:28, May 99:6, Mar 04:5, Mar 05:16

+ 88155 Cytopathology, slides, cervical or vaginal, definitive hormonal evaluation (eg, maturation index, karyopyknotic index, estrogenic index) (List separately in addition to code[s] for other technical and interpretation services)

CPT Assistant Nov 97:35, Nov 98:28, May 99:6, Nov 99:46, Mar 04:5, May 11:10

(Use 88155 in conjunction with 88142, 88143, 88147, 88148, 88150, 88152, 88153, 88164-88167, 88174-88175)

88160 Cytopathology, smears, any other source; screening and interpretation

CPT Assistant Jan 98:6

(Use 0832T in conjunction with 88160, when the digitization of glass microscope slides is performed)

88161 preparation, screening and interpretation

CPT Assistant Aug 97:18, Jan 98:6

(Use 0833T in conjunction with 88161, when the digitization of glass microscope slides is performed)

88162 extended study involving over 5 slides and/or multiple stains

(Use 0834T in conjunction with 88162, when the digitization of glass microscope slides is performed)

(For aerosol collection of sputum, use 89220)

(For special stains, see 88312-88314)

88164 Cytopathology, slides, cervical or vaginal (the Bethesda System); manual screening under physician supervision

CPT Assistant Nov 98:28, May 99:6, Mar 04:5

88165 with manual screening and rescreening under physician supervision

CPT Assistant Nov 98:28, May 99:6, Mar 04:5, Mar 05:16

88166 with manual screening and computer-assisted rescreening under physician supervision

CPT Assistant Nov 98:28, May 99:6, Mar 04:5

88167 with manual screening and computer-assisted rescreening using cell selection and review under physician supervision

CPT Assistant Nov 98:28, May 99:6, Jul 03:7, Mar 04:5

(For collection of specimen via fine needle aspiration biopsy, see 10004, 10005, 10006, 10007, 10008, 10009, 10010, 10011, 10012, 10021)

88172 Cytopathology, evaluation of fine needle aspirate; immediate cytohistologic study to determine adequacy for diagnosis, first evaluation episode, each site

CPT Changes: An Insider's View 2001, 2011

CPT Assistant Fall 93:26, Fall 94:2, Dec 98:8, Aug 07:15, Oct 10:9, Dec 10:9, Jan 16:12, Apr 19:4

(Use 0835T in conjunction with 88172, when the digitization of glass microscope slides is performed)

(The evaluation episode represents a complete set of cytologic material submitted for evaluation and is independent of the number of needle passes or slides prepared. A separate evaluation episode occurs if the proceduralist provider obtains additional material from the same site, based on the prior immediate adequacy assessment, or a separate lesion is aspirated)

88173 interpretation and report

CPT Assistant Fall 93:26, Fall 94:2, Dec 98:8, Oct 10:9, Dec 10:9, Apr 19:4

(Use 0837T in conjunction with 88173, when the digitization of glass microscope slides is performed)

(Report one unit of 88173 for the interpretation and report from each anatomic site, regardless of the number of passes or evaluation episodes performed during the aspiration procedure)

(For fine needle aspirate biopsy, see 10004, 10005, 10006, 10007, 10008, 10009, 10010, 10011, 10012, 10021)

(Do not report 88172, 88173 in conjunction with 88333 and 88334 for the same specimen)

#+ 88177 immediate cytohistologic study to determine adequacy for diagnosis, each separate additional evaluation episode, same site (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2011

CPT Assistant Oct 10:9, Dec 10:9, Jan 16:12, Apr 19:4

(Use 88177 in conjunction with 88172)

(Use 0836T in conjunction with 88177, when the digitization of glass microscope slides is performed)

(When repeat immediate evaluation episode(s) is required on subsequent cytologic material from the same site, eg, following determination the prior sampling that was not adequate for diagnosis, use 1 unit of 88177 for each additional evaluation episode)

88174 Cytopathology, cervical or vaginal (any reporting system), collected in preservative fluid, automated thin layer preparation; screening by automated system, under physician supervision

CPT Changes: An Insider's View 2003

CPT Assistant Jul 03:9, Mar 04:4

88175 with screening by automated system and manual rescreening or review, under physician supervision

CPT Changes: An Insider's View 2003, 2006

CPT Assistant Jul 03:9, Mar 04:4, Mar 06:6, May 11:10

(For manual screening, see 88142, 88143)

88177 Code is out of numerical sequence. See 88172-88175

88182 Flow cytometry, cell cycle or DNA analysis

CPT Assistant Oct 13:3

(For DNA ploidy analysis by morphometric technique, use 88358)

88184 Flow cytometry, cell surface, cytoplasmic, or nuclear marker, technical component only; first marker

CPT Changes: An Insider's View 2005

CPT Assistant Dec 07:14, Oct 13:3

+ **88185** each additional marker (List separately in addition to code for first marker)

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Dec 07:14, Oct 13:3

(Report 88185 in conjunction with 88184)

88187 Flow cytometry, interpretation; 2 to 8 markers

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Apr 05:14, Oct 13:3

88188 9 to 15 markers

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Apr 05:14, Oct 13:3

88189 16 or more markers

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Apr 05:14, Oct 13:3, Jan 24:17

(Do not report 88187-88189 for interpretation of 86355, 86356, 86357, 86359, 86360, 86361, 86367)

(For assessment of circulating antibodies by flow cytometric techniques, see analyte and method-specific codes in the Chemistry section [83516-83520] or Immunology section [86000-86849])

(For cell enumeration using immunologic selection and identification in fluid specimen [eg, circulating tumor cells in blood], see 86152, 86153)

88199 Unlisted cytopathology procedure

- *CPT Assistant* Jan 24:17

(For electron microscopy, use 88348)

Cytogenetic Studies

Cytogenetic study procedures that are not specified in 88230-88291 and are not in the Surgical Pathology (88300-88387) subsection may be reported using the unlisted cytogenetic study code 88299.

Molecular pathology procedures should be reported using the appropriate code from Tier 1 (81161, 81200-81383), Tier 2 (81400-81408), Genomic Sequencing Procedures and Other Molecular Multianalyte Assays (81410-81471), or Multianalyte Assays with Algorithmic Analyses (81500-81512) sections. If no specific code exists, one of the unlisted codes (81479 or 81599) should be used.

(For acetylcholinesterase, use 82013)

(For alpha-fetoprotein, serum or amniotic fluid, see 82105, 82106)

(For laser microdissection of cells from tissue sample, see 88380)

88230 Tissue culture for non-neoplastic disorders; lymphocyte

CPT Assistant Nov 98:29, Oct 99:2, Aug 05:9, May 08:5, Jan 24:17

88233 skin or other solid tissue biopsy

CPT Assistant Nov 98:29, Oct 99:2, May 08:5

88235 amniotic fluid or chorionic villus cells

CPT Assistant Nov 98:29, Oct 99:2, May 08:5

88237 Tissue culture for neoplastic disorders; bone marrow, blood cells

CPT Assistant Nov 98:29, Oct 99:2, May 08:5

88239 solid tumor

CPT Assistant Nov 98:29, Oct 99:2, May 08:5

88240 Cryopreservation, freezing and storage of cells, each cell line

CPT Assistant Nov 98:29, Oct 99:2, Jul 03:9, May 08:5, Oct 13:3

(For therapeutic cryopreservation and storage, use 38207)

88241 Thawing and expansion of frozen cells, each aliquot

CPT Assistant Nov 98:29, Oct 99:2, Jul 03:9, May 08:5, Oct 13:3

(For therapeutic thawing of previous harvest, use 38208)

88245 Chromosome analysis for breakage syndromes; baseline Sister Chromatid Exchange (SCE), 20-25 cells

CPT Assistant Nov 98:29, Oct 99:2, Jul 05:1, May 08:5

88248 baseline breakage, score 50-100 cells, count 20 cells, 2 karyotypes (eg, for ataxia telangiectasia, Fanconi anemia, fragile X)

CPT Assistant Nov 98:29, Oct 99:2, Jul 05:1, May 08:5

88249 score 100 cells, clastogen stress (eg, diepoxybutane, mitomycin C, ionizing radiation, UV radiation)

CPT Assistant Nov 98:29, Oct 99:2, Jul 05:1, May 08:5

88261 Chromosome analysis; count 5 cells, 1 karyotype, with banding

CPT Assistant Nov 98:29, Oct 99:2, Jul 05:1, May 08:5

88262 count 15-20 cells, 2 karyotypes, with banding

CPT Assistant Nov 98:29, Oct 99:2, May 08:5, May 11:10, Aug 19:11

88263 count 45 cells for mosaicism, 2 karyotypes, with banding

CPT Assistant Nov 98:29, Oct 99:2, Jul 05:1, May 08:5

88264 analyze 20-25 cells

CPT Assistant Nov 98:29, Oct 99:2, Jul 05:1, May 08:5, Aug 19:11

88267 Chromosome analysis, amniotic fluid or chorionic villus, count 15 cells, 1 karyotype, with banding

CPT Assistant Jul 05:1

88269 Chromosome analysis, in situ for amniotic fluid cells, count cells from 6-12 colonies, 1 karyotype, with banding

CPT Assistant Jul 05:1

88271 Molecular cytogenetics; DNA probe, each (eg, FISH)

CPT Assistant Nov 98:29, Mar 99:10, Oct 99:3, Jun 02:11, Jul 05:1, May 08:5, May 12:5, Sep 13:3, Feb 20:10

(For cytogenomic [genome-wide] analysis for constitutional chromosomal abnormalities, see 81228, 81229, 81349, 81405, 81406, 81479)

(For genomic sequencing procedures or other molecular multianalyte assays for copy number analysis using circulating cell-free fetal DNA in maternal blood, see 81420, 81422, 81479)

88272 chromosomal in situ hybridization, analyze 3-5 cells (eg, for derivatives and markers)

CPT Assistant Nov 98:29, Mar 99:10, Oct 99:3, Jun 02:11, Jul 05:1, May 08:5, May 12:5, Sep 13:3

88273 chromosomal in situ hybridization, analyze 10-30 cells (eg, for microdeletions)

CPT Assistant Nov 98:29, Mar 99:10, Oct 99:3, Jun 02:11, Jul 05:1, May 08:5, May 12:5, Sep 13:3

88274 interphase in situ hybridization, analyze 25-99 cells

CPT Assistant Nov 98:29, Mar 99:10, Oct 99:3, Jun 02:11, Jul 05:1, May 08:5, May 12:5, Sep 13:3

88275 interphase in situ hybridization, analyze 100-300 cells

CPT Assistant Nov 98:29, Mar 99:10, Oct 99:3, Jun 02:11, Jul 05:1, May 08:5, May 12:5, Sep 13:3

88280 Chromosome analysis; additional karyotypes, each study

CPT Assistant Jul 05:1, May 08:5

88283 additional specialized banding technique (eg, NOR, C-banding)

CPT Assistant Jul 05:1, May 08:5

88285 additional cells counted, each study

CPT Assistant Jul 05:1, Dec 07:14, May 08:5, May 11:10

88289 additional high resolution study

CPT Assistant Oct 99:3, Jul 05:1

88291 Cytogenetics and molecular cytogenetics, interpretation and report

CPT Assistant Nov 98:29, Oct 99:3, Jul 05:1, May 08:5, Jan 24:17

88299 Unlisted cytogenetic study

CPT Assistant Oct 99:3, Jan 24:17

Surgical Pathology

Services 88300 through 88309 include accession, examination, and reporting. They do not include the services designated in codes 88311 through 88387 and 88399, which are coded in addition when provided.

The unit of service for codes 88300 through 88309 is the specimen.

A specimen is defined as tissue or tissues that is (are) submitted for individual and separate attention, requiring individual examination and pathologic diagnosis. Two or more such specimens from the same patient (eg, separately identified endoscopic biopsies, skin lesions) are each appropriately assigned an individual code reflective of its proper level of service.

Service code 88300 is used for any specimen that in the opinion of the examining pathologist can be accurately diagnosed without microscopic examination. Service code 88302 is used when gross and microscopic examination is performed on a specimen to confirm identification and the absence of disease. Service codes 88304 through 88309 describe all other specimens requiring gross and microscopic examination, and represent additional ascending levels of physician work. Levels 88302 through 88309 are specifically defined by the assigned specimens.

Any unlisted specimen should be assigned to the code which most closely reflects the physician work involved when compared to other specimens assigned to that code.

Surgical pathology procedures that are not specified in 88300-88387 may be reported using the unlisted surgical pathology procedure code 88399.

(Do not report 88302-88309 on the same specimen as part of Mohs surgery)

88300 **Level I -** Surgical pathology, gross examination only

➔ *CPT Assistant* Winter 91:18, Sep 00:10, Aug 05:9, Jun 21:6, Aug 21:3, 6-7, Jan 24:17

88302 **Level II -** Surgical pathology, gross and microscopic examination

Appendix, incidental

Fallopian tube, sterilization

Fingers/toes, amputation, traumatic

Foreskin, newborn

Hernia sac, any location

Hydrocele sac

Nerve

Skin, plastic repair

Sympathetic ganglion

Testis, castration

Vaginal mucosa, incidental

Vas deferens, sterilization

➔ *CPT Assistant* Winter 91:18, Sep 00:10, Nov 06:1, Jan 07:29, Dec 11:17, Feb 14:10, Jun 21:6, Aug 21:3, 6-7

(Use 0751T in conjunction with 88302 when the digitization of glass microscope slides is performed)

88304 **Level III -** Surgical pathology, gross and microscopic examination

Abortion, induced

Abscess

Aneurysm - arterial/ventricular

Anus, tag

Appendix, other than incidental

Artery, atheromatous plaque

Bartholin's gland cyst

Bone fragment(s), other than pathologic fracture

Bursa/synovial cyst

Carpal tunnel tissue

Cartilage, shavings

Cholesteatoma

Colon, colostomy stoma

Conjunctiva - biopsy/pterygium

Cornea

Diverticulum - esophagus/small intestine

Dupuytren's contracture tissue

Femoral head, other than fracture

Fissure/fistula

Foreskin, other than newborn

Gallbladder

Ganglion cyst

Hematoma

Hemorrhoids

Hydatid of Morgagni

Intervertebral disc

Joint, loose body

Meniscus

Mucocele, salivary

Neuroma - Morton's/traumatic

Pilonidal cyst/sinus

Polyps, inflammatory - nasal/sinusoidal

Skin - cyst/tag/debridement

Soft tissue, debridement

Soft tissue, lipoma

Spermatocele

Tendon/tendon sheath

Testicular appendage

Thrombus or embolus

Tonsil and/or adenoids

Varicocele

Vas deferens, other than sterilization

Vein, varicosity

➔ *CPT Changes: An Insider's View* 2002

➔ *CPT Assistant* Winter 91:18, Spring 91:2, Aug 97:18, Sep 00:10, Jan 07:29, Dec 11:17, Jun 21:6, Aug 21:3, 6-7, Jul 23:20

(Use 0752T in conjunction with 88304 when the digitization of glass microscope slides is performed)

88305 **Level IV -** Surgical pathology, gross and microscopic examination

Abortion - spontaneous/missed

Artery, biopsy

Bone marrow, biopsy

Bone exostosis

Brain/meninges, other than for tumor resection

Breast, biopsy, not requiring microscopic evaluation of surgical margins
Breast, reduction mammoplasty
Bronchus, biopsy
Cell block, any source
Cervix, biopsy
Colon, biopsy
Duodenum, biopsy
Endocervix, curettings/biopsy
Endometrium, curettings/biopsy
Esophagus, biopsy
Extremity, amputation, traumatic
Fallopian tube, biopsy
Fallopian tube, ectopic pregnancy
Femoral head, fracture
Fingers/toes, amputation, non-traumatic
Gingiva/oral mucosa, biopsy
Heart valve
Joint, resection
Kidney, biopsy
Larynx, biopsy
Leiomyoma(s), uterine myomectomy - without uterus
Lip, biopsy/wedge resection
Lung, transbronchial biopsy
Lymph node, biopsy
Muscle, biopsy
Nasal mucosa, biopsy
Nasopharynx/oropharynx, biopsy
Nerve, biopsy
Odontogenic/dental cyst
Omentum, biopsy
Ovary with or without tube, non-neoplastic
Ovary, biopsy/wedge resection
Parathyroid gland
Peritoneum, biopsy
Pituitary tumor
Placenta, other than third trimester
Pleura/pericardium - biopsy/tissue

Polyp, cervical/endometrial

Polyp, colorectal

Polyp, stomach/small intestine

Prostate, needle biopsy

Prostate, TUR

Salivary gland, biopsy

Sinus, paranasal biopsy

Skin, other than cyst/tag/debridement/plastic repair

Small intestine, biopsy

Soft tissue, other than tumor/mass/lipoma/debridement

Spleen

Stomach, biopsy

Synovium

Testis, other than tumor/biopsy/castration

Thyroglossal duct/brachial cleft cyst

Tongue, biopsy

Tonsil, biopsy

Trachea, biopsy

Ureter, biopsy

Urethra, biopsy

Urinary bladder, biopsy

Uterus, with or without tubes and ovaries, for prolapse

Vagina, biopsy

Vulva/labia, biopsy

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Winter 90:2, Winter 91:18, Spring 91:6, Winter 92:17, Aug 97:18, Jul 98:4, Nov 98:29-30, Jul 00:4, Sep 00:10, Dec 00:15, Jul 05:13, Nov 06:1, Jan 07:29, Dec 11:17, Jun 21:6, Aug 21:3, 6-7, Jun 23:31, Jul 23:20

(Use 0753T in conjunction with 88305 when the digitization of glass microscope slides is performed)

88307 **Level V -** Surgical pathology, gross and microscopic examination

Adrenal, resection

Bone - biopsy/curettings

Bone fragment(s), pathologic fracture

Brain, biopsy

Brain/meninges, tumor resection

Breast, excision of lesion, requiring microscopic evaluation of surgical margins

Breast, mastectomy - partial/simple

Cervix, conization

Colon, segmental resection, other than for tumor

Extremity, amputation, non-traumatic

Eye, enucleation

Kidney, partial/total nephrectomy

Larynx, partial/total resection

Liver, biopsy - needle/wedge

Liver, partial resection

Lung, wedge biopsy

Lymph nodes, regional resection

Mediastinum, mass

Myocardium, biopsy

Odontogenic tumor

Ovary with or without tube, neoplastic

Pancreas, biopsy

Placenta, third trimester

Prostate, except radical resection

Salivary gland

Sentinel lymph node

Soft tissue mass (except lipoma) - biopsy/simple excision

Stomach - subtotal/total resection, other than for tumor

Testis, biopsy

Thymus, tumor

Thyroid, total/lobe

Ureter, resection

Urinary bladder, TUR

Uterus, with or without tubes and ovaries, other than neoplastic/prolapse

(Use 0754T in conjunction with 88307 when the digitization of glass microscope slides is performed)

►(Use 0961T in conjunction with 88307 when shortwave infrared radiation imaging is performed)◄

88309 **Level VI** - Surgical pathology, gross and microscopic examination

Bone resection

Breast, mastectomy - with regional lymph nodes

Colon, segmental resection for tumor

Colon, total resection

Esophagus, partial/total resection

Extremity, disarticulation

Fetus, with dissection

Larynx, partial/total resection - with regional lymph nodes

Lung - total/lobe/segment resection

Pancreas, total/subtotal resection

Prostate, radical resection

Small intestine, resection for tumor

Soft tissue tumor, extensive resection

Stomach - subtotal/total resection for tumor

Testis, tumor

Tongue/tonsil - resection for tumor

Urinary bladder, partial/total resection

Uterus, with or without tubes and ovaries, neoplastic

Vulva, total/subtotal resection

➔ *CPT Assistant* Winter 91:18, Spring 91:2, Fall 93:2, 26, Jul 00:4, Sep 00:10, Dec 03:11, Nov 06:1, Jan 07:29, Dec 11:18, Feb 14:10, Jun 21:6, Aug 21:3, 6

(Use 0755T in conjunction with 88309 when the digitization of glass microscope slides is performed)

►(Use 0961T in conjunction with 88309 when shortwave infrared radiation imaging is performed)◄

(Do not report 88302-88309 on the same specimen as part of Mohs surgery)

(For fine needle aspiration biopsy, see 10004, 10005, 10006, 10007, 10008, 10009, 10010, 10011, 10012, 10021)

(For evaluation of fine needle aspirate, see 88172-88173)

+ 88311 Decalcification procedure (List separately in addition to code for surgical pathology examination)

➔ *CPT Assistant* Winter 92:18, Jul 98:4, Jun 02:11, Nov 02:7, Nov 06:1, Dec 11:18, Jun 21:6, Aug 21:3, 6

88312 Special stain including interpretation and report; Group I for microorganisms (eg, acid fast, methenamine silver)

➔ *CPT Changes: An Insider's View* 2004, 2010, 2012

➔ *CPT Assistant* Winter 91:19, Jun 02:11, Nov 02:7, Nov 06:1, Dec 11:18

(Use 0756T in conjunction with 88312 when the digitization of glass microscope slides is performed)

(Report one unit of 88312 for each special stain, on each surgical pathology block, cytologic specimen, or hematologic smear)

88313 Group II, all other (eg, iron, trichrome), except stain for microorganisms, stains for enzyme constituents, or immunocytochemistry and immunohistochemistry

- *CPT Changes: An Insider's View* 2010, 2012
- *CPT Assistant* Jun 02:11, Nov 02:7, Mar 03:22, Nov 03:15, Jun 06:17, Nov 06:1, Dec 11:18

(Use 0757T in conjunction with 88313 when the digitization of glass microscope slides is performed)

(Report one unit of 88313 for each special stain, on each surgical pathology block, cytologic specimen, or hematologic smear)

(For immunocytochemistry and immunohistochemistry, use 88342)

+ 88314 histochemical stain on frozen tissue block (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2010, 2012
- *CPT Assistant* Nov 02:7, Nov 06:1, Dec 11:18

(Use 88314 in conjunction with 17311-17315, 88302-88309, 88331, 88332)

(Use 0758T in conjunction with 88314 when the digitization of glass microscope slides is performed)

(Do not report 88314 with 17311-17315 for routine frozen section stain [eg, hematoxylin and eosin, toluidine blue], performed during Mohs surgery. When a nonroutine histochemical stain on frozen tissue during Mohs surgery is utilized, report 88314 with modifier 59)

(Report one unit of 88314 for each special stain on each frozen surgical pathology block)

(For a special stain performed on frozen tissue section material to identify enzyme constituents, use 88319)

(For determinative histochemistry to identify chemical components, use 88313)

88319 Group III, for enzyme constituents

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* Dec 11:18

(Use 0759T in conjunction with 88319 when the digitization of glass microscope slides is performed)

(For each stain on each surgical pathology block, cytologic specimen, or hematologic smear, use one unit of 88319)

(For detection of enzyme constituents by immunohistochemical or immunocytochemical technique, use 88342)

88321 Consultation and report on referred slides prepared elsewhere

- *CPT Assistant* Winter 91:19, Apr 97:9, Oct 00:7, Dec 02:10, Jan 10:11, Dec 11:18, Jun 13:15, Feb 22:6

(Use 0838T in conjunction with 88321, when the digitization of glass microscope slides is performed)

88323 Consultation and report on referred material requiring preparation of slides

- *CPT Assistant* Winter 91:19, Apr 97:9, Oct 00:7, Dec 02:10, Dec 11:18, Jun 13:15, Feb 22:6

(Use 0839T in conjunction with 88323, when the digitization of glass microscope slides is performed)

88325 Consultation, comprehensive, with review of records and specimens, with report on referred material

- *CPT Assistant* Winter 91:19, Apr 97:9, Dec 02:10, Dec 11:18, Jun 13:15, Feb 22:6

(Use 0840T in conjunction with 88325, when the digitization of glass microscope slides is performed)

88329 Pathology consultation during surgery;

- *CPT Assistant* Winter 91:19, Apr 97:12, Aug 97:18, Jan 07:29, Dec 11:18

88331 first tissue block, with frozen section(s), single specimen

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Winter 91:19, Spring 91:2, Apr 97:12, Aug 97:18, Jul 00:4, Nov 02:7, Mar 06:6, Nov 06:1, Jan 07:29, Oct 10:9, Dec 10:9, Dec 11:18

(Use 0841T in conjunction with 88331, when the digitization of glass microscope slides is performed)

+ 88332 each additional tissue block with frozen section(s) (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2011
- *CPT Assistant* Winter 91:19, Apr 97:12, Aug 97:18, Jul 00:4, Mar 06:6, Jan 07:29, Oct 10:9, Dec 10:9, Dec 11:18

(Use 88332 in conjunction with 88331)

(Use 0842T in conjunction with 88332, when the digitization of glass microscope slides is performed)

88333 cytologic examination (eg, touch prep, squash prep), initial site

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Mar 06:6, Jan 07:29, Jun 08:15, Dec 10:9, Dec 11:18

(Use 0843T in conjunction with 88333, when the digitization of glass microscope slides is performed)

+ 88334 cytologic examination (eg, touch prep, squash prep), each additional site (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2006, 2011
- *CPT Assistant* Mar 06:6, Jan 07:29, Oct 10:9, Dec 11:18

(Use 88334 in conjunction with 88331, 88333)

(Use 0844T in conjunction with 88334, when the digitization of glass microscope slides is performed)

(For intraoperative consultation on a specimen requiring both frozen section and cytologic evaluation, use 88331 and 88334)

(For percutaneous needle biopsy requiring intraprocedural cytologic examination, use 88333)

(Do not report 88333 and 88334 for non-intraoperative cytologic examination, see 88160-88162)

(Do not report 88333 and 88334 for intraprocedural cytologic evaluation of fine needle aspirate, see 88172)

88341 Code is out of numerical sequence. See 88334-88372

88342 Immunohistochemistry or immunocytochemistry, per specimen; initial single antibody stain procedure

- *CPT Changes: An Insider's View* 2004, 2014, 2015
- *CPT Assistant* Winter 91:17, Jul 00:10, Nov 02:6-7, Nov 06:1, Dec 11:18, Jun 14:15, Jun 15:11

(Use 0760T in conjunction with 88342 when the digitization of glass microscope slides is performed)

(For quantitative or semiquantitative immunohistochemistry, see 88360, 88361)

#+ 88341 each additional single antibody stain procedure (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2015
- *CPT Assistant* Jun 15:11

(Use 88341 in conjunction with 88342)

(Use 0761T in conjunction with 88341 when the digitization of glass microscope slides is performed)

(For multiplex antibody stain procedure, use 88344)

88344 each multiplex antibody stain procedure

- *CPT Changes: An Insider's View* 2015
- *CPT Assistant* Jun 15:11

(Use 0762T in conjunction with 88344 when the digitization of glass microscope slides is performed)

(Do not use more than one unit of 88341, 88342, or 88344 for the same separately identifiable antibody per specimen)

(Do not report 88341, 88342, 88344 in conjunction with 88360, 88361 unless each procedure is for a different antibody)

(When multiple separately identifiable antibodies are applied to the same specimen [ie, multiplex antibody stain procedure], use one unit of 88344)

(When multiple antibodies are applied to the same slide that are not separately identifiable, [eg, antibody cocktails], use 88342, unless an additional separately identifiable antibody is also used, then use 88344)

88346 Immunofluorescence, per specimen; initial single antibody stain procedure

CPT Changes: An Insider's View 2016

CPT Assistant Dec 11:18

(Use 0845T in conjunction with 88346, when the digitization of glass microscope slides is performed)

#+ 88350 each additional single antibody stain procedure (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2016

(Use 0846T in conjunction with 88350, when the digitization of glass microscope slides is performed)

(Report 88350 in conjunction with 88346)

(Do not report 88346 and 88350 for fluorescent in situ hybridization studies, see 88364, 88365, 88366, 88367, 88368, 88369, 88373, 88374, and 88377)

(Do not report 88346 and 88350 for multiplex immunofluorescence analysis, use 88399)

88348 Electron microscopy, diagnostic

CPT Assistant Dec 11:18

(Use 0856T in conjunction with 88348, when the digitization of glass microscope slides is performed)

88350 Code is out of numerical sequence. See 88334-88372

88355 Morphometric analysis; skeletal muscle

CPT Assistant Dec 11:18

88356 nerve

CPT Assistant Dec 11:18, Jun 14:15

88358 tumor (eg, DNA ploidy)

CPT Changes: An Insider's View 2004

CPT Assistant Jul 98:4, Jul 99:11, Jun 02:11, Jun 06:17, Dec 11:18

(Do not report 88358 with 88313 unless each procedure is for a different special stain)

88360 Morphometric analysis, tumor immunohistochemistry (eg, Her-2/neu, estrogen receptor/progesterone receptor), quantitative or semiquantitative, per specimen, each single antibody stain procedure; manual

CPT Changes: An Insider's View 2005, 2015

CPT Assistant Dec 11:18, Jun 14:15

(Use 0763T in conjunction with 88360 when the digitization of glass microscope slides is performed)

88361 using computer-assisted technology

CPT Changes: An Insider's View 2004, 2005, 2015

CPT Assistant Dec 11:18, Jun 14:15

(Do not report 88360, 88361 in conjunction with 88341, 88342, or 88344 unless each procedure is for a different antibody)

(Morphometric analysis of a multiplex antibody stain should be reported with one unit of 88360 or 88361, per specimen)

(For morphometric analysis using in situ hybridization techniques, see 88367, 88368)

(When semi-thin plastic-embedded sections are performed in conjunction with morphometric analysis, only the morphometric analysis should be reported; if performed as an independent procedure, see codes 88300-88309 for surgical pathology.)

88362 Nerve teasing preparations

CPT Assistant Dec 11:18

88363 Examination and selection of retrieved archival (ie, previously diagnosed) tissue(s) for molecular analysis (eg, *KRAS* mutational analysis)

CPT Changes: An Insider's View 2011

CPT Assistant Oct 10:10, Dec 10:10, Dec 11:18

(Use 0847T in conjunction with 88363, when the digitization of glass microscope slides is performed)

88364 Code is out of numerical sequence. See 88334-88372

88365 In situ hybridization (eg, FISH), per specimen; initial single probe stain procedure

CPT Changes: An Insider's View 2005, 2015

CPT Assistant Jun 02:11, Mar 05:16, Dec 11:18, May 12:3, Sep 13:3, Nov 18:11, Jun 21:6, Aug 21:3, 6

(Use 0848T in conjunction with 88365, when the digitization of glass microscope slides is performed)

#+ 88364 each additional single probe stain procedure (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2015

(Use 88364 in conjunction with 88365)

(Use 0849T in conjunction with 88364, when the digitization of glass microscope slides is performed)

88366 each multiplex probe stain procedure

CPT Changes: An Insider's View 2015

(Use 0850T in conjunction with 88366, when the digitization of glass microscope slides is performed)

(Do not report 88365, 88366 in conjunction with 88367, 88368, 88374, 88377 for the same probe)

88367 Morphometric analysis, in situ hybridization (quantitative or semi-quantitative), using computer-assisted technology, per specimen; initial single probe stain procedure

CPT Changes: An Insider's View 2005, 2015

CPT Assistant Mar 05:16, Oct 10:9, Dec 11:18, May 12:5, Sep 13:3

#+ 88373 each additional single probe stain procedure (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2015

(Use 88373 in conjunction with 88367)

 # 88374 each multiplex probe stain procedure

CPT Changes: An Insider's View 2015

(Do not report 88367, 88374 in conjunction with 88365, 88366, 88368, 88377 for the same probe)

88368 Morphometric analysis, in situ hybridization (quantitative or semi-quantitative), manual, per specimen; initial single probe stain procedure

CPT Changes: An Insider's View 2005, 2015

CPT Assistant Mar 05:16, Oct 10:9, Dec 11:18, May 12:5, Sep 13:3

(Use 0851T in conjunction with 88368, when the digitization of glass microscope slides is performed)

+ 88369 each additional single probe stain procedure (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2015

(Use 88369 in conjunction with 88368)

(Use 0852T in conjunction with 88369, when the digitization of glass microscope slides is performed)

 # 88377 each multiplex probe stain procedure

CPT Changes: An Insider's View 2015

(Use 0853T in conjunction with 88377, when the digitization of glass microscope slides is performed)

(Do not report 88368 or 88377 in conjunction with 88365, 88366, 88367, 88374 for the same probe)

(For morphometric in situ hybridization evaluation of urinary tract cytologic specimens, see 88120, 88121)

88371 Protein analysis of tissue by Western Blot, with interpretation and report;

CPT Assistant Dec 11:18, Dec 15:17

88372 immunological probe for band identification, each

CPT Assistant Dec 11:8

88373 Code is out of numerical sequence. See 88334-88372

88374 Code is out of numerical sequence. See 88334-88372

88375 Optical endomicroscopic image(s), interpretation and report, real-time or referred, each endoscopic session

CPT Changes: An Insider's View 2013

CPT Assistant Aug 13:5

(Do not report 88375 in conjunction with 43206, 43252, 0397T)

88377 Code is out of numerical sequence. See 88334-88372

88380 Microdissection (ie, sample preparation of microscopically identified target); laser capture

CPT Changes: An Insider's View 2002, 2008

CPT Assistant Apr 02:17, Apr 08:5, Dec 11:18, May 12:8, 10, Sep 13:3

88381 manual

CPT Changes: An Insider's View 2008

CPT Assistant Apr 08:5, Dec 11:18, May 12:8, 10, Sep 13:3

(Do not report 88380 in conjunction with 88381)

88387 Macroscopic examination, dissection, and preparation of tissue for non-microscopic analytical studies (eg, nucleic acid-based molecular studies), each tissue preparation (eg, a single lymph node)

CPT Changes: An Insider's View 2010, 2025

CPT Assistant Dec 11:18

(Do not report 88387 for tissue preparation for microbiologic cultures or flow cytometric studies)

(Do not report 88387 in conjunction with 88329-88334)

(88388 has been deleted)

88399 Unlisted surgical pathology procedure

CPT Assistant Jun 14:15, Jun 21:6, Aug 21:3, 6, Jan 24:17

Clinical Examples in Radiology Fall 24:20

In Vivo (eg, Transcutaneous) Laboratory Procedures

In vivo measurement procedures that are not specified in 88720, 88738, 88740, 88741 may be reported using the unlisted in vivo pathology procedure code 88749.

(For wavelength fluorescent spectroscopy of advanced glycation end products [skin], use 88749)

88720 Bilirubin, total, transcutaneous

- *CPT Changes: An Insider's View* 2009
- *CPT Assistant* Dec 10:10, May 20:14, Jan 24:17

(For transdermal oxygen saturation, see 94760-94762)

88738 Hemoglobin (Hgb), quantitative, transcutaneous

- *CPT Changes: An Insider's View* 2010

(For in vitro hemoglobin measurement, use 85018)

88740 Hemoglobin, quantitative, transcutaneous, per day; carboxyhemoglobin

- *CPT Changes: An Insider's View* 2009

(For in vitro carboxyhemoglobin measurement, use 82375)

88741 methemoglobin

- *CPT Changes: An Insider's View* 2009
- *CPT Assistant* Jan 24:17

(For in vitro quantitative methemoglobin determination, use 83050)

88749 Unlisted in vivo (eg, transcutaneous) laboratory service

- *CPT Changes: An Insider's View* 2011
- *CPT Assistant* Oct 10:10, Dec 10:10, Jan 24:17

Other Procedures

Other procedures that are not specified in 89049-89230 or in other subsections (Chemistry, Hematology and Coagulation, Immunology, Transfusion Medicine, Microbiology, Cytopathology) may be reported using the unlisted miscellaneous pathology test code 89240.

89049 Caffeine halothane contracture test (CHCT) for malignant hyperthermia susceptibility, including interpretation and report

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Mar 06:6, May 06:19, Sep 11:4, Jan 24:17

89050 Cell count, miscellaneous body fluids (eg, cerebrospinal fluid, joint fluid), except blood;

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Aug 05:9, Sep 11:4

89051 with differential count

- *CPT Assistant* Sep 11:4

89055 Leukocyte assessment, fecal, qualitative or semiquantitative

- *CPT Changes: An Insider's View* 2003, 2004
- *CPT Assistant* Jul 03:9, Sep 11:4

89264 Sperm identification from testis tissue, fresh or cryopreserved
- *CPT Assistant* Nov 98:30, Apr 04:3-4

(For biopsy of testis, see 54500, 54505)

(For sperm identification from aspiration, use 89257)

(For semen analysis, see 89300-89320)

89268 Insemination of oocytes
- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Apr 04:3-4

89272 Extended culture of oocyte(s)/embryo(s), 4-7 days
- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Apr 04:3-4

89280 Assisted oocyte fertilization, microtechnique; less than or equal to 10 oocytes
- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Apr 04:3-4

89281 greater than 10 oocytes
- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Apr 04:3-4

89290 Biopsy, oocyte polar body or embryo blastomere, microtechnique (for pre-implantation genetic diagnosis); less than or equal to 5 embryos
- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Apr 04:5

89291 greater than 5 embryos
- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Apr 04:3, 5

89300 Semen analysis; presence and/or motility of sperm including Huhner test (post coital)
- *CPT Assistant* Nov 97:36, Jul 98:10, Oct 98:4, Apr 04:3, Aug 05:9

89310 motility and count (not including Huhner test)
- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Jul 03:9, Apr 04:3

89320 volume, count, motility, and differential
- *CPT Changes: An Insider's View* 2008
- *CPT Assistant* Apr 04:3, Apr 08:5

(Skin tests, see 86485-86580 and 95012-95199)

89321 sperm presence and motility of sperm, if performed
- *CPT Changes: An Insider's View* 2001, 2008

(To report Hyaluronan binding assay [HBA], use 89398)

89322 volume, count, motility, and differential using strict morphologic criteria (eg, Kruger)
- *CPT Changes: An Insider's View* 2008
- *CPT Assistant* Apr 08:5

89325 Sperm antibodies

(For medicolegal identification of sperm, use 88125)

89329 Sperm evaluation; hamster penetration test

89330 cervical mucus penetration test, with or without spinnbarkeit test
- *CPT Assistant* Nov 05:14

89331 Sperm evaluation, for retrograde ejaculation, urine (sperm concentration, motility, and morphology, as indicated)

- *CPT Changes: An Insider's View* 2008
- *CPT Assistant* Apr 08:5

(For semen analysis on concurrent semen specimen, see 89300-89322 in conjunction with 89331)

(For detection of sperm in urine, use 81015)

89335 Cryopreservation, reproductive tissue, testicular

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Apr 04:5

(For cryopreservation of embryo[s], use 89258. For cryopreservation of sperm, use 89259; for mature oocytes, use 89337)

89337 Cryopreservation, mature oocyte(s)

- *CPT Changes: An Insider's View* 2015

89342 Storage (per year); embryo(s)

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Apr 04:5

89343 sperm/semen

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Apr 04:5

89344 reproductive tissue, testicular/ovarian

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Apr 04:5

89346 oocyte(s)

- *CPT Changes: An Insider's View* 2004, 2005
- *CPT Assistant* Apr 04:5

89352 Thawing of cryopreserved; embryo(s)

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Apr 04:5

89353 sperm/semen, each aliquot

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Apr 04:5

89354 reproductive tissue, testicular/ovarian

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Apr 04:5

89356 oocytes, each aliquot

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Apr 04:5, Aug 05:9, Jan 24:17

89398 Unlisted reproductive medicine laboratory procedure

- *CPT Changes: An Insider's View* 2010
- *CPT Assistant* Dec 20:3, Jan 24:17

Proprietary Laboratory Analyses

►Proprietary laboratory analyses (PLA) codes describe proprietary clinical laboratory analyses and can be provided either by a single ("sole-source," including the same or different locations, owned and operated by the same entity) laboratory or licensed or marketed to multiple providing laboratories (eg, cleared or approved by the Food and Drug Administration [FDA]). PLA codes do not have a physician work component.

This subsection includes advanced diagnostic laboratory tests (ADLTs) and clinical diagnostic laboratory tests (CDLTs), as defined under the Protecting Access to Medicare Act (PAMA) of 2014. These analyses may include a range of medical laboratory tests including, but not limited to, multianalyte assays with algorithmic analyses (MAAA) and genomic sequencing procedures (GSP). The descriptor nomenclature follows, where possible, existing code conventions (eg, MAAA, GSP). An algorithm-only analysis of existing test results without biomarker analysis is not eligible for a PLA code.

Even though the Proprietary Laboratory Analyses section of the code set is located at the end of the Pathology and Laboratory section of the code set, a PLA code does not fulfill Category I code criteria. PLA codes are not required to fulfill the Category I criteria. The standards for inclusion in the PLA section are:

- The test must be commercially available in the United States for use on human specimens and
- The CLIA-certified or accredited clinical laboratory performing the PLA test or the manufacturer offering an FDA-approved, cleared, or classified in vitro diagnostic (IVD) test must request the code.◄

For similar laboratory analyses that fulfill Category I criteria, see codes listed in the numeric 80000 series.

When a PLA code is available to report a given proprietary laboratory service, that PLA code takes precedence. The service should not be reported with any other CPT code(s) and other CPT code(s) should not be used to report services that may be reported with that specific PLA code. These codes encompass all analytical services required for the analysis (eg, cell lysis, nucleic acid stabilization, extraction, digestion, amplification, hybridization and detection). For molecular analyses, additional procedures that are required prior to cell lysis (eg, microdissection [codes 88380 and 88381]) may be reported separately.

Codes in this subsection are released on a quarterly basis to expedite dissemination for reporting. PLA codes will be published electronically on the AMA CPT website (ama-assn.org/cpt-pla-codes), distributed via CPT data files on a quarterly basis, and, at a minimum, made available in print annually in the CPT codebook. See the Introduction section of the CPT code set for a complete list of the dates of release and implementation.

All codes that are included in this section are also included in Appendix O, with the procedure's proprietary name. In order to report a PLA code, the analysis performed must fulfill the code descriptor and must be the test represented by the proprietary name listed in Appendix O. In some instances, the descriptor language of PLA codes may be identical and the code may only be differentiated by the listed proprietary name in Appendix O. When more than one PLA has an identical descriptor, the codes will be denoted by the symbol "⌘."

►All PLA tests will have assigned codes in the PLA section of the code set. Any PLA coded test(s) that satisfies Category I criteria and has been accepted by the CPT Editorial Panel for Category I code status will receive a new CPT code number and be placed in the appropriate Pathology and Laboratory section of the code set.

The deletion of the existing PLA code will coincide with the effective date of the new Category I code. Once a PLA code changes to Category I in any other subsection, other than MAAA, of the Pathology and Laboratory section of the code set, it will no longer have proprietary status and will be deleted from Appendix O.◄

The accuracy of a PLA code is to be maintained by the original applicant, or the current owner of the test kit or laboratory performing the proprietary test.

►A new PLA code is required whenever the existing PLA has been updated in a manner that materially alters the original code descriptor, clinical indications, performance claims, or result reporting. Examples of changes that may trigger the need for a new PLA code include:

1. Additional nucleic acid (DNA or RNA) and/or protein analysis(es) are added to or removed from the current PLA test,
2. The algorithm (if used) has been materially changed so that it has expanded beyond its original intent, and
3. The name of the PLA test has changed in association with changes in test performance or test characteristics.

The addition or modification of the therapeutic applications of the test requires the submission of a code-change application, but it may not require a new code number.◄

0001U Red blood cell antigen typing, DNA, human erythrocyte antigen gene analysis of 35 antigens from 11 blood groups, utilizing whole blood, common RBC alleles reported
- *CPT Changes: An Insider's View* 2018

0002U Oncology (colorectal), quantitative assessment of three urine metabolites (ascorbic acid, succinic acid and carnitine) by liquid chromatography with tandem mass spectrometry (LC-MS/MS) using multiple reaction monitoring acquisition, algorithm reported as likelihood of adenomatous polyps
- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Aug 18:4

0003U Oncology (ovarian) biochemical assays of five proteins (apolipoprotein A-1, CA 125 II, follicle stimulating hormone, human epididymis protein 4, transferrin), utilizing serum, algorithm reported as a likelihood score
- *CPT Changes: An Insider's View* 2018

0005U Oncology (prostate) gene expression profile by real-time RT-PCR of 3 genes *(ERG, PCA3*, and *SPDEF)*, urine, algorithm reported as risk score
- *CPT Changes: An Insider's View* 2018

0007U Drug test(s), presumptive, with definitive confirmation of positive results, any number of drug classes, urine, includes specimen verification including DNA authentication in comparison to buccal DNA, per date of service
- *CPT Changes: An Insider's View* 2018, 2020

0008U Helicobacter pylori detection and antibiotic resistance, DNA, 16S and 23S rRNA, gyrA, pbp1, rdxA and rpoB, next generation sequencing, formalin-fixed paraffin-embedded or fresh tissue or fecal sample, predictive, reported as positive or negative for resistance to clarithromycin, fluoroquinolones, metronidazole, amoxicillin, tetracycline, and rifabutin
- *CPT Changes: An Insider's View* 2018, 2020

0009U Oncology (breast cancer), *ERBB2* (HER2) copy number by FISH, tumor cells from formalin-fixed paraffin-embedded tissue isolated using image-based dielectrophoresis (DEP) sorting, reported as *ERBB2* gene amplified or non-amplified
- *CPT Changes: An Insider's View* 2018

0010U Infectious disease (bacterial), strain typing by whole genome sequencing, phylogenetic-based report of strain relatedness, per submitted isolate
- *CPT Changes: An Insider's View* 2018

0011U Prescription drug monitoring, evaluation of drugs present by LC-MS/MS, using oral fluid, reported as a comparison to an estimated steady-state range, per date of service including all drug compounds and metabolites
- *CPT Changes: An Insider's View* 2018

0016U Oncology (hematolymphoid neoplasia), RNA, *BCR/ABL1* major and minor breakpoint fusion transcripts, quantitative PCR amplification, blood or bone marrow, report of fusion not detected or detected with quantitation
- *CPT Changes: An Insider's View* 2018

0017U Oncology (hematolymphoid neoplasia), *JAK2* mutation, DNA, PCR amplification of exons 12-14 and sequence analysis, blood or bone marrow, report of *JAK2* mutation not detected or detected
- *CPT Changes: An Insider's View* 2018

0018U Oncology (thyroid), microRNA profiling by RT-PCR of 10 microRNA sequences, utilizing fine needle aspirate, algorithm reported as a positive or negative result for moderate to high risk of malignancy

CPT Changes: An Insider's View 2019

0019U Oncology, RNA, gene expression by whole transcriptome sequencing, formalin-fixed paraffin-embedded tissue or fresh frozen tissue, predictive algorithm reported as potential targets for therapeutic agents

CPT Changes: An Insider's View 2019

0021U Oncology (prostate), detection of 8 autoantibodies (ARF 6, NKX3-1, 5'-UTR-BMI1, CEP 164, 3'-UTR-Ropporin, Desmocollin, AURKAIP-1, CSNK2A2), multiplexed immunoassay and flow cytometry serum, algorithm reported as risk score

CPT Changes: An Insider's View 2019

0022U Targeted genomic sequence analysis panel, non-small cell lung neoplasia, DNA and RNA analysis, 23 genes, interrogation for sequence variants and rearrangements, reported as presence or absence of variants and associated therapy(ies) to consider

CPT Changes: An Insider's View 2019, 2023, 2024

0023U Oncology (acute myelogenous leukemia), DNA, genotyping of internal tandem duplication, p.D835, p.I836, using mononuclear cells, reported as detection or non-detection of *FLT3* mutation and indication for or against the use of midostaurin

CPT Changes: An Insider's View 2019

0024U Glycosylated acute phase proteins (GlycA), nuclear magnetic resonance spectroscopy, quantitative

CPT Changes: An Insider's View 2019

0025U Tenofovir, by liquid chromatography with tandem mass spectrometry (LC-MS/MS), urine, quantitative

CPT Changes: An Insider's View 2019

0026U Oncology (thyroid), DNA and mRNA of 112 genes, next-generation sequencing, fine needle aspirate of thyroid nodule, algorithmic analysis reported as a categorical result ("Positive, high probability of malignancy" or "Negative, low probability of malignancy")

CPT Changes: An Insider's View 2019

0027U *JAK2 (Janus kinase 2)* (eg, myeloproliferative disorder) gene analysis, targeted sequence analysis exons 12-15

CPT Changes: An Insider's View 2019

0029U Drug metabolism (adverse drug reactions and drug response), targeted sequence analysis (ie, *CYP1A2*, *CYP2C19*, *CYP2C9*, *CYP2D6*, *CYP3A4*, *CYP3A5*, *CYP4F2*, *SLCO1B1*, *VKORC1* and rs12777823)

CPT Changes: An Insider's View 2019

0030U Drug metabolism (warfarin drug response), targeted sequence analysis (ie, *CYP2C9*, *CYP4F2*, *VKORC1*, rs12777823)

CPT Changes: An Insider's View 2019

0031U *CYP1A2 (cytochrome P450 family 1, subfamily A, member 2)* (eg, drug metabolism) gene analysis, common variants (ie, *1F, *1K, *6, *7)

CPT Changes: An Insider's View 2019

0032U *COMT (catechol-O-methyltransferase)* (eg, drug metabolism) gene analysis, c.472G>A (rs4680) variant

CPT Changes: An Insider's View 2019

0033U *HTR2A (5-hydroxytryptamine receptor 2A), HTR2C (5-hydroxytryptamine receptor 2C)* (eg, citalopram metabolism) gene analysis, common variants (ie, *HTR2A* rs7997012 [c.614-2211T>C], *HTR2C* rs3813929 [c.-759C>T] and rs1414334 [c.551-3008C>G])

CPT Changes: An Insider's View 2019

0034U *TPMT (thiopurine S-methyltransferase), NUDT15 (nudix hydroxylase 15)* (eg, thiopurine metabolism) gene analysis, common variants (ie, *TPMT* *2, *3A, *3B, *3C, *4, *5, *6, *8, *12; *NUDT15* *3, *4, *5)

CPT Changes: An Insider's View 2019

0035U Neurology (prion disease), cerebrospinal fluid, detection of prion protein by quaking-induced conformational conversion, qualitative

CPT Changes: An Insider's View 2019

►(For additional PLA code with identical clinical descriptor, see 0584U. See Appendix O or the most current listing on the AMA CPT website to determine appropriate code assignment)◄

0036U Exome (ie, somatic mutations), paired formalin-fixed paraffin-embedded tumor tissue and normal specimen, sequence analyses

CPT Changes: An Insider's View 2019

0037U Targeted genomic sequence analysis, solid organ neoplasm, DNA analysis of 324 genes, interrogation for sequence variants, gene copy number amplifications, gene rearrangements, microsatellite instability and tumor mutational burden

CPT Changes: An Insider's View 2019

0038U Vitamin D, 25 hydroxy D2 and D3, by LC-MS/MS, serum microsample, quantitative

CPT Changes: An Insider's View 2019

0039U Deoxyribonucleic acid (DNA) antibody, double stranded, high avidity

CPT Changes: An Insider's View 2019

0040U *BCR/ABL1 (t(9;22))* (eg, chronic myelogenous leukemia) translocation analysis, major breakpoint, quantitative

CPT Changes: An Insider's View 2019

0041U Borrelia burgdorferi, antibody detection of 5 recombinant protein groups, by immunoblot, IgM

CPT Changes: An Insider's View 2019

0042U Borrelia burgdorferi, antibody detection of 12 recombinant protein groups, by immunoblot, IgG

CPT Changes: An Insider's View 2019

0043U Tick-borne relapsing fever Borrelia group, antibody detection to 4 recombinant protein groups, by immunoblot, IgM

CPT Changes: An Insider's View 2019

0044U Tick-borne relapsing fever Borrelia group, antibody detection to 4 recombinant protein groups, by immunoblot, IgG

CPT Changes: An Insider's View 2019

0045U Oncology (breast ductal carcinoma in situ), mRNA, gene expression profiling by real-time RT-PCR of 12 genes (7 content and 5 housekeeping), utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as recurrence score

CPT Changes: An Insider's View 2019

0046U *FLT3 (fms-related tyrosine kinase 3)* (eg, acute myeloid leukemia) internal tandem duplication (ITD) variants, quantitative

CPT Changes: An Insider's View 2019

0047U Oncology (prostate), mRNA, gene expression profiling by real-time RT-PCR of 17 genes (12 content and 5 housekeeping), utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as a risk score

CPT Changes: An Insider's View 2019

0048U Oncology (solid organ neoplasia), DNA, targeted sequencing of protein-coding exons of 468 cancer-associated genes, including interrogation for somatic mutations and microsatellite instability, matched with normal specimens, utilizing formalin-fixed paraffin-embedded tumor tissue, report of clinically significant mutation(s)

CPT Changes: An Insider's View 2019

0049U *NPM1 (nucleophosmin)* (eg, acute myeloid leukemia) gene analysis, quantitative

CPT Changes: An Insider's View 2019

0050U Targeted genomic sequence analysis panel, acute myelogenous leukemia, DNA analysis, 194 genes, interrogation for sequence variants, copy number variants or rearrangements

CPT Changes: An Insider's View 2019

0051U Prescription drug monitoring, evaluation of drugs present by liquid chromatography tandem mass spectrometry (LC-MS/MS), urine or blood, 31 drug panel, reported as quantitative results, detected or not detected, per date of service

CPT Changes: An Insider's View 2019, 2022

0052U Lipoprotein, blood, high resolution fractionation and quantitation of lipoproteins, including all five major lipoprotein classes and subclasses of HDL, LDL, and VLDL by vertical auto profile ultracentrifugation

CPT Changes: An Insider's View 2019

(0053U has been deleted)

0054U Prescription drug monitoring, 14 or more classes of drugs and substances, definitive tandem mass spectrometry with chromatography, capillary blood, quantitative report with therapeutic and toxic ranges, including steady-state range for the prescribed dose when detected, per date of service

CPT Changes: An Insider's View 2019

0055U Cardiology (heart transplant), cell-free DNA, PCR assay of 96 DNA target sequences (94 single nucleotide polymorphism targets and two control targets), plasma

CPT Changes: An Insider's View 2019

0058U Oncology (Merkel cell carcinoma), detection of antibodies to the Merkel cell polyoma virus oncoprotein (small T antigen), serum, quantitative

CPT Changes: An Insider's View 2019

0059U Oncology (Merkel cell carcinoma), detection of antibodies to the Merkel cell polyoma virus capsid protein (VP1), serum, reported as positive or negative

CPT Changes: An Insider's View 2019

0060U Twin zygosity, genomic-targeted sequence analysis of chromosome 2, using circulating cell-free fetal DNA in maternal blood

CPT Changes: An Insider's View 2019

0061U Transcutaneous measurement of five biomarkers (tissue oxygenation [StO_2], oxyhemoglobin [$ctHbO_2$], deoxyhemoglobin [ctHbR], papillary and reticular dermal hemoglobin concentrations [ctHb1 and ctHb2]), using spatial frequency domain imaging (SFDI) and multi-spectral analysis

CPT Changes: An Insider's View 2019

0062U Autoimmune (systemic lupus erythematosus), IgG and IgM analysis of 80 biomarkers, utilizing serum, algorithm reported with a risk score

CPT Changes: An Insider's View 2020

0063U Neurology (autism), 32 amines by LC-MS/MS, using plasma, algorithm reported as metabolic signature associated with autism spectrum disorder

CPT Changes: An Insider's View 2020

0064U Antibody, Treponema pallidum, total and rapid plasma reagin (RPR), immunoassay, qualitative

CPT Changes: An Insider's View 2020

0065U Syphilis test, non-treponemal antibody, immunoassay, qualitative (RPR)

CPT Changes: An Insider's View 2020

(0066U has been deleted)

0067U Oncology (breast), immunohistochemistry, protein expression profiling of 4 biomarkers (matrix metalloproteinase-1 [MMP-1], carcinoembryonic antigen-related cell adhesion molecule 6 [CEACAM6], hyaluronoglucosaminidase [HYAL1], highly expressed in cancer protein [HEC1]), formalin-fixed paraffin-embedded precancerous breast tissue, algorithm reported as carcinoma risk score

CPT Changes: An Insider's View 2020

0068U Candida species panel *(C. albicans, C. glabrata, C. parapsilosis, C. kruseii, C. tropicalis*, and *C. auris)*, amplified probe technique with qualitative report of the presence or absence of each species

CPT Changes: An Insider's View 2020

0069U Oncology (colorectal), microRNA, RT-PCR expression profiling of miR-31-3p, formalin-fixed paraffin-embedded tissue, algorithm reported as an expression score

CPT Changes: An Insider's View 2020

0070U *CYP2D6 (cytochrome P450, family 2, subfamily D, polypeptide 6)* (eg, drug metabolism) gene analysis, common and select rare variants (ie, *2, *3, *4, *4N, *5, *6, *7, *8, *9, *10, *11, *12, *13, *14A, *14B, *15, *17, *29, *35, *36, *41, *57, *61, *63, *68, *83, *xN)

CPT Changes: An Insider's View 2020

+ 0071U *CYP2D6 (cytochrome P450, family 2, subfamily D, polypeptide 6)* (eg, drug metabolism) gene analysis, full gene sequence (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

(Use 0071U in conjunction with 0070U)

+ 0072U *CYP2D6 (cytochrome P450, family 2, subfamily D, polypeptide 6)* (eg, drug metabolism) gene analysis, targeted sequence analysis (ie, *CYP2D6-2D7* hybrid gene) (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

(Use 0073U in conjunction with 0070U)

+ 0074U *CYP2D6 (cytochrome P450, family 2, subfamily D, polypeptide 6)* (eg, drug metabolism) gene analysis, targeted sequence analysis (ie, non-duplicated gene when duplication/multiplication is trans) (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

(Use 0074U in conjunction with 0070U)

+ 0075U *CYP2D6 (cytochrome P450, family 2, subfamily D, polypeptide 6)* (eg, drug metabolism) gene analysis, targeted sequence analysis (ie, 5' gene duplication/multiplication) (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

(Use 0075U in conjunction with 0070U)

+ 0076U *CYP2D6 (cytochrome P450, family 2, subfamily D, polypeptide 6)* (eg, drug metabolism) gene analysis, targeted sequence analysis (ie, 3' gene duplication/multiplication) (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

(Use 0076U in conjunction with 0070U)

0077U Immunoglobulin paraprotein (M-protein), qualitative, immunoprecipitation and mass spectrometry, blood or urine, including isotype

CPT Changes: An Insider's View 2020

(0078U has been deleted)

0079U Comparative DNA analysis using multiple selected single-nucleotide polymorphisms (SNPs), urine and buccal DNA, for specimen identity verification

CPT Changes: An Insider's View 2020

0080U Oncology (lung), mass spectrometric analysis of galectin-3-binding protein and scavenger receptor cysteine-rich type 1 protein M130, with five clinical risk factors (age, smoking status, nodule diameter, nodule-spiculation status and nodule location), utilizing plasma, algorithm reported as a categorical probability of malignancy

CPT Changes: An Insider's View 2020

0082U Drug test(s), definitive, 90 or more drugs or substances, definitive chromatography with mass spectrometry, and presumptive, any number of drug classes, by instrument chemistry analyzer (utilizing immunoassay), urine, report of presence or absence of each drug, drug metabolite or substance with description and severity of significant interactions per date of service

CPT Changes: An Insider's View 2020

0083U Oncology, response to chemotherapy drugs using motility contrast tomography, fresh or frozen tissue, reported as likelihood of sensitivity or resistance to drugs or drug combinations

CPT Changes: An Insider's View 2020

0084U Red blood cell antigen typing, DNA, genotyping of 10 blood groups with phenotype prediction of 37 red blood cell antigens

CPT Changes: An Insider's View 2020

0086U Infectious disease (bacterial and fungal), organism identification, blood culture, using rRNA FISH, 6 or more organism targets, reported as positive or negative with phenotypic minimum inhibitory concentration (MIC)-based antimicrobial susceptibility

CPT Changes: An Insider's View 2020

0087U Cardiology (heart transplant), mRNA gene expression profiling by microarray of 1,283 genes, transplant biopsy tissue, allograft rejection and injury algorithm reported as a probability score

CPT Changes: An Insider's View 2020

0088U Transplantation medicine (kidney allograft rejection), microarray gene expression profiling of 1,494 genes, utilizing transplant biopsy tissue, algorithm reported as a probability score for rejection

CPT Changes: An Insider's View 2020

0089U Oncology (melanoma), gene expression profiling by RTqPCR, *PRAME* and *LINC00518*, superficial collection using adhesive patch(es)

CPT Changes: An Insider's View 2020

0090U Oncology (cutaneous melanoma), mRNA gene expression profiling by RT-PCR of 23 genes (14 content and 9 housekeeping), utilizing formalin-fixed paraffin-embedded (FFPE) tissue, algorithm reported as a categorical result (ie, benign, intermediate, malignant)

CPT Changes: An Insider's View 2020, 2023

0091U Oncology (colorectal) screening, cell enumeration of circulating tumor cells, utilizing whole blood, algorithm, for the presence of adenoma or cancer, reported as a positive or negative result

➔ *CPT Changes: An Insider's View* 2020

0092U Oncology (lung), three protein biomarkers, immunoassay using magnetic nanosensor technology, plasma, algorithm reported as risk score for likelihood of malignancy

➔ *CPT Changes: An Insider's View* 2020

0093U Prescription drug monitoring, evaluation of 65 common drugs by LC-MS/MS, urine, each drug reported detected or not detected

➔ *CPT Changes: An Insider's View* 2020

0094U Genome (eg, unexplained constitutional or heritable disorder or syndrome), rapid sequence analysis

➔ *CPT Changes: An Insider's View* 2020

▲ **0095U** Eosinophilic esophagitis, 2 protein biomarkers (Eotaxin-3 *[CCL26 {C-C motif chemokine ligand 26}]* and Major Basic Protein *[PRG2 {proteoglycan 2, pro eosinophil major basic protein}]*), enzyme-linked immunosorbent assays (ELISA), specimen obtained by esophageal string test device, algorithm reported as probability of active or inactive eosinophilic esophagitis

➔ *CPT Changes: An Insider's View* 2020, 2024, 2026

0096U Human papillomavirus (HPV), high-risk types (ie, 16, 18, 31, 33, 35, 39, 45, 51, 52, 56, 58, 59, 66, 68), male urine

➔ *CPT Changes: An Insider's View* 2020

0101U Hereditary colon cancer disorders (eg, Lynch syndrome, *PTEN* hamartoma syndrome, Cowden syndrome, familial adenomatosis polyposis), genomic sequence analysis panel utilizing a combination of NGS, Sanger, MLPA, and array CGH, with mRNA analytics to resolve variants of unknown significance when indicated (15 genes [sequencing and deletion/duplication], *EPCAM* and *GREM1* [deletion/duplication only])

➔ *CPT Changes: An Insider's View* 2020

0102U Hereditary breast cancer-related disorders (eg, hereditary breast cancer, hereditary ovarian cancer, hereditary endometrial cancer), genomic sequence analysis panel utilizing a combination of NGS, Sanger, MLPA, and array CGH, with mRNA analytics to resolve variants of unknown significance when indicated (17 genes [sequencing and deletion/duplication])

➔ *CPT Changes: An Insider's View* 2020

0103U Hereditary ovarian cancer (eg, hereditary ovarian cancer, hereditary endometrial cancer), genomic sequence analysis panel utilizing a combination of NGS, Sanger, MLPA, and array CGH, with mRNA analytics to resolve variants of unknown significance when indicated (24 genes [sequencing and deletion/duplication], *EPCAM* [deletion/duplication only])

➔ *CPT Changes: An Insider's View* 2020

0105U Nephrology (chronic kidney disease), multiplex electrochemiluminescent immunoassay (ECLIA) of tumor necrosis factor receptor 1A, receptor superfamily 2 *(TNFR1, TNFR2)*, and kidney injury molecule-1 (KIM-1) combined with longitudinal clinical data, including *APOL1* genotype if available, and plasma (isolated fresh or frozen), algorithm reported as probability score for rapid kidney function decline (RKFD)

➔ *CPT Changes: An Insider's View* 2020

0106U Gastric emptying, serial collection of 7 timed breath specimens, non-radioisotope carbon-13 (^{13}C) spirulina substrate, analysis of each specimen by gas isotope ratio mass spectrometry, reported as rate of $^{13}CO_2$ excretion

➔ *CPT Changes: An Insider's View* 2020

0107U Clostridium difficile toxin(s) antigen detection by immunoassay technique, stool, qualitative, multiple-step method

➔ *CPT Changes: An Insider's View* 2020

0108U Gastroenterology (Barrett's esophagus), whole slide–digital imaging, including morphometric analysis, computer-assisted quantitative immunolabeling of 9 protein biomarkers (p16, AMACR, p53, CD68, COX-2, CD45RO, HIF1a, HER-2, K20) and morphology, formalin-fixed paraffin-embedded tissue, algorithm reported as risk of progression to high-grade dysplasia or cancer

➔ *CPT Changes: An Insider's View* 2020

0109U Infectious disease (Aspergillus species), real-time PCR for detection of DNA from 4 species *(A. fumigatus, A. terreus, A. niger*, and *A. flavus)*, blood, lavage fluid, or tissue, qualitative reporting of presence or absence of each species

➔ *CPT Changes: An Insider's View* 2020

0110U Prescription drug monitoring, one or more oral oncology drug(s) and substances, definitive tandem mass spectrometry with chromatography, serum or plasma from capillary blood or venous blood, quantitative report with steady-state range for the prescribed drug(s) when detected

➔ *CPT Changes: An Insider's View* 2020

0111U Oncology (colon cancer), targeted *KRAS* (codons 12, 13, and 61) and *NRAS* (codons 12, 13, and 61) gene analysis, utilizing formalin-fixed paraffin-embedded tissue

➔ *CPT Changes: An Insider's View* 2020

0112U Infectious agent detection and identification, targeted sequence analysis (16S and 18S rRNA genes) with drug-resistance gene

CPT Changes: An Insider's View 2020

0113U Oncology (prostate), measurement of *PCA3* and *TMPRSS2-ERG* in urine and PSA in serum following prostatic massage, by RNA amplification and fluorescence-based detection, algorithm reported as risk score

CPT Changes: An Insider's View 2020

0114U Gastroenterology (Barrett's esophagus), *VIM* and *CCNA1* methylation analysis, esophageal cells, algorithm reported as likelihood for Barrett's esophagus

CPT Changes: An Insider's View 2020

0115U Respiratory infectious agent detection by nucleic acid (DNA and RNA), 18 viral types and subtypes and 2 bacterial targets, amplified probe technique, including multiplex reverse transcription for RNA targets, each analyte reported as detected or not detected

CPT Changes: An Insider's View 2020

0116U Prescription drug monitoring, enzyme immunoassay of 35 or more drugs confirmed with LC-MS/MS, oral fluid, algorithm results reported as a patient-compliance measurement with risk of drug to drug interactions for prescribed medications

CPT Changes: An Insider's View 2020

0117U Pain management, analysis of 11 endogenous analytes (methylmalonic acid, xanthurenic acid, homocysteine, pyroglutamic acid, vanilmandelate, 5-hydroxyindoleacetic acid, hydroxymethylglutarate, ethylmalonate, 3-hydroxypropyl mercapturic acid (3-HPMA), quinolinic acid, kynurenic acid), LC-MS/MS, urine, algorithm reported as a pain-index score with likelihood of atypical biochemical function associated with pain

CPT Changes: An Insider's View 2020

0118U Transplantation medicine, quantification of donor-derived cell-free DNA using whole genome next-generation sequencing, plasma, reported as percentage of donor-derived cell-free DNA in the total cell-free DNA

CPT Changes: An Insider's View 2020

0119U Cardiology, ceramides by liquid chromatography–tandem mass spectrometry, plasma, quantitative report with risk score for major cardiovascular events

CPT Changes: An Insider's View 2020

0120U Oncology (B-cell lymphoma classification), mRNA, gene expression profiling by fluorescent probe hybridization of 58 genes (45 content and 13 housekeeping genes), formalin-fixed paraffin-embedded tissue, algorithm reported as likelihood for primary mediastinal B-cell lymphoma (PMBCL) and diffuse large B-cell lymphoma (DLBCL) with cell of origin subtyping in the latter

CPT Changes: An Insider's View 2020

(Do not report 0120U in conjunction with 0017M)

0121U Sickle cell disease, microfluidic flow adhesion (VCAM-1), whole blood

CPT Changes: An Insider's View 2020

0122U Sickle cell disease, microfluidic flow adhesion (P-Selectin), whole blood

CPT Changes: An Insider's View 2020

0123U Mechanical fragility, RBC, shear stress and spectral analysis profiling

CPT Changes: An Insider's View 2020

0129U Hereditary breast cancer–related disorders (eg, hereditary breast cancer, hereditary ovarian cancer, hereditary endometrial cancer), genomic sequence analysis and deletion/duplication analysis panel *(ATM, BRCA1, BRCA2, CDH1, CHEK2, PALB2, PTEN*, and *TP53)*

CPT Changes: An Insider's View 2020

+ 0130U Hereditary colon cancer disorders (eg, Lynch syndrome, PTEN hamartoma syndrome, Cowden syndrome, familial adenomatosis polyposis), targeted mRNA sequence analysis panel *(APC, CDH1, CHEK2, MLH1, MSH2, MSH6, MUTYH, PMS2, PTEN*, and *TP53)* (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

(Use 0130U in conjunction with 81435, 0101U)

+ 0131U Hereditary breast cancer–related disorders (eg, hereditary breast cancer, hereditary ovarian cancer, hereditary endometrial cancer), targeted mRNA sequence analysis panel (13 genes) (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

(Use 0131U in conjunction with 81162, 81432, 0102U)

+ 0132U Hereditary ovarian cancer–related disorders (eg, hereditary breast cancer, hereditary ovarian cancer, hereditary endometrial cancer), targeted mRNA sequence analysis panel (17 genes) (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

(Use 0132U in conjunction with 81162, 81432, 0103U)

+ 0133U Hereditary prostate cancer–related disorders, targeted mRNA sequence analysis panel (11 genes) (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

(Use 0133U in conjunction with 81162)

+ 0134U Hereditary pan cancer (eg, hereditary breast and ovarian cancer, hereditary endometrial cancer, hereditary colorectal cancer), targeted mRNA sequence analysis panel (18 genes) (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

(Use 0134U in conjunction with 81162, 81432, 81435)

+ 0135U Hereditary gynecological cancer (eg, hereditary breast and ovarian cancer, hereditary endometrial cancer, hereditary colorectal cancer), targeted mRNA sequence analysis panel (12 genes) (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

(Use 0135U in conjunction with 81162)

+ 0136U *ATM (ataxia telangiectasia mutated)* (eg, ataxia telangiectasia) mRNA sequence analysis (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

(Use 0136U in conjunction with 81408)

+ 0137U *PALB2 (partner and localizer of BRCA2)* (eg, breast and pancreatic cancer) mRNA sequence analysis (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

(Use 0137U in conjunction with 81307)

+ 0138U *BRCA1 (BRCA1, DNA repair associated), BRCA2 (BRCA2, DNA repair associated)* (eg, hereditary breast and ovarian cancer) mRNA sequence analysis (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

(Use 0138U in conjunction with 81162)

0140U Infectious disease (fungi), fungal pathogen identification, DNA (15 fungal targets), blood culture, amplified probe technique, each target reported as detected or not detected

CPT Changes: An Insider's View 2021

0141U Infectious disease (bacteria and fungi), gram-positive organism identification and drug resistance element detection, DNA (20 gram-positive bacterial targets, 4 resistance genes, 1 pan gram-negative bacterial target, 1 pan Candida target), blood culture, amplified probe technique, each target reported as detected or not detected

CPT Changes: An Insider's View 2021

0142U Infectious disease (bacteria and fungi), gram-negative bacterial identification and drug resistance element detection, DNA (21 gram-negative bacterial targets, 6 resistance genes, 1 pan gram-positive bacterial target, 1 pan Candida target), amplified probe technique, each target reported as detected or not detected

- *CPT Assistant* Jun 20:12

0170U Neurology (autism spectrum disorder [ASD]), RNA, next-generation sequencing, saliva, algorithmic analysis, and results reported as predictive probability of ASD diagnosis

- *CPT Changes: An Insider's View* 2021
- *CPT Assistant* Jun 20:12

0171U Targeted genomic sequence analysis panel, acute myeloid leukemia, myelodysplastic syndrome, and myeloproliferative neoplasms, DNA analysis, 23 genes, interrogation for sequence variants, rearrangements and minimal residual disease, reported as presence/absence

- *CPT Changes: An Insider's View* 2021
- *CPT Assistant* Jun 20:12

0172U Oncology (solid tumor as indicated by the label), somatic mutation analysis of *BRCA1 (BRCA1, DNA repair associated), BRCA2 (BRCA2, DNA repair associated)* and analysis of homologous recombination deficiency pathways, DNA, formalin-fixed paraffin-embedded tissue, algorithm quantifying tumor genomic instability score

- *CPT Changes: An Insider's View* 2021

0173U Psychiatry (ie, depression, anxiety), genomic analysis panel, includes variant analysis of 14 genes

- *CPT Changes: An Insider's View* 2021

0174U Oncology (solid tumor), mass spectrometric 30 protein targets, formalin-fixed paraffin-embedded tissue, prognostic and predictive algorithm reported as likely, unlikely, or uncertain benefit of 39 chemotherapy and targeted therapeutic oncology agents

- *CPT Changes: An Insider's View* 2021

0175U Psychiatry (eg, depression, anxiety), genomic analysis panel, variant analysis of 15 genes

- *CPT Changes: An Insider's View* 2021

0176U Cytolethal distending toxin B (CdtB) and vinculin IgG antibodies by immunoassay (ie, ELISA)

- *CPT Changes: An Insider's View* 2021

0177U Oncology (breast cancer), DNA, *PIK3CA (phosphatidylinositol-4,5-bisphosphate 3-kinase catalytic subunit alpha)* gene analysis of 11 gene variants utilizing plasma, reported as *PIK3CA* gene mutation status

- *CPT Changes: An Insider's View* 2021

0178U Peanut allergen-specific quantitative assessment of multiple epitopes using enzyme-linked immunosorbent assay (ELISA), blood, report of minimum eliciting exposure for a clinical reaction

- *CPT Changes: An Insider's View* 2021

0179U Oncology (non-small cell lung cancer), cell-free DNA, targeted sequence analysis of 23 genes (single nucleotide variations, insertions and deletions, fusions without prior knowledge of partner/breakpoint, copy number variations), with report of significant mutation(s)

- *CPT Changes: An Insider's View* 2021

0180U Red cell antigen (ABO blood group) genotyping (ABO), gene analysis Sanger/chain termination/conventional sequencing, *ABO (ABO, alpha 1-3-N-acetylgalactosaminyltransferase and alpha 1-3-galactosyltransferase)* gene, including subtyping, 7 exons

➔ *CPT Changes: An Insider's View* 2021

0181U Red cell antigen (Colton blood group) genotyping (CO), gene analysis, *AQP1 (aquaporin 1 [Colton blood group])* exon 1

➔ *CPT Changes: An Insider's View* 2021

0182U Red cell antigen (Cromer blood group) genotyping (CROM), gene analysis, *CD55 (CD55 molecule [Cromer blood group])* exons 1-10

➔ *CPT Changes: An Insider's View* 2021

0183U Red cell antigen (Diego blood group) genotyping (DI), gene analysis, *SLC4A1 (solute carrier family 4 member 1 [Diego blood group])* exon 19

➔ *CPT Changes: An Insider's View* 2021

0184U Red cell antigen (Dombrock blood group) genotyping (DO), gene analysis, *ART4 (ADP-ribosyltransferase 4 [Dombrock blood group])* exon 2

➔ *CPT Changes: An Insider's View* 2021

0185U Red cell antigen (H blood group) genotyping (FUT1), gene analysis, *FUT1 (fucosyltransferase 1 [H blood group])* exon 4

➔ *CPT Changes: An Insider's View* 2021

0186U Red cell antigen (H blood group) genotyping (FUT2), gene analysis, *FUT2 (fucosyltransferase 2)* exon 2

➔ *CPT Changes: An Insider's View* 2021

0187U Red cell antigen (Duffy blood group) genotyping (FY), gene analysis, *ACKR1 (atypical chemokine receptor 1 [Duffy blood group])* exons 1-2

➔ *CPT Changes: An Insider's View* 2021

0188U Red cell antigen (Gerbich blood group) genotyping (GE), gene analysis, *GYPC (glycophorin C [Gerbich blood group])* exons 1-4

➔ *CPT Changes: An Insider's View* 2021

0189U Red cell antigen (MNS blood group) genotyping (GYPA), gene analysis, *GYPA (glycophorin A [MNS blood group])* introns 1, 5, exon 2

➔ *CPT Changes: An Insider's View* 2021

0190U Red cell antigen (MNS blood group) genotyping (GYPB), gene analysis, *GYPB (glycophorin B [MNS blood group])* introns 1, 5, pseudoexon 3

➔ *CPT Changes: An Insider's View* 2021

0191U Red cell antigen (Indian blood group) genotyping (IN), gene analysis, *CD44 (CD44 molecule [Indian blood group])* exons 2, 3, 6

➔ *CPT Changes: An Insider's View* 2021

0192U Red cell antigen (Kidd blood group) genotyping (JK), gene analysis, *SLC14A1 (solute carrier family 14 member 1 [Kidd blood group])* gene promoter, exon 9

➔ *CPT Changes: An Insider's View* 2021

0193U Red cell antigen (JR blood group) genotyping (JR), gene analysis, *ABCG2 (ATP binding cassette subfamily G member 2 [Junior blood group])* exons 2-26

➔ *CPT Changes: An Insider's View* 2021

0194U Red cell antigen (Kell blood group) genotyping (KEL), gene analysis, *KEL (Kell metallo-endopeptidase [Kell blood group])* exon 8

➔ *CPT Changes: An Insider's View* 2021

0195U *KLF1 (Kruppel-like factor 1)*, targeted sequencing (ie, exon 13)

➔ *CPT Changes: An Insider's View* 2021

0196U Red cell antigen (Lutheran blood group) genotyping (LU), gene analysis, *BCAM (basal cell adhesion molecule [Lutheran blood group])* exon 3

➔ *CPT Changes: An Insider's View* 2021

0197U Red cell antigen (Landsteiner-Wiener blood group) genotyping (LW), gene analysis, *ICAM4 (intercellular adhesion molecule 4 [Landsteiner-Wiener blood group])* exon 1

➔ *CPT Changes: An Insider's View* 2021

0198U Red cell antigen (RH blood group) genotyping (RHD and RHCE), gene analysis Sanger/chain termination/conventional sequencing, *RHD (Rh blood group D antigen) exons 1-10 and RHCE (Rh blood group CcEe antigens)* exon 5

➔ *CPT Changes: An Insider's View* 2021

0199U Red cell antigen (Scianna blood group) genotyping (SC), gene analysis, *ERMAP (erythroblast membrane associated protein [Scianna blood group])* exons 4, 12

➔ *CPT Changes: An Insider's View* 2021

0200U Red cell antigen (Kx blood group) genotyping (XK), gene analysis, *XK (X-linked Kx blood group)* exons 1-3

CPT Changes: An Insider's View 2021

0201U Red cell antigen (Yt blood group) genotyping (YT), gene analysis, *ACHE (acetylcholinesterase [Cartwright blood group])* exon 2

CPT Changes: An Insider's View 2021

⌘ **0202U** Infectious disease (bacterial or viral respiratory tract infection), pathogen-specific nucleic acid (DNA or RNA), 22 targets including severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), qualitative RT-PCR, nasopharyngeal swab, each pathogen reported as detected or not detected

CPT Changes: An Insider's View 2021

(For additional PLA code with identical clinical descriptor, see 0223U. See Appendix O or the most current listing on the AMA CPT website to determine appropriate code assignment)

0203U Autoimmune (inflammatory bowel disease), mRNA, gene expression profiling by quantitative RT-PCR, 17 genes (15 target and 2 reference genes), whole blood, reported as a continuous risk score and classification of inflammatory bowel disease aggressiveness

CPT Changes: An Insider's View 2021

(0204U has been deleted)

0205U Ophthalmology (age-related macular degeneration), analysis of 3 gene variants (2 *CFH* gene, 1 *ARMS2* gene), using PCR and MALDI-TOF, buccal swab, reported as positive or negative for neovascular age-related macular-degeneration risk associated with zinc supplements

CPT Changes: An Insider's View 2021

0206U Neurology (Alzheimer disease); cell aggregation using morphometric imaging and protein kinase C-epsilon (PKCe) concentration in response to amylospheroid treatment by ELISA, cultured skin fibroblasts, each reported as positive or negative for Alzheimer disease

CPT Changes: An Insider's View 2021

+ **0207U** quantitative imaging of phosphorylated *ERK1* and *ERK2* in response to bradykinin treatment by in situ immunofluorescence, using cultured skin fibroblasts, reported as a probability index for Alzheimer disease (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2021

(Use 0207U in conjunction with 0206U)

0209U Cytogenomic constitutional (genome-wide) analysis, interrogation of genomic regions for copy number, structural changes and areas of homozygosity for chromosomal abnormalities

CPT Changes: An Insider's View 2021

0210U Syphilis test, non-treponemal antibody, immunoassay, quantitative (RPR)

CPT Changes: An Insider's View 2021

0211U Oncology (pan-tumor), DNA and RNA by next-generation sequencing, utilizing formalin-fixed paraffin-embedded tissue, interpretative report for single nucleotide variants, copy number alterations, tumor mutational burden, and microsatellite instability, with therapy association

CPT Changes: An Insider's View 2021

0212U Rare diseases (constitutional/heritable disorders), whole genome and mitochondrial DNA sequence analysis, including small sequence changes, deletions, duplications, short tandem repeat gene expansions, and variants in non-uniquely mappable regions, blood or saliva, identification and categorization of genetic variants, proband

CPT Changes: An Insider's View 2021

(Do not report 0213U in conjunction with 81426)

0214U Rare diseases (constitutional/heritable disorders), whole exome and mitochondrial DNA sequence analysis, including small sequence changes, deletions, duplications, short tandem repeat gene expansions, and variants in non-uniquely mappable regions, blood or saliva, identification and categorization of genetic variants, proband

CPT Changes: An Insider's View 2021

(Do not report 0214U in conjunction with 81415)

0215U Rare diseases (constitutional/heritable disorders), whole exome and mitochondrial DNA sequence analysis, including small sequence changes, deletions, duplications, short tandem repeat gene expansions, and variants in non-uniquely mappable regions, blood or saliva, identification and categorization of genetic variants, each comparator exome (eg, parent, sibling)

CPT Changes: An Insider's View 2021

(Do not report 0215U in conjunction with 81416)

0216U Neurology (inherited ataxias), genomic DNA sequence analysis of 12 common genes including small sequence changes, deletions, duplications, short tandem repeat gene expansions, and variants in non-uniquely mappable regions, blood or saliva, identification and categorization of genetic variants

CPT Changes: An Insider's View 2021

0217U Neurology (inherited ataxias), genomic DNA sequence analysis of 51 genes including small sequence changes, deletions, duplications, short tandem repeat gene expansions, and variants in non-uniquely mappable regions, blood or saliva, identification and categorization of genetic variants

CPT Changes: An Insider's View 2021

0218U Neurology (muscular dystrophy), *DMD* gene sequence analysis, including small sequence changes, deletions, duplications, and variants in non-uniquely mappable regions, blood or saliva, identification and characterization of genetic variants

CPT Changes: An Insider's View 2021

0219U Infectious agent (human immunodeficiency virus), targeted viral next-generation sequence analysis (ie, protease [PR], reverse transcriptase [RT], integrase [INT]), algorithm reported as prediction of antiviral drug susceptibility

CPT Changes: An Insider's View 2021

0220U Oncology (breast cancer), image analysis with artificial intelligence assessment of 12 histologic and immunohistochemical features, reported as a recurrence score

CPT Changes: An Insider's View 2021

0221U Red cell antigen (ABO blood group) genotyping (ABO), gene analysis, next-generation sequencing, *ABO (ABO, alpha 1-3-N-acetylgalactosaminyltransferase and alpha 1-3-galactosyltransferase)* gene

CPT Changes: An Insider's View 2021

0222U Red cell antigen (RH blood group) genotyping (RHD and RHCE), gene analysis, next-generation sequencing, RH proximal promoter, exons 1-10, portions of introns 2-3

CPT Changes: An Insider's View 2021

⋓ **0223U** Infectious disease (bacterial or viral respiratory tract infection), pathogen-specific nucleic acid (DNA or RNA), 22 targets including severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), qualitative RT-PCR, nasopharyngeal swab, each pathogen reported as detected or not detected

CPT Changes: An Insider's View 2022

(For additional PLA code with identical clinical descriptor, see 0202U. See Appendix O or the most current listing on the AMA CPT website to determine appropriate code assignment)

0224U Antibody, severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]), includes titer(s), when performed

CPT Changes: An Insider's View 2022

(Do not report 0224U in conjunction with 86769)

0225U Infectious disease (bacterial or viral respiratory tract infection) pathogen-specific DNA and RNA, 21 targets, including severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), amplified probe technique, including multiplex reverse transcription for RNA targets, each analyte reported as detected or not detected

CPT Changes: An Insider's View 2022

0226U Surrogate viral neutralization test (sVNT), severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]), ELISA, plasma, serum

CPT Changes: An Insider's View 2022

0227U Drug assay, presumptive, 30 or more drugs or metabolites, urine, liquid chromatography with tandem mass spectrometry (LC-MS/MS) using multiple reaction monitoring (MRM), with drug or metabolite description, includes sample validation

CPT Changes: An Insider's View 2022

0228U Oncology (prostate), multianalyte molecular profile by photometric detection of macromolecules adsorbed on nanosponge array slides with machine learning, utilizing first morning voided urine, algorithm reported as likelihood of prostate cancer

CPT Changes: An Insider's View 2022

0229U *BCAT1 (Branched chain amino acid transaminase 1)* and *IKZF1 (IKAROS family zinc finger 1)* (eg, colorectal cancer) promoter methylation analysis

CPT Changes: An Insider's View 2022, 2023

CPT Assistant Aug 22:8

0230U *AR (androgen receptor)* (eg, spinal and bulbar muscular atrophy, Kennedy disease, X chromosome inactivation), full sequence analysis, including small sequence changes in exonic and intronic regions, deletions, duplications, short tandem repeat (STR) expansions, mobile element insertions, and variants in non-uniquely mappable regions

CPT Changes: An Insider's View 2022

0231U *CACNA1A (calcium voltage-gated channel subunit alpha 1A)* (eg, spinocerebellar ataxia), full gene analysis, including small sequence changes in exonic and intronic regions, deletions, duplications, short tandem repeat (STR) gene expansions, mobile element insertions, and variants in non-uniquely mappable regions

CPT Changes: An Insider's View 2022

0232U *CSTB (cystatin B)* (eg, progressive myoclonic epilepsy type 1A, Unverricht-Lundborg disease), full gene analysis, including small sequence changes in exonic and intronic regions, deletions, duplications, short tandem repeat (STR) expansions, mobile element insertions, and variants in non-uniquely mappable regions

CPT Changes: An Insider's View 2022

0233U *FXN (frataxin)* (eg, Friedreich ataxia), gene analysis, including small sequence changes in exonic and intronic regions, deletions, duplications, short tandem repeat (STR) expansions, mobile element insertions, and variants in non-uniquely mappable regions

➔ *CPT Changes: An Insider's View* 2022

0234U *MECP2 (methyl CpG binding protein 2)* (eg, Rett syndrome), full gene analysis, including small sequence changes in exonic and intronic regions, deletions, duplications, mobile element insertions, and variants in non-uniquely mappable regions

➔ *CPT Changes: An Insider's View* 2022

0235U *PTEN (phosphatase and tensin homolog)* (eg, Cowden syndrome, PTEN hamartoma tumor syndrome), full gene analysis, including small sequence changes in exonic and intronic regions, deletions, duplications, mobile element insertions, and variants in non-uniquely mappable regions

➔ *CPT Changes: An Insider's View* 2022

0236U *SMN1 (survival of motor neuron 1, telomeric)* and *SMN2 (survival of motor neuron 2, centromeric)* (eg, spinal muscular atrophy) full gene analysis, including small sequence changes in exonic and intronic regions, duplications, deletions, and mobile element insertions

➔ *CPT Changes: An Insider's View* 2022

0237U Cardiac ion channelopathies (eg, Brugada syndrome, long QT syndrome, short QT syndrome, catecholaminergic polymorphic ventricular tachycardia), genomic sequence analysis panel including *ANK2, CASQ2, CAV3, KCNE1, KCNE2, KCNH2, KCNJ2, KCNQ1, RYR2*, and *SCN5A*, including small sequence changes in exonic and intronic regions, deletions, duplications, mobile element insertions, and variants in non-uniquely mappable regions

➔ *CPT Changes: An Insider's View* 2022

0238U Oncology (Lynch syndrome), genomic DNA sequence analysis of *MLH1, MSH2, MSH6, PMS2*, and *EPCAM*, including small sequence changes in exonic and intronic regions, deletions, duplications, mobile element insertions, and variants in non-uniquely mappable regions

➔ *CPT Changes: An Insider's View* 2022

0239U Targeted genomic sequence analysis panel, solid organ neoplasm, cell-free DNA, analysis of 311 or more genes, interrogation for sequence variants, including substitutions, insertions, deletions, select rearrangements, and copy number variations

➔ *CPT Changes: An Insider's View* 2022

►(0240U has been deleted)◄

►(0241U has been deleted)◄

0242U Targeted genomic sequence analysis panel, solid organ neoplasm, cell-free circulating DNA analysis of 55-74 genes, interrogation for sequence variants, gene copy number amplifications, and gene rearrangements

➔ *CPT Changes: An Insider's View* 2022

0243U Obstetrics (preeclampsia), biochemical assay of placental-growth factor, time-resolved fluorescence immunoassay, maternal serum, predictive algorithm reported as a risk score for preeclampsia

➔ *CPT Changes: An Insider's View* 2022

0244U Oncology (solid organ), DNA, comprehensive genomic profiling, 257 genes, interrogation for single-nucleotide variants, insertions/deletions, copy number alterations, gene rearrangements, tumor-

➔ *CPT Changes: An Insider's View* 2022

0245U Oncology (thyroid), mutation analysis of 10 genes and 37 RNA fusions and expression of 4 mRNA markers using next-generation sequencing, fine needle aspirate, report includes associated risk of malignancy expressed as a percentage

➔ *CPT Changes: An Insider's View* 2022

0246U Red blood cell antigen typing, DNA, genotyping of at least 16 blood groups with phenotype prediction of at least 51 red blood cell antigens

➔ *CPT Changes: An Insider's View* 2022

0247U Obstetrics (preterm birth), insulin-like growth factor–binding protein 4 (IBP4), sex hormone–binding globulin (SHBG), quantitative measurement by LC-MS/MS, utilizing maternal serum, combined with clinical data, reported as predictive-risk stratification for spontaneous preterm birth

➔ *CPT Changes: An Insider's View* 2022

0248U Oncology, spheroid cell culture in 3D microenvironment, 12-drug panel, brain- or brain metastasis–response prediction for each drug

➔ *CPT Changes: An Insider's View* 2022, 2025

0249U Oncology (breast), semiquantitative analysis of 32 phosphoproteins and protein analytes, includes laser capture microdissection, with algorithmic analysis and interpretative report

➔ *CPT Changes: An Insider's View* 2022

0250U Oncology (solid organ neoplasm), targeted genomic sequence DNA analysis of 505 genes, interrogation for somatic alterations (SNVs [single nucleotide variant], small insertions and deletions, one amplification, and four translocations), microsatellite instability and tumor-mutation burden

CPT Changes: An Insider's View 2022

0251U Hepcidin-25, enzyme-linked immunosorbent assay (ELISA), serum or plasma

CPT Changes: An Insider's View 2022

0252U Fetal aneuploidy short tandem–repeat comparative analysis, fetal DNA from products of conception, reported as normal (euploidy), monosomy, trisomy, or partial deletion/duplication, mosaicism, and segmental aneuploidy

CPT Changes: An Insider's View 2022

0253U Reproductive medicine (endometrial receptivity analysis), RNA gene expression profile, 238 genes by next-generation sequencing, endometrial tissue, predictive algorithm reported as endometrial window of implantation (eg, pre-receptive, receptive, post-receptive)

CPT Changes: An Insider's View 2022

0254U Reproductive medicine (preimplantation genetic assessment), analysis of 24 chromosomes using embryonic DNA genomic sequence analysis for aneuploidy, and a mitochondrial DNA score in euploid embryos, results reported as normal (euploidy), monosomy, trisomy, or partial deletion/duplication, mosaicism, and segmental aneuploidy, per embryo tested

CPT Changes: An Insider's View 2022

0255U Andrology (infertility), sperm-capacitation assessment of ganglioside GM1 distribution patterns, fluorescence microscopy, fresh or frozen specimen, reported as percentage of capacitated sperm and probability of generating a pregnancy score

CPT Changes: An Insider's View 2022

0256U Trimethylamine/trimethylamine N-oxide (TMA/TMAO) profile, tandem mass spectrometry (MS/MS), urine, with algorithmic analysis and interpretive report

CPT Changes: An Insider's View 2022

0257U Very long chain acyl-coenzyme A (CoA) dehydrogenase (VLCAD), leukocyte enzyme activity, whole blood

CPT Changes: An Insider's View 2022

0258U Autoimmune (psoriasis), mRNA, next-generation sequencing, gene expression profiling of 50-100 genes, skin-surface collection using adhesive patch, algorithm reported as likelihood of response to psoriasis biologics

CPT Changes: An Insider's View 2022

0259U Nephrology (chronic kidney disease), nuclear magnetic resonance spectroscopy measurement of myo-inositol, valine, and creatinine, algorithmically combined with cystatin C (by immunoassay) and demographic data to determine estimated glomerular filtration rate (GFR), serum, quantitative

CPT Changes: An Insider's View 2022

⌘ **0260U** Rare diseases (constitutional/heritable disorders), identification of copy number variations, inversions, insertions, translocations, and other structural variants by optical genome mapping

CPT Changes: An Insider's View 2022

(For additional PLA codes with identical clinical descriptor, see 0264U, 0454U. See Appendix O or the most current listing on the AMA CPT website to determine appropriate code assignment)

0261U Oncology (colorectal cancer), image analysis with artificial intelligence assessment of 4 histologic and immunohistochemical features (CD3 and CD8 within tumor-stroma border and tumor core), tissue, reported as immune response and recurrence-risk score

CPT Changes: An Insider's View 2022

0262U Oncology (solid tumor), gene expression profiling by real-time RT-PCR of 7 gene pathways *(ER, AR, PI3K, MAPK, HH, TGFB*, Notch), formalin-fixed paraffin-embedded (FFPE), algorithm reported as gene pathway activity score

CPT Changes: An Insider's View 2022

0263U Neurology (autism spectrum disorder [ASD]), quantitative measurements of 16 central carbon metabolites (ie, α-ketoglutarate, alanine, lactate, phenylalanine, pyruvate, succinate, carnitine, citrate, fumarate, hypoxanthine, inosine, malate, S-sulfocysteine, taurine, urate, and xanthine), liquid chromatography tandem mass spectrometry (LC-MS/MS), plasma, algorithmic analysis with result reported as negative or positive (with metabolic subtypes of ASD)

CPT Changes: An Insider's View 2022

⌘ **0264U** Rare diseases (constitutional/heritable disorders), identification of copy number variations, inversions, insertions, translocations, and other structural variants by optical genome mapping

CPT Changes: An Insider's View 2022

(For additional PLA codes with identical clinical descriptor, see 0260U, 0454U. See Appendix O or the most current listing on the AMA CPT website to determine appropriate code assignment)

0265U Rare constitutional and other heritable disorders, whole genome and mitochondrial DNA sequence analysis, blood, frozen and formalin-fixed paraffin-embedded (FFPE) tissue, saliva, buccal swabs or cell lines, identification of single nucleotide and copy number variants

➔ *CPT Changes: An Insider's View* 2022

0266U Unexplained constitutional or other heritable disorders or syndromes, tissue-specific gene expression by whole-transcriptome and next-generation sequencing, blood, formalin-fixed paraffin-embedded (FFPE) tissue or fresh frozen tissue, reported as presence or absence of splicing or expression changes

➔ *CPT Changes: An Insider's View* 2022

0267U Rare constitutional and other heritable disorders, identification of copy number variations, inversions, insertions, translocations, and other structural variants by optical genome mapping and whole genome sequencing

➔ *CPT Changes: An Insider's View* 2022

0268U Hematology (atypical hemolytic uremic syndrome [aHUS]), genomic sequence analysis of 15 genes, blood, buccal swab, or amniotic fluid

➔ *CPT Changes: An Insider's View* 2022

0269U Hematology (autosomal dominant congenital thrombocytopenia), genomic sequence analysis of 22 genes, blood, buccal swab, or amniotic fluid

➔ *CPT Changes: An Insider's View* 2022, 2024

0270U Hematology (congenital coagulation disorders), genomic sequence analysis of 20 genes, blood, buccal swab, or amniotic fluid

➔ *CPT Changes: An Insider's View* 2022

0271U Hematology (congenital neutropenia), genomic sequence analysis of 24 genes, blood, buccal swab, or amniotic fluid

➔ *CPT Changes: An Insider's View* 2022, 2024

0272U Hematology (genetic bleeding disorders), genomic sequence analysis of 60 genes and duplication/deletion of *PLAU*, blood, buccal swab, or amniotic fluid, comprehensive

➔ *CPT Changes: An Insider's View* 2022, 2024

0273U Hematology (genetic hyperfibrinolysis, delayed bleeding), analysis of 9 genes *(F13A1, F13B, FGA, FGB, FGG, SERPINA1, SERPINE1, SERPINF2* by next-generation sequencing, and *PLAU* by array comparative genomic hybridization), blood, buccal swab, or amniotic fluid

➔ *CPT Changes: An Insider's View* 2022

0274U Hematology (genetic platelet disorders), genomic sequence analysis of 62 genes and duplication/deletion of *PLAU*, blood, buccal swab, or amniotic fluid

➔ *CPT Changes: An Insider's View* 2022, 2024

0275U Hematology (heparin-induced thrombocytopenia), platelet antibody reactivity by flow cytometry, serum

➔ *CPT Changes: An Insider's View* 2022

0276U Hematology (inherited thrombocytopenia), genomic sequence analysis of 42 genes, blood, buccal swab, or amniotic fluid

➔ *CPT Changes: An Insider's View* 2022, 2023

0277U Hematology (genetic platelet function disorder), genomic sequence analysis of 40 genes and duplication/deletion of *PLAU*, blood, buccal swab, or amniotic fluid

➔ *CPT Changes: An Insider's View* 2022, 2024

0278U Hematology (genetic thrombosis), genomic sequence analysis of 14 genes, blood, buccal swab, or amniotic fluid

➔ *CPT Changes: An Insider's View* 2022, 2024

0279U Hematology (von Willebrand disease [VWD]), von Willebrand factor (VWF) and collagen III binding by enzyme-linked immunosorbent assays (ELISA), plasma, report of collagen III binding

➔ *CPT Changes: An Insider's View* 2022

0280U Hematology (von Willebrand disease [VWD]), von Willebrand factor (VWF) and collagen IV binding by enzyme-linked immunosorbent assays (ELISA), plasma, report of collagen IV binding

➔ *CPT Changes: An Insider's View* 2022

0281U Hematology (von Willebrand disease [VWD]), von Willebrand propeptide, enzyme-linked immunosorbent assays (ELISA), plasma, diagnostic report of von Willebrand factor (VWF) propeptide antigen level

➔ *CPT Changes: An Insider's View* 2022

0282U Red blood cell antigen typing, DNA, genotyping of 12 blood group system genes to predict 44 red blood cell antigen phenotypes

➔ *CPT Changes: An Insider's View* 2022

0283U von Willebrand factor (VWF), type 2B, platelet-binding evaluation, radioimmunoassay, plasma

➔ *CPT Changes: An Insider's View* 2022

0284U von Willebrand factor (VWF), type 2N, factor VIII and VWF binding evaluation, enzyme-linked immunosorbent assays (ELISA), plasma

CPT Changes: An Insider's View 2022

▲ **0285U** Oncology, disease progression and response monitoring to radiation, chemotherapy, or other systematic cancer treatments, cell-free DNA, quantitative branched chain DNA amplification, plasma, reported in ng/mL

CPT Changes: An Insider's View 2023, 2026

0286U *CEP72 (centrosomal protein, 72-KDa), NUDT15 (nudix hydrolase 15)* and *TPMT (thiopurine S-methyltransferase)* (eg, drug metabolism) gene analysis, common variants

CPT Changes: An Insider's View 2023

0287U Oncology (thyroid), DNA and mRNA, next-generation sequencing analysis of 112 genes, fine needle aspirate or formalin-fixed paraffin-embedded (FFPE) tissue, algorithmic prediction of cancer recurrence, reported as a categorical risk result (low, intermediate, high)

CPT Changes: An Insider's View 2023

0288U Oncology (lung), mRNA, quantitative PCR analysis of 11 genes *(BAG1, BRCA1, CDC6, CDK2AP1, ERBB3, FUT3, IL11, LCK, RND3, SH3BGR, WNT3A)* and 3 reference genes *(ESD, TBP, YAP1)*, formalin-fixed paraffin-embedded (FFPE) tumor tissue, algorithmic interpretation reported as a recurrence risk score

CPT Changes: An Insider's View 2023

0289U Neurology (Alzheimer disease), mRNA, gene expression profiling by RNA sequencing of 24 genes, whole blood, algorithm reported as predictive risk score

CPT Changes: An Insider's View 2023

0290U Pain management, mRNA, gene expression profiling by RNA sequencing of 36 genes, whole blood, algorithm reported as predictive risk score

CPT Changes: An Insider's View 2023

0291U Psychiatry (mood disorders), mRNA, gene expression profiling by RNA sequencing of 144 genes, whole blood, algorithm reported as predictive risk score

CPT Changes: An Insider's View 2023

0292U Psychiatry (stress disorders), mRNA, gene expression profiling by RNA sequencing of 72 genes, whole blood, algorithm reported as predictive risk score

CPT Changes: An Insider's View 2023

0293U Psychiatry (suicidal ideation), mRNA, gene expression profiling by RNA sequencing of 54 genes, whole blood, algorithm reported as predictive risk score

CPT Changes: An Insider's View 2023

0294U Longevity and mortality risk, mRNA, gene expression profiling by RNA sequencing of 18 genes, whole blood, algorithm reported as predictive risk score

CPT Changes: An Insider's View 2023

0295U Oncology (breast ductal carcinoma in situ), protein expression profiling by immunohistochemistry of 7 proteins (COX2, FOXA1, HER2, Ki-67, p16, PR, SIAH2), with 4 clinicopathologic factors (size, age, margin status, palpability), utilizing formalin-fixed paraffin-embedded (FFPE) tissue, algorithm reported as a recurrence risk score

CPT Changes: An Insider's View 2023

0296U Oncology (oral and/or oropharyngeal cancer), gene expression profiling by RNA sequencing of at least 20 molecular features (eg, human and/or microbial mRNA), saliva, algorithm reported as positive or negative for signature associated with malignancy

CPT Changes: An Insider's View 2023

0297U Oncology (pan tumor), whole genome sequencing of paired malignant and normal DNA specimens, fresh or formalin-fixed paraffin-embedded (FFPE) tissue, blood or bone marrow, comparative sequence analyses and variant identification

CPT Changes: An Insider's View 2023

0298U Oncology (pan tumor), whole transcriptome sequencing of paired malignant and normal RNA specimens, fresh or formalin-fixed paraffin-embedded (FFPE) tissue, blood or bone marrow, comparative sequence analyses and expression level and chimeric transcript identification

CPT Changes: An Insider's View 2023

0299U Oncology (pan tumor), whole genome optical genome mapping of paired malignant and normal DNA specimens, fresh frozen tissue, blood, or bone marrow, comparative structural variant identification

CPT Changes: An Insider's View 2023

0300U Oncology (pan tumor), whole genome sequencing and optical genome mapping of paired malignant and normal DNA specimens, fresh tissue, blood, or bone marrow, comparative sequence analyses and variant identification

CPT Changes: An Insider's View 2023

0301U Infectious agent detection by nucleic acid (DNA or RNA), Bartonella henselae and Bartonella quintana, droplet digital PCR (ddPCR);

CPT Changes: An Insider's View 2023

0302U following liquid enrichment

CPT Changes: An Insider's View 2023

0303U Hematology, red blood cell (RBC) adhesion to endothelial/subendothelial adhesion molecules, functional assessment, whole blood, with algorithmic analysis and result reported as an RBC adhesion index; hypoxic

CPT Changes: An Insider's View 2023

0304U normoxic

CPT Changes: An Insider's View 2023

0305U Hematology, red blood cell (RBC) functionality and deformity as a function of shear stress, whole blood, reported as a maximum elongation index

CPT Changes: An Insider's View 2023

0306U Oncology (minimal residual disease [MRD]), next-generation targeted sequencing analysis, cell-free DNA, initial (baseline) assessment to determine a patient-specific panel for future comparisons to evaluate for MRD

CPT Changes: An Insider's View 2023

(Do not report 0306U in conjunction with 0307U)

0307U Oncology (minimal residual disease [MRD]), next-generation targeted sequencing analysis of a patient-specific panel, cell-free DNA, subsequent assessment with comparison to previously analyzed patient specimens to evaluate for MRD

CPT Changes: An Insider's View 2023

(Do not report 0307U in conjunction with 0306U)

0308U Cardiology (coronary artery disease [CAD]), analysis of 3 proteins (high sensitivity [hs] troponin, adiponectin, and kidney injury molecule-1 [KIM-1]) with 3 clinical parameters (age, sex, history of cardiac intervention), plasma, algorithm reported as a risk score for obstructive CAD

CPT Changes: An Insider's View 2023, 2024

0309U Cardiology (cardiovascular disease), analysis of 4 proteins (NT-proBNP, osteopontin, tissue inhibitor of metalloproteinase-1 [TIMP-1], and kidney injury molecule-1 [KIM-1]), plasma, algorithm reported as a risk score for major adverse cardiac event

CPT Changes: An Insider's View 2023

0310U Pediatrics (vasculitis, Kawasaki disease [KD]), analysis of 3 biomarkers (NT-proBNP, C-reactive protein, and T-uptake), plasma, algorithm reported as a risk score for KD

CPT Changes: An Insider's View 2023

0311U Infectious disease (bacterial), quantitative antimicrobial susceptibility reported as phenotypic minimum inhibitory concentration (MIC)–based antimicrobial susceptibility for each organism identified

CPT Changes: An Insider's View 2023

(Do not report 0311U in conjunction with 87076, 87077, 0086U)

0312U Autoimmune diseases (eg, systemic lupus erythematosus [SLE]), analysis of 8 IgG autoantibodies and 2 cell-bound complement activation products using enzyme-linked immunosorbent immunoassay (ELISA), flow cytometry and indirect immunofluorescence, serum, or plasma and whole blood, individual components reported along with an algorithmic SLE-likelihood assessment

CPT Changes: An Insider's View 2023

0313U Oncology (pancreas), DNA and mRNA next-generation sequencing analysis of 74 genes and analysis of CEA (CEACAM5) gene expression, pancreatic cyst fluid, algorithm reported as a categorical result (ie, negative, low probability of neoplasia or positive, high probability of neoplasia)

CPT Changes: An Insider's View 2023

0314U Oncology (cutaneous melanoma), mRNA gene expression profiling by RT-PCR of 35 genes (32 content and 3 housekeeping), utilizing formalin-fixed paraffin-embedded (FFPE) tissue, algorithm reported as a categorical result (ie, benign, intermediate, malignant)

CPT Changes: An Insider's View 2023

0315U Oncology (cutaneous squamous cell carcinoma), mRNA gene expression profiling by RT-PCR of 40 genes (34 content and 6 housekeeping), utilizing formalin-fixed paraffin-embedded (FFPE) tissue, algorithm reported as a categorical risk result (ie, Class 1, Class 2A, Class 2B)

CPT Changes: An Insider's View 2023

0316U Borrelia burgdorferi (Lyme disease), OspA protein evaluation, urine

CPT Changes: An Insider's View 2023

0317U Oncology (lung cancer), four-probe FISH (3q29, 3p22.1, 10q22.3, 10cen) assay, whole blood, predictive algorithm-generated evaluation reported as decreased or increased risk for lung cancer

CPT Changes: An Insider's View 2023

0318U Pediatrics (congenital epigenetic disorders), whole genome methylation analysis by microarray for 50 or more genes, blood

CPT Changes: An Insider's View 2023

0319U Nephrology (renal transplant), RNA expression by select transcriptome sequencing, using pretransplant peripheral blood, algorithm reported as a risk score for early acute rejection

CPT Changes: An Insider's View 2023

0320U Nephrology (renal transplant), RNA expression by select transcriptome sequencing, using posttransplant peripheral blood, algorithm reported as a risk score for acute cellular rejection

CPT Changes: An Insider's View 2023

0321U Infectious agent detection by nucleic acid (DNA or RNA), genitourinary pathogens, identification of 20 bacterial and fungal organisms and identification of 16 associated antibiotic-resistance genes, multiplex amplified probe technique

CPT Changes: An Insider's View 2023

0322U Neurology (autism spectrum disorder [ASD]), quantitative measurements of 14 acyl carnitines and microbiome-derived metabolites, liquid chromatography with tandem mass spectrometry (LC-MS/MS), plasma, results reported as negative or positive for risk of metabolic subtypes associated with ASD

CPT Changes: An Insider's View 2023

0323U Infectious agent detection by nucleic acid (DNA and RNA), central nervous system pathogen, metagenomic next-generation sequencing, cerebrospinal fluid (CSF), identification of pathogenic bacteria, viruses, parasites, or fungi

CPT Changes: An Insider's View 2023

CPT Assistant Aug 22:8

(0324U has been deleted)

(0325U has been deleted)

0326U Targeted genomic sequence analysis panel, solid organ neoplasm, cell-free circulating DNA analysis of 83 or more genes, interrogation for sequence variants, gene copy number amplifications, gene rearrangements, microsatellite instability and tumor mutational burden

CPT Changes: An Insider's View 2023

CPT Assistant Aug 22:8

0327U Fetal aneuploidy (trisomy 13, 18, and 21), DNA sequence analysis of selected regions using maternal plasma, algorithm reported as a risk score for each trisomy, includes sex reporting, if performed

CPT Changes: An Insider's View 2023

CPT Assistant Aug 22:8

0328U Drug assay, definitive, 120 or more drugs and metabolites, urine, quantitative liquid chromatography with tandem mass spectrometry (LC-MS/MS), includes specimen validity and algorithmic analysis describing drug or metabolite and presence or absence of risks for a significant patient-adverse event, per date of service

CPT Changes: An Insider's View 2023

CPT Assistant Aug 22:8

0329U Oncology (neoplasia), exome and transcriptome sequence analysis for sequence variants, gene copy number amplifications and deletions, gene rearrangements, microsatellite instability and tumor mutational burden utilizing DNA and RNA from tumor with DNA from normal blood or saliva for subtraction, report of clinically significant mutation(s) with therapy associations

CPT Changes: An Insider's View 2023

CPT Assistant Aug 22:8

0330U Infectious agent detection by nucleic acid (DNA or RNA), vaginal pathogen panel, identification of 27 organisms, amplified probe technique, vaginal swab

CPT Changes: An Insider's View 2023

CPT Assistant Aug 22:8

0331U Oncology (hematolymphoid neoplasia), optical genome mapping for copy number alterations and gene rearrangements utilizing DNA from blood or bone marrow, report of clinically significant alterations

CPT Changes: An Insider's View 2023

CPT Assistant Aug 22:8

0332U Oncology (pan-tumor), genetic profiling of 8 DNA-regulatory (epigenetic) markers by quantitative polymerase chain reaction (qPCR), whole blood, reported as a high or low probability of responding to immune checkpoint–inhibitor therapy

CPT Changes: An Insider's View 2023

0333U Oncology (liver), surveillance for hepatocellular carcinoma (HCC) in high-risk patients, analysis of methylation patterns on circulating cell-free DNA (cfDNA) plus measurement of serum of AFP/AFP-L3 and oncoprotein des-gamma-carboxy-prothrombin (DCP), algorithm reported as normal or abnormal result

CPT Changes: An Insider's View 2023

0334U Oncology (solid organ), targeted genomic sequence analysis, formalin-fixed paraffin-embedded (FFPE) tumor tissue, DNA analysis, 84 or more genes, interrogation for sequence variants, gene copy number amplifications, gene rearrangements, microsatellite instability and tumor mutational burden

CPT Changes: An Insider's View 2023

0335U Rare diseases (constitutional/heritable disorders), whole genome sequence analysis, including small sequence changes, copy number variants, deletions, duplications, mobile element insertions, uniparental disomy (UPD), inversions, aneuploidy, mitochondrial genome sequence analysis with heteroplasmy and large deletions, short tandem repeat (STR) gene expansions, fetal sample, identification and categorization of genetic variants

CPT Changes: An Insider's View 2023

(Do not report 0335U in conjunction with 81425, 0212U)

0336U Rare diseases (constitutional/heritable disorders), whole genome sequence analysis, including small sequence changes, copy number variants, deletions, duplications, mobile element insertions, uniparental disomy (UPD), inversions, aneuploidy, mitochondrial genome sequence analysis with heteroplasmy and large deletions, short tandem repeat (STR) gene expansions, blood or saliva, identification and categorization of genetic variants, each comparator genome (eg, parent)

CPT Changes: An Insider's View 2023

(Do not report 0336U in conjunction with 81426, 0213U)

0337U Oncology (plasma cell disorders and myeloma), circulating plasma cell immunologic selection, identification, morphological characterization, and enumeration of plasma cells based on differential CD138, CD38, CD19, and CD45 protein biomarker expression, peripheral blood

CPT Changes: An Insider's View 2023

0338U Oncology (solid tumor), circulating tumor cell selection, identification, morphological characterization, detection and enumeration based on differential EpCAM, cytokeratins 8, 18, and 19, and CD45 protein biomarkers, and quantification of HER2 protein biomarker–expressing cells, peripheral blood

CPT Changes: An Insider's View 2023

0339U Oncology (prostate), mRNA expression profiling of *HOXC6* and *DLX1*, reverse transcription polymerase chain reaction (RT-PCR), first-void urine following digital rectal examination, algorithm reported as probability of high-grade cancer

CPT Changes: An Insider's View 2023

0340U Oncology (pan-cancer), analysis of minimal residual disease (MRD) from plasma, with assays personalized to each patient based on prior next-generation sequencing of the patient's tumor and germline DNA, reported as absence or presence of MRD, with disease-burden correlation, if appropriate

CPT Changes: An Insider's View 2023

0341U Fetal aneuploidy DNA sequencing comparative analysis, fetal DNA from products of conception, reported as normal (euploidy), monosomy, trisomy, or partial deletion/duplication, mosaicism, and segmental aneuploid

CPT Changes: An Insider's View 2023

0342U Oncology (pancreatic cancer), multiplex immunoassay of C5, C4, cystatin C, factor B, osteoprotegerin (OPG), gelsolin, IGFBP3, CA125 and multiplex electrochemiluminescent immunoassay (ECLIA) for CA19-9, serum, diagnostic algorithm reported qualitatively as positive, negative, or borderline

CPT Changes: An Insider's View 2023

0343U Oncology (prostate), exosome-based analysis of 442 small noncoding RNAs (sncRNAs) by quantitative reverse transcription polymerase chain reaction (RT-qPCR), urine, reported as molecular evidence of no-, low-, intermediate- or high-risk of prostate cancer

CPT Changes: An Insider's View 2023

0344U Hepatology (nonalcoholic fatty liver disease [NAFLD]), semiquantitative evaluation of 28 lipid markers by liquid chromatography with tandem mass spectrometry (LC-MS/MS), serum, reported as at-risk for nonalcoholic steatohepatitis (NASH) or not NASH

CPT Changes: An Insider's View 2023

⌘ **0345U** Psychiatry (eg, depression, anxiety, attention deficit hyperactivity disorder [ADHD]), genomic analysis panel, variant analysis of 15 genes, including deletion/duplication analysis of *CYP2D6*

CPT Changes: An Insider's View 2023

(For additional PLA code with identical clinical descriptor, see 0411U. See Appendix O to determine appropriate code assignment)

►(0346U has been deleted)◄

0347U Drug metabolism or processing (multiple conditions), whole blood or buccal specimen, DNA analysis, 16 gene report, with variant analysis and reported phenotypes

CPT Changes: An Insider's View 2023

0348U Drug metabolism or processing (multiple conditions), whole blood or buccal specimen, DNA analysis, 25 gene report, with variant analysis and reported phenotypes

CPT Changes: An Insider's View 2023

0349U Drug metabolism or processing (multiple conditions), whole blood or buccal specimen, DNA analysis, 27 gene report, with variant analysis, including reported phenotypes and impacted gene-drug interactions

CPT Changes: An Insider's View 2023

0350U Drug metabolism or processing (multiple conditions), whole blood or buccal specimen, DNA analysis, 27 gene report, with variant analysis and reported phenotypes

CPT Changes: An Insider's View 2023

0351U Infectious disease (bacterial or viral), biochemical assays, tumor necrosis factor-related apoptosis-inducing ligand (TRAIL), interferon gamma-induced protein-10 (IP-10), and C-reactive protein, serum, or venous whole blood, algorithm reported as likelihood of bacterial infection

CPT Changes: An Insider's View 2023, 2025

(0352U has been deleted. To report infectious disease, bacterial vaginosis and vaginitis, real-time PCR amplification of DNA markers for algorithm reported as high likelihood of bacterial vaginosis, use 81515)

(0353U has been deleted)

(0354U has been deleted)

0355U *APOL1 (apolipoprotein L1)* (eg, chronic kidney disease), risk variants (G1, G2)

CPT Changes: An Insider's View 2024

0356U Oncology (oropharyngeal or anal), evaluation of 17 DNA biomarkers using droplet digital PCR (ddPCR), cell-free DNA, algorithm reported as a prognostic risk score for cancer recurrence

CPT Changes: An Insider's View 2024, 2025

(0357U has been deleted)

0358U Neurology (mild cognitive impairment), analysis of β-amyloid 1-42 and 1-40, chemiluminescence enzyme immunoassay, cerebral spinal fluid, reported as positive, likely positive, or negative

CPT Changes: An Insider's View 2024

0359U Oncology (prostate cancer), analysis of all prostate-specific antigen (PSA) structural isoforms by phase separation and immunoassay, plasma, algorithm reports risk of cancer

CPT Changes: An Insider's View 2024

0360U Oncology (lung), enzyme-linked immunosorbent assay (ELISA) of 7 autoantibodies (p53, NY-ESO-1, CAGE, GBU4-5, SOX2, MAGE A4, and HuD), plasma, algorithm reported as a categorical result for risk of malignancy

CPT Changes: An Insider's View 2024

0361U Neurofilament light chain, digital immunoassay, plasma, quantitative

CPT Changes: An Insider's View 2024

0362U Oncology (papillary thyroid cancer), gene-expression profiling via targeted hybrid capture–enrichment RNA sequencing of 82 content genes and 10 housekeeping genes, fine needle aspirate or formalin-fixed paraffin-embedded (FFPE) tissue, algorithm reported as one of three molecular subtypes

CPT Changes: An Insider's View 2024

0363U Oncology (urothelial), mRNA, gene-expression profiling by real-time quantitative PCR of 5 genes *(MDK, HOXA13, CDC2 [CDK1], IGFBP5*, and *CXCR2)*, utilizing urine, algorithm incorporates age, sex, smoking history, and macrohematuria frequency, reported as a risk score for having urothelial carcinoma

CPT Changes: An Insider's View 2024

0364U Oncology (hematolymphoid neoplasm), genomic sequence analysis using multiplex (PCR) and next-generation sequencing with algorithm, quantification of dominant clonal sequence(s), reported as presence or absence of minimal residual disease (MRD) with quantitation of disease burden, when appropriate

CPT Changes: An Insider's View 2024

▲ **0365U** Oncology (bladder), 10 protein biomarkers (A1AT, ANG, APOE, CA9, IL8, MMP9, MMP10, PAI1, SDC1, and VEGFA) by immunoassays, urine, diagnostic algorithm, including patient's age, race, and gender, reported as a probability of harboring urothelial cancer

CPT Changes: An Insider's View 2024, 2026

0366U Oncology (bladder), analysis of 10 protein biomarkers (A1AT, ANG, APOE, CA9, IL8, MMP9, MMP10, PAI1, SDC1, and VEGFA) by immunoassays, urine, algorithm reported as a probability of recurrent bladder cancer

CPT Changes: An Insider's View 2024

0367U Oncology (bladder), analysis of 10 protein biomarkers (A1AT, ANG, APOE, CA9, IL8, MMP9, MMP10, PAI1, SDC1, and VEGFA) by immunoassays, urine, diagnostic algorithm reported as a risk score for probability of rapid recurrence of recurrent or persistent cancer following transurethral resection

CPT Changes: An Insider's View 2024

0368U Oncology (colorectal cancer), evaluation for mutations of *APC, BRAF, CTNNB1, KRAS, NRAS, PIK3CA, SMAD4*, and *TP53*, and methylation markers (MYO1G, KCNQ5, C9ORF50, FLI1, CLIP4, ZNF132, and TWIST1), multiplex quantitative polymerase chain reaction (qPCR), circulating cell-free DNA (cfDNA), plasma, report of risk score for advanced adenoma or colorectal cancer

CPT Changes: An Insider's View 2024

►(0369U has been deleted)◄

►(0370U has been deleted)◄

0371U Infectious agent detection by nucleic acid (DNA or RNA), genitourinary pathogen, semiquantitative identification, DNA from 16 bacterial organisms and 1 fungal organism, multiplex amplified probe technique via quantitative polymerase chain reaction (qPCR), urine

CPT Changes: An Insider's View 2024

0372U Infectious disease (genitourinary pathogens), antibiotic-resistance gene detection, multiplex amplified probe technique, urine, reported as an antimicrobial stewardship risk score

CPT Changes: An Insider's View 2024

►(0373U has been deleted)◄

►(0374U has been deleted)◄

0375U Oncology (ovarian), biochemical assays of 7 proteins (follicle stimulating hormone, human epididymis protein 4, apolipoprotein A-1, transferrin, beta-2 macroglobulin, prealbumin [ie, transthyretin], and cancer antigen 125), algorithm reported as ovarian cancer risk score

CPT Changes: An Insider's View 2024

0376U Oncology (prostate cancer), image analysis of at least 128 histologic features and clinical factors, prognostic algorithm determining the risk of distant metastases, and prostate cancer-specific mortality, includes predictive algorithm to androgen deprivation-therapy response, if appropriate

CPT Changes: An Insider's View 2024

0377U Cardiovascular disease, quantification of advanced serum or plasma lipoprotein profile, by nuclear magnetic resonance (NMR) spectrometry with report of a lipoprotein profile (including 23 variables)

CPT Changes: An Insider's View 2024

0378U *RFC1 (replication factor C subunit 1)*, repeat expansion variant analysis by traditional and repeat-primed PCR, blood, saliva, or buccal swab

CPT Changes: An Insider's View 2024

0379U Targeted genomic sequence analysis panel, solid organ neoplasm, DNA (523 genes) and RNA (55 genes) by next-generation sequencing, interrogation for sequence variants, gene copy number amplifications, gene rearrangements, microsatellite instability, and tumor mutational burden

CPT Changes: An Insider's View 2024

►(0380U has been deleted)◄

0381U Maple syrup urine disease monitoring by patient-collected blood card sample, quantitative measurement of allo-isoleucine, leucine, isoleucine, and valine, liquid chromatography with tandem mass spectrometry (LC-MS/MS)

CPT Changes: An Insider's View 2024

0382U Hyperphenylalaninemia monitoring by patient-collected blood card sample, quantitative measurement of phenylalanine and tyrosine, liquid chromatography with tandem mass spectrometry (LC-MS/MS)

CPT Changes: An Insider's View 2024

0383U Tyrosinemia type I monitoring by patient-collected blood card sample, quantitative measurement of tyrosine, phenylalanine, methionine, succinylacetone, nitisinone, liquid chromatography with tandem mass spectrometry (LC-MS/MS)

CPT Changes: An Insider's View 2024

0384U Nephrology (chronic kidney disease), carboxymethyllysine, methylglyoxal hydroimidazolone, and carboxyethyl lysine by liquid chromatography with tandem mass spectrometry (LC-MS/MS) and HbA1c and estimated glomerular filtration rate (GFR), with risk score reported for predictive progression to high-stage kidney disease

CPT Changes: An Insider's View 2024

0385U Nephrology (chronic kidney disease), apolipoprotein A4 (ApoA4), CD5 antigen-like (CD5L), and insulin-like growth factor binding protein 3 (IGFBP3) by enzyme-linked immunoassay (ELISA), plasma, algorithm combining results with HDL, estimated glomerular filtration rate (GFR) and clinical data reported as a risk score for developing diabetic kidney disease

CPT Changes: An Insider's View 2024

(0386U has been deleted)

0387U Oncology (melanoma), autophagy and beclin 1 regulator 1 (AMBRA1) and loricrin (AMLo) by immunohistochemistry, formalin-fixed paraffin-embedded (FFPE) tissue, report for risk of progression

CPT Changes: An Insider's View 2024

(Do not report 0387U in conjunction with 88341, 88342)

0388U Oncology (non-small cell lung cancer), next-generation sequencing with identification of single nucleotide variants, copy number variants, insertions and deletions, and structural variants in 37 cancer-related genes, plasma, with report for alteration detection

CPT Changes: An Insider's View 2024

0389U Pediatric febrile illness (Kawasaki disease [KD]), interferon alpha-inducible protein 27 (IFI27) and mast cell-expressed membrane protein 1 (MCEMP1), RNA, using quantitative reverse transcription polymerase chain reaction (RT-qPCR), blood, reported as a risk score for KD

CPT Changes: An Insider's View 2024

0390U Obstetrics (preeclampsia), kinase insert domain receptor (KDR), Endoglin (ENG), and retinol-binding protein 4 (RBP4), by immunoassay, serum, algorithm reported as a risk score

CPT Changes: An Insider's View 2024

0391U Oncology (solid tumor), DNA and RNA by next-generation sequencing, utilizing formalin-fixed paraffin-embedded (FFPE) tissue, 437 genes, interpretive report for single nucleotide variants, splice-site variants, insertions/deletions, copy number alterations, gene fusions, tumor mutational burden, and microsatellite instability, with algorithm quantifying immunotherapy response score

CPT Changes: An Insider's View 2024

0392U Drug metabolism (depression, anxiety, attention deficit hyperactivity disorder [ADHD]), gene-drug interactions, variant analysis of 16 genes, including deletion/duplication analysis of *CYP2D6*, reported as impact of gene-drug interaction for each drug

CPT Changes: An Insider's View 2024

0393U Neurology (eg, Parkinson disease, dementia with Lewy bodies), cerebrospinal fluid (CSF), detection of misfolded α-synuclein protein by seed amplification assay, qualitative

CPT Changes: An Insider's View 2024

0394U Perfluoroalkyl substances (PFAS) (eg, perfluorooctanoic acid, perfluorooctane sulfonic acid), 16 PFAS compounds by liquid chromatography with tandem mass spectrometry (LC-MS/MS), plasma or serum, quantitative

CPT Changes: An Insider's View 2024

0395U Oncology (lung), multi-omics (microbial DNA by shotgun next-generation sequencing and carcinoembryonic antigen and osteopontin by immunoassay), plasma, algorithm reported as malignancy risk for lung nodules in early-stage disease

CPT Changes: An Insider's View 2024

(0396U has been deleted)

(0397U has been deleted)

0398U Gastroenterology (Barrett's esophagus), *P16, RUNX3, HPP1*, and *FBN1* DNA methylation analysis using PCR, formalin-fixed paraffin-embedded (FFPE) tissue, algorithm reported as risk score for progression to high-grade dysplasia or cancer

CPT Changes: An Insider's View 2024

0399U Neurology (cerebral folate deficiency), serum, detection of anti-human folate receptor IgG-binding antibody and blocking autoantibodies by enzyme-linked immunoassay (ELISA), qualitative, and blocking autoantibodies, using a functional blocking assay for IgG or IgM, quantitative, reported as positive or not detected

CPT Changes: An Insider's View 2024

0400U Obstetrics (expanded carrier screening), 145 genes by next-generation sequencing, fragment analysis and multiplex ligation-dependent probe amplification, DNA, reported as carrier positive or negative

CPT Changes: An Insider's View 2024

0401U Cardiology (coronary heart disease [CHD]), 9 genes (12 variants), targeted variant genotyping, blood, saliva, or buccal swab, algorithm reported as a genetic risk score for a coronary event

CPT Changes: An Insider's View 2024

0402U Infectious agent (sexually transmitted infection), Chlamydia trachomatis, Neisseria gonorrhoeae, Trichomonas vaginalis, Mycoplasma genitalium, multiplex amplified probe technique, vaginal, endocervical, or male urine, each pathogen reported as detected or not detected

CPT Changes: An Insider's View 2024

0403U Oncology (prostate), mRNA, gene expression profiling of 18 genes, first-catch urine, algorithm reported as percentage of likelihood of detecting clinically significant prostate cancer

CPT Changes: An Insider's View 2024, 2025

0404U Oncology (breast), semiquantitative measurement of thymidine kinase activity by immunoassay, serum, results reported as risk of disease progression

CPT Changes: An Insider's View 2024

0405U Oncology (pancreatic), 59 methylation haplotype block markers, next-generation sequencing, plasma, reported as cancer signal detected or not detected

CPT Changes: An Insider's View 2024

0406U Oncology (lung), flow cytometry, sputum, 5 markers (meso-tetra [4-carboxyphenyl] porphyrin [TCPP], CD206, CD66b, CD3, CD19), algorithm reported as likelihood of lung cancer

CPT Changes: An Insider's View 2024

0407U Nephrology (diabetic chronic kidney disease [CKD]), multiplex electrochemiluminescent immunoassay (ECLIA) of soluble tumor necrosis factor receptor 1 (sTNFR1), soluble tumor necrosis receptor 2 (sTNFR2), and kidney injury molecule 1 (KIM-1) combined with clinical data, plasma, algorithm reported as risk for progressive decline in kidney function

CPT Changes: An Insider's View 2024

0408U Infectious agent antigen detection by bulk acoustic wave biosensor immunoassay, severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19])

CPT Changes: An Insider's View 2024

0409U Oncology (solid tumor), DNA (80 genes) and RNA (36 genes), by next-generation sequencing from plasma, including single nucleotide variants, insertions/deletions, copy number alterations, microsatellite instability, and fusions, report showing identified mutations with clinical actionability

CPT Changes: An Insider's View 2024

0410U Oncology (pancreatic), DNA, whole genome sequencing with 5-hydroxymethylcytosine enrichment, whole blood or plasma, algorithm reported as cancer detected or not detected

CPT Changes: An Insider's View 2024

0411U Psychiatry (eg, depression, anxiety, attention deficit hyperactivity disorder [ADHD]), genomic analysis panel, variant analysis of 15 genes, including deletion/duplication analysis of *CYP2D6*

CPT Changes: An Insider's View 2024

(For additional PLA code with identical clinical descriptor, see 0345U. See Appendix O to determine appropriate code assignment)

0412U Beta amyloid, Aβ42/40 ratio, immunoprecipitation with quantitation by liquid chromatography with tandem mass spectrometry (LC-MS/MS) and qualitative ApoE isoform-specific proteotyping, plasma combined with age, algorithm reported as presence or absence of brain amyloid pathology

CPT Changes: An Insider's View 2024

0413U Oncology (hematolymphoid neoplasm), optical genome mapping for copy number alterations, aneuploidy, and balanced/complex structural rearrangements, DNA from blood or bone marrow, report of clinically significant alterations

CPT Changes: An Insider's View 2024

0414U Oncology (lung), augmentative algorithmic analysis of digitized whole slide imaging for 8 genes *(ALK, BRAF, EGFR, ERBB2, MET, NTRK1-3, RET, ROS1)*, and *KRAS* G12C and PD-L1, if performed, formalin-fixed paraffin-embedded (FFPE) tissue, reported as positive or negative for each biomarker

CPT Changes: An Insider's View 2024

0415U Cardiovascular disease (acute coronary syndrome [ACS]), IL-16, FAS, FASLigand, HGF, CTACK, EOTAXIN, and MCP-3 by immunoassay combined with age, sex, family history, and personal history of diabetes, blood, algorithm reported as a 5-year (deleted risk) score for ACS

CPT Changes: An Insider's View 2024

(0416U has been deleted)

0417U Rare diseases (constitutional/heritable disorders), whole mitochondrial genome sequence with heteroplasmy detection and deletion analysis, nuclear-encoded mitochondrial gene analysis of 335 nuclear genes, including sequence changes, deletions, insertions, and copy number variants analysis, blood or saliva, identification and categorization of mitochondrial disorder–associated genetic variants

CPT Changes: An Insider's View 2024

0418U Oncology (breast), augmentative algorithmic analysis of digitized whole slide imaging of 8 histologic and immunohistochemical features, reported as a recurrence score

CPT Changes: An Insider's View 2024

0419U Neuropsychiatry (eg, depression, anxiety), genomic sequence analysis panel, variant analysis of 13 genes, saliva or buccal swab, report of each gene phenotype

CPT Changes: An Insider's View 2024

0420U Oncology (urothelial), mRNA expression profiling by real-time quantitative PCR of *MDK*, *HOXA13*, *CDC2*, *IGFBP5*, and *CXCR2* in combination with droplet digital PCR (ddPCR) analysis of 6 single-nucleotide polymorphisms (SNPs) of genes *TERT* and *FGFR3*, urine, algorithm reported as a risk score for urothelial carcinoma

CPT Changes: An Insider's View 2025

0421U Oncology (colorectal) screening, quantitative real-time target and signal amplification of 8 RNA markers *(GAPDH, SMAD4, ACY1, AREG, CDH1, KRAS, TNFRSF10B, EGLN2)* and fecal hemoglobin, algorithm reported as a positive or negative for colorectal cancer risk

CPT Changes: An Insider's View 2025

0422U Oncology (pan-solid tumor), analysis of DNA biomarker response to anti-cancer therapy using cell-free circulating DNA, biomarker comparison to a previous baseline pre-treatment cell-free circulating DNA analysis using next-generation sequencing, algorithm reported as a quantitative change from baseline, including specific alterations, if appropriate

CPT Changes: An Insider's View 2025

0423U Psychiatry (eg, depression, anxiety), genomic analysis panel, including variant analysis of 26 genes, buccal swab, report including metabolizer status and risk of drug toxicity by condition

➔ *CPT Changes: An Insider's View* 2025

0424U Oncology (prostate), exosome-based analysis of 53 small noncoding RNAs (sncRNAs) by quantitative reverse transcription polymerase chain reaction (RT-qPCR), urine, reported as no molecular evidence, low-, moderate-, or elevated-risk of prostate cancer

➔ *CPT Changes: An Insider's View* 2025

0425U Genome (eg, unexplained constitutional or heritable disorder or syndrome), rapid sequence analysis, each comparator genome (eg, parents, siblings)

➔ *CPT Changes: An Insider's View* 2025

0426U Genome (eg, unexplained constitutional or heritable disorder or syndrome), ultra-rapid sequence analysis

➔ *CPT Changes: An Insider's View* 2025

+ 0427U Monocyte distribution width, whole blood (List separately in addition to code for primary procedure)

➔ *CPT Changes: An Insider's View* 2025

(Use 0427U in conjunction with 85004, 85025)

►(0428U has been deleted)◄

0429U Human papillomavirus (HPV), oropharyngeal swab, 14 high-risk types (ie, 16, 18, 31, 33, 35, 39, 45, 51, 52, 56, 58, 59, 66, and 68)

➔ *CPT Changes: An Insider's View* 2025

0430U Gastroenterology, malabsorption evaluation of alpha-1-antitrypsin, calprotectin, pancreatic elastase and reducing substances, feces, quantitative

➔ *CPT Changes: An Insider's View* 2025

0431U Glycine receptor alpha1 IgG, serum or cerebrospinal fluid (CSF), live cell-binding assay (LCBA), qualitative

➔ *CPT Changes: An Insider's View* 2025

0432U Kelch-like protein 11 (KLHL11) antibody, serum or cerebrospinal fluid (CSF), cell-binding assay, qualitative

➔ *CPT Changes: An Insider's View* 2025

0433U Oncology (prostate), 5 DNA regulatory markers by quantitative PCR, whole blood, algorithm, including prostate-specific antigen, reported as likelihood of cancer

➔ *CPT Changes: An Insider's View* 2025

0434U Drug metabolism (adverse drug reactions and drug response), genomic analysis panel, variant analysis of 25 genes with reported phenotypes

➔ *CPT Changes: An Insider's View* 2025

0435U Oncology, chemotherapeutic drug cytotoxicity assay of cancer stem cells (CSCs), from cultured CSCs and primary tumor cells, categorical drug response reported based on cytotoxicity percentage observed, minimum of 14 drugs or drug combinations

➔ *CPT Changes: An Insider's View* 2025

0436U Oncology (lung), plasma analysis of 388 proteins, using aptamer-based proteomics technology, predictive algorithm reported as clinical benefit from immune checkpoint inhibitor therapy

➔ *CPT Changes: An Insider's View* 2025

0437U Psychiatry (anxiety disorders), mRNA, gene expression profiling by RNA sequencing of 15 biomarkers, whole blood, algorithm reported as predictive risk score

➔ *CPT Changes: An Insider's View* 2025

0438U Drug metabolism (adverse drug reactions and drug response), buccal specimen, gene-drug interactions, variant analysis of 33 genes, including deletion/duplication analysis of *CYP2D6*, including reported phenotypes and impacted gene-drug interactions

➔ *CPT Changes: An Insider's View* 2025

0439U Cardiology (coronary heart disease [CHD]), DNA, analysis of 5 single-nucleotide polymorphisms (SNPs) (rs11716050 [LOC105376934], rs6560711 [WDR37], rs3735222 [SCIN/LOC107986769], rs6820447 [intergenic], and rs9638144 [ESYT2]) and 3 DNA methylation markers (cg00300879 [transcription start site {TSS200} of CNKSR1], cg09552548 [intergenic], and cg14789911 [body of SPATC1L]), qPCR and digital PCR, whole blood, algorithm reported as a 4-tiered risk score for a 3-year risk of symptomatic CHD

➔ *CPT Changes: An Insider's View* 2025

0440U Cardiology (coronary heart disease [CHD]), DNA, analysis of 10 single-nucleotide polymorphisms (SNPs) (rs710987 [LINC010019], rs1333048 [CDKN2B-AS1], rs12129789 [KCND3], rs942317 [KTN1-AS1], rs1441433 [PPP3CA], rs2869675 [PREX1], rs4639796 [ZBTB41], rs4376434 [LINC00972], rs12714414 [TMEM18], and rs7585056 [TMEM18]) and 6 DNA methylation markers (cg03725309 [SARS1], cg12586707 [CXCL1], cg04988978 [MPO], cg17901584 [DHCR24-DT], cg21161138 [AHRR], and cg12655112 [EHD4]), qPCR and digital PCR, whole blood, algorithm reported as detected or not detected for CHD

➔ *CPT Changes: An Insider's View* 2025

0441U Infectious disease (bacterial, fungal, or viral infection), semiquantitative biomechanical assessment (via deformability cytometry), whole blood, with algorithmic analysis and result reported as an index

CPT Changes: An Insider's View 2025

0442U Infectious disease (respiratory infection), Myxovirus resistance protein A (MxA) and C-reactive protein (CRP), fingerstick whole blood specimen, each biomarker reported as present or absent

CPT Changes: An Insider's View 2025

0443U Neurofilament light chain (NfL), ultra-sensitive immunoassay, serum or cerebrospinal fluid

CPT Changes: An Insider's View 2025

0444U Oncology (solid organ neoplasia), targeted genomic sequence analysis panel of 361 genes, interrogation for gene fusions, translocations, or other rearrangements, using DNA from formalin-fixed paraffin-embedded (FFPE) tumor tissue, report of clinically significant variant(s)

CPT Changes: An Insider's View 2025

0445U β-amyloid (Abeta42) and phospho tau (181P) (pTau181), electrochemiluminescent immunoassay (ECLIA), cerebral spinal fluid, ratio reported as positive or negative for amyloid pathology

CPT Changes: An Insider's View 2025

0446U Autoimmune diseases (systemic lupus erythematosus [SLE]), analysis of 10 cytokine soluble mediator biomarkers by immunoassay, plasma, individual components reported with an algorithmic risk score for current disease activity

CPT Changes: An Insider's View 2025

0447U Autoimmune diseases (systemic lupus erythematosus [SLE]), analysis of 11 cytokine soluble mediator biomarkers by immunoassay, plasma, individual components reported with an algorithmic prognostic risk score for developing a clinical flare

CPT Changes: An Insider's View 2025

►(0448U has been deleted)◄

0449U Carrier screening for severe inherited conditions (eg, cystic fibrosis, spinal muscular atrophy, beta hemoglobinopathies [including sickle cell disease], alpha thalassemia), regardless of race or self-identified ancestry, genomic sequence analysis panel, must include analysis of 5 genes *(CFTR, SMN1, HBB, HBA1, HBA2)*

CPT Changes: An Insider's View 2025

►(0450U has been deleted)◄

►(0451U has been deleted)◄

0452U Oncology (bladder), methylated *PENK* DNA detection by linear target enrichment-quantitative methylation-specific real-time PCR (LTE-qMSP), urine, reported as likelihood of bladder cancer

CPT Changes: An Insider's View 2025

0453U Oncology (colorectal cancer), cell-free DNA (cfDNA), methylation-based quantitative PCR assay *(SEPTIN9, IKZF1, BCAT1*, Septin9-2, *VAV3, BCAN)*, plasma, reported as presence or absence of circulating tumor DNA (ctDNA)

CPT Changes: An Insider's View 2025

♓ **0454U** Rare diseases (constitutional/heritable disorders), identification of copy number variations, inversions, insertions, translocations, and other structural variants by optical genome mapping

CPT Changes: An Insider's View 2025

(For additional PLA codes with identical clinical descriptor, see 0260U, 0264U. See Appendix O or the most current listing on the AMA CPT website to determine appropriate code assignment)

0455U Infectious agents (sexually transmitted infection), Chlamydia trachomatis, Neisseria gonorrhoeae, and Trichomonas vaginalis, multiplex amplified probe technique, vaginal, endocervical, gynecological specimens, oropharyngeal swabs, rectal swabs, female or male urine, each pathogen reported as detected or not detected

CPT Changes: An Insider's View 2025

►(0456U has been deleted)◄

0457U Perfluoroalkyl substances (PFAS) (eg, perfluorooctanoic acid, perfluorooctane sulfonic acid), 9 PFAS compounds by LC-MS/MS, plasma or serum, quantitative

CPT Changes: An Insider's View 2025

0458U Oncology (breast cancer), S100A8 and S100A9, by enzyme-linked immunosorbent assay (ELISA), tear fluid with age, algorithm reported as a risk score

CPT Changes: An Insider's View 2025

0459U β-amyloid (Abeta42) and total tau (tTau), electrochemiluminescent immunoassay (ECLIA), cerebral spinal fluid, ratio reported as positive or negative for amyloid pathology

CPT Changes: An Insider's View 2025

0460U Oncology, whole blood or buccal, DNA single-nucleotide polymorphism (SNP) genotyping by real-time PCR of 24 genes, with variant analysis and reported phenotypes

CPT Changes: An Insider's View 2025

0461U Oncology, pharmacogenomic analysis of single-nucleotide polymorphism (SNP) genotyping by real-time PCR of 24 genes, whole blood or buccal swab, with variant analysis, including impacted gene-drug interactions and reported phenotypes

➔ *CPT Changes: An Insider's View* 2025

0462U Melatonin levels test, sleep study, 7 or 9 sample melatonin profile (cortisol optional), enzyme-linked immunosorbent assay (ELISA), saliva, screening/preliminary

➔ *CPT Changes: An Insider's View* 2025

0463U Oncology (cervix), mRNA gene expression profiling of 14 biomarkers (E6 and E7 of the highest-risk human papillomavirus [HPV] types 16, 18, 31, 33, 45, 52, 58), by real-time nucleic acid sequence-based amplification (NASBA), exo- or endocervical epithelial cells, algorithm reported as positive or negative for increased risk of cervical dysplasia or cancer for each biomarker

➔ *CPT Changes: An Insider's View* 2025

0464U Oncology (colorectal) screening, quantitative real-time target and signal amplification, methylated DNA markers, including LASS4, LRRC4 and PPP2R5C, a reference marker ZDHHC1, and a protein marker (fecal hemoglobin), utilizing stool, algorithm reported as a positive or negative result

➔ *CPT Changes: An Insider's View* 2025

0465U Oncology (urothelial carcinoma), DNA, quantitative methylation-specific PCR of 2 genes *(ONECUT2, VIM)*, algorithmic analysis reported as positive or negative

➔ *CPT Changes: An Insider's View* 2025

0466U Cardiology (coronary artery disease [CAD]), DNA, genome-wide association studies (564856 single-nucleotide polymorphisms [SNPs], targeted variant genotyping), patient lifestyle and clinical data, buccal swab, algorithm reported as polygenic risk to acquired heart disease

➔ *CPT Changes: An Insider's View* 2025

0467U Oncology (bladder), DNA, next-generation sequencing (NGS) of 60 genes and whole genome aneuploidy, urine, algorithms reported as minimal residual disease (MRD) status positive or negative and quantitative disease burden

➔ *CPT Changes: An Insider's View* 2025

0468U Hepatology (nonalcoholic steatohepatitis [NASH]), miR-34a-5p, alpha 2-macroglobulin, YKL40, HbA1c, serum and whole blood, algorithm reported as a single score for NASH activity and fibrosis

➔ *CPT Changes: An Insider's View* 2025

0469U Rare diseases (constitutional/heritable disorders), whole genome sequence analysis for chromosomal abnormalities, copy number variants, duplications/deletions, inversions, unbalanced translocations, regions of homozygosity (ROH), inheritance pattern that indicate uniparental disomy (UPD), and aneuploidy, fetal sample (amniotic fluid, chorionic villus sample, or products of conception), identification and categorization of genetic variants, diagnostic report of fetal results based on phenotype with maternal sample and paternal sample, if performed, as comparators and/or maternal cell contamination

➔ *CPT Changes: An Insider's View* 2025

0470U Oncology (oropharyngeal), detection of minimal residual disease by next-generation sequencing (NGS) based quantitative evaluation of 8 DNA targets, cell-free HPV 16 and 18 DNA from plasma

➔ *CPT Changes: An Insider's View* 2025

0471U Oncology (colorectal cancer), qualitative real-time PCR of 35 variants of *KRAS* and *NRAS* genes (exons 2, 3, 4), formalin-fixed paraffin-embedded (FFPE), predictive, identification of detected mutations

➔ *CPT Changes: An Insider's View* 2025

0472U Carbonic anhydrase VI (CA VI), parotid specific/secretory protein (PSP) and salivary protein (SP1) IgG, IgM, and IgA antibodies, enzyme-linked immunosorbent assay (ELISA), semiqualitative, blood, reported as predictive evidence of early Sjögren's syndrome

➔ *CPT Changes: An Insider's View* 2025

0473U Oncology (solid tumor), next-generation sequencing (NGS) of DNA from formalin-fixed paraffin-embedded (FFPE) tissue with comparative sequence analysis from a matched normal specimen (blood or saliva), 648 genes, interrogation for sequence variants, insertion and deletion alterations, copy number variants, rearrangements, microsatellite instability, and tumor-mutation burden

➔ *CPT Changes: An Insider's View* 2025

0474U Hereditary pan-cancer (eg, hereditary sarcomas, hereditary endocrine tumors, hereditary neuroendocrine tumors, hereditary cutaneous melanoma), genomic sequence analysis panel of 88 genes with 20 duplications/deletions using next-generation sequencing (NGS), Sanger sequencing, blood or saliva, reported as positive or negative for germline variants, each gene

➔ *CPT Changes: An Insider's View* 2025

0475U Hereditary prostate cancer-related disorders, genomic sequence analysis panel using next-generation sequencing (NGS), Sanger sequencing, multiplex ligation-dependent probe amplification (MLPA), and array comparative genomic hybridization (CGH), evaluation of 23 genes and duplications/deletions when indicated, pathologic mutations reported with a genetic risk score for prostate cancer

➔ *CPT Changes: An Insider's View* 2025

0476U Drug metabolism, psychiatry (eg, major depressive disorder, general anxiety disorder, attention deficit hyperactivity disorder [ADHD], schizophrenia), whole blood, buccal swab, and pharmacogenomic genotyping of 14 genes and *CYP2D6* copy number variant analysis and reported phenotypes

➔ *CPT Changes: An Insider's View* 2025

0477U Drug metabolism, psychiatry (eg, major depressive disorder, general anxiety disorder, attention deficit hyperactivity disorder [ADHD], schizophrenia), whole blood, buccal swab, and pharmacogenomic genotyping of 14 genes and *CYP2D6* copy number variant analysis, including impacted gene-drug interactions and reported phenotypes

➔ *CPT Changes: An Insider's View* 2025

0478U Oncology (non-small cell lung cancer), DNA and RNA, digital PCR analysis of 9 genes *(EGFR, KRAS, BRAF, ALK, ROS1, RET, NTRK 1/2/3, ERBB2*, and *MET)* in formalin-fixed paraffin-embedded (FFPE) tissue, interrogation for single-nucleotide variants, insertions/deletions, gene rearrangements, and reported as actionable detected variants for therapy selection

➔ *CPT Changes: An Insider's View* 2025

0479U Tau, phosphorylated, pTau217

➔ *CPT Changes: An Insider's View* 2025

0480U Infectious disease (bacteria, viruses, fungi, and parasites), cerebrospinal fluid (CSF), metagenomic next-generation sequencing (DNA and RNA), bioinformatic analysis, with positive pathogen identification

➔ *CPT Changes: An Insider's View* 2025

0481U *IDH1 (isocitrate dehydrogenase 1 [NADP+]), IDH2 (isocitrate dehydrogenase 2 [NADP+])*, and *TERT (telomerase reverse transcriptase)* promoter (eg, central nervous system [CNS] tumors), next-generation sequencing (single-nucleotide variants [SNV], deletions, and insertions)

➔ *CPT Changes: An Insider's View* 2025

0482U Obstetrics (preeclampsia), biochemical assay of soluble fms-like tyrosine kinase 1 (sFlt-1) and placental growth factor (PlGF), serum, ratio reported for sFlt-1/PlGF, with risk of progression for preeclampsia with severe features within 2 weeks

➔ *CPT Changes: An Insider's View* 2025

0483U Infectious disease (Neisseria gonorrhoeae), sensitivity, ciprofloxacin resistance (gyrA S91F point mutation), oral, rectal, or vaginal swab, algorithm reported as probability of fluoroquinolone resistance

➔ *CPT Changes: An Insider's View* 2025

0484U Infectious disease (Mycoplasma genitalium), macrolide sensitivity (23S rRNA point mutation), oral, rectal, or vaginal swab, algorithm reported as probability of macrolide resistance

➔ *CPT Changes: An Insider's View* 2025

0485U Oncology (solid tumor), cell-free DNA and RNA by next-generation sequencing, interpretative report for germline mutations, clonal hematopoiesis of indeterminate potential, and tumor-derived single-nucleotide variants, small insertions/deletions, copy number alterations, fusions, microsatellite instability, and tumor mutational burden

➔ *CPT Changes: An Insider's View* 2025

0486U Oncology (pan-solid tumor), next-generation sequencing analysis of tumor methylation markers present in cell-free circulating tumor DNA, algorithm reported as quantitative measurement of methylation as a correlate of tumor fraction

➔ *CPT Changes: An Insider's View* 2025

0487U Oncology (solid tumor), cell-free circulating DNA, targeted genomic sequence analysis panel of 84 genes, interrogation for sequence variants, aneuploidy-corrected gene copy number amplifications and losses, gene rearrangements, and microsatellite instability

➔ *CPT Changes: An Insider's View* 2025

0488U Obstetrics (fetal antigen noninvasive prenatal test), cell-free DNA sequence analysis for detection of fetal presence or absence of 1 or more of the Rh, C, c, D, E, Duffy (Fya), or Kell (K) antigen in alloimmunized pregnancies, reported as selected antigen(s) detected or not detected

➔ *CPT Changes: An Insider's View* 2025

0489U Obstetrics (single-gene noninvasive prenatal test), cell-free DNA sequence analysis of 1 or more targets (eg, *CFTR, SMN1, HBB, HBA1, HBA2)* to identify paternally inherited pathogenic variants, and relative mutation-dosage analysis based on molecular counts to determine fetal inheritance of maternal mutation, algorithm reported as a fetal risk score for the condition (eg, cystic fibrosis, spinal muscular atrophy, beta hemoglobinopathies [including sickle cell disease], alpha thalassemia)

➔ *CPT Changes: An Insider's View* 2025

0490U Oncology (cutaneous or uveal melanoma), circulating tumor cell selection, morphological characterization and enumeration based on differential CD146, high molecular–weight melanoma-associated antigen, CD34 and CD45 protein biomarkers, peripheral blood

➔ *CPT Changes: An Insider's View* 2025

0491U Oncology (solid tumor), circulating tumor cell selection, morphological characterization and enumeration based on differential epithelial cell adhesion molecule (EpCAM), cytokeratins 8, 18, and 19, CD45 protein biomarkers, and quantification of estrogen receptor (ER) protein biomarker–expressing cells, peripheral blood

➔ *CPT Changes: An Insider's View* 2025

0492U Oncology (solid tumor), circulating tumor cell selection, morphological characterization and enumeration based on differential epithelial cell adhesion molecule (EpCAM), cytokeratins 8, 18, and 19, CD45 protein biomarkers, and quantification of PD-L1 protein biomarker–expressing cells, peripheral blood

➔ *CPT Changes: An Insider's View* 2025

0493U Transplantation medicine, quantification of donor-derived cell-free DNA (cfDNA) using next-generation sequencing, plasma, reported as percentage of donor-derived cell-free DNA

CPT Changes: An Insider's View 2025

0494U Red blood cell antigen (fetal RhD gene analysis), next-generation sequencing of circulating cell-free DNA (cfDNA) of blood in pregnant individuals known to be RhD negative, reported as positive or negative

CPT Changes: An Insider's View 2025

0495U Oncology (prostate), analysis of circulating plasma proteins (tPSA, fPSA, KLK2, PSP94, and GDF15), germline polygenic risk score (60 variants), clinical information (age, family history of prostate cancer, prior negative prostate biopsy), algorithm reported as risk of likelihood of detecting clinically significant prostate cancer

CPT Changes: An Insider's View 2025

0496U Oncology (colorectal), cell-free DNA, 8 genes for mutations, 7 genes for methylation by real-time RT-PCR, and 4 proteins by enzyme-linked immunosorbent assay, blood, reported positive or negative for colorectal cancer or advanced adenoma risk

CPT Changes: An Insider's View 2025

0497U Oncology (prostate), mRNA gene-expression profiling by real-time RT-PCR of 6 genes *(FOXM1, MCM3, MTUS1, TTC21B, ALAS1*, and *PPP2CA)*, utilizing formalin-fixed paraffin-embedded (FFPE) tissue, algorithm reported as a risk score for prostate cancer

CPT Changes: An Insider's View 2025

0498U Oncology (colorectal), next-generation sequencing for mutation detection in 43 genes and methylation pattern in 45 genes, blood, and formalin-fixed paraffin-embedded (FFPE) tissue, report of variants and methylation pattern with interpretation

CPT Changes: An Insider's View 2025

0499U Oncology (colorectal and lung), DNA from formalin-fixed paraffin-embedded (FFPE) tissue, next-generation sequencing of 8 genes *(NRAS, EGFR, CTNNB1, PIK3CA, APC, BRAF, KRAS*, and *TP53)*, mutation detection

CPT Changes: An Insider's View 2025

0500U Autoinflammatory disease (VEXAS syndrome), DNA, *UBA1* gene mutations, targeted variant analysis (M41T, M41V, M41L, c.118-2A>C, c.118-1G>C, c.118-9_118-2del, S56F, S621C)

CPT Changes: An Insider's View 2025

0501U Oncology (colorectal), blood, quantitative measurement of cell-free DNA (cfDNA)

CPT Changes: An Insider's View 2025

0502U Human papillomavirus (HPV), E6/E7 markers for high-risk types (16, 18, 31, 33, 35, 39, 45, 51, 52, 56, 58, 59, 66, and 68), cervical cells, branched-chain capture hybridization, reported as negative or positive for high risk for HPV

CPT Changes: An Insider's View 2025

0503U Neurology (Alzheimer disease), beta amyloid (Aβ40, Aβ42, Aβ42/40 ratio) and tau-protein (pTau217, np-tau217, pTau217/np-tau217 ratio), blood, immunoprecipitation with quantitation by liquid chromatography with tandem mass spectrometry (LC-MS/MS), algorithm score reported as likelihood of positive or negative for amyloid plaques

CPT Changes: An Insider's View 2025

0504U Infectious disease (urinary tract infection), identification of 17 pathologic organisms, urine, real-time PCR, reported as positive or negative for each organism

CPT Changes: An Insider's View 2025

0505U Infectious disease (vaginal infection), identification of 32 pathogenic organisms, swab, real-time PCR, reported as positive or negative for each organism

CPT Changes: An Insider's View 2025

0506U Gastroenterology (Barrett's esophagus), esophageal cells, DNA methylation analysis by next-generation sequencing of at least 89 differentially methylated genomic regions, algorithm reported as likelihood for Barrett's esophagus

CPT Changes: An Insider's View 2025

0507U Oncology (ovarian), DNA, whole-genome sequencing with 5-hydroxymethylcytosine (5hmC) enrichment, using whole blood or plasma, algorithm reported as cancer detected or not detected

CPT Changes: An Insider's View 2025

0508U Transplantation medicine, quantification of donor-derived cell-free DNA using 40 single-nucleotide polymorphisms (SNPs), plasma, and urine, initial evaluation reported as percentage of donor-derived cell-free DNA with risk for active rejection

CPT Changes: An Insider's View 2025

0509U Transplantation medicine, quantification of donor-derived cell-free DNA using up to 12 single-nucleotide polymorphisms (SNPs) previously identified, plasma, reported as percentage of donor-derived cell-free DNA with risk for active rejection

CPT Changes: An Insider's View 2025

CPT Changes: An Insider's View 2025

0510U Oncology (pancreatic cancer), augmentative algorithmic analysis of 16 genes from previously sequenced RNA whole-transcriptome data, reported as probability of predicted molecular subtype

CPT Changes: An Insider's View 2025

0511U Oncology (solid tumor), tumor cell culture in 3D microenvironment, 36 or more drug panel, reported as tumor-response prediction for each drug

CPT Changes: An Insider's View 2025

0512U Oncology (prostate), augmentative algorithmic analysis of digitized whole-slide imaging of histologic features for microsatellite instability (MSI) status, formalin-fixed paraffin-embedded (FFPE) tissue, reported as increased or decreased probability of MSI-high (MSI-H)

CPT Changes: An Insider's View 2025

0513U Oncology (prostate), augmentative algorithmic analysis of digitized whole-slide imaging of histologic features for microsatellite instability (MSI) and homologous recombination deficiency (HRD) status, formalin-fixed paraffin-embedded (FFPE) tissue, reported as increased or decreased probability of each biomarker

CPT Changes: An Insider's View 2025

0514U Gastroenterology (irritable bowel disease [IBD]), immunoassay for quantitative determination of adalimumab (ADL) levels in venous serum in patients undergoing adalimumab therapy, results reported as a numerical value as micrograms per milliliter (μg/mL)

CPT Changes: An Insider's View 2025

0515U Gastroenterology (irritable bowel disease [IBD]), immunoassay for quantitative determination of infliximab (IFX) levels in venous serum in patients undergoing infliximab therapy, results reported as numerical value as micrograms per milliliter (μg/mL)

CPT Changes: An Insider's View 2025

0516U Drug metabolism, whole blood, pharmacogenomic genotyping of 40 genes and *CYP2D6* copy number variant analysis, reported as metabolizer status

CPT Changes: An Insider's View 2025

0517U Therapeutic drug monitoring, 80 or more psychoactive drugs or substances, LC-MS/MS, plasma, qualitative and quantitative therapeutic minimally and maximally effective dose of prescribed and non-prescribed medications

CPT Changes: An Insider's View 2025

0518U Therapeutic drug monitoring, 90 or more pain and mental health drugs or substances, LC-MS/MS, plasma, qualitative and quantitative therapeutic minimally effective range of prescribed and non-prescribed medications

CPT Changes: An Insider's View 2025

0519U Therapeutic drug monitoring, medications specific to pain, depression, and anxiety, LC-MS/MS, plasma, 110 or more drugs or substances, qualitative and quantitative therapeutic minimally effective range of prescribed, non-prescribed, and illicit medications in circulation

CPT Changes: An Insider's View 2025

0520U Therapeutic drug monitoring, 200 or more drugs or substances, LC-MS/MS, plasma, qualitative and quantitative therapeutic minimally effective range of prescribed and non-prescribed medications

CPT Changes: An Insider's View 2025

● **0521U** Rheumatoid factor IgA and IgM, cyclic citrullinated peptide (CCP) antibodies, and scavenger receptor A (SR-A) by immunoassay, blood

CPT Changes: An Insider's View 2026

● **0522U** Carbonic anhydrase VI, parotid specific/secretory protein and salivary protein 1 (SP1), IgG, IgM, and IgA antibodies, chemiluminescence, semiqualitative, blood

CPT Changes: An Insider's View 2026

● **0523U** Oncology (solid tumor), DNA, qualitative, next-generation sequencing (NGS) of single-nucleotide variants (SNV) and insertion/deletions in 22 genes utilizing formalin-fixed paraffin-embedded tissue reported as presence or absence of mutation(s), location of mutation(s), nucleotide change, and amino acid change

CPT Changes: An Insider's View 2026

● **0524U** Obstetrics (preeclampsia), sFlt-1/PlGF ratio, immunoassay, utilizing serum or plasma, reported as a value

CPT Changes: An Insider's View 2026

● **0525U** Oncology, spheroid cell culture, 11-drug panel (carboplatin, docetaxel, doxorubicin, etoposide, gemcitabine, niraparib, olaparib, paclitaxel, rucaparib, topotecan, veliparib) ovarian, fallopian, or peritoneal response prediction for each drug

CPT Changes: An Insider's View 2026

● **0526U** Nephrology (renal transplant), quantification of CXCL10 chemokines, flow cytometry, urine, reported as pg/mL creatinine baseline and monitoring over time

CPT Changes: An Insider's View 2026

● **0527U** Herpes simplex virus (HSV) types 1 and 2 and Varicella zoster virus (VZV), amplified probe technique, each pathogen reported as detected or not detected

➔ *CPT Changes: An Insider's View* 2026

● **0528U** Lower respiratory tract infectious agent detection, 18 bacteria, 8 viruses, and 7 antimicrobial-resistance genes, amplified probe technique, including reverse transcription for RNA targets, each analyte reported as detected or not detected with semiquantitative results for 15 bacteria

➔ *CPT Changes: An Insider's View* 2026

● **0529U** Hematology (venous thromboembolism [VTE]), genome-wide single-nucleotide polymorphism variants, including *F2* and *F5* gene analysis, and Leiden variant, by microarray analysis, saliva, report as risk score for VTE

➔ *CPT Changes: An Insider's View* 2026

● **0530U** Oncology (pan-solid tumor), ctDNA, utilizing plasma, next-generation sequencing (NGS) of 77 genes, 8 fusions, microsatellite instability, and tumor mutation burden, interpretative report for single-nucleotide variants, copy-number alterations, with therapy association

➔ *CPT Changes: An Insider's View* 2026

● **0531U** Infectious disease (acid-fast bacteria and invasive fungi), DNA (673 organisms), next-generation sequencing, plasma

➔ *CPT Changes: An Insider's View* 2026

● **0532U** Rare diseases (constitutional disease/hereditary disorders), rapid whole genome and mitochondrial DNA sequencing for single-nucleotide variants, insertions/deletions, copy number variations, peripheral blood, buffy coat, saliva, buccal or tissue sample, results reported as positive or negative

➔ *CPT Changes: An Insider's View* 2026

● **0533U** Drug metabolism (adverse drug reactions and drug response), genotyping of 16 genes (ie, *ABCG2, CYP2B6, CYP2C9, CYP2C19, CYP2C, CYP2D6, CYP3A5, CYP4F2, DPYD, G6PD, GGCX, NUDT15, SLCO1B1, TPMT, UGT1A1, VKORC1)*, reported as metabolizer status and transporter function

➔ *CPT Changes: An Insider's View* 2026

● **0534U** Oncology (prostate), microRNA, single-nucleotide polymorphisms (SNPs) analysis by RT-PCR of 32 variants, using buccal swab, algorithm reported as a risk score

➔ *CPT Changes: An Insider's View* 2026

● **0535U** Perfluoroalkyl substances (PFAS) (eg, perfluorooctanoic acid, perfluorooctane sulfonic acid), by liquid chromatography with tandem mass spectrometry (LC-MS/MS), plasma or serum, quantitative

➔ *CPT Changes: An Insider's View* 2026

● **0536U** Red blood cell antigen (fetal RhD), PCR analysis of exon 4 of *RHD* gene and housekeeping control gene *GAPDH* from whole blood in pregnant individuals at 10+ weeks gestation known to be RhD negative, reported as fetal RhD status

➔ *CPT Changes: An Insider's View* 2026

● **0537U** Oncology (colorectal cancer), analysis of cell-free DNA for epigenomic patterns, next-generation sequencing, >2,500 differentially methylated regions (DMRs), plasma, algorithm reported as positive or negative

➔ *CPT Changes: An Insider's View* 2026

● **0538U** Oncology (solid tumor), next-generation targeted sequencing analysis, formalin-fixed paraffin-embedded (FFPE) tumor tissue, DNA analysis of 600 genes, interrogation for single-nucleotide variants, insertions/deletions, gene rearrangements, and copy number alterations, microsatellite instability, tumor mutation burden, reported as actionable variant

➔ *CPT Changes: An Insider's View* 2026

● **0539U** Oncology (solid tumor), cell-free circulating tumor DNA (ctDNA), 152 genes, next-generation sequencing, interrogation for single-nucleotide variants, insertions/deletions, gene rearrangements, copy number alterations, and microsatellite instability, using whole-blood samples, mutations with clinical actionability reported as actionable variant

➔ *CPT Changes: An Insider's View* 2026

● **0540U** Transplantation medicine, quantification of donor-derived cell-free DNA using next-generation sequencing analysis of plasma, reported as percentage of donor-derived cell-free DNA to determine probability of rejection

➔ *CPT Changes: An Insider's View* 2026

● **0541U** Cardiovascular disease (HDL reverse cholesterol transport), cholesterol efflux capacity, LC-MS/MS, quantitative measurement of 5 distinct HDL-bound apolipoproteins (apolipoproteins A1, C1, C2, C3, and C4), serum, algorithm reported as prediction of coronary artery disease (pCAD) score

➔ *CPT Changes: An Insider's View* 2026

● **0542U** Nephrology (renal transplant), urine, nuclear magnetic resonance (NMR) spectroscopy measurement of 84 urinary metabolites, combined with patient data, quantification of BK virus (human polyomavirus 1) using real-time PCR and serum creatinine, algorithm reported as a probability score for allograft injury status

➔ *CPT Changes: An Insider's View* 2026

● **0543U** Oncology (solid tumor), next-generation sequencing of DNA from formalin-fixed paraffin-embedded (FFPE) tissue of 517 genes, interrogation for single-nucleotide variants, multi-nucleotide variants, insertions and deletions from DNA, fusions in 24 genes and splice variants in 1 gene from RNA, and tumor mutation burden

➔ *CPT Changes: An Insider's View* 2026

● **0544U** Nephrology (transplant monitoring), 48 variants by digital PCR, using cell-free DNA from plasma, donor-derived cell-free DNA, percentage reported as risk for rejection

➔ *CPT Changes: An Insider's View* 2026

● **0545U** Acetylcholine receptor (AChR), antibody identification by immunofluorescence, using live cells, reported as positive or negative

➔ *CPT Changes: An Insider's View* 2026

● **0546U** Low-density lipoprotein receptor-related protein 4 (LRP4), antibody identification by immunofluorescence, using live cells, reported as positive or negative

➔ *CPT Changes: An Insider's View* 2026

● **0547U** Neurofilament light chain (NfL), chemiluminescent enzyme immunoassay, plasma, quantitative

➔ *CPT Changes: An Insider's View* 2026

● **0548U** Glial fibrillary acidic protein (GFAP), chemiluminescent enzyme immunoassay, using plasma

➔ *CPT Changes: An Insider's View* 2026

● **0549U** Oncology (urothelial), DNA, quantitative methylated real-time PCR of TRNA-Cys, SIM2, and NKX1-1, using urine, diagnostic algorithm reported as a probability index for bladder cancer and/or upper tract urothelial carcinoma (UTUC)

➔ *CPT Changes: An Insider's View* 2026

● **0550U** Oncology (prostate), enzyme-linked immunosorbent assays (ELISA) for total prostate-specific antigen (PSA) and free PSA, serum, combined with age, previous negative prostate biopsy status, digital rectal examination findings, prostate volume, and image and data reporting of the prostate, algorithm reported as a risk score for the presence of high-grade prostate cancer

➔ *CPT Changes: An Insider's View* 2026

● **0551U** Tau, phosphorylated, pTau217, by single-molecule array (ultrasensitive digital protein detection), using plasma

➔ *CPT Changes: An Insider's View* 2026

● **0552U** Reproductive medicine (preimplantation genetic assessment), analysis for known genetic disorders from trophectoderm biopsy, linkage analysis of disease-causing locus, and when possible, targeted mutation analysis for known familial variant, reported as low-risk or high-risk for familial genetic disorder

➔ *CPT Changes: An Insider's View* 2026

● **0553U** Reproductive medicine (preimplantation genetic assessment), analysis of 24 chromosomes using DNA genomic sequence analysis from embryonic trophectoderm for structural rearrangements, aneuploidy, and a mitochondrial DNA score, results reported as normal/balanced (euploidy/balanced), unbalanced structural rearrangement, monosomy, trisomy, segmental aneuploidy, or mosaic, per embryo tested

➔ *CPT Changes: An Insider's View* 2026

● **0554U** Reproductive medicine (preimplantation genetic assessment), analysis of 24 chromosomes using DNA genomic sequence analysis from trophectoderm biopsy for aneuploidy, ploidy, a mitochondrial DNA score, and embryo quality control, results reported as normal (euploidy), monosomy, trisomy, segmental aneuploidy, triploid, haploid, or mosaic, with quality control results reported as contamination detected or inconsistent cohort when applicable, per embryo tested

➔ *CPT Changes: An Insider's View* 2026

● **0555U** Reproductive medicine (preimplantation genetic assessment), analysis of 24 chromosomes using DNA genomic sequence analysis from embryonic trophectoderm for structural rearrangements, aneuploidy, ploidy, a mitochondrial DNA score, and embryo quality control, results reported as normal/balanced (euploidy/balanced), unbalanced structural rearrangement, monosomy, trisomy, segmental aneuploidy, triploid, haploid, or mosaic, with quality control results reported as contamination detected or inconsistent cohort when applicable, per embryo tested

➔ *CPT Changes: An Insider's View* 2026

● **0556U** Infectious disease (bacterial or viral respiratory tract infection), pathogen-specific DNA and RNA by real-time PCR, 12 targets, nasopharyngeal or oropharyngeal swab, including multiplex reverse transcription for RNA targets, each analyte reported as detected or not detected

➔ *CPT Changes: An Insider's View* 2026

● **0557U** Infectious disease (bacterial vaginosis and vaginitis), real-time amplification of DNA markers for Atopobium vaginae, Gardnerella vaginalis, Megasphaera types 1 and 2, bacterial vaginosis associated bacteria-2 and -3 (BVAB-2, BVAB-3), Mobiluncus species, Trichomonas vaginalis, Neisseria gonorrhoeae, Candida species (C. albicans, C. tropicalis, C. parapsilosis, C. glabrata, C. krusei), Herpes simplex viruses 1 and 2, vaginal fluid, reported as detected or not detected for each organism

➔ *CPT Changes: An Insider's View* 2026

● **0558U** Oncology (colorectal), quantitative enzyme-linked immunosorbent assay (ELISA) for secreted colorectal cancer protein marker (BF7 antigen), using serum, result reported as indicative of response/no response to therapy or disease progression/regression

➔ *CPT Changes: An Insider's View* 2026

● **0559U** Oncology (breast), quantitative enzyme-linked immunosorbent assay (ELISA) for secreted breast cancer protein marker (BF9 antigen), serum, result reported as indicative of response/no response to therapy or disease progression/regression

➔ *CPT Changes: An Insider's View* 2026

● **0560U** Oncology (minimal residual disease [MRD]), genomic sequence analysis, cell-free DNA, whole blood and tumor tissue, baseline assessment for design and construction of a personalized variant panel to evaluate current MRD and for comparison to subsequent MRD assessments

➔ *CPT Changes: An Insider's View* 2026

● **0561U** Oncology (minimal residual disease [MRD]), genomic sequence analysis, cell-free DNA, whole blood, subsequent assessment with comparison to initial assessment to evaluate for MRD

➔ *CPT Changes: An Insider's View* 2026

● **0562U** Oncology (solid tumor), targeted genomic sequence analysis, 33 genes, detection of single-nucleotide variants (SNVs), insertions and deletions, copy-number amplifications, and translocations in human genomic circulating cell-free DNA, plasma, reported as presence of actionable variants

➔ *CPT Changes: An Insider's View* 2026

● **0563U** Infectious disease (bacterial and/or viral respiratory tract infection), pathogen-specific nucleic acid (DNA or RNA), 11 viral targets and 4 bacterial targets, qualitative RT-PCR, upper respiratory specimen, each pathogen reported as positive or negative

➔ *CPT Changes: An Insider's View* 2026

● **0564U** Infectious disease (bacterial and/or viral respiratory tract infection), pathogen-specific nucleic acid (DNA or RNA), 10 viral targets and 4 bacterial targets, qualitative RT-PCR, upper respiratory specimen, each pathogen reported as positive or negative

➔ *CPT Changes: An Insider's View* 2026

● **0565U** Oncology (hepatocellular carcinoma), next-generation sequencing methylation pattern assay to detect 6,626 epigenetic alterations, cell-free DNA, plasma, algorithm reported as cancer signal detected or not detected

➔ *CPT Changes: An Insider's View* 2026

● **0566U** Oncology (lung), qPCR-based analysis of 13 differentially methylated regions *(CCDC181, HOXA7, LRRC8A, MARCHF11, MIR129-2, NCOR2, PANTR1, PRKCB, SLC9A3, TBR1_2, TRAP1, VWC2, ZNF781)*, pleural fluid, algorithm reported as a qualitative result

➔ *CPT Changes: An Insider's View* 2026

● **0567U** Rare diseases (constitutional/heritable disorders), whole-genome sequence analysis combination of short and long reads, for single-nucleotide variants, insertions/deletions and characterized intronic variants, copy-number variants, duplications/deletions, mobile element insertions, runs of homozygosity, aneuploidy, and inversions, mitochondrial DNA sequence and deletions, short tandem repeat genes, methylation status of selected regions, blood, saliva, amniocentesis, chorionic villus sample or tissue, identification and categorization of genetic variants

➔ *CPT Changes: An Insider's View* 2026

● **0568U** Neurology (dementia), beta amyloid (Aβ40, Aβ42, Aβ42/40 ratio), tau-protein phosphorylated at residue (eg, pTau217), neurofilament light chain (NfL), and glial fibrillary acidic protein (GFAP), by ultra-high sensitivity molecule array detection, plasma, algorithm reported as positive, intermediate, or negative for Alzheimer pathology

➔ *CPT Changes: An Insider's View* 2026

● **0569U** Oncology (solid tumor), next-generation sequencing analysis of tumor methylation markers (>20,000 differentially methylated regions) present in cell-free circulating tumor DNA (ctDNA), whole blood, algorithm reported as presence or absence of ctDNA with tumor fraction, if appropriate

➔ *CPT Changes: An Insider's View* 2026

● **0570U** Neurology (traumatic brain injury), analysis of glial fibrillary acidic protein (GFAP) and ubiquitin carboxyl-terminal hydrolase L1 (UCH-L1), immunoassay, whole blood or plasma, individual components reported with the overall result of elevated or non-elevated based on threshold comparison

➔ *CPT Changes: An Insider's View* 2026

● **0571U** Oncology (solid tumor), DNA (80 genes) and RNA (10 genes), by next-generation sequencing, plasma, including single-nucleotide variants, insertions/deletions, copy-number alterations, microsatellite instability, and fusions, reported as clinically actionable variants

➔ *CPT Changes: An Insider's View* 2026

● **0572U** Oncology (prostate), high-throughput telomere length quantification by FISH, whole blood, diagnostic algorithm reported as risk of prostate cancer

➔ *CPT Changes: An Insider's View* 2026

● **0573U** Oncology (pancreas), 3 biomarkers (glucose, carcinoembryonic antigen, and gastricsin), pancreatic cyst lesion fluid, algorithm reported as categorical mucinous or non-mucinous

➔ *CPT Changes: An Insider's View* 2026

● **0574U** Mycobacterium tuberculosis, culture filtrate protein–10-kDa (CFP-10), serum or plasma, liquid chromatography mass spectrometry (LC-MS)

➔ *CPT Changes: An Insider's View* 2026

● **0575U** Transplantation medicine (liver allograft rejection), miRNA gene expression profiling by RT-PCR of 4 genes *(miR-122, miR-885, miR-23a* housekeeping, spike-in control), serum, algorithm reported as risk of liver allograft rejection

➔ *CPT Changes: An Insider's View* 2026

● **0576U** Transplantation medicine (liver allograft rejection), quantitative donor-derived cell-free DNA (cfDNA) by whole genome next-generation sequencing, plasma and mRNA gene expression profiling by multiplex real-time PCR of 56 genes, whole blood, combined algorithm reported as a rejection risk score

➔ *CPT Changes: An Insider's View* 2026

● **0577U** Oncology (ovarian), serum, analysis of 39 glycoproteins by liquid chromatography with tandem mass spectrometry (LC-MS/MS) in multiple reaction monitoring mode, reported as likelihood of malignancy

➔ *CPT Changes: An Insider's View* 2026

● **0578U** Oncology (cutaneous melanoma), RNA, gene expression profiling by real-time qPCR of 10 genes (8 content and 2 housekeeping), utilizing formalin-fixed paraffin-embedded (FFPE) tissue, algorithm reports a binary result, either low-risk or high-risk for sentinel lymph node metastasis and recurrence

➔ *CPT Changes: An Insider's View* 2026

● **0579U** Nephrology (diabetic chronic kidney disease), enzyme-linked immunosorbent assay (ELISA) of apolipoprotein A4 (APOA4), CD5 antigen-like (CD5L) combined with estimated glomerular filtration rate (GFR), age, plasma, algorithm reported as a risk score for kidney function decline

➔ *CPT Changes: An Insider's View* 2026

● **0580U** Borrelia burgdorferi, antibody detection of 24 recombinant protein groups, by immunoassay, IgG

➔ *CPT Changes: An Insider's View* 2026

● **0581U** Transplantation medicine, antibody to non-human leukocyte antigens (non-HLA), blood specimen, flow cytometry, single-antigen bead technology, 39 targets, individual positive antibodies reported

➔ *CPT Changes: An Insider's View* 2026

● **0582U** Rare diseases (constitutional disease/hereditary disorders), rapid whole genome DNA sequencing for single-nucleotide variants, insertions/deletions, copy number variations, blood, saliva, tissue sample, variants reported

➔ *CPT Changes: An Insider's View* 2026

+ ● **0583U** Rare diseases (constitutional disease/hereditary disorders), rapid whole genome comparator DNA sequencing for single-nucleotide variants, insertions/deletions, copy number variations, blood, saliva, tissue sample, variants reported with proband results (List separately in addition to code for primary procedure)

➔ *CPT Changes: An Insider's View* 2026

►(Use 0583U in conjunction with 0582U)◄

⌘ ● **0584U** Neurology (prion disease), cerebrospinal fluid, detection of prion protein by quaking-induced conformational conversion, qualitative

➔ *CPT Changes: An Insider's View* 2026

►(For additional PLA code with identical clinical descriptor, see 0035U. See Appendix O or the most current listing on the AMA CPT website to determine appropriate code assignment)◄

● **0585U** Targeted genomic sequence analysis panel, solid organ neoplasm, circulating cell-free DNA (cfDNA) analysis from plasma of 521 genes, interrogation for sequence variants, gene copy number amplifications, gene rearrangements, and microsatellite instability, report shows identified mutations, including variants with clinical actionability

➔ *CPT Changes: An Insider's View* 2026

● **0586U** Oncology, mRNA, gene expression profiling of 216 genes (204 targeted and 12 housekeeping genes), RNA expression analysis, formalin-fixed paraffin-embedded (FFPE) tissue, quantitative, reported as log2 ratio per gene

➔ *CPT Changes: An Insider's View* 2026

● **0587U** Therapeutic drug monitoring, 60-150 drugs and metabolites, urine, saliva, quantitative liquid chromatography with tandem mass spectrometry (LC-MS/MS), specimen validity, and algorithmic analyses for presence or absence of drug or metabolite, risk score predicted for adverse drug effects

➔ *CPT Changes: An Insider's View* 2026

● **0588U** Infectious disease (bacterial or viral), 32 genes (29 informative and 3 housekeeping), immune response mRNA, gene expression profiling by split-well multiplex reverse transcription loop-mediated isothermal amplification (RT-LAMP), whole blood, reported as continuous risk scores for likelihood of bacterial and viral infection and likelihood of severe illness within the next 7 days

➔ *CPT Changes: An Insider's View* 2026

● **0589U** Perfluoroalkyl substances (PFAS) (eg, perfluorooctanoic acid, perfluorooctane sulfonic acid), 24 PFAS compounds by high-performance liquid chromatography with tandem mass spectrometry (LC-MS/MS), plasma or serum, quantitative

➔ *CPT Changes: An Insider's View* 2026

● **0590U** Infectious disease (bacterial and fungal), DNA of 44 organisms (34 bacteria, 10 fungi), urine, next-generation sequencing, reported as positive or negative for each organism

➔ *CPT Changes: An Insider's View* 2026

● **0591U** Oncology (prostate cancer), biochemical analysis of 3 proteins (total PSA, free PSA, and HE4), plasma, serum, prognostic algorithm incorporating 3 proteins and digital rectal examination, results reported as a probability score for clinically significant prostate cancer

➔ *CPT Changes: An Insider's View* 2026

● **0592U** Oncology (hematolymphoid neoplasms), DNA, targeted genomic sequence of 417 genes, interrogation for gene fusions, translocations, rearrangements, utilizing formalin-fixed paraffin-embedded (FFPE) tumor tissue, results report clinically significant variant(s)

➔ *CPT Changes: An Insider's View* 2026

● **0593U** Infectious disease (genitourinary pathogens), DNA, 46 targets (28 pathogens, 18 resistance genes), RT-PCR amplified probe technique, urine, each analyte reported as detected or not detected

➔ *CPT Changes: An Insider's View* 2026

● **0594U** Infectious disease (sepsis), semiquantitative measurement of pancreatic stone protein concentration, whole blood, reported as risk of sepsis

➔ *CPT Changes: An Insider's View* 2026

● **0595U** Infectious disease (tropical fever pathogens), vector-borne and zoonotic pathogens, including 2 viruses (Chikungunya virus and Dengue virus serotypes 1, 2, 3, and 4), 1 bacterium (Leptospira species), and 1 parasite with species differentiation (Plasmodium species, Plasmodium falciparum, and Plasmodium vivax/ovale), real-time RT-PCR, whole blood, each pathogen reported as detected or not detected

➔ *CPT Changes: An Insider's View* 2026

● **0596U** Neurology (Alzheimer disease), plasma, 3 distinct isoform-specific peptides (APOE2, APOE3, and APOE4) by liquid chromatography with tandem mass spectrometry (LC-MS/MS), reported as an APOE prototype

➔ *CPT Changes: An Insider's View* 2026

● **0597U** Oncology (breast), RNA expression profiling of 329 genes by targeted next-generation sequencing and 20 proteins by multiplex immunofluorescence, formalin-fixed paraffin-embedded (FFPE) tissue, algorithmic analyses to determine tumor-recurrence risk score

➔ *CPT Changes: An Insider's View* 2026

● **0598U** Gastroenterology (irritable bowel syndrome), IgG antibodies to 18 food items by microarray-based immunoassay, whole blood or serum, report as elevated (positive) or normal (negative) antibody levels

➔ *CPT Changes: An Insider's View* 2026

● **0599U** Oncology (pancreatic cancer), multiplex immunoassay of ICAM1, TIMP1, CTSD, THBS1, and CA 19-9, serum, diagnostic algorithm reported as positive or negative

➔ *CPT Changes: An Insider's View* 2026

Medicine

The following is a listing of headings and subheadings that appear within the Medicine section of the CPT codebook. The subheadings or subsections denoted with asterisks (*) below have special instructions unique to that subsection. Where these are indicated, special notes or guidelines will be presented preceding those procedural terminology listings, referring to that subsection specifically. Note that all code ranges in each subsection are listed as they appear in the subsection, even if the code numbers are out of numerical sequence and/or repeated in the next subsection.

Immune Globulins, Serum or Recombinant Products* (90281-90399)

Immunization Administration for Vaccines/Toxoids* (90460-90484)

Vaccines, Toxoids* (91304-90749)

Psychiatry* (90785-90899)

Interactive Complexity* (90785)

Psychiatric Diagnostic Procedures* (90791-90899)

- Psychotherapy* (90832-90838)
- Psychotherapy for Crisis* (90839-90840)
- Other Psychotherapy (90845-90853)
- Other Psychiatric Services or Procedures (90863-90899)

Biofeedback (90901-90913)

Dialysis (90935-90999)

Hemodialysis* (90935-90940)

Miscellaneous Dialysis Procedures* (90945-90947)

End-Stage Renal Disease Services* (90951-90970)

Other Dialysis Procedures (90989-90999)

Gastroenterology (91010-91299)

Gastric Physiology (91132-91133)

Other Procedures (91200-91299)

Ophthalmology* (92002-92499)

- General Ophthalmological Services (92002-92014)
  - New Patient (92002-92004)
  - Established Patient (92012-92014)
- Special Ophthalmological Services (92015-92287)
  - Ophthalmoscopy* (92201-92260)
  - Other Specialized Services* (92265-92287)
- Contact Lens Services* (92310-92326)
- Spectacle Services (Including Prosthesis for Aphakia)* (92340-92499)
  - Other Procedures (92499)
- Special Otorhinolaryngologic Services* (92502-92700)
- Vestibular Function Tests, Without Electrical Recording (92531-92534)
- Vestibular Function Tests, With Recording (eg, ENG) (92537-92519)
- Audiologic Function Tests* (92550-92596)
- Evaluative and Therapeutic Services* (92601-92633)
- Special Diagnostic Procedures (92640)
- Other Procedures (92700)
- Cardiovascular (92950-93799)
- Therapeutic Services and Procedures (92950-92979)
  - Other Therapeutic Services and Procedures (92950-92998)
  - Coronary Therapeutic Services and Procedures* (92920-92979)
- Cardiography* (93000-93050)
- Cardiovascular Monitoring Services* (93224-93278)
- Implantable, Insertable, and Wearable Cardiac Device Evaluations* (93264-93146)
  - ►Implantable Cardiovascular Autonomic Nervous System Device Evaluation*◄ (93145-93146)
- Phrenic Nerve Stimulation System* (93150-93153)
- Echocardiography* (93303-93355)
- Cardiac Catheterization* (93451-93598)
  - Repair of Structural Heart Defect (93580-93592)
    - Transcatheter Closure of Paravalvular Leak* (93590-93592)
  - Cardiac Catheterization for Congenital Heart Defects* (93593-93598)
- Intracardiac Electrophysiological Procedures/Studies* (93600-93662)
- Peripheral Arterial Disease Rehabilitation* (93668)
- Noninvasive Physiologic Studies and Procedures (93701-93790)
- Home and Outpatient International Normalized Ratio (INR) Monitoring Services* (93792-93793)
- Other Procedures (93797-93799)

Noninvasive Vascular Diagnostic Studies* (93880-93998)

Cerebrovascular Arterial Studies* (93880-93895)

Extremity Arterial Studies (Including Digits) (93922-93931)

Extremity Venous Studies (Including Digits) (93970-93971)

Visceral and Penile Vascular Studies (93975-93981)

Extremity Arterial-Venous Studies* (93985-93990)

Other Noninvasive Vascular Diagnostic Studies (93998)

Pulmonary (94002-94799)

Ventilator Management (94002-94005)

Pulmonary Diagnostic Testing, Rehabilitation, and Therapies* (94010-94799)

Allergy and Clinical Immunology* (95004-95199)

Allergy Testing (95004-95070)

Ingestion Challenge Testing* (95076-95079)

Allergen Immunotherapy* (95115-95199)

Endocrinology* (95250-95251)

Neurology and Neuromuscular Procedures* (95803-96020)

Sleep Medicine Testing* (95803-95783)

Routine Electroencephalography (EEG)* (95812-95830)

Electrocorticography* (95829-95836)

Range of Motion Testing (95851-95857)

Electromyography* (95860-95887)

Ischemic Muscle Testing and Guidance for Chemodenervation (95873-95875)

Nerve Conduction Tests* (95905-95913)

Intraoperative Neurophysiology* (95940-95941)

Autonomic Function Tests* (95919-95924)

Evoked Potentials and Reflex Tests (95925-95937)

Special EEG Tests* (95954-95726)

- Long-term EEG Setup (95700)
- Monitoring (95705-95726)

Home Infusion Procedures/Services (99601-99602)
Medication Therapy Management Services* (99605-99607)

Medicine Guidelines

In addition to the definitions and commonly used terms presented in the **Introduction**, several other items unique to this section on **Medicine** are defined or identified here.

Add-on Codes

Some of the listed procedures are commonly carried out in addition to the primary procedure performed. All add-on codes found in the CPT codebook are exempt from the multiple procedure concept. They are exempt from the use of modifier 51, as these procedures are not reported as stand-alone codes. These additional or supplemental procedures are designated as "add-on" codes. Add-on codes in the CPT codebook can be readily identified by specific descriptor nomenclature which includes phrases such as "each additional" or "(List separately in addition to primary procedure)."

Separate Procedures

Some of the procedures or services listed in the CPT codebook that are commonly carried out as an integral component of a total service or procedure have been identified by the inclusion of the term "separate procedure." The codes designated as "separate procedure" should not be reported in addition to the code for the total procedure or service of which it is considered an integral component.

However, when a procedure or service that is designated as a "separate procedure" is carried out independently or considered to be unrelated or distinct from other procedures/services provided at that time, it may be reported by itself, or in addition to other procedures/services by appending modifier 59 to the specific "separate procedure" code to indicate that the procedure is not considered to be a component of another procedure, but is a distinct, independent procedure. This may represent a different session or patient encounter, different procedure or surgery, different site or organ system, separate incision/excision, separate lesion, or separate injury (or area of injury in extensive injuries).

Unlisted Service or Procedure

A service or procedure may be provided that is not listed in this edition of the CPT codebook. When reporting such a service, the appropriate "Unlisted Procedure" code may be used to indicate the service, identifying it by "Special Report" as discussed on the following page. The "Unlisted Procedures" and accompanying codes for **Medicine** are as follows:

90399 Unlisted immune globulin
90749 Unlisted vaccine/toxoid
90899 Unlisted psychiatric service or procedure
90999 Unlisted dialysis procedure, inpatient or outpatient
91299 Unlisted diagnostic gastroenterology procedure
92499 Unlisted ophthalmological service or procedure
92700 Unlisted otorhinolaryngological service or procedure
93799 Unlisted cardiovascular service or procedure
93998 Unlisted noninvasive vascular diagnostic study
94799 Unlisted pulmonary service or procedure
95199 Unlisted allergy/clinical immunologic service or procedure
95999 Unlisted neurological or neuromuscular diagnostic procedure
96379 Unlisted therapeutic, prophylactic, or diagnostic intravenous or intra-arterial injection or infusion
96549 Unlisted chemotherapy procedure
96999 Unlisted special dermatological service or procedure
97039 Unlisted modality (specify type and time if constant attendance)
97139 Unlisted therapeutic procedure (specify)
97799 Unlisted physical medicine/rehabilitation service or procedure
99199 Unlisted special service, procedure or report
99600 Unlisted home visit service or procedure

Special Report

A service that is rarely provided, unusual, variable, or new may require a special report. Pertinent information should include an adequate definition or description of the nature, extent, and need for the procedure; and the time, effort, and equipment necessary to provide the service.

Imaging Guidance

When imaging guidance or imaging supervision and interpretation is included in a procedure, guidelines for image documentation and report, included in the guidelines for Radiology (including Nuclear Medicine and Diagnostic Ultrasound) will apply. Imaging guidance should not be reported for use of a non-imaging guided tracking or localizing system (eg, radar signals, electromagnetic signals). Imaging guidance should only be reported when an imaging modality (eg, radiography, fluoroscopy, ultrasonography, magnetic resonance imaging, computed tomography, or nuclear medicine) is used and is appropriately documented.

Supplied Materials

Supplies and materials (eg, trays, drug supplies, and materials) over and above those usually included with the procedure(s) rendered are reported separately using code 99070 or a specific supply code.

Foreign Body/Implant Definition

An object intentionally placed by a physician or other qualified health care professional for any purpose (eg, diagnostic or therapeutic) is considered an implant. An object that is unintentionally placed (eg, trauma or ingestion) is considered a foreign body. If an implant (or part thereof) has moved from its original position or is structurally broken and no longer serves its intended purpose or presents a hazard to the patient, it qualifies as a foreign body for coding purposes, unless CPT coding instructions direct otherwise or a specific CPT code exists to describe the removal of that broken/moved implant.

Medicine

Immune Globulins, Serum or Recombinant Products

Codes 90281-90399 identify the serum globulins, extracted from human blood; or recombinant immune globulin products created in a laboratory through genetic modification of human and/or animal proteins. Both are reported in addition to the administration codes 96365, 96366, 96367, 96368, 96369, 96370, 96371, 96372, 96374, 96375, as appropriate. Modifier 51 should not be reported with this section of products codes when performed with another procedure. The serum or recombinant globulin products listed here include broad-spectrum anti-infective immune globulins, antitoxins, various isoantibodies, and monoclonal antibodies. See the Introduction section of the CPT code set for a complete list of the dates of release and implementation.

To assist users in reporting the most recent new or revised immune globulin product codes, the American Medical Association (AMA) currently uses the CPT website (ama-assn.org/cpt-cat-i-immunization-codes) to feature updates from the CPT Editorial Panel actions regarding these products. See the Introduction section of the CPT code set for a complete list of the dates of release and implementation.

In recognition of public health interest in immune globulin products, the CPT Editorial Panel has chosen to publish new immune globulin product codes prior to approval by the US Food and Drug Administration (FDA). These codes are indicated with the ✓ symbol and will be tracked by the AMA to monitor FDA approval status. Once the FDA status changes to approved, the ✓ symbol will be removed. CPT code users should refer to the AMA CPT website (ama-assn.org/cpt-cat-i-immunization-codes) for the most up-to-date information on codes with the ✓ symbol.

90281 Immune globulin (Ig), human, for intramuscular use
- *CPT Changes: An Insider's View* 2008
- *CPT Assistant* Nov 98:30, Jan 99:3, Sep 99:10

90283 Immune globulin (IgIV), human, for intravenous use
- *CPT Changes: An Insider's View* 2008

Immunization Administration for Vaccines/Toxoids

►Report vaccine immunization administration codes (90460, 90461, 90471-90474, 90480, 90481) in addition to the vaccine and toxoid code(s) (90476-90759, 91304, 91318, 91319, 91320, 91321, 91322, 91323).◄

Report codes 90460 and 90461 only when the physician or other qualified health care professional provides face-to-face counseling of the patient/family during the administration of a vaccine other than when performed for severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]) vaccines. For immunization administration of any vaccine, other than SARS-CoV-2 (coronavirus disease [COVID-19]) vaccines, that is not accompanied by face-to-face physician or other qualified health care professional counseling to the patient/family/guardian or for administration of vaccines to patients over 18 years of age, report codes 90471-90474. (See also **Instructions for Use of the CPT Codebook** for definition of reporting qualifications.)

►Report 90480, 90481 for immunization administration only if the vaccine includes a SARS-CoV-2 (coronavirus disease [COVID-19]) component. These codes are used for administration and counseling that involves the use of COVID-19 vaccines for immunization against contracting disease. This includes administration of COVID-19 vaccine for all age populations. For administration of additional vaccine(s) or toxoid component(s) combined with COVID-19 vaccine for patients 18 years of age or younger with counseling by the physician or other qualified health care professional for the additional vaccine or toxoid component, use 90461.

For physician or other qualified health care professional immunization counseling of three minutes or greater when the immunization is not administered on the same date, see 90482, 90483, 90484.

If more than one immunization is recommended and the patient/family/caregiver accepts one or more immunization(s) and declines one or more immunization(s), use 90460, 90461, 90471, 90472, 90473, 90474, 90480, 90481, 96380, 96381 as indicated for immunization administration, and see 90482, 90483, 90484 for immunization counseling for those immunization(s) for which administration did not occur on the same date that counseling was provided.◄

If a significant separately identifiable evaluation and management service (eg, new or established patient office or other outpatient services [99202-99215], office or other outpatient consultations [99242, 99243, 99244, 99245], emergency department services [99281-99285], preventive medicine services [99381-99429]) is performed, the appropriate E/M service code should be reported in addition to the vaccine and toxoid administration codes.

A component refers to all antigens in a vaccine that prevent disease(s) caused by one organism (90460 and 90461). Multi-valent antigens or multiple serotypes of antigens against a single organism are considered a single component of vaccines. Combination vaccines are those vaccines that contain multiple vaccine components. Conjugates or adjuvants contained in vaccines are not considered to be component parts of the vaccine as defined above.

For immune globulins and monoclonal antibodies immunizations, see 90281-90399. For administration of immune globulins and monoclonal antibodies immunizations, see 96365, 96366, 96367, 96368, 96369, 96370, 96371, 96372, 96374, 96375, 96380, 96381.

(For allergy testing, see 95004 et seq)

(For skin testing of bacterial, viral, fungal extracts, see 86485-86580)

(For therapeutic or diagnostic injections, see 96372-96379)

90460 Immunization administration through 18 years of age via any route of administration, with counseling by physician or other qualified health care professional; first or only component of each vaccine or toxoid administered

- *CPT Changes: An Insider's View* 2011, 2012
- *CPT Assistant* Mar 11:3, Jun 11:14, Jan 12:43, Jul 12:7, Aug 13:10, Mar 14:10, Apr 15:9, 11, May 15:6, Oct 16:7, Nov 18:7, Jan 20:11, Jun 21:10, Dec 21:20, Jan 23:1, May 23:22, Jul 23:1, Nov 24:15

+ 90461 each additional vaccine or toxoid component administered (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2011, 2012
- *CPT Assistant* Mar 11:3, Jun 11:14, Jan 12:43, Jul 12:7, Aug 13:10, Mar 14:10, Apr 15:4, May 15:6, Oct 16:7, Nov 18:7, Jan 23:1, Feb 23:1, May 23:22, Feb 24:1, Nov 24:15

(Use 90460 for each vaccine administered. For vaccines with multiple components [combination vaccines], report 90460 in conjunction with 90461 for each additional component in a given vaccine)

►(Do not report 90460, 90461 in conjunction with 91304, 91318, 91319, 91320, 91321, 91322, 91323, unless both a severe acute respiratory syndrome coronavirus 2 [SARS-CoV-2] [coronavirus disease {COVID-19}] vaccine/toxoid product and at least one vaccine/toxoid product from 90476-90759 are administered at the same encounter)◄

►(For administration of additional vaccine[s] or toxoid[s] component combined with COVID-19 vaccine for patients 18 years of age or younger with counseling by the physician or other qualified health care professional for the additional vaccine or toxoid component, use 90461)◄

►(For physician or other qualified health care professional immunization counseling of 3 minutes or greater when one or more immunizations are not administered on the same date, see 90482, 90483, 90484)◄

90471 Immunization administration (includes percutaneous, intradermal, subcutaneous, or intramuscular injections); 1 vaccine (single or combination vaccine/toxoid)

▲ **90480** Immunization administration by intramuscular injection, severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]) vaccine; first or only component of each vaccine administered

CPT Changes: An Insider's View 2025, 2026
CPT Assistant Jan 24:15, Mar 24:29

►(Report 90480 for the administration of vaccine 91304, 91318, 91319, 91320, 91321, 91322, 91323)◄

►(Do not report 90480 in conjunction with 90476-90759, unless both a severe acute respiratory syndrome coronavirus 2 [SARS-CoV-2] [coronavirus disease {COVID-19}] vaccine product and at least one vaccine/toxoid product from 90476-90759 are administered at the same encounter)◄

►(For physician or other qualified health care professional immunization counseling of 3 minutes or greater when one or more immunizations are not administered on the same date, see 90482, 90483, 90484)◄

+● **90481** each additional component administered (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2026

►(Use 90481 in conjunction with 90480)◄

►(Report 90481 for immunization administration for all patients greater than 18 years of age and patients 18 years of age or younger without counseling by the physician or other qualified health care professional for the additional vaccine or toxoid component)◄

★◂● **90482** Immunization counseling by physician or other qualified health care professional when immunization(s) is not administered by provider on the same date of service; 3 minutes up to 10 minutes

CPT Changes: An Insider's View 2026

★◂● **90483** greater than 10 minutes up to 20 minutes

CPT Changes: An Insider's View 2026

★◂● **90484** greater than 20 minutes

CPT Changes: An Insider's View 2026

►(When reporting 90482, 90483, 90484, do not count time spent on counseling for immunizations that were administered on the same date of service)◄

►(When reporting 90482, 90483, 90484, do not include service time reported with 90460, 90461, 90471, 90472, 90473, 90474, 90480, 90481, 96380, 96381)◄

►(Report 90482, 90483, 90484 once per date of service for cumulative counseling time for immunization[s] not provided, regardless of the number of products)◄

Vaccines, Toxoids

To assist users to report the most recent new or revised vaccine product codes, the American Medical Association (AMA) currently uses the CPT website (ama-assn.org/cpt-cat-i-immunization-codes), which features updates of CPT Editorial Panel actions regarding these products. See the Introduction section of the CPT code set for a complete list of the dates of release and implementation.

The CPT Editorial Panel, in recognition of the public health interest in vaccine products, has chosen to publish new vaccine product codes prior to approval by the US Food and Drug Administration (FDA). These codes are indicated with the ✓ symbol and will be tracked by the AMA to monitor FDA approval status. Once the FDA status changes to approval, the ✓ symbol will be removed. CPT users should refer to the AMA CPT website (ama-assn.org/cpt-cat-i-immunization-codes) for the most up-to-date information on codes with the ✓ symbol.

►Codes 90476-90759, 91304, 91318, 91319, 91320, 91321, 91322, 91323 identify the vaccine product **only**. To report the administration of a vaccine/toxoid other than SARS-CoV-2 (coronavirus disease [COVID-19]), the vaccine/toxoid product codes (90476-90759) must be used in addition to an immunization administration code(s) (90460, 90461, 90471, 90472, 90473, 90474). To report the administration of a SARS-CoV-2 (coronavirus disease [COVID-19]) vaccine, the vaccine/toxoid product codes 91304, 91318, 91319, 91320, 91321, 91322, 91323 should be reported with the corresponding immunization administration code (90480, 90481).

Do not report 90476-90759 in conjunction with the SARS-CoV-2 (coronavirus disease [COVID-19]) immunization administration codes 90480, 90481, unless both a SARS-CoV-2 (coronavirus disease [COVID-19]) vaccine/toxoid product and at least one vaccine/toxoid product from 90476-90759 are administered at the same encounter.

Modifier 51 should not be reported with vaccine/toxoid codes 90476-90759, 91304, 91318, 91319, 91320, 91321, 91322, 91323, when reported in conjunction with administration codes 90460, 90461, 90471, 90472, 90473, 90474, 90480, 90481.◄

If a significantly separately identifiable Evaluation and Management (E/M) service (eg, office or other outpatient services, preventive medicine services) is performed, the appropriate E/M service code should be reported in addition to the vaccine and toxoid administration codes.

To meet the reporting requirements of immunization registries, vaccine distribution programs, and reporting systems (eg, Vaccine Adverse Event Reporting System) the exact vaccine product administered needs to be reported. Multiple codes for a particular vaccine are provided in the CPT codebook when the schedule (number of doses or timing) differs for two or more products of the same vaccine type (eg, hepatitis A, Hib) or the vaccine product is available in more than one chemical formulation, dosage, or route of administration.

The “when administered to” age descriptions included in CPT vaccine codes are not intended to identify a product’s licensed age indication. The term “preservative free” includes use for vaccines that contain no preservative and vaccines that contain trace amounts of preservative agents that are not present in a sufficient concentration for the purpose of preserving the final vaccine formulation. The absence of a designation regarding a preservative does not necessarily indicate the presence or absence of preservative in the vaccine. Refer to the product’s prescribing information (PI) for the licensed age indication before administering vaccine to a patient.

Separate codes are available for combination vaccines (eg, Hib-HepB, DTap-IPV/Hib). It is inappropriate to code each component of a combination vaccine separately. If a specific vaccine code is not available, the unlisted procedure code should be reported, until a new code becomes available.

►The immunization/vaccine/toxoid abbreviations listed in codes 90380, 90381, 90476-90759, 91304, 91318, 91319, 91320, 91321, 91322, 91323 reflect the most recent US vaccine abbreviation references used in the Advisory Committee on Immunization Practices (ACIP) recommendations at the time of CPT code set publication. Interim updates to vaccine code descriptors will be made following abbreviation approval by the ACIP on a timely basis via the AMA CPT website (ama-assn.org/cpt-cat-i-immunization-codes). The accuracy of the ACIP vaccine abbreviation designations in the CPT code set does not affect the validity of the vaccine code and its reporting function.◄

Psychiatry

Psychiatry services include diagnostic services, psychotherapy, and other services to an individual, family, or group. Patient condition, characteristics, or situational factors may require services described as being with interactive complexity. Services may be provided to a patient in crisis. Services are provided in all settings of care and psychiatry services codes are reported without regard to setting. Services may be provided by a physician or other qualified health care professional. Some psychiatry services may be reported with **evaluation and management services** (98000-98016, 99202-99255, 99281-99285, 99304-99316, 99341-99350) or other services when performed. **Evaluation and management services** (98000-98016, 99202-99285, 99304-99316, 99341-99350) may be reported for treatment of psychiatric conditions, rather than using **psychiatry services** codes, when appropriate.

Hospital inpatient or observation care in treating a psychiatric inpatient or partial hospitalization may be initial or subsequent in nature (see 99221-99233).

Some patients receive hospital evaluation and management services only and others receive hospital evaluation and management services and other procedures. If other procedures such as electroconvulsive therapy or psychotherapy are rendered in addition to hospital evaluation and management services, these may be listed separately (eg, hospital inpatient or observation care services [99221-99223, 99231-99233] plus electroconvulsive therapy [90870]), or when psychotherapy is done, with appropriate code(s) defining psychotherapy services.

Consultation for psychiatric evaluation of a patient includes examination of a patient and exchange of information with the primary physician and other informants such as nurses or family members, and preparation of a report. These services may be reported using consultation codes (see **Consultations**).

(Do not report 90785-90899 in conjunction with 90839, 90840, 97151, 97152, 97153, 97154, 97155, 97156, 97157, 97158, 0362T, 0373T)

Interactive Complexity

Code 90785 is an add-on code for interactive complexity to be reported in conjunction with codes for diagnostic psychiatric evaluation (90791, 90792), psychotherapy (90832, 90833, 90834, 90836, 90837, 90838), and group psychotherapy (90853).

Interactive complexity refers to specific communication factors that complicate the delivery of a psychiatric procedure. Common factors include more difficult communication with discordant or emotional family members and engagement of young and verbally undeveloped or impaired patients. Typical patients are those who have third parties, such as parents, guardians, other family members, agencies, court officers, or schools involved in their psychiatric care.

Psychiatric procedures may be reported “with interactive complexity” when at least one of the following is present:

1. The need to manage maladaptive communication (related to, eg, high anxiety, high reactivity, repeated questions, or disagreement) among participants that complicates delivery of care.
2. Caregiver emotions or behavior that interferes with the caregiver’s understanding and ability to assist in the implementation of the treatment plan.
3. Evidence or disclosure of a sentinel event and mandated report to third party (eg, abuse or neglect with report to state agency) with initiation of discussion of the sentinel event and/or report with patient and other visit participants.
4. Use of play equipment or other physical devices to communicate with the patient to overcome barriers to therapeutic or diagnostic interaction between the physician or other qualified health care professional and a patient who has not developed, or has lost, either the expressive language communication skills to explain his/her symptoms and response to treatment, or the receptive communication skills to understand the physician or other qualified health care professional if he/she were to use typical language for communication.

Interactive complexity must be reported in conjunction with an appropriate psychiatric diagnostic evaluation or psychotherapy service, for the purpose of reporting increased complexity of the service due to specific communication factors which can result in barriers to diagnostic or therapeutic interaction with the patient.

When provided in conjunction with the psychotherapy services (90832-90838), the amount of time spent by a physician or other qualified health care professional providing interactive complexity services should be reflected in the timed service code for psychotherapy (90832, 90834, 90837) or the psychotherapy add-on code (90833, 90836, 90838) performed with an evaluation and management service and must relate to the psychotherapy service only. Interactive complexity is not a service associated with evaluation and management services when provided without psychotherapy.

★✚ **90785** Interactive complexity (List separately in addition to the code for primary procedure)

CPT Changes: An Insider's View 2013

CPT Assistant May 13:12, Jun 13:3, Apr 14:6, Nov 18:3, Aug 20:3, Jan 22:8

(Use 90785 in conjunction with codes for diagnostic psychiatric evaluation [90791, 90792], psychotherapy [90832, 90833, 90834, 90836, 90837, 90838], and group psychotherapy [90853])

(Use 90785 in conjunction with 90853 for the specified patient when group psychotherapy includes interactive complexity)

(Do not report 90785 in conjunction with psychological and neuropsychological testing [96130, 96131, 96132, 96133, 96136, 96137, 96138, 96139, 96146], or E/M services when no psychotherapy service is also reported)

(Do not report 90785 in conjunction with 90839, 90840, 97151, 97152, 97153, 97154, 97155, 97156, 97157, 97158, 0362T, 0373T)

Psychiatric Diagnostic Procedures

Psychiatric diagnostic evaluation is an integrated biopsychosocial assessment, including history, mental status, and recommendations. The evaluation may include communication with family or other sources and review and ordering of diagnostic studies.

Psychiatric diagnostic evaluation with medical services is an integrated biopsychosocial and medical assessment, including history, mental status, other physical examination elements as indicated, and recommendations. The evaluation may include communication with family or other sources, prescription of medications, and review and ordering of laboratory or other diagnostic studies.

In certain circumstances one or more other informants (family members, guardians, or significant others) may be seen in lieu of the patient. Codes 90791, 90792 may be reported more than once for the patient when separate diagnostic evaluations are conducted with the patient and other informants. Report services as being provided to the patient and not the informant or other party in such circumstances. Codes 90791, 90792 may be reported once per day and not on the same day as an evaluation and management service performed by the same individual for the same patient.

The psychiatric diagnostic evaluation may include interactive complexity services when factors exist that complicate the delivery of the psychiatric procedure. These services should be reported with add-on code 90785 used in conjunction with the diagnostic psychiatric evaluation codes 90791, 90792.

Codes 90791, 90792 are used for the diagnostic assessment(s) or reassessment(s), if required, and do not include psychotherapeutic services. Psychotherapy services, including for crisis, may not be reported on the same day.

(Do not report 90791-90899 in conjunction with 90839, 90840, 97151, 97152, 97153, 97154, 97155, 97156, 97157, 97158, 0362T, 0373T)

★ **90792** Psychiatric diagnostic evaluation with medical services

CPT Changes: An Insider's View 2013, 2017

CPT Assistant Jun 13:3, Dec 13:18, Jun 14:3, Nov 17:3, Nov 18:3, Dec 19:15, Aug 20:3, Oct 20:15

(Do not report 90791 or 90792 in conjunction with 98000-98016, 99202-99316, 99341-99350, 99366-99368, 99401, 99402, 99403, 99404, 99406, 99407, 99408, 99409, 99411, 99412, 97151, 97152, 97153, 97154, 97155, 97156, 97157, 97158, 0362T, 0373T)

(Use 90785 in conjunction with 90791, 90792 when the diagnostic evaluation includes interactive complexity services)

Psychotherapy

Psychotherapy is the treatment of mental illness and behavioral disturbances in which the physician or other qualified health care professional, through definitive therapeutic communication, attempts to alleviate the emotional disturbances, reverse or change maladaptive patterns of behavior, and encourage personality growth and development.

The psychotherapy service codes 90832-90838 include ongoing assessment and adjustment of psychotherapeutic interventions, and may include involvement of informants in the treatment process.

Codes 90832, 90833, 90834, 90836, 90837, 90838 describe psychotherapy for the individual patient, although times are for face-to-face services with patient and may include informant(s). The patient must be present for all or a majority of the service.

See codes 90846, 90847 when utilizing family psychotherapy techniques, such as focusing on family dynamics. Do not report 90846, 90847 for family psychotherapy services less than 26 minutes. Codes 90832, 90833, 90834, 90836, 90837, 90838 may be reported on the same day as codes 90846, 90847, when the services are separate and distinct.

In reporting, choose the code closest to the actual time (ie, 16-37 minutes for 90832 and 90833, 38-52 minutes for 90834 and 90836, and 53 or more minutes for 90837 and 90838). Do not report psychotherapy of less than 16 minutes duration. (See instructions for the usage of time in the Introduction of the CPT code set.)

Psychotherapy provided to a patient in a crisis state is reported with codes 90839 and 90840 and cannot be reported in addition to the psychotherapy codes 90832-90838. For psychotherapy for crisis, see "Other Psychotherapy."

Code 90785 is an add-on code to report interactive complexity services when provided in conjunction with the psychotherapy codes 90832-90838. For family psychotherapy, see 90846, 90847. The amount of time spent by a physician or other qualified health care professional providing interactive complexity services should be reflected in the timed service code for psychotherapy (90832, 90834, 90837) or the psychotherapy add-on code performed with an evaluation and management service (90833, 90836, 90838).

Some psychiatric patients receive a medical evaluation and management (E/M) service on the same day as a psychotherapy service by the same physician or other qualified health care professional. To report both E/M and psychotherapy, the two services must be significant and separately identifiable. These services are reported by using codes specific for psychotherapy when performed with evaluation and management services (90833, 90836, 90838) as add-on codes to the evaluation and management service.

Medical symptoms and disorders inform treatment choices of psychotherapeutic interventions, and data from therapeutic communication are used to evaluate the presence, type, and severity of medical symptoms and disorders. For the purposes of reporting, the medical and psychotherapeutic components of the service may be separately identified as follows:

1. The type and level of E/M service is selected based on medical decision making.
2. Time spent on the activities of the E/M service is not included in the time used for reporting the psychotherapy service. Time may not be used as the basis of E/M code selection and prolonged services may not be reported when psychotherapy with E/M (90833, 90836, 90838) are reported.
3. A separate diagnosis is not required for the reporting of E/M and psychotherapy on the same date of service.

(Use 90785 in conjunction with 90832, 90833, 90834, 90836, 90837, 90838 when psychotherapy includes interactive complexity services)

Psychotherapy for Crisis

Psychotherapy for crisis is an urgent assessment and history of a crisis state, a mental status exam, and a disposition. The treatment includes psychotherapy, mobilization of resources to defuse the crisis and restore safety, and implementation of psychotherapeutic interventions to minimize the potential for psychological trauma. The presenting problem is typically life threatening or complex and requires immediate attention to a patient in high distress.

Codes 90839, 90840 are used to report the total duration of time face-to-face with the patient and/or family spent by the physician or other qualified health care professional providing psychotherapy for crisis, even if the time spent on that date is not continuous. For any given period of time spent providing psychotherapy for crisis state, the physician or other qualified health care professional must devote his or her full attention to the patient and, therefore, cannot provide services to any other patient during the same time period. The patient must be present for all or some of the service. Do not report with 90791 or 90792.

Code 90839 is used to report the first 30-74 minutes of psychotherapy for crisis on a given date. It should be used only once per date even if the time spent by the physician or other health care professional is not continuous on that date. Psychotherapy for crisis of less than 30 minutes total duration on a given date should be reported with 90832 or 90833 (when provided with evaluation and management services).

Code 90840 is used to report additional block(s) of time, of up to 30 minutes each beyond the first 74 minutes.

★ **90839** Psychotherapy for crisis; first 60 minutes

90880 Hypnotherapy

CPT Assistant Summer 92:16, Nov 97:41, Mar 01:5, Mar 02:4, May 05:1, Nov 18:3, Aug 20:3, Feb 25:30

90882 Environmental intervention for medical management purposes on a psychiatric patient's behalf with agencies, employers, or institutions

CPT Assistant Summer 92:16, Mar 01:5, Mar 02:4, May 05:1, Nov 18:3, Aug 20:3

90885 Psychiatric evaluation of hospital records, other psychiatric reports, psychometric and/or projective tests, and other accumulated data for medical diagnostic purposes

CPT Assistant Nov 97:41, Mar 01:5, Mar 02:4, Oct 04:10, May 05:1, Nov 18:3, Aug 20:3, Dec 20:14

90887 Interpretation or explanation of results of psychiatric, other medical examinations and procedures, or other accumulated data to family or other responsible persons, or advising them how to assist patient

CPT Assistant Summer 92:17, Mar 01:5, Mar 02:4, Oct 02:11, May 05:1, Nov 18:3, Aug 20:3

(Do not report 90887 in conjunction with 97151, 97152, 97153, 97154, 97155, 97156, 97157, 97158, 0362T, 0373T)

90889 Preparation of report of patient's psychiatric status, history, treatment, or progress (other than for legal or consultative purposes) for other individuals, agencies, or insurance carriers

CPT Changes: An Insider's View 2013

CPT Assistant Summer 92:17, Mar 01:5, Mar 02:4, May 05:1, Nov 18:3, Aug 20:3, Dec 22:18

90899 Unlisted psychiatric service or procedure

CPT Assistant Mar 01:5, Mar 02:4, May 05:1, Jan 10:11, Apr 14:6, Nov 18:3, Aug 20:3, Jan 22:8

Biofeedback

(For psychophysiological therapy incorporating biofeedback training, see 90875, 90876)

90901 Biofeedback training by any modality

CPT Assistant Sep 97:11, Apr 98:14, Jun 98:10, Jun 99:5, May 02:18, Sep 04:13, Mar 05:16, Jun 20:13

90912 Biofeedback training, perineal muscles, anorectal or urethral sphincter, including EMG and/or manometry, when performed; initial 15 minutes of one-on-one physician or other qualified health care professional contact with the patient

CPT Changes: An Insider's View 2020

CPT Assistant Jun 20:13

+ 90913 each additional 15 minutes of one-on-one physician or other qualified health care professional contact with the patient (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

CPT Assistant Jun 20:13

(Use 90913 in conjunction with 90912)

(For incontinence treatment by pulsed magnetic neuromodulation, use 53899)

►(For anorectal manometry with rectal sensation and rectal balloon expulsion, when performed, use 91125)◄

Dialysis

(For therapeutic apheresis for white blood cells, red blood cells, platelets and plasma pheresis, see 36511, 36512, 36513, 36514)

(For therapeutic apheresis extracorporeal adsorption procedures, use 36516)

(For therapeutic ultrafiltration, use 0692T)

Hemodialysis

Codes 90935, 90937 are reported to describe the hemodialysis procedure with all evaluation and management services related to the patient's renal disease on the day of the hemodialysis procedure. These codes are used for inpatient end-stage renal disease (ESRD) and non-ESRD procedures or for outpatient non-ESRD dialysis services. Code 90935 is reported if only one evaluation of the patient is required related to that hemodialysis procedure. Code 90937 is reported when patient re-evaluation(s) is required during a hemodialysis procedure. Use modifier 25 with evaluation and management codes, including synchronous audio-video visits (98000, 98001, 98002, 98003, 98004, 98005, 98006, 98007), synchronous audio-only visits (98008, 98009, 98010, 98011, 98012, 98013, 98014, 98015), brief communication technology-based services (98016), new or established patient office or other outpatient services (99202-99215), office or other outpatient consultations (99242, 99243, 99244, 99245), hospital inpatient or observation care including admission and discharge (99234, 99235, 99236), initial and subsequent hospital inpatient or observation care (99221, 99222, 99223, 99231, 99232, 99233), hospital inpatient or observation discharge services (99238, 99239), new or established patient emergency department services (99281-99285), critical care services (99291, 99292), inpatient neonatal intensive care services and pediatric and neonatal critical care services (99466-99480), nursing facility services (99304, 99305, 99306, 99307, 99308, 99309, 99310, 99315, 99316), and home or residence services (99341-99350), for separately identifiable services unrelated to the dialysis procedure or renal failure that cannot be rendered during the dialysis session.

(For home visit hemodialysis services performed by a nonphysician qualified health care professional, use 99512)

(For cannula declotting, see 36831, 36833, 36860, 36861)

(For declotting of implanted vascular access device or catheter by thrombolytic agent, use 36593)

(For collection of blood specimen from a partially or completely implantable venous access device, use 36591)

(For prolonged attendance by a physician or other qualified health care professional, use 99360)

90935 Hemodialysis procedure with single evaluation by a physician or other qualified health care professional

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Fall 93:2, May 02:17, Jan 03:22

90937 Hemodialysis procedure requiring repeated evaluation(s) with or without substantial revision of dialysis prescription

- *CPT Assistant* Fall 93:2, May 02:17, Jan 03:22

90940 Hemodialysis access flow study to determine blood flow in grafts and arteriovenous fistulae by an indicator method

- *CPT Changes: An Insider's View* 2001, 2006
- *CPT Assistant* Jan 03:22, May 06:18
- *Clinical Examples in Radiology* Summer 06:7, 12

(For duplex scan of hemodialysis access, use 93990)

Miscellaneous Dialysis Procedures

Codes 90945, 90947 describe dialysis procedures other than hemodialysis (eg, peritoneal dialysis, hemofiltration or continuous renal replacement therapies), and all evaluation and management services related to the patient's renal disease on the day of the procedure. Code 90945 is reported if only one evaluation of the patient is required related to that procedure. Code 90947 is reported when patient re-evaluation(s) is required during a procedure. Use modifier 25 with evaluation and management codes, including synchronous audio-video visits (98000, 98001, 98002, 98003, 98004, 98005, 98006, 98007), synchronous audio-only visits (98008, 98009, 98010, 98011, 98012, 98013, 98014, 98015), brief communication technology-based services (98016), office or other outpatient services (99202-99215), office or other outpatient consultations (99242, 99243, 99244, 99245), hospital inpatient or observation care including admission and discharge (99234, 99235, 99236), initial and subsequent hospital inpatient or observation care (99221, 99222, 99223, 99231, 99232, 99233), hospital inpatient or observation discharge services (99238, 99239), new or established patient emergency department services (99281-99285), critical care services (99291, 99292), inpatient neonatal intensive care services and pediatric and neonatal critical care services (99466-99480), nursing facility services (99304, 99305, 99306, 99307, 99308, 99309, 99310, 99315, 99316), and home or residence services (99341-99350) for separately identifiable services unrelated to the procedure or the renal failure that cannot be rendered during the dialysis session.

(For percutaneous insertion of intraperitoneal tunneled catheter, use 49418. For open insertion of tunneled intraperitoneal catheter, use 49421)

(For prolonged attendance by a physician or other qualified health care professional, use 99360)

90945 Dialysis procedure other than hemodialysis (eg, peritoneal dialysis, hemofiltration, or other continuous renal replacement therapies), with single evaluation by a physician or other qualified health care professional

- *CPT Changes: An Insider's View* 2001, 2013
- *CPT Assistant* Fall 93:2, Nov 97:41, Jul 98:10, Oct 01:11, Jan 03:22

(For home infusion of peritoneal dialysis, use 99601, 99602)

90947 Dialysis procedure other than hemodialysis (eg, peritoneal dialysis, hemofiltration, or other continuous renal replacement therapies) requiring repeated evaluations by a physician or other qualified health care professional, with or without substantial revision of dialysis prescription

- *CPT Changes: An Insider's View* 2001, 2013
- *CPT Assistant* Fall 93:2, Nov 97:41, Jul 98:10, Oct 01:11, Jan 03:22

End-Stage Renal Disease Services

Codes 90951-90962 are reported **once** per month to distinguish age-specific services related to the patient's ESRD performed in an outpatient setting with three levels of service based on the number of face-to-face visits. ESRD-related services by a physician or other qualified health care professional include establishment of a dialyzing cycle, outpatient evaluation and management of the dialysis visits, telephone calls, and patient management during the dialysis provided during a full month. In the circumstances in which the patient has had a complete assessment visit during the month and services are provided over a period of less than a month, 90951-90962 may be used according to the number of visits performed.

Codes 90963-90966 are reported once per month for a full month of service to distinguish age-specific services for end-stage renal disease (ESRD) services for home dialysis patients.

For ESRD and non-ESRD dialysis services performed in an inpatient setting, and for non-ESRD dialysis services performed in an outpatient setting, see 90935-90937 and 90945-90947.

Evaluation and management services unrelated to ESRD services that cannot be performed during the dialysis session may be reported separately.

Codes 90967-90970 are reported to distinguish age-specific services for end-stage renal disease (ESRD) services for less than a full month of service, per day, for services provided under the following circumstances: transient patients, partial month where there was one or more face-to-face visits without the complete assessment, the patient was hospitalized before a complete assessment was furnished, dialysis was stopped due to recovery or death, or the patient received a kidney transplant. For reporting purposes, each month is considered 30 days.

Examples:

ESRD-related services:

ESRD-related services are initiated on July 1 for a 57-year-old male. On July 11, he is admitted to the hospital as an inpatient and is discharged on July 27. He has had a complete assessment and the physician or other qualified health care professional has performed two face-to-face visits prior to admission. Another face-to-face visit occurs after discharge during the month.

In this example, 90961 is reported for the three face-to-face outpatient visits. Report inpatient E/M services as appropriate. Dialysis procedures rendered during the hospitalization (July 11-27) should be reported as appropriate (90935-90937, 90945-90947).

If the patient did not have a complete assessment during the month or was a transient or dialysis was stopped due to recovery or death, 90970 would be used to report each day outside the inpatient hospitalization as described in the home dialysis example below.

ESRD-related services for the home dialysis patient:

Home ESRD-related services are initiated on July 1 for a 57-year-old male. On July 11, he is admitted to the hospital as an inpatient and is discharged on July 27.

Report inpatient E/M services as appropriate. Dialysis procedures rendered during the hospitalization (July 11-27) should be reported as appropriate (90935-90937, 90945-90947).

(Do not report 90951-90970 during the same month in conjunction with 99424, 99425, 99426, 99427, 99437, 99439, 99487, 99489, 99490, 99491)

★ **90951** End-stage renal disease (ESRD) related services monthly, for patients younger than 2 years of age to include monitoring for the adequacy of nutrition, assessment of growth and development, and counseling of parents; with 4 or more face-to-face visits by a physician or other qualified health care professional per month

- *CPT Changes: An Insider's View* 2009, 2013, 2017
- *CPT Assistant* Apr 13:3, Nov 13:3, Oct 14:3, Feb 18:12, Jan 24:38

Other Dialysis Procedures

90989 Dialysis training, patient, including helper where applicable, any mode, completed course

- *CPT Assistant* Fall 93:5, Jun 01:10

90993 Dialysis training, patient, including helper where applicable, any mode, course not completed, per training session

- *CPT Assistant* Winter 90:11, Fall 93:5, Jun 01:10

90997 Hemoperfusion (eg, with activated charcoal or resin)

90999 Unlisted dialysis procedure, inpatient or outpatient

Gastroenterology

91010 Esophageal motility (manometric study of the esophagus and/or gastroesophageal junction) study with interpretation and report;

- *CPT Changes: An Insider's View* 2011, 2012
- *CPT Assistant* Nov 97:42

+ 91013 with stimulation or perfusion (eg, stimulant, acid or alkali perfusion) (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2011, 2012

(Use 91013 in conjunction with 91010)

(Do not report 91013 more than once per session)

(To report esophageal motility studies with high resolution esophageal pressure topography, use 91299)

91020 Gastric motility (manometric) studies

- *CPT Assistant* Nov 97:42, Sep 13:13

91022 Duodenal motility (manometric) study

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Sep 13:13

(If gastrointestinal endoscopy is performed, use 43235)

(If fluoroscopy is performed, use 76000)

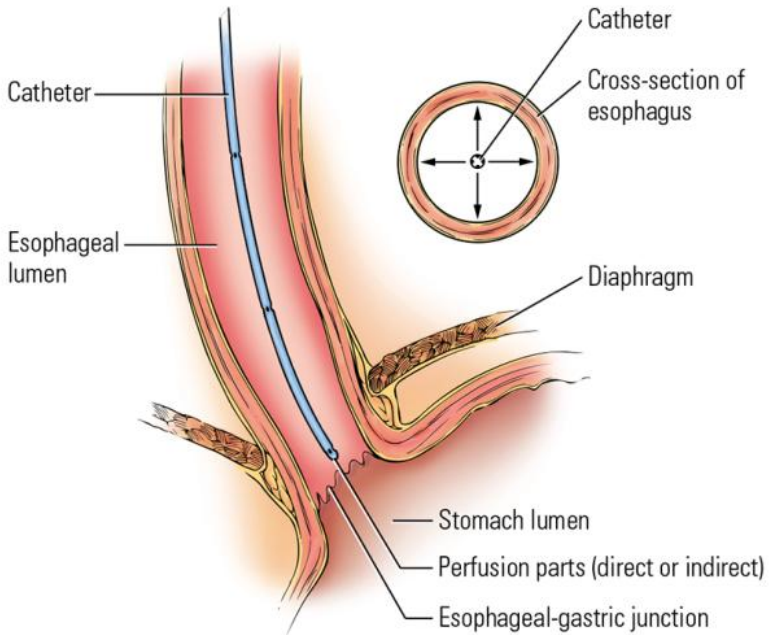
(If gastric motility study is performed, use 91020)

(Do not report 91020, 91022 in conjunction with 91112)

91030 Esophagus, acid perfusion (Bernstein) test for esophagitis

91034 Esophagus, gastroesophageal reflux test; with nasal catheter pH electrode(s) placement, recording, analysis and interpretation

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* May 05:3, Feb 14:11



91035 with mucosal attached telemetry pH electrode placement, recording, analysis and interpretation

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* May 05:3, Feb 14:11

Esophageal Acid Reflux Test

91034

A catheter with a pH electrode is placed into the esophagus, either through the nares or swallowed, to measure intraesophageal pH (an indicator of gastric reflux).

91037 Esophageal function test, gastroesophageal reflux test with nasal catheter intraluminal impedance electrode(s) placement, recording, analysis and interpretation;

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* May 05:3

91038 prolonged (greater than 1 hour, up to 24 hours)

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* May 05:3, Feb 14:11

91040 Esophageal balloon distension study, diagnostic, with provocation when performed

- *CPT Changes: An Insider's View* 2005, 2016
- *CPT Assistant* May 05:3, Jan 17:7

(Do not report 91040 more than once per session)

91065 Breath hydrogen or methane test (eg, for detection of lactase deficiency, fructose intolerance, bacterial overgrowth, or oro-cecal gastrointestinal transit)

CPT Changes: An Insider's View 2005, 2014

CPT Assistant May 05:3

(Report 91065 once for each administered challenge)

(For H. pylori breath test analysis, use 83013 for non-radioactive (C-13) isotope or 78268 for radioactive (C-14) isotope)

(To report placement of an esophageal tamponade tube for management of variceal bleeding, use 43460. To report placement of a long intestinal Miller-Abbott tube, use 44500)

(For abdominal paracentesis, see 49082, 49083, 49084; with instillation of medication, see 96440, 96446)

►(For laparoscopy, use 49320; with biopsy, use 49321)◄

(For splenoportography, see 38200, 75810)

91110 Gastrointestinal tract imaging, intraluminal (eg, capsule endoscopy), esophagus through ileum, with interpretation and report

CPT Changes: An Insider's View 2004, 2013

CPT Assistant Oct 04:15, Aug 05:14, May 09:8, Sep 13:13, Dec 24:52

(Do not report 91110 in conjunction with 91111, 91113, 0651T)

(Incidental visualization of the colon is not reported separately)

(Append modifier 52 if the ileum is not visualized)

91111 Gastrointestinal tract imaging, intraluminal (eg, capsule endoscopy), esophagus with interpretation and report

CPT Changes: An Insider's View 2007, 2013

CPT Assistant Sep 13:13, Dec 24:52

(Do not report 91111 in conjunction with 91110, 91113, 0651T)

(Incidental visualization of the stomach, duodenum, ileum, and/or colon is not reported separately)

(For measurement of gastrointestinal tract transit times or pressure using wireless capsule, use 91112)

 # 91113 Gastrointestinal tract imaging, intraluminal (eg, capsule endoscopy), colon, with interpretation and report

CPT Changes: An Insider's View 2022

CPT Assistant Dec 24:52

(Do not report 91113 in conjunction with 91110, 91111)

(Incidental visualization of the esophagus, stomach, duodenum, and/or ileum is not reported separately)

91112 Gastrointestinal transit and pressure measurement, stomach through colon, wireless capsule, with interpretation and report

CPT Changes: An Insider's View 2013

CPT Assistant Sep 13:13, Dec 24:52

(Do not report 91112 in conjunction with 83986, 91020, 91022, 91117)

91113 Code is out of numerical sequence. See 91110-91117

91117 Colon motility (manometric) study, minimum 6 hours continuous recording (including provocation tests, eg, meal, intracolonic balloon distension, pharmacologic agents, if performed), with interpretation and report

CPT Changes: An Insider's View 2011

CPT Assistant Sep 13:13

►(Do not report 91117 in conjunction with 91124, 91125)◄

(For wireless capsule pressure measurements, use 91112)

►(91120 has been deleted. To report rectal sensation, tone, and compliance study [eg, barostat], use 91124)◄

►(91122 has been deleted. To report anorectal manometry with rectal sensation and rectal balloon expulsion, when performed, use 91125)◄

● **91124** Rectal sensation, tone, and compliance study (eg, barostat)

Ophthalmology

(For surgical procedures, see **Surgery**, Eye and Ocular Adnexa, 65091 et seq)

Definitions

Intermediate ophthalmological services describes an evaluation of a new or existing condition complicated with a new diagnostic or management problem not necessarily relating to the primary diagnosis, including history, general medical observation, external ocular and adnexal examination and other diagnostic procedures as indicated; may include the use of mydriasis for ophthalmoscopy.

For example:

a. Review of history, external examination, ophthalmoscopy, biomicroscopy for an acute complicated condition (eg, iritis) not requiring comprehensive ophthalmological services.

b. Review of interval history, external examination, ophthalmoscopy, biomicroscopy and tonometry in established patient with known cataract not requiring comprehensive ophthalmological services.

Comprehensive ophthalmological services describes a general evaluation of the complete visual system. The comprehensive services constitute a single service entity but need not be performed at one session. The service includes history, general medical observation, external and ophthalmoscopic examinations, gross visual fields and basic sensorimotor examination. It often includes, as indicated: biomicroscopy, examination with cycloplegia or mydriasis and tonometry. It always includes initiation of diagnostic and treatment programs.

Intermediate and comprehensive ophthalmological services constitute integrated services in which medical decision making cannot be separated from the examining techniques used. Itemization of service components, such as slit lamp examination, keratometry, routine ophthalmoscopy, retinoscopy, tonometry, or motor evaluation is not applicable.

For example:

The comprehensive services required for diagnosis and treatment of a patient with symptoms indicating possible disease of the visual system, such as glaucoma, cataract or retinal disease, or to rule out disease of the visual system, new or established patient.

Initiation of diagnostic and treatment program includes the prescription of medication, and arranging for special ophthalmological diagnostic or treatment services, consultations, laboratory procedures and radiological services.

Special ophthalmological services describes services in which a special evaluation of part of the visual system is made, which goes beyond the services included under general ophthalmological services, or in which special treatment is given. Special ophthalmological services may be reported in addition to the general ophthalmological services or evaluation and management services.

For example:

Fluorescein angioscopy, quantitative visual field examination, refraction or extended color vision examination (such as Nagel's anomaloscope) should be separately reported.

Prescription of lenses, when required, is included in 92015. It includes specification of lens type (monofocal, bifocal, other), lens power, axis, prism, absorptive factor, impact resistance, and other factors.

Interpretation and report by the physician or other qualified health care professional is an integral part of special ophthalmological services where indicated. Technical procedures (which may or may not be performed personally) are often part of the service, but should not be mistaken to constitute the service itself.

General Ophthalmological Services

New Patient

(For distinguishing between new and established patients, see **Evaluation and Management** guidelines)

92002 Ophthalmological services: medical examination and evaluation with initiation of diagnostic and treatment program; intermediate, new patient

CPT Assistant Feb 97:6, Aug 98:3, Jun 05:11, Dec 05:10, Jan 07:30, Jan 08:1, Sep 08:7, Feb 11:10, Aug 12:9, Oct 12:9, Sep 17:15, Feb 18:3, Jan 21:10

(Do not report 92002 in conjunction with 99173, 99174, 99177, 0469T)

92004 comprehensive, new patient, 1 or more visits

CPT Assistant Feb 97:6, Aug 98:3, Jun 05:11, Dec 05:10, Jan 07:30, Jan 08:1, Sep 08:7, Nov 10:8, Jan 11:9, Feb 11:10, Aug 12:9, Nov 16:9, Sep 17:15, Feb 18:3, Jan 21:10

(Do not report 92004 in conjunction with 99173, 99174, 99177, 0469T)

Established Patient

(For distinguishing between new and established patients, see **Evaluation and Management** guidelines)

92012 Ophthalmological services: medical examination and evaluation, with initiation or continuation of diagnostic and treatment program; intermediate, established patient

CPT Assistant Feb 97:6, Aug 98:3, Jun 05:11, Dec 05:10, Jan 07:30, Jan 08:1, Sep 08:7, Feb 11:10, Aug 12:9, Sep 17:15, Feb 18:3, Jan 21:10

(Do not report 92012 in conjunction with 99173, 99174, 99177, 0469T)

92014 comprehensive, established patient, 1 or more visits

CPT Assistant Feb 97:6, Aug 98:3, Dec 99:10, Jun 05:11, Dec 05:10, Jan 07:30, Jan 08:1, Sep 08:7, Nov 10:8, Jan 11:9, Feb 11:10, Aug 12:9, Oct 12:9, Nov 16:9, Sep 17:15, Feb 18:3

(Do not report 92014 in conjunction with 99173, 99174, 99177, 0469T)

(For surgical procedures, see **Surgery**, Eye and Ocular Adnexa, 65091 et seq)

Special Ophthalmological Services

92015 Determination of refractive state

CPT Assistant Mar 96:11, Feb 97:6, Aug 98:3, Aug 06:11, Mar 13:6, Mar 16:11

(Do not report 92015 in conjunction with 99173, 99174, 99177)

(For instrument-based ocular screening, use 99174, 99177)

92018 Ophthalmological examination and evaluation, under general anesthesia, with or without manipulation of globe for passive range of motion or other manipulation to facilitate diagnostic examination; complete

CPT Assistant Feb 97:6, Aug 98:3

92019 limited

CPT Assistant Feb 97:6, Aug 98:3

92020 Gonioscopy (separate procedure)

CPT Assistant Feb 97:6, Aug 98:3, Sep 21:10

(Do not report 92020 in conjunction with 0621T, 0622T)

(For gonioscopy under general anesthesia, use 92018)

92025 Computerized corneal topography, unilateral or bilateral, with interpretation and report

CPT Changes: An Insider's View 2007

CPT Assistant Oct 10:10, Oct 12:9

(Do not report 92025 in conjunction with 65710-65771)

(92025 is not used for manual keratoscopy, which is part of a single system Evaluation and Management or ophthalmological service)

92060 Sensorimotor examination with multiple measurements of ocular deviation (eg, restrictive or paretic muscle with diplopia) with interpretation and report (separate procedure)

CPT Assistant Feb 97:6, Aug 98:3

92065 Orthoptic training; performed by a physician or other qualified health care professional

CPT Changes: An Insider's View 2022, 2023

CPT Assistant Feb 97:6, Jun 98:10, Aug 98:3, Feb 22:11

(Do not report 92065 in conjunction with 92066, 0687T, 0688T, when performed on the same day)

92066 under supervision of a physician or other qualified health care professional

CPT Changes: An Insider's View 2023

CPT Assistant Feb 23:14

(Do not report 92066 in conjunction with 92065, 0687T, 0688T, when performed on the same day)

92071 Fitting of contact lens for treatment of ocular surface disease

CPT Changes: An Insider's View 2012

CPT Assistant Aug 12:9

(Do not report 92071 in conjunction with 92072)

(Report supply of lens separately with 99070 or appropriate supply code)

92072 Fitting of contact lens for management of keratoconus, initial fitting

CPT Changes: An Insider's View 2012

CPT Assistant Aug 12:9, Sep 17:15

(For subsequent fittings, report using evaluation and management services or general ophthalmological services)

(Do not report 92072 in conjunction with 92071)

(Report supply of lens separately with 99070 or appropriate supply code)

92081 Visual field examination, unilateral or bilateral, with interpretation and report; limited examination (eg, tangent screen, Autoplot, arc perimeter, or single stimulus level automated test, such as Octopus 3 or 7 equivalent)

CPT Assistant Feb 97:6, Aug 98:3, Sep 10:10, Oct 12:9

92082 intermediate examination (eg, at least 2 isopters on Goldmann perimeter, or semiquantitative, automated suprathreshold screening program, Humphrey suprathreshold automatic diagnostic test, Octopus program 33)

CPT Assistant Feb 97:6, Aug 98:3, Oct 12:9

92083 extended examination (eg, Goldmann visual fields with at least 3 isopters plotted and static determination within the central 30°, or quantitative, automated threshold perimetry, Octopus program G-1, 32 or 42, Humphrey visual field analyzer full threshold programs 30-2, 24-2, or 30/60-2)

CPT Assistant Feb 97:6, Aug 98:3, Oct 12:9

(Gross visual field testing (eg, confrontation testing) is a part of general ophthalmological services and is not reported separately)

(For visual field assessment by patient activated data transmission to a remote surveillance center, see 0378T, 0379T)

92100 Serial tonometry (separate procedure) with multiple measurements of intraocular pressure over an extended time period with interpretation and report, same day (eg, diurnal curve or medical treatment of acute elevation of intraocular pressure)

CPT Assistant Feb 97:6, Jun 98:10, Aug 98:3, Aug 12:9, 15, Oct 12:9, May 14:5

(For monitoring of intraocular pressure for 24 hours or longer, use 0329T)

(Ocular blood flow measurements are reported with 0198T. Single-episode tonometry is a component of general ophthalmological service or E/M service)

92132 Computerized ophthalmic diagnostic imaging (eg, optical coherence tomography [OCT]), anterior segment, with interpretation and report, unilateral or bilateral

CPT Changes: An Insider's View 2011, 2025

CPT Assistant Feb 11:6, Oct 12:9, Mar 13:6, Apr 13:7, May 14:5, Sep 23:42, Jan 25:20

(Do not report 92132 in conjunction with 0730T)

(For computerized ophthalmic diagnostic imaging of the optic nerve and retina, see 92133, 92134, 92137)

(For specular microscopy and endothelial cell analysis, use 92286)

(For tear film imaging, use 0330T)

92133 Computerized ophthalmic diagnostic imaging (eg, optical coherence tomography [OCT]), posterior segment, with interpretation and report, unilateral or bilateral; optic nerve

- *CPT Changes: An Insider's View* 2011, 2025
- *CPT Assistant* Feb 11:6, Oct 12:9, Nov 14:10, Jan 21:10, Jan 25:20

92134 retina

- *CPT Changes: An Insider's View* 2011, 2025
- *CPT Assistant* Feb 11:6, Oct 12:9, Nov 14:10, Jan 21:10, Nov 21:12, Jan 25:20

 # 92137 retina, including OCT angiography

- *CPT Changes: An Insider's View* 2025
- *CPT Assistant* Jan 25:20

(Do not report 92133, 92134, 92137 at the same patient encounter)

(Report 92137 separately when performed at same encounter as 92235, 92240, 92242)

92136 Ophthalmic biometry by partial coherence interferometry with intraocular lens power calculation

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Aug 98:3, Apr 02:18, Sep 09:5, May 14:5

(For tear film imaging, use 0330T)

92137 Code is out of numerical sequence. See 92133-92145

92145 Corneal hysteresis determination, by air impulse stimulation, unilateral or bilateral, with interpretation and report

- *CPT Changes: An Insider's View* 2015

Ophthalmoscopy

Routine ophthalmoscopy is part of general and special ophthalmologic services whenever indicated. It is a non-itemized service and is not reported separately.

92201 Ophthalmoscopy, extended; with retinal drawing and scleral depression of peripheral retinal disease (eg, for retinal tear, retinal detachment, retinal tumor) with interpretation and report, unilateral or bilateral

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Dec 19:3

Extended Ophthalmoscopy

92201, 92202

92202 with drawing of optic nerve or macula (eg, for glaucoma, macular pathology, tumor) with interpretation and report, unilateral or bilateral

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Dec 19:3

(Do not report 92201, 92202 in conjunction with 92250)

★ **92227** Imaging of retina for detection or monitoring of disease; with remote clinical staff review and report, unilateral or bilateral

- *CPT Changes: An Insider's View* 2011, 2017, 2020, 2021
- *CPT Assistant* Feb 11:7, May 11:9, Oct 12:9, Jul 16:9, Aug 19:11, Jan 21:10, Jun 21:8

(Do not report 92227 in conjunction with 92133, 92134, 92228, 92229, 92250)

★ **92228** with remote physician or other qualified health care professional interpretation and report, unilateral or bilateral

- *CPT Changes: An Insider's View* 2011, 2017, 2021
- *CPT Assistant* Feb 11:7, May 11:9, Oct 12:9, Jan 21:10, Jun 21:8

(Do not report 92228 in conjunction with 92133, 92134, 92227, 92229, 92250)

92229 point-of-care autonomous analysis and report, unilateral or bilateral

- *CPT Changes: An Insider's View* 2021, 2023
- *CPT Assistant* Jan 21:10, Jun 21:8, Sep 21:5

(Do not report 92229 in conjunction with 92133, 92134, 92227, 92228, 92250)

92230 Fluorescein angioscopy with interpretation and report

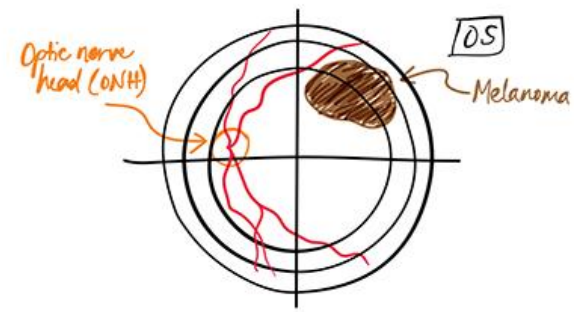
- *CPT Assistant* Feb 97:6, Feb 11:6

92235 Fluorescein angiography (includes multiframe imaging) with interpretation and report, unilateral or bilateral

- *CPT Changes: An Insider's View* 2017
- *CPT Assistant* Feb 97:6, Feb 11:6, Jun 17:8, Jan 25:20

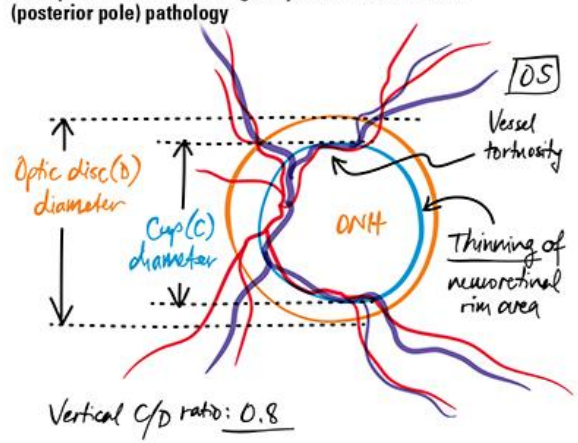
(For optical coherence tomography [OCT] retinal angiography, use 92137)

(When fluorescein and indocyanine-green angiography are performed at the same patient encounter, use 92242)



92240 Indocyanine-green angiography (includes multiframe imaging) with interpretation and report, unilateral or bilateral

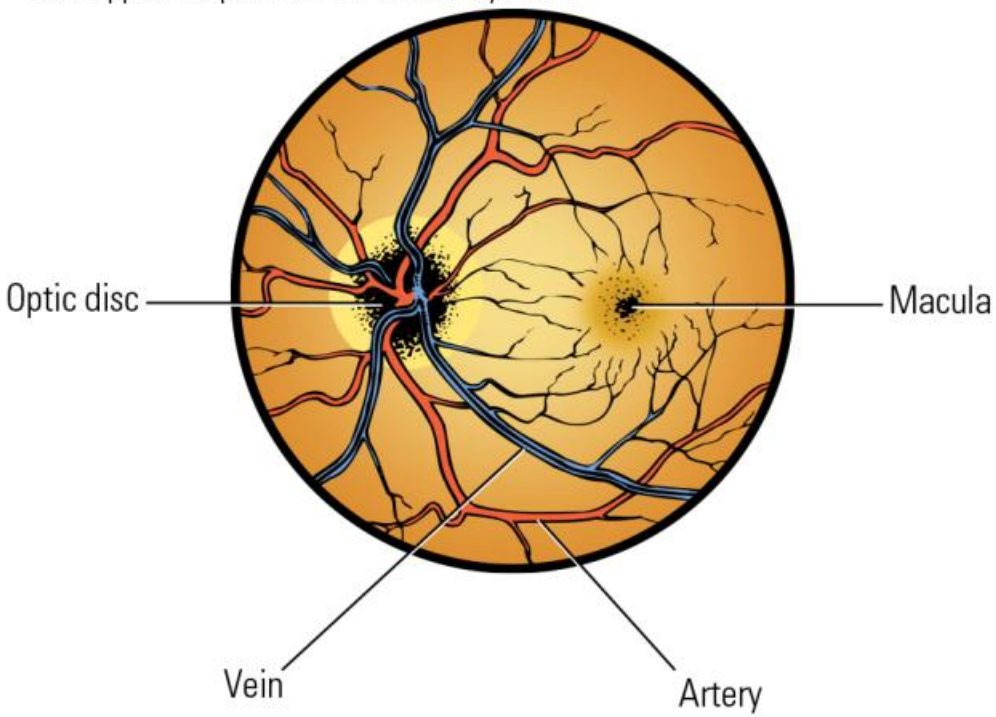
- *CPT Changes: An Insider's View* 2017
- *CPT Assistant* Feb 11:6, Oct 12:9, Jun 17:8, Jan 25:20



(For optical coherence tomography [OCT] retinal angiography, use 92137)

(When indocyanine-green and fluorescein angiography are performed at the same patient encounter, use 92242)

Example of clinical drawing of peripheral retinal disease



Example of clinical drawing of optic nerve or macular (posterior pole) pathology

Fluorescein Angiography
92235

Fluorescein dye is injected in a peripheral vein to enhance imaging. Serial multiframe angiography is performed to evaluate choroidal and retinal circulation. In this illustration, arteries display an even fluorescence, while veins appear striped from the laminar dye flow.

92242 Fluorescein angiography and indocyanine-green angiography (includes multiframe imaging) performed at the same patient encounter with interpretation and report, unilateral or bilateral

- *CPT Changes: An Insider's View* 2017
- *CPT Assistant* Jun 17:8, Jan 25:20

(For optical coherence tomography [OCT] retinal angiography, use 92137)

(To report fluorescein angiography and indocyanine-green angiography not performed at the same patient encounter, see 92235, 92240)

92250 Fundus photography with interpretation and report

- *CPT Assistant* Feb 97:6, Apr 99:10, Feb 11:6, Oct 12:9, Nov 14:10, Dec 14:17, May 15:9, Jul 16:9, Jan 21:10, Nov 21:12

92260 Ophthalmodynamometry

- *CPT Assistant* Feb 97:6, Feb 11:6

(For ophthalmoscopy under general anesthesia, use 92018)

Other Specialized Services

For prescription, fitting, and/or medical supervision of ocular prosthetic (artificial eye) adaptation by a physician, see evaluation and management services, including office or other outpatient services (99202-99215), office or other outpatient consultations (99242, 99243, 99244, 99245), or general ophthalmological service codes (92002-92014).

Electroretinography (ERG) is used to evaluate function of the retina and optic nerve of the eye, including photoreceptors and ganglion cells. A number of techniques are used which target different areas of the eye, including full field (flash and flicker) (92273) for a global response of photoreceptors of the retina, multifocal (92274) for photoreceptors in multiple separate locations in the retina including the macula, and pattern (0509T) for retinal ganglion cells. Multiple additional terms and techniques are used to describe various types of ERG. If the technique used is not specifically named in the code descriptors for 92273, 92274, or 0509T, use the unlisted procedure code 92499.

92265 Needle oculoelectromyography, 1 or more extraocular muscles, 1 or both eyes, with interpretation and report

CPT Assistant Feb 97:6, Oct 12:9

92270 Electro-oculography with interpretation and report

CPT Assistant Feb 97:6, Aug 08:12, May 09:9, Oct 12:9, Sep 15:7, Apr 20:7, Feb 21:5

(For vestibular function tests with recording, see 92537, 92538, 92540, 92541, 92542, 92544, 92545, 92546, 92547, 92548)

(Do not report 92270 in conjunction with 92537, 92538, 92540, 92541, 92542, 92544, 92545, 92546, 92547, 92548, 92549)

(To report saccadic eye movement testing with recording, use 92700)

92273 Electroretinography (ERG), with interpretation and report; full field (ie, ffERG, flash ERG, Ganzfeld ERG)

CPT Changes: An Insider's View 2019

CPT Assistant Jan 19:12, Aug 24:5

92274 multifocal (mfERG)

CPT Changes: An Insider's View 2019

CPT Assistant Jan 19:12, Aug 24:5

(For pattern ERG, use 0509T)

(For electronystagmography for vestibular function studies, see 92541 et seq)

(For ophthalmic echography (diagnostic ultrasound), see 76511-76529)

92283 Color vision examination, extended, eg, anomaloscope or equivalent

CPT Assistant Feb 97:6, Oct 12:9

(Color vision testing with pseudoisochromatic plates [such as HRR or Ishihara] is not reported separately. It is included in the appropriate general or ophthalmological service, or 99172)

▲ **92284** Diagnostic dark adaptation examination (eg, rod and cone sensitivities, rod-cone breakpoint), with interpretation and report

CPT Changes: An Insider's View 2023, 2026

CPT Assistant Feb 97:6, Oct 12:9

►(For screening dark adaptation measurement, use 92288)◄

#● **92288** Screening dark adaptation measurement (eg, rod recovery intercept time), with interpretation and report

CPT Changes: An Insider's View 2026

►(For diagnostic dark adaptation examination, use 92284)◄

92285 External ocular photography with interpretation and report for documentation of medical progress (eg, close-up photography, slit lamp photography, goniophotography, stereo-photography)

CPT Assistant Feb 97:6, Sep 97:10, Oct 12:9, May 14:5

(For tear film imaging, use 0330T)

(For meibomian gland imaging, use 0507T)

92286 Anterior segment imaging with interpretation and report; with specular microscopy and endothelial cell analysis

CPT Changes: An Insider's View 2013

CPT Assistant Feb 97:6, Oct 12:9, Mar 13:6

92287 with fluorescein angiography

CPT Changes: An Insider's View 2013

CPT Assistant Feb 97:6, Mar 13:6

92288 Code is out of numerical sequence. See 92283-92286

Contact Lens Services

The prescription of contact lens includes specification of optical and physical characteristics (such as power, size, curvature, flexibility, gas-permeability). It is **not** a part of the general ophthalmological services.

The fitting of contact lens includes instruction and training of the wearer and incidental revision of the lens during the training period.

Follow-up of successfully fitted extended wear lenses is reported as part of a general ophthalmological service (92012 et seq).

The supply of contact lenses may be reported as part of the service of fitting. It may also be reported separately by using the appropriate supply codes.

(For therapeutic or surgical use of contact lens, see 68340, 92071, 92072)

92310 Prescription of optical and physical characteristics of and fitting of contact lens, with medical supervision of adaptation; corneal lens, both eyes, except for aphakia

➔ *CPT Assistant* Feb 97:6, Oct 12:9

(For prescription and fitting of 1 eye, add modifier 52)

92311 corneal lens for aphakia, 1 eye

➔ *CPT Assistant* Feb 97:6, Oct 12:9

92312 corneal lens for aphakia, both eyes

➔ *CPT Assistant* Feb 97:6, Oct 12:9

92313 corneoscleral lens

➔ *CPT Assistant* Feb 97:7, Mar 03:1

92314 Prescription of optical and physical characteristics of contact lens, with medical supervision of adaptation and direction of fitting by independent technician; corneal lens, both eyes except for aphakia

➔ *CPT Assistant* Feb 97:7, Oct 12:9

(For prescription and fitting of 1 eye, add modifier 52)

92315 corneal lens for aphakia, 1 eye

➔ *CPT Assistant* Feb 97:7, Oct 12:9

92316 corneal lens for aphakia, both eyes

➔ *CPT Assistant* Feb 97:7, Oct 12:9

92317 corneoscleral lens

➔ *CPT Assistant* Feb 97:7

92325 Modification of contact lens (separate procedure), with medical supervision of adaptation

➔ *CPT Assistant* Feb 97:7, Oct 12:9

92326 Replacement of contact lens

➔ *CPT Assistant* Feb 97:7

Spectacle Services (Including Prosthesis for Aphakia)

Prescription of lenses, when required, is included in 92015, *Determination of refractive state*. It includes specification of lens type (monofocal, bifocal, other), lens power, axis, prism, absorptive factor, impact resistance, and other factors.

When provided, fitting of spectacles is a separate service and is reported as indicated by 92340-92371.

Fitting includes measurement of anatomical facial characteristics, the writing of laboratory specifications, and the final adjustment of the spectacles to the visual axes and anatomical topography. Presence of the physician or other qualified health care professional is not required.

Supply of materials is a separate service component; it is not part of the service of fitting spectacles.

92340 Fitting of spectacles, except for aphakia; monofocal
- *CPT Assistant* Feb 97:7, Aug 98:4, Mar 13:6

92341 bifocal
- *CPT Assistant* Feb 97:7, Aug 98:4, Mar 13:6

92342 multifocal, other than bifocal
- *CPT Assistant* Feb 97:7, Aug 98:4, Mar 13:6

92352 Fitting of spectacle prosthesis for aphakia; monofocal
- *CPT Assistant* Feb 97:7, Aug 98:4, Mar 13:6

92353 multifocal
- *CPT Assistant* Feb 97:7, Aug 98:4, Mar 13:6

92354 Fitting of spectacle mounted low vision aid; single element system
- *CPT Assistant* Feb 97:7, Aug 98:4, Mar 13:6

92355 telescopic or other compound lens system
- *CPT Assistant* Feb 97:7, Aug 98:4, Mar 13:6

92358 Prosthesis service for aphakia, temporary (disposable or loan, including materials)
- *CPT Assistant* Feb 97:7, Aug 98:4, Mar 13:6

92370 Repair and refitting spectacles; except for aphakia
- *CPT Assistant* Feb 97:7, Mar 13:6

92371 spectacle prosthesis for aphakia
- *CPT Assistant* Feb 97:7, Aug 98:4, Mar 13:6

Other Procedures

92499 Unlisted ophthalmological service or procedure

CPT Assistant Feb 97:7, Jan 19:12, Aug 20:15, Feb 23:16, Aug 23:14, Aug 24:5

Special Otorhinolaryngologic Services

Diagnostic or treatment procedures that are reported as evaluation and management services (eg, otoscopy, anterior rhinoscopy, tuning fork test, removal of non-impacted cerumen) are not reported separately.

Special otorhinolaryngologic services are those diagnostic and treatment services not included in an evaluation and management service, including office or other outpatient services (99202-99215) or office or other outpatient consultations (99242, 99243, 99244, 99245).

Codes 92507, 92508, 92520, 92521, 92522, 92523, 92524, and 92526 are used to report evaluation and treatment of speech sound production, receptive language, and expressive language abilities, voice and resonance production, speech fluency, and swallowing. Evaluations may include examination of speech sound production, articulatory movements of oral musculature, oral-pharyngeal swallowing function, qualitative analysis of voice and resonance, and measures of frequency, type, and duration of stuttering. Evaluations may also include the patient's ability to understand the meaning and intent of written and verbal expressions, as well as the appropriate formulation and utterance of expressive thought.

(For laryngoscopy with stroboscopy, use 31579)

92502 Otolaryngologic examination under general anesthesia

CPT Assistant Sep 16:6, Dec 21:20

92504 Binocular microscopy (separate diagnostic procedure)

CPT Assistant Jul 05:14, Oct 11:10, Oct 13:14, Sep 16:6

★◀ **92507** Treatment of speech, language, voice, communication, and/or auditory processing disorder; individual

CPT Assistant Sep 16:6

Vestibular Function Tests, Without Electrical Recording

92531 Spontaneous nystagmus, including gaze

CPT Assistant Aug 20:15

92532 Positional nystagmus test

CPT Changes: An Insider's View 2002

CPT Assistant Aug 20:15

(Do not report 92531, 92532 with evaluation and management services, including office or other outpatient services [99202-99215], hospital inpatient or observation care services including admission and discharge [99234-99236], hospital inpatient or observation care services [99221-99223, 99231-99233], office or other outpatient consultations [99242, 99243, 99244, 99245], nursing facility services [99304-99316])

92533 Caloric vestibular test, each irrigation (binaural, bithermal stimulation constitutes 4 tests)

CPT Assistant May 96:5, Aug 20:15

92534 Optokinetic nystagmus test

CPT Changes: An Insider's View 2002

CPT Assistant Aug 20:15

Vestibular Function Tests, With Recording (eg, ENG)

92537 Caloric vestibular test with recording, bilateral; bithermal (ie, one warm and one cool irrigation in each ear for a total of four irrigations)

CPT Changes: An Insider's View 2016
CPT Assistant Aug 20:15

(Do not report 92537 in conjunction with 92270, 92538)

(For three irrigations, use modifier 52)

(For monothermal caloric vestibular testing, use 92538)

92538 monothermal (ie, one irrigation in each ear for a total of two irrigations)

CPT Changes: An Insider's View 2016
CPT Assistant Aug 20:15

(Do not report 92538 in conjunction with 92270, 92537)

(For one irrigation, use modifier 52)

(For bilateral, bithermal caloric vestibular testing, use 92537)

92540 Basic vestibular evaluation, includes spontaneous nystagmus test with eccentric gaze fixation nystagmus, with recording, positional nystagmus test, minimum of 4 positions, with recording, optokinetic nystagmus test, bidirectional foveal and peripheral stimulation, with recording, and oscillating tracking test, with recording

CPT Changes: An Insider's View 2010
CPT Assistant Sep 15:7, Aug 20:15

(Do not report 92540 in conjunction with 92270, 92541, 92542, 92544, 92545)

92541 Spontaneous nystagmus test, including gaze and fixation nystagmus, with recording

CPT Assistant Feb 05:13, Aug 08:12, May 11:10, Sep 15:7, Aug 20:15

(Do not report 92541 in conjunction with 92270, 92540 or the set of 92542, 92544, and 92545)

92542 Positional nystagmus test, minimum of 4 positions, with recording

CPT Assistant Feb 05:13, Aug 08:12, Sep 10:9, Sep 15:7, Aug 20:15

(Do not report 92542 in conjunction with 92270, 92540 or the set of 92541, 92544, and 92545)

92544 Optokinetic nystagmus test, bidirectional, foveal or peripheral stimulation, with recording

CPT Assistant Feb 05:13, Aug 08:12, Sep 15:7, Aug 20:15

(Do not report 92544 in conjunction with 92270, 92540 or the set of 92541, 92542, and 92545)

92545 Oscillating tracking test, with recording

CPT Assistant Feb 05:13, Aug 08:12, May 11:10, Sep 15:7, Aug 20:15

(Do not report 92545 in conjunction with 92270, 92540 or the set of 92541, 92542, and 92544)

92546 Sinusoidal vertical axis rotational testing

CPT Assistant Sep 04:13, Feb 05:13, Aug 08:12, May 11:10, Jun 13:14, Sep 15:7, Aug 20:15

(Do not report 92546 in conjunction with 92270)

+ 92547 Use of vertical electrodes (List separately in addition to code for primary procedure)

CPT Assistant May 04:14, Feb 05:13, Aug 08:12, Sep 15:7, Aug 20:15

(Use 92547 in conjunction with 92540-92546)

(For unlisted vestibular tests, use 92700)

(Do not report 92547 in conjunction with 92270)

92548 Computerized dynamic posturography sensory organization test (CDP-SOT), 6 conditions (ie, eyes open, eyes closed, visual sway, platform sway, eyes closed platform sway, platform and visual sway), including interpretation and report;

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* May 11:10, Sep 15:7, Apr 20:7, Aug 20:15

92549 with motor control test (MCT) and adaptation test (ADT)

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Apr 20:7, Aug 20:15

(Do not report 92548, 92549 in conjunction with 92270)

 # 92517 Vestibular evoked myogenic potential (VEMP) testing, with interpretation and report; cervical (cVEMP)

- *CPT Changes: An Insider's View* 2021
- *CPT Assistant* Feb 21:5

(Do not report 92517 in conjunction with 92270, 92518, 92519)

 # 92518 ocular (oVEMP)

- *CPT Changes: An Insider's View* 2021
- *CPT Assistant* Feb 21:5

(Do not report 92518 in conjunction with 92270, 92517, 92519)

 # 92519 cervical (cVEMP) and ocular (oVEMP)

- *CPT Changes: An Insider's View* 2021
- *CPT Assistant* Feb 21:5

(Do not report 92519 in conjunction with 92270, 92517, 92518)

Audiologic Function Tests

The audiometric tests listed below require the use of calibrated electronic equipment, recording of results, and a report with interpretation. Hearing tests (such as whispered voice, tuning fork) that are otorhinolaryngologic evaluation and management services are not reported separately. All services include testing of both ears. Use modifier 52 if a test is applied to one ear instead of two ears.

(For evaluation of speech, language, and/or hearing problems through observation and assessment of performance, see 92521, 92522, 92523, 92524)

92550 Tympanometry and reflex threshold measurements

CPT Changes: An Insider's View 2010

CPT Assistant Aug 14:3, Dec 24:53

(Do not report 92550 in conjunction with 92567, 92568)

92551 Screening test, pure tone, air only

CPT Assistant Aug 14:3

92552 Pure tone audiometry (threshold); air only

CPT Assistant Aug 14:3

92553 air and bone

CPT Assistant Mar 11:8, Aug 14:3, Apr 22:14

92555 Speech audiometry threshold;

CPT Assistant Aug 14:3

92556 with speech recognition

CPT Assistant Mar 11:8, Aug 14:3, Apr 22:14

92557 Comprehensive audiometry threshold evaluation and speech recognition (92553 and 92556 combined)

CPT Assistant Sep 07:11, Mar 11:8, Aug 14:3, Apr 22:14

►(For hearing aid evaluation and selection, see 92628, 92629, 92631, 92632)◄

(For automated audiometry, see 0208T-0212T)

92558 Code is out of numerical sequence. See 92583-92588

92562 Loudness balance test, alternate binaural or monaural

CPT Assistant Mar 05:7, 9, Aug 14:3

92563 Tone decay test

CPT Assistant Aug 14:3

92565 Stenger test, pure tone

CPT Assistant Aug 14:3

92567 Tympanometry (impedance testing)

CPT Assistant Winter 90:11, Aug 14:3

92568 Acoustic reflex testing, threshold

CPT Changes: An Insider's View 2006, 2010

CPT Assistant Jan 06:7, Sep 07:11, Jun 09:10, Aug 14:3

92570 Acoustic immittance testing, includes tympanometry (impedance testing), acoustic reflex threshold testing, and acoustic reflex decay testing

CPT Changes: An Insider's View 2010

CPT Assistant Aug 14:3

(Do not report 92570 in conjunction with 92567, 92568)

92571 Filtered speech test

CPT Assistant Mar 05:7, Aug 14:3

92572 Staggered spondaic word test

CPT Assistant Mar 05:7, Aug 14:3

92575 Sensorineural acuity level test

CPT Assistant Aug 14:3

92576 Synthetic sentence identification test

CPT Assistant Mar 05:7, Aug 14:3

92577 Stenger test, speech

CPT Assistant Aug 14:3

92579 Visual reinforcement audiometry (VRA)

CPT Assistant Aug 14:3

92582 Conditioning play audiometry

CPT Assistant Aug 14:3

92583 Select picture audiometry

92584 Electrocochleography

CPT Assistant Jul 11:17, Aug 14:3, Oct 21:9

 # 92650 Auditory evoked potentials; screening of auditory potential with broadband stimuli, automated analysis

CPT Changes: An Insider's View 2021

CPT Assistant Oct 20:9

 # 92651 for hearing status determination, broadband stimuli, with interpretation and report

CPT Changes: An Insider's View 2021

CPT Assistant Oct 20:9, Oct 21:9

(Do not report 92651 in conjunction with 92652, 92653)

 # 92652 for threshold estimation at multiple frequencies, with interpretation and report

CPT Changes: An Insider's View 2021

CPT Assistant Oct 21:9

(Do not report 92652 in conjunction with 92651, 92653)

 # 92653 neurodiagnostic, with interpretation and report

CPT Changes: An Insider's View 2021

CPT Assistant Oct 21:9

(Do not report 92653 in conjunction with 92651, 92652)

 # 92558 Evoked otoacoustic emissions, screening (qualitative measurement of distortion product or transient evoked otoacoustic emissions), automated analysis

CPT Changes: An Insider's View 2012

CPT Assistant Aug 14:3

92587 Distortion product evoked otoacoustic emissions; limited evaluation (to confirm the presence or absence of hearing disorder, 3-6 frequencies) or transient evoked otoacoustic emissions, with interpretation and report

CPT Changes: An Insider's View 2012

CPT Assistant Sep 07:11

92588 comprehensive diagnostic evaluation (quantitative analysis of outer hair cell function by cochlear mapping, minimum of 12 frequencies), with interpretation and report

CPT Changes: An Insider's View 2012

CPT Assistant Aug 14:3

(For central auditory function evaluation, see 92620, 92621)

92596 Ear protector attenuation measurements

CPT Assistant Aug 14:3

92597 Code is out of numerical sequence. See 92603-92607

Evaluative and Therapeutic Services

Codes 92601 and 92603 describe post-operative analysis and fitting of previously placed external devices, connection to the cochlear implant, and programming of the stimulator. Codes 92602 and 92604 describe subsequent sessions for measurements and adjustment of the external transmitter and re-programming of the internal stimulator.

(For placement of cochlear implant, use 69930)

Codes 92622, 92623 describe the analysis, programming, and verification of an auditory osseointegrated sound processor, any type. These services include evaluating the attachment of the processor, device feedback calibration, device programming, and verification of the processor performance. These codes should be used for subsequent reprogramming, when performed.

►Codes 92628-92642 describe services primarily related to air-conduction hearing aids for the treatment of sensorineural, mixed, and conductive hearing loss. Following a diagnosis of hearing loss, this set of codes would apply to the full range of services specific to air-conduction hearing aids. These services fall into six major categories: (1) hearing aid candidacy determination; (2) hearing aid selection; (3) hearing aid fitting; (4) follow-up services after fitting; (5) verification; and (6) assistive-device services. Objective verification is typically performed either at the time of fitting or post-fitting follow-up, and it can be performed through behavioral verification, probe-microphone measurement, and/or electroacoustic analysis. Each technique constitutes significantly different work and practice expense. Codes 92628, 92629, 92631, 92632, 92634, 92635, 92636, 92637, 92638 are unilateral or bilateral. Codes 92639, 92641 represent services performed on both ears, and modifier 52 must be appended if the service is only performed on one ear.

Codes 92638, 92639, 92641 represent the three different methods of objective verification and may be reported concurrently with 92634, 92635, 92636, 92637.

Codes 92634, 92635, 92636, 92637, 92638, 92639 are not intended for use with implantable or osseointegrated hearing devices. However, these codes may be reported when providing air conduction hearing aid services to an ear on the same date of service that implantable or osseointegrated device services are provided to the contralateral ear. Electroacoustic analysis verification (92641) can be performed by itself or with other types of hearing devices, such as frequency modulated/digitally modulated technology or osseointegrated devices. Code 92642 describes fitting services for hearing assistive supplemental technology.

See the table on page 771 for the major category of services and their associated codes and assigned times.◄

★ **92601** Diagnostic analysis of cochlear implant, patient younger than 7 years of age; with programming

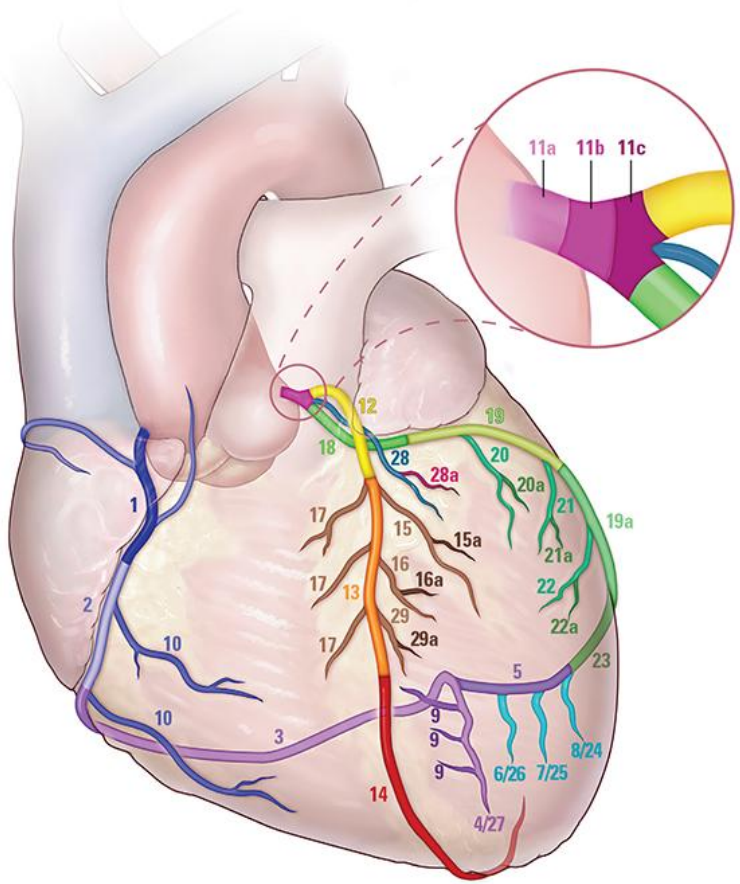
Coronary Therapeutic Services and Procedures



►Codes 92920-92945 describe percutaneous revascularization services performed for occlusive disease of the coronary vessels (major coronary arteries, coronary artery branches, or coronary artery bypass grafts). These percutaneous coronary intervention (PCI) codes are built on progressive hierarchies with more intensive services inclusive of lesser intensive services. These PCI codes all include the work of accessing and selectively catheterizing the vessel, traversing the lesion, radiological supervision and interpretation directly related to the intervention(s) performed, closure of the arteriotomy when performed through the access sheath, and imaging performed to document completion of the intervention in addition to the intervention(s) performed. These codes include angioplasty (eg, conventional balloons, cutting balloons, wired balloons, cryoplasty balloons), atherectomy (eg, directional atherectomy, rotational atherectomy, orbital atherectomy, laser atherectomy), and stenting (eg, balloon-expandable stents, self-expanding stents, bare-metal stents, drug-eluting stents, covered stents). Each code in this family includes balloon angioplasty, when performed. Diagnostic coronary angiography may be reported separately under specific circumstances as outlined below. Percutaneous transluminal coronary lithotripsy may be reported using 92972 in conjunction with 92920, 92924, 92928, 92930, 92933, 92937, 92941, 92943, 92945, as appropriate.

Diagnostic coronary angiography codes (93454-93461) and injection procedure codes (93563-93564) should not be used with percutaneous coronary revascularization services (92920-92945) to report:

1. Contrast injections, angiography, roadmapping, and/or fluoroscopic guidance for the coronary intervention,
2. Vessel measurement for the coronary intervention, **or**
3. Post-coronary angioplasty/stent/atherectomy angiography, as this work is captured in the percutaneous coronary revascularization services codes (92920-92945).

Coronary Artery Segments

Illustration of coronary artery segments.

1. Proximal right coronary artery segment (pRCA)
2. Mid-right coronary artery conduit segment (mRCA)
3. Distal right coronary artery conduit segment (RCA)
4. Right posterior descending artery segment (PDA)
5. Right posterior atriventricular segment (rPAV)
6. First right posterolateral segment (1st RPL)
7. Second right posterolateral segment (2nd RPL)
8. Third right posterolateral segment (3rd RPL)
9. Posterior descending septal perforators segment (pDSP)
10. Acute marginal segment(s) (aMarg)

11a. Proximal left main coronary artery segment (pLM)
11b. Mid left main coronary artery segment (mLM)
11c. Distal left main coronary artery segment (dLM)

12. Proximal LAD artery segment (pLAD)
13. Mid-LAD artery segment (mLAD)
14. Distal LAD artery segment (dLAD)
15. First diagonal branch segment (1st Diag)

15a. Lateral first diagonal branch segment (Lat 1st Diag)

16. Second diagonal branch segment (2nd Diag)

16a. Lateral second diagonal branch segment (Lat 2nd Diag)

17. LAD septal perforator segments (LAD SP)
18. Proximal circumflex artery segment (pCIRC)
19. Mid-circumflex artery segment (mCIRC)

19a. Distal circumflex artery segment (dCIRC)

20. First obtuse marginal branch segment (1st OM)

20a. Lateral first obtuse marginal branch segment (Lat 1st OM)

21. Second obtuse marginal branch segment (2nd OM)

21a. Lateral second obtuse marginal branch segment (Lat 2nd OM)

22. Third obtuse marginal branch segment (3rd OM)

22a. Lateral third obtuse marginal branch segment (Lat 3rd OM)

23. Circumflex artery AV groove continuation segment (CIRC AV)
24. First left posterolateral branch segment (1st LPL)
25. Second left posterolateral branch segment (2nd LPL)
26. Third left posterolateral branch segment (3rd LPL)
27. Left posterior descending artery segment (LPDA)
28. Ramus intermedius segment (Ramus)

28a. Lateral ramus intermedius segment (Lat Ramus)

29. Third diagonal branch segment (3rd Diag)

29a. Lateral third diagonal branch segment (Lat 3rd Diag)

Diagnostic angiography performed at the time of a coronary interventional procedure may be separately reportable if:

1. No prior catheter-based coronary angiography study is available, and a full diagnostic study is performed, and a decision to intervene is based on the diagnostic angiography, **or**
2. A prior study is available, but as documented in the medical record:
    a. The patient's condition with respect to the clinical indication has changed since the prior study, **or**
    b. The prior study provides inadequate visualization of the anatomy and/or pathology, **or**
    c. There is a clinical change during the procedure that requires new evaluation outside the target area of intervention.◄

Diagnostic coronary angiography performed at a separate session from an interventional procedure is separately reportable.

►***Coronary lesion:*** For the purposes of reporting, a single, distinct coronary lesion starts at the proximal end of the target lesion and ends at the distal end of the target lesion. A single, distinct coronary lesion may involve multiple coronary segments and may extend from a major coronary artery into one of its branches or from a bypass graft into the subtended vessel. For the purposes of reporting, two distinct coronary lesions within one major coronary artery are considered present when the first lesion is geographically separated from the second lesion. For example, a diffuse, single coronary lesion extending from the mid to distal right coronary artery (RCA) treated with two stents constitutes a single, distinct coronary lesion. A coronary lesion in the proximal RCA treated with a single stent and a separate coronary lesion in the distal RCA treated with two stents would be considered two distinct coronary lesions for the purposes of reporting.

Major coronary arteries: The major coronary arteries are the left main, left anterior descending, left circumflex, right, and ramus intermedius arteries. When one segment of a major coronary artery is treated through the native circulation and treatment of another segment of the same artery requires access through a coronary artery bypass graft, the intervention through the bypass graft is reported separately.

Coronary artery branches: Up to two coronary artery branches of the left anterior descending (diagonals), left circumflex (marginals), and right (posterior descending, posterolaterals) coronary arteries are recognized. The left main and ramus intermedius coronary arteries do not have recognized branches for reporting purposes.

Coronary segments: Coronary segments are recognized portions of each major coronary artery and its branches. For the purposes of coding, coronary segments are defined using the established paradigm used in the National Cardiovascular Data Registry (NCDR®) CathPCI database.

Coronary artery bypass grafts: Each coronary artery bypass graft represents a major coronary artery. A sequential or branching bypass graft (eg, Y graft) with more than one distal anastomosis represents only one graft. PCI performed on a major coronary artery or major coronary artery branch by access through a bypass graft is reported using the bypass graft PCI codes. Bypass graft PCI codes include the use of coronary artery embolic protection devices when performed.

Only one base code from the PCI family may be reported for revascularization of a major artery and its branches. Only one code should be reported for revascularization of a coronary artery bypass graft, its subtended coronary artery, and branches of the subtended coronary artery. If one segment of a major coronary artery and its branches is treated through the native circulation, and treatment of another segment of the same vessel requires access through a coronary artery bypass graft, an additional base code may be reported to describe the intervention performed through the bypass graft. The PCI base codes are 92920, 92924, 92928, 92930, 92933, 92937, 92941, 92943, and 92945.

PCI performed during the same session in additional major coronary artery(ies) or in/through an additional coronary artery bypass graft(s) may be reported using the applicable major coronary artery base code(s).

If a single lesion extends from one target vessel (major coronary artery, coronary artery bypass graft, or coronary artery branch) into another target vessel, but can be revascularized with a single intervention bridging the two vessels, this PCI should be reported with a single code despite treating more than one vessel. For example, if a left main coronary lesion extends into the proximal left circumflex coronary artery and a single stent is placed to treat the entire lesion, this PCI should be reported as a single vessel stent (92928).

When bifurcation lesions are treated with at least one stent, 92930 is reported. For example, when both branches of a bifurcation lesion involving the left anterior descending (LAD) artery and the first diagonal artery are treated and at least one stent is used, report 92930.

Code 92941 is intended for situations in which PCI for acute MI, usually ST-elevation MI, is performed emergently. PCI of the culprit major coronary artery lesion(s) causing an acute myocardial infarction includes balloon angioplasty, atherectomy, stenting, nonmechanical manual aspiration thrombectomy, distal protection, and intracoronary rheolytic agent administration, when performed. Mechanical aspiration coronary thrombectomy (92973) may be reported separately.

PCI for a non-emergent acute coronary syndrome (eg, late-presenting or non-ST-elevation MI without ongoing chest pain) should not be reported with 92941.

PCI of chronic total occlusions is reported using 92943, 92945. Chronic total occlusion of a coronary vessel is present when there is no antegrade flow through the true lumen, accompanied by suggestive angiographic and clinical criteria (eg, antegrade "bridging" collaterals present, calcification at the occlusion site, no current presentation with ST elevation or Q wave acute myocardial infarction attributable to the occluded target lesion). Current clinical presentation with ST elevation or Q wave acute myocardial infarction attributable to the occluded target lesion, subtotal occlusion, or occlusion with dye staining at the site consistent with fresh thrombus are not considered chronic total occlusion. Some chronic total occlusions may be treated with antegrade advancement of a wire through the occluding calcified plaque or around this plaque in the subintimal space (92943). Some chronic total occlusion lesions must be traversed in a combined antegrade and retrograde fashion (92945). In such cases, in addition to the antegrade approach, a wire is advanced via a non-occluded coronary artery and through collateral vessels to cross the occlusion in a retrograde fashion from its distal cap.

Codes 92973 (percutaneous transluminal coronary thrombectomy, mechanical aspiration), 92974 (coronary brachytherapy), 92978 and 92979 (intravascular ultrasound/optical coherence tomography), 93571 and 93572 (intravascular Doppler velocity and/or pressure [reserve measurement]), and 92972 (percutaneous transluminal coronary lithotripsy), are add-on codes for reporting procedures performed in addition to coronary and bypass graft diagnostic and PCI procedures. Non-mechanical, manual aspiration thrombectomy is not reported with 92973 and is included in the PCI code for acute myocardial infarction (92941), when performed. For nonmechanical, manual aspiration thrombectomy performed during PCI for indications other than acute myocardial infarction, use 93799.

For purposes of reporting stent placement, there are two codes for stent PCI. Code 92928 is reported when one lesion is treated with one or more stents in a major coronary artery, whether the lesion is confined to one segment or extends across multiple coronary segments. When two or more separate coronary lesions are treated with two or more stents in two or more coronary segments in a major coronary artery and/or its branch(es), use 92930. Example 1: Placement of stents to treat a single lesion that overlaps the mid and distal RCA segments may be reported with 92928. Example 2: Treatment of two separate lesions by placement of stents in the first diagonal artery and the distal LAD may be reported with 92930.◄

Intravascular Ultrasound (Coronary Vessel or Graft)
92978

A catheter with a transducer at its tip is inserted and threaded through a selected coronary artery(s) or coronary bypass graft(s).

#+ 92979 each additional vessel (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2000, 2017
- *CPT Assistant* Nov 97:43-44, Nov 99:49, Dec 13:18, Dec 14:6

(Report 92979 once per additional vessel)

(Use 92979 in conjunction with 92978)

(Intravascular ultrasound and optical coherence tomography services include all transducer manipulations and repositioning within the specific vessel being examined, both before and after therapeutic intervention [eg, stent placement])

Cardiography

Codes 93040-93042 are appropriate when an order for the test is triggered by an event, the rhythm strip is used to help diagnose the presence or absence of an arrhythmia, and a report is generated. There must be a specific order for an electrocardiogram or rhythm strip followed by a separate, signed, written, and retrievable report. It is not appropriate to use these codes for reviewing the telemetry monitor strips taken from a monitoring system. The need for an electrocardiogram or rhythm strip should be supported by documentation in the patient medical record.

(For echocardiography, see 93303-93350)

(For acoustic cardiography services, use 93799)

93000 Electrocardiogram, routine ECG with at least 12 leads; with interpretation and report

Instructions for Reporting Electrocardiographic Recording

Codes 93040-93042 are appropriate when an order for the test is triggered by an event, the rhythm strip is used to help diagnose the presence or absence of an arrhythmia, and a report is generated. There must be a specific order for an electrocardiogram or rhythm strip followed by a separate, signed, written, and retrievable report. It is not appropriate to use these codes for reviewing the telemetry monitor strips taken from a monitoring system. The need for an electrocardiogram or rhythm strip should be supported by documentation in the patient medical record.

CPT Coding Guidelines, Cardiovascular, Cardiography

Cardiovascular Monitoring Services

Cardiovascular monitoring services are diagnostic medical procedures using in-person and remote technology to assess cardiovascular rhythm (ECG) data. Holter monitors (93224-93227) include up to 48 hours of continuous recording. Mobile cardiac telemetry monitors (93228, 93229) have the capability of transmitting a tracing at any time, always have internal ECG analysis algorithms designed to detect major arrhythmias, and transmit to an attended surveillance center. Event monitors (93268-93272) record segments of ECGs with recording initiation triggered either by patient activation or by an internal automatic, pre-programmed detection algorithm (or both) and transmit the recorded electrocardiographic data when requested (but cannot transmit immediately based upon the patient or algorithmic activation rhythm) and require attended surveillance. Long-term continuous recorders (93241, 93242, 93243, 93244, 93245, 93246, 93247, 93248) continuously record and store for greater than 48 hours and up to 7 days or for greater than 7 days up to 15 days.

Attended surveillance: is the immediate availability of a remote technician to respond to rhythm or device alert transmissions from a patient, either from an implanted or wearable monitoring or therapy device, as they are generated and transmitted to the remote surveillance location or center.

Electrocardiographic rhythm derived elements: elements derived from recordings of the electrical activation of the heart including, but not limited to heart rhythm, rate, ST analysis, heart rate variability, T-wave alternans.

Long-term continuous recorders: Continuously record the electrocardiographic rhythm from a device applied to the patient. The electrocardiographic rhythm recording data collected is analyzed and annotated with frequency, duration, and symptomatic rhythm correlations. The processing center technician reviews the data and notifies the physician or other qualified health care professional depending on the prescribed criteria. An initial findings report is generated for physician review and final interpretation.

Mobile cardiovascular telemetry (MCT): continuously records the electrocardiographic rhythm from external electrodes placed on the patient's body. Segments of the ECG data are automatically (without patient intervention) transmitted to a remote surveillance location by cellular or landline telephone signal. The segments of the rhythm, selected for transmission, are triggered automatically (MCT device algorithm) by rapid and slow heart rates or by the patient during a symptomatic episode. There is continuous real time data analysis by preprogrammed algorithms in the device and attended surveillance of the transmitted rhythm segments by a surveillance center technician to evaluate any arrhythmias and to determine signal quality. The surveillance center technician reviews the data and notifies the physician or other qualified health care professional depending on the prescribed criteria.

ECG rhythm derived elements are distinct from physiologic data, even when the same device is capable of producing both. Implantable cardiovascular physiologic monitor device services are always separately reported from implantable cardioverter-defibrillator (ICD) service.

93224 External electrocardiographic recording up to 48 hours by continuous rhythm recording and storage; includes recording, scanning analysis with report, review and interpretation by a physician or other qualified health care professional

(For interpretation and report only, use 93278 with modifier 26)

(For unlisted cardiographic procedure, use 93799)

Implantable, Insertable, and Wearable Cardiac Device Evaluations

Cardiac device evaluation services are diagnostic medical procedures using in-person and remote technology to assess device therapy and cardiovascular physiologic data. Codes 93260, 93261, 93279-93298 describe this technology and technical/professional and service center practice. Codes 93260, 93261, 93279-93292 are reported per procedure. Codes 93293, 93294, 93295, 93296 are reported no more than **once** every 90 days. Do not report 93293, 93294, 93295, 93296, if the monitoring period is less than 30 days. Codes 93297, 93298 are reported no more than **once** up tc every 30 days, per patient. Do not report 93297, 93298, if the monitoring period is less than 10 days. Do not report 93264 if the monitoring period is less than 30 days. Code 93264 is reported no more than once up to every 30 days, per patient.

For body surface–activation mapping to optimize electrical synchrony of a biventricular pacing or biventricular pacing-defibrillator system at the time of follow-up device interrogation or programming evaluation, also report 0696T in conjunction with the appropriate code (ie, 93279, 93281, 93284, 93286, 93287, 93288, 93289).

A service center may report 93296 during a period in which a physician or other qualified health care professional performs an in-person interrogation device evaluation. The same individual may not report an in-person and remote interrogation of the same device during the same period. Report only remote services when an in-person interrogation device evaluation is performed during a period of remote interrogation device evaluation. A period is established by the initiation of the remote monitoring or the 91st day of a pacemaker or implantable defibrillator monitoring or the 31st day of monitoring a subcutaneous cardiac rhythm monitor or implantable cardiovascular physiologic monitor, and extends for the subsequent 90 or 30 days respectively, for which remote monitoring is occurring. Programming device evaluations and in-person interrogation device evaluations may not be reported on the same date by the same individual. Programming device evaluations and remote interrogation device evaluations may both be reported during the remote interrogation device evaluation period.

For monitoring by wearable devices, see 93224-93272.

ECG rhythm derived elements are distinct from physiologic data, even when the same device is capable of producing both. Implantable cardiovascular physiologic monitor services are always separately reported from implantable defibrillator services. When cardiac rhythm data are derived from an implantable defibrillator or pacemaker, do not report subcutaneous cardiac rhythm monitor services with pacemaker or implantable defibrillator services.

Do not report 93268-93272 when performing 93260, 93261, 93279-93289, 93291-93296, or 93298. Do not report 93040, 93041, 93042 when performing 93260, 93261, 93279-93289, 93291-93296, or 93298.

The pacemaker and implantable defibrillator interrogation device evaluations, peri-procedural device evaluations and programming, and programming device evaluations may not be reported in conjunction with pacemaker or implantable defibrillator device and/or lead insertion or revision services by the same individual.

The following definitions and instructions apply to codes 93260, 93261, 93279-93298.

Attended surveillance: the immediate availability of a remote technician to respond to rhythm or device alert transmissions from a patient, either from an implanted, inserted, or wearable monitoring or therapy device, as they are generated and transmitted to the remote surveillance location or center.

Device, leadless: a leadless cardiac pacemaker system that includes a pulse generator with built-in battery and electrode for implantation into the cardiac chamber via a transcatheter approach.

Device, single lead: a pacemaker or implantable defibrillator with pacing and sensing function in only one chamber of the heart or a subcutaneous electrode.

Device, dual lead: a pacemaker or implantable defibrillator with pacing and sensing function in only two chambers of the heart.

Device, multiple lead: a pacemaker or implantable defibrillator with pacing and sensing function in three or more chambers of the heart.

Electrocardiographic rhythm derived elements: elements derived from recordings of the electrical activation of the heart including, but not limited to heart rhythm, rate, ST analysis, heart rate variability, T-wave alternans.

Implantable cardiovascular physiologic monitor: an implantable cardiovascular device used to assist the physician or other qualified health care professional in the management of non-rhythm related cardiac conditions such as heart failure. The device collects longitudinal physiologic cardiovascular data elements from one or more internal sensors (such as right ventricular pressure, pulmonary artery pressure, left atrial pressure, or an index of lung water) and/or external sensors (such as blood pressure or body weight) for patient assessment and management. The data are stored and transmitted by either local telemetry or remotely to an Internet-based file server or surveillance technician. The function of the implantable cardiovascular physiologic monitor may be an additional function of an implantable cardiac device (eg, implantable defibrillator) or a function of a stand-alone device. When implantable cardiovascular physiologic monitor functionality i included in an implantable defibrillator device or pacemaker, the implantable cardiovascular physiologic monitor data and the implantable defibrillator or pacemaker, heart rhythm data such as sensing, pacing, and tachycardia detection therapy are distinct and, therefore, the monitoring processes are distinct.

Implantable defibrillator: two general categories of implantable defibrillators exist: transvenous implantable pacing cardioverter-defibrillator (ICD) and subcutaneous implantable defibrillator (SICD). An implantable pacing cardioverter-defibrillator device provides high-energy and low-energy stimulation to one or more chambers of the heart to terminate rapid heart rhythms called tachycardia or fibrillation. Implantable pacing cardioverter-defibrillators also have pacemaker functions to treat slow heart rhythms called bradycardia. In addition to the tachycardia and bradycardia functions, the implantable pacing cardioverter-defibrillator may or may not include the functionality of an implantable cardiovascular physiologic monitor or a subcutaneous cardiac rhythm monitor. The subcutaneous implantable defibrillator uses a single subcutaneous electrode to treat ventricular tachyarrhythmias. Subcutaneous implantable defibrillators differ from transvenous implantable pacing cardioverter-defibrillators in that subcutaneous implantable defibrillators do not provide antitachycardia pacing or chronic pacing. For subcutaneous implantable defibrillator device evaluation, see 93260, 93261.

Interrogation device evaluation: an evaluation of an implantable device such as a cardiac pacemaker, implantable defibrillator, implantable cardiovascular physiologic monitor, or subcutaneous cardiac rhythm monitor. Using an office, hospital, or emergency room instrument or via a remote interrogation system, stored and measured information about the lead(s) when present, sensor(s) when present, battery and the implanted device function, as well as data collected about the patient's heart rhythm and heart rate is retrieved. The retrieved information is evaluated to determine the current programming of the device and to evaluate certain aspects of the device function such as battery voltage, lead impedance, tachycardia detection settings, and rhythm treatment settings.

The components that must be evaluated for the various types of implantable or insertable cardiac devices are listed below. (The required components for both remote and in-person interrogations are the same.)

Pacemaker: programmed parameters, with or without lead(s), battery, capture and sensing function and heart rhythm.

Implantable defibrillator: programmed parameters, lead(s), battery, capture and sensing function, presence or absence of therapy for ventricular tachyarrhythmias and underlying heart rhythm.

Implantable cardiovascular physiologic monitor: programmed parameters and analysis of at least one recorded physiologic cardiovascular data element from either internal or external sensors.

Subcutaneous cardiac rhythm monitor: programmed parameters and the heart rate and rhythm during recorded episodes from both patient initiated and device algorithm detected events, when present.

Interrogation device evaluation (remote): a procedure performed for patients with pacemakers, implantable defibrillators, or subcutaneous cardiac rhythm monitors using data obtained remotely. All device functions, including the programmed parameters, lead(s), battery, capture and sensing function, presence or absence of therapy for ventricular tachyarrhythmias (for implantable defibrillators) and underlying heart rhythm are evaluated.

The components that must be evaluated for the various types of implantable or insertable cardiac devices are listed below. (The required components for both remote and in person interrogations are the same.)

Pacemaker: programmed parameters, with or without lead(s), battery, capture and sensing function, and heart rhythm.

Implantable defibrillator: programmed parameters, lead(s), battery, capture and sensing function, presence or absence of therapy for ventricular tachyarrhythmias, and underlying heart rhythm.

Implantable cardiovascular physiologic monitor: programmed parameters and analysis of at least one recorded physiologic cardiovascular data element from either internal or external sensors.

Subcutaneous cardiac rhythm monitor: programmed parameters and the heart rate and rhythm during recorded episodes from both patient-initiated and device algorithm detected events, when present.

Pacemaker: an implantable device that provides low energy localized stimulation to one or more chambers of the heart to initiate contraction in that chamber. Two general categories of pacemakers exist: (1) pacemakers with a subcutaneous generator plus transvenous/epicardial lead(s); and (2) leadless pacemakers. A leadless pacemaker does not require a subcutaneous pocket for the generator. It combines a miniaturized generator with an integrated electrode for implantation in a heart chamber via a transcatheter approach.

Peri-procedural device evaluation and programming: an evaluation of an implantable device system (either a pacemaker or implantable defibrillator) to adjust the device to settings appropriate for the patient prior to a surgery, procedure, or test. The device system data are interrogated to evaluate the lead(s) when present, sensor(s), and battery in addition to review of stored information including patient and system measurements. The device is programmed to settings appropriate for the surgery, procedure, or test, as required. A second evaluation and programming are performed after the surgery, procedure, or test to provide settings appropriate to the post procedural situation, as required. If one performs both the pre- and post-evaluation and programming service, the appropriate code, either 93286 or 93287, would be reported two times. If one performs the pre-surgical service and a separate individual performs the post-surgical service, each reports either 93286 or 93287 only one time.

Physiologic cardiovascular data elements: data elements from one or more internal sensors (such as right ventricular pressure, left atrial pressure or an index of lung water) and/or external sensors (such as blood pressure or body weight) for patient assessment and management. It does not include ECG rhythm derived data elements.

Programming device evaluation (in person): a procedure performed for patients with a pacemaker, implantable defibrillator, or subcutaneous cardiac rhythm monitor. All device functions, including the battery, programmable settings and lead(s), when present, are evaluated. To assess capture thresholds, iterative adjustments (eg, progressive changes in pacing output of a pacing lead) of the programmable parameters are conducted. The iterative adjustments provide information that permits the operator to assess and select the most appropriate final program parameters to provide for consistent delivery of the appropriate therapy and to verify the function of the device. The final program parameters may or may not change after evaluation.

The programming device evaluation includes all of the components of the interrogation device evaluation (remote) or the interrogation device evaluation (in person), and it includes the selection of patient specific programmed parameters depending on the type of device.

The components that must be evaluated for the various types of programming device evaluations are listed below. (See also required interrogation device evaluation [remote and in person] components above.)

Pacemaker: programmed parameters, lead(s) when present, battery, capture and sensing function, and heart rhythm. Often, but not always, the sensor rate response, lower and upper heart rates AV intervals, pacing voltage and pulse duration, sensing value, and diagnostics will be adjusted during a programming evaluation.

Implantable defibrillator: programmed parameters, lead(s), battery, capture and sensing function, presence or absence of therapy for ventricular tachyarrhythmias and underlying heart rhythm. Often, but not always, the sensor rate response, lower and upper heart rates, AV intervals, pacing voltage and pulse duration, sensing value, and diagnostics will be adjusted during a programming evaluation. In addition, ventricular tachycardia detection and therapies are sometimes altered depending on the interrogated data, patient's rhythm, symptoms, and condition.

Subcutaneous cardiac rhythm monitor: programmed parameters and the heart rhythm during recorded episodes from both patient initiated and device algorithm detected events. Often, but no always, the tachycardia and bradycardia detection criteria will be adjusted during a programming evaluation.

Subcutaneous cardiac rhythm monitor: an implantable or insertable device that continuously records the electrocardiographic rhythm triggered automatically by rapid, irregular, and/or slow heart rates or by the patient during a symptomatic episode. The cardiac rhythm monitor function may be the only function of the device or it may be part of a pacemaker or implantable defibrillator device. The data are stored and transmitted by either local telemetry or remotely to an Internet-based file server or surveillance technician. Extraction of data and compilation or report for physician or qualified health care professional interpretation is usually performed in the office setting.

Transtelephonic rhythm strip pacemaker evaluation: service of transmission of an electrocardiographic rhythm strip over the telephone by the patient using a transmitter and recorded by a receiving location using a receiver/recorder (also commonly known as transtelephonic pacemaker monitoring). The electrocardiographic rhythm strip is recorded both with and without a magnet applied over the pacemaker. The rhythm strip is evaluated for heart rate and rhythm, atrial and ventricular capture (if observed) and atrial and ventricular sensing (if observed). In addition, the battery status of the pacemaker is determined by measurement of the paced rate on the electrocardiographic rhythm strip recorded with the magnet applied. For remote monitoring of an implantable wireless pulmonary artery pressure sensor, use 93264.

Implantable wireless pulmonary artery sensor: an implantable cardiovascular device used to assist the physician or other qualified health care professional in monitoring heart failure. The device collects longitudinal physiologic cardiovascular data elements from an internal sensor located in the pulmonary artery. The data are transmitted and stored remotely to an Internet-based file server.

 # 93264 Remote monitoring of a wireless pulmonary artery pressure sensor for up to 30 days, including at least weekly downloads of pulmonary artery pressure recordings, interpretation(s), trend analysis, and report(s) by a physician or other qualified health care professional

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Jun 19:3, Feb 20:7, Apr 25:17

(Report 93264 only once per 30 days)

(Do not report 93264 if download[s], interpretation[s], trend analysis, and report[s] do not occur at least weekly during the 30-day time period)

(Do not report 93264 if review does not occur at least weekly during the 30-day time period)

(Do not report 93264 if monitoring period is less than 30 days)

(For remote monitoring of an implantable wireless left atrial pressure sensor, use 0934T)

93279 Programming device evaluation (in person) with iterative adjustment of the implantable device to test the function of the device and select optimal permanent programmed values with analysis, review and report by a physician or other qualified health care professional; single lead pacemaker system or leadless pacemaker system in one cardiac chamber

- *CPT Changes: An Insider's View* 2009, 2010, 2013, 2019
- *CPT Assistant* Jun 12:4, Jun 13:6, Jul 13:7, Apr 14:3, Jul 14:3, Nov 14:5, Aug 16:5, Mar 19:6, Sep 22:1

(Do not report 93279 in conjunction with 93286, 93288)

93280 dual lead pacemaker system

- *CPT Changes: An Insider's View* 2009, 2010, 2013
- *CPT Assistant* Jun 12:4, Jun 13:6, Jul 13:7, Apr 14:3, Aug 16:5, Mar 22:13, Sep 22:1

(Do not report 93280 in conjunction with 93286, 93288)

93281 multiple lead pacemaker system

- *CPT Changes: An Insider's View* 2009, 2010, 2013
- *CPT Assistant* Jun 12:4, Jun 13:6, Jul 13:7, Apr 14:3, Aug 16:5, Sep 22:1

(Use 93281 in conjunction with 0696T when body surface–activation mapping to optimize electrical synchrony is also performed)

(Do not report 93281 in conjunction with 93286, 93288)

93282 single lead transvenous implantable defibrillator system

- *CPT Changes: An Insider's View* 2009, 2010, 2013, 2015
- *CPT Assistant* Jun 13:6, Jul 13:7, Apr 14:3, Aug 16:5, Sep 22:1

(Do not report 93282 in conjunction with 93260, 93287, 93289, 93745)

93283 dual lead transvenous implantable defibrillator system

- *CPT Changes: An Insider's View* 2009, 2010, 2013, 2015
- *CPT Assistant* Jun 13:6, Jul 13:7, Apr 14:3, Aug 16:5

(Do not report 93283 in conjunction with 93287, 93289)

93284 multiple lead transvenous implantable defibrillator system

- *CPT Changes: An Insider's View* 2009, 2010, 2013, 2015
- *CPT Assistant* Jun 13:6, Jul 13:7, Apr 14:3, Aug 16:5

(Use 93284 in conjunction with 0696T when body surface–activation mapping to optimize electrical synchrony is also performed)

(Do not report 93284 in conjunction with 93287, 93289)

 # 93260 implantable subcutaneous lead defibrillator system

- *CPT Changes: An Insider's View* 2015
- *CPT Assistant* Nov 14:5, Aug 16:5, Sep 22:1

(Do not report 93260 in conjunction with 93261, 93282, 93287)

(Do not report 93260 in conjunction with pulse generator and lead insertion or repositioning codes 33240, 33241, 33262, 33270, 33271, 33272, 33273)

93285 subcutaneous cardiac rhythm monitor system

CPT Changes: An Insider's View 2009, 2010, 2013, 2019

CPT Assistant Aug 16:5, Sep 22:1

(Do not report 93285 in conjunction with 33285, 93279-93284, 93291, 0650T)

(For programming device evaluation [remote] of subcutaneous cardiac rhythm monitor system, use 0650T)

93286 Peri-procedural device evaluation (in person) and programming of device system parameters before or after a surgery, procedure, or test with analysis, review and report by a physician or other qualified health care professional; single, dual, or multiple lead pacemaker system, or leadless pacemaker system

CPT Changes: An Insider's View 2009, 2010, 2013, 2019

CPT Assistant Jun 13:6, Jul 13:7, Apr 14:3, Aug 16:5, Mar 19:6, Jul 23:1, Sep 23:48

(Report 93286 once before and once after surgery, procedure, or test, when device evaluation and programming is performed before and after surgery, procedure, or test)

(Do not report 93286 in conjunction with 93279, 93280, 93281, 93288, 0408T, 0409T, 0410T, 0411T, 0414T, 0415T, 0915T-0925T)

93287 single, dual, or multiple lead implantable defibrillator system

CPT Changes: An Insider's View 2009, 2010, 2013, 2015

CPT Assistant Jun 13:6, Jul 13:7, Apr 14:3, Jul 14:3, Aug 16:5, Sep 23:48

(Use 93286, 93287 in conjunction with 0696T when body surface–activation mapping to optimize electrical synchrony is also performed)

(Report 93287 once before and once after surgery, procedure, or test, when device evaluation and programming is performed before and after surgery, procedure, or test)

(Do not report 93287 in conjunction with 93260, 93261, 93282, 93283, 93284, 93289, 0408T, 0409T, 0410T, 0411T, 0414T, 0415T, 0915T-0925T)

93288 Interrogation device evaluation (in person) with analysis, review and report by a physician or other qualified health care professional, includes connection, recording and disconnection per patient encounter; single, dual, or multiple lead pacemaker system, or leadless pacemaker system

CPT Changes: An Insider's View 2009, 2013, 2019

CPT Assistant Jun 12:4, Jun 13:6, Jul 13:7, Apr 14:3, Aug 16:5, Mar 19:6

(Do not report 93288 in conjunction with 93279-93281, 93286, 93294, 93296)

93289 single, dual, or multiple lead transvenous implantable defibrillator system, including analysis of heart rhythm derived data elements

CPT Changes: An Insider's View 2009, 2013, 2015

CPT Assistant Jun 13:6, Jul 13:7, Apr 14:3, Aug 16:5

(Use 93288, 93289 in conjunction with 0696T when body surface–activation mapping to optimize electrical synchrony is also performed)

(For monitoring physiologic cardiovascular data elements derived from an implantable defibrillator, use 93290)

(Do not report 93289 in conjunction with 93261, 93282, 93283, 93284, 93287, 93295, 93296)

 # 93261 implantable subcutaneous lead defibrillator system

CPT Changes: An Insider's View 2015

CPT Assistant Nov 14:5, Aug 16:5

(Do not report 93261 in conjunction with 93260, 93287, 93289)

(Do not report 93261 in conjunction with pulse generator and lead insertion or repositioning codes 33240, 33241, 33262, 33270, 33271, 33272, 33273)

93290 implantable cardiovascular physiologic monitor system, including analysis of 1 or more recorded physiologic cardiovascular data elements from all internal and external sensors

CPT Changes: An Insider's View 2009, 2013, 2019

CPT Assistant Feb 10:13, Apr 13:11, Aug 16:5, Feb 20:7

(For heart rhythm derived data elements, use 93289)

(Do not report 93290 in conjunction with 93297)

93291 subcutaneous cardiac rhythm monitor system, including heart rhythm derived data analysis

CPT Changes: An Insider's View 2009, 2013, 2019

CPT Assistant Aug 16:5, Sep 22:1

(Do not report 93291 in conjunction with 33285, 93288-93290, 93298, 0650T)

93292 wearable defibrillator system

CPT Changes: An Insider's View 2009, 2013

CPT Assistant Aug 16:5

(Do not report 93292 in conjunction with 93745)

Coding Tip

Instructions for Reporting Pacemaker and Interrogation Device Evaluations

Codes 93293-93296 are reported no more than once every 90 days. Do not report 93293-93296 if the monitoring period is less than 30 days.

CPT Coding Guidelines, Cardiovascular, Cardiography Implantable and Wearable Cardiac Device Evaluations

93293 Transtelephonic rhythm strip pacemaker evaluation(s) single, dual, or multiple lead pacemaker system, includes recording with and without magnet application with analysis, review and report(s) by a physician or other qualified health care professional, up to 90 days

- *CPT Changes: An Insider's View* 2009, 2013
- *CPT Assistant* Aug 16:5

(Do not report 93293 in conjunction with 93294)

(For in person evaluation, see 93040, 93041, 93042)

(Report 93293 only once per 90 days)

93294 Interrogation device evaluation(s) (remote), up to 90 days; single, dual, or multiple lead pacemaker system, or leadless pacemaker system with interim analysis, review(s) and report(s) by a physician or other qualified health care professional

- *CPT Changes: An Insider's View* 2009, 2013, 2019
- *CPT Assistant* Jun 12:4, Aug 16:5, Mar 19:6, Sep 22:1

(Do not report 93294 in conjunction with 93288, 93293)

(Report 93294 only once per 90 days)

93295 single, dual, or multiple lead implantable defibrillator system with interim analysis, review(s) and report(s) by a physician or other qualified health care professional

- *CPT Changes: An Insider's View* 2009, 2013, 2015
- *CPT Assistant* Aug 16:5, Sep 22:1

(For remote monitoring of physiologic cardiovascular data elements derived from an ICD, use 93297)

(Do not report 93295 in conjunction with 93289)

(Report 93295 only once per 90 days)

(For remote interrogation device evaluation[s] of implantable cardioverter-defibrillator with substernal lead, see 0578T, 0579T)

93296 single, dual, or multiple lead pacemaker system, leadless pacemaker system, or implantable defibrillator system, remote data acquisition(s), receipt of transmissions and technician review, technical support and distribution of results

- *CPT Changes: An Insider's View* 2009, 2015, 2019
- *CPT Assistant* Aug 16:5, Mar 19:6, Sep 22:1, Sep 24:26

(Do not report 93296 in conjunction with 93288, 93289)

(Report 93296 only once per 90 days)

(For remote interrogation device evaluation[s] of implantable cardioverter-defibrillator with substernal lead, see 0578T, 0579T)

93297 Interrogation device evaluation(s), (remote) up to 30 days; implantable cardiovascular physiologic monitor system, including analysis of 1 or more recorded physiologic cardiovascular data elements from all internal and external sensors, analysis, review(s) and report(s) by a physician or other qualified health care professional

- *CPT Changes: An Insider's View* 2009, 2013, 2019
- *CPT Assistant* Feb 09:9, 12, Apr 13:11, Aug 16:5, Oct 19:3, Feb 20:12, Sep 22:1, Sep 24:26

(For heart rhythm derived data elements, use 93295)

►(Do not report 93297 in conjunction with 93264, 93290, 93298, 99091, 99445, 99454)◄

(Report 93297 only once per 30 days)

93298 subcutaneous cardiac rhythm monitor system, including analysis of recorded heart rhythm data, analysis, review(s) and report(s) by a physician or other qualified health care professional

CPT Changes: An Insider's View 2009, 2013, 2017, 2019

CPT Assistant Feb 09:9, 12, Aug 16:5, Oct 19:3, Feb 20:12, Sep 22:1

►(Do not report 93298 in conjunction with 33285, 93291, 93297, 99091, 99445, 99454)◄

(Report 93298 only once per 30 days)

(For remote monitoring of an implantable wireless pulmonary artery pressure sensor, use 93264)

►Implantable Cardiovascular Autonomic Nervous System Device Evaluation◄

►Device evaluation of a baroreflex activation therapy (BAT) modulation system comprised of a lead implanted onto the carotid sinus that is connected to a pulse generator placed in a subcutaneous pocket is reported with 93145 (without programming) and 93146 (with programming). Code 93146 includes the work of 93145. Codes 93145, 93146 may only be reported once pe day.

Interrogation with or without programming of the BAT system, when performed during the same session as system component implantation, replacement, or revision, is considered inherent to the procedure and not separately reported.◄

#● 93145 Interrogation device evaluation (in person), carotid sinus baroreflex activation therapy (BAT) modulation system including telemetric iterative communication with the implantable device to monitor device diagnostics and programmed therapy values, with interpretation and report (eg, battery status, lead impedance, pulse amplitude, pulse width, therapy frequency, pathway mode, burst mode, therapy start/stop times each day); without programming

CPT Changes: An Insider's View 2026

#● 93146 with programming, including optimization of tolerated therapeutic level setting

CPT Changes: An Insider's View 2026

►(Do not report 93146 in conjunction with 93145)◄

►(Do not report 93145, 93146 in conjunction with 64654, 64655, 64656, 64657)◄

Phrenic Nerve Stimulation System

Phrenic nerve stimulation system–therapy activation (93150) is performed once (after 30 days from implantation to allow for lead stabilization). Activation includes device evaluation and programming services: rate, pulse amplitude; pulse duration; configuration of waveform; battery status; electrode selection output modulation; cycling; impedance; and patient compliance measurements (eg, hours of therapy, sleeping position, and activity [sleep activity, awake activity, time in a sleep position]). Subsequent interrogation only (93153) or interrogation and programming (93151, 93152) may be performed to evaluate device function and to optimize performance incrementally. For patients that require programming during a polysomnogram, report 93152 once, regardless of how many programming changes are made over the course of the polysomnogram.

 # 93150 Therapy activation of implanted phrenic nerve stimulator system, including all interrogation and programming

CPT Changes: An Insider's View 2024

CPT Assistant Apr 24:9

(Do not report 93150 in conjunction with 33276, 33277, 33278, 33279, 33280, 33281, 93151, 93152, 93153)

 # 93151 Interrogation and programming (minimum one parameter) of implanted phrenic nerve stimulator system

CPT Changes: An Insider's View 2024

CPT Assistant Apr 24:9

(Do not report 93151 in conjunction with 93150, 93152, 93153)

(For interrogation without programming of implanted phrenic nerve stimulator system, use 93153)

 # 93152 Interrogation and programming of implanted phrenic nerve stimulator system during polysomnography

CPT Changes: An Insider's View 2024

CPT Assistant Apr 24:9

(Do not report 93152 in conjunction with 33276, 93150, 93151, 93153)

(For polysomnography, see 95808, 95810, 95811, 95782, 95783)

 # 93153 Interrogation without programming of implanted phrenic nerve stimulator system

CPT Changes: An Insider's View 2024

CPT Assistant Apr 24:9

(Do not report 93153 in conjunction with 33276, 93150, 93151, 93152)

Echocardiography

Echocardiography includes obtaining ultrasonic signals from the heart and great vessels, with real time image and/or Doppler ultrasonic signal documentation, with interpretation and report. When interpretation is performed separately, use modifier 26.

A complete transthoracic echocardiogram without spectral or color flow Doppler (93307) is a comprehensive procedure that includes 2-dimensional and, when performed, selected M-mode examination of the left and right atria, left and right ventricles, the aortic, mitral, and tricuspid valves, the pericardium, and adjacent portions of the aorta. Multiple views are required to obtain a complete functional and anatomic evaluation, and appropriate measurements are obtained and recorded. Despite significant effort, identification and measurement of some structures may not always be possible. In such instances, the reason that an element could not be visualized must be documented. Additional structures that may be visualized (eg, pulmonary veins, pulmonary artery, pulmonic valve, inferior vena cava) would be included as part of the service.

A complete transthoracic echocardiogram with spectral and color flow Doppler (93306) is a comprehensive procedure that includes spectral Doppler and color flow Doppler in addition to the 2-dimensional and selected M-mode examinations, when performed. Spectral Doppler (93320, 93321) and color flow Doppler (93325) provide information regarding intracardiac blood flow and hemodynamics.

A follow-up or limited echocardiographic study (93308) is an examination that does not evaluate or document the attempt to evaluate all the structures that comprise the complete echocardiographic exam. This is typically limited to, or performed in follow-up of a focused clinical concern.

In stress echocardiography, echocardiographic images are recorded from multiple cardiac windows before, after, and in some protocols, during stress. The stress is achieved by (1) walking on a treadmill; (2) using a bicycle (supine or upright); or (3) the administration of pharmacological agents that either simulate exercise (by increasing heart rate, blood pressure, or myocardial contractility) or alter coronary flow (vasodilation). The patient's ECG, heart rate, and blood pressure are monitored at baseline, throughout the procedure and during recovery. Reports are prepared to evaluate (1) the duration of stress, the reason for stopping, and the hemodynamic response to stress; (2) the electrocardiographic response to stress; and (3) the echocardiographic response to stress.

When a stress echocardiogram is performed with a complete cardiovascular stress test (continuous electrocardiographic monitoring, supervision, interpretation and report by a physician or other qualified health care professional), use 93351. When only the professional components of a complete stress test and a stress echocardiogram are provided (eg, in a facility setting) by the same physician, use 93351 with modifier 26. When all professional services of a stress test are not performed by the same physician performing the stress echocardiogram, use 93350 in conjunction with the appropriate codes (93016-93018) for the components of the cardiovascular stress test that are provided.

When left ventricular endocardial borders cannot be adequately identified by standard echocardiographic imaging, echocardiographic contrast may be infused intravenously both at rest and with stress to achieve that purpose. Code 93352 is used to report the administration of echocardiographic contrast agent in conjunction with the stress echocardiography codes (93350 or 93351). Supply of contrast agent and/or drugs used for pharmacological stress is reported separately in addition to the procedure code.

Code 93355 is used to report transesophageal echocardiography (TEE) services during transcatheter intracardiac therapies. Code 93355 is reported once per intervention and only by an individual who is not performing the interventional procedure. Code 93355 includes the work of passing the endoscopic ultrasound transducer through the mouth into the esophagus, when performed by the individual performing the TEE, diagnostic transesophageal echocardiography and ongoing manipulation of the transducer to guide sizing and/or placement of implants, determination of adequacy of the intervention, and assessment for potential complications. Real-time image acquisition, measurements, and interpretation of image(s), documentation of completion of the intervention, and final written report are included in this code.

A range of intracardiac therapies may be performed with TEE guidance. Code 93355 describes TEE during advanced transcatheter structural heart procedures (eg, transcatheter aortic valve replacement [TAVR], left atrial appendage closure [LAA], or percutaneous mitral valve repair).

See 93313 for separate reporting of the probe insertion by a physician other than the physician performing the TEE.

Report of an echocardiographic study, whether complete or limited, includes an interpretation of all obtained information, documentation of all clinically relevant findings including quantitative measurements obtained, plus a description of any recognized abnormalities. Pertinent images, videotape, and/or digital data are archived for permanent storage and are available for subsequent review. Use of echocardiography not meeting these criteria is not separately reportable.

Use of ultrasound, without thorough evaluation of organ(s) or anatomic region, image documentation and final, written report, is not separately reportable.

(For fetal echocardiography, see 76825-76828)

93303 Transthoracic echocardiography for congenital cardiac anomalies; complete

- *CPT Assistant* Jan 10:8, Oct 10:17, Dec 10:17, Aug 13:3

(Do not report 93352 more than once per stress echocardiogram)

(Use 93352 in conjunction with 93350, 93351)

93355 Echocardiography, transesophageal (TEE) for guidance of a transcatheter intracardiac or great vessel(s) structural intervention(s) (eg, TAVR, transcatheter pulmonary valve replacement, mitral valve repair, paravalvular regurgitation repair, left atrial appendage occlusion/closure, ventricular septal defect closure) (peri-and intra-procedural), real-time image acquisition and documentation, guidance with quantitative measurements, probe manipulation, interpretation, and report, including diagnostic transesophageal echocardiography and, when performed, administration of ultrasound contrast, Doppler, color flow, and 3D

CPT Changes: An Insider's View 2015

(To report placement of transesophageal probe by separate physician, use 93313)

(Do not report 93355 in conjunction with 76376, 76377, 93312, 93313, 93314, 93315, 93316, 93317, 93318, 93320, 93321, 93325)

93356 Code is out of numerical sequence. See 93350-93355

Cardiac Catheterization

Cardiac catheterization is a diagnostic medical procedure which includes introduction, positioning and repositioning, when necessary, of catheter(s), within the vascular system, recording of intracardiac and/or intravascular pressure(s), and final evaluation and report of procedure. There are two code families for cardiac catheterization: one for congenital heart disease and one for all other conditions. For cardiac catheterization for congenital heart defects (93593, 93594, 93595, 93596, 93597, 93598), see the **Medicine/Cardiovascular/Cardiac Catheterization for Congenital Heart Defects** subsection. The following guidelines apply to cardiac catheterization performed for indications other than the evaluation of congenital heart defects.

Right heart catheterization for indications other than the evaluation of congenital heart defects (93453, 93456, 93457, 93460, 93461): includes catheter placement in one or more right-sided cardiac chamber(s) or structures (ie, the right atrium, right ventricle, pulmonary artery, pulmonary wedge), obtaining blood samples for measurement of blood gases, and cardiac output measurements (Fick or other method), when performed. For placement of a flow directed catheter (eg, Swan-Ganz) performed for hemodynamic monitoring purposes not in conjunction with other catheterization services, use 93503. Do not report 93503 in conjunction with other diagnostic cardiac catheterization codes. Right heart catheterization does not include right ventricular or right atrial angiography (93566).

For right heart catheterization as part of catheterization to evaluate congenital heart defects, see 93593, 93594, 93596, 93597, 93598. For reporting purposes, when the morphologic left ventricle is in a subpulmonic position (eg, certain cases of transposition of the great arteries) due to congenital heart disease, catheter placement with hemodynamic assessment in this structure during right heart catheterization is considered part of that procedure, and does not constitute left heart catheterization. When the subpulmonic ventricle also connects to the aorta (eg, double outlet right ventricle), catheter placement with hemodynamic assessment of this ventricle during right heart catheterization is considered part of that procedure, while catheter placement with hemodynamic assessment of that same ventricle from the arterial approach is considered left heart catheterization. Report the appropriate code for right and left heart catheterization if catheter placement with hemodynamic assessment of the double outlet right ventricle is performed both during the right heart catheterization and separately from the arterial approach. Right heart catheterization for congenital heart defects does not typically involve thermodilution cardiac output assessments. When thermodilution cardiac output is performed in this setting it may be separately reported using 93598.

Left heart catheterization for indications other than congenital heart defects (93452, 93453, 93458, 93459, 93460, 93461): involves catheter placement in a left-sided (systemic) cardiac chamber(s) (left ventricle or left atrium) and includes left ventricular/left atrial angiography, imaging supervision, and interpretation, when performed. For reporting purposes, when the morphologic right ventricle is in a systemic (subaortic) position due to congenital heart disease (eg, certain cases of transposition of the great arteries), catheter placement with hemodynamic assessment of the subaortic ventricle performed during left heart catheterization is considered part of the procedure and does not constitute right heart catheterization. If additional catheterizatio of right heart structures (eg, atrium, pulmonary artery) is performed at the same setting, report the appropriate code for right and left heart catheterization. When left heart catheterization is performed using either transapical puncture of the left ventricle or transseptal puncture of an intact septum, report 93462 in conjunction with 93452, 93453, 93458, 93459, 93460, 93461, 93596, 93597. For left heart catheterization services for the evaluation of congenital heart defects, see 93565, 93595, 93596, 93597.

Catheter placement and injection procedures: for a listing of the injection procedures included in specific cardiac catheterization procedures, please refer to the table on pages 795-797.

Cardiac catheterization (93451-93461), other than for the evaluation of congenital heart defects, includes: (a) all roadmapping angiography in order to place the catheters; (b) any injections for angiography of the left ventricle, left atrium, native coronary arteries or bypass grafts listed as inherent to the procedure in the cardiac catheterization table located on pages 795-797; and (c) imaging supervision, interpretation, and report. Do not report 93563, 93564, 93565 in conjunction with 93452, 93453, 93454, 93455, 93456, 93457, 93458, 93459, 93460, 93461. The cardiac catheterization codes do not include contrast injection(s) and imaging supervision, interpretation, and report for imaging that is separately identified by other specific procedure code(s).

Catheter placement(s) in coronary artery(ies) involves selective engagement of the origins of the native coronary artery(ies) for the purpose of coronary angiography. Catheter placement(s) in bypass graft(s) (venous, internal mammary, free arterial graft[s]) involves selective engagement of the origins of the graft(s) for the purpose of bypass angiography. Bypass graft angiography is typically performed only in conjunction with coronary angiography of native vessels.

Codes for catheter placement(s) in native coronary arteries (93454-93461), and bypass graft(s) (93455, 93457, 93459, 93461) include intraprocedural injection(s) for coronary/bypass graft angiography, imaging supervision, and interpretation, except when these catheter placements are performed during cardiac catheterization for the evaluation of congenital heart defects. Do not report 93563-93565 in conjunction with 93452-93461.

For right ventricular or right atrial angiography performed in conjunction with right heart catheterization for noncongenital heart disease (93451, 93453, 93456, 93457, 93460, 93461) or for the evaluation of congenital heart defects (93593, 93594, 93596, 93597), use 93566. For reporting purposes, angiography of the morphologic right ventricle or morphologic right atrium is reported with 93566, whether these structures are in the standard prepulmonic position or in a systemic (subaortic) position. Left heart catheterization performed for noncongenital heart disease (93452, 93453, 93458, 93459, 93460, 93461) includes left ventriculography, when performed. For reporting purposes, angiography of the morphologic left ventricle or morphologic left atrium is reported with 93565, whether these structures are in the standard systemic (subaortic) position or in a prepulmonic position. Do not report 93565 in conjunction with 93452, 93453, 93454, 93455, 93456, 93457, 93458, 93459, 93460, 93461. For cardiac catheterization performed for the evaluation of congenital heart defects, left ventriculography is separately reported with 93565. For cardiac catheterization for both congenital and noncongenital heart defects, supravalvular aortography is reported with 93567. For cardiac catheterization for both congenital and noncongenital heart defects, pulmonary arterial angiography or selective pulmonary venous angiography is reported with the appropriate pulmonary angiography code(s) (93568, 93569, 93573, 93574, 93575) plus the appropriate cardiac catheterization code.

When contrast injection(s) are performed in conjunction with cardiac catheterization for congenital heart disease (93593, 93594, 93595, 93596, 93597), see 93563, 93564, 93565, 93566, 93567, 93568, 93569, 93573, 93574, 93575. Injection procedures 93563, 93564, 93565, 93566, 93567, 93568, 93569, 93573, 93574, 93575 represent separate identifiable services and may be reported in conjunction with one another when appropriate. Codes 93563, 93564, 93565, 93566, 93567, 93568, 93569, 93573, 93574, 93575 include imaging supervision, interpretation, and report.

For angiography of noncoronary and nonpulmonary arteries and veins, performed as a distinct service, use appropriate codes from the Radiology section and the Vascular Injection Procedures subsection in the Surgery/Cardiovascular System section.

For nonselective pulmonary arterial angiography, use 93568. For selective unilateral or bilateral pulmonary arterial angiography, see 93569, 93573. For selective pulmonary venous angiography, use 93574 for each distinct vessel. For selective pulmonary arterial angiography of major aortopulmonary collateral arteries (MAPCAs) arising off the aorta or its systemic branches, use 93575 for each distinct vessel.

Injection procedures 93574, 93575 represent selective venous and arterial angiography, respectively, for each distinct vessel. Codes 93574, 93575 require evaluation of a distinct, named vessel (eg, right upper pulmonary vein, left lower pulmonary vein, left pulmonary artery via Blalock-Taussig [BT] shunt access, major aortopulmonary collateral artery [MAPCA] vessel #1 from underside of aortic arch) and may be reported for each distinct, named vessel evaluated.

Selective pulmonary angiography codes for cardiac catheterization (93569, 93573, 93574, 93575) include selective angiographic catheter positioning, injection, and radiologic supervision and interpretation).

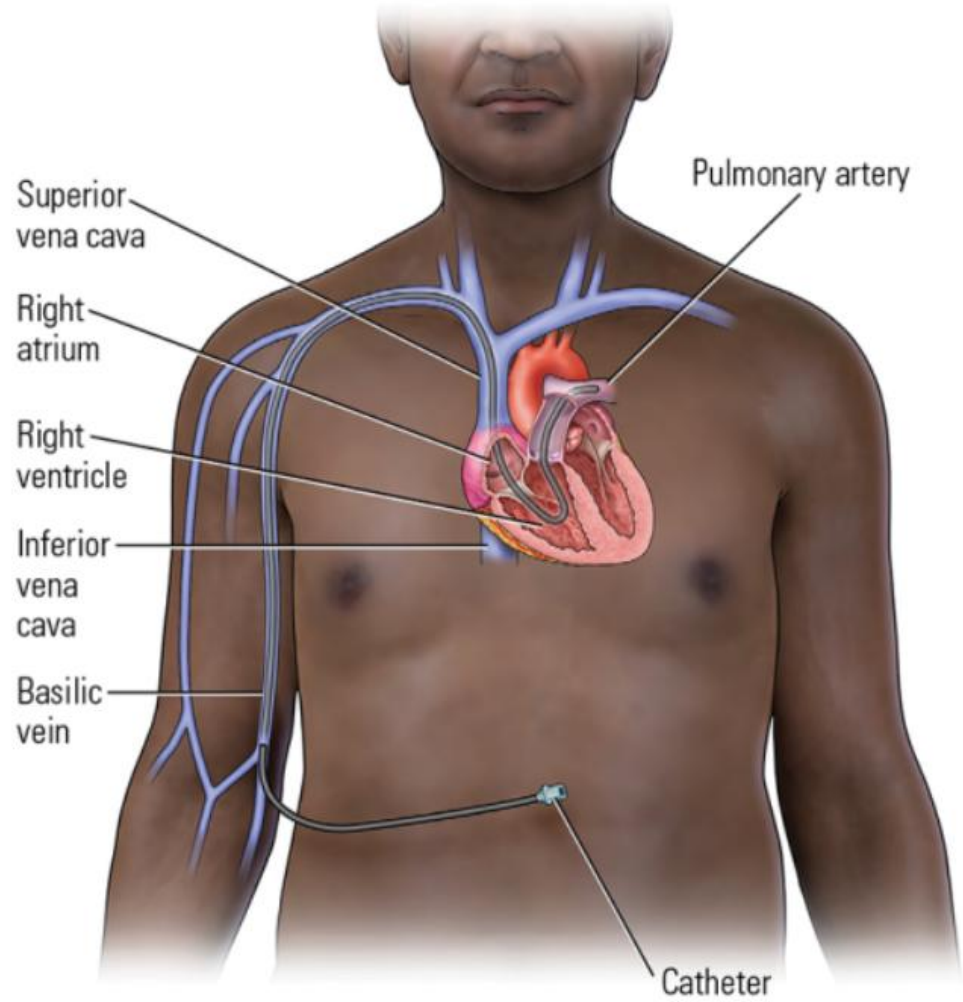
►***Adjunctive hemodynamic assessments:*** when cardiac catheterization is combined with pharmacologic agent administration with the specific purpose of repeating hemodynamic measurements to evaluate hemodynamic response, use 93463 in conjunction with 93451-93453 and 93456-93461, 93593, 93594, 93595, 93596, 93597. Do not report 93463 for intracoronary administration of pharmacologic agents during percutaneous coronary interventional procedures, during intracoronary assessment of coronary pressure, flow or resistance, or during intracoronary imaging procedures. Do not report 93463 in conjunction with 92920-92945.◄

When cardiac catheterization is combined with exercise (eg, walking or arm or leg ergometry protocol) with the specific purpose of repeating hemodynamic measurements to evaluate hemodynamic response, report 93464 in conjunction with 93451-93453, 93456-93461, 93593, 93594, 93595, 93596, 93597.

Contrast injection to image the access site(s) for the specific purpose of placing a closure device is inherent to the catheterization procedure and not separately reportable. Closure device placement at the vascular access site is inherent to the catheterization procedure and not separately reportable.

93451 Right heart catheterization including measurement(s) of oxygen saturation and cardiac output, when performed

- *CPT Changes: An Insider's View* 2011, 2017, 2020
- *CPT Assistant* Aug 11:5, Mar 12:10, May 13:12, Jul 14:3, Sep 15:3, Mar 16:5, Dec 17:16, Dec 18:11, Mar 19:6, Jun 19:3, May 23:1, Mar 24:1



(Do not report 93451 in conjunction with 33289, 93453, 93456, 93457, 93460, 93461, 0613T, 0632T)

(Do not report 93451 in conjunction with 33418, 0345T, 0483T, 0484T, 0544T, 0545T, 0643T, for diagnostic right heart catheterization procedures intrinsic to the valve repair, annulus reconstruction procedure, or left ventricular restoration device implantation)

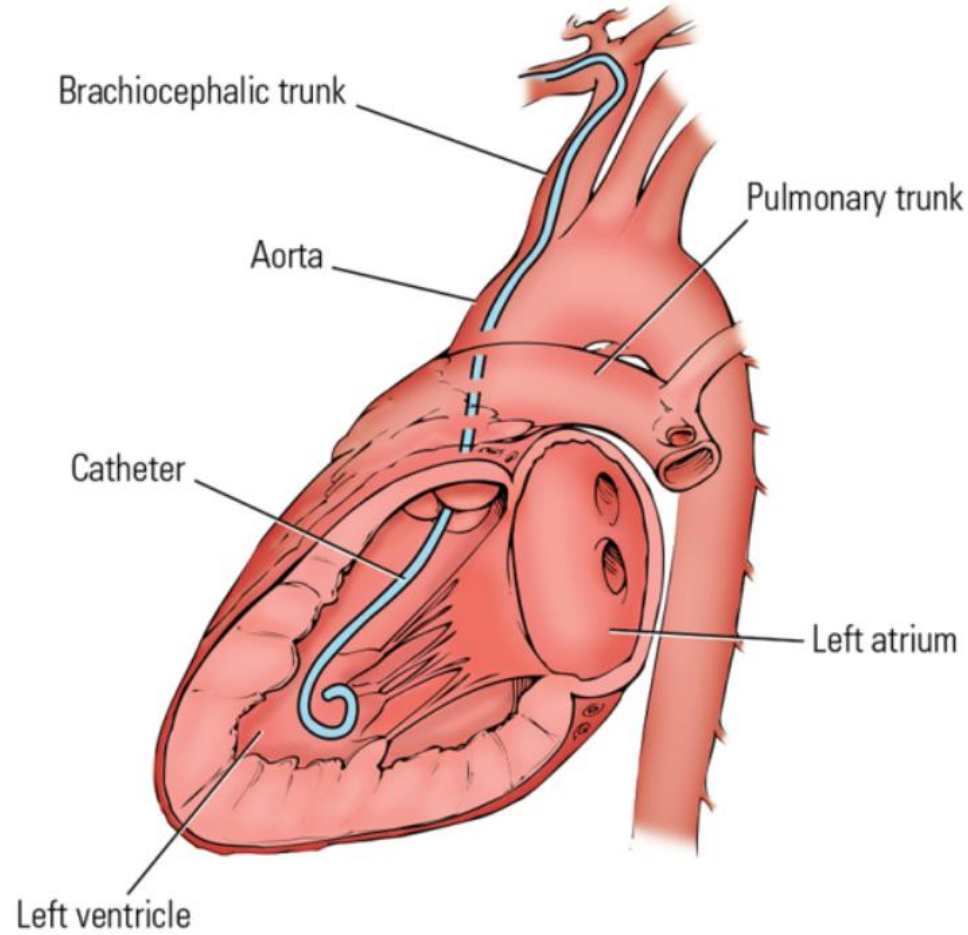
Right Heart Catheterization

93451

The physician introduces a cardiac catheter into the venous system. The catheter is directed into the right atrium, right ventricle, and pulmonary artery.

93452 Left heart catheterization including intraprocedural injection(s) for left ventriculography, imaging supervision and interpretation, when performed

- *CPT Changes: An Insider's View* 2011, 2017
- *CPT Assistant* Aug 11:3, Mar 12:10, Jan 13:6, May 13:12, Sep 15:3, May 23:1



(Do not report 93452 in conjunction with 93453, 93458-93461, 0408T, 0409T, 0410T, 0411T, 0414T, 0415T)

(Do not report 93452 in conjunction with 33418, 0345T, 0483T, 0484T, 0544T, 0545T, 0643T, for diagnostic left heart catheterization procedures intrinsic to the valve repair, annulus reconstruction procedure, or left ventricular restoration device implantation)

Left Heart Catheterization

93452

A catheter is inserted into the arterial system and then into the left ventricle.

93453 Combined right and left heart catheterization including intraprocedural injection(s) for left ventriculography, imaging supervision and interpretation, when performed

CPT Changes: An Insider's View 2011, 2017

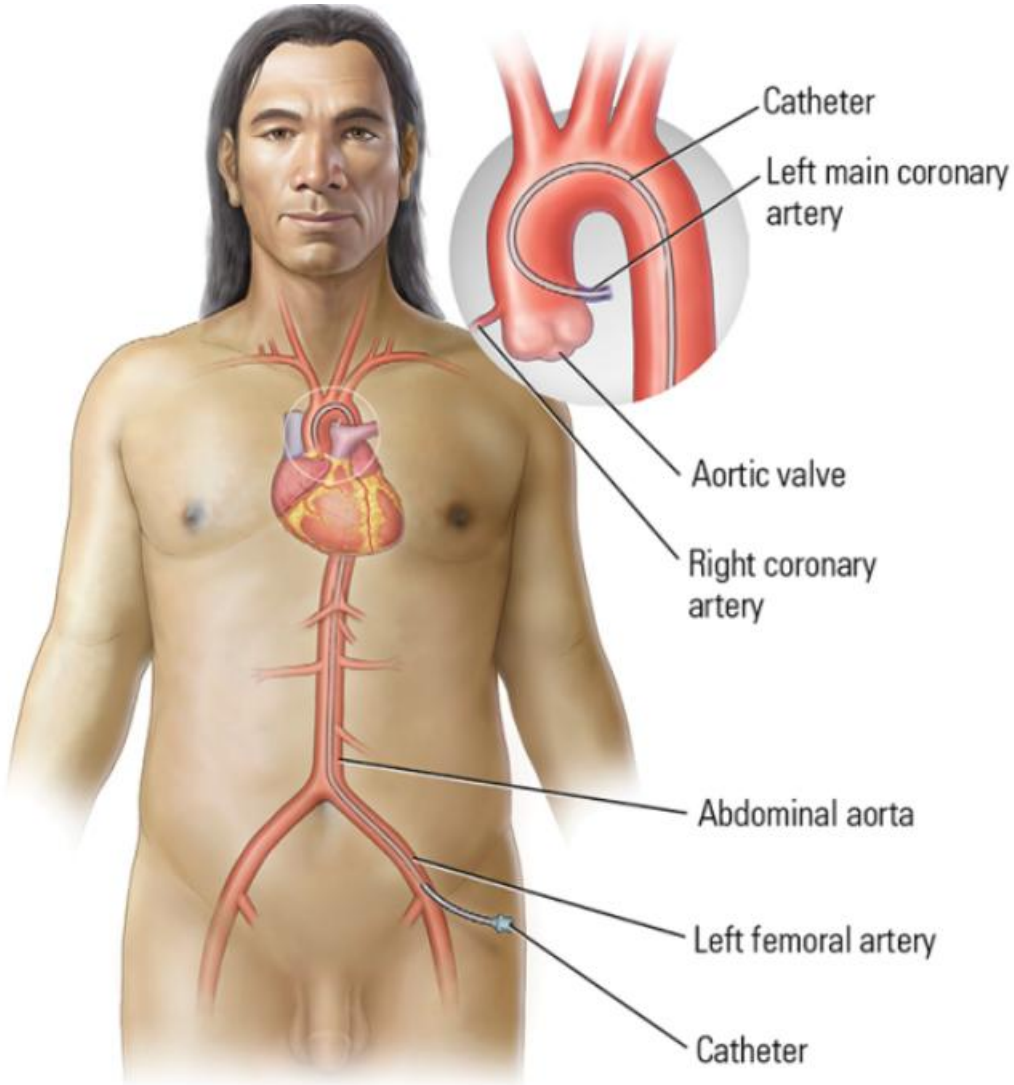
CPT Assistant Aug 11:3, Mar 12:10, Jan 13:6, May 13:12, Sep 15:3, Mar 16:5, Mar 19:6, Jun 19:3, May 23:1, Mar 24:1

(Do not report 93453 in conjunction with 93451, 93452, 93456-93461, 0408T, 0409T, 0410T, 0411T, 0414T, 0415T)

(Do not report 93453 in conjunction with 33418, 0345T, 0483T, 0484T, 0544T, 0545T, 0643T, for diagnostic left and right heart catheterization procedures intrinsic to the valve repair, annulus reconstruction procedure, or left ventricular restoration device implantation)

93454 Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation;

CPT Changes: An Insider's View 2011, 2017



CPT Assistant Aug 11:3, Mar 12:10, May 13:12, Dec 14:6, Mar 16:5, Feb 17:15, May 23:1

(Do not report 93454 in conjunction with 33418, 0345T, 0483T, 0484T, 0544T, 0545T, 0643T, for coronary angiography intrinsic to the valve repair, annulus reconstruction procedure, or left ventricular restoration device implantation)

Coronary Angiography Without Concomitant Left Heart Catheterization

93454

Cardiac catheterization procedure performed wherein the catheter does not cross the aortic valve into the left ventricle (left heart catheterization).

93455 with catheter placement(s) in bypass graft(s) (internal mammary, free arterial, venous grafts) including intraprocedural injection(s) for bypass graft angiography

- *CPT Changes: An Insider's View* 2011, 2017
- *CPT Assistant* Aug 11:3, Dec 11:9, Mar 12:10, May 13:12, Mar 16:5, May 23:1

(Do not report 93455 in conjunction with 33418, 0345T, 0483T, 0484T, 0544T, 0545T, 0643T, for coronary angiography intrinsic to the valve repair, annulus reconstruction procedure, or left ventricular restoration device implantation)

93456 with right heart catheterization

- *CPT Changes: An Insider's View* 2011, 2017, 2020
- *CPT Assistant* Aug 11:3, Mar 12:10, May 13:12, Sep 15:3, Mar 16:5, Mar 19:6, Jun 19:3, May 23:1

(Do not report 93461 in conjunction with 33418, 0345T, 0483T, 0484T, 0544T, 0545T, 0643T, for diagnostic coronary angiography or left and right heart catheterization procedures intrinsic to the valve repair, annulus reconstruction procedure, or left ventricular restoration device implantation)

(Do not report 93461 in conjunction with 0408T, 0409T, 0410T, 0411T, 0414T, 0415T)

+ 93462 Left heart catheterization by transseptal puncture through intact septum or by transapical puncture (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2011, 2017

CPT Assistant Aug 11:3, Mar 12:10, May 13:12, Jun 13:6, Jul 14:3, Sep 15:3, Jul 17:3, Sep 17:3, Nov 20:7

(Use 93462 in conjunction with 33477, 33741, 33745, 93452, 93453, 93458, 93459, 93460, 93461, 93582, 93595, 93596, 93597, 93653, 93654)

(Use 93462 in conjunction with 93590, 93591 for transapical puncture performed for left heart catheterization and percutaneous transcatheter closure of paravalvular leak)

(Use 93462 in conjunction with 93581 for transseptal or transapical puncture performed for percutaneous transcatheter closure of ventricular septal defect)

(Do not report 93462 in conjunction with 93590 for transeptal puncture through intact septum performed for left heart catheterization and percutaneous transcatheter closure of paravalvular leak)

(Do not report 93462 in conjunction with 93656)

(Do not report 93462 in conjunction with 33418, 0345T, 0544T, unless transapical puncture is performed)

+ 93463 Pharmacologic agent administration (eg, inhaled nitric oxide, intravenous infusion of nitroprusside, dobutamine, milrinone, or other agent) including assessing hemodynamic measurements before, during, after and repeat pharmacologic agent administration, when performed (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2011, 2017

CPT Assistant Aug 11:3, Mar 12:10, Dec 14:6

(Use 93463 in conjunction with 33477, 93451-93453, 93456-93461, 93580, 93581, 93582, 93593, 93594, 93595, 93596, 93597)

(Report 93463 only once per catheterization procedure)

►(Do not report 93463 for pharmacologic agent administration in conjunction with coronary interventional procedure 92920-92945)◄

+ 93464 Physiologic exercise study (eg, bicycle or arm ergometry) including assessing hemodynamic measurements before and after (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2011, 2017

CPT Assistant Aug 11:3, Mar 12:10, Jul 14:3

(Use 93464 in conjunction with 33477, 93451-93453, 93456-93461, 93593, 93594, 93595, 93596, 93597)

(Report 93464 only once per catheterization procedure)

(For pharmacologic agent administration, use 93463)

93503 Insertion and placement of flow directed catheter (eg, Swan-Ganz) for monitoring purposes

CPT Assistant Winter 91:3, Fall 95:8, Feb 97:5, Apr 98:2, Mar 08:4, Aug 11:3, Dec 11:18, May 23:1

(Do not report 93503 in conjunction with 0632T)

(For subsequent monitoring, use 99418)

93505 Endomyocardial biopsy

CPT Changes: An Insider's View 2008, 2017

CPT Assistant Apr 98:2, Apr 00:10, Aug 11:3, Dec 17:16

(For radioisotope method of cardiac output, see 78472, 78473, or 78481)

+ 93563 Injection procedure during cardiac catheterization including imaging supervision, interpretation, and report; for selective coronary angiography during congenital heart catheterization (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2011, 2017

CPT Assistant Aug 11:3, Dec 11:11, Jan 13:6, Dec 14:6, Mar 16:5, Dec 23:47

(Use 93563 in conjunction with 33741, 33745, 93582, 93593, 93594, 93595, 93596, 93597)

+ 93564 for selective opacification of aortocoronary venous or arterial bypass graft(s) (eg, aortocoronary saphenous vein, free radial artery, or free mammary artery graft) to one or more coronary arteries and in situ arterial conduits (eg, internal mammary), whether native or used for bypass to one or more coronary arteries during congenital heart catheterization, when performed (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2011, 2017

(Use 93564 in conjunction with 93582, 93593, 93594, 93595, 93596, 93597)

(Do not report 93563, 93564 in conjunction with 33418, 0345T, 0483T, 0484T, 0544T, 0545T for coronary angiography intrinsic to the valve repair or annulus reconstruction procedure)

+ 93565 for selective left ventricular or left atrial angiography (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2011, 2017
- *CPT Assistant* Aug 11:3, Dec 11:9, Jan 13:6, Dec 23:47

(Use 93565 in conjunction with 33741, 33745, 93582, 93593, 93594, 93595, 93596, 93597)

(Do not report 93563-93565 in conjunction with 93452-93461)

+ 93566 for selective right ventricular or right atrial angiography (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2011, 2017
- *CPT Assistant* Aug 11:3, Dec 11:9, Jan 13:6, May 15:3, Mar 16:5, May 16:5, Mar 19:6, Dec 23:47

(Use 93566 in conjunction with 33741, 33745, 93451, 93453, 93456, 93457, 93460, 93461, 93582, 93593, 93594, 93595, 93596, 93597)

(Do not report 93566 in conjunction with 33274, 0795T, 0796T, 0797T, 0801T, 0802T, 0803T, 0823T, 0824T, 0825T, for right ventriculography performed during leadless pacemaker insertion)

(Do not report 93566 in conjunction with 0545T for right ventricular or right atrial angiography procedures intrinsic to the annulus reconstruction procedure)

+ 93567 for supravalvular aortography (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2011, 2017
- *CPT Assistant* Aug 11:3, Dec 11:9, Jan 13:6, Mar 16:5, Dec 23:47

(Use 93567 in conjunction with 33741, 33745, 93451-93461, 93593, 93594, 93595, 93596, 93597)

(For non-supravalvular thoracic aortography or abdominal aortography performed at the time of cardiac catheterization, use the appropriate radiological supervision and interpretation codes [36221, 75600-75630])

+ 93568 for nonselective pulmonary arterial angiography (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2011, 2017, 2023
- *CPT Assistant* Aug 11:3, Dec 11:9, Jan 13:6, Mar 16:5, Jun 19:3, May 23:1, Dec 23:47, Feb 24:31

(Use 93568 in conjunction with 33361, 33362, 33363, 33364, 33365, 33366, 33418, 33419, 33477, 33741, 33745, 33894, 33895, 33900, 33901, 33902, 33903, 33904, 37187, 37188, 37236, 37237, 37238, 37246, 37248, 92997, 92998, 93451, 93453, 93456, 93457, 93460, 93461, 93580, 93581, 93582, 93583, 93593, 93594, 93595, 93596, 93597)

(Do not report 93568 in conjunction with 0632T)

(For selective unilateral or bilateral pulmonary arterial angiography, use 93569, 93573, which include catheter placement, injection, and radiologic supervision and interpretation)

+ 93569 for selective pulmonary arterial angiography, unilateral (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2023
- *CPT Assistant* May 23:1, Dec 23:47, Feb 24:31

#+ 93573 for selective pulmonary arterial angiography, bilateral (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2023
- *CPT Assistant* May 23:1, Dec 23:47, Feb 24:31

(Use 93569, 93573 in conjunction with 33361, 33362, 33363, 33364, 33365, 33366, 33418, 33419, 33477, 33741, 33745, 37236, 37237, 37238, 37246, 37248, 33894, 33895, 33900, 33901, 33902, 33903, 33904, 37187, 37188, 92997, 92998, 93451, 93453, 93456, 93457, 93460, 93461, 93505, 93580, 93581, 93582, 93583, 93593, 93594, 93595, 93596, 93597)

#+ 93574 for selective pulmonary venous angiography of each distinct pulmonary vein during cardiac catheterization (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2023
- *CPT Assistant* May 23:1, Dec 23:47, Feb 24:31

(Use 93574 in conjunction with 33361, 33362, 33363, 33364, 33365, 33366, 33418, 33419, 33477, 33741, 33745, 37236, 37237, 37238, 37246, 37248, 33894, 33895, 33900, 33901, 33902, 33903, 33904, 37187, 37188, 92997, 92998, 93451, 93453, 93456, 93457, 93460, 93461, 93505, 93580, 93581, 93582, 93583, 93593, 93594, 93595, 93596, 93597)

##+ 93575 for selective pulmonary angiography of major aortopulmonary collateral arteries (MAPCAs) arising off the aorta or its systemic branches, during cardiac catheterization for congenital heart defects, each distinct vessel (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2023
CPT Assistant May 23:1, Dec 23:47, Feb 24:31

(Use 93575 in conjunction with 33361, 33362, 33363, 33364, 33365, 33366, 33418, 33419, 33477, 33741, 33745, 37236, 37237, 37238, 37246, 37248, 33894, 33895, 33900, 33901, 33902, 33903, 33904, 37187, 37188, 92997, 92998, 93451, 93453, 93456, 93457, 93460, 93461, 93505, 93580, 93581, 93582, 93583, 93593, 93594, 93595, 93596, 93597)

(93569, 93573, 93574, 93575 include the selective introduction and positioning of the angiographic catheter, injection, and radiologic supervision and interpretation)

Cardiac Catheterization Codes

		Catheter Placement Type				Add-on Procedures (Can Be Reported Separately)					
CPT Code	Code Descriptor	RHC	LHC	Coronary Artery Placement	Bypass Graft(s)	With Transseptal or Transapical Puncture	With Pharmacological Study	With Exercise Study	Injection Procedure for Selective Right Ventricular or Right Atrial Angiography	Injection Procedure for Supravalvular Aortography	Injection Procedure for Pulmonary Angiography
						93462	93463	93464	93566	93567	93568
93451	Right heart catheterization including measurement(s) of oxygen saturation and cardiac output, when performed	X					X	X	X		X
93452	Left heart catheterization including intraprocedural injection(s) for left ventriculography, imaging supervision and interpretation, when performed		X			X	X	X		X	
93453	Combined right and left heart catheterization including intraprocedural injection(s) for left ventriculography, imaging supervision and interpretation, when performed	X	X			X	X	X	X	X	X
93454	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation;			X						X	
93455	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with catheter placement(s) in bypass graft(s), (internal mammary, free arterial, venous grafts) including intraprocedural injection(s) for bypass graft angiography			X	X					X	
93456	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with right heart catheterization	X		X			X	X	X	X	X

93457	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with catheter placement(s) in bypass graft(s) (internal mammary, free arterial, venous grafts) including intraprocedural injection(s) for bypass graft angiography and right heart catheterization	X		X	X		X	X	X	X	X
93458	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with left heart catheterization including intraprocedural injection(s) for left ventriculography, when performed		X	X		X	X	X		X	
93459	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with left heart catheterization including intraprocedural injection(s) for left ventriculography, when performed, catheter placement(s) in bypass graft(s) (internal mammary, free arterial, venous grafts) with bypass graft angiography		X	X	X	X	X	X		X	
93460	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with right and left heart catheterization including intraprocedural injection(s) for left ventriculography, when performed	X	X	X		X	X	X	X	X	X
93461	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with right and left heart catheterization including intraprocedural injection(s) for left ventriculography, when performed, catheter placement(s) in bypass graft(s) (internal mammary, free arterial, venous grafts) with bypass graft angiography	X	X	X	X	X	X	X	X	X	X

+▲ 93571 Intravascular Doppler velocity and/or pressure derived coronary flow reserve measurement (coronary vessel or graft) during coronary angiography including pharmacologically induced stress, when performed; initial vessel (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2017, 2026

(Do not report 93571 in conjunction with 0523T)

✚▲ **93572** each additional vessel (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2017, 2026

CPT Assistant Nov 98:34, Apr 00:2, Aug 11:5, Dec 14:6, May 15:10, Dec 15:17

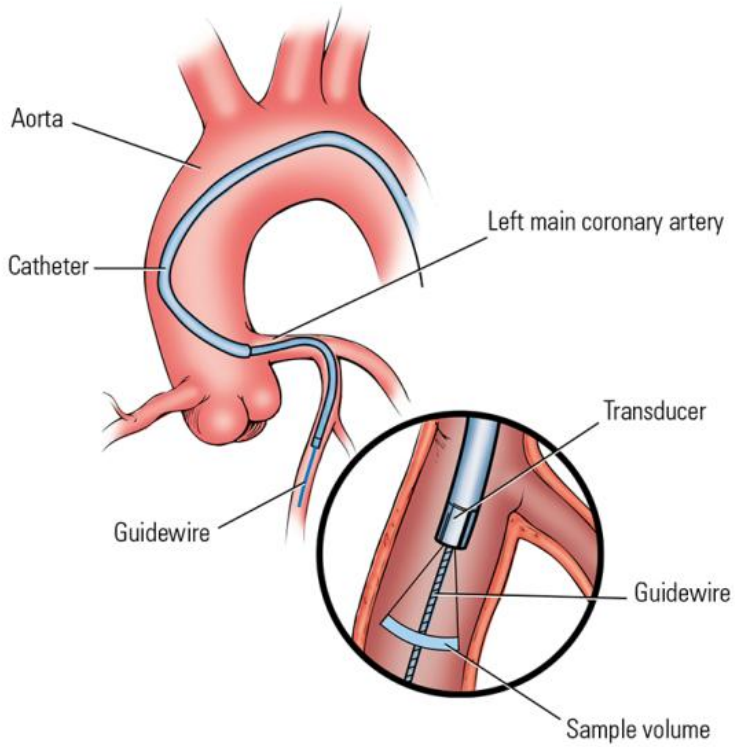
(Use 93572 in conjunction with 93571)

(Do not report 93572 in conjunction with 0523T)

(Intravascular distal coronary blood flow velocity measurements include all Doppler transducer manipulations and repositioning within the specific vessel being examined, during coronary angiography or therapeutic intervention [eg, angioplasty])

(For unlisted cardiac catheterization procedure, use 93799)

93573 Code is out of numerical sequence. See 93567-93572



93574 Code is out of numerical sequence. See 93567-93572

93575 Code is out of numerical sequence. See 93567-93572

Intravascular Distal Blood Flow Velocity

93571

A Doppler guidewire is positioned in a proximal coronary artery with the transducer beam parallel to blood flow to measure blood flow velocity.

Repair of Structural Heart Defect

93580 Percutaneous transcatheter closure of congenital interatrial communication (ie, Fontan fenestration, atrial septal defect) with implant

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Mar 03:23, Jan 25:36

(Percutaneous transcatheter closure of atrial septal defect includes a right heart catheterization procedure. Code 93580 includes injection of contrast for atrial and ventricular angiograms. Codes 93451-93453,93456, 93457, 93458, 93459, 93460, 93461, 93565, 93566, 93593, 93594, 93595, 93596, 93597, 93598 should not be reported separately in addition to 93580)

(For other cardiac angiographic procedures performed at the time of transcatheter atrial septal defect closure, see 93563, 93564, 93567, 93568, as appropriate)

93581 Percutaneous transcatheter closure of a congenital ventricular septal defect with implant

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Mar 03:23, Mar 08:4, May 23:1

(Percutaneous transcatheter closure of ventricular septal defect includes a right heart catheterization procedure. Code 93581 includes injection of contrast for atrial and ventricular angiograms. Codes 93451-93453, 93456, 93457, 93458, 93459, 93460, 93461, 93565, 93566, 93593, 93594, 93595, 93596, 93597, 93598 should not be reported separately in addition to 93581)

(For other cardiac angiographic procedures performed at the time of transcatheter closure of ventricular septal defect, see 93563, 93564, 93567, 93568, as appropriate)

(For echocardiographic services performed in addition to 93580, 93581, see 93303-93317, 93662 as appropriate)

93582 Percutaneous transcatheter closure of patent ductus arteriosus

- *CPT Changes: An Insider's View* 2014, 2017
- *CPT Assistant* Jul 14:3

(93582 includes congenital right and left heart catheterization, catheter placement in the aorta, and aortic arch angiography, when performed)

(Do not report 93582 in conjunction with 36013, 36014, 36200, 75600, 75605, 93451, 93453, 93456, 93457, 93458, 93459, 93460, 93461, 93567, 93593, 93594, 93595, 93596, 93597, 93598)

(For other cardiac angiographic procedures performed at the time of transcatheter PDA closure, see 93563, 93564, 93565, 93566, 93568, 93569, 93573, 93574, 93575 as appropriate)

(For repair of patent ductus arteriosus by ligation, see 33820, 33822, 33824)

(For intracardiac echocardiographic services performed at the time of transcatheter PDA closure, use 93662. Other echocardiographic services provided by a separate individual are reported using the appropriate echocardiography service codes, 93315, 93316, 93317)

93583 Percutaneous transcatheter septal reduction therapy (eg, alcohol septal ablation) including temporary pacemaker insertion when performed

- *CPT Changes: An Insider's View* 2014, 2017

(93583 includes insertion of temporary pacemaker, when performed, and left heart catheterization)

(Do not report 93583 in conjunction with 33210, 93452, 93453, 93458, 93459, 93460, 93461, 93565, 93595, 93596, 93597)

(93583 includes left anterior descending coronary angiography for the purpose of roadmapping to guide the intervention. Do not report 93454, 93455, 93456, 93457, 93458, 93459, 93460, 93461, 93563 for coronary angiography performed during alcohol septal ablation for the purpose of roadmapping, guidance of the intervention, vessel measurement, and completion angiography)

(Diagnostic cardiac catheterization procedures may be separately reportable when no prior catheter-based diagnostic study of the treatment zone is available, the prior diagnostic study is inadequate, or the patient's condition with respect to the clinical indication has changed since the prior study or during the intervention. Use the appropriate codes from 93451, 93454, 93455, 93456, 93457, 93563, 93564, 93566, 93567, 93568, 93593, 93594, 93598, 93569, 93573, 93574, 93575)

(Do not report 93583 in conjunction with 33210, 33211)

(Do not report 93463 for the injection of alcohol for this procedure)

(For intracardiac echocardiographic services performed at the time of alcohol septal ablation, use 93662)

(Other echocardiographic services provided by a separate physician are reported using the appropriate echocardiography services codes, 93312, 93313, 93314, 93315, 93316, 93317)

(For surgical ventriculomyotomy [-myectomy] for idiopathic hypertrophic subaortic stenosis, use 33416)

93584 Code is out of numerical sequence. See 93596-93598

93585 Code is out of numerical sequence. See 93596-93598

93586 Code is out of numerical sequence. See 93596-93598

93587 Code is out of numerical sequence. See 93596-93598

93588 Code is out of numerical sequence. See 93596-93598

Transcatheter Closure of Paravalvular Leak

Codes 93590, 93591, 93592 are used to report transcatheter closure of paravalvular leak (PVL). Codes 93590 and 93591 include, when performed, percutaneous access, placing the access sheath(s), advancing the delivery system to the paravalvular leak, positioning the closure device, repositioning the closure device as needed, and deploying the device.

Codes 93590 and 93591 include, when performed, fluoroscopy (76000), angiography, radiological supervision and interpretation services performed to guide the PVL closure (eg, guiding the device placement and documenting completion of the intervention).

Code 93590 includes transseptal puncture and left heart catheterization/left ventriculography (93452, 93453, 93458, 93459, 93460, 93461, 93565, 93595, 93596, 93597), when performed. Transapical left heart catheterization (93462) may be reported separately, when performed.

Code 93591 includes, when performed, supravalvular aortography (93567), left heart catheterization/left ventriculography (93452, 93453, 93458, 93459, 93460, 93461, 93565, 93595, 93596, 93597). Transapical left heart catheterization (93462) may be reported separately, when performed.

Diagnostic right heart catheterization codes (93451, 93456, 93457, 93593, 93594, 93598) and diagnostic coronary angiography codes (93454, 93455, 93456, 93457, 93563, 93564) may be reported with 93590, 93591, representing separate and distinct services from PVL closure, if:

1. No prior study is available and a full diagnostic study is performed, or
2. A prior study is available, but as documented in the medical record:
   a. There is inadequate visualization of the anatomy and/or pathology, or
   b. The patient's condition with respect to the clinical indication has changed since the prior study, or
   c. There is a clinical change during the procedure that requires new evaluation.

Other cardiac catheterization services may be reported separately, when performed for diagnostic purposes not intrinsic to PVL closure.

For same session/same day diagnostic cardiac catheterization services, report the appropriate diagnostic cardiac catheterization code(s) appended with modifier 59 indicating separate and distinct procedural service from PVL closure.

93590 Percutaneous transcatheter closure of paravalvular leak; initial occlusion device, mitral valve

CPT Changes: An Insider's View 2017
CPT Assistant Sep 17:3

(Do not report 93590 in conjunction with 93462 for transseptal puncture)

(For transapical puncture performed in conjunction with 93590, use 93462)

93591 initial occlusion device, aortic valve

CPT Changes: An Insider's View 2017
CPT Assistant Sep 17:3

(For transseptal or transapical puncture performed in conjunction with 93591, use 93462)

+ 93592 each additional occlusion device (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2017
CPT Assistant Sep 17:3

(Use 93592 in conjunction with 93590, 93591)

Cardiac Catheterization for Congenital Heart Defects

Cardiac catheterization for the evaluation of congenital heart defect(s) is reported with 93593, 93594, 93595, 93596, 93597, 93598. Cardiac catheterization services for anomalous coronary arteries arising from the aorta or off of other coronary arteries, patent foramen ovale, mitral valve prolapse, and bicuspid aortic valve, in the absence of other congenital heart defects, are reported with 93451-93464, 93566, 93567, 93568. However, when these conditions exist in conjunction with other congenital heart defects, 93593, 93594, 93595, 93596, 93597 may be reported. Evaluation of anomalous coronary arteries arising from the pulmonary arterial system is reported with the cardiac catheterization for congenital heart defects codes.

For additional guidance on reporting cardiac catheterization services for congenital heart defects versus non-congenital indications, see Cardiac Catheterization guidelines.

Right heart catheterization for congenital heart defects (93593, 93594, 93596, 93597): includes catheter placement in one or more right-sided cardiac chamber(s) or structures (ie, the right atrium, right ventricle, pulmonary artery, pulmonary wedge), obtaining blood samples for measurement of blood gases, and Fick cardiac output measurements, when performed. While the morphologic right atrium and morphologic right ventricle are typically the right heart structures supplying blood flow to the pulmonary artery, in congenital heart disease the subpulmonic ventricle may be a morphologic left ventricle and the subpulmonic atrium may be a morphologic left atrium. For reporting purposes, when the morphologic left ventricle or left atrium is in a subpulmonic position due to congenital heart disease, catheter placement in either of these structures is considered part of right heart catheterization and does not constitute left heart catheterization. Right heart catheterization for congenital cardiac anomalies does not typically involve thermodilution cardiac output assessments. When thermodilution cardiac output is performed in this setting, it may be separately reported using add-on code 93598. Right heart catheterization does not include right ventricular or right atrial angiography. When right ventricular or right atrial angiography is performed, use 93566. For reporting purposes, angiography of the morphologic right ventricle or morphologic right atrium is reported with 93566, whether these structures are in the standard pre-pulmonic position or in a systemic (subaortic) position. For placement of a flow directed catheter (eg, Swan-Ganz) performed for hemodynamic monitoring purposes not in conjunction with other catheterization services, use 93503. Do not report 93503 in conjunction with 93453, 93456, 93457, 93460, 93461, 93593, 93594, 93595, 93596, 93597.

Right heart catheterization for congenital heart defects may be performed in patients with normal or abnormal connections. The terms *normal* and *abnormal* native connections are used to define the variations in the anatomic connections from the great veins to the atria, atria to the ventricles, and ventricles to the great arteries. This designation as normal or abnormal is used to determine the appropriate code to report right heart catheterization services in congenital heart disease.

Normal native connections exist when the pathway of blood flow follows the expected course through the right and left heart chambers and great vessels (ie, superior vena cava [SVC]/inferior vena cava [IVC] to right atrium, then right ventricle, then pulmonary arteries for the right heart; left atrium to left ventricle, then aorta for the left heart). Examples of congenital heart defects with normal connections would include acyanotic defects such as isolated atrial septal defect, ventricular septal defect, or patent ductus arteriosus. Services including right heart catheterization for congenital cardiac anomalies with normal connections are reported with 93593, 93596.

Abnormal native connections exist when there are alternative connections for the pathway of blood flow through the heart and great vessels. Abnormal connections are typically present in patients with cyanotic congenital heart defects, any variation of single ventricle anatomy (eg, hypoplastic right or left heart, double outlet right ventricle), unbalanced atrioventricular canal (endocardial cushion) defect, transposition of the great arteries, valvular atresia, tetralogy of Fallot with or without major aortopulmonary collateral arteries (MAPCAs), total anomalous pulmonary veins, truncus arteriosus, and any lesions with heterotaxia and/or dextrocardia. Examples of right heart catheterization through abnormal connections include accessing the pulmonary arteries via surgical shunts, accessing the pulmonary circulation from the aorta via MAPCAs, or accessing isolated pulmonary arteries through a patent ductus arteriosus. Other examples would include right heart catheterization through cavopulmonary anastomoses, Fontan conduits, atrial switch conduits (Mustard/Senning), or any variations of single ventricle anatomy/physiology. Services including right heart catheterization for congenital heart defects with abnormal connections are reported with 93594, 93597.

Left heart catheterization for congenital heart defects (93595, 93596, 93597): involves catheter placement in a left-sided (systemic) cardiac chamber(s) (ventricle or atrium). The systemic chambers channel oxygenated blood to the aorta. In normal physiology, the systemic chambers include the morphologic left atrium and left ventricle. In congenital heart disease, the systemic chambers may include a morphologic right atrium or morphologic right ventricle which is connected to the aorta due to transposition or other congenital anomaly. These may be termed *subaortic* chambers. For the purposes of reporting, the term left ventricle or left atrium is meant to describe the systemic (subaortic) ventricle or atrium. When left heart catheterization is performed using either transapical puncture of the left ventricle or transseptal puncture of an intact septum, report 93462 in conjunction with 93595, 93596, 93597. Left heart catheterization for congenital heart defects does not include left ventricular/left atrial angiography when performed. Left ventriculography or left atrial angiography performed during cardiac catheterization for congenital heart defects is separately reported with 93565. For reporting purposes, angiography of the morphologic left ventricle or morphologic left atrium is reported with 93565, whether these structures are in the standard systemic (subaortic) position or in a pre-pulmonic position. For left heart catheterization only, in patients with congenital heart defects, with either normal or abnormal connections, use 93595. When combined left and right heart catheterization is performed to evaluate congenital heart defects, use 93596 for normal native connections, or 93597 for abnormal native connections.

Catheter placement and injection procedures: The work of imaging guidance, including fluoroscopy and ultrasound guidance for vascular access and to guide catheter placement for hemodynamic evaluation, is included in the cardiac catheterization for congenital heart defects codes, when performed by the same operator.

For cardiac catheterization for congenital heart defects, injection procedures are separately reportable due to the marked variability in the cardiovascular anatomy encountered.

When contrast injection(s) is performed in conjunction with cardiac catheterization for congenital heart defects, see injection procedure codes 93563, 93564, 93565, 93566, 93567, 93568, 93569, 93573, 93574, 93575, 93584, 93585, 93586, 93587, 93588, or use appropriate codes from the Radiology section and the Vascular Injection Procedures subsection in the Surgery/Cardiovascular System section. For venography of the IVC, report 75825. For venography of the SVC, report 75827. Venography of an anomalous or persistent SVC (93584), the azygous/hemiazygous venous system (93585), the coronary sinus (93586), or venovenous collaterals (93587, 93588) requires catheter placement(s) distinct from that required for congenital right and left heart catheterization. Therefore, 93584, 93585, 93586, 93587, 93588 include catheter placement in addition to venography. Codes 93563, 93564, 93565, 93566, 93567, 93568, 93569, 93573, 93574, 93575, 93584, 93585, 93586, 93587, 93588 include imaging supervision, interpretation, and report.

Injection procedures 93563, 93564, 93565, 93566, 93567, 93568, 93569, 93573, 93574, 93575, 93584, 93585, 93586, 93587, 93588 represent separate, identifiable services and may be reported in conjunction with one another, when appropriate. For angiography of other noncoronary and nonpulmonary arteries and veins, performed as a distinct service, use appropriate codes from the Radiology section and the Vascular Injection Procedures subsection in the Surgery/Cardiovascular System section.

Venography: Catheter placement in a normal SVC and a normal IVC is considered as part of a standard congenital cardiac catheterization. When venography of the normal IVC is performed, report 75825. When venography of the normal SVC is performed, report 75827. For coding purposes, the term “anomalous/persistent left or right SVC” refers to a second SVC on the opposite side of the chest from the first SVC. For example, in a typical cardiac anatomy, the SVC is on the right side and a persistent left SVC would be on the left side. In situs inversus, the SVC would typically be located on the left side of the chest and a persistent right SVC would be on the right side. In heterotaxy, bilateral SVCs are common. In these scenarios, venography of the first SVC would be reported with 75827, and catheter placement and venography of the persistent/anomalous SVC would be reported with 93584.

Selective catheter placement in anomalous congenital venous structures is not included in a standard congenital cardiac catheterization. Therefore, add-on codes 93584, 93585, 93586, 93587, 93588 include selective catheter placement in the specific venous structure(s) being imaged as well as venography and radiologic supervision, interpretation, and report.

Angiography of the native coronary arteries or bypass grafts during cardiac catheterization for congenital heart defects is reported with 93563, 93564. Catheter placement(s) in coronary artery(ies) or bypass grafts involves selective engagement of the origins of the native coronary artery(ies) or bypass grafts for the purpose of coronary angiography.

(Selective pulmonary angiography codes for cardiac catheterization [93569, 93573, 93574, 93575] include selective catheter positioning of the angiographic catheter, injection, and radiologic supervision and interpretation)

93593 Right heart catheterization for congenital heart defect(s) including imaging guidance by the proceduralist to advance the catheter to the target zone; normal native connections

- *CPT Changes: An Insider’s View* 2022
- *CPT Assistant* Apr 22:14, Apr 24:1, Jan 25:36

93594 abnormal native connections

- *CPT Changes: An Insider’s View* 2022
- *CPT Assistant* Apr 22:14, Apr 24:1, Jan 25:36

93595 Left heart catheterization for congenital heart defect(s) including imaging guidance by the proceduralist to advance the catheter to the target zone, normal or abnormal native connections

- *CPT Changes: An Insider’s View* 2022
- *CPT Assistant* Jan 25:36

93596 Right and left heart catheterization for congenital heart defect(s) including imaging guidance by the proceduralist to advance the catheter to the target zone(s); normal native connections

- *CPT Changes: An Insider’s View* 2022
- *CPT Assistant* Apr 22:14, Apr 24:1, Jan 25:36

93597 abnormal native connections

- *CPT Changes: An Insider’s View* 2022
- *CPT Assistant* Apr 22:14, Apr 24:1, Jan 25:36

#✚ 93584 Venography for congenital heart defect(s), including catheter placement, and radiological supervision and interpretation; anomalous or persistent superior vena cava when it exists as a secon contralateral superior vena cava, with native drainage to heart (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider’s View* 2024
- *CPT Assistant* Apr 24:1

(Use 93584 in conjunction with 93593, 93594, 93596, 93597)

(Report 93584 once per session)

#+ **93585** azygos/hemiazygos venous system (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2024
- *CPT Assistant* Apr 24:1

(Use 93585 in conjunction with 93593, 93594, 93596, 93597)

(Report 93585 once per session)

#+ **93586** coronary sinus (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2024
- *CPT Assistant* Apr 24:1

(Use 93586 in conjunction with 93593, 93594, 93596, 93597)

(Report 93586 once per session)

#+ **93587** venovenous collaterals originating at or above the heart (eg, from innominate vein) (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2024
- *CPT Assistant* Apr 24:1, Jan 25:36

(Use 93587 in conjunction with 93593, 93594, 93596, 93597)

(Report 93587 once per session)

#+ **93588** venovenous collaterals originating below the heart (eg, from the inferior vena cava) (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2024
- *CPT Assistant* Apr 24:1, Jan 25:36

(Use 93588 in conjunction with 93593, 93594, 93596, 93597)

(Report 93588 once per session)

+ **93598** Cardiac output measurement(s), thermodilution or other indicator dilution method, performed during cardiac catheterization for the evaluation of congenital heart defects (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2022
- *CPT Assistant* Jan 22:3, Apr 22:14, Jun 22:19, Dec 22:10, May 23:1

(Use 93598 in conjunction with 93593, 93594, 93595, 93596, 93597)

(Do not report 93598 in conjunction with 93451-93461)

(For pharmacologic agent administration during cardiac catheterization for congenital heart defect[s], use 93463)

(For physiological exercise study with cardiac catheterization for congenital heart defect[s], use 93464)

(For indicator dilution studies such as thermodilution for cardiac output measurement during cardiac catheterization for congenital heart defect[s], use 93598)

(For contrast injections during cardiac catheterization for congenital heart defect[s], see 75825, 75827, 93563, 93564, 93565, 93566, 93567, 93568, 93569, 93573, 93574, 93575, 93584, 93585, 93586, 93587, 93588)

(For angiography or venography not described in the 90000 series code section, see appropriate codes from the Radiology section and the Vascular Injection Procedures subsection in the Surgery/Cardiovascular System section)

(For transseptal or transapical access of the left atrium during cardiac catheterization for congenital heart defect[s], use 93462 in conjunction with 93595, 93596, 93597, as appropriate)

Intracardiac Electrophysiological Procedures/Studies

Intracardiac electrophysiologic studies (EPS) are invasive diagnostic medical procedures which include the insertion and repositioning of electrode catheters, recording of electrograms before and during pacing, programmed stimulation of multiple locations in the heart, analysis of recorded information, and report of the procedure. In many circumstances, patients with arrhythmias are evaluated and treated at the same encounter. In this situation, a diagnostic *electrophysiologic study* is performed, induced tachycardia(s) are *mapped*, and on the basis of the diagnostic and mapping information, the tissue is *ablated.*

Definitions

Arrhythmia Induction: In most electrophysiologic studies, an attempt is made to induce arrhythmia(s) from single or multiple sites within the heart. Arrhythmia induction may be achieved by multiple techniques, eg, by performing pacing at different rates or programmed stimulation (introduction of critically timed electrical impulses). Because arrhythmia induction occurs via the same catheter(s) inserted for the electrophysiologic study(ies), catheter insertion and temporary pacemaker codes are not additionally reported. Codes 93600-93603, 93610, 93612, and 93618 are used to describe unusual situations where there may be recording, pacing, or an attempt at arrhythmia induction from only one site in the heart. Code 93619 describes only evaluation of the sinus node, atrioventricular node, and His-Purkinje conduction system, without arrhythmia induction. Codes 93620-93624, 93640-93642, 93653, 93654, and 93656 all include recording, pacing, and attempted arrhythmia induction from one or more site(s) in the heart.

Mapping: When a tachycardia is induced, the site of tachycardia origination or its electrical path through the heart is often defined by mapping. Mapping creates a multidimensional depiction of a tachycardia by recording multiple electrograms obtained sequentially or simultaneously from multiple catheter sites in the heart. Depending upon the technique, certain types of mapping catheters may be repositioned from point-to-point within the heart, allowing sequential recording from the various sites to construct maps. Other types of mapping catheters allow mapping without a point-to-point technique by allowing simultaneous recording from many electrodes on the same catheter and computer-assisted three-dimensional reconstruction of the tachycardia activation sequence.

Mapping is a distinct procedure performed in addition to a diagnostic electrophysiologic study or ablation procedure and may be separately reported using 93609 or 93613. Do not report standard mapping (93609) in addition to 3-dimensional mapping (93613).

Ablation: Once the part of the heart involved in the tachycardia is localized, the tachycardia may be treated by ablation to the area to selectively destroy cardiac tissue. Ablation procedures (93653-93657) are performed at the same session as electrophysiology studies and therefore represent a combined code descriptor. When reporting ablation therapy codes (93653-93657), the single site electrophysiology studies (93600-93603, 93610, 93612, 93618) and the comprehensive electrophysiology studies (93619, 93620) may not be reported separately. Code 93622 may be reported separately with 93653 and 93656. Code 93623 may be reported separately with 93653, 93654, and 93656. However, 93621 for left atrial pacing and recording from coronary sinus or left atrium should not be reported in conjunction with 93656, as this procedure is a component of 93656. Codes 93653 and 93654 include right ventricular pacing and recording and His bundle recording when clinically indicated. When performance of one or more components is not possible or indicated, document the reason for not performing. Code 93656 includes each of left atrial pacing/recording, right ventricular pacing/recording, and His bundle recording when clinically indicated. When performance of one or more components is not possible or indicated, document the reason for not performing.

The differences in the techniques involved for ablation of supraventricular arrhythmias, ventricular arrhythmias, and atrial fibrillation are reflected within the descriptions for 93653-93657. Code 93653 is a primary code for catheter ablation for treatment of supraventricular tachycardia caused by dual atrioventricular nodal pathways, accessory atrioventricular connections, or other atrial foci. Code 93654 describes catheter ablation for treatment of ventricular tachycardia or focus of ventricular ectopy. Code 93656 is a primary code for reporting treatment of atrial fibrillation by ablation to achieve complete pulmonary vein electrical isolation. Codes 93653, 93654, and 93656 are distinct primary procedure codes and may not be reported together.

Codes 93655 and 93657 are add-on codes listed in addition to the primary ablation code to report ablation of sites distinct from the primary ablation site. After ablation of the primary target site, post-ablation electrophysiologic evaluation is performed as part of those ablation services (93653, 93654, 93656) and additional mechanisms of tachycardia may be identified. For example, if the primary tachycardia ablated was atrioventricular nodal reentrant tachycardia and during post-ablation testing an atrial tachycardia, atrial flutter, or accessory pathway with orthodromic reentry tachycardia was identified, this would be considered a separate mechanism of tachycardia. Pacing maneuvers are performed to define the mechanism(s) of the new tachycardia(s). Catheter ablation of this distinct mechanism of tachycardia is then performed at the newly discovered atrial or ventricular origin. Appropriate post-ablation attempts at re-induction and observation are again performed. Code 93655 is listed in conjunction with 93653 when repeat ablation is for treatment of an additional supraventricular tachycardia mechanism and with 93654 when the repeat ablation is for treatment of an additional ventricular tachycardia mechanism. Code 93655 may be reported with 93656 when an additional non-atrial fibrillation tachycardia is separately diagnosed after pulmonary vein isolation. Code 93657 is reported in conjunction with 93656 when successful pulmonary vein isolation is achieved, attempts at re-induction of atrial fibrillation identify an additional left or right atrial focus for atrial fibrillation, and further ablation of this new focus is performed.

In certain circumstances, depending on the chamber of origin, a catheter or catheters may be maneuvered into the left ventricle to facilitate arrhythmia diagnosis. This may be accomplished via a retrograde aortic approach by means of the arterial access or through a transseptal puncture. For ablation treatment of supraventricular tachycardia (93653) and ventricular tachycardia (93654), the left heart catheterization by transseptal puncture through intact septum (93462) may be reported separately as an add-on code. However, for ablation treatment of atrial fibrillation (93656), the transseptal puncture (93462) is a standard component of the procedure and may not be reported separately. Do not report 93462 in conjunction with 93656.

Modifier 51 should not be appended to 93600-93603, 93610, 93612, 93615-93618.

⦸ **93600** Bundle of His recording

(Do not report 93662 in conjunction with 92961, 0569T, 0570T, 0613T)

Peripheral Arterial Disease Rehabilitation

Peripheral arterial disease (PAD) rehabilitative physical exercise consists of a series of sessions, lasting 45-60 minutes per session, involving use of either a motorized treadmill or a track to permit each patient to achieve symptom-limited claudication. Each session is supervised by an exercise physiologist or nurse. The supervising provider monitors the individual patient's claudication threshold and other cardiovascular limitations for adjustment of workload. During this supervised rehabilitation program, the development of new arrhythmias, symptoms that might suggest angina or the continued inability of the patient to progress to an adequate level of exercise may require review and examination of the patient by a physician or other qualified health care professional. These services would be separately reported with an appropriate level E/M service code, including synchronous audio-video visits (98000, 98001, 98002, 98003, 98004, 98005, 98006, 98007), synchronous audio-only visits (98008, 98009, 98010, 98011, 98012, 98013, 98014, 98015), brief communication technology-based services (98016), office or other outpatient services (99202-99215), initial hospital inpatient or observation care (99221-99223), subsequent hospital inpatient or observation care (99231-99233), critical care services (99291-99292).

93668 Peripheral arterial disease (PAD) rehabilitation, per session

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Apr 20:5

93788 scanning analysis with report

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Apr 20:5

93790 review with interpretation and report

- *CPT Changes: An Insider's View* 2013, 2020
- *CPT Assistant* Apr 20:5

(For self-measured blood pressure monitoring, see 99473, 99474)

Home and Outpatient International Normalized Ratio (INR) Monitoring Services

Home and outpatient international normalized ratio (INR) monitoring services describe the management of warfarin therapy, including ordering, review, and interpretation of new INR test result(s), patient instructions, and dosage adjustments as needed.

If a significantly, separately identifiable evaluation and management (E/M) service is performed on the same day as 93792, the appropriate E/M service may be reported using modifier 25.

Do not report 93793 on the same day as an E/M service.

Do not report 93792, 93793 in conjunction with 98966, 98967, 98968, 98970, 98971, 98972, 99421, 99422, 99423, when telephone or online digital evaluation and management services address home and outpatient INR monitoring.

Do not count time spent in 93792, 93793 in the time of 99439, 99487, 99489, 99490, 99491, when reported in the same calendar month.

93792 Patient/caregiver training for initiation of home international normalized ratio (INR) monitoring under the direction of a physician or other qualified health care professional, face-to-face, including use and care of the INR monitor, obtaining blood sample, instructions for reporting home INR test results, and documentation of patient's/caregiver's ability to perform testing and report results

- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Mar 18:7

(For provision of test materials and equipment for home INR monitoring, see 99070 or the appropriate supply code)

93793 Anticoagulant management for a patient taking warfarin, must include review and interpretation of a new home, office, or lab international normalized ratio (INR) test result, patient instructions, dosage adjustment (as needed), and scheduling of additional test(s), when performed

- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Nov 17:11, Mar 18:7, Feb 20:7

(Do not report 93793 in conjunction with 98000-98016, 99202, 99203, 99204, 99205, 99211, 99212, 99213, 99214, 99215, 99242, 99243, 99244, 99245)

(Report 93793 no more than once per day, regardless of the number of tests reviewed)

Other Procedures

93797 Physician or other qualified health care professional services for outpatient cardiac rehabilitation; without continuous ECG monitoring (per session)

- *CPT Changes: An Insider's View* 2013

93798 with continuous ECG monitoring (per session)

- *CPT Changes: An Insider's View* 2013

93799 Unlisted cardiovascular service or procedure

- *CPT Assistant* Mar 98:11, Mar 02:10, Nov 05:15, Apr 09:9, Jul 10:10, Oct 11:7, Nov 11:11, Dec 13:18, Aug 18:11, Sep 18:10, Dec 18:11, Nov 20:7, Mar 22:13, Oct 22:19, Mar 24:29

Noninvasive Vascular Diagnostic Studies

Vascular studies include patient care required to perform the studies, supervision of the studies and interpretation of study results with copies for patient records of hard copy output with analysis of all data, including bidirectional vascular flow or imaging when provided.

The use of a simple hand-held or other Doppler device that does not produce hard copy output, or that produces a record that does not permit analysis of bidirectional vascular flow, is considered to be part of the physical examination of the vascular system and is not separately reported. The Ankle-Brachial Index (or ABI) is reportable with 93922 or 93923 as long as simultaneous Doppler recording and analysis of bidirectional blood flow, volume plethysmography, or transcutaneous oxygen tension measurements are also performed.

Duplex scan (eg, 93880, 93882) describes an ultrasonic scanning procedure for characterizing the pattern and direction of blood flow in arteries or veins with the production of real-time images integrating B-mode two-dimensional vascular structure, Doppler spectral analysis, and color flow Doppler imaging.

Physiologic studies Noninvasive physiologic studies are performed using equipment separate and distinct from the duplex ultrasound imager. Codes 93922, 93923, 93924 describe the evaluation of non-imaging physiologic recordings of pressures with Doppler analysis of bi-directional blood flow, plethysmography, and/or oxygen tension measurements appropriate for the anatomic area studied.

Limited studies for lower extremity require either:

(1) ankle/brachial indices at distal posterior tibial and anterior tibial/dorsalis pedis arteries plus bidirectional Doppler waveform recording and analysis at 1-2 levels; or (2) ankle/brachial indices at distal posterior tibial and anterior tibial/dorsalis pedis arteries plus volume plethysmography at 1-2 levels; or (3) ankle/brachial indices at distal posterior tibial and anterior tibial/dorsalis pedis arteries with transcutaneous oxygen tension measurements at 1-2 levels. Potential levels include high thigh, low thigh, calf, ankle, metatarsal and toes.

Limited studies for upper extremity require either:

(1) Doppler-determined systolic pressures and bidirectional Doppler waveform recording and analysis at 1-2 levels; or (2) Doppler-determined systolic pressures and volume plethysmography at 1-2 levels; or (3) Doppler-determined systolic pressures and transcutaneous oxygen tension measurements at 1-2 levels. Potential levels include arm, forearm, wrist, and digits.

Complete studies for lower extremity require either:

(1) ankle/brachial indices at distal posterior tibial and anterior tibial/dorsalis pedis arteries plus bidirectional Doppler waveform recording and analysis at 3 or more levels; or (2) ankle/brachial indices at distal posterior tibial and anterior tibial/dorsalis pedis arteries plus volume plethysmography at 3 or more levels; or (3) ankle/brachial indices at distal posterior tibial and anterior tibial/dorsalis pedis arteries with transcutaneous oxygen tension measurements at 3 or more levels. Alternatively, a complete study may be reported with measurements at a single level if provocative functional maneuvers (eg, measurements with postural provocative tests, or measurements with reactive hyperemia) are performed.

Complete studies for upper extremity require either:

(1) Doppler-determined systolic pressures and bidirectional Doppler waveform recording and analysis at 3 or more levels; or (2) Doppler-determined systolic pressures and volume plethysmography at 3 or more levels; or (3) Doppler-determined systolic pressures and transcutaneous oxygen tension measurements at 3 or more levels. Potential levels include arm, forearm, wrist, and digits. Alternatively, a complete study may be reported with measurements at a single level if provocative functional maneuvers (eg, measurements with postural provocative tests, c measurements with cold stress) are performed.

Cerebrovascular Arterial Studies

A complete transcranial Doppler (TCD) study (93886) includes ultrasound evaluation of the right and left anterior circulation territories and the posterior circulation territory (to include vertebral arteries and basilar artery). In a limited TCD study (93888) there is ultrasound evaluation of two or fewer of these territories. For TCD, ultrasound evaluation is a reasonable and concerted attempt to identify arterial signals through an acoustic window.

Use TCD study codes (93886, 93888, 93892, 93893) when a single study is performed. Use 93896, 93897, 93898, when a vasoreactivity study, emboli detection without intravenous microbubble injection, or venous-arterial shunt detection with intravenous microbubble injection is performed in conjunction with a complete TCD on the same day.

Code 93895 includes the acquisition and storage of images of the common carotid arteries, carotid bulbs, and internal carotid arteries bilaterally with quantification of intima media thickness (common carotid artery mean and maximal values) and determination of presence of atherosclerotic plaque.

93880 Duplex scan of extracranial arteries; complete bilateral study

- *Clinical Examples in Radiology* Winter 18:15, Spring 23:20

Extremity Arterial-Venous Studies

A complete extremity duplex scan (93985, 93986) includes evaluation of both arterial inflow and venous outflow for preoperative vessel assessment prior to creation of hemodialysis access. If only an arterial extremity duplex scan is performed, see 93925, 93926, 93930, 93931. If only a venous extremity duplex scan is performed, see 93970, 93971. If a physiologic arterial evaluation of extremities is performed, see 93922, 93923, 93924.

93985 Duplex scan of arterial inflow and venous outflow for preoperative vessel assessment prior to creation of hemodialysis access; complete bilateral study
- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Oct 19:8
- *Clinical Examples in Radiology* Winter 20:3, Spring 23:20

(Do not report 93985 in conjunction with 93925, 93930, 93970 for the same extremity[ies])

(Do not report 93985 in conjunction with 93990 for the same extremity)

93986 complete unilateral study
- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Oct 19:8
- *Clinical Examples in Radiology* Winter 20:3, Spring 23:20

(Do not report 93986 in conjunction with 93926, 93931, 93971, 93990 for the same extremity)

93990 Duplex scan of hemodialysis access (including arterial inflow, body of access and venous outflow)
- *CPT Assistant* Jun 96:9, Dec 05:3
- *Clinical Examples in Radiology* Spring 07:5-6, Winter 18:15, Summer 20:11, Winter 21:9, Spring 23:20

(For measurement of hemodialysis access flow using indicator dilution methods, use 90940)

(For limited study of body of hemodialysis fistula using computer-aided ultrasound system, use 0876T)

Other Noninvasive Vascular Diagnostic Studies

93998 Unlisted noninvasive vascular diagnostic study

- *CPT Changes: An Insider's View* 2012
- *CPT Assistant* Sep 12:9, Jan 14:10, Dec 22:17
- *Clinical Examples in Radiology* Winter 22:3, Summer 22:20

Pulmonary

Ventilator Management

94002 Ventilation assist and management, initiation of pressure or volume preset ventilators for assisted or controlled breathing; hospital inpatient/observation, initial day

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Feb 07:10, Mar 07:10, Apr 07:3, Jul 07:1, Nov 08:5, May 14:4, Oct 14:9, Aug 19:8, Jan 22:3, Jun 22:19, Dec 22:10

94003 hospital inpatient/observation, each subsequent day

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Feb 07:10, Apr 07:3, Jul 07:1, Nov 08:5, May 14:4, Aug 19:8, Jan 22:3, Jun 22:19, Dec 22:10

94004 nursing facility, per day

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Feb 07:10, Apr 07:3, Jul 07:1, Nov 08:5, Aug 19:8, Jan 22:3, Jun 22:19, Dec 22:10

(Do not report 94002-94004 in conjunction with evaluation and management services 98000-98016, 99202-99499)

94005 Home ventilator management care plan oversight of a patient (patient not present) in home, domiciliary or rest home (eg, assisted living) requiring review of status, review of laboratories and other studies and revision of orders and respiratory care plan (as appropriate), within a calendar month, 30 minutes or more

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Mar 07:11, Apr 07:3, Nov 08:5, Oct 14:9

(Do not report 94005 in conjunction with 99374-99378, 99424, 99425, 99437, 99491)

(Ventilator management care plan oversight is reported separately from home or domiciliary, rest home [eg, assisted living] services. A physician or other qualified health care professional may report 94005, when performed, including when a different individual reports 99374-99378, 99424, 99425, 99437, 99491, for the same 30 days)

Pulmonary Diagnostic Testing, Rehabilitation, and Therapies

Codes 94010-94799 include laboratory procedure(s) and interpretation of test results. If a separate identifiable evaluation and management service is performed, the appropriate E/M service code, including new or established patient synchronous audio-video visits (98000, 98001, 98002, 98003, 98004, 98005, 98006, 98007), new or established patient synchronous audio-only visits (98008, 98009, 98010, 98011, 98012, 98013, 98014, 98015), brief communication technology-based services (98016), new or established patient office or other outpatient services (99202-99215), office or other outpatient consultations (99242, 99243, 99244, 99245), emergency department services (99281-99285), nursing facility services (99304-99316), and home or residence services (99341-99350), may be reported in addition to 94010-94799.

Spirometry (94010) measures expiratory airflow and volumes and forms the basis of most pulmonary function testing. When spirometry is performed before and after administration of a bronchodilator, report 94060. Measurement of vital capacity (94150) is a component of spirometry and is only reported when performed alone. The flow-volume loop (94375) is used to identify patterns of inspiratory and/or expiratory obstruction in central or peripheral airways. Spirometry (94010, 94060) includes maximal breathing capacity (94200) and flow-volume loop (94375), when performed.

Measurement of lung volumes may be performed using plethysmography, helium dilution or nitrogen washout. Plethysmography (94726) is utilized to determine total lung capacity, residual volume, functional residual capacity, and airway resistance. Nitrogen washout or helium dilution (94727) may be used to measure lung volumes, distribution of ventilation and closing volume. Oscillometry (94728) assesses airway resistance and may be reported in addition to gas dilution techniques. Spirometry (94010, 94060) and bronchial provocation (94070) are not included in 94726 and 94727 and may be reported separately.

Diffusing capacity (94729) is most commonly performed in conjunction with lung volumes or spirometry and is an add-on code to 94726-94728, 94010, 94060, 94070, and 94375.

Pulmonary function tests (94011-94013) are reported for measurements in infants and young children through 2 years of age.

Pulmonary function testing measurements are reported as actual values and as a percent of predicted values by age, gender, height, and race.

Chest wall manipulation for the mobilization of secretions and improvement in lung function can be performed using manual (94667, 94668) or mechanical (94669) methods. Manual techniques include cupping, percussing, and use of a hand-held vibration device. A mechanical technique is the application of an external vest or wrap that delivers mechanical oscillation.

94010 Spirometry, including graphic record, total and timed vital capacity, expiratory flow rate measurement(s), with or without maximal voluntary ventilation

- *CPT Assistant* Summer 91:16, Summer 95:4, Feb 96:9, Mar 96:10, Nov 97:45, Nov 98:35, Jan 99:8, Feb 99:9, Aug 03:15, Jul 05:11, Nov 08:5, Oct 10:15, Dec 10:15, Aug 12:6-7, Nov 12:14, Dec 13:12, Mar 14:11, Sep 15:9, Mar 19:11, Apr 19:11, May 19:10, Dec 20:3

(Do not report 94010 in conjunction with 94150, 94200, 94375, 94728)

94011 Measurement of spirometric forced expiratory flows in an infant or child through 2 years of age

94012 Measurement of spirometric forced expiratory flows, before and after bronchodilator, in an infant or child through 2 years of age

- *CPT Changes: An Insider's View* 2010, 2017
- *CPT Assistant* May 10:7, Aug 12:6

94013 Measurement of lung volumes (ie, functional residual capacity [FRC], forced vital capacity [FVC], and expiratory reserve volume [ERV]) in an infant or child through 2 years of age

- *CPT Changes: An Insider's View* 2010, 2017
- *CPT Assistant* May 10:7, Aug 12:6, Dec 13:12

94014 Patient-initiated spirometric recording per 30-day period of time; includes reinforced education, transmission of spirometric tracing, data capture, analysis of transmitted data, periodic recalibration and review and interpretation by a physician or other qualified health care professional

- *CPT Changes: An Insider's View* 2000, 2013
- *CPT Assistant* Summer 95:4, Nov 98:34, Jan 99:8, Jul 05:11, Nov 08:5, Feb 23:15

94015 recording (includes hook-up, reinforced education, data transmission, data capture, trend analysis, and periodic recalibration)

- *CPT Assistant* Summer 95:4, Nov 98:34, Jan 99:8, Jul 05:11, Nov 08:5

94016 review and interpretation only by a physician or other qualified health care professional

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Summer 95:4, Nov 98:34, Jan 99:8, Jul 05:11, Nov 08:5

94060 Bronchodilation responsiveness, spirometry as in 94010, pre- and post-bronchodilator administration

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Summer 95:4, Feb 96:9, Feb 97:10, Nov 98:34, Jan 99:8, Feb 99:9, Jul 05:11, Nov 08:5, Dec 10:15, Aug 12:6-7, Mar 14:11, Sep 15:9, Apr 19:11

(Do not report 94060 in conjunction with 94150, 94200, 94375, 94640, 94728)

(Report bronchodilator supply separately with 99070 or appropriate supply code)

(For exercise test for bronchospasm with pre- and post-spirometry, see 94617, 94619)

94070 Bronchospasm provocation evaluation, multiple spirometric determinations as in 94010, with administered agents (eg, antigen[s], cold air, methacholine)

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Summer 91:16, Summer 95:4, Feb 96:9, Nov 97:45, Jan 99:8, Jul 05:11, Nov 08:5, Aug 12:6, Nov 12:11, Sep 15:9

(Do not report 94070 in conjunction with 94640)

(Report antigen[s] administration separately with 99070 or appropriate supply code)

94150 Vital capacity, total (separate procedure)

- *CPT Assistant* Summer 95:4, Feb 96:9, Jul 05:11, Nov 08:5, Dec 10:15, Aug 12:6, Mar 14:11, Sep 18:14

(Do not report 94150 in conjunction with 94010, 94060, 94728. To report thoracic gas volumes, see 94726, 94727)

94200 Maximum breathing capacity, maximal voluntary ventilation

- *CPT Assistant* Summer 95:4, Feb 96:9, Aug 03:15, Jul 05:11, Nov 08:5, Dec 10:15, Aug 12:6-7, Mar 14:11

(Do not report 94200 in conjunction with 94010, 94060)

94375 Respiratory flow volume loop

CPT Assistant Summer 95:4, Feb 96:9, Oct 03:2, Jul 05:11, Jul 06:4, Jul 07:1, Nov 08:5, Aug 12:6-7, Mar 14:11

(Do not report 94375 in conjunction with 94010, 94060, 94728)

94450 Breathing response to hypoxia (hypoxia response curve)

CPT Assistant Summer 95:4, Feb 96:9, Jul 05:11, Nov 08:5

(For high altitude simulation test [HAST], see 94452, 94453)

94452 High altitude simulation test (HAST), with interpretation and report by a physician or other qualified health care professional;

CPT Changes: An Insider's View 2005, 2013

CPT Assistant Jul 05:11, Nov 08:5

(For obtaining arterial blood gases, use 36600)

(Do not report 94452 in conjunction with 94453, 94760, 94761)

94453 with supplemental oxygen titration

CPT Changes: An Insider's View 2005, 2013

CPT Assistant Jul 05:11, Nov 08:5

(For obtaining arterial blood gases, use 36600)

(Do not report 94453 in conjunction with 94452, 94760, 94761)

⦸ **94610** Intrapulmonary surfactant administration by a physician or other qualified health care professional through endotracheal tube

CPT Changes: An Insider's View 2007, 2013

CPT Assistant Apr 07:3, Jul 08:7, Nov 08:5, Dec 10:15

(Do not report 94610 in conjunction with 99468-99472)

(For endotracheal intubation, use 31500)

(Report 94610 once per dosing episode)

94617 Exercise test for bronchospasm, including pre- and post-spirometry and pulse oximetry; with electrocardiographic recording(s)

CPT Changes: An Insider's View 2018, 2021

CPT Assistant Oct 17:3, Mar 19:11, May 19:10, Dec 20:3

 # 94619 without electrocardiographic recording(s)

CPT Changes: An Insider's View 2021

CPT Assistant Dec 20:3

94618 Pulmonary stress testing (eg, 6-minute walk test), including measurement of heart rate, oximetry, and oxygen titration, when performed

CPT Changes: An Insider's View 2018

CPT Assistant Oct 17:3, Mar 19:11, May 19:10

94619 Code is out of numerical sequence. See 94610-94621

94621 Cardiopulmonary exercise testing, including measurements of minute ventilation, CO_2 production, O_2 uptake, and electrocardiographic recordings

CPT Changes: An Insider's View 2018

CPT Assistant Summer 95:4, Nov 98:35, Jan 99:8, Aug 02:10, Jul 05:11, Nov 08:5, Nov 12:14, Oct 17:3, May 19:10

(Do not report 94617, 94619, 94621 in conjunction with 93000, 93005, 93010, 93040, 93041, 93042 for ECG monitoring performed during the same session)

(Do not report 94617, 94619, 94621 in conjunction with 93015, 93016, 93017, 93018)

(Do not report 94621 in conjunction with 94680, 94681, 94690)

(Do not report 94617, 94618, 94619, 94621 in conjunction with 94760, 94761)

94625 Physician or other qualified health care professional services for outpatient pulmonary rehabilitation; without continuous oximetry monitoring (per session)

- *CPT Changes: An Insider's View* 2022
- *CPT Assistant* Jan 22:15

94626 with continuous oximetry monitoring (per session)

- *CPT Changes: An Insider's View* 2022
- *CPT Assistant* Jan 22:15

(Do not report 94625, 94626 in conjunction with 94760, 94761)

94640 Pressurized or nonpressurized inhalation treatment for acute airway obstruction for therapeutic purposes and/or for diagnostic purposes such as sputum induction with an aerosol generator, nebulizer, metered dose inhaler or intermittent positive pressure breathing (IPPB) device

- *CPT Changes: An Insider's View* 2003, 2016
- *CPT Assistant* Summer 95:4, Feb 96:9, May 98:10, Apr 00:11, Jul 05:11, Apr 07:3, Nov 08:5, Sep 10:3, Dec 13:12, Mar 14:11, Sep 15:9

(Do not report 94640 in conjunction with 94060, 94070)

(For more than 1 inhalation treatment performed on the same date, append modifier 76)

(For continuous inhalation treatment of 1 hour or more, see 94644, 94645)

94642 Aerosol inhalation of pentamidine for pneumocystis carinii pneumonia treatment or prophylaxis

- *CPT Assistant* Summer 95:4, Feb 96:9, Jul 05:11, Nov 08:5

94644 Continuous inhalation treatment with aerosol medication for acute airway obstruction; first hour

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Apr 07:3, Nov 08:5, Mar 14:11, Sep 15:9, Apr 23:27

(For services of less than 1 hour, use 94640)

+ 94645 each additional hour (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Apr 07:3, Nov 08:5, Mar 14:11, Sep 15:9, Apr 23:27

(Use 94645 in conjunction with 94644)

94660 Continuous positive airway pressure ventilation (CPAP), initiation and management

►(94662 has been deleted)◄

94664 Demonstration and/or evaluation of patient utilization of an aerosol generator, nebulizer, metered dose inhaler or IPPB device

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Summer 95:4, Feb 96:9, May 98:10, Apr 00:11, Jul 05:11, Nov 08:5, Sep 10:3, Dec 13:12

(94664 can be reported 1 time only per day of service)

94667 Manipulation chest wall, such as cupping, percussing, and vibration to facilitate lung function; initial demonstration and/or evaluation

- *CPT Assistant* Summer 95:4, Feb 96:9, Jul 05:11, Nov 08:5, Sep 10:3, Dec 13:12, Mar 14:11, Sep 15:9

94668 subsequent

- *CPT Assistant* Summer 95:4, Feb 96:9, Jul 05:11, Sep 10:3, Dec 13:12, Mar 14:11, Sep 15:9

94669 Mechanical chest wall oscillation to facilitate lung function, per session

- *CPT Changes: An Insider's View* 2014

94680 Oxygen uptake, expired gas analysis; rest and exercise, direct, simple

CPT Assistant Summer 95:4, Feb 96:9, Jul 05:11

94681 including CO_2 output, percentage oxygen extracted

CPT Assistant Summer 95:4, Feb 96:9, Jul 05:11

94690 rest, indirect (separate procedure)

CPT Assistant Summer 95:4, Feb 96:9, Jul 05:11

(For single arterial puncture, use 36600)

(Do not report 94680, 94681, 94690 in conjunction with 94621)

94726 Plethysmography for determination of lung volumes and, when performed, airway resistance

CPT Changes: An Insider's View 2012

CPT Assistant Jan 12:3, Aug 12:6, May 13:11

(Do not report 94726 in conjunction with 94727, 94728)

94727 Gas dilution or washout for determination of lung volumes and, when performed, distribution of ventilation and closing volumes

CPT Changes: An Insider's View 2012

CPT Assistant Jan 12:3, Aug 12:6, May 13:11

(Do not report 94727 in conjunction with 94726)

94728 Airway resistance by oscillometry

CPT Changes: An Insider's View 2012, 2020

CPT Assistant Jan 12:3, Aug 12:6, May 13:11, Mar 14:11

(Do not report 94728 in conjunction with 94010, 94060, 94070, 94375, 94726)

+ 94729 Diffusing capacity (eg, carbon monoxide, membrane) (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2012

CPT Assistant Jan 12:3, Aug 12:6, Dec 13:12

(Report 94729 in conjunction with 94010, 94060, 94070, 94375, 94726-94728)

94760 Noninvasive ear or pulse oximetry for oxygen saturation; single determination

CPT Assistant Summer 95:4, Feb 96:9, Feb 97:10, Jul 98:2, Oct 03:2, Jul 05:11, Feb 06:9, Jul 06:4, Feb 07:10, Apr 07:1, Jul 07:1, Dec 10:15, May 14:4, Aug 19:8, Dec 20:3, Jan 22:3, Jun 22:19, Dec 22:10

(For blood gases, see 82803-82810)

94761 multiple determinations (eg, during exercise)

CPT Assistant Summer 95:4, Feb 96:9, Jul 98:2, Jun 99:10, Jul 05:11, Feb 06:9, Jul 06:4, Feb 07:10, Apr 07:1, Jun 07:11, Jul 07:1, Dec 08:5, May 14:4, Aug 19:8, Dec 20:3, Jan 22:3, Jun 22:19, Dec 22:10

(Do not report 94760, 94761 in conjunction with 94617, 94618, 94619, 94621)

94762 by continuous overnight monitoring (separate procedure)

CPT Assistant Summer 95:4, Feb 96:9, Jul 98:2, Oct 03:2, Jul 05:11, Feb 06:9, Jul 06:4, Feb 07:10, Apr 07:1, Jul 07:1, Dec 08:5, May 14:4, Aug 19:8, Jan 22:3, Jun 22:19, Dec 22:10

(For other in vivo laboratory procedures, see 88720-88741)

94772 Circadian respiratory pattern recording (pediatric pneumogram), 12-24 hour continuous recording, infant

CPT Assistant Summer 95:4, Feb 96:9, Jul 05:11

(Separate procedure codes for electromyograms, EEG, ECG, and recordings of respiration are excluded when 94772 is reported)

94774 Pediatric home apnea monitoring event recording including respiratory rate, pattern and heart rate per 30-day period of time; includes monitor attachment, download of data, review, interpretation, and preparation of a report by a physician or other qualified health care professional

CPT Changes: An Insider's View 2007, 2013

CPT Assistant Apr 07:3, Mar 08:4

(Do not report 94774 in conjunction with 94775-94777 during the same reporting period)

94775 monitor attachment only (includes hook-up, initiation of recording and disconnection)

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Apr 07:3, Mar 08:4

94776 monitoring, download of information, receipt of transmission(s) and analyses by computer only

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Apr 07:3, Mar 08:4

94777 review, interpretation and preparation of report only by a physician or other qualified health care professional

- *CPT Changes: An Insider's View* 2007, 2013
- *CPT Assistant* Apr 07:3, Mar 08:4

(When oxygen saturation monitoring is used in addition to heart rate and respiratory monitoring, it is not reported separately)

(Do not report 94774-94777 in conjunction with 93224-93272)

(Do not report apnea recording device separately)

(For sleep study, see 95805-95811)

94780 Car seat/bed testing for airway integrity, for infants through 12 months of age, with continual clinical staff observation and continuous recording of pulse oximetry, heart rate and respiratory rate, with interpretation and report; 60 minutes

- *CPT Changes: An Insider's View* 2012, 2019
- *CPT Assistant* Aug 12:6, May 15:11

(Do not report 94780 for less than 60 minutes)

(Do not report 94780 in conjunction with 93040-93042, 94760, 94761, 99468-99472, 99477-99480)

+ 94781 each additional full 30 minutes (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2012, 2019
- *CPT Assistant* Aug 12:6, May 15:11

(Use 94781 in conjunction with 94780)

94799 Unlisted pulmonary service or procedure

- *CPT Assistant* Summer 95:4, Feb 96:9, Mar 96:10, Jul 05:11, Dec 10:15, Nov 12:14, Dec 13:12, May 15:11, Dec 15:17, Sep 18:14, Mar 19:11, Dec 20:3, Apr 23:27

Allergy and Clinical Immunology

Definitions

Immunotherapy (desensitization, hyposensitization): is the parenteral administration of allergenic extracts as antigens at periodic intervals, usually on an increasing dosage scale to a dosage which is maintained as maintenance therapy. Indications for immunotherapy are determined by appropriate diagnostic procedures coordinated with clinical judgment and knowledge of the natural history of allergic diseases.

Other therapy: for medical conferences on the use of mechanical and electronic devices (precipitators, air conditioners, air filters, humidifiers, dehumidifiers), climatotherapy, physical therapy, occupational and recreational therapy, see Evaluation and Management services.

Do not report evaluation and management (E/M) services for test interpretation and report. If a significant separately identifiable E/M service is performed, the appropriate E/M service code, which may include new or established patient synchronous audio-video visits (98000, 98001, 98002, 98003, 98004, 98005, 98006, 98007), new or established patient synchronous audio-only visits (98008, 98009, 98010, 98011, 98012, 98013, 98014, 98015), brief communication technology-based services (98016), new or established patient office or other outpatient services (99202-99215), hospital inpatient or observation care (99221-99223, 99231-99233), consultations (99242, 99243, 99244, 99245, 99252, 99253, 99254, 99255), emergency department services (99281-99285), nursing facility services (99304-99316), home or residence services (99341-99350), or preventive medicine services (99381-99429), should be reported using modifier 25.

Allergy Testing

(For allergy laboratory tests, see 86000-86999)

(For administration of medications [eg, epinephrine, steroidal agents, antihistamines] for therapy for severe or intractable allergic reaction, use 96372)

95004 Percutaneous tests (scratch, puncture, prick) with allergenic extracts, immediate type reaction, including test interpretation and report, specify number of tests

- *CPT Changes: An Insider's View* 2007, 2008, 2013
- *CPT Assistant* Summer 91:15, May 10:3, Jan 13:9

95012 Nitric oxide expired gas determination

- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Mar 07:11, Apr 07:6, Jan 13:9, Mar 14:11

95017 Allergy testing, any combination of percutaneous (scratch, puncture, prick) and intracutaneous (intradermal), sequential and incremental, with venoms, immediate type reaction, including test interpretation and report, specify number of tests

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Jan 13:9, Jul 15:9

95018 Allergy testing, any combination of percutaneous (scratch, puncture, prick) and intracutaneous (intradermal), sequential and incremental, with drugs or biologicals, immediate type reaction, including test interpretation and report, specify number of tests

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Jan 13:9, Jul 15:9

95024 Intracutaneous (intradermal) tests with allergenic extracts, immediate type reaction, including test interpretation and report, specify number of tests

- *CPT Changes: An Insider's View* 2003, 2008, 2013
- *CPT Assistant* Summer 91:15, May 10:3, Jan 13:9

95027 Intracutaneous (intradermal) tests, sequential and incremental, with allergenic extracts for airborne allergens, immediate type reaction, including test interpretation and report, specify number of tests

- *CPT Changes: An Insider's View* 2003, 2008, 2013
- *CPT Assistant* Summer 91:15, Jun 97:10, Dec 07:9, May 10:3, Jan 13:9

95028 Intracutaneous (intradermal) tests with allergenic extracts, delayed type reaction, including reading, specify number of tests

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Summer 91:14, May 10:3, Jan 13:9

95044 Patch or application test(s) (specify number of tests)
- *CPT Assistant* Summer 91:15, Spring 94:31, Jan 13:9

95052 Photo patch test(s) (specify number of tests)
- *CPT Assistant* Spring 94:31, Jan 13:9

95056 Photo tests
- *CPT Assistant* Summer 91:16, Jan 13:9

95060 Ophthalmic mucous membrane tests
- *CPT Assistant* Summer 91:16, Jan 13:9

95065 Direct nasal mucous membrane test
- *CPT Assistant* Summer 91:15, Jan 13:9

95070 Inhalation bronchial challenge testing (not including necessary pulmonary function tests), with histamine, methacholine, or similar compounds
- *CPT Changes: An Insider's View* 2021
- *CPT Assistant* Summer 91:16, Nov 12:11, Jan 13:9

(For pulmonary function tests, see 94060, 94070)

Ingestion Challenge Testing

Codes 95076 and 95079 are used to report ingestion challenge testing. Report 95076 for initial 120 minutes of testing time (ie, not physician face-to-face time). Report 95079 for each additional 60 minutes of testing time (ie, not physician face-to-face time). For total testing time less than 61 minutes (eg, positive challenge resulting in cessation of testing), report an evaluation and management service, if appropriate. Patient assessment/monitoring activities for allergic reaction (eg, blood pressure testing, peak flow meter testing) are not separately reported. Intervention therapy (eg, injection of steroid or epinephrine) may be reported separately as appropriate.

For purposes of reporting testing times, if an evaluation and management service is required, then testing time ends.

95076 Ingestion challenge test (sequential and incremental ingestion of test items, eg, food, drug or other substance); initial 120 minutes of testing
- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Jan 13:9

+ 95079 each additional 60 minutes of testing (List separately in addition to code for primary procedure)
- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Jan 13:9

(Use 95079 in conjunction with 95076)

Allergen Immunotherapy

Codes 95115-95199 include the professional services necessary for allergen immunotherapy. Office visit codes may be used in addition to allergen immunotherapy if other identifiable services are provided at that time.

95115 Professional services for allergen immunotherapy not including provision of allergenic extracts; single injection
- *CPT Assistant* Fall 91:19, Spring 94:30, Summer 95:4, May 96:1, Nov 98:35, Apr 00:4, Feb 05:10, 12, Nov 05:1, Nov 06:23, Dec 07:9, Jan 13:9, Jun 19:15, Sep 20:15

95117 2 or more injections
- *CPT Assistant* Fall 91:19, Spring 94:30, Summer 95:4, May 96:1, Aug 96:10, Nov 98:35, Apr 00:4, Feb 05:10, 12, Nov 05:1, Nov 06:23, Dec 07:9, Jan 13:9, Jun 19:15, Sep 20:15

95120 Professional services for allergen immunotherapy in the office or institution of the prescribing physician or other qualified health care professional, including provision of allergenic extract; single injection

CPT Assistant Fall 91:19, Spring 94:30, Summer 95:4, May 96:11, Nov 98:35, Feb 05:10-11, Jan 13:9

(A single dose vial contains a single dose of antigen administered in 1 injection)

95145 Professional services for the supervision of preparation and provision of antigens for allergen immunotherapy (specify number of doses); single stinging insect venom

CPT Changes: An Insider's View 2002

CPT Assistant Fall 91:19, Summer 95:4, May 96:11, Nov 98:35, Feb 05:10, 12, Jan 13:9

95146 2 single stinging insect venoms

CPT Assistant Fall 91:19, Summer 95:4, May 96:11, Nov 98:35, Feb 05:10, 12, Jan 13:9

95147 3 single stinging insect venoms

CPT Assistant Fall 91:19, Summer 95:4, May 96:11, Nov 98:35, Feb 05:10, 12, Jan 13:9

95148 4 single stinging insect venoms

CPT Assistant Fall 91:19, Summer 95:4, May 96:11, Nov 98:35, Feb 05:10, 12, Jan 13:9

95149 5 single stinging insect venoms

CPT Assistant Fall 91:19, Summer 95:4, May 96:11, Nov 98:35, Feb 05:10, 12, Jan 13:9

95165 Professional services for the supervision of preparation and provision of antigens for allergen immunotherapy; single or multiple antigens (specify number of doses)

CPT Changes: An Insider's View 2002

CPT Assistant Fall 91:19, Spring 94:30, Summer 95:4, May 96:11, Nov 98:35, Apr 00:4, Apr 01:11, Feb 05:10, 12, Jun 05:9, Jan 13:9

95170 whole body extract of biting insect or other arthropod (specify number of doses)

CPT Assistant Fall 91:19, Spring 94:30, Summer 95:4, May 96:12, Apr 01:11, Feb 05:10, 12, Jun 05:9, Jan 13:9

(For allergy immunotherapy reporting, a dose is the amount of antigen[s] administered in a single injection from a multiple dose vial)

95180 Rapid desensitization procedure, each hour (eg, insulin, penicillin, equine serum)

CPT Changes: An Insider's View 2002

CPT Assistant Summer 95:4, Jan 13:9, Jun 19:15

95199 Unlisted allergy/clinical immunologic service or procedure

CPT Assistant Summer 95:4, Nov 98:35, Jan 13:9

(For skin testing of bacterial, viral, fungal extracts, see 86485-86580, 95028)

(For special reports on allergy patients, use 99080)

(For testing procedures such as radioallergosorbent testing [RAST], rat mast cell technique [RMCT], mast cell degranulation test [MCDT], lymphocytic transformation test [LTT], leukocyte histamine release [LHR], migration inhibitory factor test [MIF], transfer factor test [TFT], nitroblue tetrazolium dye test [NTD], see Immunology section in **Pathology** or use 95199)

Endocrinology

Codes 95249 and 95250 are used to report the service for subcutaneous interstitial sensor placement, hook-up of the sensor to the transmitter, calibration of continuous glucose monitoring (CGM) device, patient training on CGM device functions and management, removal of the interstitial sensor, and the print-out of captured data recordings. For the CGM device owned by the physician's or other qualified health care professional's office, use 95250 for the data capture occurring over a **minimum** period of 72 hours.

Code 95249 may be reported only once during the time that a patient owns a given data receiver, including the initial episode of data collection.

Code 95249 may not be reported for subsequent episodes of data collection, unless the patient obtains a new and/or different model of data receiver. Obtaining a new sensor and/or transmitter without a change in receiver may not be reported with 95249.

Code 95249 may not be reported unless the patient brings the data receiver to the physician's or other qualified health care professional's office with the entire initial data collection procedure conducted in the physician's or other qualified health care professional's office.

95249 Code is out of numerical sequence. See 95199-95803

95250 Ambulatory continuous glucose monitoring of interstitial tissue fluid via a subcutaneous sensor for a minimum of 72 hours; physician or other qualified health care professional (office) provided equipment, sensor placement, hook-up, calibration of monitor, patient training, removal of sensor, and printout of recording

- *CPT Changes: An Insider's View* 2002, 2006, 2009, 2016, 2018
- *CPT Assistant* Mar 18:5, Jun 18:6, Feb 22:8, Oct 22:14

(Do not report 95250 more than once per month)

(Do not report 95250 in conjunction with 99091, 0446T)

 # 95249 patient-provided equipment, sensor placement, hook-up, calibration of monitor, patient training, and printout of recording

- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Jun 18:6

(Do not report 95249 more than once for the duration that the patient owns the data receiver)

(Do not report 95249 in conjunction with 99091, 0446T)

95251 analysis, interpretation and report

- *CPT Changes: An Insider's View* 2006, 2009, 2016, 2018
- *CPT Assistant* Mar 18:5, Jun 18:6

(Do not report 95251 more than once per month)

(Do not report 95251 in conjunction with 99091)

Neurology and Neuromuscular Procedures

Neurologic services are typically consultative, and any of the levels of consultation (99242, 99243, 99244, 99245, 99252, 99253, 99254, 99255) may be appropriate.

In addition, services and skills outlined under **Evaluation and Management** levels of service appropriate to neurologic illnesses should be reported similarly.

The electroencephalogram (EEG), video electroencephalogram (VEEG), autonomic function, evoked potential, reflex tests, electromyography (EMG), nerve conduction velocity (NCV), and magnetoencephalography (MEG) services (95700-95726, 95812-95829, and 95860-95967) include recording, interpretation, and report by a physician or other qualified health care professional. For interpretation only, use modifier 26 with 95812-95829, 95860-95967. For interpretation only for long-term EEG services, report 95717, 95718, 95719, 95720, 95721, 95722, 95723, 95724, 95725, 95726.

Codes 95700-95726 and 95812-95822 use EEG/VEEG recording time as a basis for code use. Recording time is when the recording is underway and diagnostic EEG data is being collected. Recording time excludes set up and take down time. If diagnostic EEG recording is disrupted, recording time stops until diagnostic EEG recording is resumed. Codes 95961-95962 use physician or other qualified health care professional attendance time as a basis for code use.

(Do not report codes 95860-95875 in addition to 96000-96004)

Sleep Medicine Testing

Sleep medicine services include procedures that evaluate adult and pediatric patients for a variety of sleep disorders. Sleep medicine testing services are diagnostic procedures using in-laboratory and portable technology to assess physiologic data and therapy.

All sleep services (95800-95811) include recording, interpretation, and report. (Report with modifier 52 if less than 6 hours of recording for 95800, 95801 and 95806, 95807, 95810, 95811; if less than 7 hours of recording for 95782, 95783, or if less than four nap opportunities are recorded for 95805).

Definitions

For purposes of CPT reporting of sleep medicine testing services, the following definitions apply:

Actigraphy: the use of a portable, non-invasive, device that continuously records gross motor movement over an extended period of time. The periods of activity and rest are indirect parameters for estimates of the periods of wakefulness and sleep of an individual.

Attended: a technologist or qualified health care professional is physically present (ie, sufficient proximity such that the qualified health care professional can physically respond to emergencies, to other appropriate patient needs or to technical problems at the bedside) throughout the recording session.

Electrooculogram (EOG): a recording of electrical activity indicative of eye movement.

Maintenance of wakefulness test (MWT): a standardized objective test used to determine a person's ability to stay awake. MWT requires sleep staging of the trials that are performed at defined intervals and is attended by a qualified health care professional.

Multiple sleep latency test (MSLT): a standardized objective test of the tendency to fall asleep. MSLT requires sleep staging of the nap opportunities that are performed at defined intervals and is attended by a technologist or qualified health care professional.

Peripheral arterial tonometry (PAT): a plethysmography technique that continuously measures pulsatile volume changes in a digit. This reflects the relative change of blood volume as an indirect measure of sympathetic nervous system activity which is used in respiratory analysis.

Physiological measurements of sleep as used in 95805: the parameters measured are a frontal, central and occipital lead of EEG (3 leads), submental EMG lead and a left and right EOG. These parameters are used together for staging sleep.

Polysomnography: a sleep test involving the continuous, simultaneous, recording of physiological parameters for a period of at least 6 hours that is performed in a sleep laboratory and attended by a technologist or qualified health care professional. The parameters measured are a frontal, central and occipital lead of EEG (3 leads), submental EMG lead and a left and right EOG, (from which sleep is staged), plus four or more additional parameters. The additional parameters typically required in polysomnography are listed below:

a. Electrocardiogram (ECG)

b. Nasal and/or oral airflow

c. Respiratory effort

d. Oxyhemoglobin saturation, SpO_2

e. Bilateral anterior tibialis EMG

Positive airway pressure (PAP): a device used to treat sleep-related breathing disorders with the use of non-invasive delivery of positive pressure to the airway. Examples include but are not limited to: CPAP (continuous positive airway pressure), bilevel PAP, AutoPAP (autotitrating or adjusting PAP), ASV (adaptive-servo ventilation).

Remote: the site of service is distant from the monitoring center. Neither a technologist nor a qualified health care professional is physically present at the testing site.

Respiratory airflow (ventilation): the movement of air during inhaled and exhaled breaths. This is typically assessed using thermistor and nasal pressure sensors.

Respiratory analysis: generation of derived parameters that describe components of respiration obtained by using direct or indirect parameters, eg, by airflow or peripheral arterial tone.

Respiratory effort: contraction of the diaphragmatic and/or intercostal muscles to cause (or attempt to cause) respiratory airflow. This is typically measured using transducers that estimate motion of the thorax and abdomen such as respiratory inductive plethysmography, transducers that estimate pressures generated by breathing muscles such as esophageal manometry, or by contraction of breathing muscles, such as diaphragmatic/intercostal EMG.

Respiratory (thoracoabdominal) movement: movement of the chest and abdomen during respiratory effort.

Sleep latency: the length of time it takes to transition from wakefulness to sleep. In the sleep laboratory it is the time from "lights out" to the first epoch scored as any stage of sleep.

Sleep staging: the delineation of the distinct sleep levels through the simultaneous evaluation of physiologic measures including a frontal, central and occipital lead of EEG (3 leads), submental EMG lead and a left and right EOG.

Sleep testing (or sleep study): the continuous, simultaneous monitoring of physiological parameters during sleep (eg, polysomnography, EEG).

Total sleep time: a derived parameter obtained by sleep staging or may be estimated indirectly using actigraphy or other methods.

Unattended: a technologist or qualified health care professional is not physically present with the patient during the recording session.
(Report with modifier 52 if less than 6 hours of recording or in other cases of reduced services as appropriate)

(For unattended sleep study, use 95806)

95829 Code is out of numerical sequence. See 95824-95852

95830 Insertion by physician or other qualified health care professional of sphenoidal electrodes for electroencephalographic (EEG) recording

CPT Changes: An Insider's View 2013

Electrocorticography

Electrocorticography (ECoG) is the recording of EEG from electrodes directly on or in the brain.

Code 95829 describes intraoperative recordings of ECoG from electrode arrays implanted in or placed directly on the brain exposed during surgery. Code 95829 includes review and interpretation during surgery.

Code 95836 describes recording of ECoG from electrodes chronically implanted on or in the brain. Chronically implanted electrodes allow for intracranial recordings to continue after the patient has been discharged from the hospital. Code 95836 includes unattended ECoG recording with storage for later review and interpretation during a single 30-day period. Code 95836 may be reported only once for each 30-day period. The dates encompassed by the 30-day period must be documented in the report.

For report of programming for a brain neurostimulator pulse generator/transmitter during the ECoG (95836) 30-day period, see 95983, 95984.

 # 95829 Electrocorticogram at surgery (separate procedure)

CPT Assistant Nov 98:35, Dec 18:3

 # 95836 Electrocorticogram from an implanted brain neurostimulator pulse generator/transmitter, including recording, with interpretation and written report, up to 30 days

CPT Changes: An Insider's View 2019

CPT Assistant Dec 18:3

(Report 95836 only once per 30 days)

Extraoperative ECoG

95836

Extraoperative ECoG device with wand placed above head and laptop.

Electromyography

Needle electromyographic (EMG) procedures include the interpretation of electrical waveforms measured by equipment that produces both visible and audible components of electrical signals recorded from the muscle(s) studied by the needle electrode.

Use 95870 or 95885 when four or fewer muscles are tested in an extremity. Use 95860-95864 or 95886 when five or more muscles are tested in an extremity.

Use EMG codes (95860-95864 and 95867-95870) when no nerve conduction studies (95907-95913) are performed on that day. Use 95885, 95886, and 95887 for EMG services when nerve conduction studies (95907-95913) are performed in conjunction with EMG on the same day.

Report either 95885 or 95886 once per extremity. Codes 95885 and 95886 can be reported together up to a combined total of four units of service per patient when all four extremities are tested.

Report 95887 once per anatomic site (ie, cervical paraspinal muscle[s], thoracic paraspinal muscle[s], lumbar paraspinal muscle[s], chest wall muscle[s], and abdominal wall muscle[s]). Use 95887 for a unilateral study of the cranial nerve innervated muscles (excluding extra-ocular and larynx); when performed bilaterally, 95887 may be reported twice.

Use 95887 when a study of the cervical paraspinal muscle(s), or the lumbar paraspinal muscle(s) is performed with no corresponding limb study (95885 or 95886) on the same day.

(For needle electromyography of anal or urethral sphincter, use 51785)

(For non-needle electromyography of anal or urethral sphincter, use 51784)

(For needle electromyography of larynx, use 95865)

(For needle electromyography of hemidiaphragm, use 95866)

(For needle electromyography of extra-ocular muscles, use 92265)

95860 Needle electromyography; 1 extremity with or without related paraspinal areas

95885 Code is out of numerical sequence. See 95870-95874

95886 Code is out of numerical sequence. See 95870-95874

95887 Code is out of numerical sequence. See 95870-95874

Nerve Conduction Tests

The following applies to nerve conduction tests (95907-95913): Codes 95907-95913 describe nerve conduction tests when performed with individually placed stimulating, recording, and ground electrodes. The stimulating, recording, and ground electrode placement and the test design must be individualized to the patient's unique anatomy. Nerves tested must be limited to the specific nerves and conduction studies needed for the particular clinical question being investigated. The stimulating electrode must be placed directly over the nerve to be tested, and stimulation parameters properly adjusted to avoid stimulating other nerves or nerve branches. In most motor nerve conduction studies, and in some sensory and mixed nerve conduction studies, both proximal and distal stimulation will be used. Motor nerve conduction study recordings must be made from electrodes placed directly over the motor point of the specific muscle to be tested. Sensory nerve conduction study recordings must be made from electrodes placed directly over the specific nerve to be tested. Waveforms must be reviewed on site in real time, and the technique (stimulus site, recording site, ground site, filter settings) must be adjusted, as appropriate, as the test proceeds in order to minimize artifact, and to minimize the chances of unintended stimulation of adjacent nerves and the unintended recording from adjacent muscles or nerves. Reports must be prepared on site by the examiner, and consist of the work product of the interpretation of numerous test results, using well-established techniques to assess the amplitude, latency, and configuration of waveforms elicited by stimulation at each site of each nerve tested. This includes the calculation of nerve conduction velocities, sometimes including specialized F-wave indices, along with comparison to normal values, summarization of clinical and electrodiagnostic data, and physician or other qualified health care professional interpretation. Codes 95907-95913 describe one or more nerve conduction studies. For the purposes of coding, a single conduction study is defined as a sensory conduction test, a motor conduction test with or without an F wave test, or an H-reflex test. Each type of study (sensory, motor with or without F wave, H-reflex) for each nerve includes all orthodromic and antidromic impulses associated with that nerve and constitutes a distinct study when determining the number of studies in each grouping (eg, 1-2 or 3-4 nerve conduction studies). Each type of nerve conduction study is counted only once when multiple sites on the same nerve are stimulated or recorded. The numbers of these separate tests should be added to determine which code to use. For a list of nerves, see Appendix J. Use 95885-95887 in conjunction with 95907-95913 when performing electromyography with nerve conduction studies.

Code 95905 describes nerve conduction tests when performed with preconfigured electrodes customized to a specific anatomic site.

⦸ **95905** Motor and/or sensory nerve conduction, using preconfigured electrode array(s), amplitude and latency/velocity study, each limb, includes F-wave study when performed, with interpretation and report

- *CPT Changes: An Insider's View* 2010
- *CPT Assistant* Mar 13:3

(Report 95905 only once per limb studied)

(Do not report 95905 in conjunction with 95885, 95886, 95907-95913)

95907 Nerve conduction studies; 1-2 studies

95913 13 or more studies

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Mar 13:3, May 13:8, Sep 13:18, Aug 18:11, Sep 22:21

(Do not report 95905, 95907, 95908, 95909, 95910, 95911, 95912, 95913 for noninvasive nerve conduction guidance used in conjunction with 0766T)

Intraoperative Neurophysiology

Codes 95940, 95941 describe ongoing neurophysiologic monitoring, testing, and data interpretation distinct from performance of specific type(s) of baseline neurophysiologic study(s) performed during surgical procedures. When the service is performed by the surgeon or anesthesiologist, the professional services are included in the surgeon's or anesthesiologist's primary service code(s) for the procedure and are not reported separately. Do not report these codes for automated monitoring devices that do not require continuous attendance by a professional qualified to interpret the testing and monitoring.

Recording and testing are performed either personally or by a technologist who is physically present with the patient during the service. Supervision is performed either in the operating room or by real time connection outside the operating room. The monitoring professional must be solely dedicated to performing the intraoperative neurophysiologic monitoring and must be available to intervene at all times during the service as necessary, for the reported time period(s). For any given period of time spent providing these services, the service takes full attention and, therefore, other clinical activities beyond providing and interpreting of monitoring cannot be provided during the same period of time.

Throughout the monitoring, there must be provisions for continuous and immediate communication directly with the operating room team in the surgical suite. One or more simultaneous cases may be reported (95941). When monitoring more than one procedure, there must be the immediate ability to transfer patient monitoring to another monitoring professional during the surgical procedure should that individual's exclusive attention be required for another procedure. Report 95941 for all remote or non-one-on-one monitoring time connected to each case regardless of overlap with other cases.

Codes 95940, 95941 include only the ongoing neurophysiologic monitoring time distinct from performance of specific type(s) of baseline neurophysiologic study(s), or other services such as intraoperative functional cortical or subcortical mapping. Codes 95940 and 95941 are reported based upon the time spent monitoring only, and not the number of baseline tests performed or parameters monitored. The time spent performing or interpreting the baseline neurophysiologic study(ies) should not be counted as intraoperative monitoring, but represents separately reportable procedures. When reporting 95940 and 95941, the same neurophysiologic study(ies) performed at baseline should be reported not more than once per operative session. Baseline study reporting is based upon the total unique studies performed. For example, if during the course of baseline testing and one-on-one monitoring, two separate nerves have motor testing performed in conjunction with limited single extremity EMG, then 95885 and 95907 would be reported in addition to 95940. Time spent monitoring (95940, 95941) excludes time to set up, record, and interpret the baseline studies, and to remove electrodes at the end of the procedure. To report time spent waiting on standby for a case to start, use 99360. For procedures that last beyond midnight, report services using the day on which the monitoring began and using the total time monitored.

Code 95940 is reported per 15 minutes of service. Code 95940 requires reporting only the portion of time the monitoring professional was physically present in the operating room providing one-on-one patient monitoring, and no other cases may be monitored at the same time. Time spent in the operating room is cumulative. To determine units of service of 95940, use the total minutes monitoring in the operating room one-on-one. Monitoring may begin prior to incision (eg, when positioning on the table is a time of risk). Report continuous intraoperative neurophysiologic monitoring in the operating room (95940) in addition to the services related to monitoring from outside the operating room (95941).

Code 95941 should be used once per hour even if multiple methods of neurophysiologic monitoring are used during the time. Code 95941 requires the monitoring of neurophysiological data that is collected from the operating room continuously on-line in real time via a secure data link. When reporting 95941, real-time ability must be available through sufficient data bandwidth transfer rates to view and interrogate the neurophysiologic data contemporaneously.

Report 95941 for all cases in which there was no physical presence by the monitoring professional in the operating room during the monitoring time or when monitoring more than one case in an operating room. It is also used to report the time of monitoring physically performed outside of the operating room in those cases where monitoring occurred both within and outside the operating room. Do not report 95941 if the monitoring lasts 30 minutes or less.

Intraoperative neurophysiology monitoring codes 95940 and 95941 are each used to report the total duration of respective time spent providing each service, even if that time is not in a single continuous block.

#+ 95940 Continuous intraoperative neurophysiology monitoring in the operating room, one on one monitoring requiring personal attendance, each 15 minutes (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* May 13:8-10, Apr 14:5, 11, Aug 17:8, Oct 20:14

(Use 95940 in conjunction with the study performed, 92653, 95822, 95860-95870, 95907-95913, 95925, 95926, 95927, 95928, 95929, 95930-95937, 95938, 95939)

#+ 95941 Continuous intraoperative neurophysiology monitoring, from outside the operating room (remote or nearby) or for monitoring of more than one case while in the operating room, per hour (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2013

CPT Assistant Feb 13:16, May 13:8, Apr 14:5, 11, Dec 14:19, Aug 17:8, Oct 20:14

(Use 95941 in conjunction with the study performed, 92653, 95822, 95860-95870, 95907-95913, 95925, 95926, 95927, 95928, 95929, 95930-95937, 95938, 95939)

(For time spent waiting on standby before monitoring, use 99360)

(For electrocorticography, use 95829)

(For intraoperative EEG during nonintracranial surgery, use 95955)

(For intraoperative functional cortical or subcortical mapping, see 95961-95962)

(For intraoperative neurostimulator programming, see 95971, 95972, 95976, 95977, 95983, 95984)

Autonomic Function Tests

The purpose of autonomic nervous system function testing is to determine the presence of autonomic dysfunction, the site of autonomic dysfunction, and the various autonomic subsystems that may be disordered.

Code 95921 should be reported only when electrocardiographic monitoring of heart rate derived from the time elapsing between two consecutive R waves in the electrocardiogram, or the R-R interval, is displayed on a monitor and stored for subsequent analysis of waveforms. Testing is typically performed in the prone position. A tilt table may be used, but is not required equipment for testing of the parasympathetic function. At least two of the following components need to be included in testing:

1. Heart rate response to deep breathing derived from a visual quantitative analysis of recordings with subject breathing at a rate of 5-6 breaths per minute.
2. Valsalva ratio determined by dividing the maximum heart rate by the lowest heart rate. The initial heart rate responses to sustained oral pressure (blowing into a tube with an open glottis) consist of tachycardia followed by a bradycardia at 15-45 seconds after the Valsalva pressure has been released. A minimum of two Valsalva maneuvers are to be performed. The initial cardioacceleration is an exercise reflex while the subsequent tachycardia and bradycardia are baroreflex-mediated.
3. A 30:15 ratio (R-R interval at beat 30)/(R-R interval at beat 15) used as an index of cardiovascular function.

Code 95922 should be reported only when all of the following components are included in testing:

1. Continuous recording of beat-to-beat BP and heart rate. The heart rate needs to be derived from an electrocardiogram (ECG) unit such that an accurate quantitative graphical measurement of the R-R interval is obtained.
2. A period of supine rest of at least 20 minutes prior to testing.
3. The performance and recording of beat-to-beat blood pressure and heart rate during a minimum of two (2) Valsalva maneuvers.
4. The performance of passive head-up tilt with continuous recording of beat-to-beat blood pressure and heart rate for a minimum of five minutes, followed by passive tilt-back to the supine position. This must be performed using a tilt table.

Code 95924 should be reported only when both the parasympathetic function and the adrenergic function are tested together with the use of a tilt table.

95919 Quantitative pupillometry with physician or other qualified health care professional interpretation and report, unilateral or bilateral

- *CPT Changes: An Insider's View* 2023
- *CPT Assistant* Aug 23:14

95921 Testing of autonomic nervous system function; cardiovagal innervation (parasympathetic function), including 2 or more of the following: heart rate response to deep breathing with recorded R-R interval, Valsalva ratio, and 30:15 ratio

- *CPT Assistant* Nov 98:35-36, Apr 02:2, Oct 03:11, Feb 06:15, Nov 12:6, Sep 20:7

95922 vasomotor adrenergic innervation (sympathetic adrenergic function), including beat-to-beat blood pressure and R-R interval changes during Valsalva maneuver and at least 5 minutes of passive tilt

- *CPT Assistant* Nov 98:35-36, Apr 02:2, Jun 03:11, Feb 06:15, Nov 06:23, Dec 08:4, Nov 12:6, Sep 20:7

(Do not report 95922 in conjunction with 95921)

95923 sudomotor, including 1 or more of the following: quantitative sudomotor axon reflex test (QSART), silastic sweat imprint, thermoregulatory sweat test, and changes in sympathetic skin potential

- *CPT Assistant* Nov 98:35-36, Apr 02:2, Feb 06:15, Nov 12:6, Sep 20:7

95924 combined parasympathetic and sympathetic adrenergic function testing with at least 5 minutes of passive tilt

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Nov 12:6, Sep 20:7

(Do not report 95924 in conjunction with 95921 or 95922)

Evoked Potentials and Reflex Tests

95925 Short-latency somatosensory evoked potential study, stimulation of any/all peripheral nerves or skin sites, recording from the central nervous system; in upper limbs

- *CPT Assistant* Nov 98:35-36, Apr 02:2, Apr 12:17, May 13:8

(Do not report 95925 in conjunction with 95926)

95926 in lower limbs

- *CPT Assistant* May 01:11, Apr 02:2, Apr 12:17, May 13:8

(Do not report 95926 in conjunction with 95925)

 # 95938 in upper and lower limbs

95929 lower limbs

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* May 13:8, Jan 23:31

(Do not report 95929 in conjunction with 95928)

 # 95939 in upper and lower limbs

CPT Changes: An Insider's View 2012

CPT Assistant Apr 12:17-18, May 13:8, Jan 23:31, Jul 24:15

(Do not report 95939 in conjunction with 95928, 95929)

95930 Visual evoked potential (VEP) checkerboard or flash testing, central nervous system except glaucoma, with interpretation and report

CPT Changes: An Insider's View 2018

CPT Assistant May 13:8, Aug 14:8, Feb 18:3

(For visual evoked potential testing for glaucoma, use 0464T)

(For screening of visual acuity using automated visual evoked potential devices, use 0333T)

95933 Orbicularis oculi (blink) reflex, by electrodiagnostic testing

CPT Assistant Nov 98:35-36, May 13:8, Jul 17:10

95937 Neuromuscular junction testing (repetitive stimulation, paired stimuli), each nerve, any 1 method

CPT Assistant Nov 98:35-36, Apr 02:2, Jun 06:8, Mar 13:3, May 13:8, Feb 16:14, Aug 20:15

95938 Code is out of numerical sequence. See 95912-95933

95939 Code is out of numerical sequence. See 95912-95933

95940 Code is out of numerical sequence. See 95912-95933

95941 Code is out of numerical sequence. See 95912-95933

Special EEG Tests

Codes 95961 and 95962 use physician or other qualified health care professional time as a basis for unit of service. Report 95961 for the first hour of attendance. Use modifier 52 with 95961 for 30 minutes or less. Report 95962 for each additional hour of attendance. Codes 95961, 95962 may be reported with 95700-95726 when functional cortical or subcortical mapping is performed with long-term EEG monitoring.

Codes 95700-95726 describe long-term continuous recording services for electroencephalography (EEG), which are performed to differentiate seizures from other abnormalities, determine type or location of seizures, monitor treatment of seizures and status epilepticus, establish if the patient is a candidate for epilepsy surgery, and/or screen for adverse change in critically ill patients.

The set of codes that describe long-term continuous recording EEG services (95700-95726) is divided into two major groups: (1) technical services, and (2) professional services. Codes 95700-95726 may be reported for any site of service. The technical component of the services is reported with 95700-95716. The professional component of the services is reported with 95717, 95718, 95719, 95720, 95721, 95722, 95723, 95724, 95725, 95726. Diagnostic EEG recording time of less than 2 hours (ie, 1 minute, up to 1 hour and 59 minutes) is not reported separately as a long-term EEG service.

Long-term continuous recording EEG services (95700-95726) are different than routine EEGs (95812, 95813, 95816, 95819, 95822). Routine EEGs capture brain-wave activity within a short duration of testing, defined as less than 2 hours. Long-term continuous recording EEGs capture brain-wave activity for durations of time equal to or greater than 2 hours. The length of recording is based on a number of factors, including the clinical indication for the test and the frequency of seizures.

Use of automated spike and seizure detection and trending software is included in 95700-95726, when performed. Do not report 95957 for use of automated software.

Definitions

EEG technologist: An individual who is qualified by education, training, licensure/certification/regulation (when applicable) in seizure recognition. An EEG technologist(s) performs EEG setup, takedown when performed, patient education, technical description, maintenance, and seizure recognition when within his or her scope of practice and as allowed by law, regulation, and facility policy (when applicable).

Unmonitored: Services that have no real-time monitoring by an EEG technologist(s) during the continuous recording. If the criteria for intermittent or continuous monitoring are not met, then the study is an unmonitored study.

Intermittent monitoring (remote or on-site): Requires an EEG technologist(s) to perform and document real-time review of data at least every 2 hours during the entire recording period to assure the integrity and quality of the recording (ie, EEG, VEEG), identify the need for maintenance, and, when necessary, notify the physician or other qualified health care professional of clinical issues. For intermittent monitoring, a single EEG technologist may monitor a maximum of 12 patients concurrently. If the number of intermittently monitored patients exceeds 12, then all of the studies are reported as unmonitored.

Continuous real-time monitoring (may be provided remotely): Requires all elements of intermittent monitoring. In addition, the EEG technologist(s) performs and documents real-time concurrent monitoring of the EEG data and video (when performed) during the entire recording period. The EEG technologist(s) identifies when events occur and notifies, as instructed, the physician or other qualified health care professional. For continuous monitoring, a single EEG technologist may monitor a maximum of four patients concurrently. If the number of concurrently monitored patients exceeds four, then all of the studies are reported as either unmonitored or intermittent studies. If there is a break in the real-time monitoring of the EEG recording, the study is an intermittent study.

Technical description: The EEG technologist(s)'s written documentation of the reviewed EEG/VEEG data, including technical interventions. The technical description is based on the EEG technologist(s)'s review of data and includes the following required elements: uploading and/or transferring EEG/VEEG data from EEG equipment to a server or storage device; reviewing raw EEG/VEEG data and events and automated detection, as well as patient activations; and annotating, editing, and archiving EEG/VEEG data for review by the physician or other qualified health care professional. For unmonitored services, the EEG technologist(s) annotates the recording for review by the physician or other qualified health care professional and creates a single summary.

Maintenance of long-term EEG equipment: Performed by the EEG technologist(s) and involves ensuring the integrity and quality of the recording(s) (eg, camera position, electrode placement, and impedances).

Setup: Performed in person by the EEG technologist(s) and includes preparing supplies and equipment and securing electrodes using the 10/20 system. Code 95700 is reported only once per recording period on the date the setup was performed. "In person" means that the EEG technologist(s) must be physically present with the patient.

Technical Component Services

Code 95700 describes any long-term continuous EEG/VEEG recording setup, takedown when performed, and patient/caregiver education by the EEG technologist(s). To report 95700, the setup must include a minimum of eight channels of EEG. Services with fewer than eight channels may be reported using 95999. Eight to 15 channels are typically used for neonates and when electrodes cannot be placed on certain regions of the scalp that are sterile. Twenty or more channels are typically used for children and adults. If setup is performed by someone who does not meet the definition of an EEG technologist(s), report 95999.

Codes 95705-95716 describe monitoring, maintenance, review of data, and creating a summary technical description. These codes are divided into four groups based on duration and whether video is utilized. Key elements in determining the appropriate technical code (95705-95716) for long-term EEG continuous recording are: (1) whether diagnostic video recording is captured in conjunction and simultaneously with the EEG service, which is referred to as video-EEG (VEEG), and (2) technologist monitoring for the study (ie, unmonitored, intermittently monitored, or continuously monitored). Codes 95711, 95712, 95713, 95714, 95715, 95716 are reported if diagnostic video of the patient is recorded a minimum of 80% of the time of the entire long-term VEEG service, concurrent with diagnostic EEG recording (ie, the entire study is reported as an EEG without video if concurrent diagnostic video occurs less than 80% of the entire study). Diagnostic EEG recording is an essential component of all long-term EEG services. If diagnostic EEG recording stops, timing stops until the diagnostic EEG is resumed.

Codes 95705, 95706, 95707, 95711, 95712, 95713 are reported when total diagnostic recording time is between 2 and 12 hours, or to capture the final increment of a multiple-day service when the final increment extends 2 to 12 hours beyond the time reported by the appropriate greater-than-12-hour-up-to-26-hour code(s) (95708, 95709, 95710, 95714, 95715, 95716). A maximum of one 2-12 hour code may be reported for an entire long-term EEG service. For example, if the testing lasts 48 hours, but diagnostic recording occurs only in the initial 11 hours and the final 11 hours of the testing period, a single greater-than-12-hour-up-to-26-hour technical code is reported, rather than two 2-12 hour code for the 48-hour service (see the Long-Term EEG Monitoring Table).

Professional Component Services

Codes 95717, 95718, 95719, 95720, 95721, 95722, 95723, 95724, 95725, 95726 describe the professional services performed by a physician or other qualified health care professional for reviewing, analyzing, interpreting, and reporting the results of the continuous recording EEG/VEEG with recommendations based on the findings of the studies. These codes do not include E/M services, which may be reported separately.

Codes 95719, 95720 are used for greater than 12 hours (ie, 12 hours and 1 minute) up to 26 hours of recording. Code selection for professional interpretation for long-term EEG is based on: (1) length of the recording being interpreted, and (2) when the physician or other qualified health care professional reports are generated (ie, whether diagnostic interpretations and reports are made daily during the study, or whether the entire professional interpretation is performed after the entire study is completed). Codes 95717, 95718, 95719, 95720 are reported when: (1) daily professional reports are generated during the long-term recording, even if the entire study extends over multiple days or (2) the time of recording for the entire study is between 2 hours and 36 hours. Codes 95717, 95718 are reported once for each 2-12 hour recording and reported a maximum of once for an entire long-term EEG service. Codes 95719, 95720 are reported once for each greater-than-12-hours-up-to-26-hours recording period. Studies lasting 26 to 36 hours or longer are reported using building blocks and reported using one or more of the greater-than-12-hours-up-to-26-hour code with one 2-12 hour code. The recorded data are reviewed, interpreted, and reported daily by the physician or other qualified health care professional, and summary reports are made for the entire multiple-day study. The summary reports are included in each code (95717, 95718, 95719, 95720, 95721, 95722, 95723, 95724, 95725, 95726) and not reported separately (see the Long-Term EEG Monitoring Table).

Long-Term EEG Monitoring Table

	Professional Services		Technical Services		
Duration of Long-Term EEG/VEEG Recording	**With Report Each 24 Hours**	**With Report at Conclusion of Entire Recording Period**	**Unmonitored**	**Intermittent**	**Continuous**
Less than 120 minutes (w/video or w/out video)	Not reported separately	See 95812/95813	Not reported separately	Not reported separately	Not reported separately
2 to 12 hours (w/out video)	95717 x 1		95705 x 1	95706 x 1	95707 x 1
2 to 12 hours (w/video)	95718 x 1		95711 x 1	95712 x 1	95713 x 1
12 hours and 1 minute to 26 hours (w/out video)	95719 x 1		95708 x 1	95709 x 1	95710 x 1
12 hours and 1 minute to 26 hours (w/video)	95720 x 1		95714 x 1	95715 x 1	95716 x 1
26 hours and 1 minute to 36 hours (w/out video)	95719 x 1 and 95717 x 1		95708 x 1 and 95705 x 1	95709 x 1 and 95706 x 1	95710 x 1 and 95707 x 1
26 hours and 1 minute to 36 hours (w/video)	95720 x 1 and 95718 x 1		95714 x 1 and 95711 x 1	95715 x 1 and 95712 x 1	95716 x 1 and 95713 x 1
36 hours and 1 minute to 50 hours (w/out video)	95719 x 2	95721 x 1	95708 x 2	95709 x 2	95710 x 2
36 hours and 1 minute to 50 hours (w/video)	95720 x 2	95722 x 1	95714 x 2	95715 x 2	95716 x 2
50 hours and 1 minute to 60 hours (w/out video)	95719 x 2 and 95717 x 1	95721 x 1	95708 x 2 and 95705 x 1	95709 x 2 and 95706 x 1	95710 x 2 and 95707 x 1
50 hours and 1 minute to 60 hours (w/video)	95720 x 2 and 95718 x 1	95722 x 1	95714 x 2 and 95711 x 1	95715 x 2 and 95712 x 1	95716 x 2 and 95713 x 1
60 hours and 1 minute to 74 hours (w/out video)	95719 x 3	95723 x 1	95708 x 3	95709 x 3	95710 x 3
60 hours and 1 minute to 74 hours (w/video)	95720 x 3	95724 x 1	95714 x 3	95715 x 3	95716 x 3
74 hours and 1 minute to 84 hours (w/out video)	95719 x 3 and 95717 x 1	95723 x 1	95708 x 3 and 95705 x 1	95709 x 3 and 95706 x 1	95710 x 3 and 95707 x 1
74 hours and 1 minute to 84 hours (w/video)	95720 x 3 and 95718 x 1	95724 x 1	95714 x 3 and 95711 x 1	95715 x 3 and 95712 x 1	95716 x 3 and 95713 x 1
84 hours and 1 minute to 98 hours (w/out video)	95719 x 4	95725 x 1	95708 x 4	95709 x 4	95710 x 4
84 hours and 1 minute to 98 hours (w/video)	95720 x 4	95726 x 1	95714 x 4	95715 x 4	95716 x 4

For 95721, 95722, 95723, 95724, 95725, 95726, the entire professional interpretation (including retrospective daily reports and a summary report) is made after the entire study is recorded and downloaded at the completion of the study. When the entire professional interpretation is provided for a multiple-day study that is greater than 36 hours, 95721, 95722, 95723, 95724, 95725, 95726 are used to report the entire professional service with the appropriate code determined by the span of diagnostic recording time, as defined by the codes. A single code (95721, 95722, 95723, 95724, 95725, 95726) is reported for the multiple-day study. For example, a long-term EEG recording that spans three days with a total of 50 hours of VEEG recording would be reported with 95722. Sixty hours and one minute of diagnostic VEEG recording is reported with 95724 (see the Long-Term EEG Monitoring Table).

95954 Pharmacological or physical activation requiring physician or other qualified health care professional attendance during EEG recording of activation phase (eg, thiopental activation test)

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Winter 94:18, Nov 98:35

95955 Electroencephalogram (EEG) during nonintracranial surgery (eg, carotid surgery)

- *CPT Assistant* Nov 98:35, Dec 14:19

95957 Digital analysis of electroencephalogram (EEG) (eg, for epileptic spike analysis)

- *CPT Assistant* Winter 94:18, Nov 98:35, Nov 10:6, Dec 18:3, Mar 20:8, Nov 22:22

(Do not report 95957 for use of automated software. For use of automated spike and seizure detection and trending software when performed with long-term EEG, see 95700-95726)

95958 Wada activation test for hemispheric function, including electroencephalographic (EEG) monitoring

- *CPT Assistant* Nov 98:35

95961 Functional cortical and subcortical mapping by stimulation and/or recording of electrodes on brain surface, or of depth electrodes, to provoke seizures or identify vital brain structures; initial hour of attendance by a physician or other qualified health care professional

- *CPT Changes: An Insider's View* 2000, 2013
- *CPT Assistant* Winter 94:18, Nov 98:35, Nov 99:52-53, Apr 10:10, Aug 10:13, Feb 11:3, Dec 18:3, Oct 23:24

+ 95962 each additional hour of attendance by a physician or other qualified health care professional (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Winter 94:18, Nov 98:35, Nov 99:52-53, Apr 10:10, Aug 10:13, Feb 11:3, Oct 23:24

(Use 95962 in conjunction with 95961)

95965 Magnetoencephalography (MEG), recording and analysis; for spontaneous brain magnetic activity (eg, epileptic cerebral cortex localization)

- *CPT Changes: An Insider's View* 2002

95966 for evoked magnetic fields, single modality (eg, sensory, motor, language, or visual cortex localization)

- *CPT Changes: An Insider's View* 2002

+ 95967 for evoked magnetic fields, each additional modality (eg, sensory, motor, language, or visual cortex localization) (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Oct 20:9

(Use 95967 in conjunction with 95966)

(For electroencephalography performed in addition to magnetoencephalography, see 95812-95824)

(For somatosensory evoked potentials, auditory evoked potentials, and visual evoked potentials performed in addition to magnetic evoked field responses, see 92653, 95925, 95926, and/or 95930)

(For computerized tomography performed in addition to magnetoencephalography, see 70450-70470, 70496)

(For magnetic resonance imaging performed in addition to magnetoencephalography, see 70551-70553)

Long-term EEG Setup

 # 95700 Electroencephalogram (EEG) continuous recording, with video when performed, setup, patient education, and takedown when performed, administered in person by EEG technologist, minimum of 8 channels

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Mar 20:8

(95700 should be reported once per recording period)

(For EEG using patient-placed electrode sets, use 95999)

(For setup performed by non-EEG technologist or remotely supervised by an EEG technologist, use 95999)

Monitoring

 # 95705 Electroencephalogram (EEG), without video, review of data, technical description by EEG technologist, 2-12 hours; unmonitored

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Mar 20:8

 # 95706 with intermittent monitoring and maintenance

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Mar 20:8

 # 95707 with continuous, real-time monitoring and maintenance

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Mar 20:8

 # 95708 Electroencephalogram (EEG), without video, review of data, technical description by EEG technologist, each increment of 12-26 hours; unmonitored

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Mar 20:8

 # 95709 with intermittent monitoring and maintenance

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Mar 20:8

 # 95710 with continuous, real-time monitoring and maintenance

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Mar 20:8

 # 95711 Electroencephalogram with video (VEEG), review of data, technical description by EEG technologist, 2-12 hours; unmonitored

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Mar 20:8

 # 95712 with intermittent monitoring and maintenance

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Mar 20:8

 # 95713 with continuous, real-time monitoring and maintenance

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Mar 20:8

 # 95714 Electroencephalogram with video (VEEG), review of data, technical description by EEG technologist, each increment of 12-26 hours; unmonitored

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Mar 20:8

 # 95715 with intermittent monitoring and maintenance

CPT Changes: An Insider's View 2020

CPT Assistant Mar 20:8

 # 95716 with continuous, real-time monitoring and maintenance

CPT Changes: An Insider's View 2020

CPT Assistant Mar 20:8

(95705, 95706, 95707, 95711, 95712, 95713 may be reported a maximum of once for an entire longer-term EEG service to capture either the entire time of service or the final 2-12 hour increment of a service extending beyond 26 hours)

 # 95717 Electroencephalogram (EEG), continuous recording, physician or other qualified health care professional review of recorded events, analysis of spike and seizure detection, interpretation and report, 2-12 hours of EEG recording; without video

CPT Changes: An Insider's View 2020

 # 95718 with video (VEEG)

CPT Changes: An Insider's View 2020

(For recording greater than 12 hours, see 95719, 95720, 95721, 95722, 95723, 95724, 95725, 95726)

(95717, 95718 may be reported a maximum of once for an entire long-term EEG service to capture either the entire time of service or the final 2-12 hour increment of a service extending beyond 24 hours)

 # 95719 Electroencephalogram (EEG), continuous recording, physician or other qualified health care professional review of recorded events, analysis of spike and seizure detection, each increment of greater than 12 hours, up to 26 hours of EEG recording, interpretation and report after each 24-hour period; without video

CPT Changes: An Insider's View 2020

 # 95720 with video (VEEG)

CPT Changes: An Insider's View 2020

(95719, 95720 may be reported only once for a recording period greater than 12 hours up to 26 hours. For multiple-day studies, 95719, 95720 may be reported after each 24-hour period during the extended recording period. 95719, 95720 describe reporting for a 26-hour recording period, whether done as a single report or as multiple reports during the same time)

(95717, 95718 may be reported in conjunction with 95719, 95720 for studies lasting greater than 26 hours)

(Do not report 95717, 95718, 95719, 95720 for professional interpretation of long-term EEG studies when the recording is greater than 36 hours and the entire professional report is retroactively generated, even if separate daily reports are rendered after the completion of recording)

(When the entire study includes recording greater than 36 hours, and the professional interpretation is performed after the entire recording is completed, see 95721, 95722, 95723, 95724, 95725, 95726)

 # 95721 Electroencephalogram (EEG), continuous recording, physician or other qualified health care professional review of recorded events, analysis of spike and seizure detection, interpretation, and summary report, complete study; greater than 36 hours, up to 60 hours of EEG recording, without video

CPT Changes: An Insider's View 2020

 # 95722 greater than 36 hours, up to 60 hours of EEG recording, with video (VEEG)

CPT Changes: An Insider's View 2020

 # 95723 greater than 60 hours, up to 84 hours of EEG recording, without video

CPT Changes: An Insider's View 2020

 # 95724 greater than 60 hours, up to 84 hours of EEG recording, with video (VEEG)

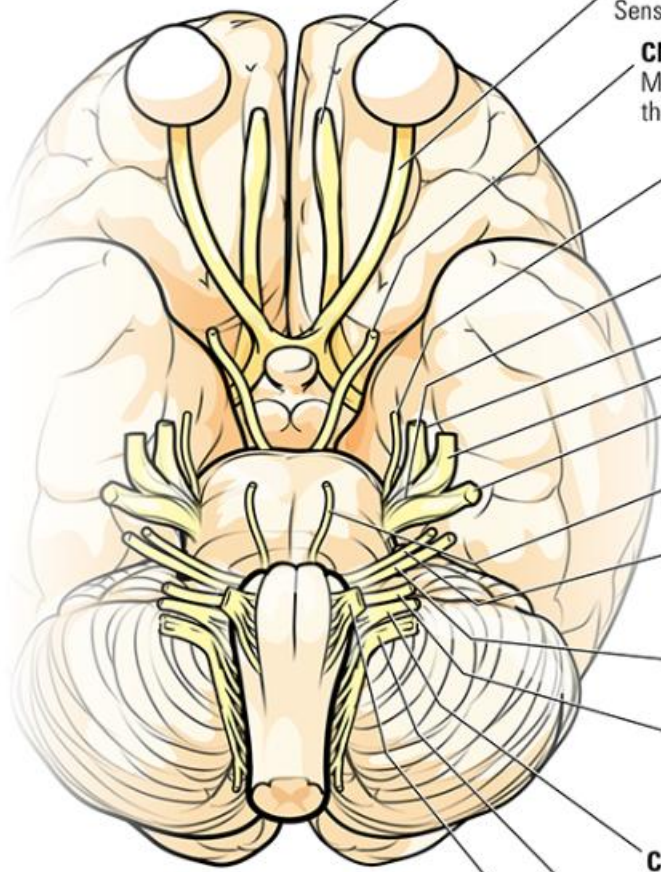
CPT Changes: An Insider's View 2020

 # 95725 greater than 84 hours of EEG recording, without video

CPT Changes: An Insider's View 2020

 # 95726 greater than 84 hours of EEG recording, with video (VEEG)

CPT Changes: An Insider's View 2020



(When the entire study includes recording greater than 36 hours, and the professional interpretation is performed after the entire recording is completed, see 95721, 95722, 95723, 95724, 95725, 95726)

(Do not report 95721, 95722, 95723, 95724, 95725, 95726 in conjunction with 95717, 95718, 95719, 95720)

►(For electroencephalogram [EEG] from an implanted sub-scalp continuous bilateral electroencephalography monitoring system, use 1007T)◄

Cranial Nerves

Illustration of the 12 cranial nerves and their areas of innervation.

Brain (Inferior View)

CN I: Olfactory
Sensory: nasal cavity

CN II: Optic
Sensory: eye

CN III: Oculomotor
Motor: ciliary muscle, sphincter pupillae, and external eye muscles (except those supplied by CN IV and CN VI)

CN IV: Trochlear
Motor: superior oblique muscle (eye)

CN V: Trigeminal
Sensory: face, sinuses, teeth; Motor (CN V_3): muscles of mastication
V_1: Ophthalmic nerve
V_2: Maxillary nerve
V_3: Mandibular nerve

CN VI: Abducens
Motor: lateral rectus muscle (eye)

CN VII: Facial
Motor: muscles of face; Parasympathetic: lacrimal, sublingual, and submandibular glands; Sensory: anterior tongue, soft palate

CN VIII: Vestibulocochlear
Sensory: inner ear (utricle, saccule, semicircular canals, cochlea)

CN IX: Glossopharyngeal
Sensory: posterior tongue, tonsil, pharynx, middle ear; Motor: stylopharyngeus; Parasympathetic: parotid gland

CN X: Vagus
Motor: larynx; Parasympathetic: heart, lungs, pharynx, GI tract; Sensory: heart, lungs, pharynx, GI tract, external ear

CN XI: Accessory
Motor: sternocleidomastoid muscle, trapezius muscle

CN XII: Hypoglossal
Motor: tongue muscles

Neurostimulators, Analysis-Programming

Electronic analysis of an implanted neurostimulator pulse generator/transmitter involves documenting settings and electrode impedances of the system parameters prior to programming. Programming involves adjusting the system parameter(s) to address clinical signs and patient symptoms. Parameters available for programming can vary between systems and may need to be adjusted multiple times during a single programming session. The iterative adjustments to parameters provide information that is required for the physician or other qualified health care professional to assess and select the most appropriate final program parameters to provide for consistent delivery of appropriate therapy. The values of the final program parameters may differ from the starting values after the programming session.

Examples of parameters include: contact group(s), interleaving, amplitude, pulse width, frequency (Hz), on/off cycling, burst, magnet mode, dose lockout, patient-selectable parameters, responsive neurostimulation, detection algorithms, closed-loop parameters, and passive parameters. Not all parameters are available for programming in every neurostimulator pulse generator/transmitter.

For coding purposes, a neurostimulator system is considered implanted when the electrode array(s) is inserted into the target area for either permanent or trial placement.

There are several types of implantable neurostimulator pulse generator/transmitters and they are differentiated by the nervous system region that is stimulated. A brain neurostimulator may stimulate either brain surface regions (cortical stimulation) or deep brain structures (deep brain stimulation). A brain neurostimulation system consists of array(s) that targets one or more of these regions.

A cranial nerve neurostimulator targets the fibers of the cranial nerves or their branches and divisions. There are 12 pairs of cranial nerves (see nerve anatomy figure on page 833 [of the codebook]). Each cranial nerve has its origin in the brain and passes through one or more foramina in the skull to innervate extracranial structures. A cranial nerve neurostimulator stimulates the nerve fibers of either the extracranial or intracranial portion(s) of one or more cranial nerve(s) (eg, vagus nerve, trigeminal nerve).

A spinal cord or peripheral nerve neurostimulator targets nerve(s) that originate in the spinal cord and exit the spine through neural foramina and gives rise to peripheral nerves. The peripheral nervous system consists of the nerves and ganglia outside of the brain and spinal cord. Peripheral nerves may give rise to independent branches or branches that combine with other peripheral nerves in neural plexuses (ie, brachial plexus, lumbosacral plexus). Under the lumbosacral plexus, the sacral nerves (specifically S2, S3, S4) are located in the lower back just above the tailbone. Neurostimulation of the sacral nerves affect pelvic floor muscles and urinary organs (eg, bladder, urinary sphincter).

Cranial nerve, spinal cord, peripheral nerve, and sacral nerve neurostimulator analysis with programming (95971, 95972, 95976, 95977) are reported based on the number of parameters adjusted during a programming session. Brain neurostimulator analysis with programming (95983, 95984) is reported based on physician or other qualified health care professional face-to-face time.

Code 95970 describes electronic analysis of the implanted brain, cranial nerve, spinal cord, peripheral nerve, or sacral nerve neurostimulator pulse generator/transmitter without programming. Electronic analysis is inherent to implantation codes 43647, 43648, 43881, 43882, 61850, 61860, 61863, 61864, 61867, 61868, 61880, 61885, 61886, 61888, 63650, 63655, 63661, 63662, 63663, 63664, 63685, 63688, 64553, 64555, 64561, 64566, 64568, 64569, 64570, 64575, 64580, 64581, 64585, 64590, 64595, and is not separately reportable at the same operative session.

Codes 95971, 95972, 95976, 95977 describe electronic analysis with simple or complex programming of the implanted neurostimulator pulse generator/transmitter. *Simple* programming of a neurostimulator pulse generator/transmitter includes adjustment of one to three parameter(s). *Complex* programming includes adjustment of more than three parameters. For purposes of counting the number of parameters being programmed, a single parameter that is adjusted two or more times during a programming session counts as one parameter.

Code 95971 describes electronic analysis with simple programming of an implanted spinal cord or peripheral nerve (eg, sacral nerve) neurostimulator pulse generator/transmitter.

Code 95972 describes electronic analysis with complex programming of an implanted spinal cord or peripheral nerve (eg, sacral nerve) neurostimulator pulse generator/transmitter.

Code 95976 describes electronic analysis with simple programming of an implanted cranial nerve neurostimulator pulse generator/transmitter.

Code 95977 describes electronic analysis with complex programming of an implanted cranial nerve neurostimulator pulse generator/transmitter.

Codes 95983, 95984 describe electronic analysis with programming of an implanted brain neurostimulator pulse generator/transmitter. Code 95983 is reported for the first 15 minutes of physician or other qualified health care professional face-to-face time for analysis and programming. Code 95984 is reported for each additional 15 minutes. A unit of service is attained when the mid-point is passed. Physician or other qualified health care professional face-to-face time of less than eight minutes is not separately reportable.

Code 95980 describes intraoperative electronic analysis of an implanted gastric neurostimulator pulse generator system, with programming; code 95981 describes subsequent analysis of the device; code 95982 describes subsequent analysis and reprogramming. For electronic analysis and reprogramming of gastric neurostimulator, lesser curvature, see 95980-95982.

Codes 95971, 95972, 95976, 95977, 95983, 95984 are reported when programming a neurostimulator is performed by a physician or other qualified health care professional. Programming may be performed in the operating room, postoperative care unit, inpatient, and/or outpatient setting. Programming a neurostimulator in the operating room is not inherent in the service represented by the implantation code and may be reported by either the implanting surgeon or other qualified health care professional, when performed.

Test stimulations are typically performed during an implantation procedure (43647, 43648, 43881, 43882, 61850, 61860, 61863, 61864, 61867, 61868, 61880, 61885, 61886, 61888, 63650, 63655, 63661, 63662, 63663, 63664, 63685, 63688, 64553, 64555, 64561, 64566, 64568, 64569, 64570, 64575, 64580, 64581, 64582, 64583, 64584, 64585, 64590, 64595) to confirm correct target site placement of the electrode array(s) and/or to confirm the functional status of the system. Test stimulation is not considered electronic analysis or programming of the neurostimulator system (test stimulation is included in the service described by the implantation code) and should not be reported with 95970, 95971, 95972, 95980, 95981, 95982, 95983, 95984. Electronic analysis of a device (95970) is not reported separately at the time of implantation.

(For insertion of neurostimulator pulse generator, see 61885, 61886, 63685, 64568, 64582, 64590)

(For revision or removal of neurostimulator pulse generator or receiver, see 61888, 63688, 64569, 64570, 64583, 64584, 64595)

(For implantation of neurostimulator electrodes, see 43647, 43881, 61850-61868, 63650, 63655, 64553-64581. For revision or removal of neurostimulator electrodes, see 43648, 43882, 61880, 63661, 63662, 63663, 63664, 64569, 64570, 64583, 64584, 64585)

(For analysis and programming of implanted integrated neurostimulation system, posterior tibial nerve, see 0589T, 0590T)

95970 Electronic analysis of implanted neurostimulator pulse generator/transmitter (eg, contact group[s], interleaving, amplitude, pulse width, frequency [Hz], on/off cycling, burst, magnet mode, dose lockout, patient selectable parameters, responsive neurostimulation, detection algorithms, closed loop parameters, and passive parameters) by physician or other qualified health care professional; with brain, cranial nerve, spinal cord, peripheral nerve, or sacral nerve, neurostimulator pulse generator/transmitter, without programming

95991 requiring skill of a physician or other qualified health care professional

- *CPT Changes: An Insider's View* 2004, 2012, 2013
- *CPT Assistant* Nov 05:1, Jul 06:1, Jul 12:6, Aug 12:10-12, 15, May 22:18

(Do not report 95990, 95991 in conjunction with 62367-62370. For analysis and/or reprogramming of implantable infusion pump, see 62367-62370)

(For refill and maintenance of implanted infusion pump or reservoir for systemic drug therapy [eg, chemotherapy], use 96522)

Coding Tip

Instructions for Use of the CPT Codebook

When advanced practice nurses and physician assistants are working with physicians, they are considered as working in the exact same specialty and subspecialty as the physician. A "physician or other qualified health care professional" is an individual who is qualified by education, training, licensure/regulation (when applicable), and facility privileging (when applicable) who performs a professional service within his or her scope of practice and independently reports that professional service. These professionals are distinct from "clinical staff." A clinical staff member is a person who works under the supervision of a physician or other qualified health care professional, and who is allowed by law, regulation, and facility policy to perform or assist in the performance of a specific professional service, but does not individually report that professional service. Other policies may also affect who may report specific services.

CPT Coding Guidelines, Introduction, Instructions for Use of the CPT Codebook

95992 Canalith repositioning procedure(s) (eg, Epley maneuver, Semont maneuver), per day
- *CPT Changes: An Insider's View* 2009, 2020

(Do not report 95992 in conjunction with 92531, 92532)

95999 Unlisted neurological or neuromuscular diagnostic procedure
- *CPT Assistant* Feb 99:11, Jan 02:11, Mar 07:4, Apr 07:7, Dec 08:10, Aug 15:8, Aug 18:11, Mar 20:8

Motion Analysis

Codes 96000-96004 describe services performed as part of a major therapeutic or diagnostic decision making process. Motion analysis is performed in a dedicated motion analysis laboratory (ie, a facility capable of performing videotaping from the front, back and both sides, computerized 3D kinematics, 3D kinetics, and dynamic electromyography). Code 96000 may include 3D kinetics and stride characteristics. Code 96002 describes dynamic electromyography.

Code 96004 should only be reported once regardless of the number of study(ies) reviewed/interpreted.

(For performance of needle electromyography procedures, see 95860-95870, 95872, 95885-95887)

(For gait training, use 97116)

96000 Comprehensive computer-based motion analysis by video-taping and 3D kinematics;
- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Aug 02:5, Jun 03:2, Oct 23:13

96001 with dynamic plantar pressure measurements during walking
- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Aug 02:5, Jun 03:2

96002 Dynamic surface electromyography, during walking or other functional activities, 1-12 muscles
- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Aug 02:5, Jun 03:3, Aug 15:8

(Do not report 96002 in conjunction with 95860-95866, 95869-95872, 95885-95887)

(96003 has been deleted)

96004 Review and interpretation by physician or other qualified health care professional of comprehensive computer-based motion analysis, dynamic plantar pressure measurements, dynamic surface electromyography during walking or other functional activities, and dynamic fine wire electromyography, with written report
- *CPT Changes: An Insider's View* 2002, 2013
- *CPT Assistant* Aug 02:5, Jun 03:3, Aug 15:8, Oct 23:13

Functional Brain Mapping

Code 96020 includes selection and administration of testing of language, memory, cognition, movement, sensation, and other neurological functions when conducted in association with functional neuroimaging, monitoring of performance of this testing, and determination of validity of neurofunctional testing relative to separately interpreted functional magnetic resonance images.

96020 Neurofunctional testing selection and administration during noninvasive imaging functional brain mapping, with test administered entirely by a physician or other qualified health care professional (ie psychologist), with review of test results and report

- *CPT Changes: An Insider's View* 2007, 2013
- *CPT Assistant* Feb 07:6
- *Clinical Examples in Radiology* Fall 23:13

(For functional magnetic resonance imaging [fMRI], brain, use 70555)

(Do not report 96020 in conjunction with 96112, 96113, 96116, 96121, 96130, 96131, 96132, 96133)

(Do not report 96020 in conjunction with 70554)

(Evaluation and Management services codes should not be reported on the same day as 96020)

Medical Genetics and Genetic Counseling Services

These services are provided by trained genetic counselors and may include obtaining a structured family genetic history, pedigree construction, analysis for genetic risk assessment, and counseling of the patient and family.

Total Time of Medical Genetics and Genetic Counseling Services on the Date of the Encounter	Code(s)
Less than 16 minutes	Not reported separately
16-45 minutes	96041 X 1
46-75 minutes	96041 X 2
76-105 minutes	96041 X 3
106-135 minutes	96041 X 4

(96040 has been deleted. To report medical genetics and genetic counseling services, use 96041)

★◀ **96041** Medical genetics and genetic counseling services, each 30 minutes of total time provided by the genetic counselor on the date of the encounter

- *CPT Changes: An Insider's View* 2025

(Do not report 96041 for less than 16 minutes of genetic counselor time)

(For education regarding genetic risks by a nonphysician to a group, see 98961, 98962)

(For genetic counseling and education to a group by a physician or other qualified health care professional, use 99078)

(For genetic counseling and/or risk factor reduction intervention provided to patient[s] without symptoms or established disease, by a physician or other qualified health care professional who may report evaluation and management services, see 99401-99412)

(For genetic counseling and education provided to an individual by a physician or other qualified health care professional who may report evaluation and management services, see the appropriate evaluation and management codes)

Adaptive Behavior Services

Adaptive behavior services address deficient adaptive behaviors (eg, impaired social, communication, or self-care skills), maladaptive behaviors (eg, repetitive and stereotypic behaviors, behaviors that risk physical harm to the patient, others, and/or property), or other impaired functioning secondary to deficient adaptive or maladaptive behaviors, including, but not limited to, instruction-following, verbal and nonverbal communication, imitation, play and leisure, social interactions, self-care, daily living, and personal safety.

Definitions

Functional behavior assessment: comprises descriptive assessment procedures designed to identify environmental events that occur just before and just after occurrences of potential target behaviors and that may influence those behaviors. That information may be gathered by interviewing the patient's caregivers; having caregivers complete checklists, rating scales, or questionnaires; and/or observing and recording occurrences of target behaviors and environmental events in everyday situations.

Functional analysis: an assessment procedure for evaluating the separate effects of each of several environmental events on a potential target behavior by systematically presenting and withdrawing each event to a patient multiple times and observing and measuring occurrences of the behavior in response to those events. Graphed data are analyzed visually to determine which events produced relatively high and low occurrences of the behavior.

Standardized instruments and procedures: include, but not limited to, behavior checklists, rating scales, and adaptive skill assessment instruments that comprise a fixed set of items and are administered and scored in a uniform way with all patients (eg, Pervasive Developmental Disabilities Behavior Inventory, Brigance Inventory of Early Development, Vineland Adaptive Behavior Scales).

Nonstandardized instruments and procedures: include, but not limited to, curriculum-referenced assessments, stimulus preference assessment procedures, and other procedures for assessing behaviors and associated environmental events that are specific to the individual patient and behaviors.

Adaptive Behavior Assessments

Behavior identification assessment (97151) is conducted by the physician or other qualified health care professional and may include analysis of pertinent past data (including medical diagnosis), a detailed behavioral history, patient observation, administration of standardized and/or non-standardized instruments and procedures, functional behavior assessment, functional analysis, and/or guardian/caregiver interview to identify and describe deficient adaptive behaviors, maladaptive behaviors, and other impaired functioning secondary to deficient adaptive or maladaptive behaviors. Code 97151 includes the physician's or other qualified health care professional's scoring of assessments, interpretation of results, discussion of findings and recommendations with the primary guardian(s)/caregiver(s), preparation of report, and development of plan of care, which may include behavior identification supporting assessment (97152) or behavior identification–supporting assessment with four required components (0362T).

Behavior identification supporting assessment (97152) is administered by a technician under the direction of a physician or other qualified health care professional. The physician or other qualified health care professional may or may not be on site during the face-to-face assessment process. Code 97152 includes the physician's or other qualified health care professional's interpretation of results and may include functional behavior assessment, functional analysis, and other structured observations and/or standardized and/or nonstandardized instruments and procedures to determine levels of adaptive and maladaptive behavior.

Codes 97152, 0362T may be reported separately with 97151 based on the time that the patient is face-to-face with one or more technician(s). Only count the time of one technician when two or more are present.

For behavior identification–supporting assessment with four required components, use 0362T.

Coding Tip

If the physician or other qualified health care professional personally performs the technician activities, his or her time engaged in these activities should be included as part of the required technician time to meet the components of the code.

Guide to Selection of Codes 97152 and 0362T

	97152	0362T
Physician or other qualified health care professional required to be on site		✓
Physician or other qualified health care professional not required to be on site	✓	
Number of technicians	1	2 or more
Deficient adaptive behavior(s), maladaptive behavior(s), or other impaired functioning secondary to deficient adaptive or maladaptive behaviors	✓	
Destructive behavior(s)		✓
May include functional behavior assessment	✓	✓
May include functional analysis	✓	✓
Environment customized to patient and behavior		✓

 # 97151 **Behavior identification assessment,** administered by a physician or other qualified health care professional, each 15 minutes of the physician's or other qualified health care professional's time face-to-face with patient and/or guardian(s)/caregiver(s) administering assessments and discussing findings and recommendations, and non-face-to-face analyzing past data, scoring/interpreting the assessment, and preparing the report/treatment plan

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3, Dec 24:55

 # 97152 **Behavior identification-supporting assessment,** administered by one technician under the direction of a physician or other qualified health care professional, face-to-face with the patient, each 15 minutes

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3, Dec 24:55

(97151, 97152, 0362T may be repeated on the same or different days until the behavior identification assessment [97151] and, if necessary, supporting assessment[s] [97152, 0362T], is complete)

(For psychiatric diagnostic evaluation, see 90791, 90792)

(For speech evaluations, see 92521, 92522, 92523, 92524)

(For occupational therapy evaluation, see 97165, 97166, 97167, 97168)

(For medical team conference, see 99366, 99367, 99368)

(For health and behavior assessment/intervention, see 96156, 96158, 96159, 96164, 96165, 96167, 96168, 96170, 96171)

(For neurobehavioral status exam, see 96116, 96121)

(For neuropsychological testing, see 96132, 96133, 96136, 96137, 96138, 96139, 96146)

Adaptive Behavior Treatment

Adaptive behavior treatment codes 97153, 97154, 97155, 97156, 97157, 97158, 0373T describe services that address specific treatment targets and goals based on results of previous assessments (see 97151, 97152, 0362T), and include ongoing assessment and adjustment of treatment protocols, targets, and goals.

Adaptive behavior treatment by protocol (97153) and **group adaptive behavior treatment by protocol** (97154) are administered by a technician under the direction of a physician or other qualified health care professional, utilizing a treatment protocol designed in advance by the physician or other qualified health care professional, who may or may not provide direction during th treatment. Code 97153 describes face-to-face services with one patient and code 97154 describes face-to-face services with two or more patients. Do not report 97154 if the group is larger than eight patients.

Adaptive behavior treatment with protocol modification (97155) is administered by a physician or other qualified health care professional face-to-face with a single patient. The physician or other qualified health care professional resolves one or more problems with the protocol and may simultaneously direct a technician in administering the modified protocol while the patient is present. Physician or other qualified health care professional direction to the technician without the patient present is not reported separately.

Family adaptive behavior treatment guidance and **multiple-family group adaptive behavior treatment guidance** (97156, 97157) are administered by a physician or other qualified health care professional face-to-face with guardian(s)/caregiver(s) and involve identifying potential treatment targets and training guardian(s)/caregiver(s) of one patient (97156) or multiple patients (97157) to implement treatment protocols designed to address deficient adaptive or maladaptive behaviors. Services described by 97156 may be performed with or without the patient present. Services described by 97157 are performed without the patient present. Do not report 97157 if the group has more than eight patients' guardian(s)/caretaker(s).

Group adaptive behavior treatment with protocol modification (97158) is administered by a physician or other qualified health care professional face-to-face with multiple patients. The physician or other qualified health care professional monitors the needs of individual patients and adjusts the treatment techniques during the group sessions, as needed. In contrast to group adaptive behavior treatment by protocol (97154), protocol adjustments are made in real time rather than for a subsequent service. Do not report 97158 if the group has more than eight patients.

Guide to Selection of Codes 97153, 97155, and 0373T

	97153	97155	0373T
By protocol	✓		
With protocol modification		✓	✓
Physician or other qualified health care professional face-to-face with patient		✓	
Physician or other qualified health care professional required to be on site			✓
Physician or other qualified health care professional not required to be on site	✓		
Number of technicians	1	0-1	2 or more
Deficient adaptive behavior(s), maladaptive behavior(s), or other impaired functioning secondary to deficient adaptive or maladaptive behaviors	✓	✓	
Destructive behavior(s)		✓	✓
Environment customized to patient and behavior			✓

For adaptive behavior treatment with protocol modification with four required components, use 0373T.

Coding Tip

If the physician or other qualified health care professional personally performs the technician activities, his or her time engaged in these activities should be reported as technician time.

 # 97153 **Adaptive behavior treatment by protocol,** administered by technician under the direction of a physician or other qualified health care professional, face-to-face with one patient, each 15 minutes

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3, Jul 20:10

(Do not report 97153 in conjunction with 90785-90899, 92507, 96105-96171, 97129)

 # 97154 **Group adaptive behavior treatment by protocol,** administered by technician under the direction of a physician or other qualified health care professional, face-to-face with two or more patients, each 15 minutes

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3

(Do not report 97154 if the group has more than 8 patients)

(Do not report 97154 in conjunction with 90785-90899, 92508, 96105-96171, 97150)

 # 97155 **Adaptive behavior treatment with protocol modification,** administered by physician or other qualified health care professional, which may include simultaneous direction of technician, face-to-face with one patient, each 15 minutes

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3, Jul 20:10, Jun 23:28

(Do not report 97155 in conjunction with 90785-90899, 92507, 96105-96171, 97129)

 # 97156 **Family adaptive behavior treatment guidance,** administered by physician or other qualified health care professional (with or without the patient present), face-to-face with guardian(s)/caregiver(s), each 15 minutes

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3

(Do not report 97156 in conjunction with 90785-90899, 96105-96171)

 # 97157 **Multiple-family group adaptive behavior treatment guidance,** administered by physician or other qualified health care professional (without the patient present), face-to-face with multiple sets of guardians/caregivers, each 15 minutes

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3

(Do not report 97157 if the group has more than 8 families)

(Do not report 97156, 97157 in conjunction with 90785-90899, 96105-96171)

 # 97158 **Group adaptive behavior treatment with protocol modification,** administered by physician or other qualified health care professional, face-to-face with multiple patients, each 15 minutes

- *CPT Changes: An Insider's View* 2019

(Do not report 97158 if the group has more than 8 patients)

(Do not report 97158 in conjunction with 90785-90899, 96105-96171, 92508, 97150)

Central Nervous System Assessments/Tests (eg, Neuro-Cognitive, Mental Status, Speech Testing)

The following codes are used to report the services provided during testing of the central nervous system functions. The central nervous system assessments include, but are not limited to, memory, language, visual motor responses, and abstract reasoning/problem-solving abilities. It is accomplished by the combination of several types of testing procedures. Testing procedures include assessment of aphasia and cognitive performance testing, developmental screening and behavioral assessments and testing, and psychological/neuropsychological testing. The administration of these tests will generate material that will be formulated into a report or an automated result.

(For development of cognitive skills, see 97129, 97533)

(For dementia screens, [eg, Folstein Mini-Mental State Examination, by a physician or other qualified health care professional], see **Evaluation and Management** services codes)

(Do not report assessment of aphasia and cognitive performance testing services [96105, 96125], developmental/behavioral screening and testing services [96110, 96112, 96113, 96127], and psychological/neuropsychological testing services [96116, 96121, 96130, 96131, 96132, 96133, 96136, 96137, 96138, 96139, 96146] in conjunction with 97151, 97152, 97153, 97154, 97155, 97156, 97157, 97158, 0362T, 0373T)

Definitions

Codes in this family (96105-96146) describe a number of services that are defined below:

Cognitive performance testing: assesses the patient's ability to complete specific functional tasks applicable to the patient's environment in order to identify or quantify specific cognitive deficits. The results are used to determine impairments and develop therapeutic goals and objectives.

Interactive feedback: used to convey the implications of psychological or neuropsychological test findings and diagnostic formulation. Based on patient-specific cognitive and emotional strengths and weaknesses, interactive feedback may include promoting adherence to medical and/or psychological treatment plans; educating and engaging the patient about his or her condition to maximize patient collaboration in their care; addressing safety issues; facilitating psychological coping; coordinating care; and engaging the patient in planning given the expected course of illness or condition, when performed.

Interpretation and report: performed by a physician or other qualified health care professional. In some circumstances, a result is generated through the use of a "computer," tablet(s), or other device(s).

Neurobehavioral status examination: a clinical assessment of cognitive functions and behavior, and may include an interview with the patient, other informant(s), and/or staff, as well as integration of prior history and other sources of clinical data with clinical decision making, further assessment and/or treatment planning and report. Evaluation domains may include acquired knowledge, attention, language, memory, planning and problem solving, and visual spatial abilities.

Neuropsychological testing evaluation services: typically include integration of patient data with other sources of clinical data, interpretation, clinical decision making, and treatment planning and report. It may include interactive feedback to the patient, family member(s) or caregiver(s), when performed. Evaluation domains for neuropsychological evaluation may include intellectual function, attention, executive function, language and communication, memory, visual-spatial function, sensorimotor function, emotional and personality features, and adaptive behavior.

Psychological testing evaluation services: typically include integration of patient data with other sources of clinical data, interpretation, clinical decision making, and treatment planning and report. It may include interactive feedback to the patient, family member(s) or caregiver(s) when performed. Evaluation domains for psychological evaluation may include emotional and interpersonal functioning, intellectual function, thought processes, personality, and psychopathology.

Standardized instruments: used in the performance of these services. Standardized instruments are validated tests that are administered and scored in a consistent or "standard" manner consistent with their validation.

Testing: administered by a physician, other qualified health care professional, and technician, or completed by the patient. The mode of completion can be manual (eg, paper and pencil) or via automated means.

Assessment of aphasia and cognitive performance testing, which includes interpretation and report, are described by 96105, 96125.

Developmental screening services are described by 96110. Developmental/behavioral testing services, which include interpretation and report, are described by 96112, 96113.

Neurobehavioral status examination, which includes interpretation and report, is described by 96116, 96121.

Psychological and neuropsychological test evaluation services, which include integration of patient data, interpretation of test results and clinical data, treatment planning and report, and interactive feedback, are described by 96130, 96131, 96132, 96133.

Testing and administration services (96136, 96137) are performed by a physician or other qualified health care professional. For 96136, 96137, do not include time for evaluation services (eg, integration of patient data or interpretation of test results). This time is included with psychological and neuropsychological test evaluation services (96130, 96131, 96132, 96133). Testing and administration services (96138, 96139) are performed by a technician. The tests selected, test administration and method of testing and scoring are the same, regardless whether the testing is performed by a physician, other qualified health care professional, or a technician, for 96136, 96137, 96138, 96139. Automated testing and result code 96146 describes testing performed by a single automated instrument with an automated result.

Some of these services are typically performed together. For example, psychological/neuropsychological testing evaluation services (96130, 96131, 96132, 96133) may be reported with psychological/neuropsychological test administration and scoring services (96136, 96137, 96138, 96139).

A requirement of testing services (96105, 96125, 96112, 96113, 96130, 96131, 96132, 96133, 96146) is that there is an interpretation and report when performed by a qualified health care professional, or a result when generated by automation. These services follow standard CPT time definitions (ie, a minimum of 16 minutes for 30 minutes codes and 31 minutes for 1-hour codes must be provided to report any per hour code). The time reported in 96116, 96121, 96130, 96131, 96132, 96133, 96125 is the face-to-face time with the patient and the time spent integrating and interpreting data.

Report the total time at the completion of the entire episode of evaluation.

(To report psychological testing evaluation and administration and scoring services, see 96130, 96131, 96136, 96137, 96138, 96139, 96146)

(To report psychological test administration using a single automated instrument, use 96146)

Assessment of Aphasia and Cognitive Performance Testing

★ **96105** Assessment of aphasia (includes assessment of expressive and receptive speech and language function, language comprehension, speech production ability, reading, spelling, writing, eg, by Boston Diagnostic Aphasia Examination) with interpretation and report, per hour

- *CPT Assistant* Jul 96:8, May 05:1, Nov 09:10, Oct 18:5, Nov 18:3

#★ **96125** Standardized cognitive performance testing (eg, Ross Information Processing Assessment) per hour of a qualified health care professional's time, both face-to-face time administering tests to the patient and time interpreting these test results and preparing the report

- *CPT Changes: An Insider's View* 2008
- *CPT Assistant* Oct 11:4, Oct 18:5, Nov 18:3, Apr 24:24

(To report neuropsychological testing evaluation and administration and scoring services, see 96132, 96133, 96136, 96137, 96138, 96139, 96146)

Developmental/Behavioral Screening and Testing

96110 Developmental screening (eg, developmental milestone survey, speech and language delay screen), with scoring and documentation, per standardized instrument

- *CPT Changes: An Insider's View* 2012, 2015
- *CPT Assistant* Jul 96:9, May 05:1, Nov 09:10, Jun 14:3, Aug 15:5, Feb 17:15, Nov 18:3

(For an emotional/behavioral assessment, use 96127)

(To report developmental testing, see 96112, 96113)

★ **96112** Developmental test administration (including assessment of fine and/or gross motor, language, cognitive level, social, memory and/or executive functions by standardized developmental instruments when performed), by physician or other qualified health care professional, with interpretation and report; first hour

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3

★+ **96113** each additional 30 minutes (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3

96127 Brief emotional/behavioral assessment (eg, depression inventory, attention-deficit/hyperactivity disorder [ADHD] scale), with scoring and documentation, per standardized instrument

- *CPT Changes: An Insider's View* 2015
- *CPT Assistant* Aug 15:5, Feb 17:15, Nov 18:3

(For developmental screening, use 96110)

Psychological/Neuropsychological Testing

Neurobehavioral Status Examination

★ **96116** Neurobehavioral status exam (clinical assessment of thinking, reasoning and judgment, [eg, acquired knowledge, attention, language, memory, planning and problem solving, and visual spatial abilities]), by physician or other qualified health care professional, both face-to-face time with the patient and time interpreting test results and preparing the report; first hour

- *CPT Changes: An Insider's View* 2006, 2017, 2019
- *CPT Assistant* Oct 11:4, Jun 14:3, Oct 18:5, Nov 18:3, Aug 24:20

(To report neuropsychological testing evaluation and administration and scoring services, see 96132, 96133, 96136, 96137, 96138, 96139, 96146)

(To report psychological test administration using a single automated instrument, use 96146)

★+ **96121** each additional hour (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3, Aug 24:20

(Use 96121 in conjunction with 96116)

96125 Code is out of numerical sequence. See 96020-96121

96127 Code is out of numerical sequence. See 96020-96121

Testing Evaluation Services

★ **96130** Psychological testing evaluation services by physician or other qualified health care professional, including integration of patient data, interpretation of standardized test results and clinical data, clinical decision making, treatment planning and report, and interactive feedback to the patient, family member(s) or caregiver(s), when performed; first hour

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3, Sep 19:12, Dec 19:15

★ + **96131** each additional hour (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3, Sep 19:12, Dec 19:15

★ **96132** Neuropsychological testing evaluation services by physician or other qualified health care professional, including integration of patient data, interpretation of standardized test results and clinical data, clinical decision making, treatment planning and report, and interactive feedback to the patient, family member(s) or caregiver(s), when performed; first hour

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3, Sep 19:12, Dec 19:15, Jun 23:29, Aug 24:20

★ + **96133** each additional hour (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3, Sep 19:12, Dec 19:15

Test Administration and Scoring

★◀ **96136** Psychological or neuropsychological test administration and scoring by physician or other qualified health care professional, two or more tests, any method; first 30 minutes

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3, Sep 19:12, Dec 19:15, Aug 20:3, Jun 23:29

★◀+ **96137** each additional 30 minutes (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3, Sep 19:12, Dec 19:15, Aug 20:3

(96136, 96137 may be reported in conjunction with 96130, 96131, 96132, 96133 on the same or different days)

★◀ **96138** Psychological or neuropsychological test administration and scoring by technician, two or more tests, any method; first 30 minutes

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3

★◀+ **96139** each additional 30 minutes (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3

(96138, 96139 may be reported in conjunction with 96130, 96131, 96132, 96133 on the same or different days)

(For 96136, 96137, 96138, 96139, do not include time for evaluation services [eg, integration of patient data or interpretation of test results]. This time is included in 96130, 96131, 96132, 96133)

Automated Testing and Result

96146 Psychological or neuropsychological test administration, with single automated, standardized instrument via electronic platform, with automated result only

- *CPT Changes: An Insider's View* 2019
- *CPT Assistant* Nov 18:3, Jun 23:29

(If test is administered by physician, other qualified health care professional, or technician, do not report 96146. To report, see 96127, 96136, 96137, 96138, 96139)

Health Behavior Assessment and Intervention

Health behavior assessment and intervention services are used to identify and address the psychological, behavioral, emotional, cognitive, and interpersonal factors important to the assessment, treatment, or management of physical health problems.

The patient's primary diagnosis is physical in nature and the focus of the assessment and intervention is on factors complicating medical conditions and treatments. These codes describe assessments and interventions to improve the patient's health and well-being utilizing psychological and/or psychosocial interventions designed to ameliorate specific disease-related problems.

Health behavior assessment: includes evaluation of the patient's responses to disease, illness or injury, outlook, coping strategies, motivation, and adherence to medical treatment. Assessment is conducted through health-focused clinical interviews, observation, and clinical decision making.

Health behavior intervention: includes promotion of functional improvement, minimizing psychological and/or psychosocial barriers to recovery, and management of and improved coping with medical conditions. These services emphasize active patient/family engagement and involvement. These interventions may be provided individually, to a group (two or more patients), and/or to the family, with or without the patient present.

Codes 96156, 96158, 96159, 96164, 96165, 96167, 96168, 96170, 96171 describe services offered to patients who present with primary physical illnesses, diagnoses, or symptoms and may benefit from assessments and interventions that focus on the psychological and/or psychosocial factors related to the patient's health status. These services do not represent preventive medicine counseling and risk factor reduction interventions.

For patients that require psychiatric services (90785-90899), adaptive behavior services (97151, 97152, 97153, 97154, 97155, 97156, 97157, 97158, 0362T, 0373T) as well as health behavior assessment and intervention (96156, 96158, 96159, 96164, 96165, 96167, 96168, 96170, 96171), report the predominant service performed. Do not report 96156, 96158, 96159, 96164, 96165, 96167, 96168, 96170, 96171 in conjunction with 90785-90899 on the same date.

Evaluation and management services codes (including counseling risk factor reduction and behavior change intervention [99401-99412]) should not be reported on the same day as health behavior assessment and intervention codes 96156, 96158, 96159, 96164, 96165, 96167, 96168, 96170, 96171 by the same provider.

Health behavior assessment and intervention services (96156, 96158, 96159, 96164, 96165, 96167, 96168, 96170, 96171) can occur and be reported on the same date of service as evaluation and management services (including counseling risk factor reduction and behavior change intervention [99401, 99402, 99403, 99404, 99406, 99407, 99408, 99409, 99411, 99412]), as long as the health behavior assessment and intervention service is reported by a physician or other qualified health care professional and the evaluation and management service is performed by a physician or other qualified health care professional who may report evaluation and management services.

Do not report 96158, 96164, 96167, 96170 for less than 16 minutes of service.

(For health behavior assessment and intervention services [96156, 96158, 96159, 96164, 96165, 96167, 96168, 96170, 96171] performed by a physician or other qualified health care professional who may report evaluation and management services, see **Evaluation and Management** or **Preventive Medicine Services** codes)

(Do not report 96156, 96158, 96159, 96164, 96165, 96167, 96168, 96170, 96171 in conjunction with 97151, 97152, 97153, 97154, 97155, 97156, 97157, 97158, 0362T, 0373T)

★ **96156** Health behavior assessment, or re-assessment (ie, health-focused clinical interview, behavioral observations, clinical decision making)

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Jul 20:7

★ **96158** Health behavior intervention, individual, face-to-face; initial 30 minutes

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Jul 20:7, Apr 22:10, Sep 22:22

★ + **96159** each additional 15 minutes (List separately in addition to code for primary service)

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Jul 20:7, Apr 22:10

(Use 96159 in conjunction with 96158)

►(Do not report 96158, 96159 for service time reported in conjunction with 98975, 98978, 98986)◄

★ **96164** Health behavior intervention, group (2 or more patients), face-to-face; initial 30 minutes

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Jul 20:7, Oct 22:7

★ + **96165** each additional 15 minutes (List separately in addition to code for primary service)

- *CPT Changes: An Insider's View* 2020
- *CPT Assistant* Jul 20:7, Oct 22:7

(Use 96165 in conjunction with 96164)

★ **96167** Health behavior intervention, family (with the patient present), face-to-face; initial 30 minutes

- *CPT Changes: An Insider's View* 2020

★ + **96168** each additional 15 minutes (List separately in addition to code for primary service)

- *CPT Changes: An Insider's View* 2020

(Use 96168 in conjunction with 96167)

★ **96170** Health behavior intervention, family (without the patient present), face-to-face; initial 30 minutes

- *CPT Changes: An Insider's View* 2020

★ + **96171** each additional 15 minutes (List separately in addition to code for primary service)

- *CPT Changes: An Insider's View* 2020

(Use 96171 in conjunction with 96170)

★◀ **96160** Administration of patient-focused health risk assessment instrument (eg, health hazard appraisal) with scoring and documentation, per standardized instrument

- *CPT Changes: An Insider's View* 2017
- *CPT Assistant* Nov 16:5, Feb 17:15

★◀ **96161** Administration of caregiver-focused health risk assessment instrument (eg, depression inventory) for the benefit of the patient, with scoring and documentation, per standardized instrument

- *CPT Changes: An Insider's View* 2017
- *CPT Assistant* Nov 16:5, Feb 17:15

96167 Code is out of numerical sequence. See 96158-96161

96168 Code is out of numerical sequence. See 96158-96161

96170 Code is out of numerical sequence. See 96158-96161

96171 Code is out of numerical sequence. See 96158-96161

Behavior Management Services

Behavior modification is defined as the process of altering human-behavior patterns over a long-term period using various motivational techniques, namely, consequences and rewards. More simply, behavior modification is the method of changing the way a person reacts either physically or mentally to a given stimulus.

Behavior modification treatment is based on the principles of operant conditioning. The intended clinical outcome for this treatment approach is to replace unwanted or problematic behaviors with more positive, desirable behaviors through the use of evidence-based techniques and methods.

The purpose of the group-based behavioral management/modification training services is to teach the parent(s)/guardian(s)/caregiver(s) interventions that they can independently use to effectively manage the identified patient's illness(es) or disease(s). Codes 96202, 96203 are used to report the total duration of face-to-face time spent by the physician or other qualified health care professional providing group-based parent(s)/guardian(s)/caregiver(s) behavioral management/modification training services. This service involves behavioral treatment training provided to a multiple-family group of parent(s)/guardian(s)/caregiver(s), without the patient present. These services emphasize active engagement and involvement of the parent(s)/guardian(s)/caregiver(s) in the treatment of a patient with a mental or physical health diagnosis. These services do not represent preventive medicine counseling and risk factor reduction interventions.

During these sessions, the parent(s)/guardian(s)/caregiver(s) are trained, using verbal instruction, video and live demonstrations, and feedback from physician or other qualified health care professional or other parent(s)/guardian(s)/caregiver(s) in group sessions, to use skills and strategies to address behaviors impacting the patient's mental or physical health diagnosis. These skills and strategies help to support compliance with the identified patient's treatment and the clinical plan of care.

For counseling and education provided by a physician or other qualified health care professional to a patient and/or family, see the appropriate evaluation and management codes, including synchronous audio-video visits (98000, 98001, 98002, 98003, 98004, 98005, 98006, 98007), synchronous audio-only visits (98008, 98009, 98010, 98011, 98012, 98013, 98014, 98015), brief communication technology-based services (98016), office or other outpatient services (99202, 99203, 99204, 99205, 99211, 99212, 99213, 99214, 99215), hospital inpatient and observation care services (99221, 99222, 99223, 99231, 99232, 99233, 99234, 99235, 99236), new or established patient office or other outpatient consultations (99242, 99243, 99244, 99245), inpatient or observation consultations (99252, 99253, 99254, 99255), emergency department services (99281, 99282, 99283, 99284, 99285), nursing facility services (99304, 99305, 99306, 99307, 99308, 99309, 99310, 99315, 99316), home or residence services (99341, 99342, 99344, 99345, 99347, 99348, 99349, 99350), and counseling risk factor reduction and behavior change intervention (99401-99429). See also **Instructions for Use of the CPT Codebook** for definition of reporting qualifications.

Counseling risk factor reduction and behavior change intervention codes (99401, 99402, 99403, 99404, 99406, 99407, 99408, 99409, 99411, 99412) are included and may not be separately reported on the same day as parent(s)/guardian(s)/caregiver(s) training services codes 96202, 96203 by the same provider.

Medical nutrition therapy (97802, 97803, 97804) provided to the identified patient may be reported on the same date of service as parent(s)/guardian(s)/caregiver(s) training service.

(For health behavior assessment and intervention that is not part of a standardized curriculum, see 96156, 96158, 96159, 96164, 96165, 96167, 96168, 96170, 96171)

(For educational services that use a standardized curriculum provided to patients with an established illness/disease, see 98960, 98961, 98962)

(For education provided as genetic counseling services, use 96041. For education to a group regarding genetic risks, see 98961, 98962)

★ **96202** Multiple-family group behavior management/modification training for parent(s)/guardian(s)/caregiver(s) of patients with a mental or physical health diagnosis, administered by physician or other qualified health care professional (without the patient present), face-to-face with multiple sets of parent(s)/guardian(s)/caregiver(s); initial 60 minutes

- *CPT Changes: An Insider's View* 2023
- *CPT Assistant* Oct 22:7, Jan 25:1

(Do not report 96202 for behavior management services to the patient and the parent[s]/guardian[s]/caregiver[s] during the same session)

(Do not report 96202 for less than 31 minutes of service)

★ + **96203** each additional 15 minutes (List separately in addition to code for primary service)

- *CPT Changes: An Insider's View* 2023
- *CPT Assistant* Oct 22:7, Jan 25:1

(Use 96203 in conjunction with 96202)

(Do not report 96202, 96203 in conjunction with 97151, 97152, 97153, 97154, 97155, 97156, 97157, 97158, 0362T, 0373T)

(For educational services [eg, prenatal, obesity, or diabetic instructions] rendered to patients in a group setting, use 99078)

(For counseling and/or risk factor reduction intervention provided by a physician or other qualified health care professional to patient[s] without symptoms or established disease, see 99401, 9940 99403, 99404, 99406, 99407, 99408, 99409, 99411, 99412)

Hydration, Therapeutic, Prophylactic, Diagnostic Injections and Infusions, and Chemotherapy and Other Highly Complex Drug or Highly Complex Biologic Agent Administration

Physician or other qualified health care professional work related to hydration, injection, and infusion services predominantly involves affirmation of treatment plan and direct supervision of staff.

Codes 96360-96379, 96401, 96402, 96409-96425, 96521-96523 are not intended to be reported by the physician in the facility setting. If a significant, separately identifiable office or other outpatient evaluation and management (E/M) service is performed, the appropriate E/M service (98000-98016, 99202-99215, 99242, 99243, 99244, 99245) should be reported using modifier 25, in addition to 96360-96549. For same day E/M service, a different diagnosis is not required.

If performed to facilitate the infusion or injection, the following services are included and are not reported separately:

a. Use of local anesthesia

b. IV start

c. Access to indwelling IV, subcutaneous catheter or port

d. Flush at conclusion of infusion

e. Standard tubing, syringes, and supplies

(For declotting a catheter or port, use 36593)

When multiple drugs are administered, report the service(s) and the specific materials or drugs for each.

When administering multiple infusions, injections or combinations, only one "initial" service code should be reported for a given date, unless protocol requires that two separate IV sites must be used. Do not report a second initial service on the same date due to an intravenous line requiring a re-start, an IV rate not being able to be reached without two lines, or for accessing a port of a multi-lumen catheter. If an injection or infusion is of a subsequent or concurrent nature, even if it is the first such service within that group of services, then a subsequent or concurrent code from the appropriate section should be reported (eg, the first IV push given subsequent to an initial one-hour infusion is reported using a subsequent IV push code).

Initial infusion: For physician or other qualified health care professional reporting, an initial infusion is the *key or primary reason for the encounter* reported irrespective of the temporal order in which the infusion(s) or injection(s) are administered. For facility reporting, an initial infusion is based using the hierarchy. For both physician or other qualified health care professional and facility reporting, only one *initial* service code (eg, 96365) should be reported unless the protocol or patient condition requires that two separate IV sites must be utilized. The difference in time and effort in providing this second IV site access is also reported using the *initial* service code with modifier 59 appended (eg, 96365, 96365-59).

Sequential infusion: A sequential infusion is an infusion or IV push of a new substance or drug following a primary or initial service. All sequential services require that there be a new substance or drug, except that facilities may report a sequential intravenous push of the same drug using 96376.

Concurrent infusion: A concurrent infusion is an infusion of a new substance or drug infused at the same time as another substance or drug. A concurrent infusion service is not time based and is only reported once per day regardless of whether an additional new drug or substance is administered concurrently. Hydration may not be reported concurrently with any other service. A separate subsequent concurrent administration of another new drug or substance (the third substance or drug) is not reported.

In order to determine which service should be reported as the initial service when there is more than one type of service, hierarchies have been created. These vary by whether the physician or other qualified health care professional or a facility is reporting. The order of selection for reporting is based upon the physician's or other qualified health care professional's knowledge of the clinical condition(s) and treatment(s). The hierarchy that facilities are to use is based upon a structural algorithm. When these codes are reported by the physician or other qualified health care professional, the "initial" code that best describes the key or primary reason for the encounter should always be reported irrespective of the order in which the infusions or injections occur.

When these codes are reported *by the facility*, the following instructions apply. The initial code should be selected using a hierarchy whereby chemotherapy services are primary to therapeutic, prophylactic, and diagnostic services which are primary to hydration services. Infusions are primary to pushes, which are primary to injections. This hierarchy is to be followed by facilities and supersedes parenthetical instructions for add-on codes that suggest an add-on of a higher hierarchical position may be reported in conjunction with a base code of a lower position. (For example, the hierarchy would not permit reporting 96376 with 96360, as 96376 is a higher order code. IV push is primary to hydration.)

When reporting multiple infusions of the same drug/substance on the same date of service, the initial code should be selected. The second and subsequent infusion(s) should be reported based on the individual time(s) of each additional infusion(s) of the same drug/substance using the appropriate add-on code.

Example: In the outpatient observation setting, a patient receives one-hour intravenous infusions of the same antibiotic every 8 hours on the same date of service through the same IV access. The hierarchy for facility reporting permits the reporting of code 96365 for the first one-hour dose administered. Add-on 96366 would be reported twice (once for the second and third one-hour infusions of the same drug).

When reporting codes for which infusion time is a factor, use the actual time over which the infusion is administered. Intravenous or intra-arterial push is defined as: (a) an injection in which the individual who administers the drug/substance is continuously present to administer the injection and observe the patient, or (b) an infusion of 15 minutes or less. If intravenous hydration (96360, 96361) is given from 11 PM to 2 AM, 96360 would be reported once and 96361 twice. For continuous services that last beyond midnight, use the date in which the service began and report the total units of time provided continuously. However, if instead of a continuous infusion, a medication was given by intravenous push at 10 PM and 2 AM, as the service was not continuous, the two administrations would be reported as an initial service (96374) and sequential (96376) as: (1) no other infusion services were performed; and (2) the push of the same drug was performed more than 30 minutes beyond the initial administration. A "keep open" infusion of any type is not separately reported.

Hydration

Codes 96360-96361 are intended to report a hydration IV infusion to consist of a pre-packaged fluid and electrolytes (eg, normal saline, D5-1/2 normal saline+30mEq KCl/liter), but are not used to report infusion of drugs or other substances. Hydration IV infusions typically require direct supervision for purposes of consent, safety oversight, or intraservice supervision of staff. Typically such infusions require little special handling to prepare or dispose of, and staff that administer these do not typically require advanced practice training. After initial set-up, infusion typically entails little patient risk and thus little monitoring. These codes are not intended to be reported by the physician or other qualified health care professional in the facility setting.

Some chemotherapeutic agents and other therapeutic agents require pre- and/or post-hydration to be given in order to avoid specific toxicities. A minimum time duration of 31 minutes of hydration infusion is required to report the service. However, the hydration codes 96360 or 96361 are not used when the purpose of the intravenous fluid is to "keep open" an IV line prior or subsequent to a therapeutic infusion, or as a free-flowing IV during chemotherapy or other therapeutic infusion.

96360 Intravenous infusion, hydration; initial, 31 minutes to 1 hour

CPT Changes: An Insider's View 2009

CPT Assistant May 10:8, May 11:7, Oct 11:3, Dec 11:3, Oct 13:3, May 14:11, Jun 19:5, Mar 21:3, Jul 21:10, Mar 25:20

(Do not report 96360 if performed as a concurrent infusion service)

(Do not report intravenous infusion for hydration of 30 minutes or less)

+ 96361 each additional hour (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2009

CPT Assistant May 10:8, May 11:7, Oct 11:3, Dec 11:3, Oct 13:3, May 14:11, Jun 19:5, Jul 21:10, Mar 25:20

(Use 96361 in conjunction with 96360)

(Report 96361 for hydration infusion intervals of greater than 30 minutes beyond 1 hour increments)

(Report 96361 to identify hydration if provided as a secondary or subsequent service after a different initial service [96360, 96365, 96374, 96409, 96413] is administered through the same IV access)

Therapeutic, Prophylactic, and Diagnostic Injections and Infusions (Excludes Chemotherapy and Other Highly Complex Drug or Highly Complex Biologic Agent Administration)

A therapeutic, prophylactic, or diagnostic IV infusion or injection (other than hydration) is for the administration of substances/drugs. When fluids are used to administer the drug(s), the administration of the fluid is considered incidental hydration and is not separately reportable. These services typically require direct supervision for any or all purposes of patient assessment, provision of consent, safety oversight, and intra-service supervision of staff. Typically, such infusions require special consideration to prepare, dose or dispose of, require practice training and competency for staff who administer the infusions, and require periodic patient assessment with vital sign monitoring during the infusion. These codes are not intended to be reported by the physician or other qualified health care professional in the facility setting.

Passive immunizations, such as an immune globulin or monoclonal antibody, provide long-term passive immunization to the patient.

See codes 96401-96549 for the administration of chemotherapy or other highly complex drug or highly complex biologic agent services. These highly complex services require advanced practice training and competency for staff who provide these services; special considerations for preparation, dosage or disposal; and commonly, these services entail significant patient risk and frequent monitoring. Examples are frequent changes in the infusion rate, prolonged presence of nurse administering the solution for patient monitoring and infusion adjustments, and frequent conferring with the physician or other qualified health care professional about these issues.

(Do not report 96365-96379 with codes for which IV push or infusion is an inherent part of the procedure [eg, administration of contrast material for a diagnostic imaging study])

►(For mechanical scalp cooling, see 97007, 97008, 97009)◄

Coding Tip

Instructions for Reporting Medication Administration With Chemotherapy and Other Highly Complex Drug or Highly Complex Biologic Agent Administration

The administration of medications (eg, antibiotics, steroidal agents, antiemetics, narcotics, analgesics) administered independently or sequentially as supportive management of chemotherapy administration, should be separately reported using 96360, 96361, 96365, 96379 as appropriate.

CPT Coding Guidelines, Chemotherapy and Other Highly Complex Drug or Highly Complex Biologic Agent Administration

96365 Intravenous infusion, for therapy, prophylaxis, or diagnosis (specify substance or drug); initial, up to 1 hour

- *CPT Changes: An Insider's View* 2009
- *CPT Assistant* May 10:8, May 11:7, Oct 11:4, Dec 11:3, May 18:10, Sep 18:15, Dec 18:9, Dec 22:22

96381 Code is out of numerical sequence. See 96376-96401

Chemotherapy and Other Highly Complex Drug or Highly Complex Biologic Agent Administration

Chemotherapy administration codes 96401-96549 apply to parenteral administration of non-radionuclide anti-neoplastic drugs; and also to anti-neoplastic agents provided for treatment of noncancer diagnoses (eg, cyclophosphamide for auto-immune conditions) or to substances such as certain monoclonal antibody agents, and other biologic response modifiers. The highly complex infusion of chemotherapy or other drug or biologic agents requires physician or other qualified health care professional work and/or clinical staff monitoring well beyond that of therapeutic drug agents (96360-96379) because the incidence of severe adverse patient reactions are typically greater. These services can be provided by any physician or other qualified health care professional. Chemotherapy services are typically highly complex and require direct supervision for any or all purposes of patient assessment, provision of consent, safety oversight, and intraservice supervision of staff. Typically, such chemotherapy services require advanced practice training and competency for staff who provide these services; special considerations for preparation, dosage, or disposal; and commonly, these services entail significant patient risk and frequent monitoring. Examples are frequent changes in the infusion rate, prolonged presence of the nurse administering the solution for patient monitoring and infusion adjustments, and frequent conferring with the physician or other qualified health care professional about these issues. When performed to facilitate the infusion of injection, preparation of chemotherapy agent(s), highly complex agent(s), or other highly complex drugs is included and is not reported separately. To report infusions that do not require this level of complexity, see 96360-96379. Codes 96401-96402, 96409-96425, 96521-96523 are not intended to be reported by the individual physician or other qualified health care professional in the facility setting.

The term “chemotherapy” in 96401-96549 includes other highly complex drugs or highly complex biologic agents.

Report separate codes for each parenteral method of administration employed when chemotherapy is administered by different techniques. The administration of medications (eg, antibiotics, steroidal agents, antiemetics, narcotics, analgesics) administered independently or sequentially as supportive management of chemotherapy administration, should be separately reported using 96360, 96361, 96365, 96379 as appropriate.

Report both the specific service as well as code(s) for the specific substance(s) or drug(s) provided. The fluid used to administer the drug(s) is considered incidental hydration and is not separately reportable.

Regional (isolation) chemotherapy perfusion should be reported using the codes for arterial infusion (96420-96425). Placement of the intra-arterial catheter should be reported using the appropriate code from the **Cardiovascular Surgery** section. Placement of arterial and venous cannula(s) for extracorporeal circulation via a membrane oxygenator perfusion pump should be reported using 36823. Code 36823 includes dose calculation and administration of the chemotherapy agent by injection into the perfusate. Do not report 96409-96425 in conjunction with 36823.

(For home infusion services, see 99601-99602)

►(For mechanical scalp cooling, see 97007, 97008, 97009)◄

Injection and Intravenous Infusion Chemotherapy and Other Highly Complex Drug or Highly Complex Biologic Agent Administration

Intravenous or intra-arterial push is defined as: (a) an injection in which the healthcare professional who administers the substance/drug is continuously present to administer the injection and observe the patient, or (b) an infusion of 15 minutes or less.

96401 Chemotherapy administration, subcutaneous or intramuscular; non-hormonal anti-neoplastic

+ 96411 intravenous, push technique, each additional substance/drug (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Nov 05:1, Jan 07:30, May 07:3, Feb 09:17, Dec 11:3, May 22:18, Oct 22:19
- *Clinical Examples in Radiology* Winter 18:12, Summer 18:9

(Use 96411 in conjunction with 96409, 96413)

96413 Chemotherapy administration, intravenous infusion technique; up to 1 hour, single or initial substance/drug

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Nov 05:1, Jan 07:30, May 07:3, Sep 07:3, Dec 07:15, Feb 09:17, May 10:8, May 11:7, Dec 11:4, May 22:18, Oct 22:19
- *Clinical Examples in Radiology* Winter 18:12, Summer 18:9

(Report 96361 to identify hydration if administered as a secondary or subsequent service in association with 96413 through the same IV access)

(Report 96366, 96367, 96375 to identify therapeutic, prophylactic, or diagnostic drug infusion or injection, if administered as a secondary or subsequent service in association with 96413 through the same IV access)

+ 96415 each additional hour (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2006, 2007
- *CPT Assistant* Nov 05:1, Jan 07:30, May 07:3, Sep 07:3, Dec 07:15, Feb 09:17, Dec 11:3, May 22:18, Oct 22:19
- *Clinical Examples in Radiology* Winter 18:12, Summer 18:9

(Use 96415 in conjunction with 96413)

(Report 96415 for infusion intervals of greater than 30 minutes beyond 1-hour increments)

96416 initiation of prolonged chemotherapy infusion (more than 8 hours), requiring use of a portable or implantable pump

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Nov 05:1, Jan 07:30, May 07:3, Sep 07:3, Dec 07:15, Feb 09:17, Dec 11:3, May 22:18, Oct 22:19
- *Clinical Examples in Radiology* Winter 18:12, Summer 18:9

(For refilling and maintenance of a portable pump or an implantable infusion pump or reservoir for drug delivery, see 96521-96523)

+ 96417 each additional sequential infusion (different substance/drug), up to 1 hour (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Nov 05:1, Jan 07:30, May 07:3, Jun 07:4, Feb 09:17, Aug 11:9, Dec 11:3, May 22:18, Oct 22:19
- *Clinical Examples in Radiology* Winter 18:12, Summer 18:9

(Use 96417 in conjunction with 96413)

(Report only once per sequential infusion. Report 96415 for additional hour(s) of sequential infusion)

Intra-Arterial Chemotherapy and Other Highly Complex Drug or Highly Complex Biologic Agent Administration

96420 Chemotherapy administration, intra-arterial; push technique

- *CPT Assistant* Aug 97:19, Nov 98:37, Nov 99:54, Feb 01:10, Jul 01:2, Nov 05:1, Jan 07:30, May 07:3, Jun 07:4, Feb 09:17, Aug 11:9, Dec 11:3, Nov 13:6
- *Clinical Examples in Radiology* Summer 08:1-2, 4, Winter 18:11, Summer 18:9

96422 infusion technique, up to 1 hour

- *CPT Assistant* Dec 96:10, Aug 97:19, Nov 98:37, Feb 01:10, Jul 01:2, Nov 05:1, Jan 07:30, May 07:3, Dec 07:15, Feb 09:17, Aug 11:9, Dec 11:3
- *Clinical Examples in Radiology* Winter 18:12, Summer 18:9

+ 96423 infusion technique, each additional hour (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2006, 2007
- *CPT Assistant* Dec 96:10, Nov 98:37, Feb 01:10, Jul 01:2, Nov 05:1, Jan 07:30, May 07:3, Dec 07:15, Feb 09:17, Dec 11:3
- *Clinical Examples in Radiology* Winter 18:12, Summer 18:9

(Use 96423 in conjunction with 96422)

(Report 96423 for infusion intervals of greater than 30 minutes beyond 1-hour increments)

(For regional chemotherapy perfusion via membrane oxygenator perfusion pump to an extremity, use 36823)

96425 infusion technique, initiation of prolonged infusion (more than 8 hours), requiring the use of a portable or implantable pump

- *CPT Assistant* Nov 99:54, Feb 01:10, Jul 01:2, Nov 05:1, Jan 07:30, May 07:3, Jun 07:4, Feb 09:17, Aug 11:9, Dec 11:3
- *Clinical Examples in Radiology* Winter 18:12, Summer 18:9

(For refilling and maintenance of a portable pump or an implantable infusion pump or reservoir for drug delivery, see 96521-96523)

Other Injection and Infusion Services

Code 96523 does not require direct supervision. Codes 96521-96523 may be reported when these devices are used for therapeutic drugs other than chemotherapy.

(For collection of blood specimen from a completely implantable venous access device, use 36591)

96440 Chemotherapy administration into pleural cavity, requiring and including thoracentesis

- *CPT Assistant* Feb 01:10, Jul 01:2, Nov 05:1, Jan 07:30, May 07:3, Jun 07:4, Feb 09:17
- *Clinical Examples in Radiology* Summer 18:9

96446 Chemotherapy administration into the peritoneal cavity via implanted port or catheter

- *CPT Changes: An Insider's View* 2011, 2024
- *CPT Assistant* Oct 10:16, Dec 10:16, Dec 23:27
- *Clinical Examples in Radiology* Summer 18:9

(For intraoperative hyperthermic intraperitoneal chemotherapy [HIPEC], see 96547, 96548)

96450 Chemotherapy administration, into CNS (eg, intrathecal), requiring and including spinal puncture

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Feb 01:10, Jul 01:2, Nov 05:1, Jan 07:30, May 07:3, Feb 09:17, Mar 21:3
- *Clinical Examples in Radiology* Spring 11:10, Winter 14:10, Summer 18:9, Fall 19:9

(For intravesical (bladder) chemotherapy administration, use 51720)

(For insertion of subarachnoid catheter and reservoir for infusion of drug, see 62350, 62351, 62360-62362; for insertion of intraventricular catheter and reservoir, see 61210, 61215)

(If fluoroscopic guidance is performed, use 77003)

96521 Refilling and maintenance of portable pump

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Nov 05:1, Jan 07:30, May 07:3, Feb 09:17, Dec 11:3
- *Clinical Examples in Radiology* Winter 18:12, Summer 18:9

96522 Refilling and maintenance of implantable pump or reservoir for drug delivery, systemic (eg, intravenous, intra-arterial)

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Jul 06:1, Jan 07:30, May 07:3, Feb 09:17, Dec 11:3, Feb 25:31
- *Clinical Examples in Radiology* Winter 18:12, Summer 18:9

(For refilling and maintenance of an implantable infusion pump for spinal or brain drug infusion, use 95990-95991)

96523 Irrigation of implanted venous access device for drug delivery systems

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Jan 07:30, May 07:3, Feb 09:17, Jul 11:16, Dec 11:3
- *Clinical Examples in Radiology* Winter 18:12, Summer 18:9

(Do not report 96523 in conjunction with other services. To report collection of blood specimen, use 36591)

96542 Chemotherapy injection, subarachnoid or intraventricular via subcutaneous reservoir, single or multiple agents

- *CPT Assistant* Aug 97:19, Jul 01:2, Nov 05:1, Jan 07:30, May 07:3, Feb 09:17
- *Clinical Examples in Radiology* Summer 18:9

(For radioactive isotope therapy, use 79005)

Codes 96547, 96548 describe the hyperthermic intraperitoneal chemotherapy (HIPEC) procedure that includes intraoperative perfusion of a heated chemotherapy agent into the abdominal cavity through catheters. The HIPEC procedure is distinct from the primary procedure and may include chemotherapy agent selection, confirmation of perfusion equipment settings for chemotherapy agent delivery, additional incision(s) for catheter and temperature probe placement, perfusion supervision and manual agitation of the heated chemotherapy agent in the abdominal cavity during chemotherapy agent dwell time, irrigation of the chemotherapy agent, closure of wounds related to HIPEC, and documentation of the chemotherapy agent and HIPEC procedure in the medical record. Codes 96547, 96548 are add-on codes and do not include the typical preoperative, intraoperative, and postoperative work related to the primary procedure. Code 96547 is reported for the first 60 minutes of the HIPEC procedure and 96548 is reported for each additional 30 minutes.

+ 96547 Intraoperative hyperthermic intraperitoneal chemotherapy (HIPEC) procedure, including separate incision(s) and closure, when performed; first 60 minutes (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2024
- *CPT Assistant* Dec 23:27, Jan 24:40

+ 96548 each additional 30 minutes (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2024
- *CPT Assistant* Dec 23:27, Jan 24:40

(Use 96547, 96548 in conjunction with 38100, 38101, 38102, 38120, 43611, 43620, 43621, 43622, 43631, 43632, 43633, 43634, 44010, 44015, 44110, 44111, 44120, 44121, 44125, 44130, 44139, 44140, 44141, 44143, 44144, 44145, 44146, 44147, 44150, 44151, 44155, 44156, 44157, 44158, 44160, 44202, 44203, 44204, 44207, 44213, 44227, 47001, 47100, 48140, 48145, 48152, 48155, 49000, 49010, 49186, 49187, 49188, 49189, 49190, 49320, 58200, 58210, 58575, 58940, 58943, 58950, 58951, 58952, 58953, 58954, 58956, 58958, 58960)

96549 Unlisted chemotherapy procedure

- *CPT Assistant* Aug 97:19, Jul 01:2, Nov 05:1, Jan 07:30, May 07:3, Jun 07:4, Oct 10:16, Dec 10:16
- *Clinical Examples in Radiology* Summer 18:9

Photodynamic Therapy

Codes 96573, 96574 should be used to report nonsurgical treatment of cutaneous lesions using photodynamic therapy by external application of light to destroy premalignant lesion(s) of the skin and adjacent mucosa (eg, face, scalp) by activation of photosensitizing drug(s).

A treatment session is defined as an application of photosensitizer to all lesions within an anatomic area (eg, face, scalp), with or without debridement of all premalignant hyperkeratotic lesions in that area, followed by illumination/activation with an appropriate light source to the same area.

Do not report codes for debridement (11000, 11001, 11004, 11005), lesion shaving (11300-11313), biopsy (11102, 11103, 11104, 11105, 11106, 11107), or lesion excision (11400-11471) within the treatment area(s) on the same day as photodynamic therapy (96573, 96574).

(To report ocular photodynamic therapy, use 67221)

96567 Photodynamic therapy by external application of light to destroy premalignant lesions of the skin and adjacent mucosa with application and illumination/activation of photosensitive drug(s), per day

- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Feb 18:10, Jul 18:15

(Use 96567 for reporting photodynamic therapy when physician or other qualified health care professional is not directly involved in the delivery of the photodynamic therapy service)

+ 96570 Photodynamic therapy by endoscopic application of light to ablate abnormal tissue via activation of photosensitive drug(s); first 30 minutes (List separately in addition to code for endoscopy or bronchoscopy procedures of lung and gastrointestinal tract)

- *CPT Changes: An Insider's View* 2000, 2010
- *CPT Assistant* Nov 99:54, Sep 00:5, Oct 11:11, Apr 13:8

(Report 96570 with modifier 52 for service of less than 23 minutes with report)

+ 96571 each additional 15 minutes (List separately in addition to code for endoscopy or bronchoscopy procedures of lung and gastrointestinal tract)

- *CPT Changes: An Insider's View* 2000, 2010
- *CPT Assistant* Nov 99:54, Sep 00:5, Oct 11:11, Apr 13:8

(For 23-37 minutes of service, use 96570. For 38-52 minutes of service, use 96570 in conjunction with 96571)

(96570, 96571 are to be used in addition to bronchoscopy, endoscopy codes)

(Use 96570, 96571 in conjunction with 31641, 43229 as appropriate)

96573 Photodynamic therapy by external application of light to destroy premalignant lesions of the skin and adjacent mucosa with application and illumination/activation of photosensitizing drug(s) provided by a physician or other qualified health care professional, per day

- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Feb 18:10, Jul 18:15

(Do not report 96573 in conjunction with 96567, 96574 for the same anatomic area)

96574 Debridement of premalignant hyperkeratotic lesion(s) (ie, targeted curettage, abrasion) followed with photodynamic therapy by external application of light to destroy premalignant lesions of the skin and adjacent mucosa with application and illumination/activation of photosensitizing drug(s) provided by a physician or other qualified health care professional, per day

- *CPT Changes: An Insider's View* 2018
- *CPT Assistant* Feb 18:10

(Do not report 96574 in conjunction with 96567, 96573 for the same anatomic area)

Special Dermatological Procedures

See the **Evaluation and Management coding guidelines** for further instructions on reporting that is appropriate for management of dermatologic illnesses.

(For intralesional injections, see 11900, 11901)

(For Tzanck smear, see 88160-88161)

96900 Actinotherapy (ultraviolet light)

CPT Assistant Jul 12:9, Sep 16:3, Nov 16:9, Mar 22:14

(For rhinophototherapy, intranasal application of ultraviolet and visible light, use 30999)

96902 Microscopic examination of hairs plucked or clipped by the examiner (excluding hair collected by the patient) to determine telogen and anagen counts, or structural hair shaft abnormality

CPT Assistant Nov 97:46-47

96904 Whole body integumentary photography, for monitoring of high risk patients with dysplastic nevus syndrome or a history of dysplastic nevi, or patients with a personal or familial history of melanoma

CPT Changes: An Insider's View 2007

96910 Photochemotherapy; tar and ultraviolet B (Goeckerman treatment) or petrolatum and ultraviolet B

CPT Assistant Jul 12:9, Sep 16:3, Mar 22:14

96912 psoralens and ultraviolet A (PUVA)

CPT Assistant Jul 12:9, Sep 16:3, Mar 22:14

96913 Photochemotherapy (Goeckerman and/or PUVA) for severe photoresponsive dermatoses requiring at least 4-8 hours of care under direct supervision of the physician (includes application of medication and dressings)

CPT Assistant Sep 16:3, Mar 22:14

96920 Excimer laser treatment for psoriasis; total area less than 250 sq cm

CPT Changes: An Insider's View 2003, 2024

CPT Assistant Oct 10:9, Jul 12:9, May 13:12, Sep 16:3, Jul 20:14, Mar 22:14, Jun 24:19

96921 250 sq cm to 500 sq cm

CPT Changes: An Insider's View 2003, 2024

CPT Assistant Oct 10:9, Jul 12:9, May 13:12, Sep 16:3, Jul 20:14, Mar 22:14, Jun 24:19

96922 over 500 sq cm

CPT Changes: An Insider's View 2003, 2024

CPT Assistant Oct 10:9, Jul 12:9, May 13:12, Sep 16:3, Jul 20:14, Mar 22:14, Jun 24:19

(For laser destruction of premalignant lesions, see 17000-17004)

(For laser destruction of cutaneous vascular proliferative lesions, see 17106-17108)

(For laser destruction of benign lesions, see 17110-17111)

(For laser destruction of malignant lesions, see 17260-17286)

Codes 96931, 96932, 96933, 96934, 96935, 96936 describe the acquisition and/or diagnostic interpretation of the device generated stitched image mosaics related to a single lesion. Do not report 96931, 96932, 96933, 96934, 96935, 96936 for a reflectance confocal microscopy examination that does not produce mosaic images. For services rendered using reflectance confocal microscopy not generating mosaic images, use 96999.

96931 Reflectance confocal microscopy (RCM) for cellular and sub-cellular imaging of skin; image acquisition and interpretation and report, first lesion

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Sep 17:9

96932 image acquisition only, first lesion

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Sep 17:9

96933 interpretation and report only, first lesion

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Sep 17:9

+ 96934 image acquisition and interpretation and report, each additional lesion (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Sep 17:9

(Use 96934 in conjunction with 96931)

+ 96935 image acquisition only, each additional lesion (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Sep 17:9

(Use 96935 in conjunction with 96932)

+ 96936 interpretation and report only, each additional lesion (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Sep 17:9

(Use 96936 in conjunction with 96933)

96999 Unlisted special dermatological service or procedure

- *CPT Assistant* Jul 12:9, May 13:12, Sep 17:9, Jul 20:14, Mar 22:14

►Mechanical Scalp-Cooling Services◄

►Machine-based scalp cooling is used to address chemotherapy-induced alopecia. To report mechanical scalp-cooling services, the device must be a medical device as defined by the FDA and ordered and performed by trained clinical staff under the supervision of a physician or other qualified health care professional (QHP). These devices are used in an office or facility setting and are not intended for home use.

Codes 97007, 97008, 97009 are not reported if the scalp-cooling device is ordered by a physician or other QHP but self-administered by the patient during chemotherapy administration.

Code 97007 should be reported once per chemotherapy treatment period and involves a dedicated visit that includes the initial fitting and supply of the custom cap and patient education on hair and skin care, potential therapy side effects, and treatment outcomes. This may be performed independently by clinical staff after scalp cooling has been ordered by a physician or other QHP.

Mechanical scalp cooling is reported using 97008 once per chemotherapy session. Initiation of the services described in 97008 begins 30 minutes before each chemotherapy administration when scalp cooling is performed and concludes when the chemotherapy administration session and post-chemotherapy monitoring are completed. Periodic patient monitoring and management of scalp cooling during chemotherapy is included in the chemotherapy administration service and is not separately reported. Code 97009 may be reported for the continuation of scalp cooling provided after chemotherapy is completed and varies depending on the duration of the chemotherapy regimen. Code 97009 is reported once for each 30 minutes of scalp cooling provided upon discontinuation of the chemotherapy infusion. Do not report 97009 for scalp cooling of less than 16 minutes. Services described in 97008, 97009 may be performed by clinical staff under the direct supervision of a physician or other QHP.

Definitions:

Chemotherapy treatment period: The chemotherapy treatment prescribed may be administered over multiple chemotherapy sessions over a period of time on separate dates of service.

Chemotherapy session: An individual chemotherapy session or treatment day.◀

● **97007** Mechanical scalp cooling, including individual cap supply with head measurement, fitting, and patient education

➔ *CPT Changes: An Insider's View* 2026

►(Report 97007 once per chemotherapy treatment period)◀

►(Do not report 97007 for each chemotherapy session)◀

● **97008** Mechanical scalp cooling; including hair preparation, individual cap placement, therapy initiation, and precooling period

➔ *CPT Changes: An Insider's View* 2026

►(Report 97008 once per chemotherapy session)◀

+● **97009** provided after discontinuation of chemotherapy, each 30 minutes (List separately in addition to code for primary procedure)

➔ *CPT Changes: An Insider's View* 2026

►(Use 97009 in conjunction with 97008)◀

►(Do not report 97009 for scalp cooling of less than 16 minutes)◀

►(For selective head or total body hypothermia in the critically ill neonate, use 99184)◀

Physical Medicine and Rehabilitation

Codes 97010-97763 should be used to report each distinct procedure performed. Do not append modifier 51 to 97010-97763.

The work of the physician or other qualified health care professional consists of face-to-face time with the patient (and caregiver, if applicable) delivering skilled services. For the purpose of determining the total time of a service, incremental intervals of treatment at the same visit may be accumulated.

(For range of joint motion, see 95851, 95852)

(For biofeedback training by EMG, use 90901)

(For transcutaneous nerve stimulation [TENS], use 97014 for electrical stimulation requiring supervision only, or use 97032 for electrical stimulation requiring constant attendance)

Physical Therapy Evaluations

Physical therapy evaluations include a patient history and an examination with development of a plan of care, conducted by the physician or other qualified health care professional, which is based on the composite of the patient's presentation.

Coordination, consultation, and collaboration of care with physicians, other qualified health care professionals, or agencies is provided consistent with the nature of the problem(s) and the needs of the patient, family, and/or other caregivers.

At a minimum, each of the following components noted in the code descriptors must be documented, in order to report the selected level of physical therapy evaluation.

Physical therapy evaluations include the following components:

- History
- Examination
- Clinical decision making
- Development of plan of care

Report 97164 for performance of patient re-evaluation that is based on an established and ongoing plan of care.

Definitions

The level of the physical therapy evaluation performed is dependent on clinical decision making and on the nature of the patient's condition (severity). For the purpose of reporting physical therapy evaluations, the body regions and body systems are defined as follows:

Body regions: head, neck, back, lower extremities, upper extremities, and trunk.

Body systems: musculoskeletal, neuromuscular, cardiovascular pulmonary, and integumentary.

A review of body systems include the following:

- For the musculoskeletal system: the assessment of gross symmetry, gross range of motion, gross strength, height, and weight
- For the neuromuscular system: a general assessment of gross coordinated movement (eg, balance, gait, locomotion, transfers, and transitions) and motor function (motor control and motor learning)
- For the cardiovascular pulmonary system: the assessment of heart rate, respiratory rate, blood pressure, and edema
- For the integumentary system: the assessment of pliability (texture), presence of scar formation, skin color, and skin integrity

A review of any of the body systems also includes the assessment of the ability to make needs known, consciousness, orientation (person, place, and time), expected emotional/behavioral responses, and learning preferences (eg, learning barriers, education needs).

Body structures: The structural or anatomical parts of the body, such as organs, limbs, and their components, classified according to body systems.

Personal factors: Factors that include sex, age, coping styles, social background, education, profession, past and current experience, overall behavior pattern, character, and other factors that influence how disability is experienced by the individual. Personal factors that exist but do not impact the physical therapy plan of care are not to be considered, when selecting a level of service.

#★ 97161 Physical therapy evaluation: low complexity, requiring these components:

- A history with no personal factors and/or comorbidities that impact the plan of care;
- An examination of body system(s) using standardized tests and measures addressing 1-2 elements from any of the following: body structures and functions, activity limitations, and/or participation restrictions;
- A clinical presentation with stable and/or uncomplicated characteristics; and
- Clinical decision making of low complexity using standardized patient assessment instrument and/or measurable assessment of functional outcome.

Typically, 20 minutes are spent face-to-face with the patient and/or family.

CPT Changes: An Insider's View 2017
CPT Assistant Aug 17:3, May 18:5

#★ 97162 Physical therapy evaluation: moderate complexity, requiring these components:

- A history of present problem with 1-2 personal factors and/or comorbidities that impact the plan of care;
- An examination of body systems using standardized tests and measures in addressing a total of 3 or more elements from any of the following: body structures and functions, activity limitations, and/or participation restrictions;
- An evolving clinical presentation with changing characteristics; and
- Clinical decision making of moderate complexity using standardized patient assessment instrument and/or measurable assessment of functional outcome.

Typically, 30 minutes are spent face-to-face with the patient and/or family.

CPT Changes: An Insider's View 2017
CPT Assistant Aug 17:3, May 18:5

 # 97163 Physical therapy evaluation: high complexity, requiring these components:

- A history of present problem with 3 or more personal factors and/or comorbidities that impact the plan of care;
- An examination of body systems using standardized tests and measures addressing a total of 4 or more elements from any of the following: body structures and functions, activity limitations, and/or participation restrictions;
- A clinical presentation with unstable and unpredictable characteristics; and
- Clinical decision making of high complexity using standardized patient assessment instrument and/or measurable assessment of functional outcome.

Typically, 45 minutes are spent face-to-face with the patient and/or family.

CPT Changes: An Insider's View 2017

CPT Assistant Aug 17:3, May 18:5

 # 97164 Re-evaluation of physical therapy established plan of care, requiring these components:

- An examination including a review of history and use of standardized tests and measures is required; and
- Revised plan of care using a standardized patient assessment instrument and/or measurable assessment of functional outcome

Typically, 20 minutes are spent face-to-face with the patient and/or family.

CPT Changes: An Insider's View 2017

CPT Assistant Aug 17:3, May 18:5

Occupational Therapy Evaluations

Occupational therapy evaluations include an occupational profile, medical and therapy history, relevant assessments, and development of a plan of care, which reflects the therapist's clinical reasoning and interpretation of the data.

Coordination, consultation, and collaboration of care with physicians, other qualified health care professionals, or agencies is provided consistent with the nature of the problem(s) and the needs of the patient, family and/or other caregivers.

At a minimum, each of the following components noted in the code descriptors must be documented, in order to report the selected level of occupational therapy evaluation.

Occupational therapy evaluations include the following components:

- Occupational profile and client history (medical and therapy)
- Assessments of occupational performance
- Clinical decision making
- Development of plan of care

Report 97168 for performance of a re-evaluation that is based on an established and ongoing plan of care.

Definitions

The level of the occupational therapy evaluation performed is determined by patient condition, complexity of clinical decision making, and the scope and nature of the patient's performance deficits relating to physical, cognitive, or psychosocial skills to be assessed. The patient's plan of treatment should reflect assessment of each of the identified performance deficits.

Performance deficits: performance deficits refer to the inability to complete activities due to the lack of skills in one or more of the categories below (ie, relating to physical, cognitive, or psychosocial skills):

- ***Physical skills:*** Physical skills refer to impairments of body structure or body function (eg, balance, mobility, strength, endurance, fine or gross motor coordination, sensation, dexterity).
- ***Cognitive skills:*** Cognitive skills refer to the ability to attend, perceive, think, understand, problem solve, mentally sequence, learn, and remember resulting in the ability to organize occupational performance in a timely and safe manner. These skills are observed when: (1) a person attends to and selects, interacts with, and uses task tools and materials; (2) carries out individual actions and steps; and (3) modifies performance when problems are encountered.
- ***Psychosocial skills:*** Psychosocial skills refer to interpersonal interactions, habits, routines and behaviors, active use of coping strategies, and/or environmental adaptations to develop skills necessary to successfully and appropriately participate in everyday tasks and social situations.

#★ 97165 Occupational therapy evaluation, low complexity, requiring these components:

- An occupational profile and medical and therapy history, which includes a brief history including review of medical and/or therapy records relating to the presenting problem;
- An assessment(s) that identifies 1-3 performance deficits (ie, relating to physical, cognitive, or psychosocial skills) that result in activity limitations and/or participation restrictions; and
- Clinical decision making of low complexity, which includes an analysis of the occupational profile, analysis of data from problem-focused assessment(s), and consideration of a limited number of treatment options. Patient presents with no comorbidities that affect occupational performance. Modification of tasks or assistance (eg, physical or verbal) with assessment(s) is not necessary to enable completion of evaluation component.

Typically, 30 minutes are spent face-to-face with the patient and/or family.

CPT Changes: An Insider's View 2017

CPT Assistant Feb 17:3, May 18:5

#★ 97166 Occupational therapy evaluation, moderate complexity, requiring these components:

- An occupational profile and medical and therapy history, which includes an expanded review of medical and/or therapy records and additional review of physical, cognitive, or psychosocial history related to current functional performance;
- An assessment(s) that identifies 3-5 performance deficits (ie, relating to physical, cognitive, or psychosocial skills) that result in activity limitations and/or participation restrictions; and
- Clinical decision making of moderate analytic complexity, which includes an analysis of the occupational profile, analysis of data from detailed assessment(s), and consideration of several treatment options. Patient may present with comorbidities that affect occupational performance. Minimal to moderate modification of tasks or assistance (eg, physical or verbal) with assessment(s) is necessary to enable patient to complete evaluation component.

Typically, 45 minutes are spent face-to-face with the patient and/or family.

CPT Changes: An Insider's View 2017

CPT Assistant Feb 17:3, May 18:5

 # 97167 Occupational therapy evaluation, high complexity, requiring these components:

- An occupational profile and medical and therapy history, which includes review of medical and/or therapy records and extensive additional review of physical, cognitive, or psychosocial history related to current functional performance;
- An assessment(s) that identifies 5 or more performance deficits (ie, relating to physical, cognitive, or psychosocial skills) that result in activity limitations and/or participation restrictions; and
- Clinical decision making of high analytic complexity, which includes an analysis of the patient profile, analysis of data from comprehensive assessment(s), and consideration of multiple treatment options. Patient presents with comorbidities that affect occupational performance. Significant modification of tasks or assistance (eg, physical or verbal) with assessment(s) is necessary to enable patient to complete evaluation component.

Typically, 60 minutes are spent face-to-face with the patient and/or family.

CPT Changes: An Insider's View 2017

CPT Assistant Feb 17:3, May 18:5

 # 97168 Re-evaluation of occupational therapy established plan of care, requiring these components:

- An assessment of changes in patient functional or medical status with revised plan of care;
- An update to the initial occupational profile to reflect changes in condition or environment that affect future interventions and/or goals; and
- A revised plan of care. A formal reevaluation is performed when there is a documented change in functional status or a significant change to the plan of care is required.

Typically, 30 minutes are spent face-to-face with the patient and/or family.

CPT Changes: An Insider's View 2017

CPT Assistant Feb 17:3, May 18:5

Athletic Training Evaluations

Athletic training evaluations include a patient history and an examination with development of a plan of care, conducted by the physician or other qualified health care professional.

Coordination, consultation, and collaboration of care with physicians, other qualified health care professionals, or agencies is provided consistent with the nature of the problem(s) and the needs of the patient, family, and/or other caregivers.

At a minimum, each of the following components noted in the code descriptors must be documented, in order to report the selected level of athletic training evaluation.

Athletic training evaluations include the following components:

- History and physical activity profile
- Examination
- Clinical decision making
- Development of plan of care

Report 97172 for performance of patient re-evaluation that is based on an established and ongoing plan of care.

Definitions

For the purpose of reporting athletic training evaluations, the body areas and body systems are defined as follows:

Body areas: head, neck, back, lower extremities, upper extremities, and trunk.

Body systems: musculoskeletal, neuromuscular, cardiovascular pulmonary, and integumentary.

The body systems review includes the following:

- For the musculoskeletal system: the assessment of gross symmetry, gross range of motion, gross strength, height, and weight
- For the neuromuscular system: a general assessment of gross coordinated movement (eg, balance, gait, locomotion, transfers, and transitions) and motor function (motor control and motor learning)
- For the cardiovascular pulmonary system: the assessment of heart rate, respiratory rate, blood pressure, and edema
- For the integumentary system: the assessment of pliability (texture), presence of scar formation, skin color, and skin integrity

 # 97169 Athletic training evaluation, low complexity, requiring these components:

- A history and physical activity profile with no comorbidities that affect physical activity;
- An examination of affected body area and other symptomatic or related systems addressing 1-2 elements from any of the following: body structures, physical activity, and/or participation deficiencies; and
- Clinical decision making of low complexity using standardized patient assessment instrument and/or measurable assessment of functional outcome.

Typically, 15 minutes are spent face-to-face with the patient and/or family.

CPT Changes: An Insider's View 2017
CPT Assistant Jun 17:6, May 18:5

 # 97170 Athletic training evaluation, moderate complexity, requiring these components:

- A medical history and physical activity profile with 1-2 comorbidities that affect physical activity;
- An examination of affected body area and other symptomatic or related systems addressing a total of 3 or more elements from any of the following: body structures, physical activity, and/or participation deficiencies; and
- Clinical decision making of moderate complexity using standardized patient assessment instrument and/or measurable assessment of functional outcome.

Typically, 30 minutes are spent face-to-face with the patient and/or family.

CPT Changes: An Insider's View 2017

CPT Assistant Jun 17:6, May 18:5

 # 97171 Athletic training evaluation, high complexity, requiring these components:

- A medical history and physical activity profile, with 3 or more comorbidities that affect physical activity;
- A comprehensive examination of body systems using standardized tests and measures addressing a total of 4 or more elements from any of the following: body structures, physical activity, and/or participation deficiencies;
- Clinical presentation with unstable and unpredictable characteristics; and
- Clinical decision making of high complexity using standardized patient assessment instrument and/or measurable assessment of functional outcome.

Typically, 45 minutes are spent face-to-face with the patient and/or family.

CPT Changes: An Insider's View 2017

CPT Assistant Jun 17:6, May 18:5

 # 97172 Re-evaluation of athletic training established plan of care requiring these components:

- An assessment of patient's current functional status when there is a documented change; and
- A revised plan of care using a standardized patient assessment instrument and/or measurable assessment of functional outcome with an update in management options, goals, and interventions.

Typically, 20 minutes are spent face-to-face with the patient and/or family.

CPT Changes: An Insider's View 2017

CPT Assistant Jun 17:6, May 18:5

Modalities

Any physical agent applied to produce therapeutic changes to biologic tissue; includes but not limited to thermal, acoustic, light, mechanical, or electric energy.

Supervised

The application of a modality that does not require direct (one-on-one) patient contact.

97010 Application of a modality to 1 or more areas; hot or cold packs

CPT Assistant Summer 95:5, Apr 96:11, Nov 97:47, Dec 98:1, Nov 01:5, Aug 02:11, Aug 06:11, Nov 09:10, Jun 10:8, Aug 10:13, Nov 10:8, Jun 16:9, May 18:5, Apr 25:29

97012 traction, mechanical

Therapeutic Procedures

A manner of effecting change through the application of clinical skills and/or services that attempt to improve function.

Physician or other qualified health care professional (eg, therapist) is required to have direct, one-on-one patient contact, except for group therapeutic procedure (97150) and work hardening/conditioning (97545, 97546) that require direct patient contact, but not one-on-one contact.

★ **97110** Therapeutic procedure, 1 or more areas, each 15 minutes; therapeutic exercises to develop strength and endurance, range of motion and flexibility

CPT Assistant Summer 95:7, Feb 97:10, Nov 98:37, Dec 99:11, Mar 05:11, Apr 05:14, Aug 05:11, Dec 05:8, Mar 06:15, Aug 06:11, May 08:13, Dec 09:15, May 10:9, Mar 12:9, Mar 14:15, Aug 14:6, Jun 16:9, Dec 17:15, May 18:5, Dec 18:7, Jun 19:15, Apr 25:29

★ **97112** neuromuscular reeducation of movement, balance, coordination, kinesthetic sense, posture, and/or proprioception for sitting and/or standing activities

CPT Changes: An Insider's View 2002

CPT Assistant Summer 95:7, Feb 97:10, Apr 05:14, Aug 05:11, Mar 06:15, Aug 06:11, May 08:13, Oct 09:10, May 10:9, Mar 12:9, Mar 14:15, May 18:5

97113 aquatic therapy with therapeutic exercises

CPT Assistant Summer 95:7, Feb 97:10, Apr 05:14, Mar 06:15, Aug 06:11, Oct 09:10, May 10:9, Mar 14:15, May 18:5

★ **97116** gait training (includes stair climbing)

CPT Assistant Summer 95:8, Sep 96:7, Feb 97:10, Jun 03:3, Apr 05:14, Mar 06:15, Aug 06:11, Oct 09:10, May 10:9, Mar 14:15, May 18:5

(Use 96000, 96001, 96002 to report comprehensive gait and motion analysis procedures)

(For motor-cognitive, semi-immersive virtual reality–facilitated gait training, use 97116 in conjunction with 0791T)

97124 massage, including effleurage, petrissage and/or tapotement (stroking, compression, percussion)

CPT Assistant Summer 95:8, May 96:10, Feb 97:10, Dec 99:7, Apr 05:14, May 05:14, Mar 06:15, Aug 06:11, Oct 09:10, May 10:9, Mar 14:15, Jun 16:9, May 18:5, Jun 19:15, Jul 20:10

(For myofascial release, use 97140)

97129 Therapeutic interventions that focus on cognitive function (eg, attention, memory, reasoning, executive function, problem solving, and/or pragmatic functioning) and compensatory strategies to manage the performance of an activity (eg, managing time or schedules, initiating, organizing, and sequencing tasks), direct (one-on-one) patient contact; initial 15 minutes

CPT Changes: An Insider's View 2020

CPT Assistant Jul 20:10

(Report 97129 only once per day)

✚ **97130** each additional 15 minutes (List separately in addition to code for primary procedure)

CPT Changes: An Insider's View 2020

CPT Assistant Mar 20:15, Jul 20:10

(Use 97130 in conjunction with 97129)

(Do not report 97129, 97130 in conjunction with 97153, 97155)

97139 Unlisted therapeutic procedure (specify)

CPT Assistant Summer 95:8, Feb 97:10, Apr 05:14, Aug 06:11, Mar 14:15, May 18:5

Clinical Examples in Radiology Summer 18:9

97140 Manual therapy techniques (eg, mobilization/manipulation, manual lymphatic drainage, manual traction), 1 or more regions, each 15 minutes

(Use 97546 in conjunction with 97545)

Caregiver Training Without the Patient Present

Caregiver training is direct, skilled intervention for the caregiver(s) to provide strategies and techniques to equip caregiver(s) with knowledge and skills to assist patients living with functional deficits. Codes 97550, 97551 are used to report the total duration of face-to-face time spent by the qualified health care professional providing training to the caregiver(s) of an individual patient without the patient present. Code 97552 is used to report group caregiver training provided to multiple sets of caregivers for multiple patients with similar conditions or therapeutic needs without the patient present.

During a skilled intervention, the caregiver(s) is trained using verbal instructions, video and live demonstrations, and feedback from the qualified health care professional on the use of strategies and techniques to facilitate functional performance and safety in the home or community without the patient present. Skilled training supports a caregiver's understanding of the patient's treatment plan, ability to engage in activities with the patient in between treatment sessions, and knowledge of external resources to assist in areas such as activities of daily living (ADLs), transfers, mobility, safety practices, problem solving, and communication.

These services do not represent therapeutic interventions requiring direct one-to-one patient contact.

97550 Caregiver training in strategies and techniques to facilitate the patient's functional performance in the home or community (eg, activities of daily living [ADLs], instrumental ADLs [iADLs], transfers, mobility, communication, swallowing, feeding, problem solving, safety practices) (without the patient present), face to face; initial 30 minutes

- *CPT Changes: An Insider's View* 2024
- *CPT Assistant* Nov 23:1, Jan 25:1

+ 97551 each additional 15 minutes (List separately in addition to code for primary service)

- *CPT Changes: An Insider's View* 2024
- *CPT Assistant* Nov 23:1, Jan 25:1

(Use 97551 in conjunction with 97550)

97552 Group caregiver training in strategies and techniques to facilitate the patient's functional performance in the home or community (eg, activities of daily living [ADLs], instrumental ADLs [iADLs], transfers, mobility, communication, swallowing, feeding, problem solving, safety practices) (without the patient present), face to face with multiple sets of caregivers

- *CPT Changes: An Insider's View* 2024
- *CPT Assistant* Nov 23:1, Jan 25:1

Active Wound Care Management

Active wound care procedures are performed to remove devitalized and/or necrotic tissue and promote healing. Chemical cauterization (17250) to achieve wound hemostasis is included in active wound care procedures (97597, 97598, 97602) and should not be separately reported for the same lesion. Services require direct (one-on-one) contact with the patient.

(Do not report 97597-97602 in conjunction with 11042-11047 for the same wound)

(For debridement of burn wounds, see 16020-16030)

97597 Debridement (eg, high pressure waterjet with/without suction, sharp selective debridement with scissors, scalpel and forceps), open wound, (eg, fibrin, devitalized epidermis and/or dermis, exudate, debris, biofilm), including topical application(s), wound assessment, use of a whirlpool, when performed and instruction(s) for ongoing care, per session, total wound(s) surface area; first 20 sq cm or less

- *CPT Changes: An Insider's View* 2005, 2011

CPT Assistant Apr 03:10, Nov 03:1, Feb 09:13, Jul 20:7

★ **97804** group (2 or more individual(s)), each 30 minutes

CPT Changes: An Insider's View 2001, 2017

CPT Assistant Apr 03:10, Nov 03:1, Feb 09:13, Jul 20:7

(Physicians and other qualified health care professionals who may report evaluation and management services should use the appropriate evaluation and management codes)

Acupuncture

Acupuncture is reported based on 15-minute increments of personal (face-to-face) contact with the patient, not the duration of acupuncture needle(s) placement.

If no electrical stimulation is used during a 15-minute increment, use 97810, 97811. If electrical stimulation of any needle is used during a 15-minute increment, use 97813, 97814.

Only one code may be reported for each 15-minute increment. Use either 97810 or 97813 for the initial 15-minute increment. Only one initial code is reported per day.

Evaluation and management services may be reported in addition to acupuncture procedures, when performed by physicians or other health care professionals who may report evaluation and management (E/M) services, including new or established patient office or other outpatient services (99202-99215), hospital inpatient or observation care (99221-99223, 99231-99233), office or other outpatient consultations (99242, 99243, 99244, 99245), inpatient or observation consultations (99252, 99253, 99254, 99255), critical care services (99291, 99292), inpatient neonatal intensive care services and pediatric and neonatal critical care services (99466-99480), emergency department services (99281-99285), nursing facility services (99304-99316), and home or residence services (99341-99350), separately using modifier 25 if the patient's condition requires a significant, separately identifiable E/M service above and beyond the usual preservice and postservice work associated with the acupuncture services. The time of the E/M service is not included in the time of the acupuncture service.

For needle insertion(s) without injection(s) (eg, dry needling, trigger point acupuncture), see 20560, 20561.

97810 Acupuncture, 1 or more needles; without electrical stimulation, initial 15 minutes of personal one-on-one contact with the patient

CPT Changes: An Insider's View 2005

CPT Assistant Jan 05:16-17, Jun 05:5, Jun 06:20, Aug 06:4, Feb 20:9, Feb 24:35

(Do not report 97810 in conjunction with 97813)

+ **97811** without electrical stimulation, each additional 15 minutes of personal one-on-one contact with the patient, with insertion of needle(s) (List separately in addition to code for primary procedure)

Osteopathic Manipulative Treatment

Osteopathic manipulative treatment (OMT) is a form of manual treatment applied by a physician or other qualified health care professional to eliminate or alleviate somatic dysfunction and related disorders. This treatment may be accomplished by a variety of techniques.

Evaluation and management (E/M) services, including new or established patient office or other outpatient services (99202-99215), initial and subsequent hospital inpatient or observation care (99221-99223, 99231-99233), critical care services (99291, 99292), hospital inpatient or observation care services (including admission and discharge services 99234-99236), office or other outpatient consultations (99242, 99243, 99244, 99245), emergency department services (99281-99285), nursing facility services (99304-99316), and home or residence services (99341-99350), may be reported separately using modifier 25 if the patient's condition requires a significant, separately identifiable E/M service above and beyond the usual preservice and postservice work associated with the procedure. The E/M service may be caused or prompted by the same symptoms or condition for which the OMT service was provided. As such, different diagnoses are not required for the reporting of the OMT and E/M service on the same date.

Body regions referred to are: head region; cervical region; thoracic region; lumbar region; sacral region; pelvic region; lower extremities; upper extremities; rib cage region; abdomen and viscera region.

98925 Osteopathic manipulative treatment (OMT); 1-2 body regions involved

CPT Assistant May 96:10, Jan 97:8, 10, Jul 98:10, Aug 00:11, Dec 00:15, Oct 09:10, Dec 17:15, Aug 18:9

CPT Assistant May 96:10, Jan 97:8, 10, Aug 00:11, Oct 09:10, Aug 18:9

Chiropractic Manipulative Treatment

Chiropractic manipulative treatment (CMT) is a form of manual treatment to influence joint and neurophysiological function. This treatment may be accomplished using a variety of techniques.

The chiropractic manipulative treatment codes include a pre-manipulation patient assessment. Additional evaluation and management (E/M) services, including office or other outpatient services (99202-99215), subsequent hospital inpatient or observation care (99231-99233), office or other outpatient consultations (99242, 99243, 99244, 99245), subsequent nursing facility services (99307-99310), and home or residence services (99341-99350), may be reported separately using modifier 25 if the patient's condition requires a significant, separately identifiable E/M service above and beyond the usual preservice and postservice work associated with the procedure. The E/M service may be caused or prompted by the same symptoms or condition for which the CMT service was provided. As such, different diagnoses are not required for the reporting of the CMT and E/M service on the same date.

For purposes of CMT, the five spinal regions referred to are: cervical region (includes atlanto-occipital joint); thoracic region (includes costovertebral and costotransverse joints); lumbar region; sacral region; and pelvic (sacro-iliac joint) region. The five extraspinal regions referred to are: head (including temporomandibular joint, excluding atlanto-occipital) region; lower extremities; upper extremities; rib cage (excluding costotransverse and costovertebral joints) and abdomen.

98940 Chiropractic manipulative treatment (CMT); spinal, 1-2 regions

Education and Training for Patient Self-Management

The following codes are used to report educational and training services prescribed by a physician or other qualified health care professional and provided by a nonphysician qualified health care professional using a standardized curriculum to an individual or a group of patients for the treatment of established illness(s)/disease(s) or to delay comorbidity(s). Education and training for patient self-management may be reported with these codes only when using a standardized curriculum as described below. This curriculum may be modified as necessary for the clinical needs, cultural norms, and health literacy of the individual patient(s).

The purpose of the educational and training services is to teach the patient (may include caregiver[s]) how to effectively self-manage the patient's illness(s)/disease(s) or delay disease comorbidity(s) in conjunction with the patient's professional healthcare team. Education and training related to subsequent reinforcement or due to changes in the patient's condition or treatment plan are reported in the same manner as the original education and training. The type of education and training provided for the patient's clinical condition will be identified by the appropriate diagnosis code(s) reported.

The qualifications of the nonphysician qualified health care professionals and the content of the educational and training program must be consistent with guidelines or standards established or recognized by a physician society, nonphysician health care professional society/association, or other appropriate source.

(For counseling and education provided by a physician to an individual, see the appropriate evaluation and management codes, including synchronous audio-video visits [98000, 98001, 98002, 98003, 98004, 98005, 98006, 98007], synchronous audio-only visits [98008, 98009, 98010, 98011, 98012, 98013, 98014, 98015], office or other outpatient services [99202-99215], initial and subsequent hospital inpatient or observation care [99221-99223, 99231-99233, 99234, 99235, 99236], new or established patient office or other outpatient consultations [99242, 99243, 99244, 99245], inpatient or observation consultations [99252, 99253, 99254, 99255], emergency department services [99281-99285], nursing facility services [99304-99316], home or residence services [99341-99350], and counseling risk factor reduction and behavior change intervention [99401-99429]. See also **Instructions for Use of the CPT Codebook** for definition of reporting qualifications)

(For counseling and education provided by a physician to a group, use 99078)

(For counseling and/or risk factor reduction intervention provided by a physician to patient[s] without symptoms or established disease, see 99401-99412)

(For medical nutrition therapy, see 97802-97804)

(For health behavior assessment and intervention that is not part of a standardized curriculum, see 96156, 96158, 96159, 96164, 96165, 96167, 96168, 96170, 96171)

(For education provided as genetic counseling services, use 96041. For education to a group regarding genetic risks, see 98961, 98962)

★ **98960** Education and training for patient self-management by a nonphysician qualified health care professional using a standardized curriculum, face-to-face with the patient (could include caregiver/family) each 30 minutes; individual patient

Non-Face-to-Face Nonphysician Qualified Health Care Professional Services

Telephone Services

Telephone services are non-face-to-face assessment and management services provided by a nonphysician qualified health care professional to a patient using the telephone. These codes are used to report episodes of care by the qualified health care professional initiated by an established patient or guardian of an established patient. If the telephone service ends with a decision to see the patient within 24 hours or the next available urgent visit appointment, the code is not reported; rather the encounter is considered part of the preservice work of the subsequent assessment and management service, procedure, and visit. Likewise, if the telephone call refers to a service performed and reported by the qualified health care professional within the previous seven days (either qualified health care professional requested or unsolicited patient follow-up) or within the postoperative period of the previously completed procedure, then the service(s) are considered part of that previous service or procedure. (Do not report 98966-98968 if reporting 98966-98968 performed in the previous seven days.)

(For brief communication technology-based service [eg, virtual check-in] by a physician or other QHP for an established patient, 5-10 minutes of medical discussion, use 98016)

(For synchronous audio-only visit for evaluation and management of a new patient, see 98008, 98009, 98010, 98011. For synchronous audio-only visit for evaluation and management of an established patient, see 98012, 98013, 98014, 98015)

98966 Telephone assessment and management service provided by a nonphysician qualified health care professional to an established patient, parent, or guardian not originating from a related assessment and management service provided within the previous 7 days nor leading to an assessment and management service or procedure within the next 24 hours or soonest available appointment; 5-10 minutes of medical discussion

- *CPT Assistant* Apr 13:3, Oct 13:11, Mar 18:7, Feb 25:12

Nonphysician Qualified Health Care Professional Online Digital Assessment and Management Service

Nonphysician qualified health care professional online digital assessment and management services are patient-initiated digital services that require patient evaluation and decision making to generate an assessment and subsequent management of the patient. These services are not for the nonevaluative electronic communication of test results, scheduling of appointments, or other communication that does not include assessment and management. While the patient's problem may be new, the patient is an established patient. Patients initiate these services through Health Insurance Portability and Accountability Act (HIPAA)-compliant, secure platforms, such as through the electronic health record (EHR) portal, email, or other digital applications, which allow digital communication.

Nonphysician qualified health care professional online digital assessments are reported once for the nonphysician qualified health care professional's cumulative time devoted to the service during a seven-day period. The seven-day period begins with the personal review of the patient-generated inquiry. The cumulative service time includes review of the initial inquiry, review of patient records or data pertinent to assessment of the patient's problem, personal interaction with clinical staff focused on the patient's problem, development of management plans, including the generation of prescriptions or ordering of tests, and subsequent communication with the patient through online, telephone, email, or other digitally supported communication. All nonphysician qualified health care professionals in the same group practice who are involved in an online digital assessment contribute to the cumulative service time devoted to the patient's online digital assessment. The online digital assessments require visit documentation and permanent storage (electronic or hard copy) of the encounter.

If the patient generates the initial online digital inquiry within seven days of a previous treatment or assessment and management service and both services relate to the same problem, or the online digital inquiry occurs within the postoperative period of a previously completed procedure, then the online digital assessment may not be reported separately. If the patient generates an initial online digital inquiry for a new problem within seven days of a previous service that addressed a different problem, then the online digital assessment is reported separately. If a separately reported evaluation service occurs within seven days of the initial review of the online digital assessment, codes 98970, 98971, 98972 may not be reported. If the patient presents a new, unrelated problem during the seven-day period of an online digital assessment, then the time spent assessing the additional problem is added to the cumulative service time of the online digital assessment for that seven-day period.

(Do not report an assessment and management service within 7 days of reporting an online digital assessment and management treatment and/or service)

(For an online digital E/M service provided by a physician or other qualified health care professional, see 99421, 99422, 99423)

98970 Nonphysician qualified health care professional online digital assessment and management, for an established patient, for up to 7 days, cumulative time during the 7 days; 5-10 minutes

98972 21 or more minutes

- *CPT Changes: An Insider's View* 2020, 2025
- *CPT Assistant* Jan 20:3, Mar 20:6, Sep 21:3, Feb 25:12

(Report 98970, 98971, 98972 once per 7-day period)

(Do not report online digital assessment and management services for cumulative visit time less than 5 minutes)

(Do not count 98970, 98971, 98972 time otherwise reported with other services)

(Do not report 98970, 98971, 98972 for home and outpatient INR monitoring when reporting 93792, 93793)

(Do not report 98970, 98971, 98972 when using 99091, 99374, 99375, 99377, 99378, 99379, 99380, 99426, 99427, 99437, 99439, 99487, 99489, 99490, 99491, for the same communication[s])

Remote Therapeutic Monitoring Services

Remote therapeutic monitoring services (eg, musculoskeletal system status, respiratory system status, cognitive behavioral therapy, therapy adherence, therapy response) represent the review and monitoring of data related to signs, symptoms, and functions of a therapeutic response. These data may represent objective device-generated integrated data or subjective inputs reported by a patient. These data are reflective of therapeutic responses that provide a functionally integrative representation of patient status.

►Codes 98976, 98977, 98978, 98984, 98985, 98986 are used to report remote therapeutic monitoring services during a 30-day period. To report 98975, 98976, 98977, 98978, 98984, 98985, 98986, the service(s) must be ordered by a physician or other qualified health care professional. Code 98975 may be used to report the set up and patient education on the use of any device(s) utilized for therapeutic data collection generated through digital monitoring or digital therapy. Codes 98976, 98977, 98978, 98984, 98985, 98986 may be used to report supply of the device(s) for data access or data transmissions to support monitoring. To report 98975, 98976, 98977, 98978, 98984, 98985, 98986, the device used must be a medical device as defined by the FDA. In addition to its monitoring functionality, the device may also provide a therapeutic intervention. Codes 98975, 98984, 98985, 98986 are not reported if cumulative monitoring is less than 2 days in a 30-day period. Codes 98976, 98977, 98978 are not reported if cumulative monitoring is less than 16 days in a 30-day period. Do not report 98975, 98976, 98977, 98978, 98984, 98985, 98986 with other physiologic monitoring services (eg, 95250 for continuous glucose monitoring requiring a minimum of 72 hours of monitoring or 99445, 99453, 99454 for remote monitoring of physiologic parameter[s]).◄

Code 98975 is reported for each episode of care. For reporting remote therapeutic monitoring parameters, an episode of care is defined as beginning when the remote therapeutic monitoring service is initiated and ends with attainment of targeted treatment goals.

98975 Remote therapeutic monitoring (eg, therapy adherence, therapy response, digital therapeutic intervention); initial set-up and patient education on use of equipment

(For self-measured blood pressure monitoring, see 99473, 99474)

Remote Therapeutic Monitoring Treatment Management Services

►Remote therapeutic monitoring treatment management services are provided when a physician or other qualified health care professional uses the results of remote therapeutic monitoring to manage a patient under a specific treatment plan. To report remote therapeutic monitoring, the service must be ordered by a physician or other qualified health care professional. To report 98979, 98980, 98981, any device used must be a medical device as defined by the FDA. Do not use 98979, 98980, 98981 for time that can be reported using codes for more specific monitoring services. Codes 98979, 98980, 98981 may be reported during the same service period as chronic care management services (99439, 99487, 99489, 99490, 99491), transitional care management services (99495, 99496), principal care management services (99424, 99425, 99426, 99427), behavioral health integration services (99484), psychotherapy services (90832-90853), health behavior assessment and intervention services (96156, 96158, 96159, 96160, 96161, 96164, 96165, 96167, 96168, 96170, 96171), and psychiatric collaborative care services (99492, 99493, 99494). However, time spent performing these services should remain separate and no time should be counted toward the required time for both services in a single month. Codes 98979, 98980, 98981 require at least one real-time interactive communication with the patient or caregiver. The interactive communication contributes to the total time, but it does not need to represent the entire cumulative reported time of the treatment management service. For the first completed 10 minutes of physician or other qualified health care professional time in a calendar month, report 98979. For the first completed 20 minutes of physician or other qualified health care professional time in a calendar month, report 98980, and report 98981 for each additional completed 20 minutes. Do not report 98979 for services of less than 10 minutes. Do not report 98980, 98981 for services of less than 20 minutes. Report 98979, 98980 once, regardless of the number of therapeutic monitoring modalities performed in a given calendar month. Do not report 98979 if less than 10 minutes of professional time is spent in a calendar month.◄

Do not count any time on a day when the physician or other qualified health care professional reports an E/M service (synchronous audio-video visits [98000, 98001, 98002, 98003, 98004, 98005, 98006, 98007], synchronous audio-only visits [98008, 98009, 98010, 98011, 98012, 98013, 98014, 98015], brief communication technology-based services [98016], office or other outpatient services [99202, 99203, 99204, 99205, 99211, 99212, 99213, 99214, 99215], home or residence services [99341, 99342, 99344, 99345, 99347, 99348, 99349, 99350], inpatient or observation care services [99221, 99222, 99223, 99231, 99232, 99233, 99234, 99235, 99236], inpatient consultations [99252, 99253, 99254, 99255]).

Do not count any time directly related to other reported services (eg, psychotherapy services [90832, 90833, 90834, 90836, 90837, 90838], interrogation device evaluation services [93290], anticoagulant management services [93793], respiratory monitoring services [94774, 94775, 94776, 94777], health behavior assessment and intervention services [96156, 96158, 96159, 96160, 96161, 96164, 96165, 96167, 96168, 96170, 96171], therapeutic interventions that focus on cognitive function services [97129, 97130], adaptive behavior treatment services [97153, 97154, 97155, 97156, 97157, 97158], therapeutic procedures [97110, 97112, 97116, 97530, 97535], tests and measurements [97750, 97755], physical therapy evaluation services [97161, 97162, 97163, 97164], occupational therapy evaluations [97165, 97166, 97167, 97168], orthotic management and training and prosthetic training services [97760, 97761, 97763], medical nutrition therapy services [97802, 97803, 97804], medication therapy management services [99605, 99606, 99607], critical care services [99291, 99292], principal care management services [99424, 99425, 99426, 99427]) in the cumulative time of the remote therapeutic monitoring treatment management service during the calendar month of reporting.

►Time Spent in a Calendar Month for Remote Therapeutic Monitoring Treatment Management Services	Code(s) Reported
0-9 minutes	Not reported separately
10-19 minutes	98979 X 1
20-39 minutes	98980 X 1
40-59 minutes	98980 X 1 and 98981 X 1
60 minutes or more	98980 X 1 and 98981 X 2 or more for each additional 20 minutes◄

● **98979** Remote therapeutic monitoring treatment management services, physician or other qualified health care professional time in a calendar month requiring at least 1 real-time interactive communication with the patient or caregiver during the calendar month; first 10 minutes

(Do not report 98981 for services of less than an additional increment of 20 minutes)

98984 Code is out of numerical sequence. See 98972-98980

98985 Code is out of numerical sequence. See 98972-98980

98986 Code is out of numerical sequence. See 98972-98980

Special Services, Procedures and Reports

The procedures with code numbers 99000 through 99082 provide the reporting physician or other qualified health care professional with the means of identifying the completion of special reports and services that are an adjunct to the basic services rendered. The specific number assigned indicates the special circumstances under which a basic procedure is performed.

Codes 99050-99060 are reported in addition to an associated basic service. Do not append modifier 51 to 99050-99060. Typically only a single adjunct code from among 99050-99060 would be reported per patient encounter. However, there may be circumstances in which reporting multiple adjunct codes per patient encounter may be appropriate.

Miscellaneous Services

99000 Handling and/or conveyance of specimen for transfer from the office to a laboratory

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Winter 94:26, Feb 99:10, Oct 99:11, May 02:19, Aug 06:6, Sep 06:15, Jan 07:30

99001 Handling and/or conveyance of specimen for transfer from the patient in other than an office to a laboratory (distance may be indicated)

- *CPT Assistant* Winter 94:26, May 02:19, Aug 06:6, Sep 06:15, Jan 07:30

99002 Handling, conveyance, and/or any other service in connection with the implementation of an order involving devices (eg, designing, fitting, packaging, handling, delivery or mailing) when devices such as orthotics, protectives, prosthetics are fabricated by an outside laboratory or shop but which items have been designed, and are to be fitted and adjusted by the attending physician or other qualified health care professional

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Winter 94:26, May 02:19, Aug 06:6, Sep 06:15, Jan 07:30

(For routine collection of venous blood, use 36415)

99024 Postoperative follow-up visit, normally included in the surgical package, to indicate that an evaluation and management service was performed during a postoperative period for a reason(s) related to the original procedure

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Winter 94:26, Sep 97:10, Aug 98:5, May 02:19, Nov 03:13, Aug 06:6, Sep 06:15, Jan 07:30, Mar 15:3, Jan 17:3, Jul 17:9

(As a component of a surgical "package," see **Surgery Guidelines**)

99026 Hospital mandated on call service; in-hospital, each hour

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Jun 03:10, Aug 06:6, Sep 06:15, Jan 07:30

99027 out-of-hospital, each hour

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Jun 03:10, Aug 06:6, Sep 06:15, Jan 07:30

(For standby services requiring prolonged attendance, use 99360, as appropriate. Time spent performing separately reportable procedure(s) or service(s) should not be included in the time reported as mandated on-call service)

99050 Services provided in the office at times other than regularly scheduled office hours, or days when the office is normally closed (eg, holidays, Saturday or Sunday), in addition to basic service

- *CPT Changes: An Insider's View* 2004, 2006
- *CPT Assistant* Winter 94:27, May 02:19, Jun 03:10, May 06:18, Aug 06:6, Sep 06:15, Jan 07:30, Aug 10:9

99051 Service(s) provided in the office during regularly scheduled evening, weekend, or holiday office hours, in addition to basic service

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* May 06:18, Aug 06:6, Sep 06:15, Jan 07:30, Aug 10:9

99053 Service(s) provided between 10:00 PM and 8:00 AM at 24-hour facility, in addition to basic service

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* May 06:18, Aug 06:6, Sep 06:15, Jan 07:30

99056 Service(s) typically provided in the office, provided out of the office at request of patient, in addition to basic service

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Winter 94:27, May 02:19, May 06:18, Aug 06:6, Sep 06:15, Jan 07:30

99058 Service(s) provided on an emergency basis in the office, which disrupts other scheduled office services, in addition to basic service

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Winter 94:27, May 02:19, May 06:18, Aug 06:6, Sep 06:15, Jan 07:30, Aug 10:9

99060 Service(s) provided on an emergency basis, out of the office, which disrupts other scheduled office services, in addition to basic service

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* May 06:18, Aug 06:6, Sep 06:15, Jan 07:30

99070 Supplies and materials (except spectacles), provided by the physician or other qualified health care professional over and above those usually included with the office visit or other services rendered (list drugs, trays, supplies, or materials provided)

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Winter 94:28, May 98:10, Jun 99:10, Jun 00:11, Jul 01:2, May 02:19, Aug 02:11, Jun 05:1, Jul 06:1, Aug 06:6, Sep 06:15, Jan 07:30-31, Feb 07:8, Sep 08:11, May 09:8, Sep 09:5, May 10:10, Jun 10:8, Sep 10:11, Apr 12:10, Nov 12:11, Mar 13:6, Dec 13:12, Mar 14:11, Jan 17:6, Sep 17:15, Jan 18:3, Mar 18:7, Jun 18:11, Apr 19:11, Jan 21:7

(For supply of spectacles, use the appropriate supply codes)

(For additional supplies, materials, and clinical staff time required during a Public Health Emergency, as defined by law, due to respiratory-transmitted infectious disease, use 99072)

99071 Educational supplies, such as books, tapes, and pamphlets, for the patient's education at cost to physician or other qualified health care professional

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Winter 94:28, May 02:19, Aug 06:6, Sep 06:15, Jan 07:30, Apr 13:3, Nov 13:3, Oct 14:3

Code 99072 is used to report the additional supplies, materials, and clinical staff time over and above the practice expense(s) included in an office visit or other non-facility service(s) when the office visit or other non-facility service(s) is rendered during a Public Health Emergency (PHE), as defined by law, due to respiratory-transmitted infectious disease. These required additional supplies, materials, and clinical staff time are intended to mitigate the transmission of the respiratory disease for which the PHE was declared. These include, but are not limited to, additional supplies, such as face masks and cleaning supplies, as well as clinical staff time for activities such as pre-visit instructions and office arrival symptom checks that support the safe provision of evaluation, treatment, or procedural service(s) during the respiratory infection–focused PHE. When reporting 99072, report only once per in-person patient encounter per day regardless of the number of services rendered at that encounter. Code 99072 may be reported during a PHE when the additional clinical staff duties as described are performed by the physician or other qualified health care professional in lieu of clinical staff.

99072 Additional supplies, materials, and clinical staff time over and above those usually included in an office visit or other non-facility service(s), when performed during a Public Health Emergency, as defined by law, due to respiratory-transmitted infectious disease

- *CPT Changes: An Insider's View* 2022
- *CPT Assistant* May 21:7, Jan 22:12, Jun 23:28

99075 Medical testimony

- *CPT Assistant* Winter 94:28, May 02:19, Aug 06:6, Sep 06:15, Jan 07:30

99078 Physician or other qualified health care professional qualified by education, training, licensure/regulation (when applicable) educational services rendered to patients in a group setting (eg, prenatal, obesity, or diabetic instructions)

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Winter 94:28, Jan 98:12, May 02:19, Aug 06:6, Sep 06:15, Jan 07:30, Aug 07:9, Apr 13:3, Nov 13:3, Oct 14:3

99080 Special reports such as insurance forms, more than the information conveyed in the usual medical communications or standard reporting form

- *CPT Assistant* Winter 94:28, May 02:19, Aug 06:6, Sep 06:15, Jan 07:30, Apr 13:3, Nov 13:3, Oct 14:3

(Do not report 99080 in conjunction with 99455, 99456 for the completion of Workmen's Compensation forms)

99082 Unusual travel (eg, transportation and escort of patient)

- *CPT Assistant* May 02:19, Jan 03:24, Nov 03:14, Aug 06:6, Sep 06:15, Jan 07:30

99091 Code is out of numerical sequence. See 99448-99455

Qualifying Circumstances for Anesthesia

(For explanation of these services, see **Anesthesia Guidelines**)

+ 99100 Anesthesia for patient of extreme age, younger than 1 year and older than 70 (List separately in addition to code for primary anesthesia procedure)

➔ *CPT Assistant* Apr 08:3, Dec 17:8, Oct 19:10, Apr 25:26

(For procedure performed on infants younger than 1 year of age at time of surgery, see 00326, 00561, 00834, 00836)

+ 99116 Anesthesia complicated by utilization of total body hypothermia (List separately in addition to code for primary anesthesia procedure)

➔ *CPT Assistant* Apr 08:3, Dec 17:8, Oct 19:10

+ 99135 Anesthesia complicated by utilization of controlled hypotension (List separately in addition to code for primary anesthesia procedure)

➔ *CPT Assistant* Apr 08:3, Dec 17:8, Oct 19:10

+ 99140 Anesthesia complicated by emergency conditions (specify) (List separately in addition to code for primary anesthesia procedure)

➔ *CPT Assistant* Mar 01:10, Apr 08:3, Dec 17:8, Oct 19:10

(An emergency is defined as existing when delay in treatment of the patient would lead to a significant increase in the threat to life or body part)

Moderate (Conscious) Sedation

Moderate (also known as conscious) sedation is a drug-induced depression of consciousness during which patients respond purposefully to verbal commands, either alone or accompanied by light tactile stimulation. No interventions are required to maintain cardiovascular function or a patent airway, and spontaneous ventilation is adequate.

Moderate sedation codes 99151, 99152, 99153, 99155, 99156, 99157 are not used to report administration of medications for pain control, minimal sedation (anxiolysis), deep sedation, or monitored anesthesia care (00100-01999).

For purposes of reporting, intraservice time of moderate sedation is used to select the appropriate code(s). The following definitions are used to determine intraservice time (compared to pre- and postservice time).

An independent trained observer is an individual who is qualified to monitor the patient during the procedure, who has no other duties (eg, assisting at surgery) during the procedure.

Preservice Work

The preservice activities required for moderate sedation are included in the work described by each of these codes (99151, 99152, 99153, 99155, 99156, 99157) and are not reported separately. The following preservice work components are not included when determining intra-service time for reporting:

- Assessment of the patient's past medical and surgical history with particular emphasis on cardiovascular, pulmonary, airway, or neurological conditions;
- Review of the patient's previous experiences with anesthesia and/or sedation;
- Family history of sedation complications;
- Summary of the patient's present medication list;
- Drug allergy and intolerance history;
- Focused physical examination of the patient with emphasis on:
- Mouth, jaw, oropharynx, neck and airway for Mallampati score assessment;
- Chest and lungs;

- Heart and circulation;

- Vital signs, including heart rate, respiratory rate, blood pressure, and oxygenation with end tidal CO_2 when indicated;
- Review of any pre-sedation diagnostic tests;
- Completion of a pre-sedation assessment form (with an American Society of Anesthesiologists [ASA] Physical Status classification);
- Patient informed consent;

		Moderate Sedation (MS) provided by physician or other qualified health care professional (same physician or qualified health care professional also performing the procedure MS is supporting)	MS provided by different physician or other qualified health care professional (not the physician or qualified health care professional who Is performing the procedure MS is supporting)
Total Intraservice Time for Moderate Sedation	**Patient Age**	**Code(s)**	**Code(s)**
Less than 10 minutes	Any age	Not reported separately	Not reported separately
10-22 minutes	< 5 years	99151	99155
10-22 minutes	5 years or older	99152	99156
23-37 minutes	< 5 years	99151 + 99153 X 1	99155 + 99157 X 1
23-37 minutes	5 years or older	99152 + 99153 X 1	99156 + 99157 X 1
38-52 minutes	< 5 years	99151 + 99153 X 2	99155 + 99157 X 2
38-52 minutes	5 years or older	99152 + 99153 X 2	99156 + 99157 X 2
53-67 minutes (53 min. - 1 hr. 7 min.)	< 5 years	99151 + 99153 X 3	99155 + 99157 X 3
53-67 minutes (53 min. - 1 hr. 7 min.)	5 years or older	99152 + 99153 X 3	99156 + 99157 X 3
68-82 minutes (1 hr. 8 min. - 1 hr. 22 min.)	< 5 years	99151 + 99153 X 4	99155 + 99157 X 4
68-82 minutes (1 hr. 8 min. - 1 hr. 22 min.)	5 years or older	99152 + 99153 X 4	99156 + 99157 X 4
83 minutes or longer (1 hr. 23 min. - etc.)	< 5 years	99153	Add 99157
83 minutes or longer (1 hr. 23 min. - etc.)	5 years or older	Add 99153	Add 99157

- Immediate pre-sedation assessment prior to first sedating doses; and
- Initiation of IV access and fluids to maintain patency.

Intraservice Work

Intraservice time is used to determine the appropriate CPT code to report moderate sedation services:

- Begins with the administration of the sedating agent(s);
- Ends when the procedure is completed, the patient is stable for recovery status, and the physician or other qualified health care professional providing the sedation ends personal continuous face-to-face time with the patient;
- Includes ordering and/or administering the initial and subsequent doses of sedating agents;
- Requires continuous face-to-face attendance of the physician or other qualified health care professional;
- Requires monitoring patient response to the sedating agents, including:
  - Periodic assessment of the patient;
  - Further administration of agent(s) as needed to maintain sedation; and
  - Monitoring of oxygen saturation, heart rate, and blood pressure.

If the physician or other qualified health care professional who provides the sedation services also performs the procedure supported by sedation (99151, 99152, 99153), the physician or other qualified health care professional will supervise and direct an independent trained observer who will assist in monitoring the patient's level of consciousness and physiological status throughout the procedure.

Postservice Work

The postservice activities required for moderate sedation are included in the work described by each of these codes (99151, 99152, 99153, 99155, 99156, 99157) and are not reported separately. Once continuous face-to-face time with the patient has ended, additional face-to-face time with the patient is not added to the intraservice time, however, it is considered as part of the postservice work. The following postservice work components are not included, when determining intraservice time for reporting:

- Assessment of the patient's vital signs, level of consciousness, neurological, cardiovascular, and pulmonary stability in the post-sedation recovery period;
- Assessment of the patient's readiness for discharge following the procedure;
- Preparation of documentation regarding sedation service; and
- Communication with family/caregiver regarding sedation service.

Postservice work/times are not used to select the appropriate code.

Do not report 99151, 99152, 99153, 99155, 99156, 99157 in conjunction with 94760, 94761, 94762.

Codes 99151, 99152, 99155, 99156 are reported for the first 15 minutes of intraservice time providing moderate sedation. Codes 99153, 99157 are reported for each additional 15 minutes, in addition to the code for the primary service.

⦸ **99151** Moderate sedation services provided by the same physician or other qualified health care professional performing the diagnostic or therapeutic service that the sedation supports, requiring the presence of an independent trained observer to assist in the monitoring of the patient's level of consciousness and physiological status; initial 15 minutes of intraservice time, patient younger than 5 years of age

(Do not report 99157 in conjunction with 99151, 99152)

Other Services and Procedures

99170 Anogenital examination, magnified, in childhood for suspected trauma, including image recording when performed

- *CPT Changes: An Insider's View* 2014
- *CPT Assistant* Nov 99:55, Apr 06:1, Sep 14:7

(For moderate sedation, see 99151, 99152, 99153, 99155, 99156, 99157)

99172 Visual function screening, automated or semi-automated bilateral quantitative determination of visual acuity, ocular alignment, color vision by pseudoisochromatic plates, and field of vision (may include all or some screening of the determination[s] for contrast sensitivity, vision under glare)

- *CPT Changes: An Insider's View* 2001
- *CPT Assistant* Feb 01:7, Mar 05:1, 3

(This service must employ graduated visual acuity stimuli that allow a quantitative determination of visual acuity [eg, Snellen chart]. This service may not be used in addition to a general ophthalmological service or an E/M service)

(Do not report 99172 in conjunction with 99173, 99174, 99177, 0469T)

99173 Screening test of visual acuity, quantitative, bilateral

- *CPT Changes: An Insider's View* 2000
- *CPT Assistant* Nov 99:55, May 02:2, Mar 05:1, 3

(The screening test used must employ graduated visual acuity stimuli that allow a quantitative estimate of visual acuity [eg, Snellen chart]. Other identifiable services unrelated to this screening test provided at the same time may be reported separately [eg, preventive medicine services]. When acuity is measured as part of a general ophthalmological service or of an E/M service of the eye, it is a diagnostic examination and not a screening test.)

(Do not report 99173 in conjunction with 99172, 99174, 99177)

99174 Instrument-based ocular screening (eg, photoscreening, automated-refraction), bilateral; with remote analysis and report

- *CPT Changes: An Insider's View* 2008, 2013, 2016
- *CPT Assistant* Mar 13:6, Mar 16:11, Feb 18:3

(Do not report 99174 in conjunction with 92002-92014, 99172, 99173, 99177)

 # 99177 with on-site analysis

- *CPT Changes: An Insider's View* 2016
- *CPT Assistant* Mar 16:11, Feb 18:3

(Do not report 99177 in conjunction with 92002-92014, 99172, 99173, 99174)

(For retinal polarization scan, use 0469T)

99175 Ipecac or similar administration for individual emesis and continued observation until stomach adequately emptied of poison

(For diagnostic intubation, see 43754, 43755)

(For gastric lavage for diagnostic purposes, see 43754, 43755)

99177 Code is out of numerical sequence. See 99173-99183

99183 Physician or other qualified health care professional attendance and supervision of hyperbaric oxygen therapy, per session

- *CPT Changes: An Insider's View* 2013
- *CPT Assistant* Jan 03:23

(Evaluation and Management services and/or procedures [eg, wound debridement] provided in a hyperbaric oxygen treatment facility in conjunction with a hyperbaric oxygen therapy session should be reported separately)

99184 Initiation of selective head or total body hypothermia in the critically ill neonate, includes appropriate patient selection by review of clinical, imaging and laboratory data, confirmation of esophageal temperature probe location, evaluation of amplitude EEG, supervision of controlled hypothermia, and assessment of patient tolerance of cooling

- *CPT Changes: An Insider's View* 2015
- *CPT Assistant* Oct 15:8

(Do not report 99184 more than once per hospital stay)

99188 Application of topical fluoride varnish by a physician or other qualified health care professional

- *CPT Changes: An Insider's View* 2015

99190 Assembly and operation of pump with oxygenator or heat exchanger (with or without ECG and/or pressure monitoring); each hour

99191 45 minutes

99192 30 minutes

99195 Phlebotomy, therapeutic (separate procedure)

- *CPT Assistant* Apr 96:3, Jun 96:10

99199 Unlisted special service, procedure or report

- *CPT Changes: An Insider's View* 2000
- *CPT Assistant* Nov 99:55, Jun 12:16, Sep 12:9

Home Health Procedures/Services

These codes are used by nonphysician qualified health care professionals. Physicians should utilize the home or residence services codes 99341-99350 and utilize CPT codes other than 99500-99600 for any additional procedure/service provided to a patient living in a home or residence.

The following codes are used to report services provided in a patient's home or residence (including assisted living facility, group home, custodial care facility, nontraditional private homes, or schools).

Health care professionals who are authorized to use Evaluation and Management (E/M) Home Visit codes (99341-99350) may report 99500-99600 in addition to 99341-99350 if both services are performed. E/M services may be reported separately, using modifier 25, if the patient's condition requires a significant separately identifiable E/M service, above and beyond the home health service(s)/procedure(s) codes 99500-99600.

99500 Home visit for prenatal monitoring and assessment to include fetal heart rate, non-stress test, uterine monitoring, and gestational diabetes monitoring

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Oct 03:7, Jan 07:30

99501 Home visit for postnatal assessment and follow-up care

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Oct 03:7, Jan 07:30

99502 Home visit for newborn care and assessment

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Oct 03:7, Jan 07:30

99503 Home visit for respiratory therapy care (eg, bronchodilator, oxygen therapy, respiratory assessment, apnea evaluation)

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Oct 03:7, Jan 07:30

99504 Home visit for mechanical ventilation care

- *CPT Changes: An Insider's View* 2002, 2003
- *CPT Assistant* Oct 03:7, Jan 07:30, Jan 25:37

99505 Home visit for stoma care and maintenance including colostomy and cystostomy

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Oct 03:7, Jan 07:30

99506 Home visit for intramuscular injections

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Oct 03:7, Jan 07:30

99507 Home visit for care and maintenance of catheter(s) (eg, urinary, drainage, and enteral)

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Oct 03:7, Jan 07:30

99509 Home visit for assistance with activities of daily living and personal care

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Oct 03:7, Jan 07:30

(To report self-care/home management training, see 97535)

(To report home medical nutrition assessment and intervention services, see 97802-97804)

(To report home speech therapy services, see 92507-92508)

99510 Home visit for individual, family, or marriage counseling

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Oct 03:7, Jan 07:30

99511 Home visit for fecal impaction management and enema administration

- *CPT Changes: An Insider's View* 2002
- *CPT Assistant* Oct 03:7, Jan 07:30

99512 Home visit for hemodialysis

- *CPT Changes: An Insider's View* 2002, 2004
- *CPT Assistant* Oct 03:7, Jan 07:30

(For home infusion of peritoneal dialysis, use 99601, 99602)

99600 Unlisted home visit service or procedure

- *CPT Changes: An Insider's View* 2003
- *CPT Assistant* Oct 03:7, Jan 07:30

Home Infusion Procedures/Services

99601 Home infusion/specialty drug administration, per visit (up to 2 hours);

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Nov 05:1

+ 99602 each additional hour (List separately in addition to code for primary procedure)

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* Nov 05:1

(Use 99602 in conjunction with 99601)

Medication Therapy Management Services

Medication therapy management service(s) (MTMS) describe face-to-face patient assessment and intervention as appropriate, by a pharmacist, upon request. MTMS is provided to optimize the response to medications or to manage treatment-related medication interactions or complications.

MTMS includes the following documented elements: review of the pertinent patient history, medication profile (prescription and nonprescription), and recommendations for improving health outcomes and treatment compliance. These codes are not to be used to describe the provision of product-specific information at the point of dispensing or any other routine dispensing-related activities.

99605 Medication therapy management service(s) provided by a pharmacist, individual, face-to-face with patient, with assessment and intervention if provided; initial 15 minutes, new patient

- *CPT Changes: An Insider's View* 2008
- *CPT Assistant* Apr 13:3, Nov 13:3, Oct 14:3

99606 initial 15 minutes, established patient

- *CPT Changes: An Insider's View* 2008
- *CPT Assistant* Apr 13:3

+ 99607 each additional 15 minutes (List separately in addition to code for primary service)

- *CPT Changes: An Insider's View* 2008
- *CPT Assistant* Apr 13:3, Nov 13:3, Oct 14:3

(Use 99607 in conjunction with 99605, 99606)

Category II Codes

The following section of *Current Procedural Terminology* (CPT) contains a set of supplemental tracking codes that can be used for performance measurement. It is anticipated that the use of Category II codes for performance measurement will decrease the need for record abstraction and chart review, and thereby minimize administrative burden on physicians, other health care professionals, hospitals, and entities seeking to measure the quality of patient care. These codes are intended to facilitate data collection about the quality of care rendered by coding certain services and test results that support nationally established performance measures and that have an evidence base as contributing to quality patient care.

The use of these codes is optional. The codes are not required for correct coding and may not be used as a substitute for Category I codes.

These codes describe clinical components that may be typically included in evaluation and management services or clinical services and, therefore, do not have a relative value associated with them. Category II codes may also describe results from clinical laboratory or radiology tests and other procedures, identified processes intended to address patient safety practices, or services reflecting compliance with state or federal law.

Category II codes described in this section make use of alphabetical characters as the 5th character in the string (ie, 4 digits followed by the letter **F**). These digits are not intended to reflect the placement of the code in the regular (Category I) part of the CPT code set. To promote understanding of these codes and their associated measures, users are referred to the Alphabetical Clinical Topics Listing, which contains information about performance measurement exclusion modifiers, measures, and the measure's source.

Cross-references to the measures associated with each Category II code and their source are included for reference in the Alphabetical Clinical Topics Listing. In addition, acronyms for the related diseases or clinical condition(s) have been added at the end of each code descriptor to identify the topic or clinical category in which that code is included. A complete listing of the diseases/clinical conditions, and their acronyms are provided in alphabetical order in the Alphabetical Clinical Topics Listing. The Alphabetical Clinical Topics Listing can be accessed on the website at https://www.ama-assn.org/practice-management/cpt/category-ii-codes. Users should review the complete measure(s) associated with each code prior to implementation.

Requests for Category II CPT codes will be reviewed by the CPT/HCPAC Advisory Committee just as requests for Category I CPT codes are reviewed. In developing new and revised performance measurement codes, requests for codes are considered from:

- measurements that were developed and tested by a national organization;
- evidenced-based measurements with established ties to health outcomes;
- measurements that address clinical conditions of high prevalence, high risk, or high cost; and
- well-established measurements that are currently being used by large segments of the health care industry across the country.

In addition, all of the following are required:

- Definition or purpose of the measure is consistent with its intended use (quality improvement and accountability, or solely quality improvement)
- Aspect of care measured is substantially influenced by the physician (or other qualified health care professional or entity for which the code may be relevant)
- Reduces data collection burden on physicians (or other qualified health care professional or entities)
- Significant
  - Affects a large segment of health care community
  - Tied to health outcomes
  - Addresses clinical conditions of high prevalence, high costs, high risks

- Evidence-based
  - Agreed upon
  - Definable
  - Measurable
- Risk-adjustment specifications and instructions for all outcome measures submitted or compelling evidence as to why risk adjustment is not relevant
- Sufficiently detailed to make it useful for multiple purposes
- Facilitates reporting of performance measure(s)
- Inclusion of select patient history, testing (eg, glycohemoglobin), other process measures, cognitive or procedure services within CPT, or physiologic measures (eg, blood pressure) to support performance measurements
- Performance measure-development process that includes
  - Nationally recognized expert panel
  - Multidisciplinary
  - Vetting process

See the Introduction section of the CPT code set for a complete list of the dates of release and implementation.

The superscripted numbers included at the end of each code descriptor direct users to the measure developers that are associated with these footnotes, whose names and Web addresses are listed below.

Modifiers

The following performance measurement modifiers may be used for Category II codes to indicate that a service specified in the associated measure(s) was considered but, due to either medical, patient, or system circumstance(s) documented in the medical record, the service was not provided. These modifiers serve as denominator exclusions from the performance measure. The user should note that not all listed measures provide for exclusions (see Alphabetical Clinical Topics Listing for more discussion regarding exclusion criteria).

Category II modifiers should only be reported with Category II codes—they should not be reported with Category I or Category III codes. In addition, the modifiers in the Category II section should only be used where specified in the guidelines, reporting instructions, parenthetic notes, or code descriptor language listed in the Category II section (code listing and the Alphabetical Clinical Topics Listing).

1P Performance Measure Exclusion Modifier due to Medical Reasons

Reasons include:

- Not indicated (absence of organ/limb, already received/performed, other)
- Contraindicated (patient allergic history, potential adverse drug interaction, other)
- Other medical reasons

2P Performance Measure Exclusion Modifier due to Patient Reasons

Reasons include:

- Patient declined
- Economic, social, or religious reasons
- Other patient reasons

3P Performance Measure Exclusion Modifier due to System Reasons

Reasons include:

- Resources to perform the services not available
- Insurance coverage/payor-related limitations
- Other reasons attributable to health care delivery system

Modifier 8P is intended to be used as a "reporting modifier" to allow the reporting of circumstances when an action described in a measure's numerator is not performed and the reason is not otherwise specified.

8P Performance measure reporting modifier–action not performed, reason not otherwise specified

Composite Codes

Composite codes combine several measures grouped within a single code descriptor to facilitate reporting for a clinical condition when all components are met. If only some of the components are met or if services are provided in addition to those included in the composite code, they may be reported individually using the corresponding CPT Category II codes for those services.

0001F Heart failure assessed (includes assessment of all the following components) (CAD)[1]:

Blood pressure measured (2000F)[1]

Level of activity assessed (1003F)[1]

Clinical symptoms of volume overload (excess) assessed (1004F)[1]

Weight, recorded (2001F)[1]

Clinical signs of volume overload (excess) assessed (2002F)[1]

CPT Changes: An Insider's View 2006, 2007

CPT Assistant Oct 05:4, 7

(To report blood pressure measured, use 2000F)

0005F Osteoarthritis assessed (OA)[1]

Includes assessment of all the following components:

Osteoarthritis symptoms and functional status assessed (1006F)[1]

Use of anti-inflammatory or over-the-counter (OTC) analgesic medications assessed (1007F)[1]

Initial examination of the involved joint(s) (includes visual inspection, palpation, range of motion) (2004F)[1]

CPT Changes: An Insider's View 2006, 2007, 2009

CPT Assistant Oct 05:4, 11

(To report tobacco use cessation intervention, use 4001F)

0012F Community-acquired bacterial pneumonia assessment (includes all of the following components) (CAP)[1]:

Co-morbid conditions assessed (1026F)[1]

Vital signs recorded (2010F)[1]

Mental status assessed (2014F)[1]

Hydration status assessed (2018F)[1]

CPT Changes: An Insider's View 2007

0014F Comprehensive preoperative assessment performed for cataract surgery with intraocular lens (IOL) placement (includes assessment of all of the following components) (EC)[5]:

Dilated fundus evaluation performed within 12 months prior to cataract surgery (2020F)[5]

Pre-surgical (cataract) axial length, corneal power measurement and method of intraocular lens power calculation documented (must be performed within 12 months prior to surgery) (3073F)[5]

Preoperative assessment of functional or medical indication(s) for surgery prior to the cataract surgery with intraocular lens placement (must be performed within 12 months prior to cataract surgery) (3325F)[5]

CPT Changes: An Insider's View 2009

0015F Melanoma follow up completed (includes assessment of all of the following components) (ML)[5]:

History obtained regarding new or changing moles (1050F)[5]

Complete physical skin exam performed (2029F)[5]

Patient counseled to perform a monthly self skin examination (5005F)[5]

CPT Changes: An Insider's View 2009

Patient Management

Patient management codes describe utilization measures or measures of patient care provided for specific clinical purposes (eg, prenatal care, pre- and post-surgical care).

0500F Initial prenatal care visit (report at first prenatal encounter with health care professional providing obstetrical care. Report also date of visit and, in a separate field, the date of the last menstrual period [LMP]) (Prenatal)[2]

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Oct 05:4, 13, Aug 07:1

0501F Prenatal flow sheet documented in medical record by first prenatal visit (documentation includes at minimum blood pressure, weight, urine protein, uterine size, fetal heart tones, and estimated date of delivery). Report also: date of visit and, in a separate field, the date of the last menstrual period [LMP] (Note: If reporting 0501F Prenatal flow sheet, it is not necessary to report 0500F Initial prenatal care visit) (Prenatal)[1]

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Oct 05:6

0502F Subsequent prenatal care visit (Prenatal)[2]

[Excludes: patients who are seen for a condition unrelated to pregnancy or prenatal care (eg, an upper respiratory infection; patients seen for consultation only, not for continuing care)]

- *CPT Changes: An Insider's View* 2005, 2007
- *CPT Assistant* Oct 05:13

0503F Postpartum care visit (Prenatal)[2]

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Oct 05:13

0505F Hemodialysis plan of care documented (ESRD, P-ESRD)[1]

- *CPT Changes: An Insider's View* 2008

0507F Peritoneal dialysis plan of care documented (ESRD)[1]

- *CPT Changes: An Insider's View* 2008

0509F Urinary incontinence plan of care documented (GER)[5]

- *CPT Changes: An Insider's View* 2008

0513F Elevated blood pressure plan of care documented (CKD)[1]

- *CPT Changes: An Insider's View* 2009

0514F Plan of care for elevated hemoglobin level documented for patient receiving Erythropoiesis-Stimulating Agent therapy (ESA) (CKD)[1]

- *CPT Changes: An Insider's View* 2009

0516F Anemia plan of care documented (ESRD)[1]

- *CPT Changes: An Insider's View* 2009

0517F Glaucoma plan of care documented (EC)[5]

- *CPT Changes: An Insider's View* 2009

0518F Falls plan of care documented (GER)[5]

- *CPT Changes: An Insider's View* 2009

0519F Planned chemotherapy regimen, including at a minimum: drug(s) prescribed, dose, and duration, documented prior to initiation of a new treatment regimen (ONC)[1]

- *CPT Changes: An Insider's View* 2009, 2010

0520F Radiation dose limits to normal tissues established prior to the initiation of a course of 3D conformal radiation for a minimum of 2 tissue/organ (ONC)[1]

- *CPT Changes: An Insider's View* 2009, 2010

0521F Plan of care to address pain documented (COA)[2] (ONC)[1]

- *CPT Changes: An Insider's View* 2009, 2010

0525F Initial visit for episode (BkP)[2]

CPT Changes: An Insider's View 2009

0526F Subsequent visit for episode (BkP)[2]

CPT Changes: An Insider's View 2009

0528F Recommended follow-up interval for repeat colonoscopy of at least 10 years documented in colonoscopy report (End/Polyp)[5]

CPT Changes: An Insider's View 2010

0529F Interval of 3 or more years since patient's last colonoscopy, documented (End/Polyp)[5]

CPT Changes: An Insider's View 2010

0535F Dyspnea management plan of care, documented (Pall Cr)[5]

CPT Changes: An Insider's View 2010

0540F Glucocorticoid Management Plan Documented (RA)[5]

CPT Changes: An Insider's View 2010

0545F Plan for follow-up care for major depressive disorder, documented (MDD ADOL)[1]

CPT Changes: An Insider's View 2011

0550F Cytopathology report on routine nongynecologic specimen finalized within two working days of accession date (PATH)[9]

CPT Changes: An Insider's View 2012

0551F Cytopathology report on nongynecologic specimen with documentation that the specimen was non-routine (PATH)[9]

CPT Changes: An Insider's View 2012

0555F Symptom management plan of care documented (HF)[1]

CPT Changes: An Insider's View 2012

0556F Plan of care to achieve lipid control documented (CAD)[1]

CPT Changes: An Insider's View 2012

0557F Plan of care to manage anginal symptoms documented (CAD)[1]

CPT Changes: An Insider's View 2012

0575F HIV RNA control plan of care, documented (HIV)[5]

CPT Changes: An Insider's View 2010

0580F Multidisciplinary care plan developed or updated (ALS)[8]

CPT Changes: An Insider's View 2014

0581F Patient transferred directly from anesthetizing location to critical care unit (Peri2)[11]

CPT Changes: An Insider's View 2014

0582F Patient not transferred directly from anesthetizing location to critical care unit (Peri2)[11]

CPT Changes: An Insider's View 2014

0583F Transfer of care checklist used (Peri2)[11]

CPT Changes: An Insider's View 2014

0584F Transfer of care checklist not used (Peri2)[11]

CPT Changes: An Insider's View 2014

Patient History

Patient history codes describe measures for select aspects of patient history or review of systems.

1000F Tobacco use assessed (CAD, CAP, COPD, PV)[1] (DM)[4]
- *CPT Changes: An Insider's View* 2005, 2007
- *CPT Assistant* Oct 05:4, 9

1002F Anginal symptoms and level of activity assessed (NMA–No Measure Associated)
- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Oct 05:9

1003F Level of activity assessed (NMA–No Measure Associated)
- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Oct 05:7

1004F Clinical symptoms of volume overload (excess) assessed (NMA–No Measure Associated)
- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Oct 05:7

1005F Asthma symptoms evaluated (includes documentation of numeric frequency of symptoms or patient completion of an asthma assessment tool/survey/questionnaire) (NMA–No Measure Associated)
- *CPT Changes: An Insider's View* 2006, 2013
- *CPT Assistant* Oct 05:6

1006F Osteoarthritis symptoms and functional status assessed (may include the use of a standardized scale or the completion of an assessment questionnaire, such as the SF-36, AAOS Hip & Knee Questionnaire) (OA)[1]

[Instructions: Report when osteoarthritis is addressed during the patient encounter]
- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Oct 05:11

1007F Use of anti-inflammatory or analgesic over-the-counter (OTC) medications for symptom relief assessed (OA)[1]
- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Oct 05:11

1008F Gastrointestinal and renal risk factors assessed for patients on prescribed or OTC non-steroidal anti-inflammatory drug (NSAID) (OA)[1]
- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Oct 05:11

1010F Severity of angina assessed by level of activity (CAD)[1]
- *CPT Changes: An Insider's View* 2012

1011F Angina present (CAD)[1]
- *CPT Changes: An Insider's View* 2012

1012F Angina absent (CAD)[1]
- *CPT Changes: An Insider's View* 2012

1015F Chronic obstructive pulmonary disease (COPD) symptoms assessed (Includes assessment of at least 1 of the following: dyspnea, cough/sputum, wheezing), or respiratory symptom assessment tool completed (COPD)[1]
- *CPT Changes: An Insider's View* 2007

1018F Dyspnea assessed, not present (COPD)[1]
- *CPT Changes: An Insider's View* 2007

1019F Dyspnea assessed, present (COPD)[1]
- *CPT Changes: An Insider's View* 2007

1022F Pneumococcus immunization status assessed (CAP, COPD)[1]
CPT Changes: An Insider's View 2007

1026F Co-morbid conditions assessed (eg, includes assessment for presence or absence of: malignancy, liver disease, congestive heart failure, cerebrovascular disease, renal disease, chronic obstructive pulmonary disease, asthma, diabetes, other co-morbid conditions) (CAP)[1]
CPT Changes: An Insider's View 2007

1030F Influenza immunization status assessed (CAP)[1]
CPT Changes: An Insider's View 2007

1031F Smoking status and exposure to second hand smoke in the home assessed (Asthma)[1]
CPT Changes: An Insider's View 2012

1032F Current tobacco smoker **or** currently exposed to secondhand smoke (Asthma)[1]
CPT Changes: An Insider's View 2012

1033F Current tobacco non-smoker **and** not currently exposed to secondhand smoke (Asthma)[1]
CPT Changes: An Insider's View 2012

1034F Current tobacco smoker (CAD, CAP, COPD, PV)[1] (DM)[4]
CPT Changes: An Insider's View 2007

1035F Current smokeless tobacco user (eg, chew, snuff) (PV)[1]
CPT Changes: An Insider's View 2007

1036F Current tobacco non-user (CAD, CAP, COPD, PV)[1] (DM)[4] (IBD)[10]
CPT Changes: An Insider's View 2007

1038F Persistent asthma (mild, moderate or severe) (Asthma)[1]
CPT Changes: An Insider's View 2007
CPT Assistant Jul 10:3

1039F Intermittent asthma (Asthma)[1]
CPT Changes: An Insider's View 2007
CPT Assistant Jul 10:3

1040F DSM-5 criteria for major depressive disorder documented at the initial evaluation (MDD, MDD ADOL)[1]
CPT Changes: An Insider's View 2008, 2009, 2014, 2015

1050F History obtained regarding new or changing moles (ML)[5]
CPT Changes: An Insider's View 2008

1052F Type, anatomic location, and activity all assessed (IBD)[10]
CPT Changes: An Insider's View 2013

1055F Visual functional status assessed (EC)[5]
CPT Changes: An Insider's View 2008

1060F Documentation of permanent **or** persistent **or** paroxysmal atrial fibrillation (STR)[5]
CPT Changes: An Insider's View 2008

1061F Documentation of absence of permanent **and** persistent **and** paroxysmal atrial fibrillation (STR)[5]
CPT Changes: An Insider's View 2008

1065F Ischemic stroke symptom onset of less than 3 hours prior to arrival (STR)[5]
CPT Changes: An Insider's View 2008

1066F Ischemic stroke symptom onset greater than or equal to 3 hours prior to arrival (STR)[5]
CPT Changes: An Insider's View 2008

1070F Alarm symptoms (involuntary weight loss, dysphagia, or gastrointestinal bleeding) assessed; none present (GERD)[5]
CPT Changes: An Insider's View 2008

1071F 1 or more present (GERD)[5]
CPT Changes: An Insider's View 2008

1090F Presence or absence of urinary incontinence assessed (GER)[5]
CPT Changes: An Insider's View 2008

1091F Urinary incontinence characterized (eg, frequency, volume, timing, type of symptoms, how bothersome) (GER)[5]
CPT Changes: An Insider's View 2008

1100F Patient screened for future fall risk; documentation of 2 or more falls in the past year or any fall with injury in the past year (GER)[5]
CPT Changes: An Insider's View 2008

1101F documentation of no falls in the past year or only 1 fall without injury in the past year (GER)[5]
CPT Changes: An Insider's View 2008

1110F Patient discharged from an inpatient facility (eg, hospital, skilled nursing facility, or rehabilitation facility) within the last 60 days (GER)[5]
CPT Changes: An Insider's View 2008

1111F Discharge medications reconciled with the current medication list in outpatient medical record (COA)[2] (GER)[5]
CPT Changes: An Insider's View 2008

1116F Auricular or periauricular pain assessed (AOE)[1]
CPT Changes: An Insider's View 2009

1118F GERD symptoms assessed after 12 months of therapy (GERD)[5]
CPT Changes: An Insider's View 2009

1119F Initial evaluation for condition (HEP C)[1] (EPI, DSP)[8]
CPT Changes: An Insider's View 2009

1121F Subsequent evaluation for condition (HEP C)[1] (EPI)[8]
CPT Changes: An Insider's View 2009

1123F Advance Care Planning discussed and documented advance care plan or surrogate decision maker documented in the medical record (DEM)[1] (GER, Pall Cr)[5]
CPT Changes: An Insider's View 2009

1124F Advance Care Planning discussed and documented in the medical record, patient did not wish or was not able to name a surrogate decision maker or provide an advance care plan (DEM)[1] (GER, Pall Cr)[5]
CPT Changes: An Insider's View 2009

1125F Pain severity quantified; pain present (COA)[2] (ONC)[1]
CPT Changes: An Insider's View 2009

1126F no pain present (COA)[2] (ONC)[1]
CPT Changes: An Insider's View 2009, 2010

1127F New episode for condition (NMA–No Measure Associated)
CPT Changes: An Insider's View 2009, 2012

1128F Subsequent episode for condition (NMA–No Measure Associated)
CPT Changes: An Insider's View 2009, 2012

1130F Back pain and function assessed, including all of the following: Pain assessment **and** functional status **and** patient history, including notation of presence or absence of "red flags" (warning signs) **and** assessment of prior treatment and response, **and** employment status (BkP)[2]
CPT Changes: An Insider's View 2009

1134F Episode of back pain lasting 6 weeks or less (BkP)[2]
→ *CPT Changes: An Insider's View* 2009

1135F Episode of back pain lasting longer than 6 weeks (BkP)[2]
→ *CPT Changes: An Insider's View* 2009

1136F Episode of back pain lasting 12 weeks or less (BkP)[2]
→ *CPT Changes: An Insider's View* 2009

1137F Episode of back pain lasting longer than 12 weeks (BkP)[2]
→ *CPT Changes: An Insider's View* 2009

1150F Documentation that a patient has a substantial risk of death within 1 year (Pall Cr)[5]
→ *CPT Changes: An Insider's View* 2010

1151F Documentation that a patient does not have a substantial risk of death within one year (Pall Cr)[5]
→ *CPT Changes: An Insider's View* 2010

1152F Documentation of advanced disease diagnosis, goals of care prioritize comfort (Pall Cr)[5]
→ *CPT Changes: An Insider's View* 2010

1153F Documentation of advanced disease diagnosis, goals of care do not prioritize comfort (Pall Cr)[5]
→ *CPT Changes: An Insider's View* 2010

1157F Advance care plan or similar legal document present in the medical record (COA)[2]
→ *CPT Changes: An Insider's View* 2010

1158F Advance care planning discussion documented in the medical record (COA)[2]
→ *CPT Changes: An Insider's View* 2010

1159F Medication list documented in medical record (COA)[2]
→ *CPT Changes: An Insider's View* 2010

1160F Review of all medications by a prescribing practitioner or clinical pharmacist (such as, prescriptions, OTCs, herbal therapies and supplements) documented in the medical record (COA)[2]
→ *CPT Changes: An Insider's View* 2010

1170F Functional status assessed (COA)[2] (RA)[5]
→ *CPT Changes: An Insider's View* 2010

1175F Functional status for dementia assessed and results reviewed (DEM)[1]
→ *CPT Changes: An Insider's View* 2012

1180F All specified thromboembolic risk factors assessed (AFIB)[1]
→ *CPT Changes: An Insider's View* 2010

1181F Neuropsychiatric symptoms assessed and results reviewed (DEM)[1]
→ *CPT Changes: An Insider's View* 2012

1182F Neuropsychiatric symptoms, one or more present (DEM)[1]
→ *CPT Changes: An Insider's View* 2012

1183F Neuropsychiatric symptoms, absent (DEM)[1]
→ *CPT Changes: An Insider's View* 2012

1200F Seizure type(s) and current seizure frequency(ies) documented (EPI)[8]
→ *CPT Changes: An Insider's View* 2011

1205F Etiology of epilepsy or epilepsy syndrome(s) reviewed and documented (EPI)[8]
→ *CPT Changes: An Insider's View* 2011

1220F Patient screened for depression (SUD)[5]

➔ *CPT Changes: An Insider's View* 2010

1400F Parkinson's disease diagnosis reviewed (Prkns)[8]

➔ *CPT Changes: An Insider's View* 2011

1450F Symptoms improved or remained consistent with treatment goals since last assessment (HF)[1]

➔ *CPT Changes: An Insider's View* 2012

1451F Symptoms demonstrated clinically important deterioration since last assessment (HF)[1]

➔ *CPT Changes: An Insider's View* 2012

1460F Qualifying cardiac event/diagnosis in previous 12 months (CAD)[1]

➔ *CPT Changes: An Insider's View* 2012

1461F No qualifying cardiac event/diagnosis in previous 12 months (CAD)[1]

➔ *CPT Changes: An Insider's View* 2012

1490F Dementia severity classified, mild (DEM)[1]

➔ *CPT Changes: An Insider's View* 2012

1491F Dementia severity classified, moderate (DEM)[1]

➔ *CPT Changes: An Insider's View* 2012

1493F Dementia severity classified, severe (DEM)[1]

➔ *CPT Changes: An Insider's View* 2012

1494F Cognition assessed and reviewed (DEM)[1]

➔ *CPT Changes: An Insider's View* 2012

1500F Symptoms and signs of distal symmetric polyneuropathy reviewed and documented (DSP)[8]

➔ *CPT Changes: An Insider's View* 2014

1501F Not initial evaluation for condition (DSP)[8]

➔ *CPT Changes: An Insider's View* 2014

1502F Patient queried about pain and pain interference with function using a valid and reliable instrument (DSP)[8]

➔ *CPT Changes: An Insider's View* 2014

1503F Patient queried about symptoms of respiratory insufficiency (ALS)[8]

➔ *CPT Changes: An Insider's View* 2014

1504F Patient has respiratory insufficiency (ALS)[8]

➔ *CPT Changes: An Insider's View* 2014

1505F Patient does not have respiratory insufficiency (ALS)[8]

➔ *CPT Changes: An Insider's View* 2014

Physical Examination

Physical examination codes describe aspects of physical examination or clinical assessment.

2000F Blood pressure measured (CKD)[1](DM)[2,4]
- *CPT Changes: An Insider's View* 2005, 2009
- *CPT Assistant* Oct 05:4, 5, 7, 9, 10, Aug 07:1

2001F Weight recorded (PAG)[1]
- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Oct 05:7

2002F Clinical signs of volume overload (excess) assessed (NMA–No Measure Associated)
- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Oct 05:7, 8

2004F Initial examination of the involved joint(s) (includes visual inspection, palpation, range of motion) (OA)[1]

[Instructions: Report only for initial osteoarthritis visit or for visits for new joint involvement]
- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Oct 05:11

2010F Vital signs (temperature, pulse, respiratory rate, and blood pressure) documented and reviewed (CAP)[1] (EM)[5]
- *CPT Changes: An Insider's View* 2007, 2008

2014F Mental status assessed (CAP)[1] (EM)[5]
- *CPT Changes: An Insider's View* 2007, 2008

2015F Asthma impairment assessed (Asthma)[1]
- *CPT Changes: An Insider's View* 2012

2016F Asthma risk assessed (Asthma)[1]
- *CPT Changes: An Insider's View* 2012

2018F Hydration status assessed (normal/mildly dehydrated/severely dehydrated) (CAP)[1]
- *CPT Changes: An Insider's View* 2007

2019F Dilated macular exam performed, including documentation of the presence or absence of macular thickening or hemorrhage **and** the level of macular degeneration severity (EC)[5]
- *CPT Changes: An Insider's View* 2008

2020F Dilated fundus evaluation performed within 12 months prior to cataract surgery (EC)[5]
- *CPT Changes: An Insider's View* 2008, 2009

2021F Dilated macular or fundus exam performed, including documentation of the presence or absence of macular edema **and** level of severity of retinopathy (EC)[5]
- *CPT Changes: An Insider's View* 2008

2022F Dilated retinal eye exam with interpretation by an ophthalmologist or optometrist documented and reviewed; with evidence of retinopathy (DM)[2]
- *CPT Changes: An Insider's View* 2007, 2009, 2020

2023F without evidence of retinopathy (DM)[2]
- *CPT Changes: An Insider's View* 2020

2024F 7 standard field stereoscopic retinal photos with interpretation by an ophthalmologist or optometrist documented and reviewed; with evidence of retinopathy (DM)[2]
- *CPT Changes: An Insider's View* 2007, 2009, 2020

2025F without evidence of retinopathy (DM)[2]
- *CPT Changes: An Insider's View* 2020

2026F Eye imaging validated to match diagnosis from 7 standard field stereoscopic retinal photos results documented and reviewed; with evidence of retinopathy (DM)[2]
- *CPT Changes: An Insider's View* 2007, 2009, 2020

 # 2033F without evidence of retinopathy (DM)[2]

CPT Changes: An Insider's View 2020

2027F Optic nerve head evaluation performed (EC)[5]

CPT Changes: An Insider's View 2008

2028F Foot examination performed (includes examination through visual inspection, sensory exam with monofilament, and pulse exam – report when any of the 3 components are completed) (DM)[4]

CPT Changes: An Insider's View 2007

2029F Complete physical skin exam performed (ML)[5]

CPT Changes: An Insider's View 2008

2030F Hydration status documented, normally hydrated (PAG)[1]

CPT Changes: An Insider's View 2008

2031F Hydration status documented, dehydrated (PAG)[1]

CPT Changes: An Insider's View 2008

2033F Code is out of numerical sequence. See 2025F-2028F

2035F Tympanic membrane mobility assessed with pneumatic otoscopy or tympanometry (OME)[1]

CPT Changes: An Insider's View 2009

2040F Physical examination on the date of the initial visit for low back pain performed, in accordance with specifications (BkP)[2]

CPT Changes: An Insider's View 2009

2044F Documentation of mental health assessment prior to intervention (back surgery or epidural steroid injection) or for back pain episode lasting longer than 6 weeks (BkP)[2]

CPT Changes: An Insider's View 2009

2050F Wound characteristics including size **and** nature of wound base tissue **and** amount of drainage prior to debridement documented (CWC)[5]

CPT Changes: An Insider's View 2010

2060F Patient interviewed directly on or before date of diagnosis of major depressive disorder (MDD ADOL)[1]

CPT Changes: An Insider's View 2011, 2013

Diagnostic/Screening Processes or Results

Diagnostic/screening processes or results codes describe results of tests ordered (clinical laboratory tests, radiological or other procedural examinations, and conclusions of medical decision-making).

3006F Chest X-ray results documented and reviewed (CAP)[1]
- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Aug 07:1

3008F Body Mass Index (BMI), documented (PV)[1]
- *CPT Changes: An Insider's View* 2011

3011F Lipid panel results documented and reviewed (must include total cholesterol, HDL-C, triglycerides and calculated LDL-C) (CAD)[1]
- *CPT Changes: An Insider's View* 2007

3014F Screening mammography results documented and reviewed (PV)[1,2]
- *CPT Changes: An Insider's View* 2007, 2009

3015F Cervical cancer screening results documented and reviewed (PV)[1]
- *CPT Changes: An Insider's View* 2011

3016F Patient screened for unhealthy alcohol use using a systematic screening method (PV)[1] (DSP)[8]
- *CPT Changes: An Insider's View* 2010

3017F Colorectal cancer screening results documented and reviewed (PV)[1,2]
- *CPT Changes: An Insider's View* 2009

3018F Pre-procedure risk assessment **and** depth of insertion **and** quality of the bowel prep **and** complete description of polyp(s) found, including location of each polyp, size, number and gross morphology **and** recommendations for follow-up in final colonoscopy report documented (End/Polyp)[5]
- *CPT Changes: An Insider's View* 2010

3019F Left ventricular ejection fraction (LVEF) assessment planned post discharge (HF)[1]
- *CPT Changes: An Insider's View* 2012

3020F Left ventricular function (LVF) assessment (eg, echocardiography, nuclear test, or ventriculography) documented in the medical record (Includes quantitative or qualitative assessment results) (NMA–No Measure Associated)
- *CPT Changes: An Insider's View* 2007

3021F Left ventricular ejection fraction (LVEF) less than 40% or documentation of moderately or severely depressed left ventricular systolic function (CAD, HF)[1]
- *CPT Changes: An Insider's View* 2007

3022F Left ventricular ejection fraction (LVEF) greater than or equal to 40% or documentation as normal or mildly depressed left ventricular systolic function (CAD, HF)[1]
- *CPT Changes: An Insider's View* 2007

3023F Spirometry results documented and reviewed (COPD)[1]
- *CPT Changes: An Insider's View* 2007

3025F Spirometry test results demonstrate FEV_1/FVC less than 70% with COPD symptoms (eg, dyspnea, cough/sputum, wheezing) (CAP, COPD)[1]
- *CPT Changes: An Insider's View* 2007

3027F Spirometry test results demonstrate FEV_1/FVC greater than or equal to 70% or patient does not have COPD symptoms (COPD)[1]
- *CPT Changes: An Insider's View* 2007

3028F Oxygen saturation results documented and reviewed (includes assessment through pulse oximetry or arterial blood gas measurement) (CAP, COPD)[1] (EM)[5]
- *CPT Changes: An Insider's View* 2007

3035F Oxygen saturation less than or equal to 88% or a PaO_2 less than or equal to 55 mm Hg (COPD)[1]
- *CPT Changes: An Insider's View* 2007

CPT Changes: An Insider's View 2014

3760F Patient exhibits dysphagia, weight loss, or impaired nutrition (ALS)[8]
CPT Changes: An Insider's View 2014

3761F Patient does not exhibit dysphagia, weight loss, or impaired nutrition (ALS)[8]
CPT Changes: An Insider's View 2014

3762F Patient is dysarthric (ALS)[8]
CPT Changes: An Insider's View 2014

3763F Patient is not dysarthric (ALS)[8]
CPT Changes: An Insider's View 2014

3775F Adenoma(s) or other neoplasm detected during screening colonoscopy (SCADR)[12]
CPT Changes: An Insider's View 2015

3776F Adenoma(s) or other neoplasm not detected during screening colonoscopy (SCADR)[12]
CPT Changes: An Insider's View 2015

Therapeutic, Preventive, or Other Interventions

Therapeutic, preventive, or other interventions codes describe pharmacologic, procedural, or behavioral therapies, including preventive services such as patient education and counseling.

4000F Tobacco use cessation intervention, counseling (COPD, CAP, CAD, Asthma)[1] (DM)[4] (PV)[2]

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Oct 05:4, 9

4001F Tobacco use cessation intervention, pharmacologic therapy (COPD, CAD, CAP, PV, Asthma)[1] (DM)[4] (PV)[2]

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Oct 05:9

4003F Patient education, written/oral, appropriate for patients with heart failure, performed (NMA–No Measure Associated)[1]

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Oct 05:8

4004F Patient screened for tobacco use **and** received tobacco cessation intervention (counseling, pharmacotherapy, or both), if identified as a tobacco user (PV, CAD)[1]

- *CPT Changes: An Insider's View* 2011, 2012

4005F Pharmacologic therapy (other than minerals/vitamins) for osteoporosis prescribed (OP)[5] (IBD)[10]

- *CPT Changes: An Insider's View* 2008

4008F Beta-blocker therapy prescribed or currently being taken (CAD,HF)[1]

- *CPT Changes: An Insider's View* 2012

4010F Angiotensin Converting Enzyme (ACE) Inhibitor or Angiotensin Receptor Blocker (ARB) therapy prescribed or currently being taken (CAD, CKD, HF)[1] (DM)[2]

- *CPT Changes: An Insider's View* 2012

4011F Oral antiplatelet therapy prescribed (CAD)[1]

- *CPT Changes: An Insider's View* 2005, 2010
- *CPT Assistant* Oct 05:10

4012F Warfarin therapy prescribed (NMA–No Measure Associated)

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Oct 05:9

4013F Statin therapy prescribed or currently being taken (CAD)[1]

- *CPT Changes: An Insider's View* 2012

4014F Written discharge instructions provided to heart failure patients discharged home (Instructions include all of the following components: activity level, diet, discharge medications, follow-up appointment, weight monitoring, what to do if symptoms worsen) (NMA–No Measure Associated)

- *CPT Changes: An Insider's View* 2006, 2007, 2009
- *CPT Assistant* Oct 05:9

4015F Persistent asthma, preferred long term control medication or an acceptable alternative treatment, prescribed (NMA–No Measure Associated)

- *CPT Changes: An Insider's View* 2006, 2007, 2009
- *CPT Assistant* Oct 05:6

(Note: There are no medical exclusion criteria)

(Do not report modifier 1P with 4015F)

(To report patient reasons for not prescribing, use modifier 2P)

4016F Anti-inflammatory/analgesic agent prescribed (OA)[1]

(Use for prescribed or continued medication[s], including over-the-counter medication[s])

- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Oct 05:12

4017F Gastrointestinal prophylaxis for NSAID use prescribed (OA)[1]
- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Oct 05:12

4018F Therapeutic exercise for the involved joint(s) instructed or physical or occupational therapy prescribed (OA)[1]
- *CPT Changes: An Insider's View* 2006
- *CPT Assistant* Oct 05:12

4019F Documentation of receipt of counseling on exercise **and** either both calcium and vitamin D use or counseling regarding both calcium and vitamin D use (OP)[5]
- *CPT Changes: An Insider's View* 2008

4025F Inhaled bronchodilator prescribed (COPD)[1]
- *CPT Changes: An Insider's View* 2007

4030F Long-term oxygen therapy prescribed (more than 15 hours per day) (COPD)[1]
- *CPT Changes: An Insider's View* 2007

4033F Pulmonary rehabilitation exercise training recommended (COPD)[1]
- *CPT Changes: An Insider's View* 2007

(Report 4033F with 1019F)

4035F Influenza immunization recommended (COPD)[1] (IBD)[10]
- *CPT Changes: An Insider's View* 2007

4037F Influenza immunization ordered or administered (COPD, PV, CKD, ESRD)(IBD)[10]
- *CPT Changes: An Insider's View* 2007

4040F Pneumococcal vaccine administered or previously received (COPD)[1] (PV)[1,2] (IBD)[10]
- *CPT Changes: An Insider's View* 2007, 2009

4041F Documentation of order for cefazolin OR cefuroxime for antimicrobial prophylaxis (PERI 2)[5]
- *CPT Changes: An Insider's View* 2008

4042F Documentation that prophylactic antibiotics were neither given within 4 hours prior to surgical incision nor given intraoperatively (PERI 2)[5]
- *CPT Changes: An Insider's View* 2008

4043F Documentation that an order was given to discontinue prophylactic antibiotics within 48 hours of surgical end time, cardiac procedures (PERI 2)[5]
- *CPT Changes: An Insider's View* 2008

4044F Documentation that an order was given for venous thromboembolism (VTE) prophylaxis to be given within 24 hours prior to incision time or 24 hours after surgery end time (PERI 2)[5]
- *CPT Changes: An Insider's View* 2008

4045F Appropriate empiric antibiotic prescribed (CAP)[1], (EM)[5]
- *CPT Changes: An Insider's View* 2007, 2008

4046F Documentation that prophylactic antibiotics were given within 4 hours prior to surgical incision or given intraoperatively (PERI 2)[5]
- *CPT Changes: An Insider's View* 2008

4047F Documentation of order for prophylactic parenteral antibiotics to be given within 1 hour (if fluoroquinolone or vancomycin, 2 hours) prior to surgical incision (or start of procedure when no incision is required) (PERI 2)[5]
- *CPT Changes: An Insider's View* 2008, 2011

4048F Documentation that administration of prophylactic parenteral antibiotic was initiated within 1 hour (if fluoroquinolone or vancomycin, 2 hours) prior to surgical incision (or start of procedure when no incision is required) as ordered (PERI 2)[5]
- *CPT Changes: An Insider's View* 2008, 2011

4049F Documentation that order was given to discontinue prophylactic antibiotics within 24 hours of surgical end time, non-cardiac procedure (PERI 2)[5]
- *CPT Changes: An Insider's View* 2008

4050F Hypertension plan of care documented as appropriate (NMA–No Measure Associated)[1]
CPT Changes: An Insider's View 2007

4051F Referred for an arteriovenous (AV) fistula (ESRD, CKD)[1]
CPT Changes: An Insider's View 2008

4052F Hemodialysis via functioning arteriovenous (AV) fistula (ESRD)[1]
CPT Changes: An Insider's View 2008

4053F Hemodialysis via functioning arteriovenous (AV) graft (ESRD)[1]
CPT Changes: An Insider's View 2008

4054F Hemodialysis via catheter (ESRD)[1]
CPT Changes: An Insider's View 2008

4055F Patient receiving peritoneal dialysis (ESRD)[1]
CPT Changes: An Insider's View 2008

4056F Appropriate oral rehydration solution recommended (PAG)[1]
CPT Changes: An Insider's View 2008

4058F Pediatric gastroenteritis education provided to caregiver (PAG)[1]
CPT Changes: An Insider's View 2008

4060F Psychotherapy services provided (MDD, MDD ADOL)[1]
CPT Changes: An Insider's View 2008, 2011

4062F Patient referral for psychotherapy documented (MDD, MDD ADOL)[1]
CPT Changes: An Insider's View 2008

4063F Antidepressant pharmacotherapy considered and not prescribed (MDD ADOL)[1]
CPT Changes: An Insider's View 2011

4064F Antidepressant pharmacotherapy prescribed (MDD, MDD ADOL)[1]
CPT Changes: An Insider's View 2008

4065F Antipsychotic pharmacotherapy prescribed (MDD)[1]
CPT Changes: An Insider's View 2008

4066F Electroconvulsive therapy (ECT) provided (MDD)[1]
CPT Changes: An Insider's View 2008

4067F Patient referral for electroconvulsive therapy (ECT) documented (MDD)[1]
CPT Changes: An Insider's View 2008

4069F Venous thromboembolism (VTE) prophylaxis received (IBD)[10]
CPT Changes: An Insider's View 2013

4070F Deep vein thrombosis (DVT) prophylaxis received by end of hospital day 2 (STR)[5]
CPT Changes: An Insider's View 2008

4073F Oral antiplatelet therapy prescribed at discharge (STR)[5]
CPT Changes: An Insider's View 2008

4075F Anticoagulant therapy prescribed at discharge (STR)[5]
CPT Changes: An Insider's View 2008

4077F Documentation that tissue plasminogen activator (t-PA) administration was considered (STR)[5]
CPT Changes: An Insider's View 2008

4079F Documentation that rehabilitation services were considered (STR)[5]
CPT Changes: An Insider's View 2008

4084F Aspirin received within 24 hours before emergency department arrival or during emergency department stay (EM)[5]
CPT Changes: An Insider's View 2008

4086F Aspirin or clopidogrel prescribed or currently being taken (CAD)[1]
CPT Changes: An Insider's View 2012

4090F Patient receiving erythropoietin therapy (HEM)[1]
CPT Changes: An Insider's View 2008

4095F Patient not receiving erythropoietin therapy (HEM)[1]
CPT Changes: An Insider's View 2008

4100F Bisphosphonate therapy, intravenous, ordered or received (HEM)[1]
CPT Changes: An Insider's View 2008

4110F Internal mammary artery graft performed for primary, isolated coronary artery bypass graft procedure (CABG)[6]
CPT Changes: An Insider's View 2008

4115F Beta blocker administered within 24 hours prior to surgical incision (CABG)[6]
CPT Changes: An Insider's View 2008

4120F Antibiotic prescribed or dispensed (URI, PHAR)[2], (A-BRONCH)[2]
CPT Changes: An Insider's View 2008

4124F Antibiotic neither prescribed nor dispensed (URI, PHAR)[2], (A-BRONCH)[2]
CPT Changes: An Insider's View 2008

4130F Topical preparations (including OTC) prescribed for acute otitis externa (AOE)[1]
CPT Changes: An Insider's View 2009

4131F Systemic antimicrobial therapy prescribed (AOE)[1]
CPT Changes: An Insider's View 2009

4132F Systemic antimicrobial therapy not prescribed (AOE)[1]
CPT Changes: An Insider's View 2009

4133F Antihistamines or decongestants prescribed or recommended (OME)[1]
CPT Changes: An Insider's View 2009

4134F Antihistamines or decongestants neither prescribed nor recommended (OME)[1]
CPT Changes: An Insider's View 2009

4135F Systemic corticosteroids prescribed (OME)[1]
CPT Changes: An Insider's View 2009

4136F Systemic corticosteroids not prescribed (OME)[1]
CPT Changes: An Insider's View 2009

4140F Inhaled corticosteroids prescribed (Asthma)[1]
CPT Changes: An Insider's View 2012

4142F Corticosteroid sparing therapy prescribed (IBD)[10]
CPT Changes: An Insider's View 2013

4144F Alternative long-term control medication prescribed (Asthma)[1]
CPT Changes: An Insider's View 2012

4145F Two or more anti-hypertensive agents prescribed or currently being taken (CAD, HTN)[1]
CPT Changes: An Insider's View 2012

4148F Hepatitis A vaccine injection administered or previously received (HEP-C)[1]
CPT Changes: An Insider's View 2010

4149F Hepatitis B vaccine injection administered or previously received (HEP-C, HIV)[1] (IBD)[10]
CPT Changes: An Insider's View 2010, 2012

4150F Patient receiving antiviral treatment for Hepatitis C (HEP-C)[1]
CPT Changes: An Insider's View 2009

4151F Patient did not start or is not receiving antiviral treatment for Hepatitis C during the measurement period (HEP-C)[1]
CPT Changes: An Insider's View 2009, 2017

4153F Combination peginterferon and ribavirin therapy prescribed (HEP-C)[1]
CPT Changes: An Insider's View 2009

4155F Hepatitis A vaccine series previously received (HEP-C)[1]
CPT Changes: An Insider's View 2009

4157F Hepatitis B vaccine series previously received (HEP-C)[1]
CPT Changes: An Insider's View 2009

4158F Patient counseled about risks of alcohol use (HEP-C)[1]
CPT Changes: An Insider's View 2009, 2010

4159F Counseling regarding contraception received prior to initiation of antiviral treatment (HEP-C)[1]
CPT Changes: An Insider's View 2009

4163F Patient counseling at a minimum on all of the following treatment options for clinically localized prostate cancer: active surveillance, **and** interstitial prostate brachytherapy, **and** external beam radiotherapy, **and** radical prostatectomy, provided prior to initiation of treatment (PRCA)[1]
CPT Changes: An Insider's View 2009

4164F Adjuvant (ie, in combination with external beam radiotherapy to the prostate for prostate cancer) hormonal therapy (gonadotropin-releasing hormone [GnRH] agonist or antagonist) prescribed/administered (PRCA)[1]
CPT Changes: An Insider's View 2009

4165F 3-dimensional conformal radiotherapy (3D-CRT) or intensity modulated radiation therapy (IMRT) received (PRCA)[1]
CPT Changes: An Insider's View 2009

4167F Head of bed elevation (30-45 degrees) on first ventilator day ordered (CRIT)[1]
CPT Changes: An Insider's View 2009

4168F Patient receiving care in the intensive care unit (ICU) and receiving mechanical ventilation, 24 hours or less (CRIT)[1]
CPT Changes: An Insider's View 2009

4169F Patient either not receiving care in the intensive care unit (ICU) OR not receiving mechanical ventilation OR receiving mechanical ventilation greater than 24 hours (CRIT)[1]
CPT Changes: An Insider's View 2009

4171F Patient receiving erythropoiesis-stimulating agents (ESA) therapy (CKD)[1]
CPT Changes: An Insider's View 2009

4172F Patient not receiving erythropoiesis-stimulating agents (ESA) therapy (CKD)[1]
CPT Changes: An Insider's View 2009

4174F Counseling about the potential impact of glaucoma on visual functioning and quality of life, and importance of treatment adherence provided to patient and/or caregiver(s) (EC)[5]
CPT Changes: An Insider's View 2009

4175F Best-corrected visual acuity of 20/40 or better (distance or near) achieved within the 90 days following cataract surgery (EC)[5]
CPT Changes: An Insider's View 2009

4176F Counseling about value of protection from UV light and lack of proven efficacy of nutritional supplements in prevention or progression of cataract development provided to patient and/or caregiver(s) (NMA–No Measure Associated)
CPT Changes: An Insider's View 2009

4177F Counseling about the benefits and/or risks of the Age-Related Eye Disease Study (AREDS) formulation for preventing progression of age-related macular degeneration (AMD) provided to patient and/or caregiver(s) (EC)[5]
CPT Changes: An Insider's View 2009

4178F Anti-D immune globulin received between 26 and 30 weeks gestation (Pre-Cr)[1]
CPT Changes: An Insider's View 2009

4179F Tamoxifen or aromatase inhibitor (AI) prescribed (ONC)[1]
CPT Changes: An Insider's View 2009

4180F Adjuvant chemotherapy referred, prescribed, or previously received for Stage III colon cancer (ONC)[1]
CPT Changes: An Insider's View 2009, 2010

4181F Conformal radiation therapy received (NMA–No Measure Associated)
CPT Changes: An Insider's View 2009

4182F Conformal radiation therapy not received (NMA–No Measure Associated)
CPT Changes: An Insider's View 2009

4185F Continuous (12-months) therapy with proton pump inhibitor (PPI) or histamine H2 receptor antagonist (H2RA) received (GERD)[5]
CPT Changes: An Insider's View 2009

4186F No continuous (12-months) therapy with either proton pump inhibitor (PPI) or histamine H2 receptor antagonist (H2RA) received (GERD)[5]
CPT Changes: An Insider's View 2009

4187F Disease modifying anti-rheumatic drug therapy prescribed or dispensed (RA)[2]
CPT Changes: An Insider's View 2009

4188F Appropriate angiotensin converting enzyme (ACE)/angiotensin receptor blockers (ARB) therapeutic monitoring test ordered or performed (AM)[2]
CPT Changes: An Insider's View 2009

4189F Appropriate digoxin therapeutic monitoring test ordered or performed (AM)[2]
CPT Changes: An Insider's View 2009

4190F Appropriate diuretic therapeutic monitoring test ordered or performed (AM)[2]
CPT Changes: An Insider's View 2009

4191F Appropriate anticonvulsant therapeutic monitoring test ordered or performed (AM)[2]
CPT Changes: An Insider's View 2009

4192F Patient not receiving glucocorticoid therapy (RA)[5]
CPT Changes: An Insider's View 2010

4193F Patient receiving <10 mg daily prednisone (or equivalent), or RA activity is worsening, or glucocorticoid use is for less than 6 months (RA)[5]
CPT Changes: An Insider's View 2010

4194F Patient receiving ≥10 mg daily prednisone (or equivalent) for longer than 6 months, and improvement or no change in disease activity (RA)[5]
CPT Changes: An Insider's View 2010

4195F Patient receiving first-time biologic disease modifying anti-rheumatic drug therapy for rheumatoid arthritis (RA)[5]
CPT Changes: An Insider's View 2010

4196F Patient not receiving first-time biologic disease modifying anti-rheumatic drug therapy for rheumatoid arthritis (RA)[5]
CPT Changes: An Insider's View 2010

4200F External beam radiotherapy as primary therapy to prostate with or without nodal irradiation (PRCA)[1]
CPT Changes: An Insider's View 2009, 2010

4201F External beam radiotherapy with or without nodal irradiation as adjuvant or salvage therapy for prostate cancer patient (PRCA)[1]
CPT Changes: An Insider's View 2009, 2010

4210F Angiotensin converting enzyme (ACE) or angiotensin receptor blockers (ARB) medication therapy for 6 months or more (MM)[2]
CPT Changes: An Insider's View 2009

4220F Digoxin medication therapy for 6 months or more (MM)[2]
CPT Changes: An Insider's View 2009

4221F Diuretic medication therapy for 6 months or more (MM)[2]
CPT Changes: An Insider's View 2009

4230F Anticonvulsant medication therapy for 6 months or more (MM)[2]
CPT Changes: An Insider's View 2009

4240F Instruction in therapeutic exercise with follow-up provided to patients during episode of back pain lasting longer than 12 weeks (BkP)[2]
CPT Changes: An Insider's View 2009, 2013

4242F Counseling for supervised exercise program provided to patients during episode of back pain lasting longer than 12 weeks (BkP)[2]
CPT Changes: An Insider's View 2009

4245F Patient counseled during the initial visit to maintain or resume normal activities (BkP)[2]
CPT Changes: An Insider's View 2009

4248F Patient counseled during the initial visit for an episode of back pain against bed rest lasting 4 days or longer (BkP)[2]
CPT Changes: An Insider's View 2009

4250F Active warming used intraoperatively for the purpose of maintaining normothermia, **or** at least 1 body temperature equal to or greater than 36 degrees Centigrade (or 96.8 degrees Fahrenheit) recorded within the 30 minutes immediately before or the 15 minutes immediately after anesthesia end time (CRIT)[1]
CPT Changes: An Insider's View 2009, 2010

4255F Duration of general or neuraxial anesthesia 60 minutes or longer, as documented in the anesthesia record (CRIT)[5] (Peri2)[11]
CPT Changes: An Insider's View 2011

4256F Duration of general or neuraxial anesthesia less than 60 minutes, as documented in the anesthesia record (CRIT)[5] (Peri2)[11]
CPT Changes: An Insider's View 2011

4260F Wound surface culture technique used (CWC)[5]
CPT Changes: An Insider's View 2010

4261F Technique other than surface culture of the wound exudate used (eg, Levine/deep swab technique, semi-quantitative or quantitative swab technique) **or** wound surface culture technique not used (CWC)[5]
CPT Changes: An Insider's View 2010

4265F Use of wet to dry dressings prescribed or recommended (CWC)[5]
CPT Changes: An Insider's View 2010

4266F Use of wet to dry dressings neither prescribed nor recommended (CWC)[5]
CPT Changes: An Insider's View 2010

4267F Compression therapy prescribed (CWC)[5]
CPT Changes: An Insider's View 2010

4268F Patient education regarding the need for long term compression therapy including interval replacement of compression stockings received (CWC)[5]
CPT Changes: An Insider's View 2010

4269F Appropriate method of offloading (pressure relief) prescribed (CWC)[5]
CPT Changes: An Insider's View 2010

4270F Patient receiving potent antiretroviral therapy for 6 months or longer (HIV)[5]
CPT Changes: An Insider's View 2010

4271F Patient receiving potent antiretroviral therapy for less than 6 months or not receiving potent antiretroviral therapy (HIV)[5]
CPT Changes: An Insider's View 2010

4274F Influenza immunization administered or previously received (HIV)[5] (P-ESRD)[1]
CPT Changes: An Insider's View 2010

4276F Potent antiretroviral therapy prescribed (HIV)[5]
CPT Changes: An Insider's View 2010

4279F Pneumocystis jiroveci pneumonia prophylaxis prescribed (HIV)[5]
CPT Changes: An Insider's View 2010

4280F Pneumocystis jiroveci pneumonia prophylaxis prescribed within 3 months of low CD4+ cell count or percentage (HIV)[5]
CPT Changes: An Insider's View 2010

4290F Patient screened for injection drug use (HIV)[5]
CPT Changes: An Insider's View 2010

4293F Patient screened for high-risk sexual behavior (HIV)[5]
➔ *CPT Changes: An Insider's View* 2010

4300F Patient receiving warfarin therapy for nonvalvular atrial fibrillation or atrial flutter (AFIB)[1]
➔ *CPT Changes: An Insider's View* 2010

4301F Patient not receiving warfarin therapy for nonvalvular atrial fibrillation or atrial flutter (AFIB)[1]
➔ *CPT Changes: An Insider's View* 2010

4305F Patient education regarding appropriate foot care **and** daily inspection of the feet received (CWC)[5]
➔ *CPT Changes: An Insider's View* 2010

4306F Patient counseled regarding psychosocial **and** pharmacologic treatment options for opioid addiction (SUD)[1]
➔ *CPT Changes: An Insider's View* 2010

4320F Patient counseled regarding psychosocial **and** pharmacologic treatment options for alcohol dependence (SUD)[5]
➔ *CPT Changes: An Insider's View* 2010

4322F Caregiver provided with education and referred to additional resources for support (DEM)[1]
➔ *CPT Changes: An Insider's View* 2012

4324F Patient (or caregiver) queried about Parkinson's disease medication related motor complications (Prkns)[8]
➔ *CPT Changes: An Insider's View* 2011

4325F Medical and surgical treatment options reviewed with patient (or caregiver) (Prkns)[8]
➔ *CPT Changes: An Insider's View* 2011

4326F Patient (or caregiver) queried about symptoms of autonomic dysfunction (Prkns)[8]
➔ *CPT Changes: An Insider's View* 2011

4328F Patient (or caregiver) queried about sleep disturbances (Prkns)[8]
➔ *CPT Changes: An Insider's View* 2011

4330F Counseling about epilepsy specific safety issues provided to patient (or caregiver(s)) (EPI)[8]
➔ *CPT Changes: An Insider's View* 2011

4340F Counseling for women of childbearing potential with epilepsy (EPI)[8]
➔ *CPT Changes: An Insider's View* 2011

4350F Counseling provided on symptom management, end of life decisions, and palliation (DEM)[1]
➔ *CPT Changes: An Insider's View* 2012

4400F Rehabilitative therapy options discussed with patient (or caregiver) (Prkns)[8]
➔ *CPT Changes: An Insider's View* 2011

4450F Self-care education provided to patient (HF)[1]
➔ *CPT Changes: An Insider's View* 2012

4470F Implantable cardioverter-defibrillator (ICD) counseling provided (HF)[1]
➔ *CPT Changes: An Insider's View* 2012

4480F Patient receiving ACE inhibitor/ARB therapy and beta-blocker therapy for 3 months or longer (HF)[1]
➔ *CPT Changes: An Insider's View* 2012

4481F Patient receiving ACE inhibitor/ARB therapy and beta-blocker therapy for less than 3 months or patient not receiving ACE inhibitor/ARB therapy and beta-blocker therapy (HF)[1]
➔ *CPT Changes: An Insider's View* 2012

4500F Referred to an outpatient cardiac rehabilitation program (CAD)[1]
➔ *CPT Changes: An Insider's View* 2012

4510F Previous cardiac rehabilitation for qualifying cardiac event completed (CAD)[1]
➔ *CPT Changes: An Insider's View* 2012

4525F Neuropsychiatric intervention ordered (DEM)[1]
CPT Changes: An Insider's View 2012

4526F Neuropsychiatric intervention received (DEM)[1]
CPT Changes: An Insider's View 2012

4540F Disease modifying pharmacotherapy discussed (ALS)[8]
CPT Changes: An Insider's View 2014

4541F Patient offered treatment for pseudobulbar affect, sialorrhea, or ALS-related symptoms (ALS)[8]
CPT Changes: An Insider's View 2014

4550F Options for noninvasive respiratory support discussed with patient (ALS)[8]
CPT Changes: An Insider's View 2014

4551F Nutritional support offered (ALS)[8]
CPT Changes: An Insider's View 2014

4552F Patient offered referral to a speech language pathologist (ALS)[8]
CPT Changes: An Insider's View 2014

4553F Patient offered assistance in planning for end of life issues (ALS)[8]
CPT Changes: An Insider's View 2014

4554F Patient received inhalational anesthetic agent (Peri2)[11]
CPT Changes: An Insider's View 2014

4555F Patient did not receive inhalational anesthetic agent (Peri2)[11]
CPT Changes: An Insider's View 2014

4556F Patient exhibits 3 or more risk factors for post-operative nausea and vomiting (Peri2)[11]
CPT Changes: An Insider's View 2014

4557F Patient does not exhibit 3 or more risk factors for post-operative nausea and vomiting (Peri2)[11]
CPT Changes: An Insider's View 2014

4558F Patient received at least 2 prophylactic pharmacologic anti-emetic agents of different classes preoperatively and intraoperatively (Peri2)[11]
CPT Changes: An Insider's View 2014

4559F At least 1 body temperature measurement equal to or greater than 35.5 degrees Celsius (or 95.9 degrees Fahrenheit) recorded within the 30 minutes immediately before or the 15 minutes immediately after anesthesia end time (Peri2)[11]
CPT Changes: An Insider's View 2014

4560F Anesthesia technique did not involve general or neuraxial anesthesia (Peri2)[11]
CPT Changes: An Insider's View 2014

4561F Patient has a coronary artery stent (Peri2)[11]
CPT Changes: An Insider's View 2014

4562F Patient does not have a coronary artery stent (Peri2)[11]
CPT Changes: An Insider's View 2014

4563F Patient received aspirin within 24 hours prior to anesthesia start time (Peri2)[11]
CPT Changes: An Insider's View 2014

Follow-up or Other Outcomes

Follow-up or other outcomes codes describe review and communication of test results to patients, patient satisfaction or experience with care, patient functional status, and patient morbidity and mortality.

5005F Patient counseled on self-examination for new or changing moles (ML)[5]
- *CPT Changes: An Insider's View* 2008

5010F Findings of dilated macular or fundus exam communicated to the physician or other qualified health care professional managing the diabetes care (EC)[5]
- *CPT Changes: An Insider's View* 2008, 2013

5015F Documentation of communication that a fracture occurred and that the patient was or should be tested or treated for osteoporosis (OP)[5]
- *CPT Changes: An Insider's View* 2008

5020F Treatment summary report communicated to physician(s) or other qualified health care professional(s) managing continuing care and to the patient within 1 month of completing treatment (ONC)[1]
- *CPT Changes: An Insider's View* 2009, 2010, 2013

5050F Treatment plan communicated to provider(s) managing continuing care within 1 month of diagnosis (ML)[5]
- *CPT Changes: An Insider's View* 2009

5060F Findings from diagnostic mammogram communicated to practice managing patient's on-going care within 3 business days of exam interpretation (RAD)[5]
- *CPT Changes: An Insider's View* 2009

5062F Findings from diagnostic mammogram communicated to the patient within 5 days of exam interpretation (RAD)[5]
- *CPT Changes: An Insider's View* 2009

5100F Potential risk for fracture communicated to the referring physician or other qualified health care professional within 24 hours of completion of the imaging study (NUC_MED)[1]
- *CPT Changes: An Insider's View* 2010, 2013

5200F Consideration of referral for a neurological evaluation of appropriateness for surgical therapy for intractable epilepsy within the past 3 years (EPI)[8]
- *CPT Changes: An Insider's View* 2011

5250F Asthma discharge plan provided to patient (Asthma)[1]
- *CPT Changes: An Insider's View* 2012

Patient Safety

Patient safety codes that describe patient safety practices.

6005F Rationale (eg, severity of illness and safety) for level of care (eg, home, hospital) documented (CAP)[1]
- *CPT Changes: An Insider's View* 2007
- *CPT Assistant* Aug 07:1

6010F Dysphagia screening conducted prior to order for or receipt of any foods, fluids, or medication by mouth (STR)[5]
- *CPT Changes: An Insider's View* 2008

6015F Patient receiving or eligible to receive foods, fluids, or medication by mouth (STR)[5]
- *CPT Changes: An Insider's View* 2008

6020F NPO (nothing by mouth) ordered (STR)[5]
- *CPT Changes: An Insider's View* 2008

6030F All elements of maximal sterile barrier technique, hand hygiene, skin preparation and, if ultrasound is used, sterile ultrasound techniques followed (CRIT)[1]
- *CPT Changes: An Insider's View* 2009, 2010, 2016

6040F Use of appropriate radiation dose reduction devices OR manual techniques for appropriate moderation of exposure, documented (RAD)[5]
- *CPT Changes: An Insider's View* 2009

6045F Radiation exposure or exposure time in final report for procedure using fluoroscopy, documented (RAD)[5]
- *CPT Changes: An Insider's View* 2009
- *Clinical Examples in Radiology* Summer 10:1, Winter 11:2, Spring 11:2, 9-10, Summer 11:2, Fall 11:2-3, Spring 13:2-3, 6, Summer 13:2-3, 5-6, Spring 14:7, Fall 14:6

6070F Patient queried and counseled about anti-epileptic drug (AED) side effects (EPI)[8]
- *CPT Changes: An Insider's View* 2011

6080F Patient (or caregiver) queried about falls (Prkns, DSP)[8]
- *CPT Changes: An Insider's View* 2011

6090F Patient (or caregiver) counseled about safety issues appropriate to patient's stage of disease (Prkns)[8]
- *CPT Changes: An Insider's View* 2011

6100F Timeout to verify correct patient, correct site, and correct procedure, documented (PATH)[9]
- *CPT Changes: An Insider's View* 2012

6101F Safety counseling for dementia provided (DEM)[1]
- *CPT Changes: An Insider's View* 2012

6102F Safety counseling for dementia ordered (DEM)[1]
- *CPT Changes: An Insider's View* 2012

6110F Counseling provided regarding risks of driving and the alternatives to driving (DEM)[1]
- *CPT Changes: An Insider's View* 2012

6150F Patient not receiving a first course of anti-TNF (tumor necrosis factor) therapy (IBD)[10]
- *CPT Changes: An Insider's View* 2013

Structural Measures

Structural measures codes are used to identify measures that address the setting or system of the delivered care. These codes also address aspects of the capabilities of the organization or health care professional providing the care.

7010F Patient information entered into a recall system that includes: target date for the next exam specified **and** a process to follow up with patients regarding missed or unscheduled appointments (ML)[5]

➔ *CPT Changes: An Insider's View* 2009, 2011

7020F Mammogram assessment category (eg, Mammography Quality Standards Act [MQSA], Breast Imaging Reporting and Data System [BI-RADS®], or FDA approved equivalent categories) entered into an internal database to allow for analysis of abnormal interpretation (recall) rate (RAD)[5]

➔ *CPT Changes: An Insider's View* 2009

7025F Patient information entered into a reminder system with a target due date for the next mammogram (RAD)[5]

➔ *CPT Changes: An Insider's View* 2009

Nonmeasure Code Listing

The following codes are included for reporting of certain aspects of care. These factors are not represented by measures developed by existing measures organizations or recognized measures-development processes at the time they are placed in the CPT code set, but may ultimately be associated with measures approved by an appropriate quality improvement organization.

9001F Aortic aneurysm less than 5.0 cm maximum diameter on centerline formatted CT or minor diameter on axial formatted CT (NMA–No Measure Associated)

➔ *CPT Changes: An Insider's View* 2014

9002F Aortic aneurysm 5.0 - 5.4 cm maximum diameter on centerline formatted CT or minor diameter on axial formatted CT (NMA–No Measure Associated)

➔ *CPT Changes: An Insider's View* 2014

9003F Aortic aneurysm 5.5 - 5.9 cm maximum diameter on centerline formatted CT or minor diameter on axial formatted CT (NMA–No Measure Associated)

➔ *CPT Changes: An Insider's View* 2014

9004F Aortic aneurysm 6.0 cm or greater maximum diameter on centerline formatted CT or minor diameter on axial formatted CT (NMA–No Measure Associated)

➔ *CPT Changes: An Insider's View* 2014

9005F Asymptomatic carotid stenosis: No history of any transient ischemic attack or stroke in any carotid or vertebrobasilar territory (NMA–No Measure Associated)

➔ *CPT Changes: An Insider's View* 2014

9006F Symptomatic carotid stenosis: Ipsilateral carotid territory TIA or stroke less than 120 days prior to procedure (NMA–No Measure Associated)

➔ *CPT Changes: An Insider's View* 2014

9007F Other carotid stenosis: Ipsilateral TIA or stroke 120 days or greater prior to procedure or any prior contralateral carotid territory or vertebrobasilar TIA or stroke (NMA–No Measure Associated)

➔ *CPT Changes: An Insider's View* 2014

Category III Codes

The following section contains a set of temporary codes for emerging technology, services, procedures, and service paradigms. Category III codes allow data collection for these services/procedures. Use of unlisted codes does not offer the opportunity for the collection of specific data. If a Category III code is available, this code must be reported instead of a Category I unlisted code. This is an activity that is critically important in the evaluation of health care delivery and the formation of public and private policy. The use of the codes in this section allows physicians and other qualified health care professionals, insurers, health services researchers, and health policy experts to identify emerging technology, services, procedures, and service paradigms for clinical efficacy, utilization and outcomes.

The inclusion of a service or procedure in this section does not constitute a finding of support, or lack thereof, with regard to clinical efficacy, safety, applicability to clinical practice, or payer coverage. The codes in this section may not conform to the usual requirements for CPT Category I codes established by the Editorial Panel. For Category I codes, the Panel requires that the service/procedure be performed by many health care professionals in clinical practice in multiple locations and that FDA approval, as appropriate, has already been received. The nature of emerging technology, services, procedures, and service paradigms is such that these requirements may not be met. For these reasons, temporary codes for emerging technology, services, procedures, and service paradigms have been placed in a separate section of the CPT code set and the codes are differentiated from Category I CPT codes by the use of alphanumeric characters.

Services and procedures described in this section make use of alphanumeric characters. These codes have an alpha character as the 5th character in the string (ie, four digits followed by the letter T). The digits are not intended to reflect the placement of the code in the Category I section of CPT nomenclature. Codes in this section may or may not eventually receive a Category I CPT code. In either case, in general, a given Category III code will be archived five years from the date of initial publication or extension unless a modification of the archival date is specifically noted at the time of a revision or change to a code (eg, addition of parenthetical instructions, reinstatement). Services and procedures described by Category III codes which have been archived after five years, without conversion, must be reported using the Category I unlisted code unless another specific cross-reference is established at the time of archiving. New codes or revised codes in this section are released semi-annually via the AMA CPT website to expedite dissemination for reporting. Codes approved for deletion are published annually with the full set of temporary codes for emerging technology, services, procedures, and service paradigms in the CPT code set. See the Introduction section of the CPT code set for a complete list of the dates of release and implementation.

(For destruction of localized lesion of choroid by transpupillary thermotherapy, use 67299)

(For destruction of macular drusen, photocoagulation, use 67299)

(For application of extracorporeal shock wave involving musculoskeletal system not otherwise specified, use 0101T)

(For application of extracorporeal shock wave involving lateral humeral epicondyle, use 0102T)

(For non-surgical septal reduction therapy, use 93799)

(For lipoprotein, direct measurement, intermediate density lipoproteins [IDL] [remnant lipoprotein], use 84999)

(For endoscopic lysis of epidural adhesions with direct visualization using mechanical means or solution injection [eg, normal saline], use 64999)

(For dual energy x-ray absorptiometry [DXA] body composition study, use 76499)

(For pulsed magnetic neuromodulation incontinence treatment, use 53899)

(To report antiprothrombin [phospholipid cofactor] antibody, use 86849)

(0031T, 0032T have been deleted)

(For speculoscopy, including sampling, use 58999)

(For urinalysis infectious agent detection, semi-quantitative analysis of volatile compounds, use 81099)

►(0042T has been deleted)◄

►(For computed tomographic [CT] cerebral perfusion analysis, see 70472, 70473)◄

(For carbon monoxide, expired gas analysis [eg, $ETCO_c$/hemolysis breath test], use 84999)

(0046T, 0047T have been deleted)

(For mammary duct[s] catheter lavage, use 19499)

+ 0054T Computer-assisted musculoskeletal surgical navigational orthopedic procedure, with image-guidance based on fluoroscopic images (List separately in addition to code for primary procedure)

Sunset January 2029

- *CPT Changes: An Insider's View* 2004
- *CPT Assistant* May 04:14, Jun 04:8

+ 0055T Computer-assisted musculoskeletal surgical navigational orthopedic procedure, with image-guidance based on CT/MRI images (List separately in addition to code for primary procedure)

Sunset January 2029

- *CPT Changes: An Insider's View* 2004, 2005
- *CPT Assistant* May 04:14, Jun 04:8

(When CT and MRI are both performed, report 0055T only once)

(For cryopreservation, reproductive tissue, ovarian, use 89398)

(For cryopreservation of mature oocyte(s), use 89337)

(For cryopreservation of immature oocyte[s], use 89398)

(For cryopreservation of embryo(s), sperm and testicular reproductive tissue, see 89258, 89259, 89335)

(For electrical impedance breast scan, use 76499)

(For destruction/reduction of malignant breast tumor, microwave phased array thermotherapy, use 19499)

(0062T, 0063T have been deleted)

(For percutaneous intradiscal annuloplasty, any method other than electrothermal, use 22899)

(For intradiscal electrothermal annuloplasty, see 22526, 22527)

(To report CT colon, screening, use 74263)

(To report CT colon, diagnostic, see 74261-74262)

(0068T-0070T have been deleted)

(For acoustic heart sound recording and computer analysis, use 93799)

0071T Focused ultrasound ablation of uterine leiomyomata, including MR guidance; total leiomyomata volume less than 200 cc of tissue

Sunset January 2030

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Mar 05:1, 5, Dec 05:3

0072T total leiomyomata volume greater or equal to 200 cc of tissue

Sunset January 2030

- *CPT Changes: An Insider's View* 2005
- *CPT Assistant* Mar 05:1, 5, Dec 05:3

(Do not report 0071T, 0072T in conjunction with 51702 or 77022)

0075T Transcatheter placement of extracranial vertebral artery stent(s), including radiologic supervision and interpretation, open or percutaneous; initial vessel

Sunset January 2030

- *CPT Changes: An Insider's View* 2005, 2015
- *CPT Assistant* May 05:7, Mar 14:8

+ 0076T each additional vessel (List separately in addition to code for primary procedure)

Sunset January 2030

- *CPT Changes: An Insider's View* 2005, 2015
- *CPT Assistant* May 05:7, Mar 14:8

(Use 0076T in conjunction with 0075T)

(When the ipsilateral extracranial vertebral arteriogram (including imaging and selective catheterization) confirms the need for stenting, then 0075T and 0076T include all ipsilateral extracranial vertebral catheterization, all diagnostic imaging for ipsilateral extracranial vertebral artery stenting, and all related radiologic supervision and interpretation. If stenting is not indicated, then the appropriate codes for selective catheterization and imaging should be reported in lieu of 0075T or 0076T)

(For breath test for heart transplant rejection, use 84999)

(To report total disc lumbar arthroplasty, use 22857)

+ 0095T Removal of total disc arthroplasty (artificial disc), anterior approach, each additional interspace, cervical (List separately in addition to code for primary procedure)

Sunset January 2029

CPT Changes: An Insider's View 2006, 2009

CPT Assistant Jun 05:6, Feb 06:1

(Use 0095T in conjunction with 22864)

(To report revision of total disc lumbar arthroplasty, use 22862)

+ 0098T Revision including replacement of total disc arthroplasty (artificial disc), anterior approach, each additional interspace, cervical (List separately in addition to code for primary procedure)

Sunset January 2029

CPT Changes: An Insider's View 2006, 2009

CPT Assistant Jun 05:6, Feb 06:1

(Use 0098T in conjunction with 22861)

(Do not report 0098T in conjunction with 0095T)

(Do not report 0098T in conjunction with 22853, 22854, 22859 when performed at the same level)

(For decompression, see 63001-63048)

0100T Placement of a subconjunctival retinal prosthesis receiver and pulse generator, and implantation of intraocular retinal electrode array, with vitrectomy

Sunset January 2031

CPT Changes: An Insider's View 2006

CPT Assistant Jun 05:6, Feb 06:1, Jun 11:13, Feb 18:3

(For initial programming of implantable intraocular retinal electrode array device, use 0472T)

0101T Extracorporeal shock wave involving musculoskeletal system, not otherwise specified

Sunset January 2031

CPT Changes: An Insider's View 2006, 2022

CPT Assistant Jun 05:6, Mar 06:1, Jun 11:13, Dec 18:5

(For extracorporeal shock wave therapy involving integumentary system not otherwise specified, see 0512T, 0513T)

(Do not report 0101T in conjunction 0512T, 0513T, when treating same area)

0102T Extracorporeal shock wave performed by a physician, requiring anesthesia other than local, and involving the lateral humeral epicondyle

Sunset January 2031

CPT Changes: An Insider's View 2006, 2022

CPT Assistant Jun 05:6, Mar 06:1, Jun 11:13, Dec 18:5, Jun 19:11

 # 0512T Extracorporeal shock wave for integumentary wound healing, including topical application and dressing care; initial wound

Sunset January 2029

CPT Changes: An Insider's View 2019, 2022

CPT Assistant Dec 18:5

+ 0513T each additional wound (List separately in addition to code for primary procedure)

Sunset January 2029

CPT Changes: An Insider's View 2019

CPT Assistant Dec 18:5

(Use 0513T in conjunction with 0512T)

(For holotranscobalamin, quantitative, use 84999)

(For inert gas rebreathing for cardiac output measurement during rest, use 93799)

(For inert gas rebreathing for cardiac output measurement during exercise, use 93799)

0107T using vibration stimuli to assess large diameter fiber sensation
Sunset January 2031
CPT Changes: An Insider's View 2006
CPT Assistant Jun 05:6, Mar 06:1, May 11:10, Jun 11:13

0108T using cooling stimuli to assess small nerve fiber sensation and hyperalgesia
Sunset January 2031
CPT Changes: An Insider's View 2006
CPT Assistant Jun 05:6, Mar 06:1, May 11:10, Jun 11:13

0109T using heat-pain stimuli to assess small nerve fiber sensation and hyperalgesia
Sunset January 2031
CPT Changes: An Insider's View 2006
CPT Assistant Jun 05:6, Mar 06:1, May 11:10, Jun 11:13

0110T using other stimuli to assess sensation
Sunset January 2031
CPT Changes: An Insider's View 2006
CPT Assistant Jun 05:6, Mar 06:1, May 11:10, Jun 11:13

(For very long chain fatty acids, use 82726)

(For long-chain [C20-22] omega-3 fatty acids in red blood cell [RBC] membranes, use 84999)

(For fistulization of sclera for glaucoma, through ciliary body, use 66999)

(For conjunctival incision with posterior extrascleral placement of pharmacological agent, use 68399)

(For common carotid intima-media thickness [IMT] study for evaluation of atherosclerotic burden or coronary heart disease risk factor assessment, use 93998)

(For bilateral quantitative carotid intima media thickness and carotid atheroma evaluation that includes all required elements, use 93895)

(For validated, statistically reliable, randomized, controlled, single-patient clinical investigation of FDA approved chronic care drugs, provided by a pharmacist, interpretation and report to the prescribing health care professional, use 99199)

(0144T-0151T have been deleted. To report, see 75571-75574)

(For laparoscopic implantation, replacement, revision, or removal of gastric stimulation electrodes, lesser curvature, use 43659)

(For open implantation, replacement, revision, or removal of gastric stimulation electrodes, lesser curvature, use 43999)

(To report total disc arthroplasty [artificial disc], anterior approach, lumbar, see 22857, 22860)

+ 0164T Removal of total disc arthroplasty, (artificial disc), anterior approach, each additional interspace, lumbar (List separately in addition to code for primary procedure)
Sunset January 2029
CPT Changes: An Insider's View 2007, 2009
CPT Assistant Jun 07:1

(Use 0164T in conjunction with 22865)

+ 0165T Revision including replacement of total disc arthroplasty (artificial disc), anterior approach, each additional interspace, lumbar (List separately in addition to code for primary procedure)
Sunset January 2029
CPT Changes: An Insider's View 2007, 2009
CPT Assistant Jun 07:1

(Use 0165T in conjunction with 22862)

(Do not report 0164T, 0165T in conjunction with 22853, 22854, 22859, 49010, when performed at the same level)

(For decompression, see 63001-63048)

(For transmyocardial transcatheter closure of ventricular septal defect, with implant, including cardiopulmonary bypass if performed, use 33999)

(For rhinophototherapy, intranasal application of ultraviolet and visible light, use 30999)

(For stereotactic placement of infusion catheter[s] in the brain for delivery of therapeutic agent[s], use 64999)

(To report insertion of interlaminar/interspinous process stabilization/distraction device, without fusion, including image guidance when performed, with open decompression, lumbar, single level, use 22867. To report insertion of interlaminar/interspinous process stabilization/distraction device, without open decompression or fusion, including image guidance when performed, lumbar, single level, use 22869)

(To report insertion of interlaminar/interspinous process stabilization/distraction device, without fusion, including image guidance when performed, with open decompression, lumbar, second level, use 22868. To report insertion of interlaminar/interspinous process stabilization/distraction device, without open decompression or fusion, including image guidance when performed, lumbar, second level use, 22870)

+ 0174T Computer-aided detection (CAD) (computer algorithm analysis of digital image data for lesion detection) with further physician review for interpretation and report, with or without digitization of film radiographic images, chest radiograph(s), performed concurrent with primary interpretation (List separately in addition to code for primary procedure)

Sunset January 2027

CPT Changes: An Insider's View 2008

CPT Assistant Apr 18:7, Sep 21:5

(Use 0174T in conjunction with 71045, 71046, 71047, 71048)

0175T Computer-aided detection (CAD) (computer algorithm analysis of digital image data for lesion detection) with further physician review for interpretation and report, with or without digitization of film radiographic images, chest radiograph(s), performed remote from primary interpretation

Sunset January 2027

CPT Changes: An Insider's View 2008

CPT Assistant Apr 18:7, Sep 21:5

(Do not report 0175T in conjunction with 71045, 71046, 71047, 71048)

(For electrocardiogram, 64 leads or greater, with graphic presentation and analysis, use 93799)

(For electrocardiogram routine, with at least 12 leads separately performed, see 93000-93010)

0184T Excision of rectal tumor, transanal endoscopic microsurgical approach (ie, TEMS), including muscularis propria (ie, full thickness)

Sunset January 2029

CPT Changes: An Insider's View 2009, 2011

CPT Assistant Jun 10:3, Feb 18:11

(For non-endoscopic excision of rectal tumor, see 45160, 45171, 45172)

(Do not report 0184T in conjunction with 45300, 45308, 45309, 45315, 45317, 45320, 69990)

(For multivariate analysis of patient-specific findings with quantifiable computer probability assessment, including report, use 99199)

(For suprachoroidal delivery of pharmacologic agent, use 67299)

(For remote real-time interactive video-conferenced critical care, evaluation and management of the critically ill or critically injured patient, use 99499)

(For placement of intraocular radiation source applicator, use 67299)

(For application of the source by radiation oncologist, see Clinical Brachytherapy section)

(For anterior segment drainage device implantation without concomitant cataract removal, use 0671T)

(For insertion of anterior segment aqueous drainage device without extraocular reservoir, internal approach, see 66989, 66991, 0671T)

 # 0671T Insertion of anterior segment aqueous drainage device into the trabecular meshwork, without external reservoir, and without concomitant cataract removal, one or more

Sunset January 2027

CPT Changes: An Insider's View 2022

CPT Assistant May 22:17, Jul 22:1, Aug 22:1

(Do not report 0671T in conjunction with 66989, 66991)

(For complex extracapsular cataract removal with intraocular lens implant without concomitant aqueous drainage device, use 66982)

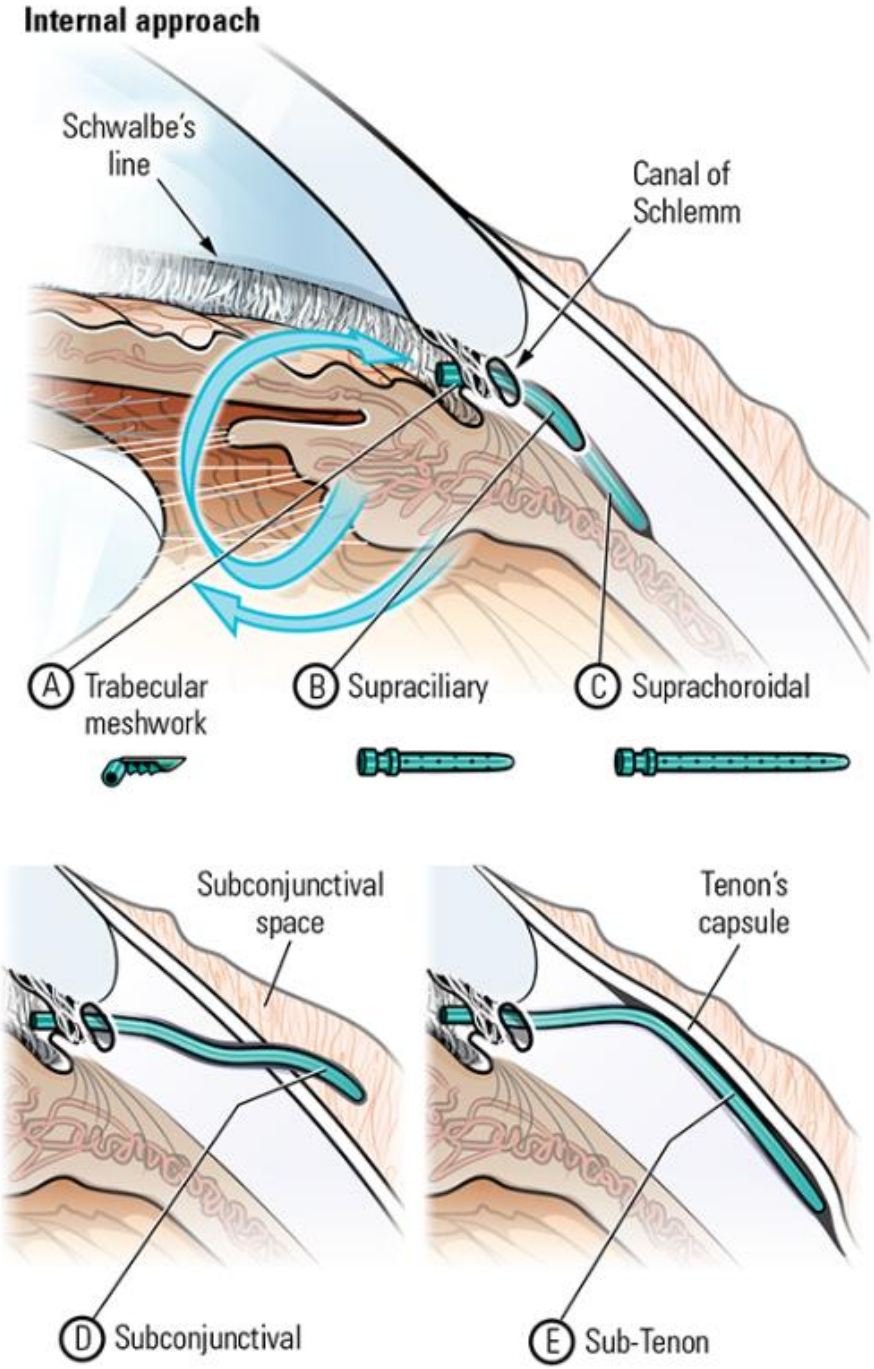
(For extracapsular cataract removal with intraocular lens implant without concomitant aqueous drainage device, use 66984)

(For insertion of anterior segment drainage device into the subconjunctival space, use 0449T)

 # 0253T Insertion of anterior segment aqueous drainage device, without extraocular reservoir, internal approach, into the suprachoroidal space

Sunset January 2029

CPT Changes: An Insider's View 2011, 2015



CPT Assistant Jul 18:3

(To report insertion of drainage device by external approach, use 66183)

(For arthrodesis, pre-sacral interbody technique, disc space preparation, discectomy, without instrumentation, with image guidance, includes bone graft when performed, L4-L5 interspace, L5-S1 interspace, use 22899)

Minimally Invasive Glaucoma Surgery (Internal Approach)

0253T, 0449T, 0450T, 0474T, 0671T

0198T Measurement of ocular blood flow by repetitive intraocular pressure sampling, with interpretation and report

Sunset January 2030

CPT Changes: An Insider's View 2010

CPT Assistant Mar 11:10, Aug 12:9

(For tremor measurement with accelerometer(s) and/or gyroscope(s), use 95999)

0200T Percutaneous sacral augmentation (sacroplasty), unilateral injection(s), including the use of a balloon or mechanical device, when used, 1 or more needles, includes imaging guidance and bone biopsy, when performed

Sunset January 2030

CPT Changes: An Insider's View 2010, 2015, 2017

CPT Assistant Apr 15:8, Dec 15:17

Clinical Examples in Radiology Fall 14:3, Fall 22:21

0201T Percutaneous sacral augmentation (sacroplasty), bilateral injections, including the use of a balloon or mechanical device, when used, 2 or more needles, includes imaging guidance and bone biopsy, when performed

Sunset January 2030

- *CPT Changes: An Insider's View* 2025

(Do not report 0901T in conjunction with 77002, 77012)

Atherectomy (Open or Percutaneous) for Supra-Inguinal Arteries

►Codes 0234T-0238T describe atherectomy performed by any method (eg, directional, rotational, laser) in arteries above the inguinal ligaments. These codes are structured differently than the codes describing atherectomy performed below the inguinal ligaments (37271, 37272, 37273, 37274, 37275, 37276, 37277, 37278, 37288, 37289, 37290, 37291, 37292, 37293, 37294, 37295).◄

These supra-inguinal atherectomy codes all include the surgical work of performing the atherectomy plus the radiological supervision and interpretation of the atherectomy. Unlike the atherectomy codes for infra-inguinal arteries, this set of Category III codes does not include accessing and selectively catheterizing the vessel, traversing the lesion, embolic protection if used, other intervention used to treat the same or other vessels, or closure of the arteriotomy by any method. These codes describe endovascular procedures performed percutaneously and/or through an open surgical exposure.

0234T Transluminal peripheral atherectomy, open or percutaneous, including radiological supervision and interpretation; renal artery

Sunset January 2029

CPT Changes: An Insider's View 2020

Fluoroscopy (76000) and radiologic supervision and interpretation are inherent to the transcatheter mitral valve repair (TMVR) procedure and are not separately reportable. Diagnostic cardiac catheterization (93451, 93452, 93453, 93454, 93455, 93456, 93457, 93458, 93459, 93460, 93461, 93593, 93594, 93595, 93596, 93597, 93598) should **not** be reported with transcatheter mitral valve repair (0345T) for:

- Contrast injections, angiography, roadmapping, and/or fluoroscopic guidance for the transcatheter mitral valve repair (TMVR),
- Left ventricular angiography to assess mitral regurgitation for guidance of TMVR, or
- Right and left heart catheterization for hemodynamic measurements before, during, and after TMVR for guidance of TMVR.

Diagnostic right and left heart catheterization (93451, 93452, 93453, 93456, 93457, 93458, 93459, 93460, 93461, 93593, 93594, 93595, 93596, 93597, 93598) and diagnostic coronary angiography (93454, 93455, 93456, 93457, 93458, 93459, 93460, 93461, 93563, 93564) not inherent to the TMVR may be reported with 0345T, appended with modifier 59, if:

1. No prior study is available and a full diagnostic study is performed, or
2. A prior study is available, but as documented in the medical record:
   a. There is inadequate visualization of the anatomy and/or pathology, or
   b. The patient's condition with respect to the clinical indication has changed since the prior study, or
   c. There is a clinical change during the procedure that requires new evaluation.

Percutaneous coronary interventional procedures may be reported separately, when performed.

Other cardiac catheterization services may be reported separately, when performed for diagnostic purposes not intrinsic to the TMVR.

When transcatheter ventricular support is required, the appropriate code may be reported with the appropriate ventricular assist device (VAD) procedure (33990, 33991, 33992, 33993, 33995, 33997) or balloon pump insertion (33967, 33970, 33973).

►(For air displacement plethysmography, whole-body composition assessment, use 1002T)◄

Adaptive Behavior Assessments and Treatment

Behavior identification supporting assessment (0362T) and **adaptive behavior treatment with protocol modification** (0373T) include the following required components:

- administration by the physician or other qualified health care professional who is on-site but not necessarily face-to-face with the patient;
- with the assistance of two or more technicians;
- for a patient with destructive behavior that requires the presence of a team;
- completion in an environment that is customized to the patient's behavior.

"On-site" is defined as immediately available and interruptible to provide assistance and direction throughout the performance of the procedure, however, the physician or other qualified health care professional does not need to be present in the room when the procedure is performed.

Typical patients for 0362T and 0373T present with one or more specific destructive behavior(s) (ie, maladaptive behaviors associated with high risk of medical consequences or property damage [eg, elopement, pica, or self-injury requiring medical attention, aggression with injury to other{s}, or breaking furniture, walls, or windows]). Code 0362T may include functional behavior assessment, functional analysis, other structured observations, and standardized and/or nonstandardized instruments and procedures to determine levels of adaptive and maladaptive behavior as well as other impairments in functioning.

Only count the time of one technician when two or more are present. For assistance with code selection of 97152, 0362T, see the Guide to Selection of Codes 97152 and 0362T on page 838. For assistance with code selection of 97153, 97155, 0373T, see Guide to Selection of Codes 97153, 97155, and 0373T on page 839.

0362T **Behavior identification supporting assessment,** each 15 minutes of technicians' time face-to-face with a patient, requiring the following components:

- administration by the physician or other qualified health care professional who is on site;
- with the assistance of two or more technicians;
- for a patient who exhibits destructive behavior;
- completion in an environment that is customized to the patient's behavior.

Sunset January 2029

CPT Changes: An Insider's View 2015, 2019

CPT Assistant Jun 14:4, Nov 18:3, Dec 24:55

(0362T is reported based on a single technician's face-to-face time with the patient and not the combined time of multiple technicians [eg, one hour with three technicians equals one hour of service])

(0362T may be repeated on different days until the behavior identification assessment [97151] and, if necessary, supporting assessment[s] [97152, 0362T], is complete)

(For psychiatric diagnostic evaluation, see 90791, 90792)

(For speech evaluations, see 92521, 92522, 92523, 92524)

(For occupational therapy evaluation, see 97165, 97166, 97167, 97168)

(For medical team conference, see 99366, 99367, 99368)

(For health behavior assessment and intervention, see 96156, 96158, 96159, 96164, 96165, 96167, 96168, 96170, 96171)

(For neurobehavioral status examination, see 96116, 96121)

(For neuropsychological testing, see 96132, 96133, 96136, 96137, 96138, 96139, 96146)

0373T **Adaptive behavior treatment with protocol modification,** each 15 minutes of technicians' time face-to-face with a patient, requiring the following components:

- administration by the physician or other qualified health care professional who is on site;
- with the assistance of two or more technicians;
- for a patient who exhibits destructive behavior;
- completion in an environment that is customized to the patient's behavior.

Sunset January 2029

➔ *CPT Changes: An Insider's View* 2015, 2019
➔ *CPT Assistant* Jun 14:4, 6, 9, Nov 18:3

(0373T is reported based on a single technician's face-to-face time with the patient and not the combined time of multiple technicians)

(Do not report 0373T in conjunction with 90785-90899, 96105, 96110, 96116, 96121, 96156, 96158, 96159, 96164, 96165, 96167, 96168, 96170, 96171)

(For total disc arthroplasty [artificial disc], anterior approach, including discectomy with end-plate preparation [includes osteophytectomy for nerve root or spinal cord decompression and microdissection], cervical, 3 or more levels, use 22899)

(For anoscopy with directed submucosal injection of bulking agent for fecal incontinence, use 46999)

0378T Visual field assessment, with concurrent real time data analysis and accessible data storage with patient initiated data transmitted to a remote surveillance center for up to 30 days; review and interpretation with report by a physician or other qualified health care professional

Sunset January 2030

0379T technical support and patient instructions, surveillance, analysis, and transmission of daily and emergent data reports as prescribed by a physician or other qualified health care professional

Sunset January 2030

➔ *CPT Changes: An Insider's View* 2015

(For computer-aided animation and analysis of time series retinal images for the monitoring of disease progression, unilateral or bilateral, with interpretation and report, use 92499)

(For external heart rate and 3-axis accelerometer data recording up to 14 days to assess changes in heart rate and to monitor motion analysis for the purposes of diagnosing nocturnal epilepsy seizure events, including report, scanning analysis with report, review and interpretation by a physician or other qualified health care professional, use 95999)

(Electronic brachytherapy is a form of radiation therapy in which an electrically generated X-ray source of ionizing radiation is placed inside or in close proximity to the tumor or target tissue to deliver therapeutic radiation dosage)

►(0394T has been deleted)◄

►(For surface radiation therapy, superficial, delivery, ≤150 kV, per fraction, use 77437)◄

0395T High dose rate electronic brachytherapy, interstitial or intracavitary treatment, per fraction, includes basic dosimetry, when performed

Sunset January 2031

CPT Changes: An Insider's View 2016

(Do not report 0395T in conjunction with 77261, 77262, 77263, 77300, 77306, 77307, 77316, 77317, 77318, 77332, 77333, 77334, 77336, 77427, 77431, 77432, 77435, 77469, 77470, 77499, 77761, 77762, 77763, 77767, 77768, 77770, 77771, 77772, 77778, 77789)

(For intraoperative use of kinetic balance sensor for implant stability during knee replacement arthroplasty, use 27599)

+ 0397T Endoscopic retrograde cholangiopancreatography (ERCP), with optical endomicroscopy (List separately in addition to code for primary procedure)

Sunset January 2031

CPT Changes: An Insider's View 2016, 2017

(Use 0397T in conjunction with 43260, 43261, 43262, 43263, 43264, 43265, 43274, 43275, 43276, 43277, 43278)

(Do not report 0397T in conjunction with 88375)

(Do not report optical endomicroscopy more than once per session)

(0398T has been deleted)

(For magnetic resonance image guided high intensity focused ultrasound [MRgFUS], stereotactic ablation lesion, intracranial, use 61715)

(For multispectral digital skin lesion analysis of clinically atypical cutaneous pigmented lesions for detection of melanomas and high risk melanocytic atypia, use 96999)

0402T Collagen cross-linking of cornea, including removal of the corneal epithelium, when performed, and intraoperative pachymetry, when performed

Sunset January 2030

CPT Changes: An Insider's View 2016, 2020, 2023

CPT Assistant Feb 16:12, Jun 18:11

(Report medication separately)

(Do not report 0402T in conjunction with 65435, 69990, 76514)

A diabetes prevention program consists of intensive behavioral counseling that is provided in person, online, or via electronic technology, or a combination of both modalities.

Intensive behavioral counseling consists of care management, lifestyle coaching, facilitation of a peer-support group, and provision of clinically validated educational lessons based on a standardized curriculum that is focused on nutrition, exercise, stress, and weight management. Lifestyle coaches must complete a nationally recognized training program. The lifestyle coach is available to interact with the participants.

Codes 0403T and 0488T describe diabetes prevention programs that use a standardized diabetes prevention curriculum. For educational services that use a standardized curriculum provided to patients with an established illness/disease, see 98960, 98961, 98962. Use 0403T for diabetes prevention programs that are provided only in-person. Use 0488T for programs that are provided online or via electronic technology. Code 0488T includes in person components, if provided.

0403T Preventive behavior change, intensive program of prevention of diabetes using a standardized diabetes prevention program curriculum, provided to individuals in a group setting, minimum 60 minutes, per day

Sunset January 2031

CPT Changes: An Insider's View 2016

CPT Assistant Aug 18:6, Jul 20:7

(Do not report 0403T in conjunction with 98960, 98961, 98962, 0488T)

 # 0488T Preventive behavior change, online/electronic structured intensive program for prevention of diabetes using a standardized diabetes prevention program curriculum, provided to an individual, per 30 days

Sunset January 2028

CPT Changes: An Insider's View 2018

CPT Assistant Aug 18:6, Jul 20:7

(Do not report 0488T in conjunction with 98960, 98961, 98962, 0403T)

(0404T has been deleted)

(For transcervical radiofrequency ablation of uterine fibroid[s], including intraoperative ultrasound guidance and monitoring, use 58580)

(For oversight of the care of an extracorporeal liver-assist system patient requiring review of status, review of laboratory and other studies, and revision of orders and liver-assist care plan [as appropriate], within a calendar month, 30 minutes or more of non-face-to-face time, use 99499)

(To report endoscopic placement of a drug-eluting implant in the ethmoid sinus without any other nasal/sinus endoscopic surgical service, use 31299. To report endoscopic placement of a drug-eluting implant in the ethmoid sinus in conjunction with biopsy, polypectomy, or debridement, use 31237)

►Codes 0408T-0418T describe procedures related to cardiac contractility modulation (CCM) systems. These systems consist of a pulse generator, two ventricular pacemaker electrodes (leads), and one atrial pacemaker electrode (lead), when performed. In contrast to a pacemaker or a defibrillator, which modulate the heart's rhythm, the CCM system's impulses are designed to modulate the strength of contraction of the heart muscle. Unlike pacemakers, these systems stimulate for specific time intervals in order to improve myocardial function.

Each CCM procedure code includes all imaging guidance in addition to placement of right ventricular leads and, when performed, placement of the atrial pacemaker lead. Removal of only the CCM pulse generator is reported with 0412T. If only the pulse generator is removed and replaced at the same session without any right atrial and/or right ventricular lead(s) inserted or replaced, report 0414T. For removal and replacement of the pulse generator and leads, individual codes for removal of the generator (0412T) and removal of the leads (0413T for each lead removed) are used in conjunction with the insertion/replacement system code (0408T). When individual transvenous electrodes are inserted or replaced, report using 0410T and 0411T, as appropriate. When the entire system is inserted or replaced, report with 0408T.◄

Revision of the CCM generator skin pocket is included in 0408T, 0412T, 0414T. Relocation of a skin pocket for a CCM may be necessary for various clinical situations such as infection or erosion. Relocation is reported with 0416T, and follows conventions for pacemaker skin pocket relocation.

Repositioning of a CCM electrode is reported using 0415T.

CCM device evaluation codes 0417T, 0418T may not be reported in conjunction with pulse generator and lead insertion or revision codes.

►For remote interrogation device evaluation (0948T, 0949T), the CCM is remotely interrogated for data encompassing up to a 90-day period of monitoring. Codes 0948T, 0949T are only reported once per 90-day monitoring period. Data for all device functions, including the programmed parameters, lead(s), battery, automatic capture, and sensing function, are reviewed by the technician (0949T) and analyzed by the physician or other qualified health care professional (0948T).◄

0408T Insertion or replacement of permanent cardiac contractility modulation system, including contractility evaluation when performed, and programming of sensing and therapeutic parameters; pulse generator with transvenous electrodes

CPT Changes: An Insider's View 2018

CPT Assistant Dec 22:1

(Do not report 0481T in conjunction with 15769, 15771, 15772, 15773, 15774, 20550, 20551, 20600, 20604, 20605, 20606, 20610, 20611, 36415, 36592, 76942, 77002, 77012, 77021, 86965, 0232T)

(Do not report 38220, 38221, 38222, 38230 for bone marrow aspiration for autologous white blood cell concentrate [autologous protein solution] injection. For bone marrow aspiration for autologous white blood cell concentrate [autologous protein solution] injection, use 0481T)

(For absolute quantitation of myocardial blood flow [AQMBF] for cardiac PET, use 78434)

Codes 0483T, 0484T include vascular access, catheterization, balloon valvuloplasty, deploying the valve, repositioning the valve as needed, temporary pacemaker insertion for rapid pacing, and access site closure, when performed.

Angiography, radiological supervision and interpretation, intraprocedural roadmapping (eg, contrast injections, fluoroscopy) to guide the TMVI, left ventriculography (eg, to assess mitral regurgitation for guidance of TMVI), and completion angiography are included in codes 0483T, 0484T.

Diagnostic right and left heart catheterization codes (93451, 93452, 93453, 93456, 93457, 93458, 93459, 93460, 93461, 93593, 93594, 93595, 93596, 93597, 93598) should **not** be used with 0483T, 0484T to report:

1. Contrast injections, angiography, roadmapping, and/or fluoroscopic guidance for the transcatheter mitral valve implantation (TMVI),
2. Left ventricular angiography to assess or confirm valve positioning and function,
3. Right and left heart catheterization for hemodynamic measurements before, during, and after TMVI for guidance of TMVI.

Diagnostic right and left heart catheterization codes (93451, 93452, 93453, 93456, 93457, 93458, 93459, 93460, 93461, 93593, 93594, 93595, 93596, 93597, 93598) and diagnostic coronary angiography codes (93454, 93455, 93456, 93457, 93458, 93459, 93460, 93461, 93563, 93564) performed at the time of TMVI may be separately reportable, if:

1. No prior study is available and a full diagnostic study is performed, or
2. A prior study is available, but as documented in the medical record:
   a. There is inadequate visualization of the anatomy and/or pathology, or
   b. The patient's condition with respect to the clinical indication has changed since the prior study, or
   c. There is a clinical change during the procedure that requires new evaluation.

For same session/same day diagnostic cardiac catheterization services, report the appropriate diagnostic cardiac catheterization code(s) appended with modifier 59, indicating separate and distinct procedural service from TMVI.

When cardiopulmonary bypass is performed in conjunction with TMVI, 0483T, 0484T may be reported with the appropriate add-on code for percutaneous peripheral bypass (33367), open peripheral bypass (33368), or central bypass (33369).

For percutaneous transcatheter tricuspid valve annulus reconstruction, with implantation of adjustable annulus reconstruction device, use 0545T.

0483T Transcatheter mitral valve implantation/replacement (TMVI) with prosthetic valve; percutaneous approach, including transseptal puncture, when performed

Wireless Cardiac Stimulation System for Left Ventricular Pacing

A wireless cardiac stimulator system for left ventricular pacing functions by sensing right ventricular pacing output from a previously implanted conventional device (pacemaker or defibrillator, with univentricular or biventricular leads), and then transmitting an ultrasound pulse to a wireless electrode implanted on the endocardium of the left ventricle, which then emits a left ventricular pacing pulse. In combination, the left ventricular and right ventricular pacemakers provide biventricular cardiac pacing.

The complete wireless left ventricular pacing system consists of a wireless endocardial left ventricle electrode and a pulse generator. The pulse generator has two components: a transmitter and a battery. The electrode is typically implanted transarterially into the left ventricular wall and powered wirelessly using ultrasound delivered by a subcutaneously implanted transmitter. Two subcutaneous pockets are created on the chest wall, one for the battery and one for the transmitter, and these two components are connected by a subcutaneously tunneled cable.

Patients with a wireless cardiac stimulator who also have a conventional pacing device require programming/interrogation of their existing conventional device, as well as the wireless device. The wireless cardiac stimulator is programmed and interrogated with its own separate programmer and settings.

Code 0515T describes insertion of a complete wireless cardiac stimulator system (electrode and pulse generator, which includes transmitter and battery) for left ventricular pacing, including interrogation, programming, pocket creation, relocation, and all echocardiography, left ventriculography, and fluoroscopic imaging to guide the procedure, when performed. For insertion of only the electrode of a wireless cardiac stimulator for left ventricular pacing, use 0516T. For insertion of both components of a new pulse generator (battery and transmitter), use 0517T.

A wireless cardiac stimulator for left ventricular pacing may need to be removed, relocated, or replaced. The electrode component of the stimulator typically is not removed once implanted. For removal of both components of the pulse generator (battery and transmitter) without replacement, use 0861T. For removal of only the battery component of the pulse generator without replacement, use 0518T. For relocation of the pulse generator, use 0862T for relocation of the battery component or 0863T for relocation of the transmitter component. For removal and replacement of both components of the pulse generator, use 0519T. For removal and replacement of only the battery component, use 0520T.

All catheterization, angiography, and imaging guidance (including transthoracic or transesophageal echocardiography) required to complete a wireless cardiac stimulator procedure is included in 0515T, 0516T, 0517T, 0518T, 0519T, 0520T, 0861T, 0862T, 0863T. Do not report 76000, 76998, 93303-93355, 93452, 93453, 93458, 93459, 93460, 93461, 93565, 93586, 93595, 93596, 93597 in conjunction with 0515T, 0516T, 0517T, 0518T, 0519T, 0520T, 0795T, 0796T, 0797T, 0798T, 0799T, 0800T, 0801T, 0802T, 0803T, 0823T, 0824T, 0825T, 0861T, 0862T, 0863T.

Do not report left heart catheterization codes (93452, 93453, 93458, 93459, 93460, 93461, 93595, 93596, 93597) for delivery of a wireless cardiac stimulator electrode into the left ventricle.

(For transesophageal echocardiography image guidance, use 93355)

Codes 0544T and 0545T include vascular access, catheterization, deploying and adjusting the reconstruction device(s), temporary pacemaker insertion for rapid pacing if required, and access site closure, when performed.

Angiography, radiological supervision and interpretation, intraprocedural roadmapping (eg, contrast injections, fluoroscopy) to guide the device implantation, ventriculography (eg, to assess target valve regurgitation for guidance of device implantation and adjustment), and completion angiography are included in 0544T and 0545T.

Diagnostic right and left heart catheterization codes (93451, 93452, 93453, 93454, 93455, 93456, 93457, 93458, 93459, 93460, 93461, 93565, 93566, 93593, 93594, 93595, 93596, 93597, 93598) may not be used in conjunction with 0544T, 0545T to report:

1. Contrast injections, angiography, roadmapping, and/or fluoroscopic guidance for the implantation and adjustment of the transcatheter mitral or tricuspid valve annulus reconstruction device, or
2. Right or left ventricular angiography to assess or confirm transcatheter mitral or tricuspid valve annulus reconstruction device positioning and function, or
3. Right and left heart catheterization for hemodynamic measurements before, during, and after transcatheter mitral or tricuspid valve annulus reconstruction for guidance.

Diagnostic right and left heart catheterization codes (93451, 93452, 93453, 93456, 93457, 93458, 93459, 93460, 93461, 93593, 93594, 93595, 93596, 93597, 93598) and diagnostic coronary angiography codes (93454, 93455, 93456, 93457, 93458, 93459, 93460, 93461, 93563, 93564) performed at the time of transcatheter mitral or tricuspid valve annulus reconstruction may be separately reportable, if:

1. No prior study is available and a full diagnostic study is performed, or
2. A prior study is available, but as documented in the medical record:
    a. There is inadequate visualization of the anatomy and/or pathology, or
    b. The patient's condition with respect to the clinical indication has changed since the prior study, or
    c. There is a clinical change during the procedure that requires new evaluation.

Other cardiac catheterization services may be reported separately, when performed for diagnostic purposes not intrinsic to the transcatheter mitral valve annulus reconstruction.

For same session/same day diagnostic cardiac catheterization services, report the appropriate diagnostic cardiac catheterization code(s) appended with modifier 59 indicating separate and distinct procedural service from transcatheter mitral or tricuspid valve annulus reconstruction.

Percutaneous coronary interventional procedures may be reported separately, when performed.

When cardiopulmonary bypass is performed in conjunction with transcatheter mitral valve or tricuspid valve annulus reconstruction, 0544T, 0545T should be reported with the appropriate add-on code for percutaneous peripheral bypass (33367), open peripheral bypass (33368), or central bypass (33369).

When transcatheter ventricular support is required, the appropriate code may be reported with the appropriate ventricular assist device (VAD) procedure (33990, 33991, 33992, 33993) or balloon pump insertion (33967, 33970, 33973).

For percutaneous transcatheter mitral valve repair, use 0345T. For percutaneous transcatheter mitral valve implantation/replacement (TMVI) with prosthetic valve, use 0483T.

0544T Transcatheter mitral valve annulus reconstruction, with implantation of adjustable annulus reconstruction device, percutaneous approach including transseptal puncture

Sunset January 2030

CPT Changes: An Insider's View 2020

(For transcatheter mitral valve repair percutaneous approach including transseptal puncture when performed, see 33418, 33419)

(For transcatheter mitral valve repair percutaneous approach via the coronary sinus, use 0345T)

(For transcatheter mitral valve implantation/replacement [TMVI] with prosthetic valve percutaneous approach, use 0483T)

0545T Transcatheter tricuspid valve annulus reconstruction with implantation of adjustable annulus reconstruction device, percutaneous approach

CPT Assistant Jul 22:8

(Do not report 0544T, 0545T in conjunction with 76000)

(Do not report 0544T, 0545T in conjunction with 93451, 93452, 93453, 93456, 93457, 93458, 93459, 93460, 93461, 93565, 93566, 93593, 93594, 93595, 93596, 93597, 93598 for diagnostic left and right heart catheterization procedures intrinsic to the annular repair procedure)

(Do not report 0544T, 0545T in conjunction with 93454, 93455, 93456, 93457, 93458, 93459, 93460, 93461, 93563, 93564 for coronary angiography procedures intrinsic to the annular repair procedure)

(For transcatheter left ventricular restoration device implantation from an arterial approach not necessitating transseptal puncture, use 0643T)

Code 0643T includes the primary arterial vascular access and contralateral arterial access and percutaneous access site closure, when performed. Guide catheter(s) and snare wire(s) may be required to advance the device to the treatment zone and are included in 0643T when performed. Left heart catheterization, intracardiac device customization, deploying, cinching, and adjusting the left ventricular restoration device are inherent to the procedure. Right heart catheterization may be performed for guidance of hemodynamics during device placement and is included in the procedure when performed for this purpose. Related angiography, radiological supervision and interpretation, intraprocedural roadmapping (eg, contrast injections, fluoroscopy) to guide the device implantation, ventriculography (eg, to assess ventricular shape, guidance of device implantation and adjustment), and completion angiography are included in 0643T.

Diagnostic right and left heart catheterization codes (93451, 93452, 93453, 93456, 93457, 93458, 93459, 93460, 93461, 93593, 93594, 93595, 93596, 93597), diagnostic coronary angiography codes (93454, 93455, 93456, 93457, 93458, 93459, 93460, 93461, 93563, 93564), and left ventriculography code (93565) may not be used in conjunction with 0643T to report:

1. Contrast injections, angiography, roadmapping, and/or fluoroscopic guidance for the implantation, intracardiac customization, deploying, cinching, and adjustment of the left ventricular restoration device, or
2. Left ventricular angiography to assess or confirm transcatheter left ventricular restoration device positioning and function, or
3. Right and left heart catheterization for hemodynamic measurements before, during, and after transcatheter left ventricular restoration device implantation for guidance.

Diagnostic right and left heart catheterization codes (93451, 93452, 93453, 93456, 93457, 93458, 93459, 93460, 93461, 93593, 93594, 93595, 93596, 93597) and diagnostic coronary angiography codes (93454, 93455, 93456, 93457, 93458, 93459, 93460, 93461, 93563, 93564) performed at the time of transcatheter left ventricular restoration device implantation may be separately reportable, if:

1. No prior study is available and a full diagnostic study is performed, or
2. A prior study is available, but as documented in the medical record:
   a. There is inadequate visualization of the anatomy and/or pathology, or
   b. The patient's condition with respect to the clinical indication has changed since the prior study, or
   c. There is clinical change during the procedure that requires new evaluation.

Other cardiac catheterization services may be reported separately, when performed for diagnostic purposes not intrinsic to transcatheter left ventricular restoration device implantation.

For same session/same day diagnostic cardiac catheterization services not intrinsic to the transcatheter left ventricular restoration device implantation procedure, report the appropriate diagnostic cardiac catheterization code(s) appended with modifier 59, indicating separate and distinct procedural service from transcatheter left ventricular restoration device implantation.

Percutaneous coronary interventional procedures may be reported separately, when performed.

When cardiopulmonary bypass is performed in conjunction with transcatheter left ventricular restoration device implantation, 0643T should be reported with the appropriate add-on code for percutaneous peripheral bypass (33367), open peripheral bypass (33368), or central bypass (33369).

When transcatheter ventricular support is required, the appropriate code may be reported with the appropriate ventricular assist device (VAD) procedure (33990, 33991, 33992, 33993) or balloon pump insertion (33967, 33970, 33973).

For transcatheter mitral valve annulus reconstruction with implantation of adjustable annulus reconstruction device from a venous approach, necessitating transseptal puncture, use 0544T.

 # 0643T Transcatheter left ventricular restoration device implantation including right and left heart catheterization and left ventriculography when performed, arterial approach

Codes 0559T, 0560T represent production of 3D-printed models of individually prepared and processed components of structures of anatomy. These individual components of structures of anatomy include, but are not limited to, bones, arteries, veins, nerves, ureters, muscles, tendons and ligaments, joints, visceral organs, and brain. Each 3D-printed anatomic model of a structure can be made up of one or more separate components. The 3D anatomic printings can be 3D printed in unique colors and/or materials.

Codes 0561T, 0562T represent the production of 3D-printed cutting or drilling guides using individualized imaging data. 3D-printed guides are cutting or drilling tools used during surgery and are 3D printed so that they precisely fit an individual patient's anatomy to guide the surgery. A cutting guide does not have multiple parts, but instead is a unique single tool. It may be necessary to make a 3D-printed model and a 3D-printed cutting or drilling guide on the same patient to assist with surgery.

Tricuspid Valve Repair

Codes 0569T, 0570T include the work of percutaneous vascular access, placing the access sheath, cardiac catheterization, advancing the repair device system into position, repositioning the prosthesis as needed, deploying the prosthesis, and vascular closure. Code 0569T may only be reported once per session. Add-on code 0570T is reported in conjunction with 0569T for each additional prosthesis placed.

For open tricuspid valve procedures, see 33460, 33463, 33464, 33465, 33468.

Angiography, radiological supervision and interpretation performed to guide transcatheter tricuspid valve repair (TTVr) (eg, guiding device placement and documenting completion of the intervention) are included in these codes.

Intracardiac echocardiography (93662), when performed, is included in 0569T, 0570T. Transesophageal echocardiography (93355) performed by a separate operator for guidance of the procedure may be separately reported.

Fluoroscopy (76000) and diagnostic right and left heart catheterization codes (93451, 93452, 93453, 93456, 93457, 93458, 93459, 93460, 93461, 93566, 93593, 93594, 93595, 93596, 93597, 93598) may **not** be used with 0569T, 0570T to report the following techniques for guidance of TTVr:

1. Contrast injections, angiography, roadmapping, and/or fluoroscopic guidance for the TTVr,
2. Right ventricular angiography to assess tricuspid regurgitation for guidance of TTVr, or
3. Right and left heart catheterization for hemodynamic measurements before, during, and after TTVr for guidance of TTVr.

Diagnostic right and left heart catheterization codes (93451, 93452, 93453, 93456, 93457, 93458, 93459, 93460, 93461, 93566, 93593, 93594, 93595, 93596, 93597, 93598) and diagnostic coronary angiography codes (93454, 93455, 93456, 93457, 93458, 93459, 93460, 93461, 93563, 93564) may be reported with 0569T, 0570T, representing separate and distinct services from TTVr, if:

1. No prior study is available and a full diagnostic study is performed, or
2. A prior study is available but as documented in the medical record:
    a. There is inadequate evaluation of the anatomy and/or pathology, or
    b. The patient's condition with respect to the clinical indication has changed since the prior study, or
    c. There is a clinical change during the procedure that requires new diagnostic evaluation.

Other cardiac catheterization services may be reported separately when performed for diagnostic purposes not intrinsic to TTVr.

For same session/same day diagnostic cardiac catheterization services, report the appropriate diagnostic cardiac catheterization code(s) with modifier 59 indicating separate and distinct procedural service from TTVr.

Diagnostic coronary angiography performed at a separate session from an interventional procedure may be separately reportable.

Percutaneous coronary interventional procedures may be reported separately, when performed.

When transcatheter ventricular support is required in conjunction with TTVr, the procedure may be reported with the appropriate ventricular assist device (VAD) procedure code (33990, 33991, 33992, 33993) or balloon pump insertion code (33967, 33970, 33973).

When cardiopulmonary bypass is performed in conjunction with TTVr, 0569T, 0570T may be reported with the appropriate add-on code for percutaneous peripheral bypass (33367), open peripheral bypass (33368), or central bypass (33369).

(Do not report 0569T, 0570T in conjunction with 93454, 93563, 93564 for coronary angiography intrinsic to the valve repair procedure)

Tricuspid Valve Implantation/Replacement

Code 0646T includes vascular access, catheterization, repositioning the valve delivery device as needed, deploying the valve, temporary pacemaker insertion for rapid pacing (33210), and access site closure by any method, when performed.

Angiography (eg, peripheral), radiological supervision and interpretation, intraprocedural roadmapping (eg, contrast injections, fluoroscopy, intracardiac echocardiography) to guide the transcatheter tricuspid valve implantation (TTVI)/replacement, right atrial and/or right ventricular angiography (eg, to assess tricuspid regurgitation for guidance of TTVI), and completion angiography are included in 0646T.

Transesophageal echocardiography (93355) performed by a separate operator for guidance of the procedure may be separately reported. Intracardiac echocardiography (93662) is not separately reportable when performed.

Diagnostic right heart catheterization codes (93451, 93453, 93456, 93457, 93460, 93461, 93593, 93594, 93596, 93597) and right atrial/right ventricular angiography code (93566) should not be used with 0646T to report:

1. Contrast injections, angiography, roadmapping, and/or fluoroscopic guidance for the TTVI,
2. Right atrial and/or ventricular angiography to assess or confirm valve positioning and function,
3. Right heart catheterization for hemodynamic measurements before, during, and after TTVI for guidance of TTVI.

Diagnostic right heart catheterization codes (93451, 93453, 93456, 93457, 93460, 93461, 93593, 93594, 93596, 93597) and right atrial/right ventricular angiography code (93566) performed at the time of TTVI may be separately reportable, if:

1. No prior study is available and a full diagnostic study is performed, or
2. A prior study is available, but as documented in the medical record:
   a. There is inadequate visualization of the anatomy and/or pathology, or
   b. The patient's condition with respect to the clinical indication has changed since the prior study, or
   c. There is a clinical change during the procedure that requires new evaluation.

For same session/same day diagnostic cardiac catheterization services, report the appropriate diagnostic cardiac catheterization code(s) appended with modifier 59, indicating separate and distinct procedural service from TTVI.

When transcatheter ventricular support is required in conjunction with TTVI, the procedure may be reported with the appropriate ventricular assist device (VAD) procedure code (33990, 33991, 33992, 33993) or balloon pump insertion code (33967, 33970, 33973).

 # 0646T Transcatheter tricuspid valve implantation (TTVI)/replacement with prosthetic valve, percutaneous approach, including right heart catheterization, temporary pacemaker insertion, and selective right ventricular or right atrial angiography, when performed

(For transcatheter tricuspid valve repair, see 0569T, 0570T)

Implantable Cardioverter-Defibrillator with Substernal Electrode

An implantable cardioverter-defibrillator system with substernal electrode (substernal implantable cardioverter-defibrillator) consists of a pulse generator and at least one substernal electrode. The generator is placed in a subcutaneous pocket over the lateral rib cage. The electrode is tunneled subcutaneously and placed into the substernal anterior mediastinum, without entering the pericardial cavity. The electrode performs defibrillation and antitachycardia pacing, but not chronic pacing. The system requires programming and interrogation of the device.

All imaging guidance (eg, fluoroscopy) required to complete the substernal implantable defibrillator procedure is included in 0571T, 0572T, 0573T, 0574T. The work of implantation, removal, repositioning, interrogation, or programming of substernal implantable cardioverter-defibrillator systems, generators, or leads may not be reported using 33202-33275, 93260-93298, 93640, 93641, 93642, 93644.

0571T Insertion or replacement of implantable cardioverter-defibrillator system with substernal electrode(s), including all imaging guidance and electrophysiological evaluation (includes defibrillation threshold evaluation, induction of arrhythmia, evaluation of sensing for arrhythmia termination, and programming or reprogramming of sensing or therapeutic parameters), when performed

Health and Well-Being Coaching

Health and well-being coaching is a patient-centered approach wherein patients determine their goals, use self-discovery or active learning processes together with content education to work toward their goals, and self-monitor behaviors to increase accountability, all within the context of an interpersonal relationship with a coach. The health and well-being coach is qualified to perform health and well-being coaching by education, training, national examination and, when applicable, licensure/regulation, and has completed a training program in health and well-being coaching whose content meets standards established by an applicable national credentialing organization. The training includes behavioral change theory, motivational strategies, communication techniques, health education and promotion theories, which are used to assist patients to develop intrinsic motivation and obtain skills to create sustainable change for improved health and well-being.

0640T Code is out of numerical sequence. See 0489T-0495T

Code 0644T is for transcatheter percutaneous removal or debulking of intracardiac vegetations (eg, endocarditis) or mass(es) (eg, thrombus) using a suction device. Code 0644T includes the work of percutaneous access, all associated sheath device introduction, manipulation and positioning of guidewires and selective and non-selective catheterizations (eg, 36140, 36200, 36215, 36216, 36217, 36218, 36245, 36246, 36247, 36248), blood vessel dilation, embolic protection if used, percutaneous venous thrombectomy (eg, 37187, 37188), and closure of the blood vessel by pressure or application of an access vessel arterial closure device.

If an axillary, femoral, or iliac conduit is required to facilitate access of the catheter, 34714, 34716, or 34833 may be reported in addition to 0644T.

Extensive repair or replacement of a blood vessel (eg, 35206, 35226, 35231, 35236, 35256, 35266, 35286, 35302, 35371) may be reported separately.

Fluoroscopic and ultrasound guidance used in conjunction with percutaneous intracardiac mass removal is not separately reported. Transesophageal echocardiography guidance may be reported separately when provided by a separate provider.

The insertion and removal of arterial and/or venous cannula(e) (eg, 33951, 33952, 33953, 33954, 33955, 33956, 33965, 33966, 33969, 33984, 33985, 33986) and initiation (eg, 33946, 33947) of the extracorporeal circuit (veno-arterial or veno-venous) for intraoperative reinfusion of aspirated blood is included in the procedure. If prolonged extracorporeal membrane oxygenation (ECMO) or extracorporeal life support (ECLS) is required at the conclusion of the procedure, then the appropriate ECMO cannula(e) insertion code (eg, 33951, 33952, 33953, 33954, 33955, 33956), removal code (33965, 33966, 33969, 33984, 33985, 33986), and initiation code (eg, 33946, 33947) may be reported in addition to 0644T.

Other interventional procedures performed at the time of percutaneous intracardiac mass removal may be reported separately (eg, removal of infected pacemaker leads, removal of tunneled catheters, placement of dialysis catheters, valve repair, or replacement).

When transcatheter ventricular support is required in conjunction with percutaneous intracardiac mass removal, 0644T may be reported with the appropriate ventricular assist device (VAD) procedure code (33975, 33976, 33990, 33991, 33992, 33993, 33995, 33997, 33999) or balloon pump insertion code (33967, 33970, 33973).

When cardiopulmonary bypass is performed in conjunction with percutaneous intracardiac mass removal, 0644T may be reported with the appropriate add-on code for percutaneous peripheral bypass (33367), open peripheral bypass (33368), or central bypass (33369).

0643T Code is out of numerical sequence. See 0544T-0547T

0644T Transcatheter removal or debulking of intracardiac mass (eg, vegetations, thrombus) via suction (eg, vacuum, aspiration) device, percutaneous approach, with intraoperative reinfusion of aspirated blood, including imaging guidance, when performed

CPT Changes: An Insider's View 2022

CPT Assistant Jun 22:22

(Do not report 0644T in conjunction with 37187, 37188)

Code 0645T describes transcatheter implantation of a coronary sinus reduction device and includes vascular access, ultrasound guidance, vascular closure, right heart catheterization, coronary sinus catheterization, venography, coronary sinus angiography, right atrial or right ventricular angiography, any interventions in the coronary sinus, and any other imaging required for guidance of the coronary sinus reduction device placement.

Intracardiac echocardiography (93662), when performed, is included in 0645T. Transesophageal echocardiography (93355) performed by a separate operator for guidance of the procedure may be separately reported.

Diagnostic right heart catheterization codes (93451, 93453, 93456, 93457, 93460, 93461, 93566, 93593, 93594, 93596, 93597, 93598) should **not** be used in conjunction with 0645T to report contrast injections, angiography, roadmapping, fluoroscopic guidance for the coronary sinus reduction device implantation, right atrial, right ventricular, or coronary sinus angiography to assess or confirm device positioning and function, or right heart catheterization for hemodynamic measurements before, during, and after coronary sinus reduction device implantation for guidance of the procedure.

Diagnostic right and left heart catheterization codes (93451, 93452, 93453, 93456, 93457, 93458, 93459, 93460, 93461, 93566, 93593, 93594, 93595, 93596, 93597, 93598) and diagnostic coronary angiography codes (93454, 93455, 93456, 93457, 93458, 93459, 93460, 93461, 93563, 93564) performed at the time of coronary sinus reduction device implantation may be separately reportable, if:

1. No prior study is available and a full diagnostic study is performed, or
2. A prior study is available, but as documented in the medical record:
   a. There is inadequate visualization of the anatomy and/or pathology, or
   b. The patient's condition with respect to the clinical indication has changed since the prior study, or
   c. There is a clinical change during the procedure that requires new evaluation.

For same session/same day diagnostic cardiac catheterization services, report the appropriate diagnostic cardiac catheterization code(s) appended with modifier 59, indicating separate and distinct procedural service from transcatheter coronary sinus reduction implantation.

0645T Transcatheter implantation of coronary sinus reduction device including vascular access and closure, right heart catheterization, venous angiography, coronary sinus angiography, imaging guidance, and supervision and interpretation, when performed

Subcutaneous Cardiac Rhythm Monitor System Programming Device Evaluation (Remote)

The programming evaluation of a subcutaneous cardiac rhythm monitor system may be performed in-person or remotely. Codes 93285, 0650T are reported per procedure. Remote programming device evaluation (0650T) includes in-person device programming (93285), when performed, on the same day. Programming device evaluation includes all components of the interrogation device evaluation. Therefore, 93291 (in-person interrogation) should not be reported in conjunction with 93285, 0650T. Programming device evaluations (93285, 0650T) and remote interrogation device evaluations (93298) may both be reported during the 30-day remote interrogation device evaluation period.

0650T Programming device evaluation (remote) of subcutaneous cardiac rhythm monitor system, with iterative adjustment of the implantable device to test the function of the device and select optimal permanently programmed values with analysis, review and report by a physician or other qualified health care professional

Uterus Transplantation

Uterus allotransplantation involves three distinct components of physician work:

1. ***Cadaver donor hysterectomy*,** which includes harvesting the uterus allograft from a deceased (eg, brain-dead, cadaver) donor and cold preservation of the uterus allograft (perfusing with cold preservation solution and cold maintenance) (use 0664T). ***Living donor hysterectomy*,** which includes harvesting the uterus allograft, cold preservation of the uterus allograft (perfusing with cold preservation solution and cold maintenance), and care of the donor (see 0665T, 0666T).
2. ***Backbench work*,** which includes standard preparation of the cadaver or living uterus allograft prior to transplantation, such as dissection and removal of surrounding soft tissues to prepare uterine vein(s) and uterine artery(ies), as necessary (use 0668T). Additional reconstruction of the uterus allograft may include venous and/or arterial anastomosis(es) (see 0669T, 0670T).
3. ***Recipient uterus allotransplantation*,** which includes transplantation of the uterus allograft and care of the recipient (use 0667T).

Implantable Synchronized Diaphragmatic Stimulation System for Augmentation of Cardiac Function

An implantable synchronized diaphragmatic stimulation system for augmentation of cardiac function consists of a pulse generator and two diaphragmatic leads. The generator is placed in a subcutaneous pocket in the abdomen. The electrodes are affixed to the inferior surface of the diaphragm. The electrodes deliver synchronized diaphragmatic stimulation (SDS) pulses, causing localized contractions of the diaphragm muscle gated to the cardiac cycle, designed to augment intrathoracic pressure and improve cardiac output and left ventricular function.

For laparoscopic insertion or replacement of the complete SDS system (diaphragmatic pulse generator and lead[s]), use 0674T. For laparoscopic insertion of new or replacement of diaphragmatic lead(s), see 0675T, 0676T. For repositioning or relocation of individual components of the SDS system, see 0677T, 0678T for the diaphragmatic lead(s), or use 0681T for the diaphragmatic pulse generator. For laparoscopic removal of diaphragmatic lead(s) without replacement, use 0679T. For insertion or replacement of the diaphragmatic pulse generator only, use 0680T. For removal of the generator only, use 0682T.

Codes 0674T, 0675T, 0676T, 0677T, 0678T, 0680T, 0681T include both interrogation and programming by the implant physician, when performed. Interrogation device evaluation and programming device evaluation include parameters of pulse amplitude, pulse duration, battery status, lead and electrode selectability, impedances, and R-wave sensitivity.

0674T Laparoscopic insertion of new or replacement of permanent implantable synchronized diaphragmatic stimulation system for augmentation of cardiac function, including an implantable pulse generator and diaphragmatic lead(s)

The anterior segment of the eye includes the cornea, lens, iris, and aqueous. The aqueous is divided into anterior and posterior chambers. The anterior chamber is by far the larger, including all of the aqueous in front of the lens and iris and behind the cornea. The posterior chamber includes the narrow area behind the iris and in front of the peripheral portion of the lens and lens zonules.

0699T Injection, posterior chamber of eye, medication

Digital Pathology Digitization Procedures

Digital pathology is a dynamic, image-based environment that enables the acquisition, management, and interpretation of pathology information generated from digitized glass microscope slides.

Glass microscope slides are scanned by clinical staff, and captured whole-slide images (either in real-time or stored in a computer server or cloud-based digital image archival and communication system) are used for digital examination for pathologic diagnosis distinct from direct visualization through a microscope. Static digital photographic and photomicrographic imaging or digital video streaming of any portion of a glass microscope slide on mobile smartphone and tablet devices does not constitute a digital pathology digitization procedure.

Digitization of glass microscope slides enables remote examination by the pathologist and/or in conjunction with the use of artificial intelligence (AI) algorithms. Category III add-on codes 0751T-0763T, 0827T-0856T may be reported in addition to the appropriate Category I service code when the digitization procedure of glass microscope slides is performed and reported in conjunction with the Category I code for the primary service. Each Category III add-on code is reported as a one-to-one unit of service for each primary pathology service code.

Do not report the Category III codes in this subsection solely for archival purposes (eg, after the Category I service has already been performed and reported), solely for educational purposes (eg, when services are not used for individual patient reporting), solely for developing a database for training or validation of AI algorithms, or solely for clinical conference presentations (eg, tumor board interdisciplinary conferences).

(Use 0764T in conjunction with 93000, 93010)

(Use 0764T only once for each unique, concurrently performed electrocardiogram tracing)

0765T related to previously performed electrocardiogram

Sunset January 2028

CPT Changes: An Insider's View 2023

(Use 0765T only once for each unique, previously performed electrocardiogram tracing)

Codes 0766T, 0767T describe transcutaneous magnetic stimulation that is performed to treat chronic nerve pain and provided by a physician or other qualified health care professional. The selected nerve is mapped and localized using magnetic stimulation at the time of each treatment and the appropriate amplitude of magnetic stimulation is defined. Noninvasive electroneurography (nerve conduction) may be used as guidance to confirm the precise localization of the selected nerve and, when performed, should not be separately reported as a diagnostic study. A separate diagnostic nerve conduction study performed prior to the decision to treat with transcutaneous magnetic stimulation may be separately reported.

0766T Transcutaneous magnetic stimulation by focused low-frequency electromagnetic pulse, peripheral nerve, with identification and mapping of the treatment location, including noninvasive electroneurographic localization (nerve conduction localization), when performed; first nerve

Sunset January 2028

CPT Changes: An Insider's View 2023, 2024

+ 0767T each additional nerve (List separately in addition to code for primary procedure)

Sunset January 2028

CPT Changes: An Insider's View 2023, 2024

(Use 0767T in conjunction with 0766T)

(Do not report 0766T, 0767T in conjunction with 95885, 95886, 95887, 95905, 95907, 95908, 95909, 95910, 95911, 95912, 95913, for nerve conduction used as guidance for transcutaneous magnetic stimulation therapy)

(Do not report 0766T, 0767T in conjunction with 64566, 90867, 90868, 90869, 97014, 97032, 0278T, for the same nerve)

(For posterior tibial neurostimulation, percutaneous needle electrode, use 64566)

(For therapeutic repetitive transcranial magnetic stimulation [TMS] treatment, see 90867, 90868, 90869)

(For application of a modality to one or more areas, electrical stimulation [unattended], use 97014)

(For application of a modality to one or more areas, electrical stimulation [manual], each 15 minutes, use 97032)

(For transcutaneous electrical modulation pain reprocessing [eg, scrambler therapy], each treatment session [includes placement of electrodes], use 0278T)

(0768T, 0769T have been deleted)

(For transcutaneous magnetic stimulation by focused low-frequency electromagnetic pulse, peripheral nerve, see 0766T, 0767T)

Virtual reality (VR) technology may be integrated into multiple types of patient therapy as an adjunct to the base therapy. Code 0770T is an add-on code that represents the practice expense for the software used for the VR technology and may be reported for each session for which the VR technology is used. VR technology is incorporated into the base therapy session and is used to enhance the training or teaching of a skill upon which the therapy is focused. Code 0770T does not incur any additional reported therapist time beyond that already reported with the base therapy code.

+ 0770T Virtual reality technology to assist therapy (List separately in addition to code for primary procedure)

Sunset January 2028

CPT Changes: An Insider's View 2023

(Use 0770T only in conjunction with 90832, 90833, 90834, 90836, 90837, 90838, 90847, 90849, 90853, 92507, 92508, 96158, 96159, 96164, 96165, 96167, 96168, 96170, 96171, 97110, 97112, 97129, 97150, 97153, 97154, 97155, 97158, 97530, 97533, 97535, 97537)

(Do not report 0770T more than once per session)

Virtual Reality Patient Procedural Dissociation

Virtual reality (VR) procedural dissociation is a VR-based state of altered consciousness that supports and optimizes the patient's comfort, increases procedural tolerance, and decreases the patient's pain during the associated procedure. VR procedural dissociation establishes a computer-generated audio, visual, and proprioceptive immersive environment in which patients respond purposefully to verbal commands and stimuli, either alone or accompanied by light tactile stimulation. VR procedural dissociation does not involve interventions to maintain cardiovascular function, patent airway, or spontaneous ventilation.

VR procedural dissociation codes 0771T, 0772T, 0773T, 0774T are not used to report administration of medications for pain control, minimal sedation (anxiolysis), moderate sedation (99151, 99152, 99153, 99155, 99156, 99157), deep sedation, or monitored anesthesia care (00100-01999). Time spent administering VR procedural dissociation cannot be used to report moderate sedation or anesthesia services. VR procedural dissociation is not reported for patients younger than 5 years of age.

For 0771T, 0772T, the independent, trained observer is an individual who is qualified to monitor the patient during the procedure and has no other duties (eg, assisting at surgery) during the procedure. This individual has undergone training in immersive technologies and can adjust the technology under the supervision of the physician or other qualified health care professional who is performing the procedure. If the physician or other qualified health care professional who provides the VR also performs the procedure supported by VR (0771T, 0772T), the physician or other qualified health care professional will supervise and direct the independent, trained observer who will assist in monitoring the patient's level of consciousness, procedural disassociation, and physiological status throughout the procedure.

Intraservice time is used to determine the appropriate code to report VR procedural dissociation and is defined as:

- beginning with administration of the immersive VR technology, which at a minimum, includes audio, video, and proprioceptive feedback;
- requiring continuous face-to-face attendance of the physician or other qualified health care professional. Once continuous face-to-face time with the patient has ended, additional face-to-face time with the patient is not added to the intraservice time;
- ending when the procedure and the administration of the VR technology ends and the physician or other qualified health care professional is no longer continuously face-to-face with the patient;
- requiring monitoring patient response to the VR procedural dissociation, including;
  - periodic assessment of the patient;
  - monitoring of procedural tolerance, oxygen saturation, heart rate, pain, neurological status, and global anxiety;
  - altering of and/or adjustment of the VR program to optimize the dissociated state based on patient tolerance of the associated.
  - Optimization techniques include:
    - changing the VR baseline software program and/or adjustment of program volume;
    - adjusting the visual virtual environment;
    - altering the visual virtual position of the VR program to enable patient repositioning;
    - changing an embedded video programming in the virtual environment to maintain the dissociated state; and
    - utilizing and adjusting a proprioception, olfactory, or tactile feedback loop that corresponds to the VR program to achieve a proper and/or deeper dissociated state.

Preservice work and time are not reported separately and include the initial ordering and selecting of the VR program, describing VR procedural dissociation to the patient and/or family, and applying the VR device to the patient prior to starting the procedure. Postservice work and time is not reported separately and begins with the end of the procedure, the termination of the VR technology, and when the physician or other qualified health care professional is no longer continuously face-to-face with the patient.

		Virtual reality (VR) procedural dissociation by physician or other qualified health care professional (same physician or other qualified health care professional performing the procedure the VR is supporting)	Virtual reality (VR) procedural dissociation by different physician or other qualified health care professional (not the physician or other qualified health care professional who is performing the procedure the VR is supporting)
Total Intraservice Time for VR Procedural Dissociation	**Patient Age**	**Code(s)**	**Code(s)**
Less than 10 minutes	< 5 years	Not reported separately	Not reported separately
	5 years or older	Not reported separately	Not reported separately
10-22 minutes	5 years or older	0771T	0773T
23-37 minutes	5 years or older	0771T + 0772T X 1	0773T + 0774T X 1
38-52 minutes	5 years or older	0771T + 0772T X 2	0773T + 0774T X 2
53-67 minutes	5 years or older	0771T + 0772T X 3	0773T + 0774T X 3

0771T Virtual reality (VR) procedural dissociation services provided by the same physician or other qualified health care professional performing the diagnostic or therapeutic service that the VR procedural dissociation supports, requiring the presence of an independent, trained observer to assist in the monitoring of the patient's level of dissociation or consciousness and physiological status; initial 15 minutes of intraservice time, patient age 5 years or older

Office-Based Measurement of Mechanomyography and Inertial Measurement Units

Code 0778T represents the measurement and recording of dynamic joint motion and muscle function that includes the incorporation of multiple inertial measurement units (IMUs) with concurrent surface mechanomyography (sMMG) sensors. Code 0778T is not a remote service and measurements are obtained in the office setting while the patient is physically present.

The IMU sensors contain an accelerometer that measures acceleration and velocity of the body during movement, a gyroscope that measures the positioning, rotation, and orientation of the body during movement, and a magnetometer that measures the strength and direction of the magnetic field to orient the body position during movement relative to the earth's magnetic north field. The sMMG sensors measure muscle function by quantifying muscle activation and contraction amplitude and duration by recording high-sensitivity volumetric change.

A combination of the sensors is used to dynamically record multi-joint motion and muscle function bilaterally and concurrently during functional movement. Data collected from the wireless-enabled IMUs and sMMGs are then uploaded to a secure, Health Insurance Portability and Accountability Act (HIPAA)-compliant cloud-based processing platform. The cloud-based application immediately processes the data and produces an automated report with digestible chronological data to assist in serial tracking improvement, decline, or plateau of progress during the episode of care. When 0778T is performed on the same day as another therapy, assessment, or evaluation services, those services may be reported separately and in addition to 0778T.

0778T Surface mechanomyography (sMMG) with concurrent application of inertial measurement unit (IMU) sensors for measurement of multi-joint range of motion, posture, gait, and muscle function

(For percutaneous transcatheter ultrasound ablation of nerves innervating the pulmonary arteries, including right heart catheterization, pulmonary artery angiography, and all imaging guidance, use 0632T)

Pharmaco-oncologic Algorithmic Treatment Ranking

Code 0794T (pharmaco-oncologic treatment ranking) represents rules based algorithm–generated match scores that rank available monotherapies and drug combinations according to their ability to target the patient's specific cancer biomarkers. These pharmaco-oncologic treatment ranking options are based only on current Food and Drug Administration (FDA)-approved drugs but may include both on-label and off-label uses for targeted therapies, and additional information may also be provided on potential active clinical trials that include specifically matched, currently available, therapy options. Code 0794T includes time spent by the physician, other qualified health care professional, or clinical staff in submitting the patient's clinical and existing molecular, laboratory, or pathology result data for algorithmic assessment. Only existing result data should be submitted without alteration of original results and interpretations (eg, variant calls or expression markers) from those separately reported by the original performing clinical laboratories and should not include genomic sequencing raw data files for re-evaluation. The algorithmic program generates a report that is used by the physician or other qualified health care professional to inform treatment choices.

0794T Patient-specific, assistive, rules-based algorithm for ranking pharmaco-oncologic treatment options based on the patient's tumor-specific cancer marker information obtained from prior molecular pathology, immunohistochemical, or other pathology results which have been previously interpreted and reported separately

CPT Changes: An Insider's View 2024
CPT Assistant Nov 23:19

Dual-Chamber Leadless Pacemaker

A complete dual-chamber leadless pacemaker system includes two pulse generators, each with a built-in battery and electrode. Implantation of this system is performed using a catheter under fluoroscopic guidance via transvenous access. One pacemaker is implanted in the right atrium, and one is implanted in the right ventricle. Rarely, for clinical reasons, a complete dual-chamber leadless pacemaker system may be completed in stages, with one pacemaker implanted into the right ventricle at the initial procedure and the other implanted into the right atrium at a subsequent session. An existing single-chamber right ventricular leadless pacemaker may be upgraded to a complete dual-chamber leadless pacemaker system by implantation of a right atrial leadless pacemaker.

For insertion of a complete dual-chamber leadless pacemaker system, report 0795T. For insertion of a leadless pacemaker into the right atrium when a single-chamber right ventricular leadless pacemaker already exists, in order to complete the dual-chamber leadless pacemaker system, report 0796T. For insertion of only the right ventricular pacemaker component of a dual-chamber leadless pacemaker system, report 0797T. For removal of a complete dual-chamber leadless pacemaker system, report 0798T. For removal of only the right atrial leadless pacemaker component of a complete dual-chamber leadless pacemaker, report 0799T. For removal of only the right ventricular leadless pacemaker component of a complete dual-chamber leadless pacemaker, report 0800T. For removal and replacement of a complete dual-chamber leadless pacemaker system, report 0801T. For removal and replacement of only one pacemaker component of a complete dual-chamber leadless pacemaker system, report 0802T for the right atrial pacemaker component or 0803T for the right ventricular pacemaker component.

Right heart catheterization (93451, 93453, 93456, 93457, 93460, 93461, 93593, 93594, 93596, 93597) may not be reported in conjunction with dual-chamber leadless pacemaker codes 0795T, 0796T, 0797T, 0798T, 0799T, 0800T, 0801T, 0802T, 0803T, unless complete right heart catheterization is performed for an indication distinct from the dual-chamber leadless pacemaker procedure.

For programming device evaluation of a dual-chamber leadless pacemaker system, report 0804T. Device evaluation code 93279 may not be reported in conjunction with dual-chamber leadless pacemaker system codes 0795T, 0796T, 0797T, 0798T, 0799T, 0800T, 0801T, 0802T, 0803T.

Radiological supervision and interpretation, fluoroscopy (76000, 77002), ultrasound guidance for vascular access (76937), right ventriculography (93566), and femoral venography (75820) are included in the leadless pacemaker procedures, when performed.

0795T Transcatheter insertion of permanent dual-chamber leadless pacemaker, including imaging guidance (eg, fluoroscopy, venous ultrasound, right atrial angiography, right ventriculography, femoral venography) and device evaluation (eg, interrogation or programming), when performed; complete system (ie, right atrial and right ventricular pacemaker components)

Sunset January 2029

CPT Changes: An Insider's View 2024

(Do not report 0804T in conjunction with 0795T, 0796T, 0797T, 0798T, 0799T, 0800T, 0801T, 0802T, 0803T)

Codes 0805T, 0806T are used to report transcatheter superior and inferior vena cava prosthetic valve implantation (ie, caval valve implantation [CAVI]).

Codes 0805T, 0806T include the work, when performed, of vascular access, placing the access sheath, transseptal puncture, advancing the caval valve delivery systems into position, repositioning the device(s) as needed, and deploying the device(s).

Angiography and radiological supervision and interpretation performed to guide CAVI (eg, guiding device placement and documenting completion of the intervention) are included in these codes.

Diagnostic right and left heart catheterization codes (93451, 93452, 93453, 93456, 93457, 93458, 93459, 93460, 93461, 93593, 93594, 93595, 93596, 93597, 93598) should **not** be used with 0805T, 0806T to report:

1. Contrast injections, angiography, road-mapping, and/or fluoroscopic guidance for the transcatheter CAVI,
2. Left ventricular angiography to assess tricuspid regurgitation for guidance of the transcatheter CAVI, or
3. Right and left heart catheterization for hemodynamic measurements before, during, and after transcatheter superior and inferior vena cava prosthetic valve implantation for guidance.

Diagnostic right and left heart catheterization codes (93451, 93452, 93453, 93456, 93457, 93458, 93459, 93460, 93461, 93593, 93594, 93595, 93596, 93597, 93598) and diagnostic coronary angiography codes (93454, 93455, 93456, 93457, 93458, 93459, 93460, 93461, 93563, 93564) may be reported with 0805T, 0806T, representing separate and distinct services from CAVI, if:

1. No prior study is available and a full diagnostic study is performed, or
2. A prior study is available, but as documented in the medical record:
   a. There is inadequate visualization of the anatomy and/or pathology, or
   b. The patient's condition with respect to the clinical indication has changed since the prior study, or
   c. There is a clinical change during the procedure that requires new evaluation.

For same session or same day diagnostic cardiac catheterization services, the appropriate diagnostic cardiac catheterization code(s) may be reported by appending modifier 59 indicating separate and distinct procedural service from the transcatheter superior and inferior vena cava prosthetic valve implantation procedures.

Percutaneous coronary interventional therapeutic procedures may be reported separately, when performed.

When transcatheter ventricular support is required in conjunction with CAVI, the appropriate ventricular assist device (VAD) procedure codes (33990, 33991, 33992, 33993, 33995, 33997) or balloon pump insertion codes (33967, 33970, 33973) may be reported.

When cardiopulmonary bypass is performed in conjunction with CAVI, 0805T and 0806T may be reported with the appropriate add-on code for percutaneous peripheral bypass (33367), open peripheral bypass (33368), or central bypass (33369).

Continuous In-Person Monitoring and Intervention During Psychedelic Medication Therapy

Continuous in-person monitoring and intervention (eg, psychotherapy, crisis intervention) is provided during and following supervised patient self-administration of a psychedelic medication in a therapeutic setting. Psychedelic medications induce distinctive alterations in perception that may place the patient at risk for emotional vulnerability and physiologic instability. The medications' pharmacologic risks may persist for multiple hours, and during this time, the patient may require continuous in-person monitoring and intervention by a physician or other qualified health care professional (QHP) to support the patient's physical, emotional, and psychological safety and to optimize treatment outcomes.

Code 0820T is used to report the total duration of in-person time with the patient by the physician or other QHP providing continuous monitoring, and intervention as needed, during psychedelic medication therapy. Codes 0821T, 0822T are used to report the concurrent in-person participation of a second physician or other QHP (0821T), or the concurrent in-person participation of clinical staff (0822T) based on a patient's complex presentation, that requires additional personnel in the therapy room (eg, a physician or other QHP monitoring patient needs assistance from additional clinical staff due to a crisis by the psychedelic experience that surfaces past psychological trauma). If necessary, report 0821T, 0822T, as appropriate. It is unlikely that more than two personnel need to be in the room at the same time with the patient (ie, the initial physician or other QHP and one additional physician or other QHP or clinical staff).

Psychotherapy (90832, 90833, 90834, 90836, 90837, 90838), psychotherapy for crisis (90839, 90840), neurobehavioral status examination (96116, 96121), adaptive behavior assessments (97151, 97152), adaptive behavior treatment (97153, 97154, 97155, 97156, 97157, 97158), or prolonged clinical staff services (99415, 99416) may not be reported on the same date of service.

(Use 0821T, 0822T in conjunction with 0820T)

Right Atrial Leadless Pacemaker

A right atrial single-chamber leadless pacemaker includes a pulse generator with a built-in battery and electrode for implantation into the right atrium. Implantation of the atrial leadless pacemaker is performed using a catheter under fluoroscopic guidance via transvenous access.

Codes 0823T, 0824T, 0825T, 0826T only apply to single-chamber leadless pacemakers implanted in the right atrium intended for atrial pacing only and that are not part of a dual-chamber leadless system. For insertion of a right atrial single-chamber leadless pacemaker, report 0823T. For removal of a right atrial single-chamber leadless pacemaker, report 0824T. For removal and replacement of a right atrial single-chamber leadless pacemaker, report 0825T.

Leadless pacemakers are modular systems, and for clinical reasons, a dual-chamber leadless pacemaker may be implanted in stages with one pacemaker implanted into the right ventricle at the initial procedure and one pacemaker implanted into the right atrium at a subsequent session.

When a right atrial leadless pacemaker component of a dual-chamber system is modified or a right atrial leadless pacemaker is implanted to complete a dual-chamber leadless pacemaker system, see 0796T, 0799T, 0802T. For insertion of a leadless pacemaker into the right atrium when a single-chamber right ventricular leadless pacemaker already exists, in order to complete the dual-chamber system, report 0796T. If the right atrial leadless pacemaker is permanently removed when part of a dual-chamber leadless system, report 0799T. If the right atrial leadless pacemaker is removed and replaced when part of a dual-chamber leadless system, report 0802T.

Right heart catheterization (93451, 93453, 93456, 93460, 93461) may not be reported in conjunction with leadless pacemaker insertion, removal, and removal and replacement codes 33274, 33275, 0795T, 0796T, 0797T, 0798T, 0799T, 0800T, 0801T, 0802T, 0803T, 0823T, 0824T, 0825T, unless complete right heart catheterization is performed for an indication distinct from leadless pacemaker procedure.

For programming device evaluation (in person) of a right atrial single-chamber leadless pacemaker, report 0826T. Device evaluation code 93279 may not be reported in conjunction with right atrial single-chamber leadless pacemaker system codes 0823T, 0824T, 0825T.

Fluoroscopy (76000, 77002), ultrasound guidance for vascular access (76937), right ventriculography (93566), and femoral venography (75820) are included in 0823T, 0824T, 0825T, when performed.

0823T Transcatheter insertion of permanent single-chamber leadless pacemaker, right atrial, including imaging guidance (eg, fluoroscopy, venous ultrasound, right atrial angiography and/or right ventriculography, femoral venography, cavography) and device evaluation (eg, interrogation or programming), when performed

Sunset January 2029

CPT Changes: An Insider's View 2024

(Use 0857T in conjunction with 76641, 76642)

Code 0858T represents measurement of evoked cortical potentials associated with transcranial magnetic stimulation of two or more cortical areas using multiple, externally applied scalp electrode channels. Upon stimulation, the device performs automated signal processing indicating brain physiological features of connectivity, excitability, and plasticity, which may be impaired with structural and functional brain deficits. Because these physiological features may be altered in certain types of brain disease, the device's automated report of analyzed data is intended to provide clinical insight of brain function within the context of certain brain disease states.

0858T Externally applied transcranial magnetic stimulation with concomitant measurement of evoked cortical potentials with automated report

Transcatheter Therapeutic Drug Delivery by Intracoronary Drug-Delivery Balloon

Codes 0913T, 0914T describe percutaneous coronary revascularization services by intracoronary antiproliferative drug delivery, performed for occlusive disease of the coronary vessels (major coronary arteries, coronary artery branches) using drug-delivery balloon (eg, drug-coated, drug-eluting) for intracoronary antiproliferative drug delivery. Code 0913T includes the work of accessing and selectively catheterizing the vessel, coronary angiography and intracoronary imaging (eg, intracoronary ultrasound, intracoronary optical coherence tomography) to guide the intervention, traversing the lesion, radiological supervision and interpretation directly related to the intervention(s) performed, closure of the arteriotomy when performed through the access sheath, and imaging performed to document completion of the intervention in addition to the intervention(s) performed. Code 0914T is an add-on code and includes only the coronary angiography and intracoronary imaging (eg, intracoronary ultrasound, intracoronary optical coherence tomography) to guide the additional intervention, traversing the additional lesion, and radiological supervision and interpretation directly related to the intervention(s) performed on the additional lesion. Codes 0913T, 0914T include mechanical dilation by nondrug-delivery balloon angioplasty followed by therapeutic drug delivery by drug-delivery balloon. Code 0913T may not be reported with 92920, 92924, 92928, 92933, 92937, 92941, 92943, 92973, 92978 for percutaneous coronary interventions (PCI) on the same target lesion in the same major coronary artery or graft as the drug-delivery balloon intervention. For drug delivery by intracoronary drug-delivery balloon (eg, drug-coated, drug-eluting) performed on a separate target lesion in the same major coronary artery or graft, 0914T may be reported for the separate target lesion in conjunction with 92920, 92924, 92928, 92933, 92937, 92941, 92943 for the first target lesion. For PCI in other major coronary arteries, see the appropriate PCI codes (92920, 92924, 92928, 92933, 92937, 92941, 92943, 0913T).

Diagnostic coronary angiography codes (93454, 93455, 93456, 93457, 93458, 93459, 93460, 93461) and injection procedure codes (93563, 93564) should not be used with percutaneous coronary revascularization services by intracoronary antiproliferative drug-delivery balloon services (0913T, 0914T) to report:

1. Contrast injections, angiography, roadmapping, and/or fluoroscopic guidance for the coronary intervention,
2. Vessel measurement for the coronary intervention, or
3. Postcoronary intervention angiography, as this work is captured in the percutaneous coronary revascularization services by intracoronary antiproliferative drug-delivery balloon codes (0913T, 0914T).

Diagnostic angiography performed at the time of a coronary interventional procedure may be separately reportable, if:

1. No prior catheter-based coronary angiography study is available, and a full-diagnostic study is performed, and a decision to intervene is based on the diagnostic angiography, or
2. A prior study is available, but as documented in the medical record:
   a. The patient's condition with respect to the clinical indication has changed since the prior study, or
   b. The prior study provides inadequate visualization of the anatomy and/or pathology, or
   c. There is a clinical change during the procedure that requires new evaluation outside the target area of intervention.

Diagnostic coronary angiography performed at a separate session from an interventional procedure is separately reportable.

0913T Percutaneous transcatheter therapeutic drug delivery by intracoronary drug-delivery balloon (eg, drug-coated, drug-eluting), including mechanical dilation by nondrug-delivery balloon angioplasty, endoluminal imaging using intravascular ultrasound (IVUS) or optical coherence tomography (OCT) when performed, imaging supervision, interpretation, and report, single major coronary artery or branch

Cardiac Contractility Modulation-Defibrillation

A cardiac contractility modulation-defibrillation (CCM-D) system combines cardiac contractility modulation (CCM) for symptom relief from chronic heart failure with defibrillation protection against sudden cardiac arrhythmia into a single therapy. A CCM-D system consists of a pulse generator and two transvenous electrodes (leads): one defibrillation lead and one pacemaker lead. An implantable CCM-D system's electrodes (leads) are placed transvenously under fluoroscopic guidance. One right ventricular pacing lead is placed on the high septum and a second defibrillation lead is placed in the mid-septum. The pulse generator is implanted in a subcutaneous pocket in the pectoral region.

A CCM-D differs from a CCM system (0408T-0418T). A CCM system consists of a pulse generator and two ventricular pacemaker electrodes (leads) and does not include a defibrillator component. Do not report CCM-D services in conjunction with 0408T-0418T. All services associated with CCM-D implantation, revision, extraction, and follow-up should be reported utilizing Category III codes 0915T-0931T. Do not report CCM-D services with existing Category I codes for pacemaker and defibrillator services (33206-33275).

All catheterization and imaging guidance required to complete a CCM-D procedure are included in the work of each code. Contractility evaluation and programming of sensing and therapeutic parameters (0926T, 0927T) are performed each time a pulse generator or lead is implanted or replaced and cannot be reported separately.

For the implantation of a CCM-D system (generator plus dual leads), report 0915T. If only a pulse generator is implanted without insertion of transvenous electrodes, report 0916T for the implantation or 0923T for the removal and replacement. When CCM-D leads are placed without insertion of a pulse generator, report 0917T for a single-lead insertion or 0918T when both leads are inserted.

In certain circumstances, relocation of the skin pocket is required and is reported using 0925T. Skin pocket relocation includes all services associated with the initial pocket (eg, opening the pocket, incision and drainage of hematoma or abscess if performed, and any closure performed), in addition to the creation of a new pocket for the new generator to be placed.

0915T Insertion of permanent cardiac contractility modulation-defibrillation system component(s), including fluoroscopic guidance, and evaluation and programming of sensing and therapeutic parameters; pulse generator and dual transvenous electrodes/leads (pacing and defibrillation)

Code 0944T describes three-dimensional (3D) contour simulation of liver lesion(s) performed by a physician or other qualified health care professional to create model probe pathways and locations, as well as to perform simulated volumetric calculations of the ablation cavity, overlaying of proposed ablation volumes on computed tomography (CT) imaging of the liver, and post-ablation volume comparisons requiring pre- and post-procedure CT imaging and guidance. A 3D contour simulation is separate and distinct from intraoperative imaging guidance and other pre-procedure imaging that are typically performed prior to image-guided liver microwave ablation procedures. Code 0944T is reported once per microwave ablation session, regardless of the number of distinct tumors ablated.

►(Do not report 0981T in conjunction with 36010, 36013, 37252, 37253, 75825, 76000, 93451, 93453, 93456, 93460, 93461, 93566, 93593, 93594, 93596, 93597)◄

►(For implantation of wireless pulmonary artery sensor, use 33289)◄

►(For remote monitoring of an implantable inferior vena cava sensor, use 0982T)◄

● **0982T** Remote monitoring of implantable inferior vena cava sensor, physiologic parameter(s) (eg, weight, blood pressure, pulse oximetry, respiratory flow rate), initial set-up and patient education on use of equipment
Sunset January 2031
CPT Changes: An Insider's View 2026

►(Do not report 0982T more than once per episode of care)◄

►(Do not report 0982T for monitoring of less than 16 days)◄

● **0983T** Remote monitoring of an implanted inferior vena cava sensor for up to 30 days, including at least weekly downloads of inferior vena cava area recordings, interpretation(s), trend analysis, and report(s) by a physician or other qualified health care professional
Sunset January 2031
CPT Changes: An Insider's View 2026

►(Report 0983T only once per 30 days)◄

+● **0984T** Intravascular imaging of extracranial cerebral vessels using optical coherence tomography (OCT) during diagnostic evaluation and/or therapeutic intervention, including all associated radiological supervision, interpretation, and report; initial vessel (List separately in addition to code for primary procedure)
Sunset January 2031
CPT Changes: An Insider's View 2026

►(Use 0984T in conjunction with 36221, 36222, 36225, 36226, 37215, 37216)◄

►(Report 0984T once per session)◄

+● **0985T** each additional vessel (List separately in addition to code for primary procedure)
Sunset January 2031
CPT Changes: An Insider's View 2026

►(Use 0985T in conjunction with 0984T)◄

+● **0986T** Intravascular imaging of intracranial cerebral vessels using optical coherence tomography (OCT) during diagnostic evaluation and/or therapeutic intervention, including all associated radiological supervision, interpretation, and report; initial vessel (List separately in addition to code for primary procedure)
Sunset January 2031
CPT Changes: An Insider's View 2026

►(Use 0986T in conjunction with 36223, 36224, 36225, 36226, 61624, 61630, 61635, 61640, 61645, 61650)◄

►(Report 0986T once per session)◄

+● **0987T** each additional vessel (List separately in addition to code for primary procedure)
Sunset January 2031
CPT Changes: An Insider's View 2026

►(Use 0987T in conjunction with 0986T)◄

0988T Code is out of numerical sequence. See 0816T-0819T

0989T Code is out of numerical sequence. See 0818T-0821T

● **0990T** Transcervical instillation of biodegradable hydrogel materials, intrauterine
Sunset January 2031
CPT Changes: An Insider's View 2026
►(For removal of implantable contraceptive capsules with subsequent insertion of nonbiodegradable drug-delivery implant, see 11976, 11981)◄
►(For insertion of nonbiodegradable drug-delivery implant for contraception, use 11981)◄

● **0991T** Cystourethroscopy, with low-energy lithotripsy and acoustically actuated microspheres, including imaging
Sunset January 2031
CPT Changes: An Insider's View 2026
►(Do not report 0991T in conjunction with 50590, 52000, 52005)◄
►(Do not report 0991T in conjunction with 52320, 52325, 52330, when performed on the same side)◄
►(For cystourethroscopy with removal, manipulation, or fragmentation of ureteral calculus, without low-pressure ultrasound and acoustically actuated microspheres, see 52320, 52325, 52330)◄
►(For cystourethroscopy with ureteroscopy and/or pyeloscopy, with removal, manipulation, or lithotripsy of ureteral calculus, without low-pressure ultrasound and acoustically actuated microspheres, see 52352, 52353, 52356)◄

● **0992T** Noninvasive assessment of cardiac risk derived from augmentative software analysis of perivascular fat without concurrent computed tomography (CT) scan of the heart, including patient-specific clinical factors, with interpretation and report by a physician or other qualified health care professional
Sunset January 2031
CPT Changes: An Insider's View 2026
►(Use 0992T only once per CT scan of the heart)◄

+● **0993T** Noninvasive assessment of cardiac risk derived from augmentative software analysis of perivascular fat with concurrent computed tomography scan of the heart, including patient-specific clinical factors, with interpretation and report by a physician or other qualified health care professional (List separately in addition to code for primary procedure)
Sunset January 2031
CPT Changes: An Insider's View 2026
►(Use 0993T in conjunction with 75572, 75573, 75574)◄

● **0994T** Endovascular delivery of aortic wall stabilization drug therapy through a sheath positioned within an abdominal aortic aneurysm, with aortic roadmapping, balloon occlusion, imaging guidance, and radiological supervision and interpretation; percutaneous
Sunset January 2031
CPT Changes: An Insider's View 2026
►(Do not report 0994T in conjunction with 34713)◄

● **0995T** open
Sunset January 2031
CPT Changes: An Insider's View 2026
►(Do not report 0995T in conjunction with 34812)◄

● **0996T** Insertion and scleral fixation of a capsular bag prosthesis containing an intraocular lens prosthesis, with vitrectomy, including removal of crystalline lens or dislocated intraocular lens prosthesis, when performed
Sunset January 2031
CPT Changes: An Insider's View 2026
►(Do not report 0996T in conjunction with 66682, 66850, 66982, 66984, 66985, 66986, 67005, 67010, 67015, 67036, 67039, 67040, 67041, 67042, 67043)◄

● **0997T** Precuneus magnetic stimulation; treatment planning using magnetic resonance imaging-guided neuronavigation to determine optimal location, dose, and intensity for magnetic stimulation therapy, derived from evoked potentials from single pulses of electromagnetic energy recorded by 64-channel electroencephalogram, including automated data processing, transmission, analysis, generation of treatment parameters with review, interpretation, and report
Sunset January 2031
CPT Changes: An Insider's View 2026

►(For MRI unrelated to this procedure performed on the same day, 0997T may be separately reported)◄

►(Do not report 0997T in conjunction with 90867, 95812, 95813, 95816, for the same session)◄

►(For transcranial magnetic stimulation, see 90867, 90868, 90869)◄

►(For theta-burst stimulation, see 0889T, 0890T, 0891T, 0892T)◄

● **0998T** personalized treatment delivery of magnetic stimulation therapy to a prespecified target area derived from analysis of evoked potentials within the precuneus, utilizing magnetic resonance imaging-based neuronavigation, with management, per day

Sunset January 2031

CPT Changes: An Insider's View 2026

►(Do not report 0998T in conjunction with 90868, 90869, for the same day)◄

►(For theta-burst stimulation, see 0889T, 0890T, 0891T, 0892T)◄

● **0999T** Autologous muscle cell therapy, harvesting of muscle progenitor cells, including ultrasound guidance, when performed

Sunset January 2031

CPT Changes: An Insider's View 2026

►(Do not report 0999T in conjunction with 76942, 76998)◄

● **1000T** Autologous muscle cell therapy, administration of muscle progenitor cells into the urethral sphincter, including cystoscopy and post-void residual ultrasound, when performed

Sunset January 2031

CPT Changes: An Insider's View 2026

►(Do not report 1000T in conjunction with 51702, 51798, 52000, 76942, 76998)◄

● **1001T** Autologous muscle cell therapy, injection of muscle progenitor cells into the external anal sphincter, including ultrasound guidance, when performed

Sunset January 2031

CPT Changes: An Insider's View 2026

►(Do not report 1001T in conjunction with 76942, 76998)◄

● **1002T** Air displacement plethysmography, whole-body composition assessment, with interpretation and report

Sunset January 2031

CPT Changes: An Insider's View 2026

►(For bioelectrical impedance analysis, whole-body composition assessment, use 0358T)◄

►(For quantitative ultrasound tissue characterization [non-elastographic] for whole-body composition, use 0689T)◄

● **1003T** Arthroplasty, first carpometacarpal joint, with distal trapezial and proximal first metacarpal prosthetic replacement (eg, first carpometacarpal total joint)

Sunset January 2031

CPT Changes: An Insider's View 2026

►(For prosthetic replacement of the trapezium, use 25445)◄

▶Implantable Sub-Scalp Continuous Bilateral Electroencephalography Monitoring System◀

▶An implantable sub-scalp continuous bilateral electroencephalography (EEG) monitoring system is intended for ambulatory use and functions by capturing EEG data with an electrode that is attached to an implantable telemetry unit (ITU). An external, wearable device powers the ITU and provides wireless connectivity to receive continuous EEG data from the ITU and transmit it to the mobile handset. EEG data can be downloaded from the server for interpretation and reporting by a physician or other qualified health care professional (QHP).

For implantation of a sub-scalp continuous EEG monitoring system, including electrode array, receiver, and telemetry unit, use 0956T. For repositioning of the electrode or telemetry unit, use 0957T. For removal or replacement of the magnet from the coil assembly, use 0959T. For removal of the full sub-scalp continuous EEG monitoring system, use 0958T.

Code 1004T only includes the electronic analysis of the implanted sub-scalp continuous bilateral EEG monitoring system. Codes 1005T, 1006T include both electronic analysis and programming of the sub-scalp continuous EEG monitoring system by a physician or other QHP, when performed. Programming includes adjusting the selection of contacts, gain, and bandpass filters.

Code 1007T describes unattended monitoring, including interpretation and report of the EEG recordings. Monitoring may be reported only once for each 30-day period and must be documented in the report. Code 1008T describes the education, fitting, and setup of an ambulatory, external transmitting device to receive data from the implanted sub-scalp continuous EEG system. Code 1009T describes the remote acquisition, interpretation, and report of up to 30 days of recorded data from a continuous EEG monitoring system.◀

● **1004T** Electronic analysis of implanted sub-scalp continuous bilateral electroencephalography monitoring system (eg, contact group[s], gain, bandpass filters) by physician or other qualified health care professional; without programming

Sunset January 2031

➔ *CPT Changes: An Insider's View* 2026

● **1005T** with programming, first 15 minutes face-to-face time with physician or other qualified health care professional

Sunset January 2031

➔ *CPT Changes: An Insider's View* 2026

+● **1006T** with programming, each additional 15 minutes face-to-face time with physician or other qualified health care professional (List separately in addition to code for primary procedure)

Sunset January 2031

➔ *CPT Changes: An Insider's View* 2026

▶(Use 1006T in conjunction with 1005T)◀

● **1007T** Electroencephalogram from implanted sub-scalp continuous bilateral electroencephalography monitoring system, physician or other qualified health care professional review of recorded events, analysis of spike and seizure detection, interpretation, and report, up to 30 days of recording without video

Sunset January 2031

➔ *CPT Changes: An Insider's View* 2026

▶(Report 1007T once every 30 days)◀

▶(Do not report 1007T in conjunction with 95836, 95957, 1009T)◀

● **1008T** Remote monitoring of sub-scalp implanted continuous bilateral electroencephalography monitoring system, device fitting, initial set-up, and patient education in wearing of system and use of equipment

Sunset January 2031

➔ *CPT Changes: An Insider's View* 2026

▶(Do not report 1008T in conjunction with 98975)◀

● **1009T** Remote monitoring of a sub-scalp implanted continuous bilateral electroencephalography monitoring system, physician or other qualified health care professional review of recorded events, analysis of spike and seizure detection, interpretation, and report, up to 30 days of recording without video

Sunset January 2031

➔ *CPT Changes: An Insider's View* 2026

▶(Do not report 1009T in conjunction with 95836, 95957, 99454, 1007T)◀

● **1010T** Computerized ophthalmic analysis of monocular eye movements using retinal-based eye-tracking without spatial calibration, including fixation, microsaccades, drift, and horizontal saccades, when performed, unilateral or bilateral, with interpretation and report

Sunset January 2031

CPT Changes: An Insider's View 2026

►(Report 1010T once per session)◄

►(Do not report 1010T in conjunction with 0615T)◄

►(For automated analysis of binocular eye movements, using pupil-based eye-tracking, use 0615T)◄

● **1011T** Photobiomodulation (PBM) therapy of oral cavity, including placement of an oral device, monitoring of patient tolerance to treatment, and removal of the oral device

Sunset January 2031

CPT Changes: An Insider's View 2026

►(Use 1011T in conjunction with 77402, 77407, 77412, 77423, 77436, 77437, 77438, 77439, 77520, 77522, 77523, 77525, when radiation therapy is also performed)◄

►(Do not report 1011T more than once per radiation therapy session)◄

● **1012T** Motorized ab interno trephination of sclera (sclerostomy), or trabecular meshwork (trabeculostomy), 1 or more, including injection of antifibrotic agents, when performed

Sunset January 2031

CPT Changes: An Insider's View 2026

►(Do not report 1012T in conjunction with 65800, 65815, 66020, 66030, 92020)◄

►(For trabeculotomy ab externo, use 65850)◄

►(For trabeculectomy ab externo in absence of previous surgery, use 66170)◄

►(For trabeculectomy ab externo with scarring from previous ocular surgery or trauma, including injection of antifibrotic agents, use 66172)◄

►(For trabeculostomy ab interno by laser, use 0621T)◄

● **1013T** Laparoscopy, surgical, implantation or replacement of lower esophageal sphincter neurostimulator electrode array and neurostimulator pulse generator or receiver, requiring pocket creation and connection between electrode array and pulse generator or receiver, including cruroplasty and/or electronic analysis, when performed

Sunset January 2031

CPT Changes: An Insider's View 2026

►(Do not report 1013T in conjunction with 64590, 1016T)◄

►(For laparoscopic implantation or replacement of gastric neurostimulator electrodes, use 43647)◄

►(For laparoscopic implantation, revision, or removal of gastric neurostimulator electrodes, lesser curvature [morbid obesity], use 43659)◄

►(For revision or removal of gastric neurostimulator pulse generator, use 64595)◄

►(For open implantation or replacement of lower esophageal sphincter neurostimulator electrode array and neurostimulator pulse generator or receiver, requiring pocket creation and connection between electrode array and pulse generator or receiver, including cruroplasty and/or electronic analysis, when performed, use 64999)◄

►(For electronic analysis and programming of gastric neurostimulator pulse generator, see 95980, 95981, 95982)◄

● **1014T** Laparoscopic revision or removal, lower esophageal sphincter neurostimulator electrodes

Sunset January 2031

CPT Changes: An Insider's View 2026

● **1015T** Revision or removal, lower esophageal sphincter neurostimulator pulse generator or receiver

Sunset January 2031

CPT Changes: An Insider's View 2026

►(Do not report 1015T in conjunction with 64595)◄

►(For laparoscopic revision or removal of gastric neurostimulator electrodes, antrum, use 43648)◄

● **1016T** Electronic analysis of implanted neurostimulator pulse generator system (eg, rate, pulse amplitude and duration, configuration of waveform, battery status, electrode selectability, output modulation, cycling, impedance and patient measurements), lower esophageal sphincter neurostimulator pulse generator/transmitter; intraoperative, with programming

Sunset January 2031

CPT Changes: An Insider's View 2026

►(Do not report 1016T in conjunction with 1013T)◄

● **1017T** subsequent, without reprogramming

● **1018T** subsequent, with reprogramming

Sunset January 2031

CPT Changes: An Insider's View 2026

● **1019T** Lymphovenous bypass, including robotic assistance, when performed, per extremity

Sunset January 2031

CPT Changes: An Insider's View 2026

►(Do not report 1019T in conjunction with 38308, 38790, 38900, 69990)◄

● **1020T** Raman spectroscopy of 1 or more skin lesions, with probability score for malignant risk derived by algorithmic analysis of data from each lesion

Sunset January 2031

CPT Changes: An Insider's View 2026

►Active thoracic irrigation describes physician–directed and performed cycled irrigation using sterile solutions and suction drainage of the pleural space via a chest tube or catheter to evacuate a pleural collection, tailored to the patient and the pleural collection. Active thoracic irrigation is a service that is separate and distinct from inserting a chest tube or instilling agents for pleurodesis or fibrinolysis.◄

● **1021T** Active thoracic irrigation (separate procedure)

Sunset January 2031

CPT Changes: An Insider's View 2026

►(Report 1021T once per session)◄

►(Do not report 1021T for assessment of catheter function and/or simple flushing of the catheter)◄

►(For chest tube insertion, see 32550, 32551, 32556, 32557)◄

►(For instillation of agent for pleurodesis, use 32560)◄

►(For instillation of agent for fibrinolysis, see 32561, 32562)◄

+● **1022T** Percutaneous tissue displacement, any method, including imaging guidance; intra-abdominal/pelvic structures (List separately in addition to code for primary procedure)

Sunset January 2031

CPT Changes: An Insider's View 2026

►(Use 1022T in conjunction with 20982, 20983, 47000, 47382, 47383, 48102, 49180, 49405, 49411, 50200, 50592, 50593, 64625)◄

+● **1023T** intrathoracic structures (List separately in addition to code for primary procedure)

Sunset January 2031

CPT Changes: An Insider's View 2026

►(Use 1023T in conjunction with 20982, 20983, 32400, 32408, 32553, 32554, 32555, 32556, 32557, 32994, 32998, 49405)◄

+● **1024T** soft tissue (List separately in addition to code for primary procedure)
Sunset January 2031
CPT Changes: An Insider's View 2026

►(Use 1024T in conjunction with 10030, 10035, 10036, 19081, 19082, 19083, 19084, 19085, 19086, 19105, 19281, 19282, 19283, 19284, 19285, 19286, 19287, 19288, 60100, 60660, 60661, 0581T, 0673T)◄

►(Do not report 1022T, 1023T, 1024T in conjunction with 76940, 76942, 77001, 77012, 77013, 77021, 77022)◄

►Diagnostic imaging for computed tomography and magnetic resonance imaging simulation imported into the therapy treatment-planning system may be reported in addition to the alternating electric fields dosimetry.◄

● **1025T** Alternating electric fields dosimetry and delivery-simulation modeling, creation and selection of patient-specific array layouts, and placement verification
Sunset January 2031
CPT Changes: An Insider's View 2026

►(Do not report 1025T in conjunction with 77280, 77285, 77290, 77300)◄

Modifiers

This list includes all of the modifiers applicable to CPT 2026 codes.

A modifier provides the means to report or indicate that a service or procedure that has been performed has been altered by some specific circumstance but not changed in its definition or code. Modifiers also enable health care professionals to effectively respond to payment policy requirements established by other entities.
